Mr. Richardson and Parks, Recreation & Cultural Arts Director Roderick Simmons responded to various questions/comments from Council, some being, but are not limited to: where the City matching funds coming from for both of the projects; Friends of the Nature Center would like their project moved up from 2016; and are there places for people to access the Overlook greenway.

When Councilman Hunt felt we should be connecting downtown to the river as a priority, Mr. Simmons said that we already have the money budgeted for the design of the Beaucatcher project.

In response to Mayor Bellamy, City Manager Jackson said that staff can produce the Capital Improvement Plan and go through the list of of projects that might qualify but McCormick Field is not a project that rises to meet that criteria. Staff did not provide the list of projects that would not meet the criteria for the Product Development Funds. Mr. Richardson noted that the TDA wants to see an immediate connection of the investment and will this increase room nights. Some of the necessary improvements of the McCormick Field CIP, bleacher replacement as an

example, staff didn't feel that an improved level of seating would increase room nights. There is an exhaustive internal process to try to identify the projects that will be most competitive.

Ms. Judy Strong urged Council to apply for funds for McCormick Field because it is shovel ready and you have money funded to pay for the project. She suggested the City apply for the McCormick Field and ask for perhaps a match of half what is needed and if they approve it, the City will have at least half of their matching funds for something else.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 12-261. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 148**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler expressed concern for the natural gas industry.

In response to Councilman Hunt, Councilman Smith, liaison of the Transit Commission, said that they looked at going from B-5 to another blend but after much study it was ultimately decided not to pursue that.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 10:07 p.m.

CITY CLERK MAYOR

Tuesday – January 8, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Councilman Marc W. Hunt (planned vacation)

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**Connecticut School Shooting**

Mayor Bellamy said that after the horrific elementary school shooting in Connecticut a lot of information has gone out to the parents in the City and County Schools. She has met with the County Commissioners, Sheriff, Police, Fire, Emergency Medical Services, Superintendents of the Asheville City and Buncombe County Schools, A-B Technical Community College, etc. about how to respond in our community. Sheriff Van Duncan is leading the effort to look at all our plans in place and to ensure they are the best plans. We will look to those that are in the emergency management field to help lead us. Behind the scenes, our public safety personnel are constantly meeting with our school systems to make sure they have updated plans regarding emergency management. The recent meeting wasn't the first time that our public safety personnel have met to talk about these issues. She pointed out that finding solutions to on-going problems will have to include mental illness, not just about gun safety. As we talk about these issues, she hoped we will look at them in a holistic manner. The Sheriff did ask for 30-60 days before he issued a report and the Police Chief will report back to Council if there are any budget implications.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 11, 2012**

**B. SECOND READING OF ORDINANCE NO. 4149 - ORDINANCE GRANTING A FRANCHISE AGREEMENT FOR THE OPERATION OF A PUBCYCLE SERVICE WITHIN THE CITY OF ASHEVILLE**

**ORDINANCE BOOK NO. 28 – PAGE 72**

**C. RESOLUTION NO. 13-1 - RESOLUTION SUPPORTING STAFF TO DESIGNATE CERTAIN ON-STREET AND OFF-STREET PARKING SPACES FOR CAR SHARING PURPOSES**

Summary: The consideration of a resolution supporting the City's Traffic Engineer to designate certain on-street parking spaces for car sharing purposes on an as-needed basis and for the City's Traffic Engineer to designate certain off-street parking spaces (surface parking lots and parking garages) for use by specific car share companies on an as-needed basis.

City Council's current strategic operating plan includes an objective to "study alternative options for parking, to include the creation of a downtown trolley". The Downtown Master Plan (DMP) also mentions this objective as well as an action step to dedicate some public parking spaces for use by shared-car services in order to expand mobility choices and reduce the need for downtown residents to own cars.

The DMP Transportation Sub-committee explored both ideas and concluded that a primary obstacle for a downtown trolley is money including capital and operating funds. They also felt that there would be direct competition for the funds with the current transit system. The sub-committee favors the concept of car sharing and the U-Haul Company has approached the City with a program that only requires the City to provide on-street parking spaces and the enforcement of the spaces (The City would also fabricate, install, and maintain the appropriate sign needed to identify the parking space). Staff shared the potential program with the Downtown Commission and received their support during February 2012.

The City's Legal Department then performed extensive research and concluded that the City is authorized to reserve on-street parking spaces for car sharing purposes generally but not to specific car share companies. Although staff (traffic engineer) has the authority to designate and/or restrict on-street parking spaces (according to the code of ordinances), the Legal Department recommends City Council approval as well because the potential parking spaces are located in the public right-of-way and there could be a revenue loss. They also concluded that the City is authorized to reserve off-street parking spaces (surface parking lots and parking garages) to specific car share companies. City Council approval is recommended for the off-street parking spaces since there could be a loss of revenue.

This action complies with the City Council Strategic Operating Plan in the Multimodal Transportation Area by providing an alternative option for downtown parking and in the Job Growth and Community Development Area by supporting diversified job growth and business development.

This item has been reviewed by the Council's Public Safety Committee and it received the Committee's endorsement on November 26, 2012.

Pros:

- Would compliment the City's overall transportation system.
- Serve public purposes such as providing an alternate means of transportation, reducing traffic congestion, and lessening the environmental impacts of commuting.
- Would enable downtown residents to choose not to own a vehicle.

Con:

- Loss of revenue generating on-street parking space(s).

The fiscal impact for a car sharing program within the public right-of-way would be the value of a metered on-street parking space and the cost to fabricate and install an appropriate sign to identify the parking space. Based on revenues collected during FY 2011-12, staff estimates that the amount of lost revenue annually from this program would be less than $1,900. The estimated cost to fabricate and install an appropriate sign is about $50.

Staff recommends that City Council approve a resolution supporting the City's Traffic Engineer to designate certain on-street parking spaces for car sharing purposes on an as-needed basis and for the City's Traffic Engineer to designate certain off-street parking spaces (surface parking lots and parking garages) for use by specific car share companies on an as-needed basis.

**RESOLUTION BOOK NO. 35 - PAGE 149**

**D. RESOLUTION NO. 13-2 - RESOLUTION AUTHORIZING THE MAYOR TO APPLY FOR AND, IF AWARDED, ENTER INTO A GRANT AGREEMENT WITH THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES FOR CONSTRUCTION OF THE BEAUCATCHER GREENWAY**

Summary: The consideration of a resolution authorizing the Mayor to apply for and, if awarded, enter into a grant agreement with the N.C. Dept. of Environment and Natural Resources for construction of the Beaucatcher Greenway.

Funds are available through the N.C. Dept. of Environment and Natural Resources, Division of Parks and Recreation in the Recreation Trails Program (RTP) to assist with the development of parks, recreational facilities, and greenways. The City wishes to submit a grant application not to exceed $200,000. If awarded, grant funds will be used to reimburse the City for future expenses related to construction at the Beaucatcher Greenway.

The grant application requires a cash, in-kind, or force labor match of 25 percent of the requested funds ($50,000). The cash match is available through funds currently budgeted in existing capital projects.

In 2008, the City received a grant from the North Carolina Parks and Recreation Trust Fund to assist with the land acquisition for Beaucatcher Greenway. City Council approved the City Manager to enter into a contract to develop architectural and engineering construction documents for Beaucatcher Greenway on November 27, 2012.

Construction for the greenway will begin at Memorial Stadium, travel north along the west slope of Beaucatcher Mountain to College Street for a total of 1.25 miles. The RTP grant application will support construction elements that include erosion control, grading, stone basing, and asphalt paving.

The Recreation Advisory Board endorsed Beaucatcher Greenway as a priority greenway linking downtown Asheville to the French Broad River at its meeting on April 9, 2012.

This action complies with the City Council 2012-2013 Strategic Operating Plan in the areas of Fiscal Responsibility in that it provides alternatives for enhancing the City's long-term financial commitment to Master Plan implementation, infrastructure maintenance, capital improvements, and public facilities. This action also complies with the Parks, Recreation, Greenways, and Cultural Arts Master Plan in that it 1) increases the urban network of parks and greenways in the downtown Asheville area; and 2) increases funding with alternative funding via grants and ensuring a high level of service in parks and facilities by addressing capital projects to meet community standards. In addition, this action complies with the River-To-Ridge Initiative in that Beaucatcher Greenway is a priority greenway corridor that will link downtown Asheville to the French Broad River via continuous multi-access parkway connecting bike lanes, sidewalks and greenways.

Pro:

- If awarded, the grant will reimburse the City for future construction expenditures up to $200,000.

Con:

- The grant application process is competitive and a grant award is not guaranteed.

If awarded, the grant is for one-time construction cost for the Beaucatcher Greenway that will increase the budget not to exceed $200,000. This increase is funded by a grant from the North Carolina in the Department of Department of Environment and Natural Resources' Recreation Trails Program. The grant application requires a cash, in-kind, or force labor match of 25 percent of the amount requested ($50,000), which is already available through a combination

of funds currently budgeted in existing capital projects. Thus, there is no impact to the City's General Fund budget.

City staff recommends City Council to adopt a resolution authorizing the Mayor to apply for and enter into an agreement for grant funds through the North Carolina in the Department of Department of Environment and Natural Resources Recreation Trails Program not to exceed $200,000 for reimbursement of future construction costs for the Beaucatcher Greenway.

**RESOLUTION BOOK NO. 35 - PAGE 150**

**E. RESOLUTION NO. 13-3 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SITEWORK STUDIOS TO DEVELOP ARCHITECTURAL AND ENGINEERING CONSTRUCTION DOCUMENTS FOR THE CLINGMAN FOREST AND TOWN BRANCH GREENWAYS**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Sitework Studios to develop architectural and engineering construction documents for the Clingman Forest and Town Branch Greenways, and to conduct other necessary pre-development activities for a project budget not to exceed $370,000.

The Clingman Forest Greenway and Town Branch Greenway constitute a priority alternative transportation corridor through the core of the East of the Riverway Target Area. These multi-modal greenways will eventually connect with the Beaucatcher Greenway and comprise a significant and important portion of the River-To-Ridge Initiative.

*Clingman Forest Greenway* – The Clingman Forest Greenway will stretch between Aston Park at Hilliard Avenue and Clingman Avenue. The off-road, 0.5-mile trail will largely follow the unopened city right-of-way of Eugene Avenue through a wooded ravine. Secondary trails to rock outcrops along the perennial stream will be considered as well as connections to Asheville Middle School, YWCA, Aston Towers, and other destinations.

*Town Branch Greenway* – The Town Branch Greenway will extend from Depot Street, in the River Arts District, to the intersection of Phifer and McDowell Street. The 1.3-mile corridor will begin adjacent to Green's Market on Depot Street and extend off-road along the rear of the Dr. Wesley Grant, Sr. Southside Center and fire station and out to South French Broad Avenue. The off-road trail will pick up across the street and extend through the wooded ravine along Town Branch Creek to Congress Street. The greenway will cross Congress Street, follow the creek through City park property, cross over Choctaw Street and extend north through city property along Old Asheland Avenue. The corridor will terminate at the intersection of Phifer and McDowell Street.

The development of final design and construction documents for the Clingman Forest and Town Branch Greenways is one of the deliverables of the East of the Riverway Sustainable Multi-Modal Neighborhood Program, supported by a TIGER II Planning Grant awarded to the City of Asheville by the US Department of Transportation. The TIGER II funds allocated to the two Greenways totals $280,000, supported by a City cash and in-kind match of $56,000 (20% of grant funds).

City Council appropriated funds for staff to proceed with a land acquisition within these corridors by allocating funds in the CIP budgets of 2010-11 and 2011-12.

In February 2009, City Council approved the Parks, Recreation Cultural Arts, and Greenways Master Plan which identifies Clingman Forest and Town Branch Greenways s as priority greenways.

Staff followed the municipal and required Federal Transportation Administration "Request for Qualifications" procurement processes to seek qualified, professional firms to develop final design and construction documents. Staff received eight applications, and a panel of staff and community members reduced this pool to three finalists. After thorough review and evaluation, the review panel recommended Sitework Studios, located at 352 Depot Street, Asheville, North Carolina as the most qualified to perform the architectural and engineering services for the Clingman Forest and Town Branch Greenways. Staff has successfully negotiated a final scope of work and project budget with Sitework Studios.

This action complies with the City Council Strategic Operating Plan Multimodal Transportation Goal to integrate and implement a multi-modal transportation plan including sidewalks, bike paths, signal preemption, transit, greenways, streets, rivers and access to the river, and other system improvements resulting in funding priority list. This action also complies with the Parks, Recreation, Cultural Arts and Greenway Master Plan in that it increases the urban network of parks and greenways in the downtown Asheville area. In addition, this action complies with the River-To-Ridge Initiative in that Clingman Forest Greenway and Town Branch Greenway are primary greenway corridors to link French Broad River and downtown Asheville via a continuous multi-access parkway connecting bike lanes, sidewalks and greenways.

Pros:

- Expand the ability to provide recreation resources to a number of residences and neighborhoods that can be linked to this corridor
- Provide a critical linkage in the River to Ridge Initiative
- Enhance multi-modal transportation in the community
- Compliment the recent improvements made by the City and private sector in these neighborhoods
- Engage community members in the design process
- Complements other multi-modal transportation planning efforts in the community

Con:

- Once complete, the project will require additional maintenance resources.

This project is funded with budgeted sources, with local funds leveraging significant federal funding. The $370,000 to support the contract is budgeted via HUD TIGER II Grant ($280,000), Stormwater Account ($29,500) and the CIP Greenway Development Account ($60,500). The City cash resources, along with City in-kind staff hours, are more than sufficient to meet the match required by the grant; such amounts have been approved by Council.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Sitework Studios to develop the architectural and engineering construction documents for the Clingman Forest and Town Branch Greenways for an amount not to exceed $370,000.

**RESOLUTION BOOK NO. 35 - PAGE 151**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

**III. PRESENTATIONS & REPORTS:**

## A. GREENWAY COMMISSION UPDATE

Mr. Jim Grode, Chairman of the Greenway Commission, briefed Council on their activities of the past year and goals for the upcoming year.

Mayor Bellamy was concerned of the Commission's goal to "pursue the means to readily add projects to the Parks & Recreation Master Plan". She said that the Master Plan is essentially unfunded and we are working on pieces of it. We already have a long list of projects that the community is waiting on. She questioned adding more projects into that plan that has already had substantial community input and no funding plan in place.

City Manager Jackson said that staff will be working with the Greenway Commission during their retreat to help distinguish between vision documents and a capital plan that has money behind it. There should be some flexibility for your advisory body to gain public input and make the vision document a live, dynamic document so that it gets refined overtime.

Mayor Bellamy asked that before public hearings are held about adding new projects that City Council is advised about what will be pursued. Mr. Grode said that what Mayor Bellamy is suggesting is exactly what the Commission had in mind. They would be looking at a vision document and not a funding-based document at this point.

Mr. Grode responded to Councilman Smith when he asked how the Greenway Commission will be involved in the multi-modal plan process.

On behalf of City Council, Mayor Bellamy thanked Mr. Grode for his leadership and the entire Commission for their dedication.

## B. ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION UPDATE

Ms. Hillary Cole, Chairman of the Asheville-Buncombe Historic Resources Commission, briefed Council on their activities of the past year and goals for the upcoming year. She requested the City write a letter to the County asking for an increase in the amount of money they provide to the HRC (in 2012 they received $4,500), since it is a joint body created in 1979.

Vice-Mayor Manheimer said that there may be a way to approach the County other than a public address about increasing their funding, since the provision regarding the funding states that "an annual budget *may* be appropriated ...". She felt there may be a way to broach that conversation with the County and have them look at the funding differently.

At the request of Councilman Smith, Ms. Cole said that she would provide Council with a copy of the Historical Structure Inventory.

Ms. Cole responded to Councilman Smith when he asked what city in the nation would the HRC see as a model going forward. She said that Charleston, S.C., has a good preservation plan in place but it is extreme. Austin, Texas, has a good plan, and Salisbury, N.C., has a really good way of looking at preservation and development.

Mayor Bellamy asked that going forward, as you look at the different models, she hoped that the Commission would be open to looking at a hybrid of the different models for preservation minded development.

On behalf of City Council, Mayor Bellamy thanked Ms. Cole for her leadership and the entire Commission for their dedication.

## C. WATER RESOURCES UPDATE

Project Manager Phil Kleisler updated City Council on the Water Resources process update from December 11, 2012 - January 8, 2013. He then provided Council with the information sharing between the City and MSD, along with resolutions from the Town of Franklin and City of Conover opposing legislation that provides for the forced taking of municipal water systems. The City of Hendersonville had the item on their agenda; however, it was pulled at the last minute.

**RESOLUTION NO. 13-4 - RESOLUTION REQUESTING INCLUSION OF ITEM FOR N.C. LEAGUE OF MUNICIPALITIES ADVOCACY AGENDA FOR 2013: RETENTION OF LOCAL CONTROL OVER PUBLIC ENTERPRISE UTILITY SYSTEMS**

City Attorney Oast said that the North Carolina League of Municipalities will be holding its legislative advocacy goals conference on January 23 and 24. This is the occasion where the League develops and approves its legislative agenda for the coming session of the N.C. General Assembly.

Asheville's experience with recent legislative actions regarding its water system has attracted the attention of the League and several North Carolina cities. The potential for Asheville's experience to establish a precedent for other cities is a matter that concerns the League and its members, and we are asking the League to consider including an item addressing this issue among its legislative advocacy goals for 2013.

As noted above, the League's legislative advocacy conference is January 23 and 24. In order to be eligible for consideration, this request must be made on or before January 14.

Councilman Bothwell heard that the reason why the City of Hendersonville withdrew their resolution was due to a threat conveyed from one of the legislators that things would not go well for Hendersonville if they voted for it. We cannot allow the legislators to take assets from people in our City or our State.

City Manager Jackson said that we are continuing with our good faith relations with the Metropolitan Sewerage District (MSD). There are opportunities to achieve additional economies thorough partnerships and sharing of functional operations, such as fleet management and purchasing operations. He will be communicating in writing to the General Manager of MSD that we are happy to explore those in greater detail with them to make sure that both utilities are operating at peek efficiency.

Mayor Bellamy said that at the event with Governor McCrory he said that he was open to receiving information about the water system, so we did supply a package of information to him. Governor McCrory said that what was important to him was the system being run effectively. She has asked the City Manager to prepare some information for the Governor specifically on that issue, noting we have an increased bond rating, a Capital Improvement Plan, a program in place that details how we will spend our money and what the money will be used for, and that the investments made have transformed our system. She also suggested a copy of that information be provided to the City's legislative liaisons so they can approach the appropriate folks.

Vice-Mayor Manheimer said that when we met with the local legislators in the recent information sharing meeting, it was easy to be an advocate for Asheville and the running of our water system because our staff has done a great job. Since the agreement under the Water Authority was terminated, our financials are transparent, our bond rating has increased, and the investment in the system has been improved. One of the hurdles that we face legislatively is the perception about the running of the water system, and that has been addressed - the system is

extremely well run and extremely efficient and managed from a financial standpoint in a very responsible way. That cannot be a motivating factor for any legislative action.

Mayor Bellamy noted that the Governor saw the protestors on Macon Avenue and he asked that any discourse stay at the level of respect.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Pelly moved for the adoption of Resolution No. 13-4. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 152**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL USE PERMIT FOR THOMS ESTATE SUBDIVISION LOCATED OFF OF FRENCH WILLOW DRIVE AND BOUNDED BY WILD CHERRY ROAD, BEAVERDAM ROAD AND ELK MOUNTAIN SCENIC HIGHWAY, TO ALLOW CHANGES TO COMMON AREA AMENITIES, SECONDARY FIRE DEPARTMENT ACCESS AND A VARIETY OF ARCHITECTURAL DESIGNS FOR SINGLE FAMILY RESIDENCES**

**ORDINANCE NO. 4150 - ORDINANCE AMENDING THE APPROVED CONDITIONAL USE PERMIT FOR THOMS ESTATE SUBDIVISION LOCATED OFF OF FRENCH WILLOW DRIVE AND BOUNDED BY WILD CHERRY ROAD, BEAVERDAM ROAD AND ELK MOUNTAIN SCENIC HIGHWAY, TO ALLOW CHANGES TO COMMON AREA AMENITIES, SECONDARY FIRE DEPARTMENT ACCESS AND A VARIETY OF ARCHITECTURAL DESIGNS FOR SINGLE FAMILY RESIDENCES**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

All Council members disclosed that they have visited the site and would consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 5:56 p.m.

Mr. Pennington submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Memo & Staff Report).

Mr. Pennington said that this is the consideration of an amendment to the approved conditional use permit for Thoms Estate Subdivision located off of French Willow Drive and bounded by Wild Cherry Road, Beaverdam Road and Elk Mountain Scenic Highway, to allow changes to common area amenities, secondary fire department access and a variety of architectural designs for single family residences.

Mr. Pennington said that applicant is requesting an amendment to the previously approved conditional use permit to modify elements of the approved master plan related to common amenities, access and architectural features.

The project site consists of a subdivision of approximately 82.72 acres located within the vicinity of Elk Mountain Scenic Highway, Tsali Trail, Beaverdam Road and Wild Cherry Road. (Aerial map - Attachment to City Exhibit 3) The site is accessed by an internal "spine" road known as French Willow Drive. Other smaller streets have been constructed within the subdivision with direct access to French Willow Drive. The majority of the subject property is zoned RS-4 and the steepest portion of the property to the north is zoned RS-2. The site is located in the City of Asheville's corporate limits with the exception of approximately one acre that is located in the extra-territorial jurisdiction (ETJ). Surrounding properties are zoned RS-2, RS-4, RS-8 and RM-6.

The Thoms Estate project was approved by City Council on April 10, 2007, as a 132 unit residential subdivision, reviewed as a conditional use permit for 4 phases. They started Phase I (City Exhibit 4 - Copy of Master Plan). The project received modifications from City Council under a previous system that allowed for development standards to be modified if the project achieved at least three (3) higher standard amenities as identified on the Exceptional Development Checklist. As part of this approval, City Council approved modifications to setbacks, lot sizes, lot widths, road right-of-way widths and sidewalk requirements. Sidewalks were constructed along Elk Mountain Scenic Highway, Tsali Trail and a portion of Wild Cherry Road. A fee-in-lieu of sidewalk construction was collected for the remaining frontage along Wild Cherry Road. Pedestrian access was proposed at multiple access points including Elk Mountain Scenic Highway, Tsali Trail and Wild Cherry Road and a greenway easement was proposed along Beaverdam Creek.

Grading and infrastructure construction started on the site in the fall of 2007 under the direction of the former owner – Global Development Resources. Lot sales were lackluster and construction of this project later coincided with the downturn in the economy in 2008. The property was foreclosed upon by BB&T Bank in 2010 and the bank moved forward with the development of the remaining subdivision infrastructure for phase I and two subsequent phases – II and IIIA. Pursuant to the original CUP approval, subsequent phases receive a final review by the Technical Review Committee. Two final phases of the project remain – IIIB and IV. Earlier this year, BB&T sold the property to the current developer – Gated Communities of Asheville, LLC.

The original approval included an ambitious list of amenities that were more typical of higher end subdivisions during the height of the real estate boom in the middle of the last decade. The current owner is proposing an onsite alternative to the secondary fire department access and to scale back some of the common area amenities. The following modifications are requested:

- The original approval required that a cross access agreement be executed between the Thoms property and the property retained by Selene Thoms (Thomsland Inc) for fire access purposes. The revised request includes a redesigned road system that provides direct, onsite access to Phase IIIB and IV. This request has been reviewed and approved by the Fire Marshal's office. **The staff supports this request.**

- The developer has agreed to follow the original condition that the gates remain open from sunset to sundown. They would like to consider an adjustment to the hours, but not at this time.

- Home plans were required to be prepared by registered, licensed architects and reflect renderings/elevations representative of the European Cottage/Manor Style including extensive use of stone, brick and exposed timbers. The revised request proposes to utilize the European Cottage/Manor Style of residential construction as well as other architectural styles common in the neighborhoods of North Asheville (Attachment to City Exhibit 3). Registered, licensed architects will still prepare these plans that will still make extensive use of stone, brick and exposed timbers. **The staff supports this request.**

- The Manor House and gardens were proposed to be restored and used as a community/fitness center and include a pool. The revised request proposes to demolish the existing Manor House and construct a small community pavilion, gardens, fire pits, walking paths, playground, soccer field, basketball court and horseshoe pits. The change is because the developer has found the home to be in very poor condition, making it fiscally prohibitive to restore for this purpose. Also, the revised concept for the use does not support the originally proposed level of amenities. **The staff supports this request.**

- A museum was to be provided in one of the historic structures on the property (Manor House or Killian House). In lieu of this requirement, a memorial garden featuring a statue of Harold Thoms and plaques highlighting his contributions to the City of Asheville will be installed. **The staff supports this request.**

- An existing barn and stone silo were to be adaptively reused/transformed into a community pavilion. The barn was previously demolished without approval by the original developer, and the silo was deemed unsafe by a consulting structural engineer and is now proposed to be demolished. The remaining stone is proposed to be reused to construct the fire pits listed above. **The staff supports this request**.

- A conservatory was required to be provided. The revised request does not include a provision for a conservatory primarily because of the reduced level of amenities being offered. **The staff supports this request.**

- Sidewalk/Bus Shelter Alternatives: A sidewalk was required to be constructed along Beaverdam Road (City Exhibit 5 - Gray copy of Beaverdam Road Sidewalk Compliance Plan). The developer has requested to construct a greenway path that would be positioned further back from Beaverdam Road in lieu of traditional sidewalk construction along Beaverdam Road. After further review, staff verified that Beaverdam Road is not a needed linkage as identified in the *City of Asheville Pedestrian Thoroughfare Plan* or as part of the original CUP approval. In lieu of the sidewalk along Beaverdam, the following options have been offered to the developer by the City Transportation Director:

    - Construct the proposed greenway path making sure that the portion of the path that parallels Beaverdam Road is constructed according to current City of Asheville standards, including a 10-foot width and an asphalt surface and extending it to Skyview Drive and Sycamore Street as proposed by the developer.

- Pay a fee-in-lieu of sidewalk construction for the remaining property frontage along Beaverdam Road from Sycamore Street to the property line (200 feet +/- at $57.30 per linear foot = $11,460).

- In addition to the sidewalk options listed above, the developer has the option to relocate the required bus shelter from its previous proposed location near the Killian House closer to the intersection of Beaverdam Road and Wild Cherry Road including the appropriate pedestrian connection (concrete sidewalk) back to French Willow Drive.

**The staff supports this request.**

- A small parking area was to be provided in the vicinity of the stone silo. A parking area is proposed in the vicinity of the community pavilion and in lieu of the parking area near the stone silo, a small looping trail is proposed. **The staff supports this request.**

This project was approved with conditions by the Technical Review Committee on November 5, 2012. No opposition has been received at the time of this writing. As an amendment to a previously approved Conditional Use Permit, review by the Planning & Zoning Commission is not required.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The proposed use and development of the land is compatible with the natural features and topography of the site. The majority of the infrastructure for the first three phases of the project has been completed and the remaining infrastructure and landscaping that has not been installed is covered by a valid letter of credit.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed residential use is compatible with the surrounding residential neighborhood and should not injure the value of nearby properties. Completing the remaining subdivision infrastructure and remaining two (2) phases of the project should benefit the neighborhood and bring closure to a project that has been under some level of construction since 2007.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**

The completion of a single-family residential subdivision is compatible with surrounding land uses that are similar in scale and density with this project. The proposed modification to architectural designs for the single-family homes will be more compatible with surrounding residences than only constructing European Cottage/Manor Style homes.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
This plan is still in general alignment with the concept plan that was originally approved by City Council and therefore still consistent with conformity to the comprehensive plan and other adopted policies. The amendment was submitted with the goal of providing more realistic common amenities to residents of the Thoms Estate. The proposals to gate the property 24 hours a day and not provide sidewalk along Beaverdam Road, however, are inconsistent with City adopted ordinances, goals and policies.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
This site is served by the #2 bus route and a bus stop is located at the intersection of Beaverdam Road and Wild Cherry Road. The placement of a bus shelter along Beaverdam Road near the Killian House has always been a requirement of this development. The modification to allow for onsite secondary fire access provides assured ingress/egress to the site for emergency vehicles. Adequate water supply, fire and police protection, waste disposal and similar facilities are verified during the TRC review process.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
There is no traffic congestion or traffic hazard anticipated as a part of this proposal.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- This amendment will allow the developer to proceed with and close out a subdivision that has been under some form of construction and grading activity since 2007.
- The proposed modifications to common amenities are more realistic than the ambitious list of amenities proposed by the original developer.

Con:

- The amendment proposes to gate the development 24 hours a day and not construct sidewalk along Beaverdam Road.

Staff recommends approval of this amendment to the previously approved Conditional Use Permit including the modifications supported by the staff and the conditions recommended by City staff.

In response to Councilman Bothwell, Mr. Pennington said that there are no changes to the open space they will be providing.

In response to Councilman Pelly, Mr. Bob Grasso, land planner for the project, explained in detail (using City Exhibit 5) the sidewalk alternative being requested, noting that the section for the fee in lieu of is steep and they would need to take down a lot of trees to try to get a sidewalk in close to Beaverdam Road. The length of the greenway from Wild Cherry to Skyview Drive is

approximately 800 feet. The loop inside the greenway is not to greenway standards, but but the standards for the development. Right now they are dedicating the right-of-way with the greenway trail.

In response to Councilman Pelly, Director of Transportation Ken Putnam said that staff is confident the sidewalk alternative is a better solution. He feels the trail will be used by more immediate people in the neighborhood.

Ms. Laurie Pandy, owner of two lots in the Thoms Estate, said she has not been made aware of anything, but still receiving homeowner bills for pool dues and club dues for pools and clubs that don't exist. Homeowners should be included in any plans for the development.

Mr. and Mrs. Eric Niwinski, property owners on Wild Cherry Road, said they do need a sidewalk on Beaverdam Road. Ms. Niwinski wanted to confirm that this development will also be a bicycle friendly. She said that this is the second failed developer and wanted to make sure that the current developer will follow standards. They questioned by the City allowed the infrastructure problems occur without any interference. Hours of construction also is a concern.

Mr. Shawn O'Connell, area resident, said his biggest concern was the need for sidewalk connectivity. He also asked that soil erosion runoff be monitored.

At 6:22 p.m., Mayor Bellamy closed the public hearing.

At Mayor Bellamy's request, Mr. Pennington replied to some of the public comments. The current developer brought the property on March 29, 2012. BB&T were the prior owners and they finished Phase I, Phase II and Phase III-A. He said there were a number of substandard construction details so BB&T had to go back and correct a lot of the mistakes done by the previous developer. We have 1 or 2 inspectors are assigned permanently for the development. We have a Letter of Credit on a couple of items remaining in Phase I, but for the most part, Phase I, Phase II and Phase III-A are to completion.

In response to Mayor Bellamy, Mr. Grasso said that when he worked for BB&T he had several meeting with property owners and area residents. The current owner has met with Ms. Pandy and he provided Council with a letter that the new owner sent to all property owners (Applicant Exhibit 1). As far as construction hours, he has talked with the contractor to make sure that they know it's important that they work within the construction hours. Every effort has been made to try to control the water run-off when infrastructure repairs were made. They will continue to work on those items throughout the project. They will do their best to be a good neighbor.

In response to Vice-Mayor Manheimer, Mr. Putnam said staff is actively trying to pursue the sidewalk connection from Kimberly to Elk Mountain Scenic Highway. The major problem has been right-of-way from the County Club Golf Course. We also recognize that in the future an important connection will be along Elk Mountain Scenic Highway to bring the sidewalk from this development all the way down. He explained that the gap on Beaverdam Road towards the property itself is not listed on the Master Plan, so for any project on that corridor they have the option of a fee in lieu of. Assuming it would be a long time before the gap would be completed, because we are concentrating on gaps that are needed linkages in the Master Plan, we felt a greenway system path that runs parallel to Beaverdam Road would still give the walkability sense. This will not be a fix for every project, but he feels it is for this particular place. The gap is now on their radar to fill.

When Councilman Smith asked about a future dog park, Director of Parks, Recreation & Cultural Affairs Roderick Simmons, said that because he has not heard of this before now, there is no staff analysis of what it would take to run a dog park or how it fits into the Master Plan. He suggested that they have the opportunity for public dialogue on the best use of that open space.

In response to Mayor Bellamy, Mr. Grasso said they will construct a small community pavilion, gardens, fire pits, walking paths, playground, soccer field, basketball court and horseshoe pits. Since the Asheville Country Club is close by, they are trying to fill the gap of the services that the County Club doesn't offer.

In response to Councilman Pelly about the hours of construction, Assistant Planning & Development Director Shannon Tuch said the construction hours in the ordinance are from 7 a.m. to 7 p.m. She noted that there is an application process to extend the hours because for some projects it doesn't make sense to stop half-way through at 7 p.m. They can apply for an extension of construction hours for a limited period of time. Beyond that, it does become a noise ordinance issue and the Police Department is responsible for regulating the noise ordinance.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4150, amending a conditional use permit for the Thoms Estate, including the modifications supported by the staff, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance and be equipped with full cut-off fixtures and directed away from adjoining properties and streets. A detailed lighting plan will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Smith and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 79**

**B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO REMOVE A BAN IN PLACE FOR OUTDOOR SPEAKERS APPLIED TO EATING AND DRINKING ESTABLISHMENTS LOCATED IN THE CENTRAL BUSINESS DISTRICT AND RIVER DISTRICT ZONED AREAS**

**ORDINANCE NO. 4151 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO REMOVE A BAN IN PLACE FOR OUTDOOR SPEAKERS APPLIED TO EATING AND DRINKING ESTABLISHMENTS LOCATED IN THE CENTRAL BUSINESS DISTRICT AND RIVER DISTRICT ZONED AREAS**

Mayor Bellamy opened the public hearing at 6:43 p.m.

Urban Planner Alan Glines said that this is the consideration of an ordinance amending the Unified Development Ordinance to remove a ban in place for outdoor speakers applied to eating and drinking establishments located in the Central Business District and River District zoned areas. This public hearing was advertised on December 28, 2012, and January 4, 2013.

For some time, there has been a prohibition on outdoor speakers for the 'eating and drinking establishments' use in seven zoning districts including the Central Business District and River District. A similar ban in the CBD (and five other zoning districts) is in place for the "Microbrewery" use that was created several years ago. These UDO bans appear to have been created out of concern for potential noise conflicts between outdoor seating areas of these food and beverage use businesses (focused CBD and River) or to avoid noise conflicts with nearby

residential areas (the situation for the other zoning districts). (Although, there is not a ban for the nightclub use, which may also have outdoor seating areas.)

Over time, however, the number of restaurants downtown and in the River district has grown tremendously, creating successful dining and entertainment districts where ambient music has come to be expected in the outdoor seating areas. The existence of the ban was brought to the Downtown Commission from a downtown restaurant operator who had received a 'notice of violation' letter from staff. Staff had received a complaint about the outdoor speakers that were in place in an outdoor dining area.

The speaker ban has been difficult to enforce since most business operators do not consider this type of feature a 'use' and therefore do not expect to have it addressed by a zoning permit. Few business owners would apply for a building permit just to install speakers since it is such a minor addition. As the number of restaurants and "drinking establishments" has expanded, the use of speakers has reportedly grown; but there have been very few complaints about noise levels (besides the one noted earlier) in either district. As a rule, the downtown and river district business owners work well with their neighbors because of their close proximity to one another. Therefore, the staff is recommending that this ban be removed from the Central Business and River zoning districts. (This change will also affect the two small CBD zoned areas along Haywood Road in West Asheville. Much of Haywood Road is zoned CBII, where there is no ban.)

No change to the restriction for "eating and drinking establishments" is recommended for the other affected districts (Office, Office Business, Office II, Institutional, and Neighborhood Business), or for the other districts where the "microbrewery use" is permitted (Office, Office II, Office-Business, Institutional, and Resort) as they have greater potential for being in or immediately adjoining residentially zoned areas and having conflict and noise concerns. The "eating and drinking establishments" section of the UDO also bans drive-through facilities for all these zoning districts and no change to that restriction is proposed.

If the outdoor speaker ban is removed noise complaints would be enforced through the noise ordinance. That ordinance was recently reviewed and strengthened by City Council, and the Asheville Police Department will continue to enforce noise complaints using the 'reasonable person' standard. Staff feels that in many cases, noise complaints are best handled by the noise ordinance and not by the UDO.

The Downtown Commission at their meeting on October 12 voted 6-0 to recommend removal of the ban in the CBD. After the DTC discussion and further review of the UDO, staff also felt that the ban for speakers in the River District would be likely to meet support since these districts are similar in their support for eating and drinking establishments. The issue was presented to the River Arts District Business Association and at their November 27 meeting they voted 9-0 to endorse the proposed amendment removing the speaker ban. He talked with a few members of the West Asheville Haywood Road Corridor Group about the speaker ban removal for the CBD and most were supportive of it.

The Planning and Zoning Commission considered the proposed amendment at their meeting on December 5. After substantial discussion, the Commission supported the amendment with a vote of 4-2. At the meeting the only non-supportive public comment was from a west Asheville resident concerned about allowing outdoor speakers in the two CBD sections along Haywood Road. He felt that the close proximity to residential neighbors could create noise complaints and negatively impact the area. In a response, the staff noted that the majority of the properties along Haywood Road are zoned Community Business Two (CBII) and that outdoor speakers are allowed in this district. Several Commission members expressed some concern that the noise ordinance will not do enough to curtail businesses making too much noise. Some members were also concerned that not enough consideration was being made for the residents living in areas like the CBD. Staff noted that there are different expectations for noise when

residents live in areas zoned for higher density mixed-uses. If City Council reviews the noise ordinance after a year, several Commission members expressed a desire that noise complaints from eating and drinking establishments with outdoor speakers be reviewed as well.

This action supports the City Council Strategic Operating Plan for job growth and economic development which seeks to remove barriers to a robust and vital economy through the removal of unnecessary regulations.

Pros:

- Supports the continued vitality of downtown Asheville and the River district.
- Removes an unnecessary restriction from the CBD and River Districts.

Con:

- There is community concern about how noise complaints will be resolved.

City staff recommends City Council adopt an ordinance to remove a ban on outdoor speakers in the Central Business and River districts by amending the UDO.

Mr. Rich Lee was concerned about the two portions of CBD on Haywood Road because that zone is about one building deep and most of the properties adjoining are renters and they may not be aware of the noise ordinance or recourse if they have complaints.

Mr. Alvis Tingle, Kenilworth resident, hoped that Council would ban outdoor speakers in bars and restaurants due to the expected problem of noise.

At 6:52 p.m., Mayor Bellamy closed the public hearing.

Councilman Davis said that in one year Council will be revisiting the noise ordinance and this portion will be reviewed as well.

Councilman Smith said that it will be up to responsible business owners to make this work.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4151. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 92**

At 7:05 p.m., Mayor Bellamy announced a 20 minute recess, at which time a closed session would be held.

**Closed Session**

At 7:05 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: City of Asheville; Roger Aly. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing payment of economic development incentives will occur in open

session. The statutory authorization is contained in G.S. 143-318.11(a)(4); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:37 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

**C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE MINOR AMENDMENTS TO GENERAL REGULATIONS RELATED TO MOBILE FOOD VENDING WITH NEW RESTRICTIONS FOR OPERATING IN BILTMORE VILLAGE AND AN AMENDMENT TO ARTICLE 5, CHAPTER 16 OF THE CODE OF ORDINANCES TO EXTEND THE HOURS OF OPERATION FOR PUSHCARTS**

**ORDINANCE NO. 4152 - ORDINANCE AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE MINOR AMENDMENTS TO GENERAL REGULATIONS RELATED TO MOBILE FOOD VENDING WITH NEW RESTRICTIONS FOR OPERATING IN BILTMORE VILLAGE AND AN AMENDMENT TO ARTICLE 5, CHAPTER 16 OF THE CODE OF ORDINANCES TO EXTEND THE HOURS OF OPERATION FOR PUSHCARTS**

Urban Planner Alan Glines said that this is the consideration of an ordinance (1) amending to Chapter 7 of the Code of Ordinances of the City of Asheville to provide minor adjustments to the mobile food vending ordinance and add limitations to vending in the Biltmore Village Historic District; and (2) amending Chapter 16 of the City Code to extend the hours of operation for sidewalk pushcarts. This public hearing was advertised on December 28, 2012, and January 4, 2013.

The mobile food vending ordinance, primarily but not exclusively related to the use of food trucks downtown, was adopted late in the summer of 2011 and has been in place for over one year. When it was adopted City Council directed staff to come back after about a year to provide comments about how the ordinance has worked.

One main site for mobile food vending has been approved and is operating in the downtown area at 51 Coxe Avenue. The parcel was leased and took several months for site improvements to be completed (street trees and power service to operate the trucks). The ordinance allows a limit of 10 trucks to operate in the downtown Central Business District. In early November the tenth and final food truck received final inspection and approval for the site; so there are no more permits available in the downtown CBD unless a current operator lets their permit expire. The food truck lot appears to be successful but the food vendors have indicated that they would like to expand this operation into the evening and weekend hours. The operators are also interested in finding other sites in downtown to create an additional lot to expand the available work shifts. Locations are difficult to secure because it usually means displacing some other income-generating use on the lot such as surface parking.

The amendment proposed below was initiated by staff after review of the ordinance in preparation for the one-year anniversary of its passage. The current ordinance and proposed amendments have been reviewed and discussed with representatives of the downtown mobile food vendors, the Downtown Commission, the Asheville Parks and Recreation Department staff, the Historic Resources Commission (see below for additional input from the HRC) and with the Planning and Economic Development Committee. The Parks and Recreation Department did not feel that any changes were needed for operating at park sites, noting that aside from special

events there is not enough consistent demand to operate a food truck at a park location. The trucks are already allowed for special events.

The proposed changes are meant to address issues that have arisen during this first year of operation related to defining the use better, operational standards, and signage.

**Summary of Changes**:

**Definition**- The amendment would change the definition of mobile food vendor to include trucks that just serve drinks for example and don't contain a *kitchen*. (For example, we have seen several coffee trucks start operating.)

**Operation standards**- Changes are proposed to keep the ordinance in accord with recent new posting requirements from the Health Department; and a change is proposed for operating hours to allow mobile food vendors flexibility to maintain their schedules using social media or other mutually agreeable methods of notification.

**Signage** - The Mobile Food Vendors have requested an additional allowance for signage on their trucks. Flexibility in truck signage allows the truck to be recognizable in spite of the variety of locations that trucks vend from (trucks usually work from a variety of different venues).

**Biltmore Village Historic District:**

The Historic Resources Commission (HRC) recently conveyed their interest in adding limitations for operating food trucks in the Biltmore Village Historic District. Biltmore Village is commercially zoned and under the current wording in the ordinance there are no limitations for mobile food vending there. Currently a single truck is operating using a temporary use permit (allowing 180 days of operation per calendar year).

A Biltmore Village merchant, who is also the president of the Biltmore Village Merchants Association, became concerned about the mobile food vending operator and brought the issue to the Historic Resources Commission Director for consideration. After a number of meetings reviewing the topic it became apparent that the commissioners were closely divided on the issue. Some members of the Commission felt this activity to be out of character with the district's goals and the adopted *Biltmore Village Development Plan* while others did not feel that it would have a negative effect. It was apparent to Commission members that it would be difficult to apply design guidelines to the trucks since they are not structures for which the guidelines were written and such impermanent uses are not clearly within the parameters of the commission's work. There was discussion of expanding the aesthetic guidelines for the trucks (which might just focus on appropriate colors) but in the end this was not a part of the approved recommendation.

After substantial discussion, the HRC, at their meeting on 11/14/12, voted 6-4 (5 for, 4 against and one abstention) to continue to allow mobile food vending but with limitations similar to those established for the downtown Central Business District. The CBD restriction allows only ten trucks and no temporary use permits for mobile food vending. In Biltmore Village the staff recommends a limit of two trucks based on the small scale of the district and no temporary use permits. As required in downtown, trucks would have to establish a permanent location and provide limited site improvements (primarily street trees and sidewalk access). Trucks would also be required to provide electric power to the site instead of using generators in order to maintain the ambiance of the district. These limitations on the operation of food trucks would be waived in the case of special events which apply for approval under other permits (this same rule is true for downtown too).

Vocal opposition to allowing any mobile food vendors remains from a number of merchants and property owners in Biltmore Village, along with support from other merchants.

The Planning and Zoning Commission reviewed the amendments to the ordinance at their meeting on 12/5/12. Most of the Commission's discussion, beyond the general background questions about the details of the current ordinance, was centered on the ordinance to limit the mobile food vendors in Biltmore Village proposed by the Historic Resources Commission.

Two representatives of the Biltmore Village Merchants Association who said they represented about 27 property and business owners in the district, stated that they wanted the food trucks to be totally banned. They presented a petition to the Commission with signatures from many Village merchants. They are concerned that the trucks will erode the character of the district which is represented by the guidelines and their investment in property there.

The property owner of the business who is allowing the coffee truck to operate on his property spoke in support of allowing a few food trucks. He stated that the truck provides a needed service in the district and that the district is a commercial area and that he is supportive of the ordinance changes as drafted.

After receiving public comment there was lengthy discussion about the potential impact of having trucks in the district. As with the discussion at the HRC, some Commission members felt that aesthetic considerations should be taken into account in the district. It was clarified that State law only allows regulation for structures and other permanent features in historic districts based on federal regulations and that trucks would not be considered a structure. The zoning code in contrast could impose some aesthetic controls such as color of the trucks. There was interest by some on the Commission to encourage City Council to ask the Historic Resources Committee to consider aesthetic regulations that could come back as an amendment to the UDO ordinance. After a thorough conversation that included options for banning the trucks outright or allowing only a single truck, the Commission voted (5-1) to endorse the staff recommendation of allowing no more than 2 trucks under restrictions similar to those in the downtown CBD.

**Hours of Operation for Push Carts:**

In January 2012 a number of changes were approved by City Council concerning the operation and permitting of activities in sidewalk right-of-way areas. These activities included operation of pushcarts, outdoor dining, and outdoor merchandise sales. The changes were generally clarifications and related to encroachment consistency. During the course of the year, some pushcart operators came to a meeting of the Downtown Commission with two concerns: (1) they would like pushcarts included in all outdoor community events and festivals, with the exception of Bele Chere and not be required to vacate their sites; and (2) they would like the pushcart hours of operations be extended from 11:00 p.m. to 2:00 a.m. The Downtown Commission is looking into special events permitting at this time and asked that the pushcart operators to be involved in that process. The DTC recommend support for this request for the extension of the hours of operation with a vote of 8-0.

These proposed modifications comply with the City Council Strategic Operating Plan goals of job creation and community development by supporting diversified job growth but with reasonable regulations to assure a balanced approach to managing the communities where business activities take place.

Pros:

- Allows the ordinance to remain up to date to current standards and practices
- Moves to balance business enterprise with maintaining the special character of a key area of the city
- Allows the City code to remain relevant to adjustments in community interests

Cons:

- The nature of some ordinances is such that they require review and adjustment over time

- There remains debate in the community about the extent and nature of impacts from food trucks

City staff recommends City Council adopt (1) amendments to Chapter 7 of the Code of Ordinances of the City of Asheville to provide minor adjustments to the mobile food vending ordinance and add limitations to vending in the Biltmore Village Historic District; and (2) amendment to Chapter 16 of the City Code to extend the hours of operation for sidewalk pushcarts.

Mayor Bellamy opened the public hearing at 7:51 p.m.

Mr. Stan Collins, member of the Biltmore Village Merchants Association, was concerned that allowing mobile food vending units to occupy space in Biltmore Village will create a change to the overall image and overall visual character of the Village. That change would be counter to the established district guidelines. Visitors and locals come year after year to the village because it has appeal and retaining that image is critical to the life of the Village. The guidelines established in 1988 were to improve the market image and enhance the overall character of Biltmore Village. They wish to protect the property and values that people are looking to expect in the Village. From a historical prospective, food trucks can be incongruent with the strict historical guidelines that direct the businesses in the Village. The presence of food trucks in the Biltmore Village Historic District can undermine decades of careful monitoring of historic regulations. He felt that a mobile food truck constructed to look like the vehicles from 1900-1910 would be a wonderful draw.

At 7:56 p.m., Mayor Bellamy closed the public hearing.

In response to Councilman Smith, Mr. Glines explained (1) that there are not many potential locations in Biltmore Village due to the limited parking; and (2) how the two truck limit was arrived at.

Councilman Smith said that we've had food trucks around since the 1890's and because we don't have the preview to be able to have them look a certain way, he was inclined to allow the use and bring back the matter for review after a little time to play out.

Councilman Davis, who originally had concerns about mobile food trucks vs. bricks and mortar businesses, did not have those same concerns anymore. Now he feels like they contribute to the area and felt they may add to the flavor of Biltmore Village even though they are not historic looking.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4152. This motion was seconded by Councilman Smith and carried unanimously.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-8 - RESOLUTION DIRECTING SOLICITING PROPOSALS FOR PREPARATION OF FORM-BASED ZONING REGULATIONS FOR THE HAYWOOD ROAD CORRIDOR**

Planning & Development Director Judy Daniel said that this is the consideration of a proposal to authorize City staff to pursue consulting services to create a "form-based" land use regulatory code for one corridor area of the city.

Early in 2012, during budget discussions, the City Council indicated a desire to have Planning staff select a consultant for work on a "first phase" or "demonstration" project using Form Base Coding for one area of the City. The Council decided to wait until closer to the end of the year to determine whether to direct staff to move forward on that project; directing staff to return to the Planning and Economic Development (PED) Committee for direction.

During the discussion, the City Council expressed a desire for this project as an element in its ongoing efforts to move toward more sustainable development patterns. The Council, since the adoption of the 2025 Comprehensive Plan, has increased its commitment to methods of accommodating growth that are more fiscally and environmentally sustainable than the patterns that prevailed since the middle of the 20th Century. This project will be an important next step toward the central themes of sustainability and resiliency that have become increasingly important to city leaders. A selected consultant team would work with city staff, the general public, interested stakeholder groups, a City Council-appointed Steering Committee, the Planning and Zoning Commission and other relevant boards and commissions, and the City Council.

The amount identified by the Council for this initial project was up to $100,000. During the discussion the staff noted that initial research into this type of project advised that it is very likely that this amount would not be sufficient to fund a complete project unless the area chosen is quite small (although we will not know this for sure until the RFQ proposals have been evaluated). Depending on the size of the area chosen for this project, the Council may wish to consider the "first phase" to be the visioning and planning element, with an earmark for next year to complete the final product of an adoptable code for the chosen area.

As directed, staff talked with the PED Committee in November about options for a Form Base Code project. After discussion, the PED members directed staff to return to the Council in January with two alternative proposals to consider – one in the River District, and one along Haywood Road in West Asheville. These two areas were chosen because they offer contrasting opportunities in two areas that are experiencing growth and considerable change and thus offer the likelihood that the new code would begin to be implemented soon after its adoption. The substantial investment to create this new regulatory structure should be in an area likely to see substantial ongoing investment in this decade. These areas also represent potential for replicating the code structure in other locations with similar characteristics. If the City plans to move toward such coding for more areas of the City in the future, selection of a pilot area with potential for replication would be a good first step.

Staff met soon after that meeting to discuss ideas for these two options. Each offers different but important advantages and limitations. Each represents areas where change has been dramatic and ongoing, even during the past several years of low economic growth; with more change is anticipated.

An initial general thought was that it would be easier for the West Haywood community to agree on the "form" they wished to preserve and enhance; but given the accelerating pace of larger scale change in the River District, it might be more important to work on agreement for a new "form" for that area. Staff also realized that with the newly awakened interest of residents along the west side of the French Broad River, it might be important for the study area to include that part of the River District – including Haywood Road from the river up to Beecham's curve.

The River District has seen an increasingly rapid pace of changes and planning efforts in the past few years. A project centered there could be a central catalyst capitalizing on all that input and creativity. While not as replicable as West Haywood, the project recommendations

would have applicability in the Swannanoa River Corridor area around and west of Biltmore Village. In addition, the River District has already seen substantial public investment in recent years (such as the East of the Riverway work and the RADTIP study), and is facing a faster rate of change while dealing with more complex issues of adjustment as it evolves from an industrial past into a mix of retail, entertainment, residential, and arts uses, while retaining elements of industrial uses. The added investment of regulatory code that complements that work is likely to provide added leverage and additional investment from the public and private sectors.

In contrast, an advantage of West Haywood is that a "form" pattern built for that area would lend itself to being replicated in other older urbanizing neighborhood corridors of the city. West Asheville already has a general form (moderate density urban neighborhood scale, with strong adjoining neighborhoods).

The choice for Council will be between a somewhat less complex effort along West Haywood, where desired form for development already has more general support (due to planning efforts in the past few years); or a more complex effort in the River District. In that area, determination of agreement on form may take more initial effort, but flood concerns pose unique challenges that a form code could address. In the River District, establishment of a central vision (with a lot of flexibility for creative entrepreneurs), would likely become a catalyst for further exciting change in the ongoing evolution of this central spine for the city and the region.

With those considerations in mind, the staff recommends that the Council authorize a Request for Qualifications (RFQ) for a Form Base Code Project for either:

A. A portion of the northern section of the River District (Clingman at Depot Street down to and including the bulk of the RADTIP study area, and west along Haywood Road from the French Broad River to Beecham's Curve, north along Riverside Drive to the railroad overpass, and south along Depot Street to the Grant Center); or

B. Haywood Road from the French Broad River west to its intersection with Patton Avenue.

The consultant for this project would work with the selected community area to develop an agreed vision of what elements of form and design would be desired as these areas are built out; and the creation of an overlay code for the corridor that modifies the zoning to achieve that form as the "default" development pattern. The creation of this type of code involves substantial initial public input during the "visioning" process; followed by detailed design work on the part of the consultant to create the code – which is oriented toward specific design requirements, rather than traditional standards such as density limits, setbacks, and height restrictions.

The $100,000 amount available will influence the amount of work that can be accomplished. Staff recommends that it is important for the funding to include actual governing code, not just a plan for that code. If cost estimates from consultant are higher than anticipated, the staff would recommend either narrowing the proposed area so a complete section with code can be completed; or consideration of this initial work as the visioning plan phase only with a commitment to fund the completion of the work and code in the next fiscal year. (For comparison purposes, the city of Austin, TX recently sent an RFQ for the creation of form based code for much of the entire city, allocating up to $2 million for the project.)

This action will work toward achieving goals in multiple elements in the Council Strategic Goals including Fiscal Responsibility, Affordable, Green and Sustainable, Job Growth and Community Development, and Multi-modal Transportation.

There would be no immediate fiscal impact from this decision other than staff time involved in completing and posting the RFQ and reviewing the applications. If a contract is awarded, a commitment of up to $100,000 from the General Fund would be required for consultant services in addition to staff time required to work with the public and the consultant.

Councilman Davis felt that both projects have good merits. The opportunity lies in the River District because that will need the planning for further development, but Haywood Road is something more usable in other districts in the future. In addition, there has been a lot of work done on the Haywood Road corridor.

In response to Councilman Davis on whether the $100,000 would be adequate to cover the entire project in the River District, Ms. Daniels said that the River District would be a more complex process and probably use up more of the funds on the visioning process than Haywood Road would. It would take more money to do the River District unless you wanted to do it a couple of blocks at a time.

Councilman Bothwell felt we might not see much change on Haywood Road with the established businesses in the old buildings along much of the commercial corridor. The form based code might be in place but not have any effect for decades. Ms. Daniels said that during the recession we have seen existing buildings reformed and reused. The core is built up and the areas you might see new development is on both areas of the core.

When Mayor Bellamy asked if we are talking with any developers for the Haywood Road corridor, Urban Planner Alan Glines said that the Haywood Village property is for sale and last year he spoke with potential buyers. People have also been looking at some under utilized properties along the corridor and considering new things. There is, at this time, a lot of renovations and not so much the new construction yet.

Mayor Bellamy felt we should work hand in hand with the developers during this RFQ process to get them bought into the process. She wanted to make sure that this is a good investment and that we will see some buildings constructed to the form we are developing.

When Mayor Bellamy asked for this to be included in our strategic plan updates, City Manager Jackson said that the process is to select the person to put together a project plan and schedule and that will come to Council in the form of authorization of a contract so Council will see the scope of services and schedule at that time.

Councilman Smith supported the Haywood Road area because the Haywood Road vision plan has been going on for a number of years and there have been a lot of voices involved. This would be a capstone for that process. Because of the number of voices already involved he felt this will be a shorter process than in the River District. Also, Haywood Road is relevant because we are seeing a lot of east-west Asheville growth issues occurring now.

The following individuals supported the Haywood Road area model for various reasons, mainly those outlined by Council:

Ms. Pattiy Torno, Chair of the Asheville Area Riverfront Redevelopment Commission, Member of WECAN Neighborhood Association; founding member of the River Arts District
Ms. Emily Goodwell, west Asheville resident
Ms. Leslie Fay, west Asheville resident

Vice-Mayor Manheimer moved to adopt Resolution No. 13-8. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 156**

**B. POLICY DIRECTION FOR THE DISPOSITION OF CITY-OWNED PROPERTY AT 91 RIVERSIDE DRIVE KNOWN AS THE ICE HOUSE**

170

**RESOLUTION NO. 13-5 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH TAYLOR & MURPHY CONSTRUCTION COMPANY INC. FOR THE DEMOLITION OF THE STRUCTURE LOCATED AT 91 RIVERSIDE DRIVE KNOWN AS THE ICE HOUSE**

**ORDINANCE NO. 4153 - BUDGET AMENDMENT FOR THE DEMOLITION OF THE STRUCTURE LOCATED AT 91 RIVERSIDE DRIVE KNOWN AS THE ICE HOUSE**

Vice-Mayor Manheimer said that her firm does represent Taylor & Murphy Construction Company, and at the direction of City Attorney Oast, she will recuse herself, due to a conflict of interest, from voting on the resolution and ordinance. City Attorney Oast said that Vice-Mayor Manheimer can and should participate in the policy direction discussion.

Riverfront Redevelopment Coordinator Stephanie Monson Dahl said that this is the consideration of policy direction for the disposition of a structure(s) in the River Arts District known as the Ice House.

The City of Asheville purchased the Ice House property at 91 Riverside Drive, PIN #9638973694, on November 30, 2012. The purchase includes 2.2 acres of open space on the French Broad River and approximately 1 acre of developed property on the east side of Riverside Drive where an approximately 50,000 square foot building known as the Ice House is situated. The structure is generally characterized as being:

- Significantly dilapidated, unsafe, and the site of a substantial level of criminal activity, requiring City's compliance with Chapter 4, Article 6 of the Unified Development Ordinance regarding unsafe buildings.

- A contributing structure to the Riverside Industrial Historic District, potentially eligible for historic tax credits if rehabilitated with some level of negative impact to the collection of historic industrial buildings if demolished.

- Located on a parcel integral to the revitalization of the region's riverfront, being strategically located in the River Arts District Transportation Improvement Project (RADTIP) Area, the East of the RiverWay Area, and the Between the Bridges area.

Due to its poor condition, a decision on the immediate disposition of the structure needs to be the first step by Council towards a final decision on the highest and best use of the property. The policy options for the structure presented in this staff report include: delay of a decision, long term retention and preservation of building, immediate demolition, or other Council option.

Staff suggests the next step in Council's evaluation of this site should be consideration of the community's stated vision and goals, and a professional engineering and financial analysis, to be created in the spring and summer of 2013 via the Riverside Drive Strategic Plan process. That process is being funded by Council's $50,000 allocation of Federal Tiger II grant funding from the East of the RiverWay Transformation Development component; aimed at transforming underutilized city-owned property into assets of regional significance.

After that process is complete and recommendations are presented, it is anticipated that Council will be asked to adopt a resolution on a preferred redevelopment plan for the area, to provide direction on the redevelopment process desired to achieve that plan, and whether staff should align that process with the bidding and construction of the RADTIP.

<u>Policy Options for Disposition of the "Ice House" Structure:</u>

*1) Delay of Decision on Disposition (to a Later Date)*

Council could opt neither to immediately demolish the building nor to immediately "mothball" the building for historic preservation. The purpose for making this decision would be to give Council additional time to determine if other information or resources regarding a more preferable option have yet to be brought to Council's attention.

Next steps would include:

- Extension allowing delay of compliance with the unsafe building ordinance
- Staff performance of additional due diligence regarding additional policy options
- Direction from Council regarding timeline for staff due diligence and Council decision on disposition

Pros:

- Forestalls or prevents demolition, to which some constituents are opposed.
- Gives Council more time to make a decision.

Cons:

- Requires continued outlay of resources and funding to secure the building and the surrounding area.
- Negatively impacts the physical appearance of the area, which could continue to encourage crime and detract from private investment.

Fiscal Impact: Staff estimates it will cost an initial $12,000 to $15,000 to provide an acceptable level of short-term security for the building and the site. This does not include staff time devoted to increased patrols, or resources used for coordination of efforts and use of city labor to secure building. The extension of this plan from a short term, interim (60-day) option to a six-month option or longer would not be recommended without additional physical improvements to the building itself. Because of this, it is estimated that for every six months, this option would cost $50,000 to $60,000.

*2) Long Term Retention/Preservation of Building*

Council could opt to "mothball" (repair, secure, and preserve for a use in the future) the building in hopes of attracting a redevelopment partner interested in historic preservation at some future date. The purpose of making this decision would be to prioritize the historic preservation of this building more than other redevelopment goals for riverfront revitalization.

Next steps would include:

- Short term extension of compliance with unsafe building ordinance
- Staff analysis of the process for mothballing this specific building (parallel tracked with extension of compliance)
- Council approval of funding to mothball the building.
- Further Council direction regarding the desired process for soliciting a qualified redevelopment partner.

Pros:

- Adaptively reuses a contributing building to a National Historic District/avoids demolition.
- Retains potential for private sector use of historic tax credits if redeveloped to accordance with federal or state standards.
- Physical appearance could be an improvement over the "delay of decision" option.

Cons:

- Minimizes the long-term redevelopment options on the site.

- Minimizes or negates use of site for short-term temporary uses that could support revitalization.
- Requires substantial financial commitment from the Council without any guarantee that a viable reuse will be found in a reasonable timeframe.
- Likely partners for reuse may look to the City for substantial additional financial contributions; and given the condition of the structure, the types of uses for which it is a viable use are limited.
- Supports building vacancy in an area where City is heavily invested in revitalization efforts.

Fiscal Impact: Minimum cost to the City to "mothball" the building is estimated at $180,000; however, this estimate does not include continuing security and maintenance of the existing structure from today until a redevelopment partner is found.

*3) Immediate Demolition*

Council could opt to pursue a contract to demolish the 50,000 square foot structure while preserving and securing the iconic smokestack. The purpose for making this decision would be to prioritize public safety while still allowing for the promotion of urban infill and new construction to promote riverfront revitalization; while preserving a visible element (and the most architecturally interesting portion) of the historic industrial past.

Next steps would include:

- The authorization for staff to execute a contract for the demolition for the building
- Further Council direction regarding staff's suggested process for Council's continued consideration of the highest and best use of the property

Pros:

- Immediately eliminates the hazards associated with the building's condition and fulfills the unsafe building ordinance requirement.
- Allows the developable portion of the site to support interim uses aligned with revitalization of the riverfront, such as temporary commercial or special event uses or parking for the same and for business accessibility or riverfront recreation
- Provides a shovel ready site for developers looking to partner with the City on new construction

Cons:

- Eliminates a contributing building to the National Riverside Industrial Historic District, meaning any potential future use of historic tax credits are lost upon demolition
- Option eliminates a historic asset reflecting the cultural history of Asheville pre-World War II

Fiscal Impact: Staff proposed to use the parking fund to implement this proposal if directed. The Parking Fund ended FY 2011-12 with available fund balance (in excess of the 8% policy target) of $1,161,762. At its October 23, 2012 meeting, Council approved the appropriation of $825,000 from Parking Fund fund balance for property acquisition. Council would be asked to approve an additional $225,000 for demolition, leaving approximately $110,000 in available fund balance remaining in the Parking Fund. The current bid for demolition is approximately $145,000. Staff expects to use the difference to abate asbestos within the building, secure and preserve the iconic smokestack, and do minimal site repair.

*4) Other Option*

Council may opt to direct staff to pursue a policy direction for the disposition of the building that is not supported by staff analysis but is preferable to Council. Staff is aware of citizen suggestions to reuse of the building for purposes like a museum, artist live-work spaces, or housing for people experiencing homelessness. Staff assessment is that the building's internal design and type of construction coupled with its substantially deteriorated state realistically negates any suitable or fiscally responsible rehabilitation proposals. A more detailed discussion of the consequences of pursuing a museum project can be found in the document "Supplemental Memo" which can be accessed via the link on Attachment C- Redevelopment Planning Considerations.

Staff review suggests that while all policy options could address some Council goals, option #3, Immediate Demolition, provides Council with the opportunity to most clearly address the following:

- Fiscal Responsibility: leverages City's opportunities to partner with private developers to implement master plans
- Safe: significantly improves public safety of the River Arts District and surrounding neighborhoods
- Job Growth and Development: promotes infill growth using existing corridors, and promotes riverfront revitalization.

The River District Design Review Committee met on December 5, 2012, and declined to vote on an advisory position to Council because a straw poll of members showed no consensus could be made. The Asheville Area Riverfront Redevelopment Commission met on December 13, 2012, and voted 11-1 to advise Council to authorize the demolition of the building.

Although existing policies seem to align most clearly with the demolition option, given the many facets to consider, the staff asks for Council direction. If Council chooses to immediately demolish the structure, staff recommends that Council 1) authorize the City Manager to sign a contract for the demolition of the structure located at 91 Riverside Drive, and 2) approve a budget amendment in the amount of $225,000 from Parking Fund fund balance to fund the demolition expenses.

Councilman Bothwell heard the arguments about preservation of the building, but he hasn't understood what the value of the building might be. A substantial structure like the Ice House would be extremely expensive to build new. He wondered if we mothball it for $180,000, would we be preserving a million dollar building. His sense is we shouldn't tear down something that there is a substantial significant investment in if there is a chance for reusing it somehow. The building substantial has value, but we don't know who it would have value to yet.

Mayor Bellamy's concern about deferring it is that we have had the Flying Frog building for many years and not done well by it. We have other issues that are more pressing. When she was told about the purchase, it was for a roadway improvement. She felt it's time for us to move forward if we embrace the RADTIP. It would be very costly for us to rehabilitate the building and if there are people who wanted to do it, it would have been done.

Councilman Davis explained that Asheville Area Riverfront Redevelopment Commission looked at this property several years ago and some travelled to Chattanooga to look at a transformational project for the river. Mr. Terry Meek came up with a good concept of a riverfront museum and shared that concept with others for the building. However, the building has a lot of problems and the private sector has not come forward. It seems a terrible loss to tear the building down, but he didn't thing there was enough there to salvage to make it worthwhile.

Councilman Smith agreed that Mr. Meek's vision was good and if we were in a better economic time it would have been worth pursuing. His chief concern is around safety in the building. Hopefully we can preserve the smokestack and the integrity of that structure is such

that we can do so. In addition, he would also like to ask, since the building is a contributing structure in the area and has so much history, the HRC to begin work on some kind of historic marker on that site.

Mr. Luke Perry, representing the West End/Clingman Avenue neighborhood, read a letter noting that few options are left for the Ice House. Residents are concerned about the loss and deterioration of significant historic structures in their neighborhood and hope that a renewed effort can be harnessed between public, private and civic partners to create the vision and funding to give new life to these structures before we are faced again with demolition. If Council moves forward with the demolition, WECAN recommends: (1) every effort is made to preserve and save any existing significant historical elements of the building, including the large brick chimney, any old remaining machinery, etc. for future reference; (2) a kiosk or informational display that references historical information about the history on the site of the building; (3) demolition contractor to have at least one employee working in the demolition who resides in one of the surrounding neighborhoods and to work with Green Opportunities to ensure that this occurs; and (4) City remain in constant and open dialogue with the public and surrounding neighborhood about the future development possibilities of the Ice House and consider how this site and those around it can engage and create productive public spaces that reference the exceptional history of the riverfront area and surrounding residential community.

Mr. Matt Sprouse, President of the River Arts District Business Association, explained their mission and because of the health and safety issue, they ask the City to demolish the Ice House and make every effort to preserve the smoke stack. He also asked for a kiosk and preservation of any other parts of the building to show the history of the area.

Mr. Terry Meek, Chair of the River District Design Review Committee and member of the Asheville Area Riverfront Redevelopment Commission; said he was speaking as an individual. He appreciated the vision of the City in purchasing the building. It's an important piece of property and urged the Council to look at this from a long-term standpoint - not just what is most convenient now. He met with City Council previously and conveyed his idea of a French Broad River Museum of Cultural and Natural History in that building, but that is not the only idea for the building. He believes the building still has great merit. He urged Council to not demolish the building because the City has already placed an RFQ for a strategic planning initiative for this area, which this building is a part of. He asked that Council postpone the action at least until it can be a part of this strategic planning initiative.

In response to Mr. Timothy Sadler who wondered if the property might work for a food processing facility, Councilman Smith said that it would not be cost effective for this building.

At 9:05 p.m., Mayor Bellamy closed the public hearing.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and the ordinance and they would not be read.

Councilman Smith moved to demolish the Ice House property, with the preservation of the smokestack and a historical marker. This motion was seconded by Vice-Mayor Manheimer and carried on a 5-1 vote, with Councilman Bothwell voting "no".

Councilman Bothwell moved to recuse Vice-Mayor Manheimer from participating on the vote of the resolution and budget amendment, due to a conflict of interest. This motion was seconded by Councilman Smith and carried unanimously.

Councilman Smith moved for the adoption of Resolution No. 13-5. This motion was seconded by Councilman Pelly and carried unanimously (Vice-Mayor Manheimer was recused).

**RESOLUTION BOOK NO. 35 – PAGE 153**

Councilman Smith moved for the adoption of Ordinance No. 4153. This motion was seconded by Councilman Pelly and carried unanimously (Vice-Mayor Manheimer was recused).

**ORDINANCE BOOK NO. 28 – PAGE 97**

City Manager Jackson said we are asking property owners to better secure their properties to prevent public safety issues. We don't want to lose all the character of the area.

**C. RESOLUTION NO. 13-6 - RESOLUTION APPROVING A HOUSING TRUST FUND LOAN TO BEAUCATCHER PROPERTIES LLC (SCATTERED SITE) AND GIVENS ESTATES INC. (GIVENS PARK APARTMENTS)**

**ORDINANCE NO. 4154 - BUDGET AMENDMENT TO PROVIDE SUFFICIENT BUDGET AUTHORIZATION FOR ALL LOAN DISBURSEMENTS**

Community Development Analyst Randy Stallings said that this is the consideration of a resolution authorizing approval of Housing Trust Fund loans to Beaucatcher Properties, LLC (Scattered Site) and Givens Estates, Inc. (Givens Park Apartments); and a budget amendment in the amount of $330,000 from Housing Trust Fund reserves to provide sufficient budget authorization for all loan disbursements anticipated to occur prior to June 30, 2013.

Staff received two (2) applications for HTF funding totaling $420,000. These applications were presented to the Housing and Community Development Committee (HCD) on December 13th and each was evaluated on its own merit. Including projected income from regularly scheduled payments to the Housing Trust Fund expected prior to fiscal year-end, resources are sufficient to approve both applications at the amounts requested. The total amount of fund resources, including the current cash balance and projected revenues thru June 30, 2013, is $436,890.90.

The following applications have been recommended by the HCD for approval:

1) Beaucatcher Properties LLC for the construction of an 8-unit scattered site rental development in the Shiloh neighborhood in South Asheville, $150,000.
2) Givens Estates, Inc. for construction of 120 units of multifamily housing for seniors on Gerber Rd, $270,000.

<u>Beaucatcher Properties, LLC – Shiloh Scattered Site $150,000.</u>

Mr. Kirk Booth, representing Beaucatcher Properties, has proposed an 8-unit single family rental development project in the Shiloh neighborhood in South Asheville. The developer will be purchasing two lots, one at 9 Marigold Street (PIN no. 964793621700000) and another on Chapel Park Place (PIN no. 964794966500000). Each of the lots will be subdivided into two (2) lots. Each of the four (4) new lots will contain a 2-bedroom single family home with a 1-bedroom accessory apartment over a rear garage. Both parcels are currently zoned Residential (RS-8). The single family homes will be rented at 80% of the Area Median Income and the 1-bedroom accessory units will be rented at 60% of the Area Median Income. The total land acquisition cost is $39,500.

The developer is seeking $150,000 with 50% of the Note ($75,000) due as an amortizing loan over 30 years at 4.5% interest. In recognition of the four (4) units serving populations at or below 60% of the Area Median Income, the developer is requesting that the remaining 50% of the Note ($75,000) be financed as interest-only at 2% interest with principal deferred for 20 years.

The site is infill development in an older established neighborhood with water and sewer access available. The proposed project meets the stated priorities in that 50% of the units will be

1-bedroom. Due to the small development size, no TRC or P&Z review will be required. The developer is ready to proceed immediately. The developer indicates a total projected development cost of $637,500, which includes the projected future value of the lots as developed.

The loan request represents 24% of the total development costs. The per-unit subsidy is $18,750. The total per-unit development cost as submitted by the applicant is $79,688 per unit. The cost per square foot is $97.32. The project is within 1/4 mile of transit. None of the units will be ADA accessible. The project will not be Energy Star certified but does incorporate many of the desired elements such as energy star appliances, low-e windows, and low-flow water systems. The developer has agreed to reserve two (2) of the eight (8) units for persons transitioning from homelessness.

Pros:

- Infill development supports strategic planning goals.
- The developer has completed other local projects in a timely manner.
- Developer is pledging 30 years of affordability.
- Units will serve families transitioning from homelessness.

Cons:

- The City financing when combined with the proposed senior bank lien provides 100% financing with no cash investment from the developer.
- Staff's analysis of the financial statements suggests that the project can absorb fully performing debt. Interest-only payments do not appear necessary for project viability.

Givens Estates, Inc. – Givens Park Apartments $270,000

Givens Estates has proposed a 120-unit multifamily rental development for seniors ages 55 and over in South Asheville. The proposed site is located directly behind Gerber Village, just east of Hendersonville Road (PIN no. 965526468400000). The 6.0 acre parcel received a conditional zoning to Highway Business in April of this year. An additional 120 units are planned for a future phase but are not under consideration at the present time. The proposed project will consist of 94 1-bedroom units and 26 2-bedroom units. The developer has noted that 30 of the units will be reserved for persons at or below 30% of the Area Median Income. The remaining 90 units will be rented to persons at or below 60% of the Area Median Income. Transit is available within ¼ mile. The total projected development cost is $14,043,335

The developer has requested $270,000 at 2.00% interest, fully amortizing for 30 years. The developer is applying for Low Income Housing Tax Credits which will significantly leverage the City investment. The land acquisition cost is $1.3 million. The per-unit development cost is $117,027. The cost per square foot is projected at $147.13. The requested per-unit subsidy is very low at $2,250. The loan request represents only 1.9% of the total development costs. The project will be Energy-Star certified. All units will be ADA compliant.

The projects directly support the City's Strategic Operating Goals: (1) *Affordable*: The project proposals are supportive of the City's goal of providing safe and decent affordable housing units to the citizens of Asheville; and (2) *Sustainable*: The proposed projects provide new housing units located near transit lines, higher urban development densities, and encourage higher standards of energy efficiency. The projects also address the priorities of the Consolidated Strategic Housing & Community Development Plan by increasing the housing stock, providing affordable rental units, building high quality energy-efficient housing, and coordinating development with transportation and jobs.

The current balance in the Trust Fund is $359,700.90. If the regularly scheduled loan repayments of $77,190 are received as expected, then there will be no adverse fiscal impact. Although highly unlikely, if future revenue projections prove incorrect then funds may not be available for disbursement until the fund has been replenished; either through a new

appropriation or the receipt of future program revenue beyond July 1, 2013. As noted above, a budget amendment in the amount of $330,000 from Housing Trust Fund reserves is included to provide sufficient budget authorization for all loan disbursements anticipated to occur prior to June 30, 2013

The Housing and Community Development Committee recommends City Council approve a resolution approving the following loans subject to the developers meeting all program requirements for loan closing:

1. $150,000 to Beaucatcher Properties, LLC for the development of Eight (8) single-family rental units on Marigold St and Chapel Park Place; conditioned on obtaining site control at Chapel Park Place; to be made immediately available for disbursement following loan closing.

   a. $75,000 to be repaid as a fully amortizing loan at 4.5% interest for 30 years.
   b. $75,000 to be repaid in annual interest-only payments at 2.00% interest with principal deferred for a term of 20 years.

2. $270,000 to Givens Estates, Inc. for the development of One Hundred and Twenty (120) multifamily rental units for seniors on Gerber Road, amortized at 2.00% interest for 30 years; to be made immediately available for disbursement following loan closing.

When Mayor Bellamy felt that local people should have the opportunity to take advantage of the units in Givens Estates, Mr. Ken Parton, representing Givens Estates, said that he could say that all admissions will come from people in this community; however, they only advertise up to 30 miles from Asheville. From their market research, they anticipate this project being filled from people in the Buncombe County area. He also noted that they hope to build common space and make it available to people in the community.

Mayor Bellamy asked Council to support her request, especially since there are local tax dollars in the project, that local people have the opportunity to avail themselves of this top notch facility, knowing that it already has a long waiting list. She was concerned that once it is constructed it will already be filled up. Mr. Stallings noted that the low income housing tax credit prohibits discrimination in the leasing process.

On behalf of City Council, Mayor Bellamy thanked Mr. Stallings for his work with the City of Asheville as he continues on with his career.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with copies of the resolution and the ordinance and they would not be read.

Councilman Smith moved for the adoption of Resolution No. 13-6. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 154**

Councilman Smith moved for the adoption of Ordinance No. 4154. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 99**

**D. RESOLUTION NO. 13-7 - RESOLUTION ALLOCATING FAIR HOUSING ASSISTANCE PROGRAM FUNDS TO THE ASHEVILLE BUNCOMBE COMMUNITY RELATIONS COUNCIL**

City Manager Jackson said that this is the consideration of a resolution approving $15,000 in federal Fair Housing Assistance Program funds to the Asheville Buncombe Community Relations Council to continue to implement fair housing research, outreach and training.

The Asheville Buncombe Community Relations Council requests $15,000 in Fair Housing Assistance Program funding to continue to perform fair housing research, training and outreach.

In July of 2012, Council provided $15,000 of HUD Fair Housing Assistance Program funds to ABCRC. ABCRC has used these funds to reinstate its position as the first agency point of contact for Asheville residents who have fair housing concerns, and to lead the community work to educate and inform Asheville residents about their fair housing rights and recourse if those rights have been violated. After completing Phase I of their Fair Housing Outreach program, they would now like to initiate Phase II. During this next phase they would continue to employ a contract worker to implement and facilitate their outreach plan, facilitate and recruit volunteers for trainings and events, provide fair housing client intake and referral, provide conflict resolution services, continue to network with community organizations, and provide outreach and community engagement. They wish to attend at least one National or State training, research fair housing compliance recertification options with HUD and work closely with NC Human Relations Commission on referral of cases.

The organization has made significant progress in restructuring its Board of Directors and Committees, has begun work on a new strategic plan, and has created new fair housing outreach materials. It has not yet reached a resolution with the IRS regarding penalties due to late payment of withholding taxes and interest, but is making all required payments. It is current on all day-to-day obligations.

The project directly supports the City's Strategic Operating Goal of *Affordable*: The project proposal is supportive of the City's goal for all citizens to have access to safe, sufficient and affordable housing.

Pros:

- ABCRC is reestablishing a local point of contact for fair housing information for consumers and agencies.
- Fair housing training will assist private and public sector landlords comply with the law.
- ABCRC has developed a collaborative working relationship with the NC Human Relations Commission, Pisgah Legal Services, and other key community service agencies.

Cons:

- Role for local agency dedicated to fair housing not yet clear, and recertification does not appear to be a HUD priority in the short term;
- Agency relies almost exclusively on public sector financial support.
- Tax liability remains unresolved.

The federal FHAP funds must be allocated to affirmatively further fair housing. The use of the funds for the proposed purpose meets that requirement. The funding will come from the FHAP budget that was approved in FY11-12. If this allocation is approved, $2,316 of FHAP funding will remain to be allocated. No additional FHAP funds will be received by the City of Asheville from HUD. There is no impact to the General Fund.

The Housing and Community Development Committee recommends the approval of $15,000 in federal Fair Housing Assistance Program funds to ABCRC to continue to implement fair housing marketing, outreach and training, as proposed.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-7. This motion was seconded by Councilman Gordon and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 155**

**BOARDS & COMMISSIONS**

Regarding the Downtown Commission, the following individuals have applied for the vacancies: Edward Loewe, Patric Mullen, Karl Katterjohn, Dean Pistor, Laurie Miller, Andrew Montrie, Adam Bowers, Luther Smith, Dane Barrager and Larry Holt. It was the consensus of Council to reappoint Bruce Hazzard, Rebecca Hecht and Matthew Sprouse and postpone the final vacancy for further clarification.

Regarding the Greenway Commission, the following individuals have applied for the vacancies: Stuart Smith, Bryan Mitchell, Forrest Patrick Merithew, Adam Bowers and Luther Smith. It was the consensus of Council to reappoint James Grode and postpone the final vacancy for further information.

Regarding the Sustainable Advisory Committee on Energy & the Environment, the following individuals have applied for the vacancies: Peter Brezny, Marcus Renner, Lawrence Pittman, Alan Watts, Brandee Boggs, Melita Kyriakou, Stuart Smith, Timothy Sadler, Josh O'Conner, Forrest Patrick Merithew, Sabrina Wells, Christine Laporte and Robert Brady. It was the consensus of Council to reappoint Torin Kexel and interview Marcus Renner, Brandee Boggs, Lawrence Pittman and Josh O'Conner.

Regarding the Transit Commission, the following individuals have applied for the vacancies: Bruce Emory, George E. Keller, Itiyopia Ewart and Bryan Mitchell. It was the consensus of Council to (1) reappoint Julie Mayfield and Tom Tomlin; (2) appoint Bruce Emory; and (3) interview Itiyopia Ewart and George Keller. The Boards & Commissions Committee did not recommend reappointment of Ms. Georgia Shannon due to the failure to meet attendance requirements.

Regarding the Tree Commission, it was the consensus of Council to re-advertise due to the lack of applicants for available seats.

**RESOLUTION NO. 13-9 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing alternate members to the Board of Adjustment.

The terms of Richard Fort (Alternate) and Phillip Hardin (Alternate) expire on January 21, 2013.

The following individuals have applied for the vacancies: Derek Weekley, Jay Marino and Mary Jean Burgin.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Fort (Alternate) and Mr. Hardin (Alternate).

Councilman Smith moved to reappoint Richard Fort (Alternate) and Phillip Hardin (Alternate) to the Board of Adjustment to each serve an additional three-year term, terms to

expire January 21, 2016, or until their successors are appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 157**

**RESOLUTION NO. 13-10 - RESOLUTION APPOINTING A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD OF DIRECTORS**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Metropolitan Sewerage District Board of Directors.

The term of Councilman Chris Pelly expired on January 19, 2013.

No following individual applied for the vacancy.

It was the consensus of the Boards & Commissions Committee to reappoint Councilman Pelly.

Councilman Smith moved to reappoint Councilman Chris Pelly to the Metropolitan Sewerage District Board of Directors to serve a three-year term, terms to expire January 19, 2016, or until his successors is appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 158**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler commented on the energy costs that our City is facing. He urged Council to adopt a resolution stating it's the City's intention to become energy independent.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:27 p.m.

Magdalen Burleson
CITY CLERK

Jan M. Bellamy
MAYOR

Tuesday – January 22, 2013- 5:00 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy (illness)

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING FEBRUARY 2013 AS "BLACK HISTORY MONTH"**

Councilman Bothwell read the proclamation proclaiming February, 2013, as "Black History Month" in the City of Asheville.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 8, 2013**

**B. RESOLUTION NO. 13-11 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A MUNICIPAL AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR IMPROVEMENTS ON 8-26 AT EXIT 40**

Summary: The consideration of a resolution authorizing the City Manager to sign a municipal agreement with the N.C. Dept. of Transportation approving a project for making improvements on I-26 at Exit # 40, which is the interchange with NC 280 (Airport Road) at the Asheville Regional Airport.

The N.C. Dept. of Transportation (NCDOT) plans to make improvements on I-26 at Exit # 40, which is the interchange with NC 280 (Airport Road) at the Asheville Regional Airport. The project, which is identified as I-5501, has a letting date of September 17, 2013. The improvements include grading, drainage, paving, and traffic signals to retrofit the existing interchange to a diverging diamond configuration. As a part of the agreement, the City agrees to effect the necessary adjustment of any utilities under franchise without cost to the NCDOT and to provide for the adjustment of any municipally-owned utilities without cost to the NCDOT, except that the NCDOT will reimburse the City in accordance with the NCDOT's Municipally-Owned Utility Policy. These requirements are standard requirements in all of NCDOT's Municipal Agreements and may or may not be applicable for a specific project. The City's Water Resources Department has reviewed the agreement and understands that there will be some water utility construction as a part of the project that is the responsibility of the Water Resources Department. At this time, the cost of the work is estimated to be about $400,000 and a separate utility agreement will be prepared at a later date.

This action complies with the City Council Strategic Operating Plan in the Fiscal Responsibility Area by partnering with the North Carolina Department of Transportation (NCDOT) to make improvements to the existing street infra-structure.

Pros:

- An existing diamond interchange will be improved to increase traffic flow efficiency.
- The NCDOT is funding and constructing the project.

Con:

- The City's Water Resources Department is responsible for some water utility construction at an estimated cost of $400,000.

The City's Water Resources Department is responsible for some water utility construction at an estimated cost of $400,000. Funding is included in the existing Water Department's Capital Improvement Program for this project.

Staff recommends that City Council approve a resolution authorizing the City Manager to sign a municipal agreement with the NCDOT formally approving Project I-5501.

**RESOLUTION BOOK NO. 35 - PAGE 159**

**C. RESOLUTION NO. 13-12 - RESOLUTION ACCEPTING HOLIDAY DRIVE AS A CITY-MAINTAINED STREET**

Summary: The consideration of a resolution to accept Holiday Drive as a city-maintained street.

Code of Ordinance sec. 7-15-1(f)(4)a requires that streets dedicated for public use be accepted by resolution of the City Council. The developer's engineer submitted a written request on December 17, 2012 asking the City to accept the subject street as a city-maintained street.

Holiday Drive from US 25A (Sweeten Creek Road) to its dead-end is a developer-constructed street that has an average width of 19 feet with valley curb, a length of 0.17 mile, and a right-of-way width of 35 feet.

Transportation Department staff and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual. In addition, the developer's engineer has furnished a signed and sealed letter verifying that the subject street was constructed to current City of Asheville standards.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

This action complies with the City Council Strategic Operating Plan within the Sustainable Focus Area by accepting street infra-structure to help support the healthy growth of the City.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access and connectivity in a residential community.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Holiday Drive as a city-maintained street.

**RESOLUTION BOOK NO. 35 - PAGE 160**

**D. RESOLUTION NO. 13-13 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH THE MEN'S GARDEN CLUB OF ASHEVILLE FOR A PORTION OF CITY-OWNED REAL PROPERTY AT 80 HARDESTY LANE, ASHEVILLE, NC**

Summary: The consideration of a resolution authorizing the City Manager to execute a Lease Agreement with the Men's Garden Club of Asheville for a portion of city-owned real property at 80 Hardesty Lane, Asheville, NC.

The Men's Garden Club of Asheville is a non-profit organization that seeks to provide a forum for those interested in horticulture and gardening, and seeks to serve the community through area beautification projects. Each year, the Men's Garden Club cultivates a large variety of plant material to sell to the public, in order to generate funds for a community college scholarship program in horticulture. In 2000, the Club leased a 0.50 acre +/- portion of City property at 80 Hardesty Lane, and established a greenhouse to support the Club's mission.

The property at 80 Hardesty Lane is approximately 33 acres in total and is located at the back of the Recreation Park complex, between the Swannanoa River and the railroad. The current uses of this property are: (1) The City of Asheville Public Works Department operates a 5-acre beneficial fill site for waste concrete and other inert materials; (2) New Sprout Organic Farms leases 10 acres of land for certified organic fruit and vegetable production; and (3) Danny's Dumpster leases 5 acres for an industrial compost operation.

At this time, the lease between the City and the Men's Garden Club has expired, and the Men's Garden Club wishes to re-establish a lease of the property for a five year term.

The proposed lease terms are as follows:

- Rental: As consideration for the lease, the Men's Garden Club will provide goods and services to revitalize and re-establish the ornamental gardens at the John B. Lewis Soccer Complex as directed by the Parks, Recreation and Cultural Arts Department
- Tenant responsibilities: Maintenance of all improvements, cleanliness of lease area and clearing of debris
- All utilities to be paid by the tenant
- Mutual rights to terminate lease
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply

The Notice of Intent to enter into a Lease Agreement with the Men's Garden Club was published on January 11, 2013, in the Asheville Citizen-Times. Ten days have passed since the publication and authorization to execute the Lease Agreement is being requested.

This action complies with the City Council Strategic Operating Plan by addressing the following goal: Fiscal Responsibility - by leveraging an external partnership to perform landscape improvements at a City Facility and thereby reduce City service costs. This action also supports the City of Asheville Parks, Recreation, Cultural Arts & Greenways Master Plan by increasing the city's resources with alternative funding sources ensuring a high level of service in parks and

facilities by addressing capital maintenance of existing parks and facilities to meet community standards.

Pros:

- Mission of Men's Garden Club supports educational opportunities for local students
- Beautification of John B. Lewis Soccer Complex
- Community investment in a Parks facility at low cost to the City

Con:

- None

The City will receive no rental income from this lease.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with the Men's Garden Club of Asheville on behalf of the City of Asheville.

When Councilman Smith asked if the Men's Garden Club would be willing to devote some of their plantings to edibles, City Manager Jackson said that the City will encourage them to include a fair amount of edible plants and will report back to Council.

**RESOLUTION BOOK NO. 35 - PAGE 162**

**E. RESOLUTION NO. 13-14 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT WITH BUCHANAN AND SONS INC. FOR THE CHEROKEE ROAD RETAINING WALL CONSTRUCTION PROJECT**

**ORDINANCE NO. 4155 - BUDGET AMENDMENT FOR THE CHEROKEE ROAD RETAINING WALL CONSTRUCTION PROJECT**

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute a unit price contract in the amount of $390,900.00 with Buchanan and Sons, Inc., for the project known as the Cherokee Road Retaining Wall Construction Project, Project # ENG-11-12-011; and 2) a budget amendment in the amount of $175,468 from unused debt proceeds from projects completed under budget to fund the contract and a 15% contingency.

In response to a visual inspection conducted by the City that found the stability of the existing retaining wall to be in question, a Request for Qualifications for an Engineering Firm to evaluate, recommend and design a solution was advertised on October 27, 2011.

The engineering firm of Michael Baker Engineering Inc. was selected for this undertaking. They provided an Analysis Report on March 27, 2012, which recommended replacing the existing structure.

This wall, which is located in the Historic Albemarle Community, required the new design to be approved by the Historic Resource Commission. This approval was received on May 9, 2012.

The project generally consists of removal of the existing wall and constructing a cast-in-place concrete wall that will be veneered with the stone from the existing structure; and updating and installing storm drainage features, relocating a section of waterline and resurfacing.

The contract for the construction of this project was advertised for competitive bidding on November 5, 2012. Five (5) bids were received and were opened on December 13, 2012.

Buchanan and Sons Inc., of Whittier, NC, was the apparent lowest responsible bidder at an amount of $339,913.50.

This action supports the City of Asheville's Strategic Operating plan under the goals of Fiscal Responsibility.

Pros:

- Updating aging infrastructure.
- Retain the historic aesthetic nature of the Albemarle community with a modern retaining wall.
- Completion of a key 2012/2013 fiscal year CIP project.

Cons:

- Project management and contract administration will consume staff time and City funds.
- Temporary road closures.

As noted above, in order to fully fund the contract and a 15% contingency, a budget amendment in the amount of $175,468 is included with this agenda item. Funding for this budget amendment will come from unused debt proceeds associated with projects that were included with the City's 2012 Limited Obligation Bonds (LOBs) debt offering. Several of the LOB's projects have been completed under budget, producing savings to date of approximately $1.2 million. If Council approves the budget amendment of $175,468 for this contract, there will be approximately $1.0 million in available LOBs proceeds remaining that can be allocated to other projects. Staff is recommending that this remaining balance be allocated during the upcoming FY 2013-14 capital improvement process.

Staff recommends City Council to: 1) authorize the City Manager to execute a unit price contract with Buchanan and Sons, Inc., in the amount of $390,900.00 which includes an additional 15% to cover any changes or unexpected occurrences; and 2) approve a budget amendment in the amount of $175,468 from unused debt proceeds from projects completed under budget to fund the contract and a 15% contingency.

**RESOLUTION BOOK NO. 35 - PAGE 163**
**ORDINANCE BOOK NO 28 - PAGE 101**

**F. RESOLUTION NO. 13-15 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE US DEPT. OF HOMELAND SECURITY TO ACCEPT SUBGRANTEE FUNDS**

**ORDINANCE NO. 4156 - BUDGET AMENDMENT TO ACCEPT SUBGRANTEE GRANT FROM THE US DEPT. OF HOMELAND SECURITY**

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with the US Department of Homeland Security through North Carolina Emergency Management to accept sub-grantee funds for APDs Hazardous Devices Unit Equipment to include a Remote Firing Device and shock tube initiator; and (2) to approve the budget amendment accepting funds in the amount of $7,547.

The purchase of a Remote Firing Device with 2 Recievers (approximately $6,256) and the 3 of the two button handheld shock tube initiator with tip (approximately $1290) for the Hazardous Devices Unit (HDU) will enhance APD's Bomb Squad by insuring we maintain NIMS III Standard and FBI Accreditation Standards.

This investment will support the State Homeland Security Strategy goals by enabling the local Bomb Squad Units to respond more effectively and efficiently on a regional basis, ensuring

faster response to explosive incidents and other explosives related matters. This addresses a National Overarching Priority by implementing the NIMS III Standards to all bomb squads across North Carolina. In addition, it addresses a National Capability Specific priority by strengthening CBRNE detection and response capabilities.

The purchase and implementation of the above equipment by the APD HDU will greatly enhance the safety of our Citizens, as well as those in surrounding communities due to the regional response capability of APD's HDU. This equipment will also increase the safety for the members of the HDU.

This action complies with City Council's Strategic Operating Plan in the Focus Areas - Safe - Asheville will be one of the safest and most secure communities when compared to similar cities.

Pros:

- Increase safety for HDU members
- Increased safety for our communities

Con:

- None

The acquisition cost for the items is fully-funded with the $7,547 NC Emergency Management grant; thus, there is no fiscal impact on the Police Department's capital outlay budget.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into an agreement with the US Department of Homeland Security through North Carolina Emergency Management to accept sub-grantee funds; and (2) a budget amendment accepting funds in the amount of $7,547.

**RESOLUTION BOOK NO. 35 - PAGE 164**
**ORDINANCE BOOK NO. 28 - PAGE 103**

**G. ORDINANCE NO. 4157 - BUDGET AMENDMENT TO ACCEPT PRIVATE DONATIONS FOR THE ASHEVILLE POLICE DEPARTMENT**

Summary: The consideration of a technical budget amendment, in the amount of $15,137, from donations by citizen groups for the Asheville Police Department, in order to move donated funds that have already been received from the City's balance sheet to the Special Revenue Fund.

The Asheville Police Department (APD) has received $15,137 in donated funds from various sources. These donated funds are currently held in a balance sheet account on the City's financial statements. In order for APD to be able to spend these funds, Council must first approve a budget amendment authorizing use of those funds in the City's Special Revenue fund. These funds are to be used by the APD as needed. The APD has requested that these funds be applied to the APD Private Donations project account to assist with the Annual Awards Program. The APD wishes to acknowledge the generosity, and express gratitude for their support of the Asheville Police Department.

This action complies with City Council's Strategic Operating Plan in the Focus Areas – Fiscal Responsibility and Safe.

Pros:

- Acceptance of gift from various citizen groups
- Furtherance of APD Annual Awards Program to recognize employees and citizens in enhancing our community and Department

Con:

- None.

As noted above, $15,137 in donated funds are currently included on the City's balance sheet. Moving these funds to the Special Revenue Fund and authorizing their use has no fiscal impact.

City staff recommends City Council adopt the technical budget amendment in the amount of $15,137 to move donated funds that have already been received from the City's balance sheet to the Special Revenue Fund.

**ORDINANCE BOOK NO. 28 - PAGE 105**

**H. ORDINANCE NO. 4158 - TECHNICAL BUDGET AMENDMENT FOR PLAYGROUND CONSTRUCTION AT WNC NATURE CENTER**

Summary: The consideration of a technical budget amendment in the amount of $110,089 to move budget from the special project fund to the general capital project fund.

On November 27, 2012 City Council approved a contract with B Allen Construction, Inc. for construction of the red wolf exhibit improvements, spider kingdom playground and trail extension at the WNC Nature Center. Upon execution of the contract, staff realized that the budget for the construction contract was split between two separate City funds. To facilitate the contracting process and the recording of the fixed asset improvements that will result from this work, the Finance Department recommends consolidation of the budget for this contract in the City's general capital projects fund.

Pros:

- Consolidation of budgets will facilitate the contract process and the proper recording of fixed asset improvements.

Cons:

- None

There is no fiscal impact to this action; the budget for this contract has been previously approved by City Council.

City staff recommends City Council approve the technical budget amendment in the amount of $110,089 to move budget from the special project fund to the general capital project fund.

**ORDINANCE BOOK NO. 28 - PAGE 107**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. HOUSING AUTHORITY UPDATE

Mr. Brian Weinkle, Chairman of the Housing Authority of the City of Asheville, briefed Council on their activities of the past year and goals for the upcoming year.

Mr. Weinkle and Mr. David Nash, COO of the Housing Authority, responded to various questions from Council, some being, but are not limited to: what constitutes termination for fault; what strategies does the Housing Authority implement to encourage residents to conserve energy; what will the Housing Authority do to reassess their approach under the Choice Neighborhoods grant; what is the timeline for completion of the Aston Park Tower and W.C. Reid Center projects; and what is the total number of people living in housing that the Housing Authority manages.

On behalf of City Council, Vice-Mayor Manheimer thanked Mr. Weinkle for his leadership and the entire Authority for their dedication.

### B. CARBON FOOTPRINT ANNUAL REPORT

Ms. Maggie Ullman, Sustainability Program Manager, provided Council with the Carbon Footprint Annual Report. She briefly reviewed the policy context and reviewed charts of annual reductions, key reduction efforts, annual reductions by government sector, total energy spending over time, fleet gas and diesel consumption over time, and the average price per gallon of fleet fuel.

In conclusion, (1) a 6.42% annual reduction is a tremendous achievement; and (2) after 5 years of plucking low hanging fruit we may need to get the ladder (a) fuel usage reductions and fuel diversification will be essential to continue hitting carbon reduction targets; (b) significant fuel usage reductions will be essential to offsetting continued fuel price increases in the future; and (c) unpredictable seasonal temperature variations due to climate change may challenge carbon reduction planning going forward.

Ms. Ullman responded to various questions from Council, some being, but are not limited to: how many hybrid vehicles does the City have; suggestion to follow-up with the Asheville High electrical engineering people about converting hybrids into plug-in hybrids; can our City buses be converted to natural gas; and update on the community carbon footprint.

### C. SIDEWALK UPDATE

Director of Transportation Ken Putnam said that there are two purposes of this update. One is to update City Council on new sidewalk construction projects within the corporate limits. The last time staff updated City Council was during August 2010, first at a council meeting on August 10, 2010, and second at a community council meeting (in East Asheville) on August 31, 2010. And, the second purpose is to update City Council on revisions to the sidewalk ordinance that were approved on December 15, 2009.

As indicated in the previous update, 7.5 linear miles of new sidewalk were constructed with City funds and/or labor during the five-year time period between FY 2005-06 and FY 2009-10 at a cost of $1,371,000. During the last two fiscal years, 2.6 linear miles of new sidewalk have been constructed at a cost of $564,000. Three projects have been completed in the current fiscal year for a total length of 1.0 linear mile. Notable achievements include completed sidewalks along Tunnel Road and Patton Avenue. We now have completed connections from downtown Asheville to the Veteran's Center along Tunnel Road (except for a very short section near Gashes Creek) and to Haywood Road (West Asheville) along Patton Avenue. The N.C. Dept. of

Transportation was a major partner in the sidewalk projects along Tunnel Road by constructing 1.5 linear miles.

The primary funding source for new sidewalk construction is within the City's Capital Improvement Plan process and the Transportation Department is responsible to develop a working list of projects every budget year for consideration. This list is based on the recommended criteria included in the City of Asheville Pedestrian Plan (February 22, 2005) to prioritize projects. The criteria includes zoning jurisdiction, proximity to schools, parks, and community centers, proximity to transit stops, needed linkages that complete a pedestrian network (the pedestrian plan identified about 108 linear miles of needed sidewalk linkages) or address a safety concern, feasibility of construction, and major thoroughfares and connector streets.

In addition to the recommended criteria included in the Pedestrian Plan, City staff adheres to the following guiding principles:

- Safety – installing sidewalks along the higher traffic volume streets.
- Connectivity and multi-modal (complete streets principles).
- Economy and efficiency – grant leveraging and competent deployment of City forces.
- Balancing projects throughout the City (north, south, west, and east).

Given the city's limited resources, especially during the current economic climate, staff is committed to surveying, designing, and constructing new sidewalks in the most efficient manner possible including leveraging our resources with appropriate partners while making viable connections to existing infra-structure such as bus stops and/or shelters and community buildings, schools, parks, and libraries.

City Council approved the following changes to the sidewalk ordinance (via Ordinance # 3816 and Resolution # 09-266) on December 15, 2009:

- Consolidate the geographical areas where the fee-in-lieu-of construction funds can be spent.
- Allow developers eligible for the fee-in-lieu-of construction to pay 50% of the fee if sidewalk is only required on one side of the street.
- Provide the ability for the fee-in-lieu-of construction amount not to exceed 15% of construction costs even if the sidewalk is shown as needed linkage on the Pedestrian Thoroughfare Plan.

To date, $173,000 has come into the newly established single fund. $100,000 is being used for new sidewalk construction during the current fiscal year and at least $50,000 will be budgeted for use in FY 2013-14.

No negative comments regarding the changes have been received during the past three years.

Mr. Putnam responded to various questions from Council, some being, but are not limited to: when will the sidewalk master plan adopted in 1999 and updated in 2005 be updated again; what are the details and timeline for the two projects (Hendersonville Road and New Leicester Highway) identified by the Transportation Improvement Plan; and is there evidence that developers are choosing to pay the fee in lieu of instead of constructing sidewalks.

**D. WATER RESOURCES UPDATE**

Project Manager Phil Kleisler updated City Council on the Water Resources process update from January 8 - 22, 2013. He then provided Council with the information sharing

between the City and MSD. He noted that he has received 36 resolutions from North Carolina cities that have adopted opposing legislation that provides for the forced taking of a water system.

Councilman Smith hoped that our legislators will withhold any action until we have the opportunity to sit down with all our partners regarding our good faith efforts to find a local solution achieving the cost savings and efficiencies sought by the Study Commission.

Vice-Mayor Manheimer said that the League is hosting a function in Raleigh for officials to meet with their legislators on various issues. She, Councilman Hunt, Councilman Pelly and City Attorney Oast will be attending that function.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF HARRIS TEETER PHASE 2, LOCATED ON 17 AND 23 ELOISE STREET AND 136, 176 AND 180 MERRIMON AVENUE, FROM HIGHWAY BUSINESS DISTRICT, COMMERCIAL BUSINESS I DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING IN ORDER TO FACILITATE ADDITIONAL OUTPARCEL DEVELOPMENT IN ADDITION TO THE HARRIS TEETER STORE, AND A MODIFICATION REQUEST TO THE LANDSCAPE BUFFER

Urban Planner Julia Fields said that this is the consideration of an ordinance to conditionally zone Harris Teeter Phase 2, located at 17 and 23 Eloise Street and 136, 176 and 180 Merrimon Avenue, from Highway Business District, Community Business I District and RS-8 Residential Single-Family High Density District to Highway Business District/Conditional Zoning in order to facilitate additional outparcel development in addition to the Harris Teeter Store, and a modification request to the landscape buffer. This public hearing was advertised on January 11 and 18, 2013.

Ms. Fields said that the project site is approximately 8.45 acres in size, consists of four separate parcels, and is currently addressed as 17 and 23 Eloise Street and 136, 176, and 180 Merrimon Avenue. The vast majority of the property (7.3 acres) is zoned Highway Business (HB). The remainder of the property is zoned Community Business I (CBI), and Residential Single-Family High Density (RS8) Districts. Construction is underway on approximately 4.62 acres of the southern portion of the site for a Harris Teeter grocery store (45,000 square feet). There are two vacant houses and office buildings on the remainder of the property.

The applicant is petitioning for conditional zoning of the entire site to Highway Business Conditional Zoning (HBCZ) to allow for the construction of up to five outparcels on the approximately 3.83 acres of the northern portion of the property in addition to the construction of the grocery store. On the site plan there are three outparcels depicted, however, this configuration is subject to change. The developer has proposed placing the following parameters on the development of the outparcels:

- No more than four outparcels.
- Buildings shall be no more than 32 feet in height.
- Those buildings fronting on Merrimon will be oriented to the street and placed as close to Merrimon as is reasonably possible based on the ultimate uses.
- The architectural design and building materials used for the outparcels will be similar to that being utilized in the Harris Teeter construction.
- A maximum of 25,000 square feet of building space will be constructed on the outparcels.
- No more than one drive-thru operation will be permitted.
- As each outparcel is brought in for detailed review a Level I review may be triggered, dependent on the extent of variation from this concept plan.

The developer met with the residents/property owners from the neighborhood to listen to their concerns and discuss the plans. The developer incorporated a number of the neighborhood interests into the plans submitted for review.

Access to the site is as was approved under the Level II review via Merrimon Avenue and East Chestnut Street. A traffic impact analysis was prepared in conjunction with the conditional zoning application and was based on the above parameters and one drive through facility being located on the property. Sidewalks will be provided along all sides of the property.

Parking was approved for Harris Teeter (214 spaces) under the Level II review. Parking for the outparcels will be reviewed as details for each are finalized.

Buffering, street buffers, and street trees will be reviewed as part of the conditional zoning process subsequent to approval of the rezoning. Building impact and vehicular use area landscaping will need to be checked for compliance as details for each outparcel are finalized. Alternative compliance for the buffer along Holland Street (due to existing site conditions) on the Harris Teeter portion of the site received approval from the Tree Commission. The developer is requesting a minor modification of the required buffer width and plantings along Eloise Street, due to the retaining wall proposed and sidewalk placement. Open space is proposed to be urban open space. The development proposes to incorporate a number of urban open space features throughout the site with a focus along Merrimon Avenue. The buildings will be located closer to Merrimon than the typically required 35 foot front setback for Highway Business zoning. A public area and bus stop will be located near the corner of Merrimon Avenue and East Chestnut Street and the urban open spaces all along Merrimon Avenue will be connected via a 10 foot sidewalk. The sidewalk area will contain benches periodically spaced to offer public seating. An existing stone monument and wrought iron fence from the site will be incorporated into the bus stop/public area. Based on the final use of the parcels fronting on Merrimon Avenue, outdoor seating may be incorporated into the areas and connected to the sidewalk on Merrimon Avenue. Significant portions of the historic stone walls have been maintained and new walls erected are designed to complement these walls.

The Technical Review Committee of the City of Asheville reviewed this application at its meeting on November 19th.

The Planning and Zoning Commission first heard this matter at a meeting on December 5, 2012. At that meeting they did not support the proposal (3-3 vote) and the issue of most concern was a proposal for allowing two drive-thru uses (which the staff also did not support). However, due to a notification error resulting from changes to computer software, the conditional zoning request was reheard on January 2, 2013. At that meeting the developer had changed the proposal to limit the development to only one drive-thru use. The Commission voted at this meeting to recommend the rezoning to you in a vote of 4-1. The Commission did express general concern about the underlying zoning of the property, but there was general acknowledgement that the current proposal was not the correct venue for those concerns.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed concept master plan has been reviewed by the City's Technical Review Committee which approved the plan with conditions. In conducting this review, the TRC evaluated health and safety issues.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   There are no significant natural or topographic features on the site and much of the site has already been improved as part of the grocery store construction. The proposed development is similar to other uses/buildings along Merrimon Avenue. While staff believes that City policy indicates a preference for buildings of a more urban nature, the proposed one story limitation is permitted, and not unusual, in the Highway Business zoning district.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The site was previously occupied primarily by a car dealership and later by other commercial ventures and largely consisted of impervious surfaces. The concept plan is anticipating commercial development of the entire site but should improve the value of adjoining properties through improved landscaping and aesthetics on the site.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   As previously indicated, the conceptualized commercial development of this site is similar to the scale, bulk, coverage, and character of much of the commercial development along Merrimon Avenue in the vicinity.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**

   The area is shown as a potential urban village in the Asheville City Development Plan 2025. [An urban village proposal in 2007 was pulled from consideration by the applicant at the time]. The proposal supports the goal of locating larger commercial uses in appropriate areas easy to access from the interstate and adequately served by public services. The proposal supports the strategy of providing a transit stop as part of a redevelopment located along a transit route. Certain elements of the proposed development do not support the City's interest in limiting suburban development patterns in more urban settings, but the current Highway Business zoning of the majority of the property does not support this goal.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
   The development is located along a principal transit route and on a major thoroughfare in the City. The project has received approval from the City's Technical Review Committee concerning issues of water, fire, police protection, etc.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
   The applicant has submitted a traffic impact analysis for the project that has been reviewed and approved by the City's Transportation Department. A traffic signal and other improvements to Merrimon Avenue and East Chestnut are incorporated in the plans.

Pros:

- Provides for greater use of a large property on a major thoroughfare within the city limits.

- Improved transportation amenities, large sidewalks, public open space areas, and greatly enhanced landscaping will improve the aesthetic impact of the site.

Con:

- The development, while providing some urban amenities, is largely suburban (auto access oriented) in nature in a gateway area close to downtown.

This conditional zoning request was recommended for approval by a 4-1 vote of the Planning and Zoning Commission. Five people spoke at the Planning & Zoning meeting with most speakers concerned about drive thru facilities and in particular fast food restaurants. There was also concern expressed about traffic congestion in the surrounding residential area.

At a meeting on November 19, 2012, the Technical Review Committee of the City of Asheville reviewed this proposal and approved it with conditions. On January 2, 2013, the Planning and Zoning Commission recommended approval (4-1) with the following conditions:

- The conditions recommended in the TRC report.
- The standard conditions listed below.
- That there are no more than four outparcels.
- Buildings shall be no more than 32 feet in height.
- Those buildings fronting on Merrimon shall be oriented to the street and placed as close to the street as is reasonably possible based on the ultimate uses.
- The architectural design and building materials used for the outparcels will be similar to that being utilized in the Harris Teeter construction.
- The developer is allowed no more than one drive thru operation.
- A maximum of 25,000 square feet of building space will be constructed on the outparcels.
- As the uses are submitted for final review, if the traffic counts exceed those indicated in the originally submitted traffic study, a new traffic impact analysis would need to be conducted and approved including the traffic impact from Trader Joe's.
- There be sidewalk connectivity from Merrimon Avenue to the buildings constructed on the outparcels.
- City Council review and condition the list of permitted uses for the site.
- No dumpster will be located within 100 feet of residential properties.

She then responded to various questions Council raised earlier, those being: can the parking lot be shielded; why wouldn't the N.C. Dept. of Transportation (NC DOT) install a traffic light at Broad Street and Merrimon Avenue; if the project is denied, what can the developer do as a use by right; could the developer develop the commercial part of the property; can the developer leave the RS-8 portion of the property undeveloped; and if the project is denied, could the developer ignore the other recommended conditions.

City Traffic Engineer Jeff Moore said the original study was produced in 2010 which included two restaurants - one with a drive through and one without. When the project was revised to be one restaurant with a drive through and additional retail space, the impact of the restaurants went down and freed up a lot of trips. The improvements being done to mitigate the traffic are still appropriate with the change. The NC DOT has the jurisdiction over Merrimon Avenue and under their guidelines, the Broad Street traffic light would be too close to the existing traffic signal on Chestnut. The new signal will be incorporated into the NC DOT computers for timing. The right-in and right-out condition being installed at Broad Street is another condition that NC DOT required. It will make it safer because of the crest of the hill on Merrimon Avenue. Future out parcels will be reviewed as they come in. If the impact of the traffic of future uses exceeds that which was projected in the original TIS then it will have to be reviewed again and at that time the traffic from Trader Joe's will be factored in.

In response to Councilman Bothwell, Mr. Moore said that there will be a left turn lane into Trader Joe's going north.

In response to Councilman Davis, Mr. Moore said that when the original TIS was done, Trader Joe's was not proposed, therefore, the TIS only took into account existing conditions at that time. When they learned about Trader Joe's, we allowed the developer to keep the TIS because the impact was less than what was originally proposed. If something happens to change this (a use that caused additional traffic so that these numbers are no longer valid), the TIS would have to be re-done. At that point, since it would be a new TIS and we now know about Trader Joe's, it would have to take that traffic into account.

City Attorney Oast said that Council has the ability, through this process, to add conditions.

In response to Councilman Hunt, Mr. Moore pointed out on the master plan all pedestrian accesses into and out of the site. Ms. Fields said that there are a narrow set of steps (which are not Americans with Disabilities Act compliant) in the back of the property and on Eloise Street at the request of the neighborhood.

When Councilman Hunt asked how a drive through restaurant compares to a walk-in restaurant, Mr. Moore said that he expected to see more trips for a drive through due to the convenience factor.

Mr. Steve Vermillion, developer, was happy to answer questions. He did note that there is a sidewalk that runs the entire length of the property. He asked that Council consider delaying the vote until Mayor Bellamy can take part in the discussion.

When Councilman Hunt asked how critical a fast food drive-through is on the site, Mr. Vermillion said it is critical for the success of the development. He said they cut back on their request from two drive-throughs to one in order to attract of the users, like a bank or coffee shop or a fast food restaurant.

Vice-Mayor Manheimer opened the public hearing at 6:40 p.m.

The following individuals spoke about their concerns of a drive through, especially for a fast food restaurant , for several reasons, some being, but are not limited to, drive throughs run counter to the 2025 Plan; idling produces carbon and contributes to global warming; need to get people to get out of their cars, which will help in the obesity epidemic; air quality issues from idling, Harris Teeter will already have a drive-through; developer should help pay for traffic calming in the area; developer should not be allowed to use Chestnut Street; request that the developer lease the 2-door house on the property; fast food restaurants are responsible for a lot of litter; lights from development should be shielded for the neighborhood; developer should renovate the two homes on Eloise Street and not tear them down; the development will encroach on established residential neighborhoods; homes are beginning to be renovated in the area and bringing in a fast food restaurant will not help revitalize the area; need for sidewalks in the area; safety for pedestrians, bicyclists and drivers; cut-through traffic; need for traffic calming measures due to speeding; already traffic congested area; odor from fast food restaurants; concern of additional Trader Joe traffic in the area; narrow streets cannot handle additional traffic; request for no through traffic on area streets; quality of life of neighborhood will suffer; will decrease property values in the area; suggestion to ask developer to make this a mixed-use plan and include housing on site to help further reduce global warming; dumping of refuse and litter behind the site; existing excessive traffic; noise; distracted drivers; significant crossing issue at Chestnut and Maxwell intersection; suggested City adopting the anti-idling policy for service trucks; and parking on the streets is now a problem:

Ms. Heather Rayburn, representing the Five Points Neighborhood

Ms. Megan Kirby, resident on Eloise Street
Mr. Nick King, resident on Fulton Street
Mr. Alan Ditmore, Leicester resident
Ms. Shelly Lloyd, resident on Holland Street
Resident on Mt. Clare
Ms. Brandee Boggs, resident of Five Points Neighborhood
Mr. Greg McCoy, resident on Monroe Place

Vice-Mayor Manheimer closed the public hearing at 7:23 p.m.

City Attorney Oast suggested that if City Council continues this matter that they reserve the right to re-open the public hearing if new information is brought forward, noting that if the hearing is re-opened that the comment will be limited only to the new information.

Councilman Hunt moved to continue this matter until February 12, 2013, and that Council reserve the right to re-open the public hearing to receive new information only. This motion was seconded by Councilman Smith.

Councilman Hunt said that the 2025 Plan represents the principles of smart growth and in that Plan it suggested that this area be developed as Urban Village. That would have been the most appropriate development for this site. The zoning of this property is almost entirely Highway Business and a big part of the struggle is how do we deal with it given the hand we're dealt. It is painful for him to see a suburban strip mall development so close to downtown. He agreed that we need to step back and consider other sites around town and be careful that they are zoned in a way that reach the goals laid out in the 2025 Plan. The options before Council do not include an option to unilaterally make it so that there won't be a fast food restaurant on the site. Council can vote in favor of the conditional zone and there be one drive-through, or vote it down and the developer as a right by use can have a drive-through. He hoped the continuance would allow for continued dialogue for the City and the developer to consider other conditions.

Director of Transportation Ken Putnam responded to Councilman Pelly when he asked about the ordinance prohibiting truck traffic from using specific roads.

In response to Councilman Pelly, City Attorney Oast said that he was not aware of the anti-idling policy on loading and unloading being anything but a suggestion or a recommendation by the N.C. Dept. of Environment and Natural Resources, but would be happy to check on that.

Ms. Fields responded to Councilman Bothwell when he asked about why the buildings are as close to Merrimon Avenue as possible. City Attorney Oast said that Council can specify in the conditional zoning permit that vehicular maneuvering areas be located away from the Merrimon Avenue frontage.

When Councilman Bothwell asked Mr. Vermillion if he would consider a restriction on not having a fast food drive through restaurant on the site, Mr. Vermillion replied no. He said that from a financial standpoint as well as other reasons, the owner doesn't feel they can do that.

The motion made by Councilman Hunt and seconded by Councilman Smith carried unanimously.

**Closed Session**

At 7:41 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: City of Asheville; Roger Aly. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged

and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:56 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

**B. PUBLIC HEARING TO CONSIDER A SIGNAGE PLAN FOR UNC-ASHEVILLE**

**FIRST READING OF ORDINANCE NO. 4159 - ORDINANCE APPROVING A SIGNAGE PLAN FOR UNC-ASHEVILLE**

Assistant Planning & Development Director Shannon Tuch said that this is the consideration of a comprehensive signage plan addressing a wide variety of signage needs for the UNC-Asheville campus. This public hearing was advertised on November 2 and 9, 2012. This public hearing was continued from November 13, 2012, to this date.

Vice-Mayor Manheimer opened the public hearing at 8:09 p.m.

The applicant is seeking the approval of a comprehensive signage plan addressing a wide variety of signage needs for the UNC-A Campus including:

- Building identification (free-standing)
- Building identification (attached)
- Pedestrian directional
- Vehicular directional
- Gateway
- Informational kiosk
- Parking lot
- Street & traffic control
- Banners

The project area is quite large, approximately 300 acres, and is somewhat unique in that it must provide appropriate identification and wayfinding to both a significant pedestrian population as well as to the steady flow of vehicles that visit the campus throughout the day. In addition to providing signage that helps visitors find their way around campus, the University also set forth the goals to define the campus perimeter, create a strong sense of place, and to highlight the university's assets, features, amenities and destinations.

The majority of the signs included in the package are located internally to the campus property and not visible from the boundaries, and under the existing sign standards these signs would not be required a sign permit. As a result, these signs which generally include building identification (both attached and free-standing), traffic & street signs, pedestrian information & directional, and parking lot signs are not evaluated in any great detail and are reviewed for their consistency in design & style (typography, color palette, iconography, etc.) with the overall plan. The more substantial signs, both in size and visual impact are the focus of this report's analysis – these signs include:

- Vehicular Informational signs
- Vehicular directional signs
- Gateway signs, and
- Pole banners

***Vehicular Informational signs.*** There are only two of these signs proposed where motorists would pull up and review the campus map to understand the overall layout and perhaps seek directions to a specific location. These signs are single-faced, free-standing signs with a wide base, and are proposed to have an overall height of 5'10" and will be approximately 25 square feet.

The number and proposed locations for these signs appears appropriate and appear to offer valuable information. The individual permit should include a schematic of the pull off area to allow the transportation department the opportunity to review for conflicts and ensure safe maneuvering.

***Vehicular Directional Signs.*** There are 24 vehicular directional signs proposed. These signs are double-faced, post-mounted signs and stand approximately 14' tall and are 22.5 square feet per face. These signs are intended to pick-up where the regional wayfinding signs leave off, providing more detailed information. Once being directed off of WT Weaver Blvd. or Broadway Ave. the motorist can rely on UNC-A's directional signs to guide them to the appropriate entrance and the most direct route to their desired destination.

An earlier version of the UNC-A proposal generated some concern with overlap and/or conflict with the existing CVB wayfinding signage, particularly for those signs located on WT Weaver Boulevard and Broadway Avenue. After meeting with the City staff and the CVB, the application has been amended to largely address these concerns. The only remaining concern was voiced by the neighbors in the area at a recent community meeting and generally related to the overall number of signs that a non-campus visitor may have to experience, some of whom use these routes multiple times a day.

***Gateway signs.*** There are five proposed gateway sign locations:

- Merrimon Ave. & WT Weaver Blvd.
- WT Weaver Blvd. & University Heights (round-about)
- University Heights & Campus Drive (triangle intersection)
- Broadway Ave. & Campus Dr.
- Broadway Ave. & WT Weaver Blvd.

The dimensions and square footages vary some based on the intersection location, whether there is an existing stone base that would be re-used, and whether the sign is a curved or straight. In general, the overall dimensions are not concerning and are appropriately scaled for the type and style of sign, and the proposed stone bases provide a natural and attractive aesthetic. Generally speaking, gateway signs serve an important purpose and provide a valuable "announcement" that that the traveler has entered the main campus property. Once beyond the "gate" the traveler would normally expect to rely on Vehicular Directional Signs to find the appropriate directions to the desired location.

As currently proposed, however, a traveler approaching from Merrimon Ave. or Broadway Ave. would potentially pass three separate "gateways" before arriving on the main campus. The more concerning locations are the two located at Merrimon & Weaver and Broadway & Weaver. Both of these locations have existing CVB wayfinding signage that would appropriately direct motorists off of the main thoroughfares toward the campus entrances. To approve the signs as currently proposed would result in an overlap with the existing CVB vehicular directional signs that include signage for the Botanical Gardens as well as UNC-A. These two signs also have the potential for communicating to the unfamiliar motorists that the UNC-A property continues south rather than east or west, depending on where they would observe the signs.

***Banners.*** There are approximately 67 banners proposed to be mounted on existing Progress Energy light poles, with additional poles installed as needed to maintain a consistent

spacing pattern. These proposed banners are rectangular double sided and approximately 12 square feet. Of the 67 banners proposed, 44 are located in the core campus area on the University controlled roads of Campus Dr. and University Heights. The other 23 banners are located along WT Weaver Blvd. and Broadway Ave.

The City of Asheville has an existing banner policy established in 2004 that established standards for a growing interest in use of banners for the promotion of special events and neighborhood identification. Also, that policy generally addresses banners as a temporary or occasional use. Banners for the use of marketing or branding were strongly discouraged during the consideration of this policy. The UNC-A banner proposal could be considered neighborhood identification but, it could also be argued that the use of banners is an effort to promote the UNC brand, and it is unclear how institutional uses should be considered. With respect to the standards regulating banners for neighborhood identification, the UNC-A proposal deviates primarily because it is intended to be permanent identification when the existing standards limit duration for a period of one year, renewable at the discretion of the director.

The banners proposed to be located internally on Campus Dr. and University Heights are not of great concern because they have limited visibility and, therefore, minimal impact on the larger Asheville community. The UNC-A proposal for the banners on Broadway and WT Weaver are of greater concern because these are roads that are commonly used by non-campus visitors, particularly by those residents in the adjacent neighborhoods of Jackson Park, Five-Points, and Montford. Additionally, while UNC-A owns property along WT Weaver and Broadway, the use of the banners extends beyond what is generally considered the campus boundaries and includes segments of WT Weaver and Broadway that are commonly used for access by other users and property owners.

A secondary concern is that the banner signs proposed are non-standard. The standardization for banner sizes in the banner policy was intentional to allow for shared use of hardware and poles by multiple users. The non-standard size and permanency of the UNC-A banners would preclude the use of the banners by other users. Additionally, UNC-A proposes to install new poles along the roadways where there is limited visibility and shoulder space. This results in new obstructions along the roadway and may necessitate the pruning or removal of existing vegetation.

Staff Findings: The University has provided a statement regarding the desired goals for identification, wayfinding, and place making, which has inspired several aspects of their signage plan. However, the City's purpose of allowing the consideration of a separate signage plan is as follows:

*The purpose behind this section is to permit creativity in sign design and placement to address site issues and constraints associated with topography, pedestrian-orientation, way-finding and other conditions unique to the subject development.*

The large majority of the proposed signage plan is easily supported and offers valuable and consistent identification and wayfinding for students and campus visitors. The areas of concern center on the gateway signage removed from the campus and the unprecedented use of pole banners in size, number of banner poles proposed, and intent for continuing use.

The gateway signage proposed to be located at 1) WT Weaver & Merrimon and, 2) WT Weaver & Broadway overlap with existing regional wayfinding signage already located at those intersections directing visitors to the campus property. One significant goal of the regional wayfinding program was to reduce the need for multiple signs which is in conflict with this proposal.

The pole banners on WT Weaver and Broadway are one method of perimeter identification, however, creative alternatives could also be considered that do not require the use

of banners. Also of concern, regarding both the gateway and pole banners, is that those signs that are located further from the campus perimeter appear to provide branding more than wayfinding or identification.

Pros:

- Provides improved identification and wayfinding to students, faculty, and campus visitors.
- Improved consistency of color, font, and iconography between all signs improves campus recognition.

Cons:

- Signs are numerous and have a visual impact on adjacent neighborhoods and non-campus travelers using perimeter roads.
- Multiple gateway signs may confuse visitors.
- Two of the five gateway sign locations overlap with existing regional wayfinding signage and is contrary to one of the regional wayfinding goals.
- Use of pole banners (permanency and non-standard size) is inconsistent with the City's banner policy.
- Permanent banners preclude the use of banners by other users.
- Signs not consistent with city policies and practices have the potential to establish an undesirable precedent.

Staff recommends that the signage plan for UNC-A be approved, subject to the following conditions:

1) Gateway signs be limited to the following locations:
    - WT Weaver Blvd. & University Heights (round-about)
    - University Heights & Campus Drive (triangle intersection)
    - Broadway Ave. & Campus Dr.
2) Pole banners are restricted to Campus Dr. and University Heights.
3) All signs located within road rights-of-way shall obtain all necessary approvals or encroachments from the regulating agencies.
4) Any changes to the signage included in this plan may require a new review by City Council.
5) All signs shall comply with the proposed standards and no exceptions or variances are permitted (minor changes to sign location due to visibility or other site constraints may be permitted).

Alternative Recommendation: Should Council wish to consider an alternative allowing pole banners on Broadway and WT Weaver, staff recommends substituting the following condition #2:

2) Eliminating the eastern segment of WT Weaver (from University Heights to Merrimon) and the southern segment of Broadway (from WT Weaver south) from consideration for pole banners, and requiring the use of standard size banners and options for shared use by other users (per the banner policy) on the other segments of these roads.

In response to Councilman Bothwell, Ms. Tuch said that the City adopted a banner policy in 2004 for the purpose of providing neighborhood and business district identification or to promote a special event. One concern about the banners is that the infrastructure that UNC-A proposes to use wouldn't be consistent with what we are looking for when we established the banner policy. The infrastructure was to promote multiple users and the hardware was a standard size to allow special event promoters to make use of that hardware at different times. UNC-A proposes to install their own poles and use their own hardware. It would not be available to the general public. It is also less consistent with the banner policy because that policy requires a one-year renewable time period, but UNC-A proposes the banners to be permanent.

Vice-Mayor Manheimer opened the public hearing at 8:24 p.m.

Mr. Rob Nelson, representing UNC-A, listed the goals for the project, which included improving wayfinding for visitors to their campus. As a result of meetings with City staff, Convention & Visitors Bureau, and some neighbors, they made changes to their original plan. They reduced the number of banners by 50% along WT Weaver and Broadway; reduced the overall size of the individual banners from 30x84 inches to 24x72 inches; eliminated the double banners on one pole; revised their approach on the gateways; and made sure that all signs and banners will be on UNC-A property. He urged Council to approve their request in order to allow them to achieve their goals.

Mr. Chad Roberson, representing PBC&L, reviewed the details of the plan outlined the need for wayfinding on and off campus.

Vice-Mayor Manheimer closed the public hearing at 8:33 p.m.

As Councilman Smith felt that having the pole banners on the boundaries really defines their space, but he didn't want other people who already have a neighborhood identity to have to adopt the UNC-A identity. Therefore, Councilman Smith moved to approve the UNC-A sign package, subject to the following conditions: (1) Gateway signs be limited to the following locations: (a) WT Weaver Blvd. & University Heights (round-about); (b) University Heights & Campus Drive (triangle intersection); and (c) Broadway Ave. & Campus Dr.; (2) Eliminating the eastern segment of WT Weaver (from University Heights to Merrimon) and the southern segment of Broadway (from WT Weaver south) from consideration for pole banners; (3) All signs located within road rights-of-way shall obtain all necessary approvals or encroachments from the regulating agencies; (4) Any changes to the signage included in this plan may require a new review by City Council; and (5) All signs shall comply with the proposed standards and no exceptions or variances are permitted (minor changes to sign location due to visibility or other site constraints may be permitted).

Councilman Davis said that UNC-A owns the land and even though there is neighborhood around them, it's still their campus. He supported the package submitted by UNC-A (including the two additional gateway signs).

Councilman Smith withdrew his motion.

Councilman Bothwell could not support the motion as he didn't think you need to enhance natural beauty by putting up signs.

Councilman Pelly understands they own the property along Broadway and WT Weaver, but it's largely undeveloped now. Then the time comes when the property is developed by UNC-A he would be fine having the pole banners along that route as well. But now, if you lived in the immediate neighborhood around there, the perception would be that the university banners border a residential neighborhood area.

Councilman Hunt felt that our sign ordinance is largely geared toward commercial signage and this is more of a wayfinding context. He said that UNC-A is a partner in the community in so many ways and rather than override a specific request they have made, he moved to continue the public hearing until February 12, 2013, and encourage City staff and UNC-A to look at the issues more closely and try to reach a consensus. This motion was seconded by Councilman Davis.

When Vice-Mayor Manheimer asked for public comment on the motion to continue, no one spoke.

Councilman Hunt and Councilman Davis withdrew their motion to continue the matter.

Councilman Smith said that he has not heard from any of the neighbors about their objection to the pole banners, and hoped that if UNC-A receives any negative feedback that they would take that feedback seriously as neighborhood identities run deep. Therefore, he moved to adopt Ordinance No. 4159, approving the UNC-A sign package, subject to the following conditions: (1) Gateway signs be limited to the following locations: (a) WT Weaver Blvd. & University Heights (round-about); (b) University Heights & Campus Drive (triangle intersection); (c) Broadway Ave. & Campus Dr; (d) Merrimon Ave. & WT Weaver Blvd.; and (e) Broadway Ave. & WT Weaver Blvd.; (2) All signs located within road rights-of-way shall obtain all necessary approvals or encroachments from the regulating agencies; (3) Any changes to the signage included in this plan may require a new review by City Council; and (4) All signs shall comply with the proposed standards and no exceptions or variances are permitted (minor changes to sign location due to visibility or other site constraints may be permitted). This motion was seconded by Councilman Davis.

Vice-Mayor Manheimer opened the public hearing at 8:44 p.m. and when no one spoke, she closed the public hearing at 8:44 p.m.

The motion made by Councilman Smith and seconded by Councilman Davis carried on a 4-2 vote, with Councilman Bothwell and Councilman Pelly voting "no."

City Attorney Oast said that because the motion failed to receive the 2/3 vote necessary to pass on the first reading, it will have to come back to Council at their next meeting for adoption on the second reading.

**ORDINANCE BOOK NO. 28 - PAGE 109**

**RESOLUTION NO. 13-18 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT THE THE UNIVERSITY OF NORTH CAROLINA AT ASHEVILLE FOUNDATION INC. FOR TRAIL DEVELOPMENT ON 525 BROADWAY DRIVE FOR THE REED CREEK GREENWAY**

Director of Parks, Recreation & Cultural Arts Roderick Simmons said that this is the consideration of a partnership with The University of North Carolina at Asheville Foundation, Inc. for the development of 525 Broadway as part of the Reed Creek Greenway Corridor.

The City has received a request from The University of North Carolina at Asheville Foundation, Inc. for the City to partner in development of 525 Broadway as part of the Reed Creek Greenway Corridor. The City of Asheville, RiverLink, Inc., the Foundation, and others have had continuing discussions regarding the construction of a greenway to be located on a portion of the property in approximately the location 525 Broadway as a part of the Reed Creek Greenway envisioned by the City.

The Foundation will submit a 2013 Federal Recreational Trails Program (RTP) Grant Application to the North Carolina Division of Parks and Recreation for a $200,000 potential grant to fund a portion of the design and construction costs for the greenway project with a target completion date of no later than August, 2015. The Grant Application is due no later than January 31, 2013.

The total cost of the greenway based on current estimated design and construction costs will be approximately $410,000. The Foundation will provide an amount not to exceed $75,000 toward the estimated costs. The Foundation would like the City to support the Final Grant Application and for the City to provide $75,000 in matching financial support, and RiverLink, Inc. to support the Final Grant Application and to provide $60,000 in financial support toward the construction component of the greenway.

202

The City's $75,000 contribution for this project will come from the approved FY 2010-2011 capital improvement budget for greenway development in the Parks, Recreation & Cultural Arts Department.

Revenue sources for the project are summarized below:

| | |
|---|---|
| City's Contribution | $75,000 |
| UNC-A Foundation Contribution | $75,000 |
| River Link (Private Donations) | $60,000 |
| RTP Grant (if awarded) | $200,000 |
| Total project budget | $410,000 |

In the event that total project cost is less than $410,000 then the project costs will be shared in the proportions indicated above between the Foundation, City and RiverLink such that each parties' contribution commitment would be reduced pro rata.

If the Foundation does not receive the full $200,000 requested in the Final Grant Application or the final cost estimates or bids for the design and construction of the Greenway project exceed $410,000, then the Foundation shall continue to work with the City, RiverLink and other interested parties to find an alternative way to accomplish the Greenway project

The Foundation is requesting approval of a partnership agreement with the City to develop the Reed Greek Greenway component as outlined below:

1) Support the Foundation submitting a 2013 RTP Grant for $200,000
2) Provide $75,000 in matching funds towards development of the project
3) Support a future land swap that will move the greenway closer to the stream.

This action complies with the City Council Strategic Operating Plan by demonstrating fiscal responsibility through leveraging external partners to pursue master plan implementation. In addition, the Greenway Commission reviewed and approved the terms of this partnership agreement at its meeting on January 10, 2013.

Pros:
- Leverage outside funding to implement the Greenway Master Plan
- Accelerate the development of this greenway section
- Provide a needed linkage in the Reed Creek Greenway Corridor

Con:
- None

The requested $75,000 has been allocated for Greenway Development and is already included in the Park, Recreation and Cultural Arts Department's Capital Improvement Plan.

City staff recommends City Council to adopt a resolution authorizing the City Manager to enter into an agreement with The University of North Carolina at Asheville Foundation, Inc. for the development of 525 Broadway as part of the Reed Creek Greenway Corridor.

Vice-Mayor Manheimer was excited to note that the UNC-A students have committed a small portion of their fees to be dedicated towards this project. She felt this is a nice public/private/student partnership.

Councilman Hunt also spoke in support of the resolution acknowledging all the partners in this project.

Mr. Tim Schaller, formerly Montford resident, spoke in support of this project.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 13-18. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 169**

**C. PUBLIC HEARING TO CONSIDER A CONDITIONAL USE PERMIT FOR NEW BELGIUM BREWING COMPANY LOCATED AT 157 CRAVEN STREET FOR A BREWERY AND DISTRIBUTION CENTER, WITH A MODIFICATION TO THE DRIVEWAY WIDTH, BUILDING HEIGHT AND LANDSCAPING**

**ORDINANCE NO. 4160 - ORDINANCE APPROVING A CONDITIONAL USE PERMIT FOR NEW BELGIUM BREWING COMPANY LOCATED AT 157 CRAVEN STREET FOR A BREWERY AND DISTRIBUTION CENTER, WITH A MODIFICATION TO THE DRIVEWAY WIDTH, BUILDING HEIGHT AND LANDSCAPING**

**ORDINANCE NO. 4161 - BUDGET AMENDMENT FOR MULTI-MODAL IMPROVEMENTS ON HAYWOOD ROAD**

**RESOLUTION BOOK NO. 13-16 - RESOLUTION IN SUPPORT OF PRIORITIZING FUTURE FUNDING OF THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT TO INCREASE THE CLEARANCE OF THE RIVERSIDE DRIVE RAILROAD OVERPASS (IF FEASIBLE) AND IMPROVE THE RADIUS AT THE CRAVEN STREET BRIDGE AND RIVERSIDE DRIVE IN BOTH DIRECTIONS TO ALLOW FOR LARGE TRUCKS TO TURN, AS THE FIRST FUNDED COMPONENTS OF THE PROJECT**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

All Council members disclosed that they have visited the site, received e-mails and attended community meetings; however, they would each consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Vice-Mayor Manheimer opened the public hearing at 8:56 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that this is the consideration of the issuance of a conditional use permit for the project identified as New Belgium Brewing Company located at 157 Craven Street (City Exhibit 4 - Location Map), to develop a brewery and distribution center (the 216,237 square foot facility will also include administrative offices, visitor's center, and outdoor recreational spaces) and the a request for modifications to driveway width, building height and landscaping.

Ms. Bernstein said that the applicant is requesting review of site plans for the construction of a brewery for the production of up to 700k barrels of beer per year with additional space for administrative offices, a retail/visitor center, parking and outdoor recreational spaces (City Exhibit 5 - Master Plan Rendering). This project is considered a Level III review pursuant to Section 7-5-9(a) of the UDO which designates review for industrial uses of over 100,000 square feet. Level III projects are reviewed as Conditional Use Permits in all zoning districts.

The site consists of a 19.81 acre parcel located on Craven Street between Haywood and Hazel Mill Roads in the River District of West Asheville. The parcel is zoned River and is currently vacant (previously held uses included storage and the old stockyards - buildings have not yet been removed as of the writing of this report but the uses have ceased). The site is bordered by the French Broad River to the east, River District and Commercial Industrial-zoned parcels to the north, Commercial Industrial and RM-8 to the west and River District to the south. The immediate vicinity across Craven Street includes some single-family houses, commercial uses and vacant parcels (both residentially and commercially-zoned).

The proposal is to create a brewery with packaging, administrative and production facilities as well as retail, recreation and visitor uses. Plans indicate a total of 205,737 square feet divided between the production building (42', 2-stories, and 193,757 square feet – storage tanks up to 88') and the liquid center (28', 1-story, and 11,980 square feet). There is also a separate recycling building included in the overall square footage (60', 4,200 square feet).

Additionally the proposal includes space provided for truck access and loading/unloading, separate employee and visitor parking, an event lawn and an active greenway connection along the French Broad River. The site is loosely divided between production and employee uses to the north and visitor uses to the south.

Vehicles will access the site from three driveway cuts with one 40' driveway at the northern end for truck access. The 24' wide employee driveway and the 30' two-way visitor access point are both located towards the southern end of the site.

Parking is provided in three locations as well. The primary employee lot will provide 56 spaces (2 HC accessible); the visitor lot has 51 spaces (2 HC accessible) and 6 spaces are proposed near the loading area at the production center (1 HC accessible). There will be 50 bike spaces divided between two locations. **Note that plans show two alternatives for the employee surface parking lot. There is an interpretation currently under review at the State level prohibiting off-street parking under high voltage power lines. Plans provided address the desired layout with parking in the easement location but also moved outside that area in case the interpretation stays as written.

There are abundant pedestrian pathways into and throughout the site and sidewalks are to be provided along the entire frontage of the property as a part of the separate Major Subdivision submittal.

Landscaping is required for this project and will include street trees, street buffer, parking lot landscaping, building impact landscaping, screening of loading docks and preservation of landscaping in the required River Resource Yard (an area designated to preserve existing tree stands for river bank stabilization, erosion control and improved water quality). Due to existing Progress Energy transmission lines, the spacing and composition of the street trees and other landscaping up towards Craven Street in these areas may need to be varied in order to comply with utility company restrictions.

Fifteen percent of the total lot area is required to be dedicated as open space, which would be 2.97 acres for this site. More than the minimum is proposed, with at least 3.16 acres shown on the plans. Developments in the River District are required to provide a River Resource Yard and this location is shown on the plans coinciding with the setback from the French Broad River and encompasses dedicated open space as well as a greenway path.

*Modifications:* The applicant is requesting the following standards to be modified, based on the unique features of the site and use:

1. *Driveway Width* - The maximum driveway width allowed per the UDO is 24 feet at the throat and 36 feet at the radii. Plans indicate a 40 foot throat / 100 foot radius at the truck entrance; a 30 foot / 75 foot radius with a raised median at the visitor parking access and a driveway with a 50 foot radius at the employee access.

2. *Building Height* - Maximum building height allowed is 60 feet in the River; the malt building maximum height is 77 feet and the storage and production tanks are 88 feet maximum.

3. *Landscaping* - Restrictions from planting around Progress Energy lines along Craven Street may necessitate alternative spacing of street trees as well as a break in the continuous buffer for the loading area and street buffer. Additionally, the applicant is requesting to plant shrubs instead of trees in the loading dock screening and some smaller street trees under the transmission lines.

A separate Major Subdivision application has been approved by the TRC and Planning & Zoning Commission and includes the infrastructure improvements to be performed by the City of Asheville, such as roadway improvements and realignments along Craven Street, Emma Road and other intersections along the project site. This submittal also includes two public parking locations north of the site, the sidewalks and greenway connection, on-street parking along Craven Street and stream restoration interior to the site.

This proposal was approved with conditions by the Technical Review Committee on November 19, 2012. Evaluation by the River District Design Review Committee occurred on November 28, 2012 and by the Asheville Area Riverfront Redevelopment Commission on January 10, 2013 (unanimously supported). Although not technically required, the overall project was brought before the Greenways Commission on December 13th to receive their informal support and comment (comments included a desire to see connections to and from the river onto the site and greenway).

The Planning and Zoning Commission discussed this proposal at their meeting on January 2, 2013. Significant community comment was expressed relating to the impact of increased traffic that would be generated by this development, with particular emphasis on the designated truck routes. Speakers were particularly concerned about heavy truck traffic along Haywood Road, with issues and concerns relating to safety for both pedestrians and bicycle users and impact to the historic commercial and residential character of the corridor. The Commissioners voted 4-2 in support of the project and modifications but recommended adding the following conditions: 1.) Annual review of the truck routes and traffic impacts will be required

until full build out, with reports to both the Planning & Zoning Commission as well as City Council; 2.) NBB should try to minimize the radius and width of the visitor and employee driveways to increase pedestrian safety; and 3.) NBB should divert the approximately 70% of the truck traffic that is under their control off of Haywood Road and onto the designated alternate route.

Since the Commission hearing, City staff has been meeting with community members and working towards better understanding of the issues and towards alternative solutions. City staff support conditions 1 and 2, but the staff does not recommend that Council support condition number three. Staff does recommend that Council include a condition that NBB will contribute $50,000 towards the construction of sidewalks along Haywood Road.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   The bulk of the site has been previously graded through its past uses, including the old WNC stockyard and most recently as a mini-storage facility and auction house. Building placement and impervious development is sited outside of the 50 foot setback from the river and respects the required River Resource Yard, which preserves and maintains existing vegetation to stabilize the riverbank, aid in erosion control and improve water quality. There is a separate project submittal addressing stream restoration in the interior portion of the site. The overall project is quite sensitive to the natural features and incorporates many features to improve and respect water quality and natural resources.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The overall proposal includes multiple upgrades and amenities that should enhance the value of the area and should not injure the value of adjoining or abutting properties. The development is sited so that the manufacturing portion is aligned with adjacent Commercial Industrial-zoned properties and is set back from the road, screened with vegetation. Improvements proposed with the associated submittal will enhance access to the area through the realignment of Craven Street and multiple intersections and the inclusion of bike lanes and sidewalks as well as will provide upgrades to the water line. Increased traffic and truck routes have been identified as a community concern.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   The proposed manufacturing, retail and recreation uses are all supported by the River zoning district and City-adopted plans as stated earlier in this report. The development of the site is designed to respect the required setbacks from the French Broad River and maximize the river and designated open space as amenities. Additionally, the production

aspect of the use is sited on the northern end of the parcel, closer to adjacent Commercial Industrial zoning with parking and open space providing a "buffer" against the nearby residential zoning at the southern end of the site. While there are requested height modifications above the 60 foot maximum in the zoning district; they are only for a portion of the production building and the majority of the structures are well under the maximum height allowed. The design of the buildings should compliment the character of the area, relating to the history of manufacturing along the river while incorporating contemporary and unique design elements (example reused beer bottle bottoms pressed into exterior walls of production building).

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
Elements of the overall project are directly aligned with the City's goals and objectives including enhancing the riverfront, infill development on a brownfields location, supporting a manufacturing use, multiple multi-modal transportation elements, job creation, economic and community investment, emphasis on water quality and stormwater best practices, recreational amenities with a greenway segment and related infrastructure improvements in the vicinity.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The site is located in an area supported by transit (W1 & W2) and accessible by vehicle. Adequate water supply, fire and police protection, waste disposal and similar facilities are verified during the TRC review process. Associated infrastructure improvements will enhance multi-modal access, emergency protection, waste disposal and water supply.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The draft traffic impact study has been submitted and is currently being reviewed by the Transportation Department. The purpose of the TIS is to determine the possible impacts that the project will have on the surrounding street network when the business opens in 2015 and at full buildout in 2022 and to identify any mitigation improvements that might be needed. In addition, this specific TIS is providing a comprehensive review of potential traffic generated by the project and it will address concerns that are raised by the nearby neighborhoods. The primary truck access has been identified as Haywood Road because it is classified as a minor arterial and it provides the most direct access between I-240 and the site. At this time, certain mitigation improvements have been identified and will be addressed by the developer of the project, the City of Asheville, and the North Carolina Department of Transportation.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The proposal revitalizes an adopted brownfields site and is in an area targeted by multiple City plans as an ideal location for development
- The brewery and retail use creates jobs and supports the region's growing craft beer reputation
- The overall project includes construction of a greenway segment along the French Broad River
- The site layout includes significant open space and preservation of existing vegetation, especially along the riverbed to stabilize the bank and improve water quality and erosion

- Multi-modal design features are incorporated into the design, including abundant bike parking and a transit shelter. Related infrastructure improvements will result in bike lanes and ADA-compliant sidewalks along Craven Street

Cons:

- Due to the unique use and site constraints, plans do not comply with height standards for a portion of the production facilities, landscaping requirements and driveway widths.
- Community concern has been expressed regarding the impacts from increased traffic and truck routes along Haywood Road

Staff recommends approval of the Level III development proposal for the New Belgium Brewing Company, subject to the conditions recommended by City staff, standard conditions, and conditions imposed by the Planning & Zoning Commission.

Executive Director of Public Works and Multimodal Transportation Cathy Ball said that surrounding elements of the project are being done in part by the City of Asheville, made possible with easements granted by New Belgium and a large part associated with grants. Council will not be voting on the City components of the project that are really elements to improve the entire area. Using the New Belgium presentation (Applicant Exhibit 1), Ms. Ball showed the elements that the City of Asheville will be constructing as part of the Craven Street improvements. This includes Craven Street, a realignment of the intersection coming off the Craven Street Bridge and Hazel Mill Road, a low impact development parking lot, a greenway along the River, as well as some much needed stream restoration and improvements. These are components of the project that will be constructed by the City. We are running along the same timeframe. This is a Complete Street, which showed sidewalk, parking, bike lanes on both sides, canopy trees, etc. She explained the greenway element, which will form as a trailhead at the low impact parking lot area and will go in between the New Belgium Brewery and the French Broad River. It will not have any connection to the Brewery itself for safety and security reasons. At the other end of the greenway there will be two bus stops at that location on Haywood Road. There is a jurisdictional map stream that runs through the center of the property. New Belgium has worked with the City and she thanked the Clean Water Management Trust Fund for providing a $400,000 grant to allow these improvements to occur. The improvements consist of improving that jurisdictional stream, which most of the segment is piped, and allowing for the stream to take a natural flow and to be able to clean out most of the sediments from a real urbanized watershed. In working with Buncombe County, there is a piece of property that they own that we are looking at putting in a low impact parking lot so that people can access the greenway from that location.

Ms. Ball then proceeded with the presentation for Council to consider (1) a budget amendment in the amount of $220,000 to construct multi-model improvements on Haywood Road; and (2) Resolution in support of prioritizing future funding of the RADTIP to increase the clearance of the Riverside Drive railroad overpass (if feasible) and improve the radius at the Craven Street Bridge and Riverside Drive in both directions to allow for large trucks to turn, as the first funded components of the project (City Exhibit 6 - PowerPoint).

As part of the New Belgium Brewery (NBB) development large truck traffic will utilize Haywood Road from the Haywood Road Bridge to I-240. The first year of operation 6 additional trucks (12 trips) will be added to Haywood Road per day. Upon full build-out in 2022, 52 trucks (104 trips) trucks would service the NBB site. The draft traffic impact study has determined that if all the trucks at full build-out were routed on Haywood Road it would double the number of large vehicles that currently use the roadway today.

Staff has been meeting with several neighborhood groups over the past six months to discuss the impact the NBB project would have on the groups they represent. These groups include the East West Asheville Neighborhood Association (EWANA), West End Clingman Neighborhood (WECAN), Haywood Road Business Association, Asheville on Bikes, River Arts Business Association and the Emma community.

The original traffic study completed considered the primary truck route from the Craven Street Bridge north to Riverside Drive and Hill Street. This route was not feasible because large trucks could not make the turn from the Craven Street Bridge to Riverside Drive, and the railroad underpass has only 13 feet of clearance when a minimum of 13.5 feet would be required for large truck access on Riverside Drive.

It is hopeful that from 2015 (opening of NBB) to 2022 (full build-out) that some funding for RADTIP will be obtained so that Riverside Road would be an option for large trucks. RADTIP as it currently is planned, would improve the turning radius at the Craven Street Bridge and Riverside Drive in both the north and south directions. It currently does not, however, include changes to provide more clearance between the road and the railroad bridge to allow for taller trucks.

While the traffic study indicates that Haywood Road can handle the additional truck traffic, the additional trucks would create more conflicts for other users of the roadway including bikes and pedestrians. The Planning & Zoning Commission, during their January 2, 2013 meeting, recommended a condition that would disperse traffic on other routes in an effort to mitigate this impact. While the intent of this recommendation was supported city staff and most stakeholders, the method for mitigation may not be the most appropriate or effective solution. Since the January P&Z meeting, staff, NBB and the neighborhood have been working to develop ways to mitigate this impact through other means. These alternatives items are summarized in the action items listed below for consideration by City Council.

- Adopt a budget amendment in the amount of $220,000 to construct a sidewalk, climbing lane and sharrows on Haywood Road from the West Asheville RiverLink Bridge to Beecham's Curve. The project would be funded jointly by the City and NBB. The City's portion of the funding would come from unallocated capital project savings that are being held in reserve. These improvements will allow safer multi-model use of Haywood Road.

- Direct staff to include the feasibility of increasing the scope of RADTIP to include increasing the clearance of the railroad bridge and Riverside Drive. The feasibility study would include the consideration of lowering the roadway, decreasing the clearance of the railroad bridge, replacing the railroad bridge, etc. This option would not only improve large truck access to the NBB site but would also support current and future developments along the river. Staff would be directed to provide results from this feasibility study as soon as it is available, assuming that the feasibility portion of the work would be complete before the 70% RADTIP drawings are complete.

- Adopt a resolution stating that when RADTIP is funded, this component be funded for construction first. Along with this, the additional component of improving the radius at the Craven Street Bridge and Riverside Drive in both directions (already included in RADTIP). If it is determined that the clearance of the overpass is not feasible, the radius improvements at the Craven Street Bridge and Riverside would receive priority RADTIP funding.

- Direct staff to study one-waying Clingman Avenue Extension and Roberts Street.

- Direct staff to evaluate ways to mitigate truck traffic on Hanover Street.

- Support the Planning and Zoning Commission's recommendation to perform an evaluation of the truck traffic on Haywood Road and report back in one year from the opening of NBB.

- Not support Planning and Zoning Commission's recommendation that the truck traffic be split 30% Haywood Road and 70% other routes (see Planning Department staff report for description of the Planning and Zoning Commission meeting, deliberation and recommendation).

This action meets Council goals by enhancing the City's long-term financial commitment to infrastructure maintenance and capital improvements. Additionally, this project leverages internal and external partnerships for pursuing capital improvements and infrastructure projects.

Pros:

- Provides for multi-model transportation improvements on Haywood Road which is prioritized for bike and pedestrian improvements.
- Establishes a defined plan for evaluating the feasibility of increasing the clearance of the opening between Riverside Drive and the railroad overpass. Not only will this allow for better large truck traffic routing for New Belgium but will also accommodate current and future businesses in the area.
- Address the need to further evaluate ways to diversify and mitigate truck traffic on Haywood Road.
- Prioritizes for construction the radius improvements and the bridge clearance, accommodating a variety of trucks and other vehicles for all businesses in the area.

Con:

- We will not know the likelihood of increasing the clearance between the railroad bridge and Riverside Drive until the feasibility study is complete.
- Requires an appropriation from unallocated capital project reserves.

The multi-model improvements for Haywood Road from the Haywood Road Bridge to Beecham's curve are estimated to cost approximately $220,000. New Belgium Brewery will contribute $50,000 toward the project. The City will fund $170,000 of the cost through an appropriation from unallocated capital project savings that are being held in reserve. There is currently $305,000 available in capital reserves; after this appropriation, there will be $135,000 remaining. Staff recommends that this remaining balance be allocated as part of the FY 2013-14 Capital Improvement Program.

The additional cost to expand the feasibility study to increase the clearance of the Riverside Drive Railroad overpass is unknown and will be covered within the project budget.

Staff recommends City Council consider the following:

- Adopt a budget amendment in the amount of $220,000 to construct a sidewalk, climbing lane and sharrows on Haywood Road from the West Asheville RiverLink Bridge to Beecham's Curve. The project would be funded jointly by the City and NBB. The City's portion of the funding would come from unallocated capital project savings that are being held in reserve. These improvements will allow safer multi-model use of Haywood Road.

- Direct staff to include the feasibility of increasing the scope of RADTIP to include increasing the clearance of the railroad bridge and Riverside Drive. The feasibility study would include the consideration of lowering the roadway, decreasing the clearance of the railroad bridge, replacing the railroad bridge, etc. This option would not only improve large truck access to the NBB site but would also support current and future developments along the river. Staff would be directed to provide results from this feasibility study as soon as it is available, assuming that the feasibility portion of the work would be complete before the 70% RADTIP drawings are complete.

- Adopt a resolution stating that when RADTIP is funded, this component be funded for construction first. Along with this, the additional component of improving the radius at the

Craven Street Bridge and Riverside Drive in both directions (already included in RADTIP). If it is determined that the clearance of the overpass is not feasible, the radius improvements at the Craven Street Bridge and Riverside would receive priority RADTIP funding.

- Direct staff to study one-waying Clingman Avenue Extension and Roberts Street.
- Direct staff to evaluate ways to mitigate truck traffic on Hanover Street.
- Support the Planning and Zoning Commission's recommendation to perform an evaluation of the truck traffic on Haywood Road and report back in one year from the opening of NBB.
- Not support Planning and Zoning Commission's recommendation that the truck traffic be split 30% Haywood Road and 70% other routes (see Planning Department staff report for description of the Planning and Zoning Commission meeting, deliberation and recommendation). On the 70% split, the only option for that traffic now is to go on Amboy Road and that section of roadway (from the City's prospective) has a park and a lot of children crossing the street.

Mr. Edwin Fowler, representing New Belgium as the project manager, highlighted some of the best steps they have taken to get to this point. They have made tangible commitments to involve the community in all aspects of the process. They hosted open houses, gathered community feedback and are meeting regularly to help guide their path and become good neighbors. They are involved with many community organizations. They have also committed to searching for and hiring local design consultants, contractors, artists and photographers and each of these companies we have partnered with to date has committed to do the same throughout the development process. The development process contains many concepts, design elements and sustainable features that go beyond the standards and requirements for similar developments. We have partnered with the City to develop shared stormwater bioswales, remediate the stream that bisects the site and further the development of the regional greenway plan. We have also planning buildings that are energy efficient and are being designed to fit within the culture of the community while incorporating materials that are soon to be deconstructed from the existing site. These steps represent the foundation and partnerships moving forward.

Ms. Susan Freyler, representing the design team for the Level III project, walked Council through the site addressing specific design elements (Applicant Exhibit 1). The upper portion of the site is the public portion that contains the Liquid Center, the associated visitor parking, an event lawn and pavilion, and perhaps an orchard or some other edible landscaping, as well as where we can use as much native material as possible. There are all walks through the site. The lower half of the site is more of the private side in that it has the production facility, loading docks, recycling area, fermentation tanks, malt building, etc. The Liquid Center will be placed at the top of the bank overlooking the French Broad River. She then explained the three modifications requested and the need for them.

Mr. David Geiser, design architect for the project, spoke to Council about the architecture on the site (Applicant Exhibit 1), worked with New Belgium to make it pleasing and a better neighborhood within the community. He explained the malt building, the brew house, the fermentation tanks, production and support (labs, maintenance facilities, etc.), administrative wing and packaging facility. Efforts have been made to reduce the scale of the building to make it more friendly. He showed views of the project site and said they have tried to introduce as much glass into the two facilities to bring daylight in and for the public to get a glimpse of what is going on inside. He outlined some of the sustainable strategies they are working on - reused/re-purposed materials from project site; local materials; daylight harvesting for interior spaces; clean construction strategies; LEED certification; brownfield revitalization; stormwater treatment in bioswales and bioretention areas; use native plants; approximately ¾ mile from City bus stop;

adjacent to greenway; ground source heat pumps for the Liquid Center; rainwater harvesting; solar domestic hot water; exhaust air energy recovery; and mixed mode ventilation to use natural ventilation for portions of the year.

Mr. Gabe Quesinberry, Mattern & Craig Traffic Engineer that performed the TIS, provided Council with a history of the traffic process, using the off-site improvements and proposed truck routes map found in Applicant Exhibit 1. The initial study identified five potential routing options. Each route was based on the same factors. Through the ranking, the Haywood Road route was the primary route with the Roberts Street/Lyman/Amboy Road as the secondary route. In July we held a meeting at the US Cellular Center and explained the two routes. In October community meetings were held to help define the scope of the technical TIS. Using this feedback, they developed a scope which included a normal TIS process and an expanded community look at the short term and long term impacts for the project. As part of the study, we assumed the worse case scenario that all the trucks would be on Haywood Road. They also looked at the visitor traffic - estimated 100,000 visitors per year to the Liquid Center, and the employee traffic to the facility. It will be a phased opening and they accounted for that in their study. As a result, the current traffic on Haywood Road at I-240 is now 12,000 average daily traffic - .7% of that traffic is classified as trucks. At Craven Street that number is about 8,000 vehicles per day currently - .7%. At full buildout, at I-240, this will increase to 16 trips per day (1.2% truck traffic) and at Craven Street, the number will increase to 11,000 per day - 1.7% classified as trucks. In additional to the improvements Ms. Ball outlined, the off-site improvements will also include turning improvements at Roberts Street and Lyman to allow the radius improvements to allow truck maneuvers there. The Beecham's curve traffic signal project was already in the planning stages for some time. In addition, NC DOT will also be constructing some widening at the I-240 ramps at Hanover Street. They also recognize that there is a need in the City's infrastructure to diversify the routes for commercial trucks. We also identified what potential future projects would diversify feasibly future traffic within the River District, west Asheville and the surrounding areas. The most logical point of that is the RADTIP project. New Belgium is supportive of the RADTIP.

Mr. Jay Richardson, General Manager of New Belgium in Asheville, said that it's clear that the community has helped New Belgium reach the point they are at now. There has been a collaboration of business and neighborhood associations, non-profits, advocacy groups, in conjunction with City staff. This is what can be accomplished with honest dialogue. The culture and values of the City of Asheville will align very closely with that of New Belgium. The neighbors have welcomed and challenged them. Going forward there will be aspects of their business that will require discussion and they look forward to being as collaborative then as we have been to date. We don't view our relationship with the community as just a means to get approval - we view those as beginning of long-term relationships. On behalf of New Belgium, we are excited to make this project successful and to make our neighbors happy.

Councilman Hunt felt that protected bike lanes are more functional than stripped lanes that are immediately next to traffic. He asked City staff to consider (and report back), on Haywood Road, one sidewalk and a protected climbing bike lane on the other side. Ms. Ball said that she would be happy to look at that.

Councilman Smith asked that as we look at a possible protected bike lane that we look at street cross infrastructure.

In response to Councilman Bothwell, Mr. Fowler said that they have not selected a site for the distribution center yet. They looked at some operational ways to make the Riverside Drive north work. Using a lower height truck is something that New Belgium can do without a big operational impact, but that does not make the route usable. The bigger concern is we can't have a 53-foot box truck to make the turn. Our distribution team looked into it and they can make the turn with a 32-foot box truck, but the problem with that is that it results in 40% more trucks. That is 40% more diesel and then buying another tractor and another drive. That has a large long-

term operational impact. If that intersection were improved under the proposed RADTIP project, that would resolve that issue.

When Councilman Hunt asked what would be the timetable New Belgium would need to decide on the height of the trucks to use, Mr. Fowler said sometime in the 2014-15 range. There is some time before the trucking contacts would be finalized.

The following individuals welcomed New Belgium to Asheville and supported the project, but expressed concern mainly regarding the primary truck access of Haywood Road. Some concerns/questions/comments expressed included: high volume trucking route on Haywood Road from the French Broad River to I-240; considerable safety impacts to walkers, bikers and commuters; noise and pollution burden on neighborhood residents and businesses; impact on property values and future development along the corridor, including plans for high density, mixed-use development; need alternative solution for a trucking route north on Riverside Drive; urge Council to immediately fund and approve the purchase of rights-of-way and re-engineering intersection of Craven Street/Riverside Drive/W. Haywood Road to allow adequate turning radius for long bodied trucks; attention to misaligned sewer grates along Haywood Road that are creating bicycle hazards; develop design plans with community input; study pedestrian safety improvements for the neighborhoods off of Waynesville Avenue; request for earlier process for citizen engagement; many businesses on Haywood Road have pull-in parking, which requires backing out onto Haywood Road; there are 15 City bus stops between Craven Street and I-240 and when the bus stops, all traffic stops; there are 4-8 public schools stops between Craven Street and I-240 and fear for children safety since they are standing at the road; there is not a minimal impact of trucks as seen from the TIS numbers; concern about construction truck traffic at Hanover and Haywood especially with a pre-school across the street; New Belgium will bring other businesses to the area; WECAN would like their neighborhood developed as laid out in their Master Plan - including more affordable infill development, safer pedestrian access and routes, multimodal transit, and ecological restoration enhancing the public experience; seek commitment from NC DOT and City to prioritize developing Haywood Road as a compliment to Clingman Avenue serving as a continuous multimodal mixed-use corridor; broaden language to complete a feasibility study that identifies how to provide straight vehicle access to I-240 in the shortest possible route without crossing through neighborhood corridors; WECAN does not currently see the need to change the Clingman Extension and Roberts Street one-way; actively pursue routes with less impact while using the Haywood Road route as the immediate route; explore the option of lowering the grade under the Norfolk Southern Railroad crossing at Riverside Drive; do not support the Planning & Zoning Commission's recommendation to split the brewery traffic 30% Haywood and 70% other routes as this is unrealistic as a condition on New Belgium; New Belgium supports multimodal transportation infrastructure, finances greenways, providing environmental clean-up, sponsorship of community events, providing meaningful jobs and training, and dedication to stream and river health; New Belgium will be a partner to help with support for infrastructure changes; encourage New Belgium to use lower height trucks; when infrastructure changes are made, ensure that crosswalks are brought up to Code and that includes conditions for the handicapped and blind; request that the rail height as Haywood Road crosses over I-240 be raised; New Belgium is a good project that offers greenways, advanced site development, environmental cleanup, construction jobs, community investment and employment opportunities for many of our citizens; the 88 foot height of the 50 fermenting tanks will be higher than the Jeffrey Bowen Bridge; the trestle over Riverside Drive reads 13 feet (we need 13.6 clearance for trucks) but measurement of the trestle in 10 different locations under the bridge reveals ranges from 13.4-13.11 feet; this type development is not good for the type of slow, steady growth in West Asheville; thoroughly examine opportunities to eliminate or mitigate deficiencies in our commercial corridors that inhibit economic redevelopment, including the low clearance issue at the Norfolk Southern bridge and substandard design and placement of the Amboy Road (at Lyman Street) bridge; New Belgium is a transformational project at the core of our regional riverfront redevelopment area; negative impacts are indicators of larger economic development and neighborhood planning issues and need to be addressed in a comprehensive manner, separate from the review of this project; visitors, employees and cut-through traffic will

use Waynesville Avenue which has no sidewalks and has blind curves; New Belgium has projected 154 direct new jobs and support 260 indirect jobs among local businesses, generating new annual labor income for families of Asheville; Haywood Road Pedestrian and Bicycle Safety Audit shows that Haywood Road falls short of meeting Americans with Disabilities Act compliance and makes travel along the corridor dangerous for all modes - we need NC DOT support and investment; and Wilma Dykeman envisioned this type of development on the River:

Mr. Joshua Martin, member of East West Asheville Neighborhood Association (Neighborhood Exhibit 1)
Ms. Ava Carr, member of East West Asheville Neighborhood Association
Mr. Rich Lee, member of East West Asheville Neighborhood Association (Neighborhood Exhibit 2)
Mr. Wilson, member of East West Asheville Neighborhood Association
Mr. Tom Burnette, member of East West Asheville Neighborhood Association
Mr. Stuart Green, representing the Emma community
Ms. Rachael Larson, representing West End Clingman Avenue Neighborhood Association
Mr. Trip Howell, representing River Arts District Business Association
Ms. Alice Oglesby, representing West Asheville Business Association
Mr. Rod Hudgens, representing the Council of Independent Business Owners
Mr. Jonathan Wainscott, representing West Asheville Watch
Mr. Joe Ferikes, representing Asheville Area Riverfront Redevelopment Commission
Mr. Scott Caranna, resident on Waynesville Avenue
Mr. Clark Duncan, representing the Economic Development Coalition
Mr. Mike Soule, representing Asheville on Bikes
Ms. Karen Cragnolin, Executive Director of RiverLink

After hearing no rebuttal, Vice-Mayor Manheimer closed the public hearing at 10:51 p.m.

City Attorney Oast said that Council has heard information, mostly from Ms. Ball, about potential future improvements along Riverside Drive. He advised Council to base their decision with that caution in mind.

Councilman Bothwell felt that the problems presented are solvable.

Vice-Mayor Manheimer was pleased to see that the neighborhoods and different organizations worked with the City and New Belgium towards a great compromise. New Belgium is the kind of business we are lucky to have interested in Asheville and we hope they are not the last. Their experience with us should send some sort of indication to other great businesses that may be interested in coming to Asheville that you can work with the City and our neighborhoods and achieve a great compromise. Our RADTIP program is a fantastic program aimed at revitalizing our River District just so that it can in part be a home to future great businesses that will contribute to the fabric of Asheville.

Councilman Hunt felt this has been an incredibly healthy process and the quality dialogue and strategic vision of neighborhoods and business associations have been awesome.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4160, to approve the conditional use permit adopting the proposed master plan for the New Belgium Brewing Company subject to the conditions recommended by City staff, and the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this

ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; (6) New Belgium Brewery is to construct one transit shelter on a concrete ADA pad built by the City on the east-bound side of Haywood Road, just southwest of Craven Street; (7) New Belgium Brewery will contribute $50,000 towards the construction of sidewalks along Haywood Road to aid in pedestrian safety along the designated truck route; (8) Annual review of the truck routes and traffic impacts will be required until full build out, with reports to both the Planning & Zoning Commission as well as City Council; and (9) NBB should minimize the radius and width of the employee and visitor driveways to increase pedestrian safety. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 122**

Vice-Mayor Manheimer said that members of Council have been previously furnished copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved for the adoption of Ordinance No. 4161, in the amount of $220,000, to construct a sidewalk, climbing lane and sharrows on Haywood Road from the West Asheville RiverLink Bridge to Beecham's Curve. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 134**

Councilman Smith was pleased that New Belgium will investigate the use of smaller trucks to get down to the solution - Riverside Drive. In the past the City has had mixed results in working with the railroad, but it was his hope that since we have the City, the County, the Economic Development Coalition, New Belgium and the Governor's Office that we will be able to work successfully with the railroad and find the solution at Riverside Drive. That will also lay the groundwork for a lot of future development in our River District. He did think that Waynesville Avenue will be affected. We may be able to post no through trucks, but ultimately we need to make sure that we have really good wayfinding to get to the Brewery and that the trucks are not using Haywood so cars feel that they need to use cut-through streets. He hoped that Council will consider both the protected bike lane and sidewalks on Haywood Road. He supported seeing the Craven Street turning radius to be improved, fixing the sewer grates on Haywood Road, and a Complete Street from Beecham's Curve to I-240.

City Manager Jackson confirmed it was the consensus of Council to do the alternative analysis of Haywood, looking at a separated bike lane and also evaluating in more detail the options for bringing about the safest solution on Haywood. Staff will bring that report back to Council. He also noted that the City will continue to work with the East West Asheville Neighborhood Association to explore traffic calming and evaluate the feasibility and the neighborhood consensus for those improvements.

Councilman Bothwell moved (1) for the adoption of Resolution No. 13-16, in support of prioritizing future funding of the RADTIP to increase the clearance of the Riverside Drive railroad overpass (if feasible) and improve the radius at the Craven Street Bridge and Riverside Drive in both directions to allow for large trucks to turn, as the first funded components of the project; (2) to direct staff to include the feasibility of increasing the scope of RADTIP to include increasing the clearance of the railroad bridge and Riverside Drive. The feasibility study would include the consideration of lowering the roadway, decreasing the clearance of the railroad bridge, replacing the railroad bridge, etc. This option would not only improve large truck access to the NBB site but would also support current and future developments along the river. Staff would be directed to

provide results from this feasibility study as soon as it is available, assuming that the feasibility portion of the work would be complete before the 70% RADTIP drawings are complete; (3) to direct staff to study one-waying Clingman Avenue Extension and Roberts Street; (4) to direct staff to evaluate ways to mitigate truck traffic on Hanover Street; and (5) to support the Planning and Zoning Commission's recommendation to perform an evaluation of the truck traffic on Haywood Road and report back in one year from the opening of NBB. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 165**

**V. UNFINISHED BUSINESS:**

**A. RESOLUTION NO. 13-17 - RESOLUTION AUTHORIZING THE CITY MANAGER TO INCLUDE THE MUNICIPAL FOOD POLICY GOALS AND ACTION PLAN INTO THE PREVIOUSLY ADOPTED SUSTAINABILITY MANAGEMENT PLAN**

Sustainability Program Manager Maggie Ullman said that this is the consideration of a resolution authorizing the City Manager to include the Municipal Food Policy Goals and Action Plan into the previously adopted Sustainability Management Plan.

In April 2012 Council directed the Sustainability Advisory Committee on Energy and the Environment (SACEE) to work with community members of the Asheville Buncombe Food Policy Council (ABFPC) to evaluate how food security strategies may be integrated into the city's Sustainability Management Plan. The Sustainability Management Plan (SMP) was adopted in June 2009 as the road map for municipal sustainability.

SACEE went through a due diligence process to research and assess how the municipality could contribute in order to compliment the larger community effort. This process included: national best practice research, presentations from regional experts, regular updates from ABFPC during SACEE meetings, reviewing the ABFPC's strategic plan, and ultimately co-creating the proposed action plan. The proposed municipal goals and action plan are a subset strategically selected for the municipality from the wide range of goals and activities identified by the ABFPC.

Through this resolution the proposed municipal action plan would be incorporated into the Sustainability Management Plan. With approval of this resolution the management process to evaluate, prioritize, and implement sustainability activities will be expanded to include food activities.

This resolution supports the following activities in the Strategic Operating Plan: 1) Consider leasing City-owned parcels to area farms and gardeners; 2) Support diversified job growth and business development.

Pro:

- This resolution contributes to Councils goal to be the southeastern leader in clean energy and environmental sustainability.

Con:

- None

There is no direct fiscal impact. Potential impacts from implementation of this plan will be considered by Council on an individual basis.

City staff recommends City Council adopt a resolution authorizing the City Manager to incorporate the Food Policy Goals and Action Plan into the previously adopted Sustainability Management Plan.

Ms. Susan Garrett, representative of the Asheville-Buncombe Food Policy Council, spoke in support of this action which will encourage urban agriculture and mobile markets which in turn help food-related economic development.

Councilman Smith was pleased to thank the many volunteers, especially Susan Garrett who has been a real leader, who have brought this extensive process to Council.

Mr. Tim Ballard, representing SACEE, thanked the Food Policy Council on the excellent work they did to engage the community. He encouraged City Council to adopt the resolution.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 13-17. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 166**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-19 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainable Advisory Committee on Energy & the Environment (SACEE).

The terms of Dane Barrager, Torin Kexel and Jane Mathews, expired on December 31, 2012. Mr. Barrager is not interested in serving another term and Ms. Mathews is not eligible to serve another term.

The following individuals have applied for the vacancies: Charles Rosenblum, Peter Brezny, Marcus Renner, Lawrence Pittman, Alan Watts, Brandee Boggs, Melita Kyriakou, Stuart Smith, Timothy Sadler, Josh O'Conner, Forrest Patrick Merithew, Sabrina Wells, Christine Laporte and Robert Brady.

On January 8, 2013, it was the consensus of Council (1) reappoint Torin Kexel; and (2) interview Josh O'Conner, Brandee Boggs, Marcus Renner and Lawrence Pittman.

After Council spoke highly of the candidates, Josh O'Conner received 3 votes, Brandee Boggs received 3 votes, Marcus Renner received 3 votes and Lawrence Pittman received 4 votes. Because of a tie for the second seat, another vote as follows was taken: Josh O'Conner received 4 votes, Brandee Boggs received 1 vote and Marcus Renner received 1 vote. Therefore, Josh O'Conner and Lawrence Pittman were appointed as members of SACEE to serve each serve a three-year term respectively, terms to expire December 31, 2015, or until their successors have been appointed.

In addition, it was the consensus of Council to reappoint Torin Kexel to SACEE to serve an additional three-year term, term to expire December 31, 2015, or until his successor is appointed.

**RESOLUTION BOOK NO. 35 – PAGE 170**

**B. RESOLUTION NO. 13-20 - RESOLUTION APPOINTING MEMBERS TO THE DOWNTOWN COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Downtown Commission.

The terms of Bruce Hazzard, Rebecca Hecht, Guadalupe Chavarria and Matthew Sprouse expired on December 31, 2012.

The following individuals have applied for the vacancies: Edward Loewe, Patric Mullen, Karl Katterjohn, Dean Pistor, Laurie Miller, Andrew Montrie, Adam Bowers, Luther Smith, Dane Barrager and Larry Holt.

On January 8, 2013, it was the consensus of Council to reappoint Bruce Hazzard, Rebecca Hecht and Matthew Sprouse and postpone the final vacancy for further clarification. The Boards and Commissions Committee recommends appointment of Dane Barrager.

Councilman Bothwell moved to (1) reappoint Bruce Hazzard, Rebecca Hecht and Matthew Sprouse to the Downtown Commission to each serve an additional three-year term respectively, terms to expire December 31, 2015, or until their successors are appointed; and (2) appoint Dane Barrager to serve a three year term, term to expire December 31, 2015, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 171**

**C. RESOLUTION NO. 13-21 - RESOLUTION APPOINTING MEMBERS TO THE GREENWAY COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Greenway Commission.

The terms of Glen Locascio and James Grode expired on December 31, 2012.

The following individuals have applied for the vacancies: Stuart Smith, Bryan Mitchell, Forrest Patrick Merithew, Adam Bowers and Luther Smith.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Grode and let Council vote on whether to appoint Mr. Stuart Smith or Mr. Bryan Mitchell.

After Council spoke highly of both candidates, Stuart Smith received 2 votes and Bryan Mitchell received 4 votes. Therefore, Bryan Mitchell was appointed to the Greenway Commission to serve a three year term, term to expire December 31, 2015, or until his successor is appointed and qualified.

In addition, it was the consensus of Council to reappoint James Grode to the Greenway Commission to serve an additional three-year term, term to expire December 31, 2015, or until his successor is appointed.

**RESOLUTION BOOK NO. 35 – PAGE 172**

**D. RESOLUTION NO. 13-22 - RESOLUTION APPOINTING MEMBERS TO THE TRANSIT COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Transit Commission.

The terms of Julie Mayfield, Georgia Shannon, Tom Tomlin and Paul Van Heden expired on December 31, 2012.

The following individuals have applied for the vacancies: Mark L. Harris, Bruce Emory, George E. Keller, Itiyopia Ewart and Bryan Mitchell.

On January 8, 2013, it was the consensus of was the consensus of Council to (1) reappoint Julie Mayfield and Tom Tomlin; (2) appoint Bruce Emory; and (3) interview Itiyopia Ewart and George Keller. However, due to federal requirements for the Transit Commission, the Committee recommended appointing Itiyopia Ewart. The Boards & Commissions Committee did not recommend reappointment of Ms. Georgia Shannon due to the failure to meet attendance requirements.

Councilman Hunt moved to (1) reappoint Julie Mayfield and Tom Tomlin to each serve a three-year term respectively, terms to expire December 31, 2015, or until their successors are appointed; and (2) appoint Bruce Emory and Itiyopia Ewart to each serve a three-year term respectively, terms to expire December 31, 2015, or until their successors are appointed. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 173**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Councilman Smith was proud of Asheville High School's marching band at the Presidential Inauguration on January 21 representing Asheville N.C.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 11:25 p.m.

CITY CLERK MAYOR

220

Tuesday – January 29, 2013 – 6:30 p.m.
Hall Fletcher Elementary School

Community Meeting – West Asheville

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and Deputy City Clerk Jaime Matthews

Absent: None

Mayor Bellamy opened the meeting, welcomed the audience and introduced City Council members.

Planning & Development Director Judy Daniel provided Council with a progress report on the Haywood Road Corridor form based code project; and Urban Planner Alan Glines updated Council on the Haywood Road Vision Plan.

Executive Director of Public Works and Multimodal Transportation Cathy Ball updated the audience on the City's infrastructure improvement projects for the area.

The following individuals made presentations to Council:

Ms. Catherine Foster, representing the Pisgah View Residents Association
Ms. Elaine Poovey, representing the Malvern Hills Community Club
Ms. Vivian Conley, representing the Burton Street Community Association

Mayor Bellamy then opened up the meeting for questions. Questions/comments responded to by City staff and City Council consisted of (and those which could not be immediately responded to would be followed-up by City staff to the appropriate individual): request to include traffic calming on Bear Creek Road in the next budget cycle; request for sidewalks on Burton Street; East West Asheville Neighborhood Association is drafting by-laws; announcement of the May 9 I-26 meeting; need traffic calming in Malvern Hills; request for committee for wayfinding to the New Belgium Brewery; need for cheaper bus shelters so more can be installed; need for recycling bins downtown; what is the schedule for repaving streets in West Asheville; need community input for sidewalk changes on Vermont; discontinue fluoride in water; and need for community garden in public housing.

Mayor Bellamy and Council members expressed their appreciation for the community involvement.

At 8:30 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – February 12, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING FEBRUARY 12, 2013, AS "DARWIN DAY"**

Councilman Bothwell read the proclamation proclaiming February 12, 2013, as "Darwin Day" in the City of Asheville. He presented the proclamation to Ms. Jennifer Lovejoy.

**B. AWARD FROM UNITED STATES CONFERENCE OF MAYORS**

Mayor Bellamy was pleased to present Police Chief Anderson with a check, in the amount of $5,000, from the United States Conference of Mayors and Purdue Pharma LP. The City of Asheville won second place in the small city category of the 2013 Prescription Drug Abuse Recognition Program. She thanked Chief Anderson for his leadership in helping keep our children safe. Police Chief Anderson said that there will be another medicine drop-off scheduled soon.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON JANUARY 22, 2013; AND THE COMMUNITY MEETING HELD ON JANUARY 29, 2013**

**B. RESOLUTION NO. 13-23 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONTRACT WITH BRANTLEY CONSTRUCTION CO. LLC FOR PHASE III RENOVATIONS OF THE U.S. CELLULAR CENTER**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Brantley Construction Co., LLC in the amount of $1,876,000 for Phase III renovations of the U.S. Cellular Center.

This contract incorporates major components of the overall renovation of the ticket office, the main lobby, the outside plaza, the loading dock storage and ramp improvements. These renovations are a continuation of those that were started in preparation to host the Southern Conference Basketball Tournament through March 2014. These renovations will give patrons, entertainers, athletes and promoters a much improved experience when attending or scheduling

concerts, sporting events, major city wide conventions and other special events throughout the years to come.

The following bids (Base amount + 10 Alternates) were received on January 31, 2013:

1. Brantley Construction C., LLC $ 2,336,000
2. H&M Constructors $ 2,592,000

We have elected to accept the Base Bid plus Alternates 1, 2 & 7. The following shows the totals for both prospective bidders:

1. Brantley Construction Co., LLC $ 1,876,000
2. H&M Constructors $ 2,110,300

Funding for this portion of the contract was addressed with a budget amendment in the amount of $1,889,518 approved by City Council on December 11, 2012.

Staff is actively seeking grant opportunities to fund additional renovations to the facility in the next fiscal year.

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the Civic Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. It has been reviewed and recommended by the Civic Center Commission.

Pros:

- Improved flow of patron traffic to and from the Explore Asheville.com arena and Thomas Wolfe auditorium.
- Much needed improvements to the ticket office and main lobby area.
- Increase in useable storage space with the added enclosed areas in the loading dock area.
- Enhancements to safety such as more exit doors, fires sprinklers in lobby and improved exiting flow.
- Project bid is below budget.

Con:

- None.

As noted above, the budget for this next phase of renovations was approved by City Council on December 11, 2012. Funding is coming from a variety of sources including, the City of Asheville, Buncombe County and the Tourism Development Authority (TDA).

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Brantley Construction Co., LLC for $ 1,876,000 for the Phase III renovations of the U.S. Cellular Center.

Councilman Davis was pleased to see this phase of the renovations and urged the public to attend the Southern Conference on March 8-11, 2013.

**RESOLUTION BOOK NO. 35 - PAGE 174**

**C. RESOLUTION NO. 13-24 - RESOLUTION AUTHORIZING THE EXCHANGE OF CITY-OWNED REAL PROPERTY LOCATED AT 166 RESERVOIR ROAD FOR PROPERTY OWNED BY THE BEAUCATCHER PURCHASE GROUP, LLC ALSO LOCATED OFF OF RESERVOIR ROAD**

Summary: The consideration of a resolution authorizing the exchange of City-owned real property at 166 Reservoir Road for property owned by the Beaucatcher Purchase Group, LLC also located off of Reservoir Road.

The City of Asheville is in need of property owned by the Beaucatcher Purchase Group, LLC in order to assemble the land necessary for the Beaucatcher Greenway. Accordingly, the City of Asheville and the Beaucatcher Purchase Group, LLC have negotiated an exchange of real property based on the terms outlined below. Pursuant to N. C. G. S. 160A-271 a notice was duly published in the Asheville Citizen-Times on February 1, 2013 describing the exchange of properties.

The property owned by the Beaucatcher Purchase Group, LLC is located off Reservoir Road and measures in total approximately 1.5 acres (PIN 9648-56-9395-00000). This undeveloped, wooded parcel serves as a natural buffer for the Wind in the Oaks community. The City seeks to construct a portion of the Beaucatcher Greenway within this parcel and has surveyed a 0.67 acre portion of the area to accommodate the future path.

In exchange for this property, the Beaucatcher Purchase Group requests that the City convey a 0.67 acre portion of property it owns at 166 Reservoir Road (PIN 9648-56-7084-00000). The City maintains two telecommunications towers at the 7.42 acre property, and the Beaucatcher Purchase Group would like to own a portion of this property to provide a Western buffer for the Wind in the Oaks community. The area of interest to the Beaucatcher Purchase Group will have no impact on the existing operations and does not appear to have any negative impact on any future development of the acreage. The Beaucatcher Purchase Group requests that the City's Arborist remove any and all dead trees from the property prior to the exchange. The value of the exchange of property is based on the following criteria: (1) Equivalent land area, (2) Proximate location, (3) Similar parcel configuration, (4) Identical highest and best use for each property – assemblage to adjoining tracts and (5) based on a 2009 appraisal of the City's property, relative market value of each parcel is approximately $3 per square foot or $87,500 for each 0.67 acre tract (unadjusted). Based on these factors, the exchange of property will be considered full and fair.

Assembling land needed for the Beaucatcher Greenway complies with City Council's Strategic Operating Plan in the area of Multimodal Transportation - to promote the development of pedestrian and bicycle infrastructure. Also, this action complies with the 2008 Parks, Recreation, Cultural Arts, and Greenways Master Plan in that it provides for further development of an existing greenway identified in the Master Plan.

Pro:

- Assemblage of land necessary for the implementation of the Beaucatcher Greenway.

Con:

- There is no negative impact.

The land exchange requires no additional compensation in that the parcels are of equivalent value. The City's legal office will perform the closing, therefore no additional costs are anticipated for this transaction.

City staff recommends City Council adopt a resolution authorizing the exchange of real properties located off of Reservoir Road.

Real Estate Manager Nikki Reid used a map of the land exchange to respond to various questions from Councilman Hunt, noting that both parcels are zoned RS-2.

**RESOLUTION BOOK NO. 35 - PAGE 175**

**D. RESOLUTION NO. 13-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY REAL PROPERTY OFF HAZZARD STREET TO RICKY BRIGGS**

Summary: The consideration of a resolution authorizing the City Manager to convey real property off Hazzard Street, PIN 964960134900000.

A bid has been received from Ricky Briggs in the amount of $1,000 for the purchase of 0.03 acres of City-owned land off Hazzard Street. This land parcel is one of three parcels donated to the City in 2001, by Sidney and Mary Schochet and Dale and Irwin Plisco. The parcels were remnants from Department of Transportation takings in connection with the construction of South Charlotte Street. The subject parcel is a rectangular shaped fragment lot comprising 0.03 acre±. It is zoned RM8, and it is not suitable to build on without additional land combination. The bid from Ricky Briggs is in the amount of $1,000 and an advertisement for upset bids was published in the paper on January 11, 2013. Within the 10 day notice period, no upset bids were received.

The Parks, Recreation and Cultural Arts Department has verified that this parcel does not lie within an existing or proposed greenway trail according to the Greenway Master Plan and therefore is not an advantageous property to be held for use by the City of Asheville.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through disposition of surplus real property at market value.

Pros:

- The sale will be at fair market value as established by the upset bid process.
- It will return property not needed for public use to the tax rolls.
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

The proceeds from the sale of this parcel will benefit the General Fund and will be designated for future economic and community development projects,

Economic Development staff recommends adoption of the resolution to convey real property off Hazzard Street to Ricky Briggs.

**RESOLUTION BOOK NO. 35 - PAGE 176**

**E. RESOLUTION NO. 13-26 - RESOLUTION TO SUPPORT THE 2013-2015 FUNDING FOR CLEAN WATER MANAGEMENT TRUST FUND**

Summary: The consideration of a resolution in support of continued state funding of the Clean Water Management Trust Fund to fund current and future projects to protect our water supply.

The Clean Water Management Trust Fund (CWMTF) was established in 1996 by the General Assembly to address the growing concerns about the health of our rivers, streams, and other surface water in the state. The Clean Water Management Trust Fund is a non-regulatory, community focused program to protect and restore surface waters across the state. This non-regulatory program has provided more than 1500 grants to help meet the infrastructure needs of

municipalities, increased recreational opportunities, and enhance quality of life in this state. Meeting these needs helps the state obtain a competitive edge in economic development.

The City of Asheville has been the recipient of several CWMTF grants. Some of which include the Dingle Creek stream restoration and wetland construction, Ross Creek Watershed improvements, and most recently, regional stream mitigation improvements at the New Belgium Brewery site.

This action meets Council goals by enhancing the City's long-term financial commitment to infrastructure maintenance and capital improvements. Additionally, this project leverages internal and external partnerships for pursuing capital improvements and infrastructure projects.

Pro:

- The CWMTF provides funds for water quality improvements in the state, including the City of Asheville

Con:

- None

The CWMTF provides financial assistance for water quality improvements in the City. Without these funds, the City would be required to provide the funds or not complete projects that improve water quality in urbanized areas.

Staff requests that City Council adopt a resolution in support of continued state funding of the Clean Water Management Trust Fund to fund current and future projects to protect our water supply.

Mayor Bellamy spoke in support of this very important issue and of the many communities that need those additional dollars.

**RESOLUTION BOOK NO. 35 - PAGE 177**

**F. RESOLUTION NO. 13-27 - RESOLUTION AUTHORIZING THE PURCHASE OF AN APOLLO 4 GENERATION VIDEO CAMERA SYSTEM TO UPDATE AND STANDARDIZE THE EXISTING TRANSIT FLEET VIDEO CAMERA SYSTEM**

Summary: The consideration of a resolution authorizing staff to purchase an Apollo 4 Generation video camera system from Apollo Video Technology in order to update and standardize the existing transit fleet video camera system.

The current transit fleet video camera system is from Apollo Video Technology. Due to its age, many cameras and readers have malfunctioned and been replaced through the years. As a result, the fleet has four different generations of Apollo cameras on the buses and two different readers, which are used to review the videos. Some of the older readers have become unreliable, and in some cases operations has not been able to retrieve information due to system malfunction.

During the recent bus procurement process, all the new buses were equipped with an Apollo 4 generation video camera system and now, the other 14 buses need to be upgraded.

The Apollo 4 generation video camera system has the following features:

1) Larger removable hard drive for video storage.
2) Higher resolution on camera video.
3) More cameras can be added to the system for future expansion to improve video data collection (i.e. expand from our current 4-camera system to a 6-camera system).

4) Ability to add GPS data to the video including location and speed data.
5) Ability to add a device to automatically bookmark video when certain G-forces are applied, and allowing monitoring driver's driving habits, such as hard braking, quick lane change, going around curves too fast, etc.
6) "Heart beat" monitor to show that the system is fully functional. This indicator light will be used during vehicle pre-trips multiple times a day to assure the system is working properly.
7) Ability to wirelessly download video clips without having to pull the hard drive from the DVR and make this secure watermarked data easily available to our Risk Department and Law enforcement agencies in a seamless manner all without the need of special licensed software.
8) Automatically download video clips associated with events that the driver determines or events that the system determines needs to be reviewed by a supervisor.
9) When reviewing the videos GPS data including location, time, direction of travel and speed will be displayed.
10) Non-proprietary information that can be read in any computer.

Operations rely on a camera system to ensure safety and security on the buses, and to investigate customer complaints and accidents. The video camera system has also been vital in investigations conducted by Asheville Police Department. The new system will improve safety and security providing accurate and timely data.

The total project cost is about $90,000 and will be funded with a Federal grant at 80% and a local match at 20%.

This action complies with the current City Council's Strategic Operating Plan in the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

The Transit Commission supports the subject project.

Pros:

- Standardization of the video camera system will improve transit daily operations.
- Standardization of the video camera system will improve reliability, safety and security, by providing accurate and timely data.
- Standardization of the video camera system can help with APD investigations.
- A Federal grant will provide 80% ($72,000) of the total project cost.

Con:

- A 20% local match in the amount of $18,000 is required.

The total project cost is about $90,000 and a Federal grant will provide 80% ($72,000) of the cost and the city will provide 20% ($18,000) of the cost. The project, including the local match, is already budgeted in the Transit Capital fund.

City staff recommends that City Council adopt a resolution authorizing staff to purchase an Apollo 4 Generation video camera system from Apollo Video Technology in order to update and standardize the existing transit fleet video camera system.

**RESOLUTION BOOK NO. 35 - PAGE 178**

**G. ORDINANCE NO. 4162 - BUDGET AMENDMENT FOR BICYCLE DESTINATION (WAYFINDING) SIGNS**

Summary: The consideration of a budget amendment in the amount of $1,050 to accept a privately-funded grant to be used for bicycle destination (wayfinding) signs.

The Bicycle and Pedestrian Task Force, interested community members, and City staff have completed plans to implement the first phase of a bicycle wayfinding project. The project includes 21 signs that will include destination, direction, and distance information. The chosen destinations include downtown, West Asheville, and UNC-Asheville. These destinations were chosen based on facilities, cyclist demand for the destinations, and the opportunity to highlight better route choices. Directing cyclists to Broadway rather than Merrimon Avenue to access UNC-Asheville from downtown Asheville is an example of a better route choice.

The Blue Ridge Bicycle Club has awarded the City a grant to help pay for the project.

City Council's Public Safety Committee reviewed the project at their meeting on January 28, 2013, and unanimously recommended the budget amendment be forwarded to the full City Council for review and approval.

This action complies with the City Council's Strategic Operating Plan in the Multimodal Transportation Area by continuing construction and maintenance of bicycle infrastructure and by leveraging funds for bicycle-friendly opportunities.

Pros:

- Encourages bicycling in general by improving the existing infrastructure.
- Encourages the use of available marked on-street bicycle facilities.
- Discourages the use of less desirable routes.
- Recommended as an action step in the approved Bicycle Master Plan (Action 1.8, page 71).
- Recommended as an additional measure to further promote bicycling by the League of American Bicyclists when designating Asheville as a Bronze Level Bicycle Friendly Community.
- Funded by private sources (great partnership opportunity).

Con:

- City is responsible for part of the installation cost and all of the maintenance cost.

The total estimated cost of the project is $1,800. The $1,050 grant will fully pay the material and fabrication cost of the signs and the City will pay for the installation cost, which is estimated to be about $750. The installation and ongoing maintenance costs are already budgeted in the Transportation Department's (Traffic Engineering Division) operating budget.

Staff recommends that City Council approve a budget amendment in the amount of $1,050 to accept a privately-funded grant to be used for bicycle destination (wayfinding) signs.

Ms. Claudia Nix said she was extremely happy for this grant to put in the bicycle wayfinding signs.

**ORDINANCE BOOK NO. 28 - PAGE 136**

**H. ORDINANCE NO. 4163 - BUDGET AMENDMENT FOR THE JOB ACCESS AND RESERVE COMMUTE AND NEW FREEDOM FEDERAL GRANTS**

Summary: The consideration of a budget ordinance amendment in the amount of $227,068 and $283,317 to set up the project budgets for the Job Access and Reverse Commute (JARC) and the New Freedom (NF) projects, respectively.

The City of Asheville is the designated recipient of the Job Access and Reverse Commute (JARC) and New Freedom grant funds, which are programs of the Federal Transit Administration (FTA). JARC is a formula grant program oriented to provide job access in the urbanized and suburbanized area. The formula is based on the number of eligible low-income and welfare recipients in these areas.

The projects to be funded include: the Black Mountain Trailblazer route, which is operated by Mountain Mobility (JARC grant), pedestrian improvements along US 64 in Henderson County, which is the City of Hendersonville's project (NF grant), van purchasing and rehabilitation and daily operations, which is for Customer Inspired Services (NF grant), and the City of Asheville's administrative costs for both programs.

The job access refers to projects relating to the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment.

The reverse commute refers to a public transportation project designed to transport residents of urbanized areas and other than urbanized areas to suburban employment opportunities.

New Freedom is also a FTA formula grant program for new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990. These funds are intended to assist individuals with disabilities with transportation, including transportation to and from jobs and employment support services.

To be eligible, the programs require an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization, Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals. The plan was approved on March 29, 2012 by the French Broad River MPO's governing body (the Transportation Advisory Committee), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the rules to apply for projects and the projects were selected in a competitive process that was approved by the TAC.

In September 2012, Buncombe County's Mountain Mobility, the City of Hendersonville and Customer Inspired services were selected as sub-recipients of the JARC grant and NF grant. The projects are listed as follows:

| Sub-Recipient | Project | Program | Amount funded | Sub-Recipient's match |
|---|---|---|---|---|
| Buncombe County | Black Mountain Trailblazer | JARC | $102,181 | $102,181 |
| City of Asheville | Program Administration | JARC | $22,706 | N/A |
| City of Hendersonville | Pedestrian improvements along US 64 | NF | $197,116 | $37,000 |
| Customer Inspired Services | Van purchasing and rehab | NF | $18,700 | $2,300 |
| Customer Inspired Services | Operations | NF | $2,000 | $2,000 |
| City of Asheville | Program | NF | $24,201 | N/A |

| | | | | |
|---|---|---|---|---|
| | Administration | | | |

The city needs to set up project budgets in order to pass through the funds and will seek reimbursement directly from the FTA. The sub-recipients will be responsible for the match.

The City will be responsible for the Program Management and, as designated recipient, to oversee the use of the funds according to FTA regulations. The program management will require the use of city resources, mainly staff. As a designated recipient the city will use $22,706 and $24,201 of JARC and NF funds, respectively, for administration purposes, which will cover the program management expenses for a period of two years.

This action complies with the City Council Strategic Operating Plan by supporting the fiscal responsibility focus area, specifically operating the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- Project funding is provided by the FTA, 50% for operating projects and 80% of capital projects. The sub-recipients are responsible for the local match.
- The city can use $46,907 for administration purposes.

Con:

- None.

The total financial impact for the subject projects is $510,385 and it will be funded with Federal Funds and matched by the sub-recipients. $46,907 will be reimbursed to the city for administrative costs. There is no impact on the City's General Fund budget.

Staff recommends that City Council adopt a budget ordinance amendment in the amount of $227,068 from Federal Funds to setup the project budget for Job Access and Reverse Commute project, and $283,317 to setup the project budget for the New Freedom projects, including the administrative costs.

**ORDINANCE BOOK NO. 28 - PAGE 138**

**I. ORDINANCE NO. 4164 - BUDGET AMENDMENT FROM THE US DEPT. OF HOUSING & URBAN DEVELOPMENT TO ACCEPT EMERGENCY SOLUTIONS GRANT FUNDS**

Summary: The consideration of a budget amendment, in the amount of $451,256, from the US Dept. of Housing & Urban Development, to accept Emergency Solutions Grant funds.

In September, 2012, Council approved the execution of a grant agreement with the State of North Carolina for Emergency Solutions Grant funding. A contract and additional revised award has now been received. The following shows the final award totals:

| | Award Amount |
|---|---|
| **Organization** | |
| ABCCM (Steadfast House) | $ 35,557 |
| Helpmate | $ 15,000 |
| Homeward Bound | $ 90,360 |
| Salvation Army | $ 28,441 |
| City of Asheville, HMIS and Coordination | $ 50,000 |
| City of Asheville, Admin | $ 6,270 |

| TOTAL REQUESTS | $ 225,628 |
|---|---|

These funds must be matched 1:1 from other sources, resulting in a total contract amount of $451,256. Matching funds will come from the participating agencies, not the City of Asheville.

The proposed budget amendment will account for all funds awarded, plus the matching funds.

The project directly supports the City's Strategic Operating Goal of *Affordable*: The funded projects support the City's goal for all citizens to have access to safe, sufficient and affordable housing, by addressing homelessness with an emphasis on Housing First.

Pros:

- ESG funding is a key funding resource for emergency shelter, and is now becoming an important resource for rapid rehousing of persons experiencing homelessness.

Con:

- None

Program funding is entirely from the US Dept. of Housing and Urban Development, through the State of North Carolina. Existing community development division staff will administer the program. No general funds are requested to support this program. The City will receive funds for administration and coordination through the grant.

Staff recommends that Council approve the budget amendment, in the amount of $451,256, for the Emergency Solutions Grant.

**ORDINANCE BOOK NO. 28 - PAGE 141**

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. WATER RESOURCES UPDATE

Project Manager Phil Kleisler updated City Council on the Water Resources process update from January 23 - February 12, 2013. He then provided Council with the information sharing between the City and MSD.

### B. LEGISLATIVE UPDATE

Deputy City Manager Jeff Richardson highlighted some of the information they received from the City/County Manager Winter Conference regarding tax reform; an annexation amendment introduced; motor vehicle tax collections threatened; operation of mopeds; and a new alliance formed as part of collaborative effort to promote economic growth/development in North Carolina cities and towns - alliance is made up of community leaders including former North Carolina Governors, former municipal leaders, etc. for serving as a voice for public policy issues effecting economic viability of cities and towns and the success of businesses and the qualify of life of residents.

## IV. PUBLIC HEARINGS:

A. **CONTINUATION OF CONSIDERATION TO CONDITIONALLY ZONE HARRIS TEETER PHASE 2, LOCATED ON 17 AND 23 ELOISE STREET AND 136, 176 AND 180 MERRIMON AVENUE, FROM HIGHWAY BUSINESS DISTRICT, COMMERCIAL BUSINESS I DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING IN ORDER TO FACILITATE ADDITIONAL OUTPARCEL DEVELOPMENT IN ADDITION TO THE HARRIS TEETER STORE, AND A MODIFICATION REQUEST TO THE LANDSCAPE BUFFER**

**ORDINANCE NO. 4165 - ORDINANCE TO CONDITIONALLY ZONE HARRIS TEETER PHASE 2, LOCATED ON 17 AND 23 ELOISE STREET AND 136, 176 AND 180 MERRIMON AVENUE, FROM HIGHWAY BUSINESS DISTRICT, COMMERCIAL BUSINESS I DISTRICT AND RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING IN ORDER TO FACILITATE ADDITIONAL OUTPARCEL DEVELOPMENT IN ADDITION TO THE HARRIS TEETER STORE, AND A MODIFICATION REQUEST TO THE LANDSCAPE BUFFER**

Mayor Bellamy said that the public hearing on this issue was held on January 22, 2013, and continued to this date in order for the City and developer to dialogue about options. City Council reserved the right to re-open the public hearing to receive new information only.

Assistant Planning & Development Director Shannon Tuch said that this is the continued consideration of a conditional zoning application for Harris Teeter Phase 2, located at 17 and 23 Eloise Street and 136, 176 and 180 Merrimon Avenue, from Highway Business District, Community Business I District and RS-8 Residential Single-Family High Density District to Highway Business District/Conditional Zoning in order to facilitate additional outparcel development in addition to the Harris Teeter Store, and a modification request to the landscape buffer.

On January 22, 2013, the Council received a report and conducted a public hearing on the conditional zoning of approximately 8.45 acres located along Merrimon Avenue, Eloise Street, Holland Street and E. Chestnut Street.

At the request of the property owners and developers, a vote of the Asheville City Council on the application was postponed until February 12, 2013. Since the public hearing, City staff has worked with neighbors of the proposed development and with the developers/owners to come up with additional conditions for the rezoning that address concerns of residents and property owners in the area. She then reviewed in detail the the following new conditions agreed upon (previous listing plus new conditions), noting that the conditions added since the public hearing are listed below the dotted line.

- The conditions included in the Technical Review committee report and the standard conditions.
- That there are no more than four building pads in addition to the Harris Teeter (five total).
- Buildings other than Harris Teeter shall be no more than 32 feet in height.
- Buildings fronting on Merrimon shall be oriented to the street and placed as close to the street as is reasonably possible to maximize safe pedestrian interaction.
- The architectural design and building materials used for the buildings will be similar to those being utilized in the Harris Teeter construction.
- The developer is allowed no more than one drive thru operation.
- No more than a total (all building pads excluding Harris Teeter) of 25,000 square feet of building will be constructed on the building pads.

- As the uses are submitted for final review, if the traffic counts exceed those indicated in the originally submitted traffic study, a new traffic impact analysis would need to be conducted and approved including the traffic impact from the Trader Joe's development.
- There be sidewalk connectivity from Merrimon Avenue to all buildings as appropriate for pedestrian safety and convenience.
- The uses permitted on the site shall be limited to those HB uses listed on the chart provided to City Council.
- No dumpster will be located within 100 feet of residential properties.

---

- If a drive thru facility is located on the site it shall be located to the south of the signalized access point and fronting on Merrimon Avenue.
- Any window at a drive thru facility shall have hours of operation limited to between 6 AM and 12 Midnight.
- That $10,000 per building (not including Harris Teeter) will be provided to the City as the building permits are applied for. This money shall be used exclusively for pedestrian and traffic safety infrastructure in the vicinity of this project and tie in with existing road and pedestrian infrastructure. The first priority for these funds will be the construction of pedestrian improvements at the intersection of E. Chestnut, Holland, Maxwell, and Monroe, which she then used a drawing to describe.
- A sign will be erected on the subject property at the exit onto East Chestnut Street that reads "No Right Turn for Delivery Trucks" (headed west).
- Signage shall be limited to the submitted plans.
- That there will be an anti-idling policy for delivery vehicles in the lease/sale documents for the building pads. Signage indicating "No-Idling" will be placed in all loading areas.

One of the agreed upon conditions provides that the developer will provide funding for pedestrian safety infrastructure in the vicinity of the project. Specifically targeted is the intersection of E. Chestnut, Holland, Monroe and Maxwell Streets. The pedestrian improvements at this intersection are needed to complement the new sidewalk that will be constructed along the property frontage. These improvements will better define the actual path that should be used by pedestrians and will clearly show drivers where to expect pedestrians. Once the development is completed and opened for business, pedestrian activity in the immediate area is expected to increase including crossing activity along East Chestnut Street. At this time, it is anticipated that the improvements would have a maximum total cost of $30,000.

At 5:45 p.m., Mayor Bellamy opened the public hearing and restricted any public comments on the new conditions only.

Mr. Alan Ditmore felt the height condition is contrary to smart growth principles. He also did not support drive throughs because they discriminate to pedestrians.

A resident on Mt. Clare Avenue, representing the Five Point neighborhood, asked for the following five development mitigation plans that still need to be addressed: (1) establish a calm residential zoning (need speed limits lowered to 20 mph, pedestrian warning signs and no through traffic signs were applicable); (2) facilitate a calm residential zone (need commitment for funding for traffic calming); (3) intersection improvements at E. Chestnut/Monroe/Maxwell (need additional pedestrian improvements such as curb bump-out with pedestrian refuge, raised crosswalk and "stop for pedestrians in crosswalk" signage at both E. Chestnut and Maxwell crosswalks. These improvements will help driver and pedestrian visibility and safety and are in addition to those already proposed by City staff; (4) truck traffic restriction (needs to be included in any lease/sales agreements - in addition to sign requirement); and (5) emission/odor controls (need for fast food and/or other restaurants).

Mr. David Metz, resident on E. Chestnut Street, cited that there is already too much existing traffic on Chestnut Street, the need for emission/odor control, and traffic calming measures for the Five Points neighborhood.

Mr. Mario Hernandez, resident on Fulton Street, was uncomfortable with the zoning of Highway Business on the property.

Ms. Heather Rayburn, representing the Five Points Neighborhood, said that after analysis, the neighborhood decided to support the rezoning request in exchange for having them consider the five development mitigation plans outlined above, noting they were still disappointed that the developer is still considering a drive through. She hoped that the City would agree to the intersection improvements to W. Chestnut and Maxwell/Monroe by installing a curb bump-out, in addition to other traffic calming measures. She said the neighborhood is in the process of filling out the traffic calming petition and hoped to be placed at the top of the traffic calming list. They were counting on Council to fund the traffic calming needs for their neighborhood. Their main objective is for a healthy, walkable, safe, mixed-use neighborhood.

Mr. Greg McCoy, resident on Monroe Place, noted that the property was zoned improperly from the beginning. He hoped Council will fund the needed traffic calming measures for their neighborhood. He also asked for no through truck traffic signs.

Mr. Jesse James, resident on Spears Avenue, felt that they didn't need any more Highway Business zoning and did not support drive through development.

At 6:16 p.m., Mayor Bellamy closed the public hearing.

Director of Transportation Ken Putnam responded to Councilman Pelly about speed limits, no truth truck traffic signs, and if the signs are not working at the intersection of W. Chestnut and Maxwell/Monroe that they would look for other solutions, such as the curb bump-out.

Councilman Pelly noted that traffic will have a significant impact on the neighborhood and we will need to work with them due to the cumulative traffic from the new development coming in the area. If improvements are needed from the traffic calming study, then Council needs to be prepared to provide the funding for those improvements.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4165 to conditionally zone Harris Teeter Phase 2, located at 17 and 23 Eloise Street and 136, 176 and 180 Merrimon Avenue, from Highway Business District, Community Business I District and RS-8 Residential Single-Family High Density District to Highway Business District/Conditional Zoning in order to facilitate additional outparcel development in addition to the Harris Teeter Store, and approval of the modification request to the landscape buffer, subject to the following conditions: (1) The conditions included in the Technical Review committee report and the standard conditions; (2) That there are no more than four building pads in addition to the Harris Teeter (five total); (3) Buildings other than Harris Teeter shall be no more than 32 feet in height; (4) Buildings fronting on Merrimon shall be oriented to the street and placed as close to the street as is reasonably possible to maximize safe pedestrian interaction; (5) The architectural design and building materials used for the buildings will be similar to those being utilized in the Harris Teeter construction; (6) The developer is allowed no more than one drive thru operation; (7) No more than a total (all building pads excluding Harris Teeter) of 25,000 square feet of building will be constructed on the building pads; (8) As the uses are submitted for final review, if the traffic counts exceed those indicated in the originally submitted traffic study, a new traffic impact analysis would need to be conducted and approved including the traffic impact from the Trader Joe's development; (9) There be sidewalk connectivity from Merrimon Avenue to all buildings as

appropriate for pedestrian safety and convenience; (10) The uses permitted on the site shall be limited to those HB uses listed on the chart provided to City Council; (11) No dumpster will be located within 100 feet of residential properties; (12) If a drive thru facility is located on the site it shall be located to the south of the signalized access point and fronting on Merrimon Avenue; (13) Any window at a drive thru facility shall have hours of operation limited to between 6 AM and 12 Midnight; (14) That $10,000 per building (not including Harris Teeter) will be provided to the City as the building permits are applied for. This money shall be used exclusively for pedestrian and traffic safety infrastructure in the vicinity of this project and tie in with existing road and pedestrian infrastructure. The first priority for these funds will be the construction of pedestrian improvements at the intersection of E. Chestnut, Holland, Maxwell, and Monroe, which she then used a drawing to describe; (15) A sign will be erected on the subject property at the exit onto East Chestnut Street that reads "No Right Turn for Delivery Trucks" (headed west); (16) Signage shall be limited to the submitted plans; and (7) That there will be an anti-idling policy for delivery vehicles in the lease/sale documents for the building pads. Signage indicating "No-Idling" will be placed in all loading areas. This motion was seconded by Vice-Mayor Manheimer.

Councilman Bothwell said that one of the principle owners of the property said that they contracted with Chick Fil A a long time ago because that was permitted under the zoning.

When Councilman Bothwell asked Mr. Putnam if the neighborhood has been looked at for one-way streets, Mr. Putnam said that they are open to put that discussion on the table for consideration.

Councilman Hunt appreciated the work between the developer and the neighborhood on the new conditions added. He agreed that the Highway Business zoning is a mistake, but the conditions layered on that zoning makes the property more restrictive than a commercial business zone.

In response to Councilman Hunt about the food odor concern, Mr. Steve Vermillion, developer, said that they have been talking with a local engineering firm who did some work on the building. That engineer felt that the type of filtering system at this location, given the distance from the residences, would not be effective. He wanted to make sure that if they spend the additional money for the filtering system that it will be effective.

The motion made by Councilman Pelly and seconded by Vice-Mayor Manheimer carried unanimously.

Councilman Pelly moved to direct the City Manager to cause a review of the traffic impact in the immediate area of the development and to bring to City Council recommendations emerging from that review. This motion was seconded by Councilman Bothwell.

There was brief discussion about whether Councilman Pelly's motion was to include the City funding more than the $30,000 for traffic calming already agreed to by the developer. Councilman Pelly felt that the $30,000 will be for the intersection improvements but the neighborhood will be impacted far beyond just the intersection from that development. Mayor Bellamy felt that traffic calming needs to be looked at as part of the budget process. It was determined that City staff is currently collecting traffic data on the roads (since the neighborhood has already brought the concerns to their attention). Mr. Putnam said that the concern is that when Harris Teeter and Trader Joe's are open for business there may be a further impact to the neighborhood. They really won't know that until they get to that point in time. He suggested that staff continue their dialogue with the community making sure that the City has all their concerns on the table. City staff will also continue with the collection of the data so that it becomes a baseline that they will be able to compare the impacts to and see what impact the new businesses have on the neighborhood streets. Councilman Pelly felt it was important for the community to continue with the petition process (which forces conversation within the community) and because the traffic study analysis is already in motion, he withdrew his motion.

Mayor Bellamy asked City Clerk Burleson to add a placeholder for an agenda to discuss the traffic calming measures in this neighborhood. Said placeholder will be after the Harris Teeter and the Trader Joe's developments are built and have been open for a few months.

City Manager Jackson will provide to Council a list of the traffic studies that have been done, their findings, and where we have found that their action plans would be appropriate. There is a list and there are neighborhoods that already qualify. We present that information to Council in the next 8 weeks during the budget process and Council can consider at that point in time what would be something to add to the capital improvement budget, reallocated from some other infrastructure improvement. Then the community would know that as risks are identified and they have gone through the process. They will be ranked in order of highest risk and they would know that they would be in line for funding. There will also be an opportunity for Council to talk about policies about where more affluent communities are in a position to contribute to those improvements because Council still would want to address the public safety needs regardless of the affluence of a neighborhood and their ability to share in the cost. We propose that the work of the staff continue in this neighborhood and other neighborhoods where people are concerned about their safety, and provide the kind of objective analysis as to what needs to be done. We will empower Council with that information and Council can consider the funding of what would put us on a track to reliably address this so that we show good faith with neighborhoods.

Councilman Smith noted that Council is in the process of reexamining the zoning designations to make sure they are in harmony with existing neighborhoods. We need to learn more about balancing density along side of safety concerns.

**ORDINANCE BOOK NO. 28 - PAGE 143**

**B. PUBLIC HEARING TO CONSIDER AMENDING THE 2012-13 CONSOLIDATED ACTION PLAN**

**RESOLUTION NO. 13-28 - RESOLUTION AUTHORIZING SUBSTANTIAL AMENDMENT #2 OF THE CITY'S CONSOLIDATED ANNUAL ACTION PLAN FOR 2012-2013**

Director of Community Development Jeff Staudinger said that this is the consideration of a resolution amending the 2012-2013 Consolidated Annual CDBG and HOME Action Plan to cancel HOME funding for OnTrack for the HomeBase program; and to allocate those funds to Homeward Bound for Tenant Based Rental Assistance. This public hearing was advertised on February 1 and 8, 2013.

OnTrack has discontinued its Home Base program, for which 2012-2013 CDBG and HOME funds had been allocated. CDBG funding cancellation was approved by Council in September of 2012.

HOME funding recommendations are made by the Asheville Regional Housing Consortium. The Consortium reviewed OnTrack's request for the cancellation of its HOME grant of $20,000, as well as the return of $2,767 of unused funds from 2011-2012, at its November, 2012 meeting. The Consortium also reviewed Homeward Bound's request for those funds to continue Tenant Based Rental Assistance for households who are currently homeless or in immediate danger of homelessness. Homeward Bound would use the additional $22,767 exclusively for rapid re-housing, allowing the agency to house an additional 15 households by the end of the current fiscal year.

This action meets the Council Strategic Goals of Affordable by supporting initiatives to end homelessness in Asheville emphasizing the Housing First philosophy.

Pro:

- The proposed action will enable the City to allocate HOME funds for program that has proven effective in rapidly house households currently experiencing homelessness.

Con:

- None.

The proposed use of funds would grant federal funds already allocated to the City. No City general funds are affected.

The Asheville Regional Housing Consortium recommends that the 2012-2013 Action Plan be amended to allocate the $22,767 of HOME funds originally allocated to OnTrack's HomeBase program to Homeward Bound, for use as Tenant Based Rental Assistance to rapidly re-house homeless households. This includes $20,000 of FY 2012-2013 funds, and $2,767 of 2011-2012 funds.

Mayor Bellamy opened the public hearing at 6:45 p.m.

Mr. Alan Ditmore felt that his decision not to be a parent has placed him at a greater risk of being homeless. He felt that parents are being priority over childless homeless people.

Brother Christopher Chiaronmonte said that he would be willing to give up his housing in exchange for a place to pitch his tent.

Mayor Bellamy closed the public hearing at 6:50 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 13-28. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 179**

**C. PUBLIC HEARING TO CONSIDER REZONING 1.35 ACRES ON POSSUM TROT FROM COMMERCIAL INDUSTRIAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT**

**ORDINANCE NO. 4166 - ORDINANCE TO REZONE 1.35 ACRES ON POSSUM TROT FROM COMMERCIAL INDUSTRIAL DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of rezoning 1.35 acres on Possum Trot from Commercial Industrial District to RM-8 Residential Multi-Family Medium Density District. This public hearing was advertised on February 1 and 8, 2013.

Mr. Esselstyn said that this parcel sits at the intersection of three zoning districts (CI, CBII, and RM8) without significant geographic features to separate them, and a case could be made that any of the three districts would suit the property. The current zoning designation (Commercial Industrial) maintains the mixed-use zoning at a consistent depth from Brevard Road (to the west).

The applicants, however, also own the adjacent parcel to the east, a residential parcel which neighbors other residential parcels also accessed by the private drive known as Possum Trot. The rezoning request would make the subject property's zoning consistent with these

properties. The applicants' intent is to preserve the subject lot as a wooded buffer in the near term, with the possibility of residential development in the future; they also specifically wanted to prevent further commercial development near these homes.

With a right-of-way only 16 feet wide and a gravel surface, albeit in excellent condition, Possum Trot would not meet the standards for commercial development on a landlocked parcel such as this. The right-of-way could not accommodate two lanes for ingress and egress of commercial traffic, and the topography would make it difficult for creation of a shared access with the parking lot entrance to the south. This limitation further supports the suitability of a residential zoning assignment.

At their January 2, 2013, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning request.

As of this writing, staff has received no communications from neighbors or other citizens regarding this item.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- Proposed zoning is appropriate for the location.
- Sub-standard access road would be problematic for commercial development.

Con:

- None noted.

Staff feels only one possible scenario, the recombination of this property with the lot to the west, would create an arrangement that could support commercial development, and even that would present challenges. The proposed residential zoning is fitting for the infrastructure conditions, as well as for the other geographic context, and staff recommends approval.

Mayor Bellamy opened the public hearing at 6:53 p.m.

Mr. Steven Garrett, property owner, stated that he only wanted his property rezoned for a buffer between his home and the highway.

Mayor Bellamy closed the public hearing at 6:54 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4166. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 151**

**V. UNFINISHED BUSINESS:**

**A. SECOND AND FINAL READING OF ORDINANCE NO. 4159 - ORDINANCE APPROVING A SIGNAGE PLAN FOR UNC-ASHEVILLE**

Mayor Bellamy said that the public hearing and adoption of Ordinance No. 4159 was on January 8, 2013. City Attorney Oast said that because the ordinance failed to receive the 2/3

vote necessary to pass on the first reading, it was necessary to bring it back Council for adoption on the second reading.

Councilman Davis moved to adopt Ordinance No. 4159 on its second and final reading as follows: Approval of the UNC-A sign package as follows: (1) Gateway signs be limited to the following locations: (a) WT Weaver Blvd. & University Heights (round-about); (b) University Heights & Campus Drive (triangle intersection); (c) Broadway Ave. & Campus Dr; (d) Merrimon Ave. & WT Weaver Blvd.; and (e) Broadway Ave. & WT Weaver Blvd.; (2) All signs located within road rights-of-way shall obtain all necessary approvals or encroachments from the regulating agencies; (3) Any changes to the signage included in this plan may require a new review by City Council; and (4) All signs shall comply with the proposed standards and no exceptions or variances are permitted (minor changes to sign location due to visibility or other site constraints may be permitted). This motion was seconded by Councilman Vice-Mayor Manheimer and carried on a 5-2 vote, with Councilman Bothwell and Councilman Pelly voting "no."

**B. ORDINANCE NO. 4127 - ORDINANCE AMENDING THE BILTMORE PARK TOWN CENTER SIGNAGE PLAN FOR OFFICE TENANT AND RETAIL TENANT IDENTIFICATION SIGNAGE**

Assistant Planning & Development Director Shannon Tuch said that in July 2007, City Council approved a signage plan for the Biltmore Park Town Square (BPTS) urban village project. Comprehensive signage plans are allowed by ordinance to enable larger development sites to develop a custom plan for signage that addresses unique needs and contexts in a comprehensive and harmonious manner.

On October 9, 2012, City Council approved the office tenant signs. A second amendment was initially proposed in October affecting retail and office tenants, but the developer was urged by the Council to consider alternatives. The revised proposal is before the Council today.

The applicant has revised their request to remove the tenant identification sign on the back of the movie theater where options for a painted mural are being considered. Murals that do not depict trademarked logos, products for sale, or services offered are not typically considered signage and would not normally be included in a signage plan request.

The applicant continues to request the tenant identification signage on the back of the parking of deck facing Interstate 26. The additional sign panel would be approximately 37'x26' or 962 square feet and would match the existing sign's vertical dimension and the text would be similar in design and character to the existing sign.

Analysis update: The use of a mural on the back of the theater in lieu of tenant identification would still serve to creatively draw attention to the site without providing advertising for any one retailer, thereby addressing the concern over excessive and off-site advertising at this location. The staff provisionally supports this request although the design has not yet been submitted.

The proposed tenant identification signage on the back of the parking deck remains unchanged although the rendering has been updated which shows a more balanced and harmonious relationship to the existing sign. The applicant has also supplied a photoshopped image of the existing and proposed sign as it would be seen from the interstate for better visualizing.

As an alternative, the applicant also explored a free-standing pylon sign with a height of 38' and overall size of 276 square feet but was not satisfied with its appearance or effectiveness.

Cons:

- The cumulative size of the existing sign when added to the proposed sign is approximately 2262 square feet, over six times the size of an average billboard.
- Approval of this much cumulative signage is likely to set a precedent that will be of interest to other large multi-tenant developments

City staff recommends City Council consider all information and approve the proposed signage plan amendment if it can be determined that the goals of the signage plan and/or other city adopted goals are satisfied.

At 6:59 p.m., Mayor Bellamy opened the public hearing.

Ms. Sarah Davis, representing Biltmore Farms, explained the purpose of an urban village, which is to create mixed use development that is economically vital, pedestrian oriented and also contributes to the placemaking character of the built environment. Biltmore Farms knows how important high density urban villages are to the smart growth of our city. She asked Council to consider allowing the expansion to our signage to address the inadequate retail signage. She reviewed with Council several slides of options they considered, but for several reasons they were not happy with them. The additional signage would be used to leverage additional retailers and drive more jobs to Asheville and Biltmore Park Town Square.

Ms. Patsy Brison, attorney representing a group of merchants in Biltmore Village area, said that they are strongly opposed to this proposal. She raised a procedural objection of whether Council can review the proposal; the proposal does not comply with the purposes set forth in Section 7-13-10 (1); this proposal is over seven times the size of an average billboard; and it is a prohibited off-premise sign; proposal is contrary to the Urban Village District description; terrible precedent; proposal is not in keeping with the Urban Village concept; and unfair competitive advantage to merchants in the Biltmore Village area and to merchants in the downtown area.

Ms. Kathy McCarten, resident in Biltmore Park, spoke against the proposal for several reasons. She said that variances are to be granted for extreme circumstances out of the control of the developer and this is not the case. The sign is seven times the size of a billboard and the signage is aesthetically unpleasing. She felt that the large sign will be an eyesore every day to the residents of Biltmore Park. Granting this proposal will make the area resemble a shopping center.

Brother Christopher Chiaronmonte spoke against the proposal.

Mr. Paul Szurek, Secretary to the Biltmore Park Town Square Condominium Association, provided Council with information regarding apartment, hotel and office occupancy rates for Biltmore Park compared to others in the area, showing that everything looks good in Biltmore Park, so the signs are not a negative. They not only have to think about the residents in the area, but also the people who have invested in their retail businesses, along with their employees in the stores. The visibility and the effectiveness of the concept has tremendous potential to achieve smart growth for Asheville and Biltmore Park. They looked at other signs and received a lot of feedback from the community. He said that the signage is bigger than a billboard, but it's also set off from the highway about 8 times of a standard billboard. He hoped Council would approve the signage package so the development can move forward in Biltmore Park and other areas of the City.

At 7:14 p.m., Mayor Bellamy closed the public hearing.

In response to Councilman Hunt regarding Ms. Brison's procedural question, City Attorney Oast advised Council that they can approve signs in urban village projects.

240

Councilman Hunt is not a fan of increased commercial signs in the community; however, the development is a smart growth development and has high density, mixed-used and is environmentally responsible. There is a 30% vacancy rate in retail and he felt it's in the community's interest to see developments like this succeed so that there can be more in the future.

Councilman Bothwell said his decision hinges on setting a precedent and the City has adopted a sign ordinance to generally tone down the signage. He could not support the proposal.

In response to Councilman Pelly, Mr. Szurek said that they don't use the interstate signs because they are limited to only lodging, gasoline and food businesses. He said they looked at the Staples sign on Merrimon Avenue under advisement and they had the black screen behind the letters with the letters more of a subdued red.

Councilman Smith said that the City has a special relationship with Biltmore Park as seen by their voluntary annexation into the City when phases were complete. He didn't see this as precedent setting.

Councilman Hunt moved for the adoption of Ordinance No. 4127, to approve (1) the office tenant signs; and (2) the tenant identification signs & panel, as proposed for Biltmore Park Town Center, and find that the request is reasonable and consistent with the economic development goal to, "Create more collaborative and effective working partnerships between the City of Asheville, the business community, and other key organizations to effectively manage the City's regulatory environment while accomplishing economic development goals". This motion was seconded by Councilman Davis and carried on a 5-2 vote, with Councilman Bothwell and Councilman Pelly voting "no".

**ORDINANCE BOOK NO. 27 - PAGE 475**

**C. CONFIRMATION OF ESSAY QUESTIONS TO ELIGIBLE ASHEVILLE CITY BOARD OF EDUCATION CANDIDATES**

Vice-Mayor Manheimer said that the pursuant to the schedule which was adopted by City Council, the Boards & Commissions Committee reviewed all questions submitted by City Council and with Councilman Smith's help, narrowed them down to five final questions to ask the City Board of Education candidates to respond to in writing. At the request of Mayor Bellamy, and through consensus of Council, the five questions included one question raised by Mayor Bellamy.

It was the consensus of Council to wait until the deadline of February 25 before the essay questions are sent to all eligible candidates.

Mayor Bellamy announced that the deadline for Asheville City Board of Education applications is Monday, February 25, 2013, at 5:00 p.m. and to please contact City Clerk Burleson for an application form.

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-29 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH CHERRY BEKAERT & HOLLAND FOR AUDITING SERVICES FOR FISCAL YEAR 2012-13**

Executive Director for Finance & Strategic Planning Lauren Bradley said that this is the consideration of a resolution authorizing the Mayor to execute a contract with Cherry Bekaert & Holland (hereinafter referred to as Cherry Bekaert) for auditing services for fiscal year 2012 - 2013.

North Carolina General Statute 159-34 requires that local governments have their accounts audited each fiscal year and submit a copy of the audit to the Local Government Commission. In response to the aforementioned general statute, staff recommends retaining the services of Cherry Bekaert to conduct the audit of the city's accounts for the fiscal year ending June 30, 2013.

The City issued a Request for Proposal (RFP) for Auditing Services mid-November. Five bid submissions were received through December 17, 2012, and were subsequently reviewed by a select committee of staff members of the Finance and Management Services department. All proposals were scored and weighted on the same set of qualifying criteria as outlined in the RFP. Upon completion of the qualitative scoring each firm's cost was factored in and weighted to yield an overall score. The firm with the highest score is Cherry Bekaert.

Cherry Bekaert has extensive experience auditing North Carolina local governments of the size and complexity comparable to the City of Asheville's financial systems, accounts and records. This breadth and depth of experience will provide to City staff new perspectives and to City Council the assurances that an objective audit process demands.

The proposed fee for fiscal year 2012-2013 audit and financial statement preparation is $85,000. Fees for those services for fiscal years 2010, 2011, and 2012, were $153,500, 109,000, and 95,000, respectively.

As part of the engagement, Cherry Bekaert will provide a document required by the Auditing Standards Board that provides a framework for the auditor's communication with the Mayor and City Council and identifies some specific matters to be communicated. Pursuant to the Auditing Standards Board requirement, Cherry Bekaert will communicate timely and directly with the Mayor and City Council on matters related to the financial statement audit that are, in the auditor's professional judgment, significant and relevant to the responsibilities of those charged with governance in overseeing the financial reporting process.

Additionally, Cherry Bekaert will provide an audit schedule with milestones and timetables in an effort to improve audit planning and ensure that the audit report is delivered timely to the Local Government Commission.

Execution of this contract complies with City Council's Strategic Operating Plan of operating the City of Asheville's organization to the highest fiscal responsibility, as well as the Audit Policy portion of City Council's Financial Policies.

Award of the contract was considered and unanimously approved by the City Council Finance Committee in January 2013.

Pro:

- Contracting with Cherry Bekaert aligns with City Council's financial policy, and will help ensure the timely and successful completion of the annual audit.

Con:

- None noted.

A fee of $85,000 has been proposed for the audit and is included in the Finance Department's portion of the Fiscal Year 2012-2013 annual operating budget.

City staff recommends adoption of the resolution authorizing the Mayor to execute a contract with Cherry Bekaert & Holland in the amount of $85,000 for auditing services for fiscal year 2012-2013. This fee is $10,000 less than the audit fee incurred by the City of Asheville for Fiscal Year 2012.

Mr. Eddie Burke, Partner with Cherry Bekaert & Holland briefly reviewed his firm's profile, mid-carolina profile, client service team, government services group, and audit experience with government entities. He looked forward to have the opportunity to serve the City of Asheville.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 13-29. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 180**

**B. BOARDS & COMMISSIONS**

Regarding the Citizens-Police Advisory Committee, the following individuals have applied for the vacancy: Karl Katterjohn and Fred Cooke. Because the vacancy is for a south representative and no one from the south applied, it was the consensus of Council to re-advertise for a south representative.

Regarding the Asheville-Buncombe Community Relations Council, the following individuals have applied for the vacancy: Melissa Blazen, George Pfeiffer, Christine Longoria, Jesse Andrews, Sandra Houts and Tracy Miles. It was the consensus of Council to postpone making the appointment for one month, at the request of the Community Relations Council

Regarding the Airport Authority, Vice-Mayor Manheimer said that even though City Council would enjoy having the Mayor's representation on the Airport Authority, because of the legislation that bars elected officials from serving on the new Airport Authority Board, she was concerned about having an empty seat. Currently David Hillier and Bob Roberts are also the City appointed representatives. The Boards & Commissions Committee met and felt that it might be prudent to move forward to appointing someone to the Mayor's seat (since the new Airport Authority refuses to acknowledge her appointment). Mayor Bellamy did not have any problem with appointing someone to serve in her seat; however, she could not support Mr. Hillier continuing to serve as he does not represent Council's views nor has he represented the views of our stakeholders. It was the consensus of Council to advertise for a seat on the new Airport Authority and give City Attorney Oast the opportunity to update the full Council on the appointment process at his earliest opportunity. In addition, upon inquiry of Councilman Bothwell about the FAA funding for major capital improvements, City Attorney Oast said that he will also provide Council with a report on that issue at his earliest opportunity.

**RESOLUTION NO. 13-30 - RESOLUTION APPOINTING A MEMBER TO THE TREE COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Tree Commission.

The terms of Laura Yavelow and Bill Hascher expired on December 31, 2012.

The following individuals have applied for the vacancy: Matthew Eric Schlosser, Zoe Schumaker, Andy White, Mike Dale and Jonathan Gach.

It was the consensus of the Boards & Commissions Committee to appoint Matthew Schlosser and Jonathan Gach.

Councilman Bothwell moved to appoint Matthew Schlosser and Jonathan Gach, as members of the Tree Commission, to each serve a three-year term respectively, terms to expire December 31, 2015, or until their successors have been appointed.

**RESOLUTION BOOK NO. 35 – PAGE 181**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Brother Christopher Chiaronmonte spoke about selective police enforcement in the downtown area.

When Mr. Alan Ditmore spoke in support of funding Planned Parenthood, Mayor Bellamy responded that Mr. Ditmore may be confusing the City with Buncombe County as the County just talked about funding non-profits.

Mayor Bellamy announced that President Obama will be visiting Asheville on February 13 to talk about economic development opportunities.

**Closed Session**

At 7:53 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or initial employment of an individual prospective public officer or employee. The statutory authorization is contained in G.S. 143-318.11 (a) (3); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11 (a) (6); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:15 p.m., Councilman Hunt moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:15 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – February 26, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Bothwell gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF THE ASHEVILLE HIGH SCHOOL/SILSA MARCHING BAND**

Mayor Bellamy was pleased to recognize the Asheville High School/SILSA Marching Band and their Directors for its extraordinary year, for representing North Carolina at President Obama's Inauguration, and for being named "Grand Champion" of the Inaugural Festival. Mayor Bellamy asked that each member of the Band that was able to attend to identify themselves.

**II. CONSENT AGENDA:**

At the request of Councilman Hunt Consent Agenda Item "E" was removed from the Consent Agenda for discussion and/or an individual vote.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 12, 2013**

**B. RESOLUTION NO. 13 -31 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT A TRANSFER OF REAL PROPERTY FROM BUNCOMBE COUNTY FOR THE PURPOSE OF IMPLEMENTING THE CRAVEN STREET IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the Mayor to accept a transfer of real property, identified as PIN 9638-78-9646-00000, from Buncombe County for the purpose of implementing the Craven Street Improvement Project.

Buncombe County owns approximately 3.33 acres at the intersection of Emma Road and Craven Street, located within the floodplain of the French Broad River and across from the planned New Belgium Brewery site. Key elements of the Craven Street Improvement Project are planned for this property, including the realignment of the Craven Street / Emma Road intersection, the development of a low impact parking lot, and the installation of the greenway trailhead at the property. At this time, the County has agreed to grant the City ownership of the property to facilitate the installation of these improvements.

Prior to County ownership, the property was owned by the Board of Education of Buncombe County and operated as a maintenance facility. The property was improved with a one story concrete block building, asphalt parking lot and vehicle fueling station. The NC Department of Environment and Natural Resources has documented the removal of 6 underground fuel storage tanks from 1989 to 2008. Buncombe County gained title to the property in 2008 and removed the existing building(s) and asphalt with funding from the Hazard Mitigation Grant Program. The Hazard Mitigation Grant Program also imposed deed restrictions on the property in order to protect the floodplain values; specifically - strict limitations on new structures and permitted uses of the property are limited to open space, permeable parking lots, parks for outdoor recreation and wetland management.

These restrictions will carry with the conveyance of the property, and the City and County are working with the FEMA-State Hazard Mitigation Grant office to ensure that all proposed improvements are consistent with these deed restrictions. Further, upon acceptance of the property the City will be responsible for ensuring that the long term uses of the property are consistent with these deed restrictions. The City participated in the same grant program for the acquisition of several parcels along Swannanoa River Road in 2008, and there should be no issues with compliance.

This action meets Council goals by enhancing the City's long-term financial commitment to infrastructure maintenance and capital improvements. Additionally, this project leverages internal and external partnerships for pursuing capital improvements and infrastructure projects.

Pros:

- Provides for multi-model transportation and parking improvements on Craven Street
- Donation of land from Buncombe County

Cons:

- City will be responsible for ongoing maintenance and compliance associated with deed restrictions

City will be responsible for all due diligence associated with the transfer, including title research, environmental Phase One and Phase Two if necessary. Given the number of underground storage tanks that were once present on site, the City estimates approximately $15,000 will be budgeted for potential environmental remediation. These costs will be absorbed within the existing project budget for the Craven Street Improvements Project.

City staff recommends that City Council adopt the resolution authorizing the Mayor to accept a transfer of real property from Buncombe County for the purpose of implementing the Craven Street Improvement Project.

**RESOLUTION BOOK NO. 35 - PAGE 182**

**C. RESOLUTION NO. 13-32 - RESOLUTION DIRECTING THE CITY MANAGER AND CITY ATTORNEY TO REVIEW THE PACK PLACE LEASE ARRANGEMENT**

Summary: The consideration of a resolution directing the City Attorney and City Manager to review the Pack Place lease.

The Pack Place Education, Arts & Science Center (herein "Pack Place") was constructed in the late 1980's on property owned by the City. Its purpose is to function as an education, arts and science center. Pack Place Education, Arts & Science Center, Inc. (herein "Pack Place Board"), is the non-profit board that leases the real property from the City, and manages the

facility. Pack Place is the home of the Asheville Art Museum, Diana Wortham Theatre, the Colburn Earth Science Museum, and until recently, The Health Adventure. YMI is organizationally part of Pack Place, and is a member of the Pack Place Board, but is not located in the main Pack Place building.

The Health Adventure relocated in 2011, and vacated a substantial portion of Pack Place. The Asheville Art Museum has expanded into that space, and has plans for further extensive renovations. In connection with those plans, the Asheville Art Museum has requested the City consider a "direct lease" arrangement whereby the Museum would lease its part of Pack Place directly from the City. Diana Wortham Theatre is also planning some renovations. All of these developments are likely to result in the reconfiguration of internal spaces, such that amendment to the City's lease with Pack Place may be advisable. That lease expires in 2014.

In view of the above-described developments and the impending expiration/renewal of the current lease, the City should consider reviewing the current lease arrangement with the Pack Place Board, and the "major tenants" in Pack Place to ensure that Pack Place continues to fulfill its public mission, and that the needs of the organizations that are located there or associated with it are met. With this in mind, a resolution directing the City Manager and City Attorney to review the current arrangement is suggested, with a report back to Council in 60 days.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 183**

**D. RESOLUTION NO. 13-33 - RESOLUTION AUTHORIZING EXECUTION OF EASEMENT TO PROGRESS ENERGY CAROLINAS INC. FOR ELECTRIC POWER SERVICE TO AIRPORT FIRE/RESCUE FACILITY**

Summary: The consideration of a resolution authorizing the Mayor to execute an easement to Progress Energy for an electrical power service line for an aircraft rescue and firefighting facility at the Asheville Regional Airport.

A new firefighting and rescue facility is being constructed at the Asheville Regional Airport. The primary function of this new facility will be to respond to emergencies on the "air side" at the airport, including emergencies involving aircraft. Electrical power service is required, and Progress Energy has requested an easement to allow for the installation. This will be a new power service, and it will be installed underground. The City's Public Safety and Information Technology Departments have reviewed this request, and support it. The Airport Authority approved the easement as lessee on February 19.

Pros:

- Facilitates power service to new public safety facility.
- Underground installation minimizes potential for disruption.
- May facilitate coordination of other service facilities (fiber optic, water).

Con:

- None noted

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 184**

**E. RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO (1) INCLUDE A SPECIAL MEETING ON THE CHARLOTTE STREET**

**COMPREHENSIVE TRAFFIC STUDY REPORT ON APRIL 30, 2013, AT 3:30 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL; (2) CANCEL THE JULY 30 AND OCTOBER 29 COMMUNITY MEETINGS; AND (3) ADD BUDGET WORKSESSIONS ON MARCH 12, 2013, AND MARCH 19, 2013, AT 2:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL**

This item was removed from the Consent Agenda for discussion and/or an individual vote.

**F. RESOLUTION NO. 13-35 - RESOLUTION AUTHORIZING THE STANDARDIZATION OF ASHEVILLE POLICE DEPARTMENT PURCHASES WITH GLOCK INC. PISTOLS FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the standardization of Asheville Police Department purchases with Glock Inc. pistols for consistency in operation and functionality.

The Asheville Police Department (APD) has operating funds available for the procurement of Glock pistols. The procurement of these items will enhance officers ability to respond to various tactical incidents and high risk scenarios involving risk to officers and the public. Purchases will be made to purchase replacement pistols when current ones reach the end of life and/or as we see a need for additional pistols.

Our department has been utilizing Glock Inc pistols department wide since 2009. By continuing to purchase Glock pistols it will allow all officers to be issued the same equipment which will aid in our training techniques but also our officer safety techniques. Our instructors will be able to focus on individual techniques involving Glock equipment, and be consistent with their fellow officers' equipment.

Glock Inc was founded in 1981 and has firmly established Glock pistols as the standard by which all others are compared. Today, they are a leading global manufacturer of pistols, precisely engineered to meet the demanding specifications of military and law enforcement agencies worldwide. That powerful validation, and their reputation for safety, durability, reliability, and ease of use, has made their complete line of GLOCK pistols the choice for millions who aspire to carry the perfect firearm for the mission at hand.

Glock sell through authorized distributors who respond to bids or tenders. For the state of North Carolina, GLOCK Inc. has identified Craig's Firearm Supply Inc as their only authorized distributor.

This action complies with the Strategic Operating Plan by better equipping the Police Department with upgraded equipment; and will assist in making Asheville a safer city, based on appropriate metrics for similarly sized cities.

Pros:

- Consistency with training and equipment used
- Consistency in equipment when replaced or inventory is increased

Con:

- None

The exception to bid will have not fiscal impact beyond the regular cost of outfitting new officers and replacing damaged or broken equipment. Funds are allocated within the operating budget for equipment repairs and needed material.

City staff recommends City Council adopt resolution authorizing the Asheville Police Department to purchase Glock Inc. pistols on standardization needs with funding from approved department budget lines.

**RESOLUTION BOOK NO. 35 - PAGE 187**

**G. RESOLUTION NO. 13-36 - RESOLUTION AUTHORIZING THE STANDARDIZATION OF ASHEVILLE POLICE DEPARTMENT PURCHASES WITH SAFARILAND DUTY GEAR FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the standardization of Asheville Police Department purchases with Safariland Duty Gear for consistency in operation and functionality.

The Asheville Police Department (APD) has operating funds available for the procurement of Leather and Nylon Tactical Duty Gear. The procurement of these items will enhance officers' ability to respond to various tactical incidents and high risk scenarios involving risk to officers and the public. Purchases will be made as new officers are hired and as current equipment needs to be replaced.

Standardizing our gear will allow all officers to be issued the same equipment which will aid in our training techniques but also our officer safety techniques. Our instructors will be able to focus on individual techniques involving the officers but will also be able to teach them to use their fellow officers' equipment also.

Currently we have an assortment of leather duty gear from previous years of minimum standards and whoever provided the lowest bid. Due to this we have 5 different product models that we have to train our officers in how to use and operate.

Safariland, LLC, is a company with a history in the law enforcement market for 50 years. This group comprises a group of recognized and well respected brands known for their innovation and quality. Safariland sell through authorized distributors that respond to bids or tenders. For the state of North Carolina, Safariland has identified Lawmen's Safety Supply as their only authorized distributor.

Safariland has been saving lives by providing the most recognized and most trusted law-enforcement products in the world. Safariland, Inc is made up of American Body Armor, Safariland Duty Gear, and Defense Technology. Safariland also owns the following companies that manufacture law enforcement gear: Bianchi, Second Chance, PROTECH, Break-Free, Monadnock, Hatch, Bianchi, and Forensics Source.

Legendary for quality and innovation, Safariland Duty Gear is the overwhelming choice of law enforcement agencies around the world. Comprising both the Safariland and Bianchi brands this offers the industry's most extensive range of top-quality products. Prodcut lines within the Duty Gear category are holsters, belts, accessories, restraints and optics.

This action complies with the Strategic Operating Plan by better equipping the Police Department with upgraded equipment; and will assist in making Asheville a safer city, by providing quality duty gear for our officers.

Pros:

- Known product
- Consistency with training and equipment used
- Consistency in equipment when replaced or inventory is increased.

Con:

- Eliminates bid process

The exception to bid will have not fiscal impact beyond the regular cost of outfitting new officers and replacing damage equipment.

City staff recommends City Council adopt resolution authorizing the Asheville Police Department to purchase Safariland Duty Gear on standardization needs with funding from approved department budget lines.

**RESOLUTION BOOK NO. 35 - PAGE 188**

**H. RESOLUTION NO. 13-37 - RESOLUTION AUTHORIZING THE STANDARDIZATION OF ASHEVILLE POLICE DEPARTMENT PURCHASES WITH LASER TECHNOLOGY INC. FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the standardization of Asheville Police Department purchases with Laser Technology Inc. for consistency in operation and functionality.

The Asheville Police Department (APD) has operating funds available for the procurement of Laser Technology Inc. items. The procurement of these items will enhance officer's ability to enforce traffic laws and reduce traffic collisions in dangerous areas. This purchase will allow for the replacement of speed and distant lasers when current ones reach the end of life and/or as we see a need for additional lasers.

APD has been utilizing Laser Technology Inc. speed and distant lasers department wide for several years. By continuing to purchase Laser Technology Inc. speed and distant lasers it will allow all officers to be issued the same equipment which will aid in our training techniques. Our instructors will be able to focus on individual techniques involving Laser Technology Inc. lasers, and be consistent with their fellow officers' equipment when the officer moves from vehicle to vehicle.

Everyone in the measurement business claims they are "The Leaders" in the industry, but no one can claim they are the true pioneers in reflector less measurement. Laser Technology Inc. started working with the US government over 24 years ago by designing lasers that measured distances between 2 planes in-flight for a de-icing exercise. They won a contract with NASA to build a custom laser that could measure both distances and speeds for space docking missions. They also partnered up with Bushnell Optics and designed the first low-cost recreational rangefinder for golfing and hunting. They developed the first commercial laser speed enforcement tool for the law enforcement community. Their first professional measurement device was a hand-held reflector less total station that eventually began the GPS laser offset craze.

Laser Technology Inc. is a sole source provider and does not allow anyone else to sell their product.

This action complies with the Strategic Operating Plan by better equipping the Police Department with upgraded equipment; and will assist in making Asheville a safer city, based on appropriate metrics for similarly sized cities.

Pros:

- Consistency with training and equipment used
- Consistency in equipment when replaced or inventory is increased

Con:

- None

The exception to bid will have not fiscal impact beyond the regular cost of outfitting new officers and replacing damaged or broken equipment. Funds are allocated within the operating budget for equipment repairs and needed material.

City staff recommends City Council adopt resolution authorizing the Asheville Police Department to purchase Laser Technology Inc. speed and distant lasers on standardization needs with funding from approved department budget lines.

**RESOLUTION BOOK NO. 35 - PAGE 189**

**I. RESOLUTION NO. 13-38 - RESOLUTION AUTHORIZING THE STANDARDIZATION OF ASHEVILLE POLICE DEPARTMENT PURCHASES WITH TASER INTERNATIONAL FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the standardization of Asheville Police Department purchases with Taser International products for consistency in operation and functionality.

The Asheville Police Department (APD) has operating funds available for the procurement of Taser products. The procurement of these items will enhance officers' ability to respond to various tactical incidents and high risk scenarios involving risk to officers and the public. Purchases will be made to purchase replacement tasers when current units reach the end of life and/or as we see a need for additional tasers. Purchase of taser cartridges, holsters and other taser items will be purchased as needed for replacement and training purposes.

Our department has been utilizing Taser International name brand equipment since 2002 and currently has over 100 tasers. By continuing to purchase Taser name brand equipment it will allow all officers to be issued the same equipment which will aid in our training techniques but also our officer safety techniques. Our instructors will be able to focus on individual techniques involving taser equipment, and be consistent with their fellow officers' equipment.

Taser International was founded in 1993 and has remained committed to providing solutions which protect life, protect truth, and protect family. Their industry leading Electronic Control Devices (ECD's) are used worldwide by law enforcement, military, professional security and personal protection markets. TASER ECD's use proprietary technology to incapacitate dangerous combative, or high risk subjects who pose a risk to law enforcement, correction officers, innocent citizens or themselves in a manner that is generally recognized as a safer alternative to other use of force options. The proper and professional use of TASER devices dramatically reduces injury rates for law enforcement officers and suspects.

Taser International sells through authorized distributors who respond to bids or tenders. For the state of North Carolina, Taser International has identified Lawmen's Safety Supply as their only authorized distributor.

This action complies with the Strategic Operating Plan by better equipping the Police Department with upgraded equipment; and will assist in making Asheville a safer city, based on appropriate metrics for similarly sized cities.

Pros:

- Consistency with training and equipment used
- Consistency in equipment when replaced or inventory is increased

Con:

- None

The exception to bid will have not fiscal impact beyond the regular cost of outfitting new officers and replacing damaged or broken equipment. Funds are allocated within the operating budget for equipment repairs and needed material.

City staff recommends City Council adopt resolution authorizing the Asheville Police Department to purchase TASER International Items on standardization needs with funding from approved department budget lines.

**RESOLUTION BOOK NO. 35 - PAGE 190**

**J. RESOLUTION NO. 13-39 - RESOLUTION AUTHORIZING THE STANDARDIZATION OF ASHEVILLE POLICE DEPARTMENT PURCHASES WITH SAFARILAND LLC FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the standardization of Asheville Police Department purchases with Safariland LLC for tactical body armor and rifle plates for consistency in operation and functionality.

The Asheville Police Department (APD) has seizure funds approved for the procurement of Tactical Body Armor and Rifle Plates to be utilized by the police departments Emergency Response Team. The procurement of these items will enhance safety and the departments' ability to respond to various tactical incidents and high risk scenarios involving risk to officers and the public. The current Tactical Body Armor worn by the Emergency Response Team will expire the spring of 2013.

The Emergency Response Team members conducted research of numerous vests from various vendors. The selection process consisted of options and accessories along with the functionality of the vest for the mission of the Emergency Response Team.

The Protech FAV MKII Enhanced Quick Release (QR) Tactical Carrier with the Monarch Series MR01-Type IIIA panels and Protech 2113 MC-3 Rifle Plate are manufactured by Safariland, LLC out of Jacksonville, Florida. Safariland, LLC, is a company with a rich history in the law enforcement market for 50 years. This group comprises recognized and well respected brands known for their innovation and quality. Safariland sell through authorized distributors that respond to bids or tenders. For the state of North Carolina, Safariland has identified Lawmen's Safety Supply as their only authorized distributor.

This action complies with the Strategic Operating Plan by better equipping the Emergency Team with upgraded equipment; and will assist in making Asheville a safer city by providing quality Ballistic Tactical Vest for known violent and armed encounters.

Pros:

- Known for product for comfort and features needed by ERT members
- Consistency in vest worn by members when replaced

Cons:

- Elimination of bid process

The exception to bid will have not fiscal impact beyond the initial cost.

City staff recommends City Council adopt resolution authorizing the Asheville Police Department to purchase Protech FAV MKII Enhanced Quick Release (QR) Tactical Carrier with the Monarch Series MR01-Type IIIA panels and Protech 2113 MC-3 Rifle Plate from Safariland, LLC, based on standardization needs with funding from state seizure monies.

**RESOLUTION BOOK NO. 35 - PAGE 191**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES**

**RESOLUTION NO. 13-34 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO (1) INCLUDE A SPECIAL MEETING ON THE CHARLOTTE STREET COMPREHENSIVE TRAFFIC STUDY REPORT ON APRIL 30, 2013, AT 3:30 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL; (2) CANCEL THE JULY 30 COMMUNITY MEETING; (3) ADD BUDGET WORKSESSIONS ON MARCH 12, 2013, AT 2:00 P.M. AND APRIL 3, 2013, AT 3:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL; AND (4) ADD A RETREAT MEETING ON MARCH 11, 2013, FROM 8:30 A.M. - 4:00 P.M. IN THE US CELLULAR BANQUET HALL**

Councilman Hunt moved (1) to amend the resolution to remove the budget worksession on March 19 and instead hold it on April 3 at 3:00 p.m. in the First Floor North Conference Room of City Hall; and (2) add a retreat meeting on March 11, 2013, from 8:30 - 4:00 in the U.S. Cellular Center Banquet Hall, with staff programming. This motion was seconded by Councilman Bothwell.

Councilman Smith offered a friendly amendment to amend the resolution to restore the July 30 and October 29 community meetings as they serve a valuable function.

The motion made by Councilman Hunt and seconded by Councilman Bothwell carried unanimously.

After a brief discussion, Councilman Smith withdrew his friendly amendment.

Councilman Smith then moved to cancel the July 30 community meeting only and restore the October 29 community meeting. This motion was seconded by Councilman Davis and carried on a 6-1 vote, with Councilman Pelly voting "no."

Mayor Bellamy noted that a retreat planning session was planned but cancelled in December. She was disappointed that we will be holding the retreat on March 11 and then have a budget worksession on March 12. She also hoped that when the agenda is developed that Council will discuss our relationships with other entities.

**RESOLUTION BOOK NO. 35 - PAGE 186**

## III. PRESENTATIONS & REPORTS:

### A. NEIGHBORHOOD ADVISORY COMMITTEE UPDATE

Mr. Saul Chase, Chairman of the Neighborhood Advisory Committee, updated Council on their vision, which is to promote friendly, valued and resilient neighborhoods throughout the City of Asheville. Their mission is (1) to help neighborhoods preserve and improve their physical, economic, and social health utilizing citizen-led improvement initiatives based on needs identified by the residents in each neighborhood; (2) to foster effective communication and working relationships among the neighborhoods and with the City of Asheville; (3) to strengthen neighborhood associations and organizations and to support the formation of new ones; (4) to perpetuate safety, health, vibrant, and sustainable neighborhoods; and (5) to celebrate successes in Asheville's neighborhoods. He asked for Council's official endorsement of their vision and mission.

At Mayor Bellamy's suggestion, Mr. Chase said that they would be happy to help get the information out to the neighborhoods about the City's master plans.

It was the consensus of Council to receive the report and have the City Attorney craft their vision and mission into a resolution which can then be voted on by Council.

Councilman Pelly, liaison to the Neighborhood Advisory Committee, was pleased that they have taken his advice to look at initiatives that won't cost money and those that are part of Council's Strategic Operating Plan.

On behalf of City Council, Mayor Bellamy thanked Mr. Chase for his leadership and the entire Committee for their dedication.

### B. NOISE ORDINANCE APPEALS BOARD UPDATE

Ms. Brenda Sears, Chair of the Noise Ordinance Appeals Board, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Ms. Sears for her leadership and the entire Board for their dedication.

### C. MAYOR'S COMMITTEE FOR CITIZENS WITH DISABILITIES

Ms. Karen Keating, Chair of the Mayor's Committee for Citizens with Disabilities, provided Council with an update on positive points that the City has taken with regard to accessibility, and offered suggestions for additional consideration.

On behalf of City Council, Mayor Bellamy thanked Ms. Keating for her leadership and the entire Committee for their dedication.

When Mayor Bellamy asked for staff support for some administrative functions, e.g., sending minutes out, Councilman Davis felt that would be a good idea to talk about at the upcoming retreat.

### D. WATER RESOURCES UPDATE

Project Manager Phil Kleisler updated City Council on the Water Resources process update from February 12 - February 26, 2013. He then provided Council with the information sharing between the City and MSD.

On behalf of City Council, Mayor Bellamy thanked Mr. Kleisler for his dedication to the City of Asheville as he furthers his career to Estes Park, Colorado.

**E. LEGISLATIVE UPDATE**

Deputy City Manager Jeff Richardson highlighted for Council some legislative issues of interest, some being, but are not limited to: annexation amendment (HB 79); property tax/deannexation (SB 97); Charlotte Regional Airport Authority (HB 104/SB 81); building inspections/local consistency (HB 120); ordinance first reading vote (SB 85); western crime lab funds/amend evident laws (SB 3); operation of mopeds (HB 48); and repeal combination motor vehicle registration/tax system (HB 30).

When Mayor Bellamy asked about our revenue loss if we no longer have control over the extraterritorial jurisdiction (ETJ) area, Executive Director of Finance & Strategic Planning Lauren Bradley said that there will be some revenue loss but could not give the exact figures since they are currently assessing those numbers.

At the request of Councilman Hunt, it was the consensus of Council to authorize City Manager Jackson to meet with the County Manager and perhaps two members of City Council, two members of the Buncombe County Commissioners, both the City and County attorneys, and both the City and County Planning Directors to begin discussion on the pros and cons of eliminating the ETJ on a local level. This discussion is in preparation of whichever version come out of the legislature.

City Attorney Oast said that if the ETJ goes away, the structure of the Planning & Zoning Commission and the Board of Adjustment will change.

**F. QUARTERLY REPORTS**

**Committee Chair Reports**

Vice-Mayor Manheimer, Chairman of the Finance Committee, provided Council with a brief update on some major accomplishments during this quarter.

Vice-Mayor Manheimer, Chairman of the Planning & Economic Development Committee, provided Council with a brief update on some major accomplishments during this quarter.

Councilman Bothwell, Chairman of the Public Safety Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Strategic Operating Plan**

Deputy City Manager Jeff Richardson said that the Asheville City Council identified short and long term goals at the February 3, 2012, strategic planning retreat. Organizational progress in the identified focus areas is tracked using performance indicators and measurements throughout the year. The full update of these findings for the first two quarters July 1, 2012 - December 2012) of fiscal year 2012-2013 can be found through the "Strategic Operating Plan" button on the front page of the City of Asheville's website at www.ashevillenc.gov. He then highlighted the key strategic initiatives that took place during this same time period.

**Financial Report**

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through December, 2012. He reviewed the executive summary as follows:

***Amendments.*** The General Fund budget presented in this second quarter report reflects the adopted budget of $89,922,437; along with nine budget amendments approved by Council that totaled $1,259,562. A summary of the amendments is presented below. The only amendment that involved an appropriation from fund balance was the $650,000 approved for employee bonuses. The $63,000 for the firing range mitigation project was appropriated from unexpended capital funds that were being held in reserve.

| | |
|---|---|
| Adopted Budget | $89,922,437 |
| Budget Amendments: | |
| NC Arts Council Grassroots Arts Grant | 50,431 |
| Linamar ED Incentive | 200,000 |
| Firing Range Mitigation Project | 63,000 |
| Public Housing Police Unit Partnership | 217,000 |
| RENCI Grove Arcade Lease | 36,096 |
| Plasticard Locktech ED Incentive | 13,400 |
| Employee Bonus** | 650,000 |
| Community Center Grants | 7,834 |
| Energy Rebates | 21,801 |
| 12/31/2012 Budget | $91,181,999 |

** Fund Balance Usage

***Revenues.*** Through December 31, 2012, the City has collected $52,918,585 in General Fund revenue, which represents approximately 58.5% of the total General Fund revenue budget. The percentage of revenue collected compared to budget is almost identical to the previous year's percentage through two quarters. Staff received property tax data from Buncombe County in January that showed that the FY 2012-13 assessed valuation grew by only 0.6%. As a result, staff has revised downward the property tax revenue estimate for the current year. Sales tax revenue, which is up 6.3% compared to the same period last fiscal year, is tracking closely to the budget forecast. Through two quarters, state utility tax revenue continues to trend below budget. In total, *FY 2012-13 General Fund revenue is currently projected to come in $520,000 or 0.57% in under budget.*

***Expenditures.*** General Fund expenditures through December 30, 2012 total $41,653,448 or 45.7% of budget. At this point in FY 2011-12 expenditures were at 46.0% of budget – so expenditures trends are very similar to the prior fiscal year. Personnel expenses, the largest component of the General Fund budget, are projected to come in on budget. Expenditures for fuel and fleet maintenance continue to run slightly ahead of budget. *Based on expenditure patterns in the previous fiscal year and the trends noted above, staff is projecting that expenditures will finish the year at 99.1% of budget or approximately $855,000 under budget, which will more than offset the expected revenue shortfall.*

***Fund Balance.*** The City ended FY 2011-12 with available fund balance of $13.63 million, which equated to 15.9% of FY 2011-12 expenditures. At the November 13th meeting, Council approved the use of $650,000 in fund balance for one-time employee salary bonuses. *Factoring in this fund balance usage along with current revenue and revenue projections for FY 2012-13, staff estimates that available fund balance at June 30, 2013 will be $13.3 million or 15.0% of estimated expenditures.*

Mr. McDowell responded to some questions raised by Council regarding the City's financial position.

256

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO REZONE 152 MONTFORD AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

### ORDINANCE NO. 4167 - ORDINANCE TO REZONE 152 MONTFORD AVENUE FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO NEIGHBORHOOD BUSINESS DISTRICT

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone 152 Montford Avenue from RM-8 Residential Multi-Family Medium Density District to Neighborhood Business District. This public hearing was advertised on February 15 and 22, 2013.

Mr. Esselsytn said that this property; the one-sixth-acre site occupies a corner lot at the high-profile Montford Avenue-West Chestnut Street intersection and contains a distinctive building. Historic records indicate the building was built before 1907. The applicant asserts (but staff has not verified) that the original use was a dry goods store, followed by a grocery market. Property records indicate that in 1972 the Pentecostal Tabernacle acquired the property and subsequently began to use it as a church.

Places of worship are a use by right (subject to special requirements) in the existing RM8 zoning district, but the applicant, who purchased the property this past December, is interested in pursuing other non-residential uses. Section 7-8-1 of the Unified Development Ordinance (UDO) provides that the proposed zoning district, Neighborhood Business (NB), can support, for example, offices, health and fitness facilities, eating and drinking establishments, and retail sales (the latter two would be subject to special requirements). The district does not allow some uses allowed in other mixed-use districts however, such as banks, clinics, or funeral establishments.

> Section 7-8-8 of the UDO sets forth the purpose of the proposed district:
> *The Neighborhood Business District is established to reserve areas for low-intensity business centers which are accessible to pedestrians from the surrounding residential neighborhood. The intent of the district is to provide for the daily convenience and personal service needs of the surrounding residential neighborhood while minimizing conflicts with surrounding residential uses. This district is designed to be located within or adjacent to residential neighborhoods where large commercial operations are inappropriate, but where small neighborhood oriented businesses are useful and desirable.*

Since the property is currently surrounded by the same RM8 district, the proposed rezoning would establish a one-sixth acre, isolated zoning district. Elsewhere in the city, or with another zoning district, such a configuration might be discouraged or characterized as spot-zoning, but the NB district is intended for use in small "pockets," and examples of small islands of NB zoning at intersections surrounded by residential zoning exist in multiple older Asheville neighborhoods. Indeed, perhaps most noteworthy, similar instances of small NB nodes can be found one long block north of the subject site (Nine Mile restaurant), and one long block south (Tod's Tasties).

If the zoning change is approved, there will likely be some design challenges for whatever use is pursued. The Neighborhood Business zoning would require a 20-foot wide landscape buffer against the adjacent RM8 zoning to the south and west, but the arrangement of the parking area, which is also currently used by the two adjacent properties for access to their own driveways/parking, would preclude installing such a buffer in its entirety, so some sort of alternative compliance would likely be sought. Further, the platted alley to the west of the lot is partially paved, but partially vegetated, and the driveway entrance doesn't align with the alley;

while there are allowances for a driveway entrance to penetrate a buffer, a fully-compliant buffer would be problematic for the vehicular access not only to this property, but to the adjacent properties as well.

These landscaping challenges need not be considered in detail as part of this rezoning petition—the choices for how to address them will depend on the specific use proposed, as well as the design of the future site improvements. Staff in the Transportation Department has indicated that any transportation improvements will also depend on the proposed use. The intersection of Montford Avenue and West Chestnut Street is an unusual intersection where the east and west sections of West Chestnut are offset, and the section adjacent to this site has a stop sign, separate from the traffic signal controlling the other three arms of the intersection. A new use introducing a substantial increase in traffic could potentially trigger changes to the intersection or the signalization.

While these obstacles would confront a future commercial use, staff recognizes that the architecture (designed for retail/church use) could prove an awkward fit for re-use as a residence. Further, the Montford Historic District Design guidelines could limit how the building could be altered to accommodate a residential use. The Historic Resources Commission Director is aware of the rezoning petition and has indicated no opposition.

Staff has received approximately ten communications from citizens, as well as a written letter of support from the Montford Neighborhood Association. While about half of the citizens who contacted staff were wholly in favor of the rezoning, most of the others weren't opposed to commercial occupancy, but had concerns about specific uses. One citizen was firmly opposed, with the primary concerns being traffic and parking.

At their February 6, 2013, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning request.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- Consistent with existing instances of Neighborhood Business zoning on same corridor.
- The Comprehensive Plan promotes adaptive reuse of such sites.
- Building architecture is better suited for commercial use than residential.

Cons:

- Challenges will likely exist for developer in meeting development standards for parking and landscaping.
- If use is changed to a low-impact use, site improvements other than buffers may not be required.

Staff feels that there is encouraging precedent for such nodes of Neighborhood Business zoning to work well along Montford Avenue. The building, originally designed for commercial use, doesn't appear to have ever primarily served as a home, and the 2025 Plan encourages repurposing such sites for non-residential use, "while ensuring that neighborhood compatibility and public safety goals are met." Staff finds the request is reasonable, is confident that existing standards will address the compatibility and safety goals, and recommends approval of the rezoning request.

Mayor Bellamy opened the public hearing at 6:44 p.m.

Mr. Michael McDonough, applicant, said that because they purchased the property two months ago, at this time they have no specific intended use for it.

In response to a neighbor about possible additional work at the intersection, Mr. Esselstyn said that it will really depend on the specific use of the property and how much traffic the use would generate. He did note that the Traffic Engineer said that if more traffic were generated that the most likely modification would be an extra leg on the traffic signal (which section to the site now has a stop sign).

Mayor Bellamy closed the public hearing at 6:47 p.m.

In response to Councilman Bothwell, Mr. Esselstyn said that the Neighborhood Business District does not allow a drive-through.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4167. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 153**

**B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE ADDITIONAL CLARIFICATION FOR TWO-STORY REQUIREMENTS FOR NEW CONSTRUCTION AND ALLOWANCES FOR ONE-STORY ADDITIONS TO EXISTING BUILDINGS AND FOR ACCESSORY STRUCTURES**

**ORDINANCE NO. 4168 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO PROVIDE ADDITIONAL CLARIFICATION FOR TWO-STORY REQUIREMENTS FOR NEW CONSTRUCTION AND ALLOWANCES FOR ONE-STORY ADDITIONS TO EXISTING BUILDINGS AND FOR ACCESSORY STRUCTURES**

Urban Planner Alan Glines said that this is the consideration of an ordinance to Amend Chapter 7 of the Code of Ordinances to provide additional clarification for two-story requirements for new construction and allowances for one-story additions to existing buildings and for accessory structures. This public hearing was advertised on February 15 and 22, 2013.

Mr. Glines said that the most recent changes to the regulations governing the Central Business District were adopted in November 2010; based on the recommendations from the *Downtown Master Plan*. When the master plan was created in 2008 and 2009, it was anticipated that most new development projects would be larger new multi-story structures. Since that time, primarily due to the economic downturn and limited availability of financing for large projects, the new development that has occurred has primarily been on a more limited scale involving the renovation and expansions of smaller existing buildings. While we are beginning to see a pickup of interest in larger scale projects, the interest in these smaller projects continues and we have observed that certain aspects of the adopted regulations are somewhat problematic for those projects. The greatest interest has been in renovating existing one-story buildings or expanding and adding to these buildings, primarily in areas that surround the traditional downtown core.

Preservation of historic buildings is an identified goal of the master plan and these projects help to preserve buildings and make them feasible for reuse by extending their functional life. These renovations are also providing "incubator" locations for startup or smaller businesses.

The challenge we are seeing is that because new one-story construction is not allowed in the central business district zone variances are required for a number of these additions which are often one-story additions to an existing building. As this issue has been studied and considered after consideration of four recent variances, staff is proposing clarifications and modifications to several segments of the regulations. The modifications affect regulations for two-story buildings, one-story additions, and setback requirements. They will ease approvals for situations as described below.

For new construction the building is expected to be close to the frontage line of the parcel but additional setbacks are allowed for courtyard spaces, dining uses and other lawn areas for residential and institutional uses. Yet when an addition is contemplated it is with a specific activity in mind to make the commercial endeavor function more effectively and the normal setback rules can be difficult to meet.

Variances are important tools that are intended to provide relief from standards in an ordinance for unexpected or unusual hardships. When the requested variances are common enough to seem repetitive, and relief is usually granted, a wording change correcting the problem may be justified. One additional factor about the variance process is that it represents a delay for the developer of at least two months and because a variance process is quasi-judicial in review, the final outcome is uncertain. When the master plan was developed and agreed to by various stakeholders, one of the goals was to develop a set of rules that everyone could agree to thus reducing uncertainty for the development community. It is with this background that the wording amendment is proposed.

**Summary of Proposed Changes**:

**Two-story height**- The CBD requires that new buildings be constructed to a minimum height of two-stories. One aspect of the wording change specifies a dimension in feet so that the actual height requirements will be more easily understood. The proposed amendment also clarifies that the second story will need to cover the full first-floor footprint area. There is no proposed amendment to allow single-story buildings 'by right'. If there is a true hardship in meeting that basic requirement a variance could be requested. It has been reiterated through this process that the second story represents a long-term sustainable investment in downtown that supports the tax base of the city and can maintain the vitality and diversity of the area.

**One-story additions-** Additions to existing buildings represent economic and financial investment in the central business district and are common when a property is renovated. The proposed wording amendment recognizes that single-story additions to existing buildings are anticipated and will be more appropriate in situations where they do not overwhelm the scale of the existing building. This amendment will limit the size of the additions covered by the ordinance and provide placement options (setback parameters) relating to the existing building.

**Accessory structures-** The existing ordinance permits accessory structures in the central business district but is not clear where on the lot they are allowed. The proposed wording amendment will provide clarity on placement of accessory structures. Typically accessory structures are single-story and are placed at the rear of the parcel for storage or for other specific activities. Restaurants have at times constructed accessory structures in the form of a covered canopy for an outdoor dining space at the front of their lot. The proposed amendment would specifically allow such accessory structures to be placed at the front of the lot since they generally energize the activity at the sidewalk.

**Street Wall substitution**- For new construction in downtown, a two-story (or more) *street wall* is required. Recently, there was a conflict with this requirement in a situation where an existing one-story building was being preserved and a larger addition was being added as a part of the project. Because of the way the standard is worded in the UDO the existing single-story section of the project did not meet the street wall definition and requirement. The proposed

amendment will correct this scenario for single story existing buildings that are identified as a contributing structure in the downtown national register district that will be preserved as a part of a development proposal. This amendment will also support other goals of the Downtown Master Plan including preservation of the historic building stock and City adopted goals for sustainability.

**Setback flexibility for additions-** Existing buildings in downtown are 'grandfathered' in the locations they are found which sometimes include non-compliant setbacks (zero setbacks are the basic standard in the CBD). When buildings undergo renovation they may be upgraded to comply with current building standards defined in the building code but the placement of a building is never questioned regarding its compliance with zoning's setback rules. For parcels that have space to build an addition, the usual setback standards apply to the addition too and can pose an unexpected challenge. (These situations are most often being seen outside the center of the CBD in smaller old commercial structures.) Additions are attached to the existing building where they are needed and depending on their proposed function, the internal layout of the existing building or in some cases the building's orientation.

The proposed amendment would provide some relief from this situation which currently requires the approval of a hardship variance. As was noted before, additions are common and even encouraged for the continued vitality of downtown and for the long term viability of individual buildings which furthers the goals of historic preservation.

**Other Central Business District areas: West Asheville-** For the other Central Business Districts such as the two areas found in west Asheville, there are similar development standards like those in place for downtown. There have been a number of renovations of existing buildings but until now few additions. The proposed amendments also make practical sense for these CBD areas and will assist when additions to existing structures are proposed. The information was shared with representatives of the Haywood Road Corridor Study Group and although the number of comments received was limited all who commented supported the idea of the proposed amendment. As the proposal for a Form Based Code gets underway for Haywood Road, recommendations for changes may be identified and brought forward for adoption.

This action complies with the following plans: (1) *Strategic Operating Plan*: This action complies with the City Council Strategic Operating Plan goals of implementing community adopted plans with reasonable regulations to assure a balanced approach to managing the community's resources and encouraging redevelopment and continued investment; (2) *Downtown Master Plan*: The Downtown Master Plan provided a framework to ensure that the downtown is protected and that the environment is enhanced and continues to grow and prosper. This amendment aligns with the broader goals of the plan such as business growth and investment and preservation of the existing building stock; and (3) *Haywood Road Plan*: The Haywood Road Plan is currently in draft form but the amendment will support and identified goal to preserve existing historic buildings along the corridor and especially structures within the two national register districts. The proposed amendments recognize the value of existing structures and removes an impediment for renovation and expansion for new and existing businesses.

The Downtown Commission reviewed the proposed amendment at their meeting on December 14, 2012, and unanimously endorsed the amendment (vote 11-0 to recommend approval). Although the Haywood Road Corridor Study Group has suspended regular meetings, the amendment was shared with them for comment and while the responses were limited, the seven comments that were received were positive about the proposal.

The Planning and Zoning Commission reviewed the proposed amendment at their meeting on February 6, 2013 (vote 5-0 to recommend approval) and informally at a mid-month meeting on December 20, 2012. The Commission discussed in detail the requirements for the two-story minimum standards for new construction and recommended changes that are incorporated into the proposed ordinance. With the current proposal, the Commission wanted to

emphasize the value the second story represents to the tax base of the city and the vitality of CBD zoned areas.

Pros:

- Allows the ordinance to adapt to current trends and opportunities
- Removes a deterrent to continued investment in key areas of the city
- Establishes reasonable standards to maintain the community's character

Con:

- The nature of some ordinances is such that they require review and adjusting over time

City staff recommends that the City Council approve the amendments to the Unified Development Ordinance as described in the staff report and ordinance.

Mayor Bellamy opened the public hearing at 6:58 p.m. and when no one spoke, she closed the public hearing at 6:58 p.m.

In response to Councilman Davis, Mr. Glines read the definition of an accessory building out of the Unified Development Ordinance.

Mr. Glines responded to Councilman Bothwell regarding the 24 foot height. Planning & Development Director Judy Daniel said that perhaps the Sustainability Advisory Committee of Energy & the Environment can look at the issue of the height from an energy efficiency standpoint.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Davis found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4168. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 156**

**V. UNFINISHED BUSINESS:**

**A. MOTION ADOPTING FINDINGS OF FACT SUPPORTING RESOLUTION TO CLOSE MOODY AVENUE**

Assistant City Attorney Martha McGlohon said that at a public hearing held on November 22, 2011, City Council adopted a Resolution closing Moody Alley. Moody Alley is an unopened, undeveloped Alley with 13 adjoining property owners, running between Nevada Avenue and Nebraska Street, in West Asheville. The resolution closing the Alley was appealed to the Buncombe County Superior Court. The Superior Court remanded the matter back to this Council for the entry of Findings of Fact to support the resolution to close.

During the summer of 2011, Jay Fiano began bulldozing Moody Alley to provide secondary access to an L-shaped lot that he created after subdividing the property. The neighbors obtained a temporary restraining order. Subsequent thereto, upon request, City Council initiated a closing of the alley. After following the statutory procedures set forth in NCGS §160A-299, on November 22, 2011, Council held a public hearing and adopted a resolution closing the alley. Jay Fiano appealed the closing to the Buncombe County Superior Court. The matter came on for hearing before the Honorable C. Philip Ginn on 1/8/13. Judge Ginn stated that he could not determine if Council's action in closing the alley was consistent with NCGS §160A-299, without findings of fact, other than those set forth in the resolution. By Order filed

1/9/13, Judge Ginn remanded the matter back to this Council to enter Findings of Fact to support the resolution to close.

Council is not being asked to re-open the public hearing or reconsider its decision. Council is only being asked to provide additional findings to support the resolution closing the alley. The additional findings that support the resolution closing the alley have been provided to Council.

Pro:

- Complies with the Court's directive

Con:

- Sets a precedent for future street closings

The City Attorney's Office recommends that City Council adopt the findings of fact to support the resolution to close Moody Alley.

Ms. McGlohon said that two members of Council were not sworn in at the time of the hearing. If Councilman Hunt and Councilman Pelly feel that they have familiarized themselves with the facts, she felt they could vote on the matter. Councilman Hunt and Councilman Pelly stated that they are familiar with the case and would be able to vote.

Ms. McGlohon said that Mr. Tikkun A.S. Gottschalk and Mr. Robert J. Deutsch (attorneys for the Fianos) have objected to Council proceeding to adopt these findings of fact without a new notice and a new public hearing. They were not able to stay for the remainder of the meeting but they provided her with a copy of their written "Objections to Adoption of Findings of Fact" and she advised them that she would provide them to the City Clerk. At this time, Ms. McGlohon handed the City Clerk with copies of "Objection to Adoption of Findings of Fact" dated February 26, 2012 (sic) signed by Mr. Tikkun A.S. Gottschalk and Mr. Robert J. Deutsch.

Vice-Mayor Manheimer said that Mr. Gottschalk said to her that he would not be permitted to make public comment and that is why they did not stay for the issue. They did say they would submit their objections in writing. Ms. McGlohon clarified that she did not inform Mr. Gottschalk that he could not make public comment, but that it would be left up to City Council to determine whether or not he would be allowed to address Council, but she was prepared to hand their objections to the City Clerk.

When Mayor Bellamy asked City Attorney Oast about one of their objections stating that adoption of the findings of fact would be contrary to the City Charter, City Attorney Oast responded that he disagreed with their objection.

When Mayor Bellamy asked for public comment, no one spoke.

Councilman Smith moved to adopt the findings of fact provided by the City Attorney's Office to support the resolution to close Moody Alley. This motion was seconded by Councilman Bothwell and carried unanimously.

**VI. NEW BUSINESS: None**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. H. L. Carlisle spoke to Council about the need for public safety employees pay raises.

There was a brief discussion, initiated by Mayor Bellamy, to reschedule the interviews and appointment of the Asheville City Board of Education candidates due to spring break during

the week of March 25-29. City Attorney Oast said that he would review the law to see if the appointments could be made on April 1 and report back to Council after closed session.

**Closed Session**

At 7:32 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of contracts for the acquisition of real property by purchase, option, exchange or lease. The location of the property is Amboy Road adjacent to Carrier Park. The statutory authorization is contained in G.S. 143-318.11(a)(5); (2) (2) To discuss matters relating to the location or expansion of industries or other businesses in the area served by the City Council, including agreement on a tentative list of economic development incentives that may be offered in negotiations, provided that any action authorizing payment of economic development incentives will occur in open session. The statutory authorization is contained in G.S. 143-318.11(a)(4); (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment, or initial employment of an individual prospective public officer or employee. The statutory authorization is contained in G.S. 143-318.11 (a) (3); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11 (a) (6); and (4) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:20 p.m., Councilman Davis moved to come out of closed session and return to the formal meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

**Asheville City Board of Education Interviews and Appointments**

City Attorney Oast reviewed the law regarding the City's appointments to the Asheville City Board of Education and advised Council that the appointments must be made in the month of March. Therefore, it was the consensus of Council to interview candidates at 10:00 a.m. on March 12, 2013, and make the appointments later that evening at their formal meeting.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:40 p.m.

Magdalen Bowlson
CITY CLERK

MAYOR

264

Tuesday – March 12, 2013- 2:00 p.m.
First Floor North Conference Room

Worksession

City Council held a budget briefing, using the goals and action items outlined at their retreat on March 11, to obtain budget policy direction on the following items:

(1) Market based compensation - After presentation by Fox Lawson & Associates and Council discussion, it was the consensus of Council to direct City staff to proceed with the staff's basic recommendations which is a 3% across the board increase for all employees. She explained staff is recommending (1) we adjust non-exempt and exempt pay ranges up 3%, (adjust non-exempt and exempt employee compensation up the same); (2) even though the study recommends the executive structure range be increased by 10%, staff recommends a 3% increase in the executive pay; and and (3) even though there is no recommendation to any public safety structure, because the step plans have not been funded, staff's recommendation would be to fund a step increase of 3% for public safety employees. Temporary and seasonal employees would also receive a 3% increase.

(2) BID proposal - Due to the absence of any BID Board representatives, Executive Director of Finance & Strategic Planning Lauren Bradley believed that there may have been a miscommunication about their presence being required at this worksession to discuss their budget, although they were aware they were to attend the March 12 formal meeting to discuss approval of their by-laws. Staff did meet with BID Board representatives on Friday, March 8 and reviewed several various options. On March 8, staff requested the BID come back with a detailed budget to understand their expectations (how many miles of street cleaning, how often pressure washing would take place, etc.). She thought that perhaps they believed the budget would be discussed at the March 26 formal meeting, when the BID tax rate would be discussed. Mayor Bellamy, along with Council, was disappointed that the BID budget was not ready to be presented at this time to allow Council to ask questions prior to the March 26 meeting. After discussion, it was the consensus of Council to request the BID budget be e-mailed to Council by Monday, March 18, along with staff's analysis, in time for Council and the public to review it.

(3) Financial forecast & proposed fees and charges- Ms. Bradley provided Council with an overview of the Fiscal Year 2014 General Fund budget forecast. She presented the budget balancing strategies regarding revenue options which included (1) solid waste reduction program - dropping the $3.50 monthly fee per household for recycling services and substituting a $7.00/month fee for trash pick-up; and (2) Friends of the Nature Center funding partnership. Budget balancing strategies regarding expenditure options include (1) offer early retirement incentive and freeze/eliminate 10 positions; (2) line item reductions; (3) re-engineer City's role with festivals and special events; and (4) restructure staffing at special facilities. Other factors include (1) impact of State legislative revenue reform initiatives (privilege license $1.7 Million, sales tax changes); (2) impact of revaluation on sales tax revenues; (3) impact of possible water system transfer ($1.8 Million); and (4) adjustment to development review revenues without extra-territorial jurisdiction ($200,000). She noted that the $85,000 that the BID Board will be asking for is not built into any scenarios. Ms. Bradley and Executive Director of Public Works and Multimodal Transportation responded to various questions of Council, and after considerable discussion, it was the consensus of Council to direct City staff to proceed with the items outlined to build the City Manager's recommended budget. In addition, after discussion, it was the consensus of Council (1) to direct staff to analyze picking up trash one week and recycling the next week; (2) allow people who do not have a degree to have an opportunity to work for the City; (3) discontinue the City's hosting Bele Chere in 2014 (allowing non-profits and others who rely on it one year to adjust), but to keep $200,000 for the 4th of July celebration and other partnership opportunities; and (4) to direct staff to look at an alternative staffing structure than closing down and locking Aston Park Tennis Courts and the Food Lion Skateboard Park like other park facilities

(from dusk to dawn), due to safety and graffiti/maintenance concerns. Ms. Bradley previewed the fees and charges recommendations, which will be coming forward to Council on March 26.

At 4:23 p.m., Vice-Mayor Manheimer recessed the meeting until the 5:00 p.m. formal meeting.

Regular Meeting - 5:00 p.m.

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Davis gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF WARREN WILSON MEN'S BASKETBALL NATIONAL CHAMPIONSHIP TEAM**

On behalf of City Council, Councilman Smith was proud to recognize Ms. Stacy Enos, Sports Athletic Director, Coaches and the Warren Wilson Men's Basketball Team for their USCAA Division II Championship Win.

**B. PROCLAMATION PROCLAIMING MARCH 2013 AS "DEVELOPMENTAL DISABILITIES AWARENESS MONTH"**

Mayor Bellamy read the proclamation proclaiming March, 2013, as "Developmental Disabilities Awareness Month" in the City of Asheville. She presented the proclamation to Ms. Linda McDaniel, representing ARC of Buncombe County, who briefed City Council on some activities taking place during the month.

**C. PROCLAMATION PROCLAIMING MARCH 2013 AS "WOMEN'S HISTORY MONTH"**

Mayor Bellamy read the proclamation proclaiming March, 2013, as "Women's History Month" in the City of Asheville.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 26, 2013**

**B. ORDINANCE NO. 4169 - BUDGET AMENDMENT TO PURCHASE ONE DIESEL BUS**

Summary: The consideration of a budget amendment in the amount of $400,000 from Federal Transit Administration (FTA) funds, Transit Fund Capital Reserves and General Capital Project Reserves, to purchase one 30-foot diesel bus using the current contract with Gillig, Inc.

During June 2012, the City of Asheville received funding from the Federal Transit Administration under the Bus and Bus Facilities, Livability Program, to purchase one 30-foot bus to replace one of the two remaining 1996 buses. The City has allocated its share of the required 20% local match but we have been unable to leverage the share that typically comes from the North Carolina Department of Transportation (NCDOT).

The total project cost is about $400,000. The Federal Transit Administration (FTA) will fund 80% ($320,000) and the City will fund the remaining 20% ($80,000). Federal Transit Administration procedures require that obligated grants be executed or encumbered no later than one year after the obligation date which is June 2013. If the funds have not been used by that timeframe, the Federal Transit Administration can proceed to de-obligate the funds. Not only could the City lose the Federal grant, it would set a bad precedent that could reflect in the City's ability to leverage Federal funds in the future.

In addition, the cost of maintaining the 1996 buses is high, the buses require expensive and frequent maintenance, fuel efficiency is poor and their impact in the environment is higher since their engines were not manufactured under the newest Environmental Protection Act regulations.

The City will order the bus immediately under the current contract with Gillig, LLC. and the delivery date will be 12 months.

This action complies with the current City Council's Strategic Operating Plan in the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

This item has been reviewed and endorsed by the Transit Commission in their February 5, 2013, meeting.

Pros:

- The City will replace one of the last aged buses and produce savings in maintenance costs and fuel costs.
- The Federal Transit Administration (FTA) would fund 80% of the subject project cost.

Con:

- Funding to cover the additional 20% match will have to be taken from Transit Capital Reserves and General Capital Reserves.

The cost of the project is approximately $400,000. 80% will be funded by the FTA, with the remaining 20% or $80,000 funded by the City. There is currently $26,177 available in unexpended Transit Capital funds that can be allocated toward this match. The remaining $53,823 will come from unexpended General Capital funds that have accumulated from projects that came in under budget. There is currently $135,000 in unexpended funds available in the General Capital Projects Fund. After the appropriation above, the remaining balance will be $81,177. Staff recommends that the $81,177 remaining in general capital reserves be allocated to the FY 2013-14 CIP.

Staff recommends that City Council approve a budget amendment in the amount of $400,000 from Federal Transit Administration (FTA) funds, Transit Fund Capital Reserves and General Capital Project Reserves to purchase one 30-foot diesel bus using the current contract with Gillig, Inc.

**ORDINANCE BOOK NO. 28 - PAGE 160**

**C. RESOLUTION NO. 13-40 - RESOLUTION APPROVING LOCAL ALCOHOLIC BEVERAGE CONTROL BOARD PROPOSAL TO USE PROCEEDS FROM REAL PROPERTY SALES FOR CAPITAL PROJECT**

Summary: N.C. Gen. Stat. sec. 18B-805 (d) authorizes a local ABC board to set aside a portion of its gross receipts as a fund for special capital improvements, with the approval of the appointing authority. The City of Asheville Board of Alcoholic Control has requested approval by the Asheville City Council of its request to set aside the proceeds from the sale of the Board's old store at 209 Tunnel Road from its gross receipts for purposes of required distribution, so that the entirety of the sale proceeds may be used for use for planned capital improvements, specifically a new store at 650 Hendersonville Highway.

Mr. Jim Ellis, Chairman of the ABC Board, spoke in support of this action.

**RESOLUTION BOOK NO. 35 - PAGE 192**

**D. RESOLUTION NO. 13-41 - RESOLUTION AUTHORIZING THE MAYOR TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION TO REFLECT CHANGES TO COMPLY WITH FEDERAL AND STATE REQUIREMENTS**

Summary: The consideration of a resolution authorizing the Mayor to enter into a Memorandum of Understanding with the French Broad River Metropolitan Planning Organization (FBRMPO), which has been updated to reflect changes in population patterns during the last census and to comply with Federal and State requirements.

The FBRMPO operates under a memorandum of understanding (MOU) between all of the member counties, municipalities, and the North Carolina Department of Transportation. The FBRMPO exists under federal law to provide cooperative, comprehensive and continuing planning for transportation in the region.

The extent of the area for which the FBRMPO must plan is the urbanized area as determined by the population patterns reflected in the decennial census. The latest census (Census 2010) led to the expansion of the urbanized area, which now includes more of Buncombe County and parts of Madison and Transylvania Counties. The FBRMPO may enlarge the urbanized area so that the planning area boundaries make sense and are acceptable to the member jurisdictions.

Jurisdictions within the urbanized area, while represented by the FBRMPO, may choose whether or not to participate. As newly included jurisdictions in the urbanized area, the Town of Mars Hill and Madison County have chosen to join the FBRMPO as full members while Transylvania County has chosen to be only a non-voting, ex-officio member.

Under the last MOU, the FBRMPO boundary included some parcels that are in the Asheville watershed. Buncombe County has requested that these parcels be excluded from the new FBRMPO boundary and included in the adjacent Rural Planning Organization (RPO) area. The parcels are not in the urbanized area, they have no population and few jobs, and they adjoin the area in the northeast corner of the county that is already in the RPO.

Additionally, this MOU:

- Changes the name of the FBRMPO governing body from the "Transportation Advisory Committee" (TAC) to "MPO Board."

- Removes language in several sections that refers to the priority needs list and replaces it with more general prioritization language. The specific prioritization process language will be moved to the FBRMPO by-laws, which are adopted by the FBRMPO governing body. The prioritization process is regulated by the North Carolina Department of Transportation.
- Changes some terms used in former federal transportation bills to match those used in MAP-21, the current federal transportation bill.
- Spells out acronyms in the document.

In recent years, funding coming to the city through the FBRMPO includes:

- Ongoing funding for one transit planning position.
- Federal Transit Administration capital and operations grants.
- The Clingman Avenue streetscape project.
- ARRA transportation projects (resurfacing Kimberly Avenue, Coxe Avenue, constructing sidewalks on Choctaw Street, Evelyn Place, Hendersonville Road, Hilliard Avenue, and Linden Avenue and constructing bicycle facilities on Asheland Avenue, Choctaw Street, Coxe Avenue, Hilliard Avenue, and Martin Luther King Jr. Blvd).
- The RADTIP Study (Environmental Document).
- Upcoming Hendersonville Road and New Leicester Hwy sidewalk/pedestrian crossing projects.
- Upcoming Complete Streets workshop ($8,000 special study money, 80% of anticipated costs, balance of $2,000 from County Health Department, and free U.S. Cellular Center rent for session from City).

This action complies with the City Council Strategic Operating Plan in that continued membership in the FBRMPO will help support the Council's fiscal responsibility, safety, multimodal transportation and community development goals. It does this by leveraging partnerships for capital improvement and infrastructure projects, accessing any remaining Safe Routes to School funding, seeking partnerships for investments in greenway and sidewalk infrastructure, and partnering in key local and regional initiatives.

Council's Planning and Economic Development Committee reviewed this action at their February 26, 2013, meeting, and recommended Council approve joining the updated MOU.

Pros:

- Enables the FBRMPO to meet Federal and State requirements.
- Keeps the City as a voting member of the FBRMPO.
- Enables the City to have access to Federal and State funding.

Con:

- The City pays annual MPO dues of about $18,000.

Currently, the annual dues are $18,000 and they are included in the operating budget of the Transportation Department.

City staff recommends that City Council adopt the memorandum of understanding.

**RESOLUTION BOOK NO. 35 - PAGE 193**

**E. MOTION AUTHORIZING THE MAYOR TO SIGN A LETTER SUPPORTING THE MISSION OF THE MAYOR'S CHALLENGE FOR WATER CONSERVATION AND IN DOING SO RENEW THE COMMITMENT TO SUSTAINABILITY FOR ASHEVILLE AND FOR FUTURE GENERATIONS**

**F. RESOLUTION NO. 13-42 - RESOLUTION EXEMPTING THE NORTH FORK WATER TREATMENT PLAN DAM/TUNNEL EVALUATION & REPAIRS PROJECT FROM THE ANNOUNCEMENT REQUIREMENT OF N.C. GEN. STAT. SEC. 143-64.31 AND AWARDING AN ENGINEERING DESIGN SERVICES CONTRACT TO SCHNABEL ENGINEERING SOUTH, PC, FOR THE OUTLET WORK CONDUIT REHABILITATION**

Summary: The consideration of a resolution to exempt the North Fork Water Treatment Plant Dam/Tunnel Evaluation & Repairs Project from the architectural, engineering and surveying announcement requirement of NCGS §143-64.31; authorize the City Manager to execute an engineering design services contract with Schnabel Engineering South, PC, for the proposal amount of $408,190.00; and authorize a contingency amount of $20,410.00 for a total project budget of $428,600.00 for the rehabilitation of the outlet works conduit at the North Fork Dam.

NCGS §143-64.32 allows a local government to exempt particular projects from the requirements of NCGS §143-64.31. The statute requires that architectural, engineering, and surveying services be announced for competitive selection. For several years, Water Production has used Schnabel Engineering to inspect the dams at the North Fork and William DeBruhl water plants and make recommendations for repairs or improvements. Schnabel is recognized as an expert engineering firm specializing in dam design, construction, and maintenance. On October 25, 2011, City Council also authorized Water Resources to enter into a professional services contract with Schnabel Engineering for the North Fork Water Treatment Plant Dam / Tunnel Evaluation & Repairs Project, which consisted of: (1) evaluating alternatives to address the spillway capacity, (2) a structural evaluation of the outlet works conduit, (3) evaluating the North Fork Dam spillway gates by performing gate inspections and a structural analysis of the gates, (4) conducting EAP training for plant staff, and (5) conducting subsurface investigations.

Water Resources is ready to move into the design phase of this project. Schnabel has presented a scope of work and cost proposal for engineering design services associated with the rehabilitation of the outlet works conduit at the North Fork Dam. The outlet works conduit is the 500-foot tunnel that runs from the intake on Burnett Reservoir, under the North Fork Dam, and to the water plant. This is the first part of the design phase and consists of providing field investigations, survey data, utility location services, structural design of the conduit rehabilitation, and a construction bid package with drawings and specifications.

Schnabel's cost estimate for the first part of the design phase is $408,190.00. A 5% contingency amount of $20,410.00 has been added for a total project budget of $428,600.00.

This project is part of City Council's strategic plan to improve city infrastructure and to operate at the highest levels of fiscal responsibility.

Pro:

- Recognize Schnabel Engineering as the most qualified engineering firm to design the outlet works conduit rehabilitation by exempting the North Fork Water Treatment Plant Dam/Tunnel Evaluation & Repairs Project from the announcement requirement of NCGS §143-64.31.

Con:

- None.

The funding needed for the contract and the contingency is currently allocated within the project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council adopt a resolution to exempt the North Fork Water Treatment Plant Dam/Tunnel Evaluation & Repairs Project from the architectural, engineering

and surveying announcement requirement of NCGS §143-64.31; authorize the City Manager to execute an engineering design services contract with Schnabel Engineering South, PC, for the proposal amount of $408,190.00; and authorize a contingency amount of $20,410.00 for a total project budget of $428,600.00 for the rehabilitation of the outlet works conduit at the North Fork Dam.

**RESOLUTION BOOK NO. 35 - PAGE 194**

**G. RESOLUTION NO. 13-43 - RESOLUTION TO AMEND THE 2010-11 ACTION PLAN TO MT ZION DEVELOPMENT CORPORATION FOR WORKFORCE HOUSING FEASIBILITY ANALYSIS**

Summary: The consideration of a resolution amending the 2010-2011 Consolidated Annual CDBG and HOME Action Plans, to grant additional funds to Mount Zion Development Corporation to complete feasibility analysis for a proposed affordable and workforce housing rental rehabilitation project.

In 2010, the Mt Zion Development Corporation was granted $50,000 of CDBG funds for housing services for pre-development costs for an affordable and workforce housing development in the three historic mill buildings located on the property on the Mt Zion Church, located at Eagle and Market Streets.

As a result of that pre-development work, a 50 unit development was proposed, that included 10 housing units affordable to households earning 80% of median income and 40 workforce units that would be affordable to households earning 100% of median income. However, in the interval between the original planning and now, the financing environment changed. The estimated cost of the project is significantly higher than the lender-appraised value of the completed project, leaving a significant financing gap.

Mt Zion Development Corporation has proposed a strategy to determine whether the appraisal, proposed market for the project and construction plan can be modified to deliver the project. That strategy involves three major components:

- Contract for a new appraisal: The appraisal performed by the lender used questionable comparables, and did not include recent downtown Asheville transactions. Staff agrees that these are deficiencies that may have contributed to an undervaluing of the Mt Zion land.
- Contract for a new market study: The initial market study was based upon certain criteria about the market to be served by the project, especially the maximum rentals for "workforce housing" located in downtown Asheville. If these criteria were changed, and the market analysis supported the existence of sufficient market for a different rental structure, the project could potentially support more debt.
- Perform value engineering of the proposed construction: The construction plan results in costs that cannot be supported by the current available financing scenarios.

The estimated cost of these elements is $13,000. The recasting of financial pro-formas, preparation of new financing applications, and the management of the additional tasks will be accomplished by Mount Zion Development Corporation with non-federal funds.

Pros:

- The proposed actions will provide essential information to determine whether the project; as planned, can attract sufficient financing for its development.
- The proposed action will enable the feasibility analyses to move forward quickly.

Cons:

- The proposed funding will not be returned into the funding pool for reallocation during the annual competitive cycle.

- If the information gleaned from the analyses indicates the project is not feasible, a different project may need to be developed to address the historic vacant mill buildings owned by the Mount Zion Church.

The proposed amendment governs the use of federal funds already allocated to the City. No City general funds are affected.

The HCD Committee recommends approval of the Action Plan Amendment that would grant Mount Zion Development Corporation an additional $13,000 to perform the additional feasibility analyses, as proposed.

**RESOLUTION BOOK NO. 35 - PAGE 196**

**H. RESOLUTION NO. 13-44 - RESOLUTION TO AMEND THE 2012-13 ACTION PLAN TO ALLOW MOUNTAIN HOUSING OPPORTUNITIES TO RETAIN TIER II EMERGENCY REHABILITATION PROGRAM INCOME FOR ADDITIONAL TIER II EMERGENCY REPAIR ASSISTANCE**

Summary: The consideration of a resolution amending the 2011-2012 and 2012-2013 Consolidated Annual CDBG and HOME Action Plans, and past Action Plans, to allow Mountain Housing Opportunities to retain CDBG program income, generated through its Emergency Repair Tier II program for use in that program.

Mountain Housing Opportunities operates CDBG-funded Emergency Repair programs. These programs provide very-low income, special need homeowners with emergency repairs that enable these homeowners to remain in their existing housing. Repairs up to $5,000 are made in the Tier I program; repairs up to $15,000 are made in Tier II. Tier II assistance is secured by a forgivable lien on the property, with 10% of the assistance amount forgiven each year, with the entire assistance then forgiven at the end of ten years from the date of project completion. If the homeowner is not able to occupy their property for the full ten years, the pro-rated portion of the assistance must be repaid.

MHO provided Tier II assistance to a client who, passed away a little more than 1 year after her home was repaired. The unforgiven portion of the assistance was repaid to MHO by the estate. MHO requests that their CDBG grant agreement (and past and future agreements for this program) be amended to allow these funds (which are program income) to be continued to be used in Emergency Home Repair Tier II program and assist other low income special-needs homeowners in Asheville. Program income is rare in the Tier II model- this is the first program income that has been available in the last six years. MHO indicates it has a significant waiting list for these services.

HUD allows CDBG Entitlement communities to determine how program income is to be used. It can be collected by the City and returned to the CDBG pool for reallocation; or the subgrantee can be given permission to retain the program income. In either case, the program income is treated the same as the original CDBG funds, and its use must comply with all CDBG rules and regulations. It the City allows the subgrantee to retain program income, it must execute a written agreement with the subgrantee regarding the use of the program income.

This action meets the Council Strategic Goals of Affordable by supporting the preservation of affordable homeownership, providing safe, sufficient and affordable housing.

Pro:

- The proposed action will enable program income generated through the Tier II Emergency Repair program to be used for additional emergency repairs, without requiring a specific application from Mountain Housing Opportunities for the reuse of the funds .

Con:

- The program income generated by this program, although rare, would not be put back into the funding pool for reallocation during the annual competitive cycle.

The proposed amendment governs the use of federal funds already allocated to the City. No City general funds are affected.

The HCD Committee recommends approval of the Action Plan Amendment that allows Mountain Housing Opportunities to retain the Tier II program income generated through the Tier II Emergency Repair program for ongoing use as Tier II Emergency Repair funding.

**RESOLUTION BOOK NO. 35 - PAGE 197**

**I. RESOLUTION NO. 13-45 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO CHANGE THE MARCH 26, 2013, FORMAL MEETING TIME TO 2:30 P.M.**

**RESOLUTION BOOK NO. 35 - PAGE 198**

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. PLANNING & ZONING COMMISSION UPDATE

Mr. Nathaniel Cannady, Chair of the Planning & Zoning Commission, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Mr. Cannady for his leadership and the entire Commission for their dedication.

### B. PUBLIC ART & CULTURAL COMMISSION UPDATE

Mr. Robert Todd, Chair of the Public Art & Cultural Commission, briefed Council on their activities of the past year and goals for the upcoming year. He said that in order to move forward with the amount of work they are accomplishing, they asked for Council's support for a full-time dedicated leadership position.

Mayor Bellamy stressed how the arts have a significant impact on our economy and was confident that the kinds of resources the Commission is eager to see will ultimately come about as the City structures the organization over the next few months.

On behalf of City Council, Mayor Bellamy thanked Mr. Todd for his leadership and the entire Commission for their dedication.

### C. LEGISLATIVE UPDATE

**RESOLUTION NO. 13-48 - RESOLUTION SUPPORTING A WESTERN CRIME LABORATORY**

Deputy City Manager Jeff Richardson highlighted for Council some legislative issues of interest as follows: (1) Asheville transfers (HB 252); (2) maintaining water and sewer fiscal health (SB 207 = HB 238); (3) ongoing good faith negotiations with MSD; (4) communications; (5) continuing to track resolutions (48) passed throughout North Carolina; (6) annexation amendment (HB 79); (7) property tax/de-annexation SB 97); (8) HB 224 Asheville extra-territorial jurisdiction and annexation (Asheville only); (9) HB 150 zoning/design and aesthetic controls; (10) SB 125 public meeting/records law; (11) building inspections/local consistency (HB 120); (12) SB 186 notice publication by counties/cities; (13) western crime lab funds/amend evident laws (SB 3); (14) operation of mopeds (HB 48); and (15) repeal combined motor vehicle registration/tax system (HB 30). Discussion surrounded the different legislative issues.

In response to Councilman Smith and Mayor Bellamy, City Attorney Oast said that he will look into more detail the type of mopeds the law would apply to and report back to Council.

Mayor Bellamy felt we need legislation immediately to help communities deal with synthetic drugs.

City Attorney Oast presented Council and read a resolution supporting a western crime laboratory, which he felt Council might wish to adopt and send to our legislators.

When Mayor Bellamy asked for public comment, no one spoke.

Councilman Bothwell moved for the adoption of Resolution No. 13-48. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 202**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO AMEND AND ADOPT RULES OF PROCEDURE FOR ASHEVILLE CIVIL SERVICE BOARD**

**RESOLUTION NO. 13-46 - RESOLUTION AMENDING AND ADOPTING RULES OF PROCEDURE FOR ASHEVILLE CIVIL SERVICE BOARD**

Human Resources Director Kelley Dickens said that this is the consideration of a resolution amending and adopting Rules of Procedure for the Civil Service Board to promote efficiency in the classified service. This public hearing was advertised on March 1, 2013.

The Civil Service law has undergone various changes since its inception in the early 1930's, the most recent of which occurred in 2009. The Board's Rules of Procedure have not been updated to reflect the most recent changes in the law.

The proposed recommended Rules of Procedure provides current procedures to guide the Board in conducting meetings and hearings. It includes language from the law outlining the duties and responsibilities of the Board and provides guidance to and direction on procedures as it relates to grievance hearings.

There are minor, clerical revisions which are not summarized, however, below is a summary of the substantive revisions:

1. Rule A. was revised to update the language regarding the most recent amendments to the Civil Service Law. In addition, the Board requested that language be added regarding the authority of the Board to hear grievances and to add that the Board had other powers and duties as authorized by the Civil Service Law.

2. Rule C.3. was revised to include the 2009 amendments to the Civil Service Law designating the City Clerk or his/her designee as the Secretary to the Civil Service Board. In addition, language was added that the minutes should otherwise comply with North Carolina law for minutes of public bodies.

3. Rule E.3. was revised, at the request of the Civil Service Board, to reflect that its meetings, as required by the 2009 amendments to the Civil Service Law, shall be set by the Board adopting a regular meeting schedule of each year. Other revisions were made to Rule E.3 regarding the "other business" item on the agenda to comply with changes to the Civil Service Law.

4. Rule E.4. was revised, at the Board's request, to remove the requirement for holding two work sessions during each calendar year.

5. Rules F.1. and F.2. were revised to remove the inaccurate reference to subsection H.

6. Rule G.3. was revised to confirm that discussion of grievances may occur during a closed session during or following the hearing on the grievance.

7. Rules H.1. and H.2. were revised to comply with amendments to the Civil Service Law in 2009.

8. Rule H.6. was revised to comply with the decorum required for attorneys in North Carolina that they generally remain seated.

9. Rule H.7.b. was revised to include excusing a Board member if bias is shown.

10. Rule H.8.b. was revised to provide that materials and documents will not be submitted to the Civil Service Board until the hearing in order to prevent prehearing bias.

11. Rule H.8.c. was revised to clarify that the doubt raised was about the type of testimony given.

12. Rule H.9. was revised to conform to language of the Civil Service Law.

13. Rule H.10. was revised to conform to language in the Civil Service Law. The Civil Service Law does not address tie votes, but tie votes result in a motion failing and other motions are possible.

She noted one change that was not reflected in the proposed rules sent to Council. Under E.4 - the Board shall have the option of holding two work sessions each calendar year.

The Rules are intended to repeal all other previously adopted rules and regulations of the Board which have not kept pace with the changes in the law.

The proposed Rules of Procedure have been approved by the Civil Service Board members after meetings with City staff and the Board's attorney.

Pros:

- Align the document with the most recent amendments of the Civil Service Law
- Better clarify the Civil Service Board's authority and purpose

Con:

- None

The City's Human Resources Department recommends that City Council approve the resolution amending the Rules of Procedure.

At 6:14 p.m., Mayor Bellamy opened the public hearing, and when no one spoke, she closed the public hearing at 6:14 p.m.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 13-46. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 199**

**V. UNFINISHED BUSINESS:**

**A. CONSIDERATION OF BY-LAWS FOR THE ASHEVILLE DOWNTOWN IMPROVEMENT DISTRICT INC.**

Ms. Susan Griffin, Chair of the Asheville Downtown Improvement District Inc. (DID) Board, said that downtown Asheville is dirty and downtown residents want to work in partnership with the City to clean it up. They are bringing a $450,000 gift (in the form of a special tax assessment on themselves) to get the job done. They need the organizational framework to sign contracts with the City and service providers and create a structure that will enable them to transact their business efficiently. The framework is designed in the by-laws which have been unanimously approved by the DID Board. All of this falls within state statute which guarantees the City ultimate financial oversight on anything the DID does. They look forward to keeping downtown the economic driver in this region.

Mr. Rick Jackson, Chair of the DID By-laws Committee, said the starting point of their by-laws is from the by-laws from the DID Board in Durham, North Carolina. The interim DID Board revised the starting point to capture the uniqueness of Asheville. The attempt of the categories of the directors is to be more inclusive in soliciting feedback to the Board. They reduced the size of the Board from 15; made the executive director a non-voting member of the executive committee; and assured that committees cannot make major decisions. Any amendments to the articles or the by-laws are subject to City Council approval, noting out of the 15 member board, five of the directors are appointed by the City Council. Separate from the by-laws, City Council has oversight already in the form of the contract yet to be negotiated between Council and the DID Board, in addition to Council's annual approval of the BID Board's budget. He then outlined the membership of the DID Board: ex-officio voting member - member of Asheville City Council or designee; ex-officio voting member - member of Buncombe County Commission or designee; ex-officio voting member - member of Asheville Downtown Association (as appointed by the Asheville Downtown Association); three major real estate property owners - one appointed by City Council; three small/medium real estate property owners - one appointed by city Council; two residents living within the DID area; one office tenant - appointed by City Council; two members who own or operate a retail business or restaurant; and homeless service provider - appointed by City Council. He asked for Council's approval of the by-laws.

Councilman Hunt said that Council has approved this in concept. In two weeks, Council will approve the budget and setting a tax rate. At the Council's worksession held earlier in the day, Council very much wanted to review their budget, however, due to a mis-communication, the DID Board was not attend to present their budget. Council requested they receive the DID's budget by March 18.

Ms. Griffin said that the DID Board will be meeting on Thursday, March 14, and they will be discussing their budget at that time. They will get the information to City staff to make sure that the format is amenable to City Council.

Councilman Hunt said that the by-laws presented to Council did not include the following amendments, which are acceptable to the DID Board. Those changes are:

1. Article II - 6 (e) - Notwithstanding the foregoing, the Asheville City Council shall appoint one director from Section 2(a), one director from Section 2(b), one director from Section 2(d), and one director from Section 2(f) of this Article IV, to fill a vacancy in the Board of Directors in each such category. At any point in time there shall be no more than one director in each such category who has been appointed by the Asheville City Council.

2. Article VI - 2 - Delegation of Authority - Pursuant to specific resolution, the Board may delegate to a committee any power or powers other than those set forth in subparagraphs (a) through (c) of Section 1 of this Article VI above. As a further limitation on the delegation of its powers, the Board may not delegate its power to recommend or establish a tax rate within the District, approve or enter into contracts for the provision of services within the District, or to determine which services to provide within the District. Persons other than directors may be appointed to any such committees except the Executive Committee, the Nominating Committee, the Finance Committee or other committees with delegated executive powers (e.g., a personnel committee); provided, however, a member of a committee must be an individual member of the Corporation or a Qualified Representative of an Entity which is a member of the Corporation.

3. Article VI - 3 - Executive Committee - The Corporation shall have an Executive Committee whose members shall be comprised of the officers of the Corporation, the Chair of the Board, the immediate past Chair of the Board of Directors, the respective chairpersons of all of the Corporation's other committees, if any, and any other directors appointed by resolution of the Board of Directors. The Chair of the Executive Committee shall be the Chair of the Board of Directors. There shall be no less than five (5) and no more than nine (9) members of the Executive Committee. The Executive Committee shall make recommendations to the Board of Directors. In addition, the Executive Committee shall act for and on behalf of the Board of Directors when the Board is not in session only for matters delegated to the Executive Committee by the Board. As a further limitation on the delegation of its powers, the Board may not delegate its power to recommend or establish a tax rate within the District, approve or enter into contracts for the provision of services within the District, or to determine which services to provide within the District. The Executive Committee shall be accountable to the Board for its actions. The Executive Committee may request that the Executive Director be excused from the Executive Committee meeting from time to time in order to discuss and determine the Executive Director's salary and performance review. The Executive Director shall be a non-voting member of the Executive Committee.

4. Article XIV - These Bylaws may be amended or repealed and new bylaws may be adopted by an affirmative vote of a majority of the directors then in office. The Articles of Incorporation may be amended by an affirmative vote of a majority of the directors then in office. Members of the Corporation (other than in their capacity as directors) are not entitled to vote on any amendments to Bylaws or Articles of Incorporation. Any amendments to the Articles of Incorporation and the Bylaws are subject to the approval of Asheville City Council.

Mr. Jackson said that regarding Article XIV, general Board decisions are going to be quorum and then a majority of those present (example, for 15 members, the quorum is 8 and 4 would be a passing vote). With the exception of by-laws and amendments, that is majority of all directors - for 15 members, quorum of 8 plus City Council approval.

Councilman Hunt appreciated the diligence and work of the DID Board and moved to approve the bylaws of the Asheville Downtown Improvement District Inc., with the four amendments outlined above. This motion was seconded by Councilman Davis.

Councilman Bothwell understood that Council approved the DID Board with two seats for homelessness system experts. He felt it was wrong to turn over tax money to a body whose membership and voting power is determined by wealth.

In response to Mayor Bellamy, Mr. Jackson said that directors may not serve more than 2 consecutive terms, but having skipped one year may again serve as director.

After Mayor Bellamy requested that the DID Board be required to report their activities to City Council on an annual basis, as other boards/commissions do, it was discussed that City Council will have to approve their budget annually; however, it was the consensus of Council that the annual report requirement will be written into their contract, similar to other outside agency contracts.

Mayor Bellamy was disappointed that the DID Board was not at their earlier worksession to discuss their budget, noting that Council will expect a detailed budget (including detail on their exact services to be provided) by March 18. Ms. Griffin said that they were not aware of the earlier worksession as they have been working towards the March 26 Council meeting deadline. She said they would provide the detailed budget to City Council by March 18.

In response to Mayor Bellamy's question about the elimination of the second homelessness service provider on the Board, Mr. Jackson said it wasn't a reflection on the significance of that position as much as it was striking a balance across the rest of the seats. The reduced their membership from 19 to 15 and there was a balance across the categories that they attempted to preserve. The intent of the membership recognizes that we need other non-profits at the table, and the current existing framework is flexible enough to include others even if they don't pay taxes (a nominal or in-kind recognition would be sufficient for a financial contribution for that party to have a seat on the Board). Councilman Davis (ex-officio voting member on the DID Board) also responded that he is also Chair of the Housing & Community Development Committee and can carry that knowledge to the Board. He felt with that with Micheal Wood and Stephanie Swepson-Twitty on the Board, we are reaching a great deal of the homeless service community. He also noted that there will be several opportunities for other service providers on the subcommittees that will be established by the DID Board.

Mayor Bellamy said that there are some renters who are very active in their buildings, who are low income, but they don't pay property taxes. They would like a seat at the table. She hoped that as Council talks about our five appointments that we will keep in mind that there are renters who want to be a part of this conversation.

When Mayor Bellamy questioned if most of the membership has to make a financial contribution to be on the Board, Mr. Jackson said yes. He said that "a minimum of 70% of the Board shall be those who make a financial contribution to the Corporation through the payment of real estate taxes attributable to the DID and the remaining directors shall live or work in the district and be a person who makes a financial contribution to the Corporation, such financial contribution to be defined from time to time by resolution of the Board of Directors."

Councilman Smith thanked everyone for their hard work on this but noted that everyone agrees with the outcomes. He still has some concerns even though he voted to move this forward at the earlier meeting. He really wants to see the budget and what the priorities of the Board will be before he can vote for a tax increase to fund it, and to turn over the administration of that money to an appointed board. He did not want to vote in favor of the by-laws and then see the budget and not be able to support it. He did have concern about the homeless service providers but understood what the Board has done about that to allow City Council to address that issue with our appointments. At this point he cannot support the by-laws, without seeing the budget.

In response to Councilman Hunt, City Attorney Oast said that if Council feels that seeing the budget first, before approving the by-laws, is important, then it is appropriate to continue approval of the by-laws.

Councilman Hunt withdrew his motion to approve the by-laws for the Asheville Downtown Improvement District Inc., and Councilman Davis withdrew his second.

Councilman Davis moved to continue consideration of approval of the by-laws for the Asheville Downtown Improvement District Inc. to March 26, 2013. This motion was seconded by Councilman Smith and carried unanimously.

## VI. NEW BUSINESS:

### A. ORDINANCE NO. 4170 - ORDINANCE AMENDING ARTICLE III OF THE CITY CODE OF ORDINANCES RELATING TO MASSAGE AND BODYWORK THERAPY REGULATIONS

Assistant City Attorney Kelly Whitlock said that this is the consideration of amendments to Article III of the City's Code of Ordinance relating to massage and bodywork therapy regulations.

The Massage and Bodywork Therapy Practice Act (N.C.G.S. §§90-621 et seq) was enacted by the North Carolina General Assembly in 1998 in which licensure became mandatory for all practicing massage and bodywork therapists. The North Carolina Board of Massage and Bodywork Therapy ("Board") is the agency responsible for implementing and administering the regulatory program for individual therapists and for schools of massage and bodywork therapy. The Board is authorized to evaluate the qualifications and requirements of applicants for licensure and enforce the laws and rules related to the practice, which includes disciplinary action. Pursuant to the Act, cities can regulate massage and bodywork therapists as long as cities do not impose regulations that are inconsistent with state law.

In addition to obtaining a license to practice, massage and bodywork therapists are required to obtain a statewide privilege license pursuant to N.C.G.S. §105-41. Under this law, cities may not levy an additional privilege license tax on professionals who are required to have this statewide privilege license.

The City's current massage therapy ordinance was first enacted in 1995 and requires massage and bodywork therapists and establishments to apply for and obtain a City privilege license. It further requires licensees to file with the Chief of Police the names, addresses, and numbers of all employees and to maintain records of the names and addresses of the persons receiving massages at such establishments which are subject to inspection by the Chief of Police. The current ordinance also consists of the following prohibitions: 1) massages before 8:00 am or after 10:00 pm; 2) massages to any person under the age of 21 except if accompanied by a parent or guardian or upon written order of a physician; 3) the employment of any person under the age of 21 years in the operation of a massage business; and 4) massaging of private parts of

another for hire. The privilege license is subject to revocation or suspension if a violation of the ordinance occurs.

The City's ordinance has not been revised since it was first enacted and revisions to the ordinance are required in order to be consistent with state law. In addition, after thorough review, certain regulations have been deemed unnecessary for effective enforcement and should be updated.

The proposed ordinance consists of the following revisions to be consistent with state law:

1) Revision of definitions section
2) Deletion of City privilege license requirements
3) Revision of the prohibition of employment of minors under the age of 21 in massage therapy establishments to minors under the age of 18.

The proposed ordinance contains the following deletions and revisions for more effective enforcement:

1) Deletion of the requirement that names, addresses and phone numbers of employees in massage therapy establishments must be filed with Chief of Police
2) Deletion of the requirement that massage therapy establishments maintain records of persons receiving massages and subject to inspection by the Chief of Police
3) Revision of the prohibition of hours of operation from 10:00 p.m. to 8:00 a.m. to 11:30 p.m. to 5:00 a.m.
4) Revision to the prohibition of massages to minors under the age of 21 to minors under the age of 18 except if accompanied by a parent or upon written order of a physician

Staff reviewed the massage therapy and bodywork ordinances of 8 North Carolina cities in addition to the City's and found that Asheville's ordinance was one of the most restrictive ordinances among the cities reviewed.

On January 28, 2013, the Public Safety Committee approved the proposed ordinance revisions and requested that staff implement outreach to massage and bodywork therapists and establishments to gather input on the proposed revisions prior to staff's presentation to City Council.

Pursuant to the Public Safety Committee's recommendation, City staff sent a letter explaining the proposed revisions to the ordinance with links to a survey and the current and revised ordinances to 417 practitioners using a mailing list provided by the NC Board of Massage and Bodywork Therapy. 49 respondents completed the online survey.

Responses suggest that the majority of the respondents favor all the suggested revisions to some degree. Four respondents suggested defining hours of operation from 7 a.m. to 10-11:00 p.m. Six respondents commented that there should be no restrictions placed on the hours of operation. One respondent stated that the restriction on the hours of operation furthered the perception that massage was an illicit practice, while two other comments stated that limiting the hours of operation was necessary to discourage illegal behavior. One respondent commented that the prohibition of massages to minors under the age of 18, except if accompanied by a parent or upon written order of a physician, was not necessary.

| | Survey Response | | |
|---|---|---|---|
| Revision to Ordinance | Favor to some degree | Neither favor nor oppose | Oppose to some degree |
| Deletion of requirement to file clients' names, | | | 12% |

280

| | | | |
|---|---|---|---|
| addresses and phone numbers with Police Chief | 84% | 4% | strongly opposed |
| Deletion of requirement to maintain records on clients for inspection by Police Chief | 80% | 4% | 16% |
| Revision of prohibition on hours of operation to between 11:30 p.m. and 5 a.m. | 53% | 18% | 29% |
| Revision of prohibition of massage to minors under the age of 18 except if accompanied by a parent or upon written order of a physician | 90% | 6% | 4% |

This action complies with City Council's Strategic Operating Plan in the Safe Goal. Goal I: Make Asheville one of the safest cities in America based on approved metrics for similarly sized cities.

Pros:

- Proposed ordinance is consistent with state law.
- Less restrictions on ability of massage therapists and establishments to operate their business.
- Hours of operation expanded for massage therapists and establishments.
- Persons of the age of 18, 19 or 20 are permitted to receive massages without a doctor's order or parental accompaniment.
- Persons of the age of 18, 19 or 20 are permitted to work in a massage therapy and bodywork establishment.

Cons:

- Although hours of operation are expanded, a restriction remains.
- Minors under the age of 18 are restricted from receiving a massage unless accompanied by a parent or upon written order of a physician.

If Council approves the proposed changes, adoption of the ordinance is recommended.

Ms. Kimberly Williams, Director of the N.C. School of Advanced Bodywork, explained how massage therapy is paramount to health care and supported the amendments.

Brother Christopher Chiaronmonte felt the hours should be no limitation on the number of hours someone can get a massage, as some people do not work regular hours.

One of the owners of Massage Envy urged City Council to adopt the proposed changes.

A bodywork therapist and health practitioner felt the entire article needed to be revised, and offered her services.

In response to Councilman Pelly, Ms. Whitlock said that the definitions in proposed ordinance are in line with the State law.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved for the adoption of Ordinance No. 4170. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 162**

**B. RESOLUTION NO. 13-47 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE CITY BOARD OF EDUCATION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville City Board of Education.

The terms of Gene Bell, Al Whitesides and Peggy Dalman expire on April 1, 2013. Mr. Bell and Mr. Whitesides are not eligible for reappointment.

The following individuals have applied for the vacancy: Annette McClure, Leah Ferguson, Matthew Buys, Drew Shelfer, Cheri Torres, Patricia Griffin, Kathryn Liss, Andrew Cross, Dee Williams, Ann Sharky Ward, James Lee, John Brigham and George Sieburg.

It was the consensus of City Council to interview Ms. Dalman, Ms. Ferguson, Mr. Buys, Ms. Torres, Mr. Lee and Mr. Sieburg. Ms. Dalman and Mr. Buys were not able to attend the interview sessions and contacted Council members individually for phone interviews. The other interviews took place earlier in the day.

Council spoke highly of all the very qualified candidates and after noting it was a hard decision, Peggy Dalman received 7 votes, Leah Ferguson received 5 votes, Matt Buys received 7 votes, Cherri Torres received no votes, James Lee received 1 vote, and George Sieburg received 1 vote.

Councilman Hunt moved (1) to reappoint Peggy Dalman as a member of the Asheville City Board of Education, to serve an additional four year term, term to expire April 1, 2017; and (2) appoint Leah Ferguson and Matt Buys, as members of the Asheville City Board of Education, to each serve a four year term respectively, terms to begin April 1, 2013, and expire April 1, 2017. All terms are until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

City Council thanked the Asheville City School Foundation for their outreach for candidates. City Council will work with the School Board to help achieve the School Board's goals.

**RESOLUTION BOOK NO. 35 – PAGE 200**

**C. REVIEW OF RECRUITMENT PLAN FOR CITY ATTORNEY**

Human Resources Director Kelley Dickens said that the following is a proposed recruitment and selection plan prepared by Human Resources staff for the position of City Attorney.

Given the announcement of the retirement of the current City Attorney, Human Resources staff has prepared the following proposed recruitment and selection plan for Council's consideration and review. Human Resources would recommend that the personnel committee work to narrow the applicant pool and work with staff to ensure the selection process meets the Council expectation.

*Proposed Recruitment and Selection Timeline*

| | |
|---|---|
| March 14: | Begin Recruitment for City Attorney position. |
| April 15: | Tentative date for Application Review Process to begin |
| April 16 – 22: | Applications reviewed by committee to narrow applicant pool |
| April 23 – 25 | Top 6-8 candidates contacted by staff for first component of selection process |
| May 1– 3: | First component reviewed by panel/committee to narrow applicant pool further |
| May 3 – 6: | Identify top candidates for an on-site assessment process |

| | |
|---|---|
| May 8 – 10: | Staff contacts candidates for the on-site selection process |
| May 20 – 24: | Onsite assessment process with top candidates |
| May 28 – 31: | Assessment process results reviewed |
| June 1 – 7: | Reference checks, conditional offer, pre-employment screening completed |
| June 10 – 14: | Final Offer extended and candidate gives notice to current employer. |

A targeted start date for a newly appointed City Attorney would be most likely between the end of July and the end of August, given that top candidate may need to give a notice of 30 to 60 days if currently employed.

The proposed timeline above is an aggressive schedule and could be impacted by a variety of factors throughout the process. Staff will work with City Council as necessary to coordinate schedules and manage the process and timeline. During the first phase of the process, it is recommended that staff work with the personnel committee on establishing the selection process components and details.

Given the proposed timeline above, there will be a need for City Council to appoint an Interim City Attorney at some point. While it is possible a new City Attorney may be identified by the end of June it is not expected they will begin work until after the current attorney's retirement. However, due to the fact that the current City Attorney will be working through the end of June, Council has time to consider the options and an appropriate process and timeline to appoint an interim.

*Recruitment Efforts*
Staff will utilize a variety of outlets in an effort to recruit a strong pool of candidates. The information below provides an overview of the planned efforts.

Standard websites and efforts that are used in other recruitment efforts:
- City of Asheville Website
- Governmentjobs.com
- Careerbuilder.com
- Localjobs.com
- theurbannews.com
- City of Asheville Job Opportunities Diversity Network Email List

Professional Organizations:
- North Carolina League of Municipalities
- NC Association of County Commissioners
- Lawyer's weekly (NC professional magazine)
- UNC School of Government related listservs (Local Govt Lawyers, Managers, etc.)
- North Carolina Bar Association
- Linkedin posting for associations listed who have an account

Universities and Diversity Organizations:
- NC Association of Women's Attorneys
- NC Association of Black Lawyers
- NC Law School Alumni Associations

While there will be expenses associated with the recruitment and selection process, these can be covered by the current departmental budget allocations.

City staff recommends City Council authorize staff to begin the recruitment process.

In response to Mayor Bellamy about the length of service requirement between 6-9 years, City Attorney Oast said anything less than five years is not something Council should

consider, but also Council would not want to prohibit a candidate that has more than nine years experience from applying.

In response to Mayor Bellamy, Ms. Dickens said that they will review the job classification specifications to make sure that it reflects that the candidates understand North Carolina law. In addition, she will provide benchmark compensation data so we can be competitive in our search.

In response to Councilman Pelly, Ms. Dickens said that per Council direction, staff will be proceeding with handling this recruitment effort.

When Mayor Bellamy asked about next steps, Ms. Dickens recommended the Human Resources staff screen the applications for minimum qualifications (deadline of April 15) and then work with the City Council Personnel Committee to narrow them down and they can present as many as the Personnel Committee wishes to the full Council. Or, Human Resources staff could narrow the candidates to the top five and they be presented to City Council for review.

Mayor Bellamy said the Personnel Committee is established (herself, Vice-Mayor Manheimer and Councilman Smith) and a meeting will be scheduled soon to talk about how many candidates should be presented to the full Council for review.

It was the consensus of Council to direct City staff to begin the city attorney recruitment process as outlined above.

**D. BOARDS & COMMISSIONS**

Regarding the Greater Asheville Regional Airport Authority, the following individuals applied for the vacancy: Albert Anderson, Bradley Cain, Julian Jones, Aixa Wilson, Ken Hawkins, Charles Larrick, John Hayler and George Lycan. It was the consensus of the Boards & Commissions Committee and City Council to re-advertise.

Regarding the Citizens-Police Advisory Committee, the following individuals have applied for the vacancy: Karl Katterjohn, Fred Cooke and Scott Steele. Because the vacancy is for a south representative and no one from the south applied, it was the consensus of Council to re-advertise for a south representative.

Regarding the Neighborhood Advisory Committee, the following individuals with the 28803 or 28704 zip code have applied for the vacancy: Teddy Jordan, Aixa Wilson and Spencer Hardaway. It was the consensus of the Boards & Commissions Committee and City Council to re-advertise.

**RESOLUTION NO. 13-48 - RESOLUTION APPOINTING A MEMBER TO THE ASHEVILLE-BUNCOMBE COMMUNITY RELATIONS COUNCIL**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Asheville-Buncombe Community Relations Council.

Ms. Itiyopia Ewart resigned on January 13, 1013, thus leaving an unexpired term until December 31, 2013.

The following individuals have applied for the vacancy: Melissa Blazen, George Pfeiffer, Christine Longoria, Jesse Andrews, Sandra Houts and Tracy Miles.

It was the consensus of the Boards & Commissions Committee (and of the Community Relations Council) to appoint Tracy Miles.

Councilman Smith moved to appoint Tracy Miles as a member of the Asheville-Buncombe Community Relations Council, to serve the unexpired term of Ms. Ewart, term to expire December 31, 2013, or until her successor has been appointed. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 201**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Councilman Davis thanked everyone involved in Asheville's hosting the Southern Conference March 8-11 at the U.S. Cellular Center and at UNC-Asheville.

Brother Christopher Chiaronmonte spoke about the homeless issue in Asheville.

Mr. Timothy Sadler spoke about the lack of two homelessness service providers on the DID Board. Mayor Bellamy requested City Clerk Burleson provide Council and Mr. Sadler with a copy of the minutes where that discussion occurred.

Mr. Fred English asked for Council's assistance in repairing Pressley Road from sewer line work. Mayor Bellamy requested City Manager Jackson to contact the Metropolitan Sewerage District and advise them of the concern.

**Closed Session**

At 7:52 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: City of Asheville; Mayor Terry M. Bellamy; Cecil Bothwell; Jan B. Davis; Marc W. Hunt; Christopher A. Pelly; Gordon D. Smith; W&K Hotels, LLC d/b/a Four Points by Sheraton; Hospitality Lodging Investors, II, LP, d/b/a Hotel Indigo; and Nesbitt Asheville Venture, LLC d/b/a The Renaissance Hotel. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:21 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:21 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – March 26, 2013- 2:30 p.m.

Regular Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding (recused from meeting at 5:01 p.m.); Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Deputy City Manager Jeffrey Richardson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Mayor Terry M. Bellamy and Councilman Gordon D. Smith

**PLEDGE OF ALLEGIANCE**

Vice-Mayor Manheimer led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING APRIL 6, 2013, AS "TARTAN DAY" IN THE CITY OF ASHEVILLE**

Councilman Bothwell read the proclamation proclaiming April 6, 2013, as "Tartan Day" in the City of Asheville. He presented the proclamation to the President of the Local Chapter of the New World Celts, who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

It was the consensus of Council to add a resolution to the Consent Agenda to change the time of the April 3, 2013, budget worksession from 3:00 p.m. to 2:00 p.m. in the First Floor North Conference Room of City Hall. It was noted that public comment will be allowed at the end of the worksession (specifically to address some parks and recreation issues) emphasizing that this is an opportunity for the public to give input during the budget deliberations, but that a formal public hearing on the budget will take place on May 14, 2013.

**A. APPROVAL OF THE MINUTES OF THE RETREAT HELD ON MARCH 11, 2013, AND THE FORMAL MEETING HELD ON MARCH 12, 2013**

**B. RESOLUTION NO. 13-50 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY PROPERTY OFF SUNRISE DRIVE TO MICHAEL FALKNOR**

Summary: The consideration of a resolution authorizing the City Manager to convey real property off Sunrise Drive to Michael Falknor.

The City of Asheville owns surplus real property located on Sunrise Drive, measuring approximately 0.26 acres (PIN 9638-76-2779-00000). The lot is zoned RM8 and is in good proximity to West Asheville and the River Arts District. The topography of the lot is gently sloping and appears to be suitable for residential development. However, this lot has been held by the City as surplus property for quite some time, due to the fact that there is no deeded access to sewer infrastructure for the property.

At this time, a bid has been received from an adjoining property owner, Michael Falknor, in the amount of $35,000 for the purchase of this parcel. Mr. Falknor will be able to provide

sewer access to this lot via the property he currently owns, and intends to develop a single family home on the property. The bid at $35,000 is considered fair market value based on a 2013 appraisal performed by Dry Ridge Appraisal Service, LLC. An advertisement for upset bids was published in the paper on February 15, 2013. Within the 10 day notice period, no upset bids were received for the property.

The Parks, Recreation and Cultural Arts Department has verified that this parcel does not lie within an existing or proposed greenway trail according to the Greenway Master Plan and therefore is not an advantageous property to be held for use by the City of Asheville.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through disposition of surplus real property at market value.

Pros:

- The sale will be at fair market value as established by the upset bid process.
- It will return property not needed for public use to the tax rolls.
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

The proceeds from the sale of this parcel will benefit the General Fund and will be designated for future economic and community development projects,

Staff recommends City Council adopt the resolution to convey real property off Sunrise Drive to Michael Falknor.

**RESOLUTION BOOK NO. 35 - PAGE 203**

**C. RESOLUTION NO. 13-51 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY REAL PROPERTY OFF JEFFERSON DRIVE TO REBECCA AND LEE LANCE**

Summary: The consideration of a resolution authorizing the City Manager to convey real property off Jefferson Drive to Rebecca and Lee Lance.

The City of Asheville owns property at 360 West Haywood Street that is currently utilized as the Transit Maintenance Center. An adjoining property owner has approached the City of Asheville with a request to purchase a 0.11 acre portion (PIN 9648-08-1684-00000) of the City property in order to resolve an access issue at their home. Rebecca and Lee Lance own property that fronts on Jefferson Drive and shares a rear property boundary with the Transit Maintenance Center. Due to the narrow shape of their lot and the relative steepness of the frontage along Jefferson, the only current access to the home is through a shared driveway with the neighboring property to the south. Mr. and Mrs. Lance seek to purchase this 0.11 acre portion of the Transit Maintenance property to develop a permanent driveway as well as construct additional related improvements (e.g. garage, garden shed, etc.)

Staff has reviewed this request on site at the Transit Maintenance Center, with the conclusion that releasing a 0.11 acre tract from the total 3.5 acre property does not impact the current or future operations at that site. Further, the disposition of this 0.11 acre lot will not inhibit a future land use change at the site, if the Transit Maintenance Center were to be redeveloped to a higher and better use. A chain link fence is located within the area of interest, and it will be the responsibility of Mr. and Mrs. Lance to relocate the chain link fence if the sale is approved.

Per the NC General Statutes, Mr. and Mrs. Lance submitted a bid to purchase the parcel in the amount of $25,000. The bid at $25,000 is considered fair market value based on a 2013 appraisal performed by Dry Ridge Appraisal Service, LLC. An advertisement for upset bids was published in the paper on February 15, 2013. Within the 10 day notice period, no upset bids were received for the property.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through disposition of real property at market value.

Pros:

- The sale will be at fair market value as established by the upset bid process.
- It will return property not needed for public use to the tax rolls.
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

The proceeds from the sale of this parcel will benefit the General Fund and will be designated for future economic and community development projects,

City staff recommends City Council adopt the resolution to convey real property off Jefferson Drive to Rebecca and Lee Lance.

**RESOLUTION BOOK NO. 35 - PAGE 204**

**D. RESOLUTION NO. 13-52 - RESOLUTION AUTHORIZING THE CITY CLERK TO ADVERTISE A SEALED BID OF THREE PARCELS OF CITY-OWNED PROPERTY KNOWN AS (1) SHORT STREET LOT; (2) S. BEAUMONT STREET LOT; AND (3) HANSEL AVENUE LOT**

Summary: The consideration of a resolution directing the City Clerk to advertise a sealed bid sale of three parcels of City owned property, known as the (1) Short Street lot, (2) S. Beaumont lot, and (3) Hansel Avenue lot.

The City of Asheville owns three properties that are currently designated as surplus, residential, vacant lots – the Short Street lot (0.12 acres, PIN 9649-11-8703-00000), S. Beaumont lot (0.204 acre, PIN 9648-69-7439-00000) and Hansel Avenue lot (0.69 acres, – PINs 9638-49-6279-00000 and 9638-49-6460-00000). Over the past several weeks, there has been an increase in interest from local buyers in these parcels. To respond to this interest, staff is seeking authorization to commence a sealed bid process, as outlined below:

1. Upon approval of this resolution, the City Clerk will publish a notice of sealed bid sale in the Asheville Citizen-Times, identifying the parcels available for sale and all terms and conditions of the sale.
2. During the thirty day notice period, City staff will actively market the parcels with the assistance of the local realtor's network and the regional Multiple Listing Service (MLS).
3. On May 3rd at 2 p.m. on the fifth floor of City Hall, City staff will host a public bid opening, and will review all sealed bids received for the parcels.
4. Staff will present highest bids for City Council authorization on May 14th, 2013, with Council reserving the right to reject any and all bids.
5. Potential closing date(s) – July 1, 2013.

Staff is seeking to utilize the sealed bid process in effort to benefit from the thirty day marketing period, as well as to ensure a deliberate process for all persons that have shown

interest in the parcels for sale. For more information on the parcels and conditions of sale, please refer to the notes contained on each parcel map.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through disposition of real property at market value.

Pros:

- The potential sale will be at fair market value as established by the sealed bid process.
- It will return property not needed for public use to the tax rolls.
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

The proceeds from the sale of the S. Beaumont and Short Street parcels will benefit the Community Development Block Grant fund. The sale of the Hansel Avenue parcel will benefit the General Fund and will be designated for future economic and community development projects.

City staff recommends City Council adopt the resolution directing the City Clerk to advertise a sealed bid sale of three parcels of City owned property, known as (1) Short Street lot, (2) S. Beaumont Lot, and (3) Hansel Avenue lot.

**RESOLUTION BOOK NO. 35 - PAGE 205**

**E. RESOLUTION NO. 13-53 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE ASHEVILLE HUMANE SOCIETY FOR ANIMAL SHELTER SERVICES WITHIN THE TERRITORIAL LIMITS OF THE CITY OF ASHEVILLE**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Asheville Humane Society (AHS) for animal shelter services within the territorial limits of the City of Asheville.

Buncombe County has required the City of Asheville to pay for animal shelter services through the Asheville Humane Society (AHS) who contracts with Buncombe County to run the animal shelter. The cost for the animal shelter services to the City of Asheville for FY 2012-2013 will be $19,167 per month for a FY year total of $230,004. This represents an increase from the cost of last years' service and is already included in the Asheville Police Department's 2012 - 2013 budget. The AHS contract amount has remained relatively unchanged over the past 10 years, experiencing only nominal increases:

- 2002 - 2008: $121,000.00
- 2009: $127,050.00
- 2010-2011: $133,402.56
- 2012: $230,004.00

Enhancements in the manner in which AHS is able to track the number of animals that are received by them from the City and analyzing the cost of housing / caring for the animals has allowed AHS to develop an empirical formula that drives this current contract increase.

The Public Safety Committee will be reviewing this item at their Monday, March 25, meeting.

This action complies with the City Council's Strategic Operating Plan in the focus area of Safe, by actively enforcing animal control laws.

Pro:

- The City continues to have a safe and organized manner in which to care for impounded animals without incurring the costs of construction and operation of an animal shelter.

Con:

- Ongoing general fund expenditure that will likely continue to increase as the animal shelter operating costs increase.

The current contract amount represents an increase of $96,601.44 over the prior contract amount. As noted above, funding for the contract is already included in the FY 2012-13 Police Department operating budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Asheville Humane Society for Animal Shelter Services for the term of July 1, 2012, through June 30, 2013.

**RESOLUTION BOOK NO. 35 - PAGE 206**

**F. ORDINANCE NO. 4171 - BUDGET AMENDMENT FROM THE U.S. DEPT. OF JUSTICE FOR REIMBURSEMENT FOR OVERTIME EXPENSES RELATED TO ORGANIZED CRIME DRUG ENFORCEMENT TASK FORCE PARTICIPATION**

Summary: The consideration of a budget amendment, in the amount of $10,000, from the US Department of Justice (DOJ), for reimbursement for overtime expenses related to Organized Crime Drug Enforcement Task Force (OCDETF) participation.

The Asheville Police Department is an active member of the Drug Enforcement Administration (DEA) Task Force. As part of the agreement in joining, officers are authorized to work overtime which will be reimbursed by the Federal Government. The funds received vary depending upon the length and involvement in operations. In order to continue Asheville Police Department (APD) participation and long term involvement with operations, it is imperative that we continue to receive such overtime reimbursement. Based on the current operation APD has been allocated $10,000 by the US Department of Justice (DOJ) to apply toward OCDETF overtime expenses.

This action complies with the City Council Strategic Operating Plan in Fiscal Responsibility in that we are using Federal Funds to reimburse for overtime that would otherwise come from APD's Operating Budget and, 2) Safe City in that participating in the DEA Task Force we are able to conduct long term operations that remove drug suppliers from our community, thus making Asheville a safer and more desirable community to live.

Pro:

- Provides a non-City revenue source to cover Police Department overtime expenses incurred during participation in the Drug Enforcement Administration (DEA) Task Force.

Con:

- None noted

As noted above, this grant provides a non-City funding source for a portion of APD's General Fund overtime expenses.

City staff recommends City Council adopt a budget amendment, in the amount of $10,000, to accept the US DOJ funds to offset overtime expenses for APD officers involved in OCDETF operations.

**ORDINANCE BOOK NO. 28 - PAGE 165**

**G. RESOLUTION NO. 13-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDS UNDER THE U.S. CONFERENCE OF MAYOR / PURDUE PHARMA PRESCRIPTION DRUG ABUSE AWARENESS RECOGNITION PROGRAM**

**ORDINANCE NO. 4172 - BUDGET AMENDMENT FOR THE PURDUE PHARMA PRESCRIPTION DRUG ABUSE AWARENESS RECOGNITION PROGRAM**

Summary: The consideration of a resolution authorizing the City Manager to accept grant funds from the U.S. Conference of Mayors / Purdue Pharma Prescription Drug Awareness Recognition Program in the amount of $5,000; and the associated budget amendment in the amount of $5,000 to budget the grant funds.

The City of Asheville has been awarded a grant from the U.S. Conference of Mayors / Purdue Pharma Prescription Drug Awareness Recognition Program in the amount of $5,000. The City of Asheville was awarded 2nd Place in the Small City category. This grant will allow the Asheville Police Department (APD) to enhance its strong collaborative efforts and community partnerships toward realizing the goal of a Drug Free Asheville and Buncombe County as part of the Partnership for Substance Free Youth in Buncombe.

The primary target population of this effort to eliminate the use of illegal or non-prescribed drugs is school aged children throughout Asheville and Buncombe County. The APD currently partners with NC Alcohol Law Enforcement, ARP (Addiction Recovery Prevention), Asheville City Schools, Asheville Radio Group, Boys and Girls Club of Buncombe County, Buncombe County Department of Health, Buncombe County DSS, Buncombe County Schools, Buncombe County Sheriff's Office, Clear Channel Radio Group, NC Department of Juvenile Justice, Ingles Markets, Mission Hospital System and private individuals representing students and parents.

This action conforms to the City Council's Strategic Operating Plan under Fiscal Responsibility and Safe by using grant funds in support of a collaborative approach to eliminate illegal and non-prescribed drug abuse and raise prescription drug awareness in the community.

Pro:

- Grant funds will further the collaborative prescription drug awareness initiatives without impacting the City general fund.

Con:

- None

City staff recommends City Council adopt (1) the resolution authorizing the City Manager to enter into an agreement with the U.S. Conference of Mayors / Purdue Pharma Prescription Drug Abuse Awareness Recognition Program for the grant monies in the amount of $5,000; and (2) the associated budget amendment, in the amount of $5,000 to budget the grant funds.

**RESOLUTION BOOK NO. 35 - PAGE 207**
**ORDINANCE BOOK NO. 28 - PAGE 167**

**H. RESOLUTION NO. 13-55 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT DEMOCRATIC NATIONAL CONVENTION**

**EQUIPMENT DONATED TO THE ASHEVILLE POLICE DEPARTMENT BY THE CITY OF CHARLOTTE**

Summary: The consideration of a resolution authorizing the City Manager to accept Democratic National Convention (DNC) equipment donated to the Asheville Police Department by the City of Charlotte.

The Asheville Police Department (APD) sent 14 officers to assist the City of Charlotte Police Department during the September, 2012 Democratic National Convention (DNC). During the 7 day assignment, 8 bicycle officers assisted with crowd control and 6 officers assisted with dignitary security. The participating APD officers were issued specialized equipment to include;

- Crowd control helmets - 6
- Police bicycles equipped with lights and soft luggage - 8
- Bicycle racks - 8
- Bicycle helmets - 8
- Bicycle uniforms - 16
- Protective glove sets - 8
- Hydration packs - 8
- Protective shin guard and elbow guard sets - 8

The donated equipment has a total value of $14,444.04. This equipment was purchased by the City of Charlotte with a Bureau of Justice Assistance grant and Charlotte City Council has since been authorized to donate the equipment to law enforcement agencies that supported the City of Charlotte during the DNC.

This action complies with City Council's Strategic Operating Plan in the Focus Areas – Fiscal Responsibility and Safe.

Pros:

- Acceptance of donated equipment will increase the effectiveness of the APD bicycle patrol unit and crowd control team.
- Acceptance of donated equipment will reduce the fiscal impact of equipping APD bicycle patrol and crowd control officers.

Con:

- None.

City staff recommends City Council approve a resolution authorizing the City Manager to accept DNC equipment donated by the City of Charlotte for APD.

**RESOLUTION BOOK NO. 35 - PAGE 208**

**I. RESOLUTION NO. 13-56 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH RENAISSANCE PLANNING GROUP TO DEVELOP A TRANSPORTATION NETWORK PLAN FOR THE EAST OF THE RIVERWAY AREA**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Renaissance Planning Group in the amount of $100,000 to develop a transportation network plan for the East of the Riverway area, and authorizing potential expenditure of a contingency of up to $10,000 for other necessary expenditures for the project.

The transportation network plan is a part of the East of the Riverway Sustainable Multi-Modal Neighborhood Program, supported by the city's Transportation Investment Generating Economic Recovery (TIGER II) planning grant from the US Department of Transportation. The

purpose of the plan is to help further community goals and improve transportation facilities and services by:

- Basing transportation planning on existing and future land use, existing comprehensive plans, and stakeholder input
- Improving the transportation of people and goods using a multi-modal approach
- Improving connectivity to, from and within the area
- Planning a safe, efficient, accessible, and cost-effective transportation system
- Considering environmental impacts, including protecting and improving air quality
- Helping strengthen existing neighborhoods, reduce vehicle miles traveled, and connecting people with jobs, housing and services.

Outcomes of the network plan include a prioritized list of projects and programs to implement the vision for the area, and an assessment of the costs and benefits of the primary projects recommended in the plan.

This action complies with the City Council Strategic Operating Plan Multimodal Transportation Goal by clearly developing a long-term capital improvement funding plan for transportation in the East of the Riverway area, and also with the city's Job Growth and Community Development goals by supporting the city's Sustainable Community Initiative and continuing to rejuvenate the riverfront area.

Pros:

- Provides a prioritized list of projects with cost and cost-benefit information
- Develops a transportation network plan that is linked to land use
- Will enhance multi-modal transportation in the community
- Compliments the recent improvements made by the City and private sector in these neighborhoods
- Engages community members in the process
- Complements other multi-modal transportation planning efforts in the community

Con:

- None

The transportation network plan is a part of the East of the Riverway Sustainable Multi-Modal Neighborhood Program, supported by the city's Transportation Investment Generating Economic Recovery (TIGER II) planning grant from the US Department of Transportation. The amount of TIGER II funds allocated to the project is $100.000. City staff will contribute in-kind time as necessary. Sufficient matching funds have been allocated from other TIGER II project elements to make a cash match unnecessary. An additional $10,000 in TIGER II funds are conditionally allocated as a contingency. There is no financial impact to the General Fund. Project recommendations from this plan will be considered in future capital improvement programs.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Renaissance Planning Group in the amount of $100,000, and authorizes expenditure of an additional $10,000 for contingency, as needed.

**RESOLUTION BOOK NO. 35 - PAGE 209**

**J. RESOLUTION NO. 13-57 - RESOLUTION SUPPORTING THE VISION AND MISSION OF THE NEIGHBORHOOD ADVISORY COMMITTEE**

Summary: The consideration of a resolution supporting the Mission and Vision of the Neighborhood Advisory Committee (herein "NAC").

On April 24, 2012, Council adopted a resolution establishing the NAC and outlining in a general manner the NAC's structure, powers and duties. Council also directed the NAC to report to Council within 180 days on how the NAC proposes to fulfill its functions. That report was delivered to Council on February 26, 2013. Council received the report, along with Mayor Bellamy's suggestion that the NAC help get the information out to the neighborhoods about the City's master plans. The NAC agreed to incorporate the Mayor's suggestion into their 2013 goals. At that meeting, Council also directed the preparation of a resolution endorsing the NAC's Mission and Vision.

**RESOLUTION BOOK NO. 35 - PAGE 210**

**K. RESOLUTION NO. 13-59 - RESOLUTION AMENDING THE CITY COUNCIL MEETING AGENDA TO CHANGE THE TIME OF THE CITY COUNCIL BUDGET WORKSESSION ON APRIL 3, 2013, FROM 3:00 P.M. TO 2:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL**

**RESOLUTION BOOK NO. 35 - PAGE 216**

Vice-Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

## III. PRESENTATIONS & REPORTS:

**A. PROPOSED IMPROVEMENTS TO I-26 FROM US 25 IN HENDERSON COUNTY TO I-40 INTERCHANGE**

Mr. Undrea Major, Project Engineer representing the N. C. Dept. of Transportation briefed Council on the proposed amendments to I-26 from US 25 in Henderson County to the I-40 interchange. He said the approximate length of the project is 22.2 miles (13.6 in Henderson County and and 8.6 in Buncombe County). The purpose is to make improvements to meet the existing and future travel demands and relieve current and projected congestion along the I-26 corridor. He then showed alternatives taking into account the challenges of community impacts, aviation issues, public facilities, and cultural resources. Their public involvement initiatives include visualization photos, citizens' informational workshops, and the merger meeting process. He then reviewed the project timeline with construction beginning in Fiscal Year 2020. He said that even though they would like to have correspondence by March 31, they will continue to take written communication through the duration of the project.

Mr. Major then responded to various questions from Council, some being, but are not limited to: how does this process address the concerns raised several years ago regarding an insufficient environmental review process; and will the widening of I-26 require replacing the Blue Ridge Parkway Bridge, and if so, what does that do to the timeframe.

In response to Councilman Bothwell, Mr. Major explained how the I-26 connector project is moving on a parallel track with this project.

## B. 2002 MILLS RIVER WATERSHED STRATEGIC DOCUMENT

Director of Water Resources Steve Shoaf said that the Water Resources Department contracted with McGill Associates to review the 2002 Mills River Watershed Management Strategy document and provide an assessment based on changes in the status of the watershed and supporting information. The report provided by McGill Associates updates the 2002 document.

The North Carolina Clean Water Management Trust Fund awarded a grant to the Mills River Partnership in August 1999. In addition to several projects targeted to improve water quality in the Mills River watershed, the management strategy document ("The Mills River Watershed Management Strategy") was funded. In 2002, the Mills River Partnership Planning Committee and the Land-of-Sky Regional Council released the study. This report covered a description of the watershed area and the activities in the watershed, the results of water quality assessments, and a compilation of management strategies intended to address the nine areas of concern.

The funding for projects within the watershed and to some extent the Mills River Partnership declined after several years of activity following the 2002 report. The Mills River Partnership regrouped about three years ago and began seeking funding to perform some of the tasks identified in the 2002 document. The Partnership approached the City of Asheville, the City of Hendersonville, and the Town of Mills River requesting funding for a variety of projects and administrative costs. Recently, the Partnership was awarded a grant (Section 319 Grant) that requires matching funds, which the Partnership is asking the aforementioned cities to provide.

The City of Asheville and the City of Hendersonville decided to contract with McGill Associates to review the 2002 Mills River Watershed Management Strategy in light of changes in the watershed over the past 10 years. The intent of this review was to assess the conditions within the watershed, identify any agencies dealing with regulatory or financial support, review the available water quality data, and propose areas that the cities may want to consider for future participation.

The City's ongoing interest in watershed management is the reason for this review. Water quality in the upper watershed continues to be excellent and overall water quality indices have improved during the past 10 years. The report recommends that the focus remain on efforts to protect and improve water quality. While recognizing that the Mills River Partnership is the leading non-regulatory body with interest in the condition of the watershed, strong relationships must be forged between non-regulatory and regulatory programs. Funding initiatives should be considered with an understanding of their long-term impact on water quality.

The management strategy review supports the City Council's Strategic Operating Plan by promoting partnerships to enhance water quality and efficient operations.

Pros:

- Opportunity to partner with the City of Hendersonville and the Mills River Partnership to strategically address areas of concern in the Mills River watershed.
- Funding from the City of Hendersonville and the City of Asheville could make some water quality projects feasible for farmers and local landowners.
- Improvements in the watershed could improve drinking water quality.

Cons:

- The City of Asheville Water Resources Department does not want to begin funding outside agencies.
- The City of Asheville Water Resources Department wants to retain control of how the funding is allocated to specific projects.

At present, there is no fiscal impact. The review of the management strategy was approved by prior Council action. Any future expenditures in the Mills River watershed would be subject to review by Water Resources staff and the City of Asheville.

Mr. Forest Westall, representing McGill Associates, said that provided the review of the 2002 Mills River Watershed Management Strategy - Ten Years Later. Using a PowerPoint, he reviewed the points of focus, land use change/conversion, nine priority watershed issues, and general conclusions. The following are the recommendations: (1) place primary focus on the most immediate and critical risks: agricultural nonpoint sources, stormwater management for existing development and erosion and sediment control for non-regulated activities; (2) work within appropriate non-regulatory framework to establish specific water quality improvement projects directed at the highest priority sites; (3) establish regular training/public information opportunities for interested citizen and business and farm owners and personnel; (4) commit appropriate resources, continue planning efforts and work with established organizations to promote and achieve the long term objectives affecting future water quality: managing land conversion; (5) build strong relationships between non-regulatory activities in the watershed and regulatory programs, particularly with local government jurisdictions; (6) recognize and utilize the Mills River Partnership (MRP) as the key non-regulatory mechanism in the watershed to coordinate and promote ongoing watershed management actions; (7) achieve agreement within the MRP membership on the best approach for establishing leadership and direction; (8) establish a consensus strategy within the MRP for the funding and support of the partnership; (9) identify, seek and establish long term funding mechanisms for the MRP; (10) promote continued monitoring efforts sufficient to document water quality changes in the watershed; (11) improve hazardous spill operational programs for the water treatment systems in the watershed. Coordinate activities between both cities in strengthening the response plans for the facilities; and (12) work to establish effective "early warning systems" for rainfall/runoff events that can impact day to day water plant operational activities. Consider the use of automated monitoring sites for stream turbidity at key locations upstream of the lower intakes with real time data availability.

Because there were some questions raised by Councilman Hunt regarding financial support for the MRP, it was the consensus of Council to discuss this at the next Finance Committee meeting.

**C. RECREATION BOARD UPDATE**

Mr. Wayne Wheeler, Chair of the Recreation Board, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Vice-Mayor Manheimer thanked Mr. Wheeler for his leadership and the entire Board for their dedication.

**D. RIVER DISTRICT DESIGN REVIEW COMMITTEE UPDATE**

Mr. Terry Meek, Chair of the River District Design Review Committee, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Vice-Mayor Manheimer thanked Mr. Meek for his leadership and the entire Committee for their dedication.

**E. LEGISLATIVE & WATER UPDATE**

**RESOLUTION NO. 13 -58 - RESOLUTION OPPOSING HOUSE BILL 252 REGARDING ASHEVILLE WATER SYSTEM FUND TRANSFERS**

Deputy City Manager Jeff Richardson highlighted for Council some legislative issues of interest as follows: House Bill 252 - Asheville Transfers; House Bill 224 - Asheville Extraterritorial

Jurisdiction and Annexation (Asheville only); House Bill 79 - Annexation; House Bill 150 - Zoning/Design & Aesthetic Controls; House Bill 120/Senate Bill 108 - Building Inspections/Local Consistency; Senate Bill 363 - Business Tax Reduction and Reform; Senate Bill 394 - Lower Tax Rates for a Stronger North Carolina Economy; Park Authority House DRH30201 -LM-106C - Establish a City/County Parks & Recreation Authority; Senate Bill 3 - Western Crime Lab Funds/Amend Evident Laws; House Bill 48 - Operation of Mopeds; and House Bill 30 - Repeal Combined Motor Vehicle Registration/Tax System.

City Attorney Oast presented Council with a proposed resolution opposing House Bill 252 regarding Asheville Water System Fund transfers, which loss of authorization would have the following consequences: (1) Loss of $1.8 Million/year and $20 Million over the next ten years in the City's capital improvements program; (2) Property tax increase of up to 5% in order to replace lost revenue; (3) Jeopardize completion of the Azalea Road improvement project and the Lake Craig Flood Control Project, both already funded and shovel ready; (4) Eliminate a valuable funding source for much anticipated future economic development, water and transportation projects, such as the River Arts District Transportation Improvement Project (RADTIP) and Merrimon Avenue commercial corridor improvements; and (5) Limit the City's ability to seek grant funds or matching funds for other projects.

Ms. Teddy Jordan supported the resolution opposing House Bill 252.

Vice-Mayor Manheimer noted that we do have some allies across the state that are speaking up on behalf of cities. They encourage cities to pass resolutions if they are opposed to specific legislation.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 13-58. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 25 - PAGE 215**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF THE PROJECT IDENTIFIED AS MYRA VILLAGE LOCATED AT 11 MYRA PLACE FOR A NINE UNIT MULTI-FAMILY DEVELOPMENT, INCLUDING THE COMPLETION OF PARTIALLY-CONSTRUCTED STRUCTURES FROM A PREVIOUS PROJECT, AND A MODIFICATION REQUEST TO ALLOW PARKING WITHIN A PROPERTY LINE BUFFER**

**ORDINANCE NO. 4173 - ORDINANCE TO CONDITIONALLY ZONE THE PROJECT IDENTIFIED AS MYRA VILLAGE LOCATED AT 11 MYRA PLACE**

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone the project identified as Myra Village located at 11 Myra Place, and identified on the Buncombe County tax maps and records as PIN 6918-90-9765, from RS-4 Residential Single-Family Medium Density District to RM-6 Residential Multi-Family Low Density District/ Conditional Zoning, for a nine unit multi-family development, including the completion of partially-constructed structures from a previous project, and a modification request to allow parking within a property line buffer. This public hearing was advertised on March 15 and 22, 2013.

Ms. Bernstein said that the applicant is requesting a Conditional Zoning for one parcel located at 11 Myra Place from RS-4 (Residential Single-Family Medium Density District) to RM-6

(Residential Multi-Family Low Density District) in accordance with Section 7-7-8 of the UDO, for the development of a nine unit residential proposal.

The applicant is proposing a nine-unit multi-family residential development, housed within four structures. Plans propose three duplexes and one triplex containing four two-bedroom and five three-bedroom units. The two duplex structures at either end of the site are currently 90% complete from a previous approval. Plans indicate completion of the development in three phases.

The site will be accessed in three locations. There are two driveways from Myra Place, each accessing a small parking area (10 spaces at the southern lot and eight spaces at the northern lot). Additionally there is a single driveway from Old Haywood Road that provides access to individual drives / garages for the duplex and triplex located in the center of the site. Bike parking is required.

Old Haywood Road is identified as a needed linkage; however, sidewalk construction is not required for a development with less than 10 units. An easement for future construction will be provided. No sidewalks are provided or required along Myra Place. There is a 5-foot wide sidewalk/pathway proposed throughout the interior of the project, connecting the common parking areas to the units.

Landscaping is required for this project and includes a Type A (20') property line buffer against adjacent RS-zoned properties, street buffer, street trees, parking lot and building impact landscaping.

Open space is required for this project, with 15% of the site designated (0.28 acres). Additionally, 30% of the total site is identified as "tree save area."

The applicant is requesting the following standard to be modified, based on existing conditions from the partial construction and previous approvals for the site.

- **Encroachment**: Parking is not permitted within a property line buffer but there is a very small area where the northernmost parking lot encroaches into the Type A buffer. This modification will need to be approved by City Council.

This proposal was approved with conditions by the Technical Review Committee on February 18, 2013. The Planning & Zoning Commission unanimously recommended approval of this project at their meeting on March 6, 2013. No opposition or communication has been received as of the writing of this report.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate**

**vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
The proposed use and development of the land is compatible with the natural features and topography of the site. The parcel was graded with the (stalled) construction and this proposal will complete the work at either end of the site and add two buildings between them, more closely resembling the 2008 approval for the location. The landscaping proposed is fitting and compatible with the adjacent residential neighborhood. There are no significant topographic features on the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The proposed residential use is compatible with the surrounding residential neighborhood and should not injure the value of nearby properties. With the underlying RS-4 zoning between 5-8 units would be permitted by right. The proposed zoning, RM-6, is the lowest density multi-family zoning district and would permit 11 residential units. The applicant is only proposing nine units, so this proposal is not significantly outside of the current allowed density. Additionally, completing the construction and closing out a stalled construction site should benefit the neighborhood.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The proposed residential use is consistent with the surrounding neighborhood. Although duplexes and triplex structures are not permitted by-right in the surrounding single-family zoning district, these structures are single-story and will have a similar, lower impact residential profile (with one exception of the existing two-story duplex at the southernmost end of the site adjacent to Highway Business zoning). Additionally, as mentioned in Condition 3, the proposal for nine units is not significantly outside of the current allowed density for the site.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
City-adopted plans and policies encourage infill development and greater density where appropriate. This location has (some) existing infrastructure, is appropriately sited and provides residential options.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
This site is located just off I-240/Patton Avenue, which places the project in an easily accessible location by car and Asheville transit (old rt. 15 – new W3). The project has been reviewed by the Technical Review Committee and has been found to have adequate access to infrastructure.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
The proposed project has been reviewed by the City's traffic engineer and is not expected to cause undue traffic congestion or create a traffic hazard.

Pros:

- The proposal is aligned with Council's goals for infill development and additional residential density where appropriate.
- This action will allow for an open, stalled construction site to be completed.

Cons:

- A (small) modification is needed to allow parking within a property line buffer.
- Although not significantly out of scale, the proposed duplex and triplex structures and surface parking are not entirely visually consistent with single-family zoning.

Based on the above findings, staff recommends approval of the conditional zoning request and approval of the modification as requested by the applicant.

Vice-Mayor Manheimer opened the public hearing at 4:01 p.m.

Mr. Joe Ferikes, developer, explained that they are looking forward to completing this foreclosed project, and asked for Council's support of the conditional zoning.

Mr. Alan Ditmore supported the rezoning.

Vice-Mayor Manheimer closed the public hearing at 4:04 p.m.

Vice-Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4173 to conditionally zone the project identified as Myra Village located at 11 Myra Place from RS-4 Residential Single-Family Medium Density District to RM-6 Residential Multi-Family Low Density District/Conditional Zoning and approval of the modification request to allow parking within a property line buffer, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report: (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards; and (6) The sidewalk easement must be recorded prior to final zoning approval. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 169**

**B. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING FOR WEIRBRIDGE VILLAGE LOCATED ON HENDERSONVILLE ROAD, LEGACY OAKS PLACE AND RACQUET CLUB ROAD TO ALLOW FOR THE INSTALLATION OF MENU BOARDS ON A COMMERCIAL OUTPARCEL**

Director of Planning & Development Judy Daniel said that this is the consideration of an ordinance to amend the conditional zoning for Weirbridge Village located on Hendersonville Road, Legacy Oaks Place and Racquet Club Road to allow for the installation of menu boards on a commercial outparcel. This public hearing was advertised on March 15 and 22, 2013.

She said that in 2006, conditional zoning approval to Highway Business/Conditional Zoning was granted to property located at the corner of Hendersonville Road and Racquet Club Road. The site plan that was approved with the rezoning presented a mixed use development with commercial outparcels to the east (along Hendersonville Road) and 280 residential dwellings located on the middle and western portions of the property.

Subsequent to that approval (in 2008), the developer of Weirbridge Village returned to City Council with an amendment to the conditional zoning ordinance in the form of a comprehensive signage package. This package addressed the size and height of all signs for both the residential and commercial portions of the property. One item that was not addressed in this package, however, was an allowance for menu boards for drive thru facilities. A drive thru facility is now proposed for one of the outparcels and the conditional zoning ordinance being presented amends the existing sign package to allow for two menu boards (double order stations proposed). The proposed menu boards are 31 square feet in size (single-faced) which is less than is allowed for menu boards in the Unified Development Ordinance (36 square feet). While the UDO does not allow for two menu boards on a parcel, in recent instances, such a variance has been permitted by the City's Board of Adjustment.

Pro:

- The proposal amends a comprehensive, coordinated sign package for a major development in a manner in keeping with City standards.

Con:

- None noted.

Based on the analysis provided in the report, staff finds this request to be reasonable and recommends approval for the sign package amendment for Weirbridge Village.

Vice-Mayor Manheimer opened the public hearing at 4:08 p.m.

The construction project manager for McDonalds Corporation explained how they will be relocating their existing McDonalds on Hendersonville Road (approximately ¼ mile south) to this new location. Their business has gone through several changes and their drive through traffic is up to about 70%. The new drive through layout will allow them to move cars more efficiently on and off the lot safely.

Councilman Pelly noted Crowfield neighborhood concerns about traffic as the entrance into their neighborhood is about 100-200 feet south of this location. Concerns raised are that Crowfields traffic who wish to turn north on Hendersonville Road are sometimes blocked by the traffic in the center lane wishing to turn into the new development and that this will only make matters worse. The construction project manager said that have an entrance at the back of their parcel as well a red light at the Turtle Creek Drive intersection with Hendersonville Road. There are other ways to enter and exit off that parcel. He also noted that there is also a red light at the intersection of Hendersonville Road and Racquet Club Road.

Mr. Rusty Pulliam, property owner, said that he has met numerous times with residents at Crowfields and has offered offered to give them an easement for access to the light at Turtle Creek Drive free. He felt that if they have those traffic concerns, the access easement is still an option for them.

Mr. Jim Curl, President of the Crowfields Condominiums Association, said that this traffic is a major issue for them. He felt that allowing a McDonalds into Weirbridge will be an intolerable traffic situation and exacerbate the traffic concerns tremendously, not to mention their concern of decreasing property values and their quality of life.

Vice-Mayor Manheimer closed the public hearing at 4:21 p.m.

When Councilman Hunt asked Mr. Curl about the access easement offer, Mr. Curl said that Crowfields will probably take him up on the easement; however, it is not an ideal solution.

Councilman Bothwell had a great deal of sympathy for the neighborhood, however, the request before Council is for two menu boards. The development is already approved and fits within the guidelines for the property. He did feel that perhaps there should be an amendment to the UDO to allow for two menu boards on a parcel if if variances are continuing to be requested and granted.

Councilman Pelly has met with the residents of Crowfields and is well aware of the problems that exist. He noted that during the next fiscal year, the City will be constructing several miles of new sidewalks along Hendersonville Road. He was frustrated that the development along Hendersonville Road has eroded the quality of life along that road and would vote against the amendment because the quality of development is not what the residents deserve.

Vice-Mayor Manheimer noted that the zoning package has already been approved for the usage of this parcel as a drive through for a restaurant. The only reason why this is before Council at this time is for the two menu boards. She noted that we are trying to preserve the quality of life, but also need to stand by the commitment to developers who have come before us with an approved plan.

City Attorney Oast noted that in order for this ordinance to pass, due to the absence of Mayor Bellamy and Councilman Smith, there will need to be an affirmative vote of all five Council members present. If the vote is less than that, the ordinance will need to come back for a second reading at the April 9 meeting.

Councilman Davis recommended that the matter be continued to April 9 to allow the full Council to vote.

Councilman Hunt moved to continue the matter to April 9, 2913, noting that the public hearing on this matter has been held. This motion was seconded by Councilman Davis and carried on a 4-1 vote, with Councilman Pelly voting "no."

Vice-Mayor Manheimer encouraged the developer and Crowfield representatives to discuss some creating compromising before the April 9 meeting. As far as Mayor Bellamy and Councilman Smith participating in the vote after the public hearing has already been held, they will have an opportunity to review any documents of the Council proceedings.

## V. UNFINISHED BUSINESS:

### A. MOTION GRANTING AN ADDITIONAL ONE-YEAR EXTENSION FOR THE PROJECT IDENTIFIED AS EAGLES LANDING, LOCATING AT 179 JOHNSTON BOULEVARD

Planning & Community Development Judy Daniel said that this is the consideration of a request for a one year extension of the conditional zoning approval for the Eagle's Landing development.

The Eagles' Landing development (consisting of 25 homes located at 179 Johnson Blvd.) was granted a conditional zoning in 2007, and the original developer subsequently sold the property to Habitat for Humanity. Because of the financial challenges in recent years, they have had delays arranging financing for the project, but remain committed to its completion.

In August of 2009 the City Council amended the approved conditional zoning to allow a few changes requested by Habitat, and extended the permit validity through October 11, 2010. Subsequently, through the North Carolina Permit Extension Act, the permit validity was extended through January 1, 2013. As they still faced financing issues, I was contacted by Habitat in 2012 about a further extension as allowed in the UDO. (The Planning Director is authorized to grant a

six month extension under Sec. 7-7-8(c)(9) which she granted.) These combined extensions will expire on July 1, 2013.

While close to being able to proceed with the project, Habitat is still awaiting final financing. They have applied for HOME funds this year to assist with infrastructure costs for the project, and if they are successful, the timing will not allow a start date meeting the July 1 deadline.

Habitat now anticipates that work at the site may not be able to commence until late in the summer or early fall.

In order to secure the project approval until the financing structure is completed, Habitat is requesting that the Council authorize a further extension of one year (also allowed within Sec. 7-7-8(c)(9) of the UDO). That provision allows the City Council to approve one additional extension of up to one year if the Council believes there is sufficient justification for the extension. The extension would extend the permit through July 1, 2014.

The staff believes it important to support the efforts and commitment of Habitat to this project. It will provide important and needed affordable housing options.

This proposal most closely supports the goal of *affordable* as it sustains the potential for an affordable housing development project to proceed, meeting the goal of supporting the creation and preservation of affordable rental and home ownership opportunities in Asheville.

Pro:

- Allows more time for this non-profit developer to secure final funding to complete this affordable housing project.

Con:

- None discernible.

No direct fiscal impact to the City as the action only extends the time available before the developer must act on the permit approval.

Staff recommends Council approval of this one year extension of the conditional zoning permit for Eagles' Landing.

Mr. Alan Ditmore supported this additional one-year extension.

Councilman Hunt moved to grant an additional one-year extension for the project identified as Eagles Landing, located at 179 Johnston Boulevard. This motion was seconded by Councilman Davis and carried unanimously.

**B. ASHEVILLE DOWNTOWN IMPROVEMENT DISTRICT INC.**

Vice-Mayor Manheimer announced that the consideration of the budget, tax rate and by-laws of the Asheville Downtown Improvement District has been continued to April 9, 2013.

**VI. NEW BUSINESS:**

**A. ORDINANCE 4174 - ORDINANCE ADOPTING THE FISCAL YEAR 2013-14 FEES & CHARGES**

Budget Manager Tony McDowell said that this is the consideration of proposed fee adjustments for the Fiscal Year 2013-2014.

The major types of revenue available to North Carolina counties and municipalities are local taxes (including property taxes); local fees, charges and assessments; and intergovernmental and miscellaneous revenue. Local governments have increasingly looked for appropriate opportunities to implement local fees and charges because they generally have the advantage of aligning service provision directly with payment; therefore, the person or entity receiving the benefit of a service pays for the service.

In Asheville, these fees make up about 10% of the City's General Fund revenue and 36% of city-wide revenue. These fees generally fall into three major categories: general user fees and charges; regulatory fees, and; public enterprise fees and charges.

- **General User Fees & Charges:** User fees are available feasible for any service that directly benefits individual users and generally are placed in the General Fund to support any general fund activity or program. User fees typically only cover a portion of the cost of the services for which they are assessed. Charges for parks and recreation services would fall into this category.
- **Regulatory Fees:** Regulatory fees cover costs associated with certain regulatory activities such as issuing building permits, performing inspections, reviewing development plans, and enforcing local ordinances. Case law requires regulatory fees to be reasonable and prohibits them from exceeding the average costs of funding the regulatory service.
- **Public Enterprise Fees & Charges:** A public enterprise is an activity of a commercial nature that could be provided by the private sector (water, sewer, electric service, solid waste collection and disposal, stormwater, airports, off-street parking, public transportation, etc.). Many public enterprises are self-supporting, meaning revenue generated from fees and charges is sufficient to cover the cost of providing the service.

**General User Fee Category:** Staff is recommending that Council replace the $3.50 per month household recycling charge with a $7.00 per month solid waste fee. This change in the fee structure is the first step in a multi-year Solid Waste Reduction Program. Staff is also recommending adjustments to various Parks and Recreation fees to move closer to full cost recovery for certain programs and services. There were some fees regarding the Aston Park Tennis Center; however, staff is recommending those be removed from Council consideration at this time.

**Public Enterprise Category:** In the Parking Fund, staff is proposing a 25-cent increase in the hourly fee for both garage and metered parking. The first hour will remain free in all garages. In the Water Resources Fund, staff is proposing the creation of a new manufacturing customer class, as well as the flowing rate adjustments:

- Single Family, Multi-Family, Small Commercial: 1% increase
- Large Commercial (>1,000 CCF/month): 3% increase
- Wholesale & Irrigation: 4% increase
- New Class Manufacturer (1-999 CCF/month): 1% increase (Rate same as small commercial $3.22/CCF)
- New Class Manufacturer (>1,000 CCF/month): 0% increase (Rate held flat from Large Commercial rate $1.69/CCF)
- Capital Improvement Fee: 1% increase for each meter size

The proposed FY 2013-14 fee adjustments were reviewed by the City Council Finance Committee on February 26, 2013, and a full summary and analysis of the proposed fees and charges was provided to Council.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pros:

- Provides additional revenue to help balance the FY 2013-14 General Fund budget and fund Solid Waste Reduction initiatives.
- Provides staff with time to begin communicating fee changes to citizens, customers and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- None.

The fiscal impact of the proposed fee changes is shown in the table below. If Council approves, the proposed monthly solid waste fee, staff is recommending that approximately $400,000 from the new fee be used in FY 2013-14 to fund Solid Waste Reduction initiatives, including the purchase of route optimization software and solid waste and recycling containers for downtown.

| Fund | Additional Revenue |
|---|---|
| General Fund | $1,437,765 |
| Water Resources Fund | $307,513 |
| Parking Services Fund | $370,450 |

Staff recommends that Council adopt the proposed FY 2013-14 fee proposals.

Councilman Hunt confirmed that staff will not change the fee structure for Aston Park Tennis Center at this time. Parks & Recreation Director Roderick Simmons replied that they will be looking holistically the different staffing levels to operate that facility and report back to Council prior to adoption of the budget. The Food Lion Skate Park will also be included in their holistic analysis.

Councilman Davis felt there might need to be a larger conservation with the community to understand that we are trying to recover the costs of solid waste handling.

Councilman Bothwell explained that we are trying to be as green as we claim to be and we need to reduce the amount we dump in the landfill.

Councilman Hunt moved to adopt Ordinance No. 4174, with the exception of the fees related to the Aston Park Tennis Center, the Food Lion Skate Park and the Solid Waste Fees.

When Councilman Davis explained that he concurred with the solid waste fee, but was concerned about educating the public, Councilman Hunt then moved to adopt Ordinance No. 4174, with the exception of the fees related to the Aston Park Tennis Center (noting that the Food Lion Skate Park does not have any fees associated with this ordinance), and with the understanding that both the Tennis Center and Skate Park will be discussed further in the April 3 budget worksession. This motion was seconded by Councilman Pelly.

Mr. Alan Ditmore noted that conservation not only applies to trash, but to water as well, and the increase is a regressive tax.

Brother Christopher Chiaronmonte was concerned with the government becoming a dictatorship in forcing people to pay the solid waste fee whether they recycle or not.

Councilman Davis said that regarding water rates, we are in line with the consultant recommended - increasing a small amount at a time and creating two new manufacturing class categories. He stressed that we are trying to be responsible stewards.

Vice-Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

The motion made by Councilman Hunt and seconded by Councilman Pelly carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 175**

**B. RESOLUTION NO. 13-60 - RESOLUTION DIRECTING CITY MANAGER TO OFFER EARLY RETIREMENT INCENTIVE PROGRAM**

Human Resources Manager of Health and Wellness Cheryl Walker said that this is the consideration of offering a Retirement Incentive Program for employees who are eligible to retire under the NC Local Governmental Employees Retirement System.

With the continued financial constraints, personnel services costs are continually evaluated and reviewed to determine if staffing levels and utilization are maximized. Part of this evaluation this year included a review of Retirement Incentive Programs. The City has offered Retirement Incentive Programs in the past, with the last one being in 2009. Historically, these programs have enabled the City to reduce the overall personnel costs and realign resources. The program provides those employees eligible for retirement with the NC Retirement System to receive a special financial incentive if they voluntarily agreed to retire in the current fiscal year.

In developing the proposed 2013 Retirement Incentive Program (Program), staff changed the incentive and the timeframes compared to the previous programs the City offered. Those retiring under this Program must indicate their intention no later than the May 17th, with an effective retirement date of either June 1 or July 1.

Staff has identified 145 employees who are eligible for unreduced or reduced retirement benefits by July 1, 2013. If 20% of those eligible to participate elect to retire prior to July 1, 2013, that would open up approximately 29 positions.

Departments with employees retiring under this Program may be required to adjust their budgets to reduce overall expenses. The position and/or salary from the vacated position(s) may not be available to the department for FY 2013-14. Consequently, reorganization or re-alignment of department activities may be necessary, particularly when a retiree leaves an essential position that cannot be eliminated or remain vacant for the entire fiscal year.

While this program could result in significant savings in personnel services costs, it also challenges departments' ability to provide critical services. Staff will develop a workforce review process to allow departments to request a waiver of the hiring freeze for critical positions or to utilize temporary employees to cover mandated functions. Staff will work together to develop opportunities to reorganize functions and ensure departmental business plans are evaluated and projects and work is prioritized and adjusted as necessary to match new staffing levels.

The estimated FY 2013-14 cost savings for the Program is difficult to predict based on the fact there is no way to know the level of participation that will be elected by those eligible. However, the following assumptions provide some insight into potential savings:

Assuming 29 employees elect to take the incentive.
Average salary is $54,238
Average incentive payment is $8,135

Average Vacation/Comp payment is $7,280
If positions are held vacant for a period of 6 months at minimum the estimated savings would be approximately $12,189 per position for a total of $353,481 for FY 2013-14.

Staff will report back to Council on the financial impact of the program as part of the FY 2013-14 1st quarter financial report.

City staff recommends City Council authorize the offering of a Retirement Incentive Program for retirement prior to July 1, 2013 for employees who are eligible to retire under the NC Local Governmental Employees Retirement System.

At 5:01 p.m., Councilman Hunt moved to recuse Vice-Mayor Manheimer from the remainder of the meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

Councilman Bothwell moved to appoint Councilman Davis to preside over the remainder of the meeting. This motion was seconded by Councilman Pelly and carried unanimously.

Councilman Davis was assured by Ms. Walker that neither public safety nor customer service would be compromised from employees taking advantage of this program.

After City Attorney Oast read the resolution, Councilman Davis asked for public comment. No one spoke.

Councilman Hunt moved to adopt Resolution No. 13-60. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 217**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Councilman Bothwell, Chair of the Public Safety Committee, noted that the Committee instructed the City Attorney to craft a resolution to support the bill that would outlaw synthetic marijuana.

Councilman Davis reported on a trip sponsored by MetLife about our growing age population as it relates to transportation accessibility and affordability.

Brother Christopher Chiaronmonte noted that the homeless need a peaceful, secure place to sleep.

**Lawsuit**

On March 8, 2013, the following civil action was received by the City: W&K Hotels, LLC, d/b/a Four Points by Sheraton; Hospitality Lodging Investors, II, LP, d/b/a Hotel Indigo; and Nesbitt Asheville Venture LLC d/b/a The Renaissance Hotel v. City of Asheville, et al. The nature of the proceeding is a complaint for declaratory judgment. This matter will be handled by an attorney outside the City Attorney's Office.

**VIII. ADJOURNMENT:**

Councilman Davis adjourned the meeting at 5:15 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Wednesday – April 3, 2013- 2:00 p.m.
First Floor North Conference Room

Budget Worksession & Town Hall Meeting

Present: Vice-Mayor Esther E. Manheimer, Presiding; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Associate City Attorney Martha McGlohon; and Deputy City Clerk Jaime Matthews

Vice-Mayor Manheimer called the meeting to order. Councilman Hunt moved to adjourn the meeting for 15 minutes to reconvene at the Banquet Hall in the U.S. Cellular Center. This motion was seconded by Councilman Davis and carried unanimously.

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Associate City Attorney Martha McGlohon; and City Clerk Magdalen Burleson

Absent: None

At 2:15 p.m., Mayor Bellamy reconvened the meeting.

**Budget Worksession**

Ms. Ruth Summers, representing the Business Improvement District, briefly explained their progress to date and asked for Council's discretion on the implementation of the timetable.

Mayor Bellamy said that this item is on the April 9 agenda and perhaps their by-laws could be considered and approved so their progress continues to move forward.

**Town Hall Meeting**

Mayor Bellamy said that this meeting is an opportunity for City staff to present to Council and the public budget challenges for the upcoming year and to outline fiscal realities the City may face in light of pending legislation action by the North Carolina General Assembly. The City of Asheville currently faces a $2 Million gap in revenues vs. expenditures. Potential budget balancing strategies to close the gap were introduced at the March 12 Council budget worksession. Financial analysis indicates that legislation currently in the North Carolina General Assembly could widen that gap to $5.7 Million. The purpose of this meeting is to begin contingency planning in earnest for a $5.7 Million gap.

Executive Director of Finance & Strategic Planning Lauren Bradley provided Council with financial context and estimated impact of adverse legislation on the multi-year budget plan.

Using a PowerPoint, she explained that Asheville has been diligently responding to a financial crossroads (1) Asheville has been experiencing a structural imbalance in the rate of growth in revenues and expenditures. Expenditures are growing at a faster rate (as much as five times faster) than revenues; (2) Real estate growth has been minimal, and property tax revenue is unlikely to grow significantly in the near future. At the same time, Asheville's share of sales tax revenue has been declining. A lack of access to other revenue sources intensifies the effects of property and sales tax revenues on Asheville's financial structure; (3) Despite the recession and relatively tame inflation, many basic costs continue to go up for local governments. These costs include employee compensation and healthcare, fuel, utilities and equipment; (4) As a regional hub for the western portion of the state, Asheville's services and infrastructure support a population that exceeds its residential population. While the interdependency of Asheville and the surrounding area is critical to the region's economy, the city's lack of access to regional revenue sources intensifies Asheville's reliance on its property tax base; and (5) Asheville has been cutting its budget for several years, and this trend is reflected in deferred capital improvements,

reductions in force, salary freezes and other cost-saving measures. While fiscal constraint will continue to be required, capturing additional savings will become an increasingly elusive target. For instance, Asheville is on a 65-year resurfacing cycle for streets when the recommended cycle is 20 years. City employee compensation was frozen for three years. Vehicle replacement is on an 18-year cycle when the industry standard is 6-10 years.

Asheville has been developing fiscally responsible, long-range approach to financial management in FY 2014 (1) At the beginning of the budget process, Asheville identified the need to close a $2 million difference between projected revenues and expenditures. A plan was developed to balance the budget by freezing positions, reducing operating line items and making modest adjustments to fees while avoiding a property tax rate increase for ongoing operations; and (2) At the same time, Asheville developed a Economic Development and Community Investment Initiative designed to address the rate of revenue growth in the city. This strategy called for enhancing infrastructure investment to support redevelopment in targeted areas, business development and job growth with a focus on the River Arts District and Downtown. Projects considered within that strategy included RADTIP, multi-modal improvements in the South Slope area, greenway development, increased allocations to affordable housing development, the Eagle Market Place project, and the Asheville Art Museum renovation project. Services proposed by the BID were also considered in this strategy.

Proposed legislation will require service reductions or increased taxes: In the last several weeks and days, State legislation has been introduced that could have an impact on Asheville's financial forecast. She used a chart to show the preliminary estimate on the cumulative financial impact of proposed legislation based on noted assumptions. Much remains uncertain about proposed legislation at this time, and so this chart represents our best estimates given what we know today. The full impact of some bills, including potential financial offsets for cities, is not known. Asheville's projections will change as the legislative process moves forward.

Significant service reductions would be required to address the revised financial forecast on the expenditure side (1) The estimated impact of current legislation takes the difference between Asheville's revenues and expenditures from $2.2 million to $5.8 million in FY 14 (-$2.2 million + -$3.6 million operating impact from legislation). This is a preliminary estimate that assumes all proposed bills take effect. The original budget forecast assumed expenditure increases for market-based compensation, increases to the state retirement system, election costs, etc.; (2) The table below illustrates the level of service reductions that would be required to address the financial forecast solely on the expenditure side. The alternative to this level of service reductions is to raise property tax rates; (3) One penny on the tax rate generates about $1.1 million in revenue; (4) Legislation has been introduced to enable the consolidation of City and County Parks and Recreation services and facilities. While this proposal could have positive financial impacts for Asheville, the timeline and feasibility of this proposal is uncertain. Asheville will continue to pursue this proposal.

She then provided Council with suggested alternatives to offset the revenue losses.

| | |
|---|---|
| Starting Point | ($5,986,000) |
| Expenditure Reductions | |
| Retirement incentive/freeze or eliminate 15 positions | $600,000 |
| Line Item Reductions (reductions to various operating expenses) | $550,000 |
| Close one fire station | $530,000 |
| Eliminate Saturday Transit Service | $500,000 |
| Close the WNC Nature Center | $450,000 |
| Discontinue Bele Chere this summer | $450,000 |
| Freeze targeted police vacancies | $300,000 |
| Eliminate youth and adult athletics | $250,000 |
| Eliminate nuisance court/cleanliness crew | $250,000 |
| Reduce Housing Trust Fund allocation | $200,000 |
| Reduce street and sidewalk maintenance/construction | $200,000 |

| | |
|---|---|
| Close all city pools | $117,000 |
| Re-engineer staffing at Aston Park & Skate Park | $108,000 |
| Reduce Police over-time | $100,000 |
| | |
| Revenue Enhancements | |
| | |
| Fee Adjustments | $940,000 |
| Property Tax Increase | - |
| | |
| Total Budget Balancing Strategies | $5,545,000 |

Asheville serves as an important regional hub for economic development, jobs and recovery from the recession (1) Given cities' role as the center of economic growth and prosperity for counties and regions, taking away all regional sources of revenue harms the ability to support the regional job base and business expansion; (2) The economic interdependency between Asheville, Buncombe County and the surrounding region has an impact on the lives of more than 1.3 million citizens living in 23 counties, an area of about 11,000 square miles (roughly the size of the state of Massachusetts). Legislation that impacts Asheville impacts almost a quarter of counties in the State; (3) The Asheville-metro area led the state with 3.6% job growth in year-over-year employment statistics (from Jan. 2012-Jan. 2013, according to the NC Justice Center). Also in that year Asheville had the third largest share of the state's overall employment growth. The metro areas of Asheville, Raleigh and Charlotte together accounted for more than 2/3 of the state's job growth. She reviewed a table which showed a two-year comparison of job growth across the state, where the Asheville metro area follows only Charlotte and Raleigh; and (4) These are promising figures that show signs of a recovering economy in Western North Carolina. Cities' ability to invest in regional infrastructure or critical services supports this type of economic growth. Without it, cities will be faced with two decisions – to raise taxes or to forego regional investments that support jobs and business growth – both of which are negative for North Carolina's economy.

The changes in the forecast will likely require deferring economic development incentives and enhanced capital investment (1) If the estimated financial impact is realized, Asheville would lose the flexibility to consider increasing investment in the Economic Development and Community Investment Initiative via an enhanced capital improvement plan. Projects would have to be deferred unless other sources of revenues are identified; (2) Under this scenario, staff would also recommend deferring implementation of a tax rate for a Business Improvement District due to consideration of city-wide service reductions and city-wide tax rate increases.

Staff recommends scheduling an additional budget work session on April 23 and extending the budget adoption out to June 11. If the financial forecast is not more certain by that time, another extension can be made for budget adoption to June 25. The budget must be adopted by June 30. Staff would recommend using the extension to gain additional City Council direction on budget balancing strategies in response to the changing forecast.

Next steps include (1) City Council consider adopting a resolution or official message that urges the State to hold all municipalities harmless from any changes to tax structures and the transfer of the water system to provide enough revenue to meet municipal service needs during all phases of the economic cycle; (2) Continue to communicate with legislators about tax reform and the water system transfer and their implications for Asheville. Explain what is at stake for our community; (3) Continue to work with Buncombe County to explore the feasibility of a consolidated Parks and Recreation District as proposed in H418; and (4) Schedule the next budget work session for April 23.

Individuals from the audience voiced their concern over the possible budget reductions outlined above by Ms. Bradley.

Mayor Bellamy thanked the public for attending and noted the concerns that the City is addressing today is not manufactured by the City of Asheville or our economy - they are being manufactured by our legislature. City Council members each voiced their concerns of the proposed

legislation that would require service reductions or increased taxes. They urged our citizens and residents outside the City to join Asheville in this struggle by contacting our legislators, other legislators in western North Carolina, Governor McCrory and others, with the understanding that we can come together and have a unified voice for responsible government. Council is concerned about the damage to cities and damage to the North Carolina economy as a whole. Because this is an on-going dialogue, as City Council continues in this process, they will strive to keep the public informed, noting on the City's website there is information on the budget process - www.ashevillenc.gov - City Budget.

At 5:15 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Bourleson
City Clerk

Mayor

Tuesday – April 9, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis (left meeting at 6:39 p.m.); Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Deputy City Manager Jeffrey Richardson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**A. SOUTHERN CONFERENCE**

On behalf of City Council, Mayor Bellamy recognized the following individuals from various organizations for their invaluable service another successful Southern Conference in Asheville: Ben Van Camp, Adrian Vassallo, Allison Moore, Austin Tyler, Bruce Peterson, Carol Peterson, Chris Corl, Dan Dover, Dan Hawk, Desiree Monstrola, Dianna Jackson Pierce, Dodie Stephens, Gary Jackson, Greg Duff, Councilman Jan Davis, Janet Cone, Janet Lampkin, Tim Lampkin, Jeff Richardson, John Pierce, Jon Creighton, Jon Yarbrough, K. Ray Bailey, Lauren Cooper McDevitt, Lou Bissette, Lyn Gleasure, Mary Helen Letterle, Mike Burke, Ron Storto, Sam Powers, Jonathan Bailey, and Nancy Righi.

**B. EMPLOYEE RECOGNITIONS**

Deputy City Manager Richardson recognized Mr. David D. Bailey, President and CEO of the United Way of Asheville and Buncombe County, who recognized Fire Chief Scott Burnett and campaign coordinators: Lt. Mike Yelton, Janet Lampkin, Brad Stein, David Carr, Pam Kelly, Jessica Bernstein, Alina Law, Lora Morgan, Ron Kerns, Christy Bass and Scott Barnwell. The team of departmental coordinators deserve this recognition for inspiring their colleagues to participate in this year's United Way campaign. The City of Asheville's contributions were 3% higher than last year. An even better measure of our success is that for the first time in 6 years, we have increased our giving! The City of Asheville also has received the Spirit of North Carolina Award from the United Way in the category of City/County Municipality of 1001 - 1500 Employees. This award program is an important statewide initiative that recognizes companies and employees for their outstanding support of the community by demonstrating excellence in their United Way campaign. Fire Chief Scott Burnett was recognized for the exceptional manner with which he led our campaign and improved the Asheville Fire Department participation. Ken Putnam, who led a departmental team, won in the chili cook off contest and later collected $500 in donations just for wearing UNC-Chapel Hill Carolina Blue clothing. Mr. Putnam also received individual recognition from the United Way. Most of our department directors submitted themselves for a dunk tank fundraiser at an employee picnic on a cold day last fall.

Mayor Bellamy thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

**C. PROCLAMATION PROCLAIMING APRIL 2013 AS "CHILD ABUSE AWARENESS MONTH"**

Mayor Bellamy read the proclamation proclaiming April, 2012, as "Child Abuse Awareness Month" in the City of Asheville. She presented the proclamation to Mr. Bill McGuire, Director/CEO of Child Abuse Prevention Services Inc., who briefed City Council on some activities taking place during the month.

**D. PROCLAMATION PROCLAIMING APRIL 2013 AS "AUTISM AWARENESS MONTH"**

Mayor Bellamy read the proclamation proclaiming April, 2012, as "Autism Awareness Month" in the City of Asheville. She presented the proclamation to Mr. Joe Yurchak, representing the Autism Society of North Carolina, who briefed City Council on some activities taking place during the month.

**E. PROCLAMATION PROCLAIMING APRIL 21-27, 2013, AS "NATIONAL VOLUNTEER WEEK"**

Mayor Bellamy read the proclamation proclaiming April 21-27, 2013, as "National Volunteer Week" in the City of Asheville. She presented the proclamation to Mr. Charles Lee, Program Manager of Hands On Asheville, our local clearing house for non-profit volunteer opportunities, who briefed City Council on some activities taking place during the week.

**II. CONSENT AGENDA:**

At the request of City staff, a resolution authorizing the Mayor to accept the grant award offer from the US Economic Development Administration for the Craven Streets Improvement Project was added to the Consent Agenda.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 26, 2013**

**B. RESOLUTION NO. 13-61- RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE GROVEMONT & SCENIC VIEW NEIGHBORHOOD WATER LINE REPLACEMENTS**

**ORDINANCE NO. 4175 - BUDGET AMENDMENT FOR THE GROVEMONT & SCENIC VIEW NEIGHBORHOOD WATER LINE REPLACEMENTS**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Cooper Construction Company, Inc., for the bid amount of $2,475,027.50 plus a contingency amount of $371,254.13 for a total project amount of $2,846,281.63 for the Grovemont & Scenic View Neighborhood Water Line Replacements; and a budget amendment in the amount of $1,752,337.00 from savings in other capital projects that were completed under budget.

This project consists of the construction and installation of: approximately 40,000 linear feet of 8-inch & 6-inch ductile iron pipe, a limited amount of 2-inch copper pipe, and all necessary accessories and appurtenances to replace the existing water mains, including valves, hydrants, service connections; abandonment of existing water mains and appurtenances; and other

miscellaneous work in order to provide fire protection and domestic water service to the Grovemont Neighborhood. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement for Bids, the WRD received four (4) proposals.

Companies responding were:

1. Buchanan and Sons, Inc – Whittier, NC
2. Buckeye Construction Company, Inc. –Canton, NC
3. Cooper Construction Company, Inc. – Hendersonville, NC
4. T&K Utilities, Inc.– Asheville, NC

The bids were reviewed by City Staff and Michael Baker Engineering, Inc. and Cooper Construction Company, Inc. was selected as the lowest responsible bidder at a bid of $2,475,027.50. A contingency amount of $371,254.13 has been added for a project amount of $2,846,281.63.

This project is part of City Council's strategic plans to improve city infrastructure and provide local companies with labor opportunities, while operating the system in a responsible fiscal manner.

Pros:

- This project will replace existing waterlines, which are undersized for adequate fire protection and due to age, have a high risk of failure causing costly repairs for the City and Water Resources Department and frequent outages for the customers, with a durable, reliable, sustainable water system for the Grovemont Neighborhood.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local economy.

Con:

- Failure to award a construction contract would prevent the completion of this important waterline system improvement.

The Water Resources Department currently has $1,093,945.00 budgeted for this project. The remaining funds of $1,752,337.00 needed for the contract will be transferred from the General Projects capital project that accumulates remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

| | |
|---|---|
| Amount in Project Budget | $1,093,945.00 |
| Budget Amendment Needed for Construction Contract | $1,752,337.00 |
| Total Amount for Project | $2,846,282.00 |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council (1) authorize the City Manager to enter into an agreement with Cooper Construction Company, Inc., for the bid amount of $2,475,027.50. plus a reserved contingency amount of $371,254.13 be identified for this project for a total project amount of $2,846,281.63 for the Grovemont & Scenic View Neighborhood Water Line Replacements; and (2) approve a budget amendment in the amount of $1,752,337.00 to transfer adequate funds from the Water General Projects capital fund to meet the financial requirements of this project.

**RESOLUTION BOOK NO. 35 - PAGE 218**
**ORDINANCE NO. 28 - PAGE 182**

**C. RESOLUTION NO. 13-62 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH BREKFORD FOR PARKING CITATION MANAGEMENT SERVICES IN THE CITY'S PARKING SERVICES DIVISION FROM MAY 2013, THROUGH JUNE 30, 2016**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Brekford for parking citation management services in the City's Parking Services Division from May 1, 2013 thru June 30, 2016.

Parking Services Division administers parking citations issued by the Asheville Police Department, Asheville Airport Police, Asheville Fire and Rescue Department, volunteers in the Volunteer Handicap Parking Enforcement Program, and its internal parking enforcement officers. Total citations written annually range from 35,000 – 40,000. Approximately 5% are hand written with the remaining 95% generated by handheld computers.

The current parking citation management system, a component of HTE, dates from 2004, is outdated, expensive to maintain, and is being phased out by the City's Information Technology Department. The current handheld computers, Auto Cite S3, also date from July 2004 and are expensive to maintain as well. This system is inefficient whereas thousands of offenders must be identified in North Carolina Department of Motor Vehicles databases and hand entered, by City staffers, into the HTE system. The City contracts with private firms to identify out-of-state offenders whom City staff also hand enter into HTE. These actions often delay notification to citizens of late fees assessed for unpaid citations. In addition, the current system is not customer friendly as most actions have to be done with paper without an on-line option, especially appeals.

Parking Services is one of the last divisions to phase out of HTE. The resident parking citation management system, provided by Tyler as part of the City's MUNIS conversion, did not meet the City's needs or provide better customer service to our citizens. The City issued a Request for Proposal, in December 2012, I from interested firms to replace the current system. Seven firms responded and four were invited to provide demonstrations of their systems on March 14, 2012 to the selection committee. Each firm was then requested to provide their best and final offer as to price per ticket. The selection committee, consisting of members from Information Technology, Treasury Services, Parking Services, and Transportation Department selected Brekford as the best over all value for the City.

Proposed system is hosted by the vendor, and all based on per ticket charge including handheld computerized ticket writers, and associated hardware, that was heretofore purchased separately. It also provides better visibility of citations, appeals, and decisions by citizens. Proposed handheld devices have built in cameras that make citation documentation much easier as well. Citizens will be able to review the pictures while determining to appeal the citation.

This action complies with the City Council Strategic Operating Plan in that it provides safe facilities for residents and visitors to park in the most cost effective manner and provides better customer service

Pros:

- Replaces current HTE model as it is being phased out.
- Hosted system, with all-inclusive-per-ticket-pricing, will not require capital outlay for expanded server infrastructure or new mobile units.
- Faster identification, and therefore notification, of registered vehicle owners owing unpaid citations.
- On-line appeals process for citations.

- Proposed handheld devices will work with most existing pay-by-phone meter payment systems thereby increasing efficiency of parking enforcement officers.
- Provide greater visibility and transparency to citizens when reviewing citations issued to their vehicles.
- Improves efficiency within the Parking Services Division.
- Automated identification of scofflaws eligible to be immobilized.

Con:

- Additional annual expense of approximately $60,000 per year.

The necessary funds are already budgeted in the Parking Services Fund's Operating Budget for FY 2012-13 and will be included in budget recommendations for fiscal years FY 14 and 15. .

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a three year two month contract with Brekford in the amount of $200,000.00 not to exceed $60,000 per fiscal year.

**RESOLUTION BOOK NO. 35 - PAGE 220**

**D. RESOLUTION NO. 13-63 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER FOR A CONTRACT WITH ASHEVILLE STAFFING INC. FOR TEMPORARY SERVICES IN THE CITY'S PARKING GARAGES AND SURFACE PARKING LOTS THROUGH JUNE 30, 2013**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order for a contract with Asheville Staffing, Inc for temporary services in the City's parking garages and surface parking lots through June 30, 2013.

The City of Asheville, through the Parking Services Division, currently operates four parking garages and several monthly parking and pay-by-space surface parking lots downtown. Parking Services Division uses a combination of City employees and contract temporary workers to provide service and customer assistance in these facilities and lots. Generally, City employees work during the business day and early evenings while contract temporary services are used for fill-ins, special events, and to extend garage hours during late evenings, weekends, and holidays. Use of temporary workers allows the greatest flexibility as needs vary greatly depending on time of year and events booked at the U.S. Cellular Center, outside special events, and other large venues downtown.

Estimating the needs for fill-ins and special event staffing 15 months in advance is at best an educated guess. This current fiscal year has presented Parking Services with unexpected employee turn over as well as new staffing for the Biltmore Avenue Garage. In addition, special events staffing demand has been stronger than expected as well. These actions translate into higher than projected revenues coming in for the garages; especially in transitory and special event parking where temporary staffing is mostly utilized. And, we still have some large special events scheduled such as Bob Dylan and the circus that should sell well. The current contract with Asheville Staffing is not to exceed $89,000. Staff is requesting authorization to execute a change order to make the contract not to exceed $130,000.

This action complies with the City Council Strategic Operating Plan in that it provides safe facilities for residents and visitors to park in the most cost effective manner and provides better customer service

Pros:

- Provides safe and convenient facilities for residents and visitors parking.

- Using temporary service employees is the most cost effective and flexible manner to augment the Parking Services Division's staffing requirements.
- Allows parking Services to capitalize on extended weekend/nights/holiday hours to bring in additional revenue.

Con:

- Additional $41,000 expenditure.

The necessary funds are already budgeted in the Parking Services' Operating Budget for FY 2012-13.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a change order in the contract with Asheville Staffing to increase the contract amount to not exceed $130,000.

**RESOLUTION BOOK NO. 35 - PAGE 221**

**E. RESOLUTION NO. 13-64 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE EARTH DAY ON APRIL 20, 2013**

**RESOLUTION NO. 13-65 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG LOVE FEST ON MAY 5, 2013**

**RESOLUTION NO. 13-66 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT DOWNTOWN AFTER FIVE EVENTS ON MAY 17, JUNE 21, JULY 19, AUGUST 16 AND SEPTEMBER 20, 2013**

**RESOLUTION NO. 13-67 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL ON JUNE 1, 2013**

**RESOLUTION NO. 13-68 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SAFARI EVENT ON JUNE 8, 2013**

**RESOLUTION NO. 13-69 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE FRENCH BROAD CYCLING CLASSIC ON JULY 21, 2013**

**RESOLUTION NO. 13-70 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY CUP EVENT ON SEPTEMBER 1, 2013**

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day on April 20, 2013; The Big Love Fest on May 5, 2013; Downtown After 5 on May 17, June 21, July 19, August 16, September 20, 2013, Beer City Festival on June 1, 2013; Mountain Safari on June 8, 2013; French Broad Cycling Classic on July 21, 2013; and the Beer City Cup on September 1, 2013.

- Lake Eden Arts Festival has requested through the City of Asheville Development Services Department that City Council permit the sale of beer and/or unfortified wine at Asheville Earth Day and allow for consumption at this event.

Asheville Earth Day will be held on Saturday, April 20, 2013, from 12:00 p.m. – 10:00 p.m. on Lexington Avenue between the intersections of Hiawassee and the I-240 underpass, extending within the metered parking lot located at the I-240 underpass, as per the event area limits referenced on the accompanying site map.

- The Asheville City Schools Foundation has requested through the City of Asheville Development Services Department that City Council permit the sale of beer and/or unfortified wine at The Big Love Fest and allow for consumption at this event.

  The Big Love Fest will be held on Sunday, May 5, 2013, from 12:00 p.m. – 8:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Reuter Terrace, Vance Median and Raised Lawn areas including South Spruce Street between the intersections of South Pack Square and College Street, North Pack Square between the intersections of Biltmore Avenue and South Pack Square, South Pack Square between the intersections of Biltmore Avenue and South Market Street and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at this event.

  Downtown After 5 will be held on Fridays, May 17, June 21, July 19, August 16 and September 20, 2013 from 5:00 p.m. – 9:00 p.m. on Lexington Avenue between the intersections of Hiawassee and the I-240 underpass, extending within the metered parking lot located at the I-240 underpass, as per the event area limits referenced on the accompanying site map.

- Big Brothers Big Sisters of WNC has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at the Beer City Festival and allow for consumption at this event.

  The Beer City Festival will be held on Saturday, June 1, 2013 from 12:00 p.m. to 6:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Spruce Street between the intersections of South Pack Square & College Street, and within the City Hall/Courthouse Parking Lot as per the area limits referenced on accompanying site map.

- Friends of the WNC Nature Center has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at Mountain Safari and allow for consumption at this event.

  Mountain Safari will be held on Saturday, June 8, 2013 from 5:30 p.m. to 9:30 p.m. within the boundaries of the WNC Nature Center as per the area limits referenced on accompanying site map.

- Asheville Bicycle Racing Club has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at the French Broad Cycling Classic and allow for consumption at this event.

  The French Broad Cycling Classic will be held on Sunday, July 21, 2013 from 8:00 a.m. to 6:00 p.m. within designated segments of Thetford Street, Town Square Boulevard, Schenck Parkway, Dearborn Street, and Schenck Crescent as per the area limits referenced on accompanying site map.

- The Western North Carolina Soccer Foundation has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at the Beer City Cup and allow for consumption at this event.

  The Beer City Cup will be held on Sunday, September 1, 2013 from 9:00 a.m. to 11:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on accompanying site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for Lake Eden Arts Festival, the Asheville City Schools Foundation, the Asheville Downtown Association, Big Brothers Big Sisters of WNC, Friends of the WNC Nature Center, Asheville Bicycle Racing Club, and the Western North Carolina Soccer Foundation.

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Asheville Earth Day, The Big Love Fest, Downtown After 5, the Beer City Festival, the Mountain Safari, the French Broad Cycling Classic, and the Beer City Cup.

**F. ORDINANCE NO. 4176 - BUDGET AMENDMENT FOR 2013 BOJANGLES EASTER EGGSTRAVAGANZA**

Summary: The consideration of a budget amendment, in the amount of $4,000, for the 2013 Bojangles' Easter Eggstravaganza from a sponsorship from Bojangles' Famous Chicken and Biscuits.

Bojangles' Famous Chicken and Biscuits is the naming sponsor for the city's annual Easter event at Carrier Park, Bojangles' Easter Eggstravaganza. Sponsorship funds are used to support event operating cost including but not limited to the purchase of supplies and materials for activities such as face painting, goody bags and Easter egg hunt; and to rent inflatable play structures.

This action complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it strengthens partnerships with funding partners, and increases revenue opportunities through sponsorships.

Pro:

- Provides funding to support production cost of the annual Bojangles' Easter Eggstravaganza.

Con:

- None

The budget amendment will increase the operating budget in the Parks, Recreation and Cultural Arts Department for supplies and rents by $4,000 to fund the 2013 Bojangles' Easter Eggstravaganza.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to increase the budget in the amount of $4,000 for the 2013 Bojangles' Easter Eggstravaganza.

**ORDINANCE BOOK NO. 28 - PAGE 184**

**G. RESOLUTION NO. 13-71 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH CDM-SMITH TO PERFORM ENGINEERING AND DESIGN SERVICES FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with CDM-Smith to perform engineering and design services for the RADTIP, and to conduct other necessary pre-development activities for a project budget not to exceed $100,000.

The City of Asheville recently completed a federally approved environmental document and preliminary designs for a multi-modal transportation project known as the RADTIP. The RADTIP will construct roadway improvements, sidewalks, bike lanes and greenways along Lyman Street and part of Riverside Drive. The City's consultant, CDM-Smith led an extensive process which included public involvement, design, and technical documentation of environmental impacts to bring the project design to a level of 30% complete..

The next step toward implementing the RADTIP involves engineering and design services to advance the RADTIP construction design toward the 75% complete level. This will put the City in a position to begin acquiring right-of-way and seeking funding for construction.

The development of construction plans for the RADTIP is one of the deliverables of the East of the Riverway Sustainable Multi-Modal Neighborhood Program, supported by a TIGER II Planning Grant awarded to the City of Asheville by the US Department of Transportation. The TIGER II funds allocated to the RADTIP totals $100,000, supported by a City cash and in-kind match of $20,000 (20% of grant funds).

Staff followed the municipal and required Federal Transportation Administration "Request for Qualifications" procurement processes to seek qualified, professional firms to perform engineering and design services. After thorough review and evaluation, a review panel recommended CDM Smith as the most qualified to perform this next phase of engineering and design services for the RADTIP.

The final scope of services for this phase of the RADTIP is still being refined. The current available funding will only cover a portion of the necessary design and engineering for the RADTIP. One of the goals for this phase of engineering is to include an analysis of the Craven Street intersection and the Norfolk Southern railroad bridge in order to continue to explore ways to accommodate truck traffic associated with New Belgium.

This project supports the City of Asheville's Strategic Operating Plan under the goals of Multi-Modal Transportation, and Job Growth and Community Development. In addition the project supports implementation of numerous master plans including the Wilma Dykeman Riverway Plan, Sustainable Economic Development Plan, Greenway Master Plan, and the 2025 City Development Plan.

Pro:

- City Council has identified implementation of the RADTIP as a key strategic goal for the city. Continued development of construction designs for the RADTIP will advance this goal.

Cons:

- Once complete, the project will require additional maintenance resources.
- As project development moves forward, the RADTIP will require an increased commitment of city resources in the CIP budget and of staff resources to administer the project.

This project is funded with budgeted sources, with local funds leveraging federal funding. The $100,000 to support the contract is budgeted via HUD TIGER II Grant. The City in-kind staff hours, are more than sufficient to meet the match required by the grant; such amounts have been approved by Council.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with CDM Smith to perform engineering and design services for the RADTIP for an amount not to exceed $100,000.

**RESOLUTION BOOK NO. 35 - PAGE 243**

**H. RESOLUTION NO. 13-72 - RESOLUTION AUTHORIZING THE STANDARDIZATION PURCHASE OF NCAA COMPETITION BASKETBALL COURT AT THE U.S. CELLULAR CENTER FROM PRATERS FLOORING**

Summary: The consideration of a resolution authorizing the Civic Center d/b/a U.S. Cellular Center Asheville to purchase a NCAA competition basketball court from Praters Flooring.

The U.S. Cellular Center has capital funds available for the procurement of one basketball floor and a set of goals, padding and related equipment. The procurement of these items will provide groups such as the Southern Conference, Harlem Globetrotters and potential other clients such as NBA teams and High School basketball tournaments with a higher quality competition court. The current floor has numerous 'dead spots' and due to age and deterioration and involves nearly sixty (60) additional man hours to set up and tear down than and court in better shape.

Praters Floors is the exclusive floor provider for the NCAA men's and Women's basketball championships. Each year, courts used at various Regional and Final Four locations are sold to venues and universities at a 'used' rate. According to staff research, Praters Floors is the only provider of 'one time use' courts that have an approximate shelf life of twenty to thirty years dependant on number of times sanded; approximately ten years per sanding. Purchase of this 'one time use' court provides the U.S Cellular Center and its clients with essentially a brand new court for roughly $65,000 less than a brand new basketball court for only approximately $20,000 more than a used court with half of the shelf life.

The current court used by clients at the U.S. Cellular Center was purchased used from Kansas State University in 2001 in preparation for the addition of Asheville's former NBADL team. This court has reached the end of its shelf life having been sanded and repainted two (2) times while in the City's possession and numerous times prior.

Electing to purchase our basketball floor through Praters Flooring is consistent with Councils goal for innovative financing with public/private partnerships. Purchase of a new baseball court is required in order to receive full grant monies awarded by the Buncombe County TDA. This is also consistent with Council's goal of fiscal responsibility, ensuring that we are

purchasing a 'one time use' court and not taking a chance on purchasing a court with significant wear and tear.

Pros:

- Professional grade court for professional grade clients
- Reduced or eliminated 'dead spots'
- Professional 'look' for television broadcasts.

Con:

- None

The exception to bid will have no long term fiscal impact. The estimated cost of the floor and the related items is $180,000. Payment for this purchase will be made from capital funds already budgeted for the renovations currently occurring at the U.S. Cellular Center. Staff will pursue sale of the current court and goals after purchase and delivery of new court and goals.

City staff recommends City Council adopt resolution authorizing the Civic Center d/b/a U.S. Cellular Center to purchase a new floor and goals from Praters Flooring from currently approved capital budget lines.

**RESOLUTION BOOK NO. 35 - PAGE 244**

**I. RESOLUTION NO. 13-76 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BRANTLEY CONSTRUCTION CO. LLC AND TO AMEND THE PROFESSIONAL SERVICES CONTRACT WITH BETSCH ASSOCIATES/CLARK NEXEN FOR RENOVATIONS TO THE U.S. CELLULAR CENTER**

**ORDINANCE NO. 4177 - BUDGET AMENDMENT FOR RENOVATIONS TO THE U.S. CELLULAR CENTER FOR SOUTHERN CONFERENCE**

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a change order with Brantley Construction Co., LLC to add the alternate bid items (listed below) to the contract awarded on February 15, 2013; and to amend the Professional Services contract with Betsch Associates/Clark Nexen by $55,600 for the design of the Mezzanine level improvements; and (2) a budget amendment in the amount of $839,917 from TDA and US Cellular sponsorship revenue to provide sufficient budget authorization for all contracts and expenses that are anticipated prior to June 30, 2013.

City Council previously approved a contract with Brantley Construction on February 15, 2013, in the amount of $1,876,000 for the next phase of renovations at the U.S. Cellular Center. The construction contract currently is $1,876,000 and these alternates will increase the contract to the amount of $2,378,107 plus a 10% contingency for the purpose of continuing the current phase of U.S. Cellular Center renovations. At the time the contract was approved the City did not have the necessary funding to include certain alternates. On March 22, 2013, the U.S. Cellular Center received a TPDF Grant from the Buncombe County Tourism Development Authority, allowing us to fund the alternates and include them in the contract with Brantley Construction. The contractor agreed to hold the pricing of those alternates beyond the typical 30 day time period so as to allow the City the opportunity to secure funding. Staff is seeking Council approval of a change order to this contract that will incorporate the alternates listed below that were included in the original bid package dated December 13, 2012:

Alternate #4: General renovations to the Concourse and Arena level restrooms
Alternate #5: Replacing tile flooring in the Concourse and Arena level restrooms
Alternate #6: Replacing lavatory faucets in the Concourse and Arena level restrooms

Alternate #8: Renovations to the South Concourse concession stand
Alternate #9: Replacement of all Arena level Exit doors
Alternate #10: Replace Urinals, lavatory's and flush valves in the Concourse and Arena level restrooms.

A standard procedure in construction contracts is to provide a contingency to cover potential routine project change order requests for unforeseen construction components related to the overall renovation. Staff is seeking approval to add an additional 10% contingency and to authorize the City Manager to execute change orders for the contract up to the amended contract amount above not to exceed $237,810.70. While staff does not expect change orders to rise to the amount of $237,810.70, there are some unknown factors that could increase the original contract scope.

Approval of the resolution to amend the contract with Betsch Associates/Clark Nexen allows staff to proceed with the design of the Mezzanine level improvements. This part of the renovations is currently in the design phase and will potentially be added by future change order to the current contract with Brantley Construction in the upcoming fiscal year.

In order to fund the contract change orders with Betsch Associates/Clark Nexen and Brantley Construction and all other anticipated contracts and expenses prior to June 30, 2013, staff is requesting approval of a budget amendment in the amount of $839,917 utilizing funding received from the Tourism Development Authority and the US Cellular sponsorship agreement. Additional budget authorization for the renovations project will be included in the FY 2013-14 budget ordinance that staff brings forward for Council approval in June.

This action complies with the City Council Strategic Operating Plan's Fiscal Responsibility goal of developing strategic partnerships to leverage resources for infrastructure and CIP projects. This action also complies with the Civic Center Commission Master Plan that encourages continuing renovations for the facility, and supports the goal of developing new partnerships. In addition, this supports Council's strategic plan allowing for timely renovations to the U.S. Cellular Center.

This has been reviewed and recommended by the Civic Center Commission.

Pros:

- Allows for continued and timely renovations to the U.S. Cellular Center
- Assures that the project will stay within the specified budget, including change orders.
- Allows the U.S. Cellular Center to provide additional amenities to the patrons and allows for additional revenue potential through renovation of additional usable Mezzanine spaces.
- Allows the City to continue working with a design team that has the most knowledge of the facility and it's needs
- Provides the means for the City and U.S. Cellular Center to effectively and efficiently utilize the funding that has been granted and to create greater usability of the facility over an extended period of time.

Con:

- None.

The budget amendment in the amount of $839,917 reflects funding from the Tourism Development Authority and revenue from the US Cellular sponsorship agreement. There are no additional City funds being budgeted as this time. It is anticipated that $100,000 in City pay-go funding will be included in the FY 2013-14 CIP for this project.

Staff recommends approval of 1) a resolution authorizing the City Manager to execute a change order with Brantley Construction Co., LLC to add the alternate bid items (described

above) to the contract awarded on February 15, 2013 up to the amount of $2,378,107 plus a 10% contingency for the purpose of continuing the current phase of U.S. Cellular Center renovations; and 2) a resolution to amend the Professional Services contract with Betsch Associates by $55,600 for the planning and design of the Mezzanine level improvements; and 3) a budget amendment in the amount of $839,917 from TDA and US Cellular sponsorship revenue to provide sufficient budget authorization for all contracts and expenses that are anticipated prior to June 30, 2013.

**RESOLUTION BOOK NO. 35 - PAGE 249**
**ORDINANCE BOOK NO. 28 -- PAGE 186**

**J. RESOLUTION NO. 13-74 - RESOLUTION TO MAINTAIN AND SUPPORT THE CURRENT INTEGRITY AND FUNDING FOR THE PARKS AND RECREATION TRUST FUND**

**RESOLUTION BOOK NO. 35 - PAGE 246**

**K. RESOLUTION NO. 13-73 - RESOLUTION AMENDING THE 2013 CITY COUNCIL MEETING SCHEDULE TO (1) ADD A BUDGET WORKSESSION ON APRIL 23, 2013, AT 3:00 P.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL; (2) CANCEL THE SPECIAL MEETING TO RECEIVE THE CHARLOTTE STREET COMPREHENSIVE TRAFFIC STUDY REPORT; (3) CANCEL THE APRIL 30, 2013, COMMUNITY MEETING; AND (4) ADD A COMMUNITY BUDGET MEETING IN SOUTH ASHEVILLE ON APRIL 18, 2013, AT 6:00 P.M.**

Councilman Pelly moved to amend Resolution No. 13-73 to add a community budget meeting in south Asheville on Thursday, April 18, 2013, at 6:00 p.m. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 245**

**L. RESOLUTION NO. 13-75 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT THE GRANT AWARD OFFER FROM THE US ECONOMIC DEVELOPMENT ADMINISTRATION FOR THE CRAVEN STREETS IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the Mayor to accept a US Economic Development Administration grant award in the amount of $1,122,401 for the Craven Streets Improvement Project, and to authorize the City Manager to sign any additional documents required to execute the grant.

On April 5, 2012, New Belgium Brewing announced they would build an east coast expansion brewery in Asheville. On June 12, 2012, Council authorized the City Manager to executive an economic development incentive agreement, and to sign a Memorandum of Understanding (MOU) with New Belgium Brewing. The MOU summarizes the commitment of the City to perform or partner on performing infrastructure improvements that support the construction and operation of New Belgium's manufacturing and distribution facility. A funding sources and uses table included as Exhibit C of that MOU outlined the City's request for funding from the US Economic Development Administration's Public Works Assistance program for up to fifty percent of the total infrastructure improvements costs.

On March 28, 2013, the EDA issued a grant award offer of $1,122, 401 to the City of Asheville. These funds can be used for eligible components of the City's Craven Streets Improvement Project, the name for the public infrastructure investments the City is currently

designing and will construct in coordination with New Belgium Brewing's $175,000,000 private Craven Street investment.

In summary, the funds will enable the City to more cost effectively perform the following work:

- Almost 3000 linear feet of multimodal roadway improvements, including widening, resurfacing, bike lanes, sidewalk, and regional stormwater management on Craven Street
- Re-engineering of turning radius at five points intersection at Lyman Street and Roberts to accommodate commercial truck traffic
- Safety and flow improvements at Hazel Mill and Craven Street via road realignment and rebuild
- Low impact development style public parking lot that supports operation of the tasting room, and provides wayfinding, parking, and access to the northern end of the French Broad River Greenway Connector
- Creation of riverfront greenway connector to support further multimodal efforts and support the implementation of the City's master plans and policies.
- Upgrade of almost 3000 linear feet of inadequate water line.

The acceptance of this award directly addresses objective one under goal two of the Fiscal Responsibility section in the Strategic Operating Plan: Leverage internal and external partnerships for pursuing capital improvements and infrastructure projects.
It also supports the following Council goals: Green and Sustainable - Asheville as the southeastern leader in clean energy and environmental sustainability (by implementing LID technologies and inducing private investment by industry leaders in sustainability); Job Growth and Community Development - by promoting sustainable, high density infill growth, and supporting the riverfront redevelopment partnership; and Multimodal Transportation- by creating a partnership for investments in greenway and sidewalk infrastructure, including cost sharing options.

Pros:

- Accepting this award will reduce the amount of funds needed to implement these improvements by over a million dollars.
- Accepting this award will cement an active partnership with the US EDA on the development of jobs in the Asheville area.

Cons:

- Accepting this award requires the City to perform additional reporting and administrative functions in order to comply with federal grant requirements.

Staff is not requesting that Council take action on a budget amendment at this time. Staff will come back to Council at a later date with a budget amendment that packages all outside funding offered as part of this project, which is expected to include funds from US EDA, RiverLink via the Clean Water Trust Fund, and North Carolina's Golden Leaf Foundation, as well as City of Asheville funding.

City staff recommends City Council adopt the resolution to authorize the Mayor to sign and accept the award offer from the US EDA.

**RESOLUTION BOOK NO. 35 - PAGE 248**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda, as amended. This motion was seconded by Councilman Davis and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION UPDATE

Ms. Pattiy Torno, Chair of the Asheville Area Riverfront Redevelopment Commission, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Ms. Torno for her leadership and the entire Commission for their dedication.

Fire Chief Scott Burnette updated City Council on four arsons in the last few days and urged the community to come forward with any information they may have concerning these fires.

### B. LEGISLATIVE & WATER UPDATE

**RESOLUTION NO. 13-77 - RESOLUTION OPPOSING HOUSE BILL 488 REQUIRING TRANSFERS OF CERTAIN WATER SYSTEMS**

Deputy City Manager Jeff Richardson highlighted for Council some legislative issues of interest as follows: House Bill 488 - Regionalization of Public Utilities; House Bill 252 - Asheville Transfers; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation (Asheville only); Senate Bill 363 - Business Tax Reduction and Reform; Senate Bill 394 - Lower Tax Rates for a Stronger North Carolina Economy; House Bill 418 - Park Authority; and Senate Bill 612 - Regulatory Reform Act of 2013.

City Attorney Oast presented Council with a proposed resolution opposing House Bill 488 regarding transfers of certain water systems.

City Manager Jackson reported on his trip to Raleigh earlier that day in which he heard House Bill 488. He was allotted 6 minutes to make remarks, which he emphasized that we have put business and citizens first in managing the water system. We have managed the water system since 2005 like a business and put $70 Million into the system to upgrade the infrastructure, plants and lines in order to provide a high high quality water supply. We have made significant consistent and efficiency improvements to our system. This proposal would not create productivity and efficiency savings for our ratepayers. We are running a top rate system that is meeting our customers' needs. The outcome of the vote was 18-10 (largely along partisan lines) - it goes to the House tomorrow. His comments were also cause for the committee to task the bill drafting staff to revisit the way the bill is written to be a general bill and to prepare potential amendments and revisions on the floor. City Manager Jackson also noted that House Bill 488 allows for privatization of the administration of a water system.

Regarding Senate Bill 612, Mayor Bellamy noted that we still need to look at federal legislation because the reason we have a stormwater utility today is because it was an unfunded mandate. Mr. Richardson agreed and said that we are continuing to monitor a total of 16 bills.

Mayor Bellamy did not support House Bill 488 offered up for consideration in the House. She agreed with the concerns expressed by other members of the Committee from Wake County about state-wide impacts, noting this is not best management practices nor is it a good bill.

In response to Councilman Smith, City Manager Jackson said that if the impact of the state bills are reduced from $6 Million to a lower number we will adjust accordingly. The point is

to hear from citizens, weigh options and then when we have the April 23 budget worksession, staff will be looking for specific direction so we can finalize the recommended budget.

Councilman Hunt moved the adoption of Resolution No. 13-77. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 250**

**IV. PUBLIC HEARINGS:**

**A. CONTINUATION OF CONSIDERATION OF AN AMENDMENT TO THE CONDITIONAL ZONING FOR WEIRBRIDGE VILLAGE LOCATED ON HENDERSONVILLE ROAD, LEGACY OAKS PLACE AND RACQUET CLUB ROAD TO ALLOW FOR THE INSTALLATION OF MENU BOARDS ON A COMMERCIAL OUTPARCEL**

**ORDINANCE NO. 4177 - ORDINANCE TO AMEND THE CONDITIONAL ZONING FOR WEIRBRIDGE VILLAGE LOCATED AT HENDERSONVILLE ROAD, LEGACY OAKS PLACE AND RACQUET CLUB ROAD TO ALLOW FOR THE INSTALLATION OF MENU BOARDS ON A COMMERCIAL OUTPARCEL**

Mayor Bellamy said that the public hearing on this matter was held on March 26, 2013, and continued to this date in order to have a full Council present.

Councilman Bothwell said that we need to enforce the sign ordinance and felt it was bad policy to continually grant variances. If Council feels that it would be better to have two menu boards for drive throughs in the future, Council should consider that amendment. He felt that the applicant should abide by the current rules in place. Again, we need consistency in enforcement.

In response to Councilman Hunt, Urban Planner Julia Fields said that when the sign ordinance was adopted over 15 years ago, the prototype for drive through restaurants was a single ordering station. In the last 2-3 years, that prototype has changed and people have been updating their drive throughs or building new ones. Again, at the time the sign ordinance was adopted, having two ordering stations was not anticipated. There is an interest in amending the ordinance recognizing that prototypes have changed and staff will bring that amendment forward to Council. It is her understanding that there have been two instances where the Board of Adjustment has granted variances for the use two menu boards on a parcel.

Councilman Hunt noted that the decision about whether or not there should be a drive through restaurant on this site was made in 2006. He was not a fan of sprawl development or fast food drive throughs and did not wish to see a proliferation of high traffic across the City, but in terms of equity and fairness and history, he could support the second menu board.

When Councilman Pelly asked if public comment would be allowed, Mayor Bellamy noted that the public hearing was held and is normally only opened up for new information, but would leave it up to Council on whether they would be interested in hearing more public comment.

Mr. Mack Cox, former president of Crowfields for 2005-06, said that Crowfield's complaint back in 2006 was density. At this time their problem is traffic. Mr. Pulliam did offer and continues to offer the access. Crowfields did not accept that access back in 2006 because of liability concerns - they do not want anyone to get hurt in their development. There are two lakes and several streams on Crowfields property and the Pulliam development has no age limit on who accesses their property (including children). They are pleased with that is currently on the developer's property. He asked for Council to give Crowfield residents consideration as they

want to continue their lifestyle. City staff will be meeting with Crowfield residents regarding their traffic concerns.

Mayor Bellamy stated that she has read the minutes of the public hearing and it seems that the concern of Crowfields centered around access for Crowfields to safely leave their facility. She understood that the residents of Crowfields will be voting as a body on whether or not to accept the access to the traffic signal offered by Mr. Pulliam. She agreed that we need to amend our sign ordinance.

Councilman Pelly said that since Crowfields opened in 1972, long-time residents have seen the scale and volume of traffic along Hendersonville Road increase. The immediate issue is about the sign ordinance; however, the Crowfield residents believe the cumulative effect of development surrounding their neighborhood is impacting their quality of life. When issues come before Council, that is one way they can make that point known. To the residents, he felt we need to find a long-term solution. He was glad that City staff will be meeting with the residents to hopefully provide them with safe egress for residents leaving Crowfields. He was also hopeful that there will be a reconsideration of the access offer extended by Mr. Pulliam.

When Councilman Pelly felt that Crowfields has not been treated fairly over the years, Mayor Bellamy disagreed. One issue that Crowfields has expressed concern with was stormwater and the City spent a lot of money dealing with that issue for them. We felt the access offered in 2006 would address their concerns regarding access. The City has responded to the issues which they have control over. The City cannot be held accountable if Crowfields chooses not to accept an easement that will make their egress easier.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4177 to amend the conditional zoning for Weirbridge Village to allow for the installation of menu boards on a commercial outparcel. This motion was seconded by Councilman Davis and carried on a 5-2 vote with Councilman Bothwell and Councilman Pelly voting "no".

**ORDINANCE BOOK NO. 28 - PAGE 188**

**B. PUBLIC HEARING TO CONSIDER THE REZONING OF 10 OLD SHOALS ROAD FROM HIGHWAY BUSINESS DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT**

Due to an error in legal advertising, this public hearing will be held on April 23, 2013.

**C. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE**

Due to an error in legal advertising, this public hearing will be held on April 23, 2013.

**D. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MARKET, LOCATED AT 4 SOUTH TUNNEL ROAD TO REDEVELOP AN EXISTING RETAIL CENTER AND CONSTRUCTION OF A NEW BUILDING, AND A MODIFICATION REQUEST TO LANDSCAPE REQUIREMENTS**

Due to an error in legal advertising, this public hearing will be held on April 23, 2013.

328

## V. UNFINISHED BUSINESS:

### A. ASHEVILLE DOWNTOWN IMPROVEMENT DISTRICT INC.

At the BID Board's request, this item has been pulled from consideration at this time.

### B. RESOLUTION ADOPTING A LIVING WAGE FOR FULL- AND PART-TIME CITY EMPLOYEES AND GENERAL SERVICE CONTRACTS $30,000 AND ABOVE

At City staff request, it was the consensus of Council to postpone this item until May 14, 2013.

## VI. NEW BUSINESS:

### A. BOARDS & COMMISSIONS

Regarding the Greater Asheville Regional Airport Authority, the following individuals applied for the vacancy: Albert Anderson, Bradley Cain, Julian Jones, Aixa Wilson, Ken Hawkins, Charles Larrick, John Hayler, George Lycan and Grant Osborne. In addition, two late applications received were from Douglas Tate and Phillip Kelley. It was the consensus of City Council to interview Grant Osborne, Douglas Tate, Phillip Kelley, Albert Anderson, John Hayler and George Lycan.

Regarding the Citizens-Police Advisory Committee, the following individuals have applied for the vacancy: Karl Katterjohn, Fred Cooke, Scott Steele and Grant Osborne. Because the vacancy is for a south representative and only one applicant from the south applied, it was the consensus of Council to re-advertise.

Regarding the Neighborhood Advisory Committee, the following individuals with the 28803 or 28704 zip code have applied for the vacancy: Teddy Jordan, Aixa Wilson Spencer Hardaway, Neil Barrett, Amy Evans and Grant Osborne. It was the consensus of City Council to interview Amy Evans and Spencer Hardaway.

**Multimodal Transportation Commission**

Executive Director of Public Works and Multimodal Transportation Cathy Ball updated Council on the possible creation of a Multimodal Transportation Committee which will eliminate the formal Council appointed Greenway Commission and Transit Commission.

At the February 2013 Boards and Commissions meeting, staff presented a model for combining/augmenting various transportation and neighborhood related boards by forming a Multimodal Transportation Commission.

Since then staff and/or Council members have met with the various boards and commissions and have tweaked the initial recommendations. After additional discussions, and after the Boards & Commissions Committee meeting on April 9, it was the consensus of staff and the Boards & Commissions Committee that the membership of the Multimodal Transportation Commission be as follows: 3 members of the Transit Commission (which will now be the Transit subcommittee), 3 members of the Greenway Commission (which will now be the Greenway subcommittee) and 3 members of the Bike and Pedestrian Task Force, with 1 ex-officio non-voting member from the Planning & Zoning Commission, 1 ex-officio non-voting member from the Neighborhood Advisory Committee and 1 ex-officio non-voting member from the Sustainable Advisory Committee on Energy & the Environment. Those names will be provided to City Clerk

Burleson to include in the resolution appointing members, noting that City Council will have the ultimate authority to endorse those members.

The Transit Commission and the Greenway Commission discussed the roles of the sub-committees. While the subcommittees will receive technical support and staff attendance at meetings, they would not staff the meetings in terms of taking minutes, preparing the agendas, etc. The Greenway Commission has requested that Council consider that they have dual relationships with the Parks and Recreation Advisory Board and the Multimodal Transportation Commission. They requested a relationship with the Parks and Recreation Advisory Board for the purpose of making recommendations on the aesthetics of greenways, such as benches and lighting.

In meeting with the Transit Commission and the Greenway Commission, there were some strong suggestions about the process for appointments on the sub-committees and the Multimodal Transportation Commission. The current members of these commissions had concerns over having a balanced sub-committee if there was no structure. Staff recommendations address their concerns.

This action would comply with one of Council's Strategic Goals by supporting multimodal transportation planning.

Pros:

- Compliments the organizational alignment of the organization.
- Reduces the number of Council Appointed Commissions by one.

Con:

- None.

Because this is an update only, staff recommended that (1) an ordinance establishing the Multimodal Transportation Commission be placed on the May 14 agenda; (2) ordinances repealing the Transit Commission and the Greenway Commission be placed on the June 11 agenda; and (3) a resolution appointing members to the Multimodal Transportation Commission be placed on the June 11 agenda with an effective date of July 1, 2013.

Councilman Hunt understood that once the ordinance creating the Multimodal Transportation Commission is adopted, the Greenway Commission and the Transit Commission ordinances would then be repealed. He felt that when the Multimodal Transportation Commission is created the Greenway subcommittee and Transit subcommittee may not have traction to remain in existence. He totally supported the initial recommendations by the Greenway Commission, Transit Commission and Bike & Pedestrian Task Force; however, was uncertain about having to rely on the then-subcommittees to make a recommendation for a vacancy is troubling. He felt that was too much reliance on the existence of subcommittees. He supported flexibility and less structure by allowing the Multimodal Transportation Commission the flexibility to create subcommittees that they feel are important. He suggested language in the ordinance that states that the Multimodal Transportation Commission has the authority to designate subcommittees that they feel are important.

Ms. Ball said that she has met with the Chairs and members of the Transit Commission, Greenway Commission and Bike & Pedestrian Task Force to address the issue of making sure that the subcommittees exist and do provide meaningful input to the City in making decisions. For example, if the City has a Transit subcommittee, there are several federal requirements that must be met in order for the City to receive funding.

Ms. Ball further explained that after the first year as positions become vacant on the subcommittees (with the exception of the Bike and Pedestrian Task Force), the Transit and Greenway subcommittee members would be appointed by the Multimodal Transportation

Commission with applicants submitting their applications to the Multimodal Transportation Commission. The Multimodal Transportation Commission would then appoint the members to the subcommittees so we continue to make sure those groups are balanced. Some concern expressed was that if people are not appointed to a subcommittee, they don't tend to regularly show up or give as good of input. When the ordinance is drafted, staff will try to include that structure so that people feel comfortable that that role is not being diminished.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

**Closed Session**

At 6:49 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including potential litigation. The statutory authorization is contained in G.S. 143-318.11(a)(3); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:38 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:38 p.m.

Magdalen Bowlson
CITY CLERK

MAYOR

Charles T. Koontz Intermediate School
305 Overlook Road

Community Budget Meeting

Present: Mayor Terry M. Bellamy, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith (arrived at 6:20 p.m.); City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Esther E. Manheimer

**Community Budget Meeting**

Mayor Bellamy said that this meeting is the second opportunity for City staff to present to Council and the public budget challenges for the upcoming year and to outline fiscal realities the City may face in light of pending legislation action by the North Carolina General Assembly. The first community budget meeting was held on April 3, 2013.

Executive Director of Finance & Strategic Planning Lauren Bradley provided Council with financial context and estimated impact of introduced legislation on the multi-year budget plan. She also provided suggested alternatives to offset the revenue losses - service impacts, trade-offs and tough decisions.

Using a PowerPoint, she explained that Asheville has been diligently responding to a financial crossroads (1) Asheville has been experiencing a structural imbalance in the rate of growth in revenues and expenditures. Expenditures are growing at a faster rate (as much as five times faster) than revenues; (2) Real estate growth has been minimal, and property tax revenue is unlikely to grow significantly in the near future. At the same time, Asheville's share of sales tax revenue has been declining. A lack of access to other revenue sources intensifies the effects of property and sales tax revenues on Asheville's financial structure; (3) Despite the recession and relatively tame inflation, many basic costs continue to go up for local governments. These costs include employee compensation and healthcare, fuel, utilities and equipment; (4) As a regional hub for the western portion of the state and a tourist destination, Asheville's services and infrastructure support a broad population. While the interdependency of Asheville and the surrounding area is critical to the region's economy, the property tax base supports majority of these needs; and (5) Asheville has been cutting its budget for several years, and this trend is reflected in deferred capital improvements, reductions in force, salary freezes and other cost-saving measures. While fiscal constraint will continue to be required, capturing additional savings will become an increasingly elusive target. For instance, Asheville is on a 65-year resurfacing cycle for streets when the recommended cycle is 20 years. City employee compensation was frozen for three years. Vehicle replacement is on an 18-year cycle when the industry standard is 6-10 years.

Asheville has been developing a fiscally responsible, long-range approach to financial management in Fiscal Year 2014 (1) At the beginning of the budget process, Asheville identified the need to close a $2.2 million difference between projected revenues and expenditures. A plan was developed to balance the budget by freezing positions, reducing operating line items and making modest adjustments to fees while avoiding a property tax rate increase for ongoing operations; and (2) At the same time, Asheville developed a Economic Development and Community Investment Initiative designed to address the rate of revenue growth in the city. This strategy called for enhancing infrastructure investment to support redevelopment in targeted areas, business development and job growth with a focus on the River Arts District and Downtown. Projects considered within that strategy included RADTIP, multi-modal improvements in the South Slope area, greenway development, increased allocations to affordable housing development, the Eagle Market Place project, and the Asheville Art Museum renovation project. Services proposed by the BID were also considered in this strategy.

Asheville serves as an important regional hub for economic development, jobs and recovery from the recession: (1) The economic interdependency between Asheville, Buncombe County and the surrounding region has an impact on the lives of more than 1.3 million citizens living in 23 counties, an area of about 11,000 square miles (roughly the size of the state of Massachusetts). Asheville's economic conditions impact almost a quarter of counties in the State; (2) The Asheville-metro area led the state with 3.6% job growth in year-over-year employment statistics (from Jan. 2012-Jan. 2013, according to the NC Justice Center). Also in that year Asheville had the third largest share of the state's overall employment growth. The metro areas of Asheville, Raleigh and Charlotte together accounted for more than 2/3 of the state's job growth. She previewed a table which showed a two-year comparison of job growth across the state, where the Asheville metro area follows only Charlotte and Raleigh; and (3) These are promising figures that show signs of a recovering economy in Western North Carolina. Cities' ability to invest in regional infrastructure or critical services supports this type of economic growth. Without it, cities will be faced with two decisions – to raise taxes or to forego regional investments that support jobs and business growth – both of which are negative for North Carolina's economy.

In the last several weeks, State legislation has been introduced that may have an impact on Asheville's financial forecast. It is important to note that most of these bills have not yet become law, and they may change as they move forward. She reviewed a chart that presented an estimate on the cumulative financial impact of proposed legislation based on noted assumptions. Much remains uncertain about proposed legislation at this time, and so this chart represents our best estimates given what we know today. Asheville's projections have changed since April 3 and are expected to continue to evolve as the legislative process moves forward.

Regarding budget balancing strategies (1) The estimated impact of current legislation takes the difference between Asheville's revenues and expenditures from $2.2 million to $4.9 million in FY 14 (-$2.2 million + -$2.7 million operating impact from legislation); (2) The table below illustrates the types of service reductions that would be required to address the financial forecast solely on the expenditure side. The alternative to this level of service reductions is to raise property tax rates; (3) One penny on the tax rate generates about $1.1 million in revenue; and (4) Legislation has been introduced to enable the consolidation of City and County Parks and Recreation services and facilities. Asheville will continuing to evaluate this proposal.

| **Expenditure Reductions** | | **Service Impact** |
|---|---|---|
| Defer Infrastructure & Equipment | $ 1,000,000 | Defer contracted services for Capital Maintenance of building, infrastructure, equipment |
| Police Reductions | $ 500,000 | Reduce patrol in Downtown |
| Fire & Emergency Reductions | $ 500,000 | Close fire station |
| Parks, Rec & Cultural Arts Reductions | $ 1,500,000 | Contract out Cultural Arts, eliminate festivals, restructure management of WNC Nature Center, restructure adult & youth athletics, reduce hours or close some recreational facilities |
| Reduce Street & Sidewalk Maintenance | $ 500,000 | 25% decrease in paving & maintenance |
| Reduce Transit Service | $ 500,000 | Eliminate Saturday service |
| Reduce Affordable Housing Programs | $ 250,000 | Reduce loans for development projects |
| Reduce Administrative & Support Positions | $ 600,000 | Finance, Admin, Human Resources, Information Technology Services, Business Support |
| Other | | |

| Revenue Enhancements | New Revenue | Examples |
|---|---|---|
| Property Tax Increase of 1 cent/ per $100 of property value = | $ 1,100,000 | $200,000 home = $20 increase in property taxes, $400,000 home = $40 increase, $600,000 home = $60 increase |
| Property Tax Increase of 2 cent/ per $100 of property value = | $ 2,200,000 | $200,000 home = $40 increase in property taxes, $400,000 home = $80 increase, $600,000 home = $120 increase |

The changes in the forecast will likely require deferring capital maintenance, economic development initiatives and enhanced investment. If the estimated financial impact is realized, Asheville would lose the flexibility to consider increasing investment in the Economic Development and Community Investment Initiative via an enhanced capital improvement plan. Projects would have to be deferred unless other sources of revenues are identified. Under this scenario, a tax rate for a Business Improvement District has been deferred in consideration of city-wide service reductions and city-wide tax rate increases.

Staff recommends scheduling an additional budget work session on April 23 and extending the budget adoption out to June 11. If the financial forecast is not more certain by that time, another extension can be made for budget adoption to June 25. The budget must be adopted by June 30. Staff would recommend using the extension to gain additional City Council direction on budget balancing strategies in response to the changing forecast.

Asheville is seeking your input on budget priorities by working in small groups on a budget balancing exercise. The group's recommendations will be made by making funding decisions for services as well as proposing revenue increases. As the groups make their decisions regarding the level at which to fund services, they need to ensure that their recommendations are in line with your vision for the City.

Those who did not wish to participate in the budget prioritization were asked to complete a budget prioritization comment form and leave it with staff. Alternatively, they can e-mail comments regarding the budget priorities by visiting www.ashevillenc.gov/budget.

At this time, staff led a facilitated exercise with small groups of citizens demonstrating the decisions and trade-offs involved in balancing the City of Asheville budget given the structural gap and range of options. The groups concluded their exercise and reported reported their top three budget balancing strategies from the expenditure reductions provided by staff and also other budget reduction ideas. This information will be used to inform City Council's decision-making process. Staff will summarize all input and recommendations in a report that will be accessible at www.ashevillenc.gov.

Mayor Bellamy thanked the public for attending and for their participation in the budget prioritization. Because this is an on-going dialogue, as City Council continues in this process, they will strive to keep the public informed, noting on the City's website there is information on the budget process - www.ashevillenc.gov - City Budget.

At 7:30 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
City Clerk

Mayor

Tuesday – April 23, 2013- 3:00 p.m.
First Floor North Conference Room

Budget Worksession

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

Executive Director of Finance and Strategic Planning Lauren Bradley said that since City staff is recommending the budget schedule be extended to (1) add an additional worksession on May 14; (2) present the recommended budget to City Council on May 28; (3) hold the budget public hearing on June 11; and (4) ask for Council to vote on the proposed budget on June 25, she provided City Council with an update on where we are, along with an opportunity for additional feedback.

She reviewed the proposed legislation as of April 2013; budget balancing strategies; and budget balancing considerations (1) financial impact of various items remain uncertain (a) revenue reform proposed by the N.C. General Assembly; (b) disposition of the City's water system; (c) Cultural and Recreation Authority; and (d) impact of property tax rate adjustments to sales tax distribution; and (2) implementing permanent service reductions and re-engineering is challenging when timing and full impact is unclear.

The proposed budget assumptions of the Operating Budget (1) budget Water Fund contribution to central services (a) offset potential loss of contributions by (i) capturing current year savings for fund balance contingency and (ii) deferring expenses until later in the year; and (b) this approach gives the City flexibility to adapt to changing conditions; permanent reductions would have to be considered if the water system is transferred; and (2) reduce revenue projections - offset loss with property tax increase; alternative is to consider additional service reductions.

The proposed Fiscal Year 2014 continuation of the Capital Improvement Program (CIP) (1) the continuation pay-as-you-go CIP is insufficient to meet the City's basic capital maintenance needs (a) assumes reduction in Water Fund's $1.5 million contribution to infrastructure improvements associated with water lines (b) 50% reduction in facility maintenance and roof replacements; and (c); unable to fund basic replacements like traffic controllers and traffic signal poles; (2) the continuation budget for debt-funded projects allows limited ability to invest in infrastructure and strategic economic development projects (a) $10 million in debt capacity is allocated to Hendersonville Road sidewalk project ($825,000) to leverage N.C. Dept. of Transportation funds, Public Safety Radio Infrastructure Replacement Project $6 million), vehicle replacements ($2.4 million) and bridge repair ($500,000), and other infrastructure ($1 million); and (3) targeted investments in infrastructure and capital improvements could help address the revenue side of the City's structural imbalance.

The proposed Fiscal Year 2014 enhanced Capital Improvement Program (1) implementation of enhanced capital improvements and economic development investments will require additional revenue (a) an additional $3 million in the CIP would increase capital maintenance, infrastructure projects and fund economic development CIP including RADTIP and downtown projects; and (b) funding sources could come from a combination of City revenues and other sources; and (2) staff would recommend considering a minimum of an additional $2 million in capital improvements. She then reviewed the tax rate impacts.

The following is policy direction needed: (1) extending the schedule with the proposed budget being presented on May 28; regarding the General Fund Operating Budget, feedback on current assumptions and plans (a) balance initial difference between revenues and expenditures with changes to services, fees and WNC Nature Center partnership; (b) decrease revenue projections by $1 million; offset with property tax increase of 1 penny (alternative to consider service reductions); and (c) maintain Water Fund budget and central service contribution; defer targeted expenses should disposition change; and (3) Regarding the General Fund Capital Improvement Program, further discussion about the Capital Improvement Program at the May 14 worksession.

After discussion about when the next budget worksession would be held, it was the consensus of Council to add a budget worksession on Friday, May 17, 2013, (not on May 14) at 10:00 a.m. in the First Floor North Conference Room of City Hall in order to provide further direction to City staff on building the budget. Each Council member voiced their opinion on some of the balancing strategies, along with requests for further information, i.e., what an across-the-board cut of 4-5% of all City departments would look like, and a broader range of additional options for cost savings.

It was the consensus of Council to extend the budget schedule as outlined above by Ms. Bradley, with replacing the suggested May 14 budget worksession with the budget worksession being held on May 17.

At 4:27 p.m., Mayor Bellamy recessed the meeting until the 5:00 p.m. formal meeting.

Tuesday – April 23, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance, and the Song O'Sky Chorus of Sweet Adelines International sang God Bless America.

**INVOCATION**

Mayor Bellamy gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING APRIL AS "PARKINSON'S DISEASE AWARENESS MONTH"**

Councilman Bothwell read the proclamation proclaiming April, 2013, as "Parkinson's Disease Awareness Month" in the City of Asheville. He presented the proclamation to Nancy and Jim Hall who briefed City Council on some activities taking place during the month.

**B. PROCLAMATION PROCLAIMING APRIL 21-27, 2013, AS "ADMINISTRATIVE PROFESSIONALS WEEK"**

Mayor Bellamy read the proclamation proclaiming April 21-27, 2013, as "Administrative Professionals Day" in the City of Asheville. She presented the proclamation to Ms. Mary Ann Schiller, President of the Land of the Sky Chapter of the International Association of Administrative Professionals, who briefed City Council on some activities taking place during the day.

**C. PROCLAMATION PROCLAIMING MAY AS "FOSTER CARE APPRECIATION MONTH"**

Councilman Smith read the proclamation proclaiming May, 2013, as "Foster Care Appreciation Month" in the City of Asheville. He presented the proclamation to Ms. Tara Foster, representing the Buncombe County Dept. of Human Services, who briefed City Council on some activities taking place during the month.

**D. PROCLAMATION PROCLAIMING APRIL AS "FAIR HOUSING MONTH"**

Councilman Davis read the proclamation proclaiming April, 2013, as "Fair Housing Month" in the City of Asheville. He presented the proclamation to Mr. Richard Boulden, representing the NCHRC Agency Council, Ms. Sarah Nunez, ABCRC Executive Director, and Ms. Robin Merrell, Managing Attorney at Pisgah Legal Service, who briefed City Council on some activities taking place during the month.

**E. PROCLAMATION PROCLAIMING MAY AS "MOTORCYCLE AWARENESS MONTH"**

Mayor Bellamy read the proclamation proclaiming May, 2012, as "Motorcycle Awareness Month" in the City of Asheville. She presented the proclamation to Mr. Roger Coleman, representing the Concerned Bikers Association, who briefed City Council on some activities taking place during the month.

**II. CONSENT AGENDA:**

At the request of City staff, it was the consensus of Council to add a resolution amending the City Council 2013 meeting schedule to add a budget worksession on May 17, 2013, at 10:00 a.m. in the First Floor North Conference Room in City Hall.

**A. APPROVAL OF THE MINUTES OF THE BUDGET WORKSESSION/TOWN HALL MEETING HELD ON APRIL 3, 2013, AND THE REGULAR MEETING HELD ON APRIL 9, 2013**

**B. RESOLUTION NO. 13-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH CANA CONSTRUCTION FOR THE WATER SERVICE RENEWALS PROJECT NORTH/EAST**

Summary: The consideration of a resolution by City Council authorizing the City Manager to enter into an agreement with CANA Construction for the bid amount of $212,375 plus a contingency amount of $21,240 for a total in the amount of $233,615 for the Water Service Renewals Project North/East.

On March 1, 2013, the Water Resources Department issued a Request for Bids for the Water Service Renewals Project North/East. The scope of the project is to renew existing water services that have been identified as sub-standard as part of the department's ongoing

Automated Meter Reading (AMR) project in the North and East parts of the Water Distribution system. There will be 161 water services renewed as part of this project, including new meter boxes, new meter setters, new connections to the existing house lines, and approximately 2,850 Linear Feet of copper line.

On March 26, 2013, Water Resources received five (5) bids for the project. Companies responding were:

1. CANA Construction – Waynesville, NC; $212,375.00
2. Buckeye Construction Company, Inc. – Canton, NC; $299,034.00
3. Patton Construction Group, Inc. – Asheville, NC; $299,330.00
4. Huntley Construction Co. – Asheville, NC; $329,213.00
5. T & K Utilities, Inc. – Asheville, NC; $345,825.00

A review team comprised of City staff reviewed these bids and selected CANA Construction as the lowest responsible bidder in the amount of $212,375.00. A contingency amount of $21,240.00 has been added for a project amount of $233,615.00.

This project is part of City Council's strategic plan to maintain and improve city infrastructure and provide local companies with labor opportunities.

Pros:

- Approval of the project will allow Water Resources to renew existing, sub-standard water services to residential houses.
- The project will provide a local company with work for several months.

Con:

- None.

As part of the Automated Meter Reading (AMR) Project, the Water Resources Department has allocated the funds needed for this construction project in the Capital Projects Fund.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with CANA Construction for the bid amount of $212,375 plus a contingency amount of $21,240 for a total in the amount of $233,615 for the Water Service Renewals Project North/East.

**RESOLUTION BOOK NO. 35 - PAGE 256**

**C. RESOLUTION NO. 13-79 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO AN AGREEMENT WITH HENDERSON COUNTY TO LEASE ONE TRANSIT VEHICLE**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one transit vehicle.

As a result of the 2000 Census, the French Broad Metropolitan Area was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating in the overall urbanized area. The Federal Transit Administration (FTA) named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the FTA funding, including reporting, administration and procurement of goods. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are

disbursed. The City of Asheville is accountable to the FTA regarding the use of all FTA funds and owns all the capital items that Henderson County purchases with these funds.

As per Henderson County's request, the City of Asheville ordered a van from a State contract to serve Henderson County's paratransit system, operated by Apple Country Transit. The vehicle is paid with the American Reinvestment and Recovery Act funding.

In order for the County to receive the van, a lease agreement, stipulating the terms and conditions to operate this vehicle, must be signed by both parties as required by FTA.

There is no cost obligation for the City with this action other than staff time to accomplish the task.

This action complies with the current City Council 2011-12 Strategic Operating Plan within the fiscal responsibility focus area by operating the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- The lease agreement is an administrative step required by the FTA that protects the City's interests as designated recipient of Federal funds.
- There is **no** cost obligation for the City of Asheville other than administrative expenses.

Con:

- The City of Asheville is responsible for administrative expenses including staff time to oversee the project for the duration of such, approximately seven years.

There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with Henderson County to lease one transit vehicle.

**RESOLUTION BOOK NO. 35 - PAGE 258**

**D. RESOLUTION NO. 13-80 - RESOLUTION AUTHORIZING NEGOTIATION OF AN INSTALLMENT FINANCING CONTRACT FOR THE FINANCING OF FISCAL YEAR 2013 GREEN CAPITAL IMPROVEMENT PLAN PROJECTS AND CALLING FOR A PUBLIC HEARING ON MAY 14, 2013**

Summary: The consideration of an initial resolution authorizing negotiation of an installment financing contract for the financing of Fiscal Year 2013 Green Capital Improvement Plan (CIP) Projects and calling for a public hearing on May 14, 2013.

The current capital improvement plan includes funds previously appropriated by City Council to finance Green CIP Projects, such as LED Streetlight upgrades, a boiler replacement at the Stephens Lee Recreation Center, a boiler replacement at Fire Station #2 and window replacements at Fire Station #7.

The proposed initial resolution asks Council to confirm that it is in the City's best interest to enter into an installment purchase contract with a financial institution to fund these aforementioned Green CIP projects and to provide for a public hearing on these matters. This resolution is a legal formality required by North Carolina General Statutes before the process of securing financing can officially begin.

This action supports the City of Asheville's goal to operate the City to the highest level of fiscal responsibility by enhancing its commitment to infrastructure maintenance and capital improvements.

Pro:

- Allows the City to comply with the legal requirements of the Local Government Commission regarding installment financing and NC General Statutes.

Con:

- There are no cons associated with ensuring that legal requirements have been met before securing financing for the Green CIP projects.

The City will seek to borrow no more than $1,100,000 to finance these projects. The projected annual debt service costs for this will range from $131,450 in Fiscal Year 2014 to $111,650 in Fiscal Year 2023; however, the City will not know the exact interest costs until it receives bids from the lenders. Staff will include funding for the projected debt service in the managers Fiscal Year 2013-14 proposed budget that is being presented to City Council in May.

City staff recommends City Council adopt an initial resolution authorizing negotiation of an installment financing contract and calling for a public hearing on May 14, 2013.

**RESOLUTION BOOK NO. 35 - PAGE 259**

**E. RESOLUTION NO. 13-81 - RESOLUTION WAIVING ALL THE PERMIT FEES ASSOCIATED WITH THE INSTALLATION OF A CANOPY AT PACK SQUARE PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE TOURISM DEVELOPMENT AUTHORITY AGREEMENT GRANT TO ACCEPT THE CANOPY FOLLOWING INSTALLATION, INSPECTION AND ACCEPTANCE**

Summary: The consideration of a resolution waiving all the permit fees associated with the installation of a canopy at Pack Square Park and authorizing the City Manager to execute the Tourism Development Authority (TDA) Agreement Grant to accept the canopy following installation, inspection and acceptance.

The Asheville Downtown Association (ADA) was awarded a grant from the Tourism Development Authority to construct and install a canopy over the stage in Pack Square Park. The amount of the grant is $50,000. The ADA will be responsible for constructing and installing the canopy. Additionally, the ADA must obtain all necessary permits prior to the installation.

Staff is requesting that all the permit fees be waived due given that the City will own the canopy after it is properly installed and inspected. Prior to installation, the design of the canopy will be reviewed by the Downtown Design Review Sub-Committee of the Downtown Commission.

TDA requires the City to sign the award documents stating that they will accept the canopy after it is properly installed and inspected.

This action complies with one of Council's Strategic Goals by encouraging public/private partnerships to provide infrastructure.

Pros:

- The addition of the canopy to the stage provides for more opportunities to have performances in the Park.
- The canopy is not costing the City any capital money.

Con:

- The City will be responsible for the maintenance of the canopy following installation.

The maximum cost of the permits to perform this work is $1,000.

City staff recommends City Council waive all the permit fees associated with the installation of a canopy at Pack Square Park and authorizing the City Manager to execute the TDA Agreement Grant to accept the canopy following installation, inspection and acceptance.

**RESOLUTION BOOK NO. 35 - PAGE 263**

**F. RESOLUTION NO. 13-82 - RESOLUTION SUPPORTING THE ASHEVILLE-BUNCOMBE REGIONAL SPORTS COMMISSION'S EFFORTS TO HOST THE IRON TRIATHLON IN SEPTEMBER 2014**

Summary: The consideration of a resolution supporting the Asheville-Buncombe Regional Sports Commission's efforts to host the Ironman Triathlon in September 2014.

The Asheville-Buncombe Regional Sports Commission (ABRSC) was established through a partnership between Buncombe County, Buncombe County Tourism Development Authority (TDA), and the City of Asheville, with the goal of securing sports related events that provide specific positive financial economic impact to the community. The ABRSC has been contacted by World Triathlon Corporation, the producer of the famous Ironman Triathlon, to gauge interest in the Commission's submittal of a bid to host the Ironman beginning in fall 2014, with the potential for a five year commitment.

The Ironman competition has 2,500 participants engaging in a 2.4 mile swim, a 112 mile bike race, and a 26.2 mile marathon run. Additional activities include an Expo for participants, spectators and the community; a banquet with speaker and awards; and other potential community activities.

The TDA, Buncombe County Commission, and Town of Lake Lure (swimming competition) have passed resolutions of support to be included in the ABRSC Bid Package which must be submitted by April 28th. Several other North Carolina, South Carolina and Virginia communities are expected to submit competing proposals. The Ironman organizers have indicated that communities that are short-listed would receive site visits in May 2013, with contract negotiations in June and an award announcement in July 2013.

In addition to being a substantial room-night and retail sales generator, the demographic profile of an Ironman participant overwhelmingly matches the entrepreneurial target profile of the community.

This action meets numerous City Strategic Plan goals, including creation of collaborative and effective working partnerships between the City of Asheville, the business community, and other key organizations; partnerships in regional economic development strategies; and expansion of partnerships with organizations to achieve common goals, including health and wellness, workforce development, and sustainable Economic Development.

Pros:

- Allows the ABRSC to continue to pursue the award of the Ironman competition
- Provides International promotion of Asheville to a target market segment
- Provides national media coverage of the competition and surrounding events
- Provides a strong connection to the most prominent brand in adventure racing
- Meets the Target Market for Outdoor Sports
- Creates over 10,000-12,000 room nights
- Up to 50% of participants visit the community in advance of the event to train

Cons:

- Requires road and street closures for up to 12 hours in certain locations

- Requires Public Safety support for which the details are still being discussed by staff
- Requires significant volunteer support by ABRSC volunteers

The Buncombe County Tourism Development Authority has pledged $75,000 in financial support and an additional $75,000 in matching funds. Buncombe County has pledged $40,000. Lake Lure has pledged $30,000. The Ironman Triathlon would require significant City Public Safety overtime, which is expected to be approximately $35,000 based on ABRSC's pro forma. City staff has met with ABRSC and continues to review possible ways to assist with the project, potentially through a defined contribution which would be used in the overall Ironman project budget, and then the ABRSC would pay for Public Safety costs with a cap. City funding would be included in the city's 2014-15 budget process. No funding is required now or in the 2013-14 budget.

Staff recommends that City Council pass a resolution supporting the Asheville-Buncombe Regional Sports Commission's efforts to host the Ironman Triathlon in September 2014.

Councilman Davis felt this is a huge economic development initiative and will be a tremendous partnership.

**RESOLUTION BOOK NO. 35 - PAGE 264**

**G. RESOLUTION NO. 13-83 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A UNIT PRICE CONTRACT WITH LAND OF THE SUN INC. D/B/A FLETCHER GRADING CONTRACTORS, FOR THE CHERRY STREET/PEARL STREET/STARNES AVENUE SIDEWALK CONSTRUCTION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a unit price contract in the amount of $169,313 with Land of the Sun, Inc. d/b/a Fletcher Grading Contractors along with contingency funds to cover any change orders up to the total contract amount of $195,000, for the Cherry Street/Pearl Street/Starnes Avenue Sidewalk Construction Project.

An informal request for bids was issued on March 14, 2013. One proposal was received on April 14, 2013, from Land of the Sun, Inc. d/b/a Fletcher Grading Contractors. They were deemed to have presented a responsive and responsible bid that was within the amount budgeted in the 2012/13 Streets and Sidewalk Maintenance Operating Budget.

The sidewalks to be repaired on Cherry Street and Starnes Avenue were required to obtain a Certificate of Appropriateness from the Historic Resource Commission which was granted earlier this year.

The project generally consists of removal of deteriorated existing sidewalks and installing new ADA compliant sidewalks along with associated apparatuses.

This action complies with the City Council Strategic Operating Plan in that will be a step in fulfilling Objective 1 of the Multimodal Transportation Plan in maintaining pedestrian infrastructure.

Pros:

- Updating deteriorated infrastructure.
- Improve multimodal transportation.

Cons:

- Will have some impact on automobile and pedestrian traffic due to lane and sidewalk closures.

- Project management and contract administration will consume staff time and City funds.

Funding for this contract is already included in the Fiscal Year 2012-13 Public Works sidewalk maintenance budget.

Staff recommends City Council to authorize the City Manager to execute a unit price contract with Land of the Sun, Inc. d/b/a Fletcher Grading Contractors in the amount of $195,000 which includes a 15% contingency amount to cover any changes or unexpected occurrences , for the Cherry Street/Pearl Street/Starnes Avenue Sidewalk Construction Project.

**RESOLUTION BOOK NO. 35 - PAGE 265**

**H. RESOLUTION NO. 13-86 - RESOLUTION AMENDING THE CITY COUNCIL 2013 MEETING SCHEDULE TO ADD A BUDGET WORKSESSION ON FRIDAY, MAY 17, 2013, AT 10:00 A.M. IN THE FIRST FLOOR NORTH CONFERENCE ROOM OF CITY HALL**

**RESOLUTION BOOK NO. 35 - PAGE 268**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Pelly moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

## III. PRESENTATIONS & REPORTS:

**A. SUSTAINABLE ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT UPDATE**

Mr. Duncan McPherson, Chair of the Sustainable Advisory Committee on Energy & the Environment, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Mr. McPherson for his leadership and the entire Committee for their dedication.

**B. LEGISLATIVE & WATER UPDATE**

**RESOLUTION NO. 13-85 - RESOLUTION IN SUPPORT OF EARLY VOTING AND COLLEGE STUDENTS' RIGHT TO VOTE AND PARTICIPATE IN OUR COMMUNITY**

**RESOLUTION NO. 13-87 - RESOLUTION IN SUPPORT OF SENATE BILL 724 AND HOUSE BILL 685 PROHIBITING IMITATION CONTROLLED SUBSTANCES**

Deputy City Manager Jeff Richardson highlighted for Council the following legislative issues of interest: House Bill 488 - Regionalization of Public Utilities; House Bill 252 - Asheville Transfers; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation (ratified); House Bill 568 - Asheville Deannexation; Senate Bill 363 - Business Tax Reduction and Reform; Senate Bill 394 - Lower Tax Rates for a Stronger North Carolina Economy; House Bill 962 - Municipal Sales Tax; Senate Bill 952 - Delay Sales Tax Distribution Change Effective Date; House Bill 428 -

Park Authority; Senate Bill 612 - Regulatory Reform Act of 2013; House Bill 664 - Cell Tower Deployment Act; and House Bill 659 - County and City Ethics.

Mr. Richardson read a resolution in support of Senate Bill 724 and House Bill 685 prohibiting imitation controlled substances. He explained that Senate Bill 724 and House Bill 685 would make the manufacture, possession, sale use, and delivery of certain limitation controlled substances unlawful and urges the members of the General Assembly to support this legislation.

Mayor Bellamy thanked Representative Moffitt for his assistance with House Bill 685.

Councilman Smith moved for the adoption of Resolution No. 13-87. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 269**

City Attorney Oast then read the resolution in support of early voting and college students' right to vote and participate in our community; and, to urge the North Carolina General Assembly to vote against Senate Bills 666 and 667, to oppose measures that would limit early voting.

Councilman Bothwell moved for the adoption of Resolution No. 13-85. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 267**

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER ADOPTION OF THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2013 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS**

**RESOLUTION NO. 13-84 - RESOLUTION ADOPTING THE CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2013 WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS**

Community Development Director Jeff Staudinger said that this is a public hearing to receive comments regarding the proposed Consolidated Action Plan for Fiscal Year (FY) 2013-2014, which sets out the proposed use of federal Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds for the coming fiscal year; followed immediately by Council's consideration of a resolution authorizing submission of this Consolidated Action Plan to the US Department of Housing and Urban Development. This public hearing was advertised on April 12 and 19, 2013.

The City will have available an estimated **$1,056,386** in CDBG funds and **$1,393,962** in HOME funds in the fiscal year beginning July 1, 2013. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). A total of 19 CDBG and 12 HOME programs are recommended for funding. Allocations are consistent with the proposed Strategic Housing & Community Plan for 2010-2015.

The proposed allocations are estimates, based upon a 10% reduction from last year's entitlement grants due to Sequestration. A final allocation has not yet been released by HUD. Both the HCD Committee and HOME Consortium agreed that if the allocation is no more than 10% different than the estimates, pro-rata adjustments would be made without additional deliberations. If either the CDBG or HOME program allocation to Asheville was greater or less than 10%, the respective recommending bodies would reconvene to make allocation adjustments. Information provided by HUD to date suggests that the HOME allocation will fall within the 10% estimate; but that the CDBG funds may be more than 10% greater than estimated. The HCD Committee is prepared to hold a special meeting if needed.

The CDBG cuts were buffered slightly by the receipt of Program Income, and by the decision to reallocate funds from prior year projects which for various reasons either did not occur or needed less than the originally allocated amount. The estimated CDBG total fund available this year is $157,500 less than last year.

The total estimated HOME funds available this year are $354,823 more than last year. This is primarily because one of the funded projects last year did not come to fruition, and those funds were available this year for reallocation.

Both the Consortium and HCD Committee have recommended that the City retain some program funds for project delivery cost- $26,136 of HOME funds and $15,000 in CDBG funds. This, combined with reserved prior year HOME funds, will enable the Community Development Division to maintain its staffing this year.

If the funded projects receive the funding from other sources necessary to make them possible, HOME funds and CDBG funds will assist in creating or improving 198 housing units and helping an additional 125 households afford housing Consortium-wide. CDBG funds will also benefit almost 2,700 low-income City residents through homeless services, financial counseling, small business assistance, and other needed services. Our CDBG partner agencies leverage $4.00 of other funding for every $1.00 of CDBG funding. Our HOME partners will raise over $20.00 for every $1.00 of HOME funds invested in their projects.

After the public hearing, any comments received will be incorporated into the Plan, as will comments submitted in writing. The plan is due to be submitted to HUD by May 15.

This Annual Action Plan directly supports Council's Strategic Goals of: (1) Affordable: This plan directly supports the City's affordable housing plan, uses innovative public-private partnerships to incentivize affordable housing development, and supports initiatives to end chronic homelessness emphasizing the Housing First model; (2) Green and Sustainable: works with regional partners creating green buildings and energy conservation; (3) Safe: Supports employment and education alternatives for youth from low-wealth neighborhoods; an (4) Job Growth and Community Development: Supports diversified job growth and small business development; promotes sustainable high-density infill growth; and attracts and retains quality employees.

Pros:

- Approval of the Action Plan paves the way for the receipts of over $2,450,000 of HUD funding to the City and region, which will be used to create affordable housing, create jobs, and improve public infrastructure.
- HUD funding will leverage $25,000,000 of additional funding for these projects.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2013-14 to the U. S. Dept. of Housing and Urban Development.

Mayor Bellamy opened the public hearing at 6:16 p.m. and when no one spoke, she closed the public hearing at 6:16 p.m.

Councilman Davis, Chairman of the Housing & Community Development Committee, spoke in support of the recommendations.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-84. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35– PAGE 266**

**B. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR PALISADES OF ASHEVILLE, LOCATED AT MILLS GAP ROAD, FOR THE CONSTRUCTION OF A 224 UNIT APARTMENT COMPLEX**

**ORDINANCE NO. 4179 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR PALISADES OF ASHEVILLE, LOCATED AT MILLS GAP ROAD, FOR THE CONSTRUCTION OF A 224 UNIT APARTMENT COMPLEX**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

Mayor Bellamy disclosed that she was a Council member during several configurations of the property. City Attorney Oast said that that was not a disqualifying issue.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 6:18 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that this is the consideration of the issuance of a conditional use permit Palisades of Asheville, located on Mills Gap Road, for the construction of a 224 unit apartment complex.

She said that the applicant is requesting review of site plans for the construction of a 224-unit multi-family apartment complex. This project is considered a Level III review pursuant to Section 7-5-9(a) of the UDO which designates review for residential projects with more than 50 units. Level III projects are reviewed as Conditional Use Permits in the Commercial Industrial District.

The site consists of a 14-acre parcel located on Mills Gap Road, between Hendersonville and Sweeten Creek Roads in South Asheville. The parcel is zoned Commercial Industrial (CI) and is currently vacant. The site is bordered by the Norfolk-Southern Railroad to the east; Community Business II (CBII) and CI-zoned parcels to the west (Earth Fare and retail shopping); Gerber Road and CBII / CI zoning to the north (Gerber Village) and Highway Business zoning to the south (retail uses).

The proposal is to develop a multi-family apartment complex with a total of 224 units. Plans propose a mix of 1-bedroom (72 units), 2-bedroom (108 units) and 3-bedroom (44 units) configurations. There are 10 residential buildings on the site, with a maximum building height of 36 feet. Nine of the ten residential buildings are three-stories and one is two levels. Additional structures proposed include a single-story clubhouse building located at the entrance to the development and three 1-story garages within the site.

Vehicles will access the site from two driveway cuts, both off of Mills Gap Road, on either side of the clubhouse. There is also an interior connection through the western boundary of the site with a deeded easement, into the adjacent commercial development. The applicant is adding a deceleration lane into the site from Mills Gap Road, heading west (right turn in).

As proposed, 26 foot wide two-way private drives circle and bisect the development and include parking on both sides. There are a total of 408 parking spaces (not including spaces within the covered garages). This parking count includes 13 HC-accessible spaces dispersed throughout the site and a small 20 space parking area on pervious pavers. Also, 22 bike parking spaces are distributed among the buildings.

A six-foot sidewalk is provided along the frontage of the property (Mills Gap Road) as well as pedestrian pathways (five feet wide) into and throughout the site.

Landscaping is required for this project and includes street trees, parking lot landscaping, building impact landscaping and tree save area. The applicant is proposing to preserve existing vegetation around the north and eastern perimeters of the site and to apply those as credits for some of the required landscaping.

Fifteen percent of the total lot area is required to be dedicated as open space, which would be 2.1 acres for this site. More than the minimum is provided, with 3.6 acres shown on the plans.

This proposal was approved with conditions by the Technical Review Committee on March 18, 2013. The primary concern discussed pertains to providing an additional emergency

access point, other than the entrances from Mill Gap Road. The existing interior access to the Earth Fare shopping center would suffice if an easement was dedicated. An alternative option would be an easement at the existing driveway (not shown to continue on site plans) through the adjacent property to Gerber Road. The applicant has provided information that an easement exists at that drive connection to the Earth Fare shopping center. Community concern has been expressed about the increased traffic on Mills Gap Road.

The Planning & Zoning Commission discussed this proposal at their meeting on April 3, 2013, and recommended approval (5-0). Several members expressed a desire for the project to align more directly with City goals on incorporating dedicated affordable units.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   This site has been previously graded through its past use and has rubble from demolitions of past buildings as well as fill dirt in areas across the acreage. The subject property is mostly flat with areas of existing vegetation and grades climbing 15-30 feet at the north and northeast edges. The proposed development of the land is compatible with these features in that the buildings and parking areas are focused in the center of the site and those steeper areas around the perimeter incorporate and retain landscaping materials.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
   The proposed use and development of the land is not expected to injure the value of abutting property. The residential use should complement the commercial activity along Hendersonville Road, which is within a walkable distance and will be an amenity to the residents with many shops and restaurants.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
   While there are numerous residential developments existing in the general proximity (west of Hendersonville Road and east of Sweeten Creek Road), the immediate area surrounding this site is primarily commercial. However, as mentioned in the "Recent Zoning Actions" section of this report, there is a similarly-sized residential project approved for development across Gerber Road to the north. The multi-building, multi-family site design is appropriate for this type of location off of a high-volume corridor.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
Elements of the project align with the City's goals and objectives including siting development in an infill location, proposing a density that supports transit and offering rentals as a "workforce" rate.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The site is located in an area supported by transit (S3) and accessible by vehicle. Adequate water supply, police protection, waste disposal and similar facilities are verified during the TRC review process. Associated infrastructure improvements will enhance multi-modal access, emergency protection, waste disposal and water supply.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
Based on the results of a Traffic Impact Study, performed by Mattern and Craig Engineering, this project should not cause an undue burden on the surrounding transportation infrastructure. The project includes a deceleration lane which was recommended by the TIS.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:
- Proposes a density that supports transit (S3 line runs down Hendersonville Road) and is walkable to the bus line (within a tenth of a mile).
- Project location is walkable to commercial retail uses that will be supported by the residents
- Existing vegetation around the perimeter of the site will be preserved.
- Project incorporates pervious pavers into one of the parking areas.

Con:
- Applicant does not propose to dedicate any units for affordable housing.

Staff recommends approval of the project as shown on submitted site plans as it appears to comply with the City's goals and objectives, subject to the Technical Review Committee conditions.

Mr. William Ratchford, owner, briefly spoke in support of the conditional use permit in that the site is perfect for walkability.

Mr. Tom Jones, engineer for the project, showed the existing conditions of the property (Applicant Exhibit 1). He then talked about the master plan of the project (Applicant Exhibit 2), along with showing the landscaping and planned clubhouse (Applicant Exhibit 3) and elevations of a similar project of the owners in Hendersonville (Applicant Exhibit 4). He explained some of the green building techniques, noting that they will keep the existing vegetation where possible, and may even incorporate some of the construction debris into the project. He noted they are not seeking any variances or alternative compliances and urged Council to support this nice project.

In response to Councilman Smith, Mr. Ratchford said that their price point for a one-bedroom is $720, for a two-bedroom $900, and for a three-bedroom $1,000.

After rebuttal, Mayor Bellamy closed the public hearing at 6:29 p.m.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4179, granting a conditional use permit for Palisades of Asheville, located on Mills Gap Road, for a 224 unit apartment complex, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 194**

**C. PUBLIC HEARING TO CONSIDER THE REZONING OF 10 OLD SHOALS ROAD FROM HIGHWAY BUSINESS DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT**

**ORDINANCE NO. 4180 - ORDINANCE TO REZONE 10 OLD SHOALS ROAD FROM HIGHWAY BUSINESS DISTRICT TO COMMERCIAL INDUSTRIAL DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone 10 Old Shoals Road from Highway Business District to Commercial Industrial District. This public hearing was advertised on April 12 and 19, 2013.

He said the subject area for this rezoning petition is about one-sixth of the entire parcel as shown in the Buncombe County Land Records. The portion of the parcel which is proposed for rezoning has dissimilar zoning from the rest of the parcel; in fact the parcel has three separate zoning designations. The zoning district boundaries correspond to tract boundaries shown in recent plats, but recent recombinations of property have assembled what were separate tracts under one PIN, partly zoned RM-16, partly zoned CI, and partly zoned HB. By rezoning the HB portion to CI, the proposed rezoning would (at least partly) be addressing the less than ideal split-zoning situation.

The subject area, roughly quadrilateral in shape, has four zoning districts on its four sides: RM-16(CZ), HB, CI, and Industrial. The proposed rezoning would make the property consistent with the zoning to the north rather than that to the south.

This area was initially zoned by the City in 2009. At that time, the applicant requested HB zoning to allow for a projected retail development on the site. As was acknowledged in the recent conditional zoning to the south (also noted above), the applicant has since decided not to pursue such a development, and instead to add manufactured home sites there and seek new tenants for the building at 10 Old Shoals Road. Had it not been for this request in 2009, the subject area might well have been initially zoned CI.

The HB and CI districts are both considered high impact zoning districts, but there are a handful of uses permitted in CI which would not be permitted in HB which are of interest to the applicant. The likely candidates at this location are light industrial uses, industrial uses, warehousing and storage, and possibly a recycling operation. The applicant has stated: "This is a purely industrial building. It has no heat nor air except in the office/restroom area and really could not be retrofitted for any other purpose. There is also very limited parking."

The most obvious concern with a CI zoning designation would be incompatibility with the residential area to the south, especially since the location of the building leaves limited space available for a landscape buffer. Both the Planning and Zoning Commission and City Council, however, supported the recent conditional zoning of the residential area, knowing there was a high-impact zoning area to the east (under the same ownership), and allowed reduced setbacks and no additional buffering as part of the approval.

Further, the vast majority of the Wellington Estates Park perimeter is already adjacent to CI zoning, so the proposed zoning designation would not be creating an exceptional conflict. In addition, if the facility is occupied by a higher-impact use than the current storage/warehousing use, such as manufacturing, assembly, or processing, such a change would trigger compliance with landscaping standards, including buffers – though alternative compliance would likely be sought, owing to the narrow area between the building's south side and the property line.

At their March 6, 2013, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the request.

As of this writing, staff has received no communications from the public regarding the petition in question.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- Is suitable for the subject area and consistent with other adjacent and nearby zoning.
- Would resolve a split-zoning situation.

Con:

- Space available for buffer from adjacent residential area is less than required in UDO.

Staff recommends approval, noting that the difference between the existing zoning district and the proposed district is relatively minor, especially given that the most dissimilar nearby use is already largely surrounded by the proposed district. Additionally, the rezoning would add possible uses for the site, which, if introduced onto it, would require bringing currently non-compliant aspects of the development into compliance.

Mayor Bellamy opened the public hearing at 6:34 p.m. and when no one spoke, she closed the public hearing at 6:34 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4180 to rezone 10 Old Shoals Road from Highway Business District to Commercial Industrial District. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 199**

**D. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE**

**ORDINANCE NO. 4181 - ORDINANCE TO AMEND THE CONDITIONAL ZONING TO THE APPROVED CONDITIONAL ZONING MASTER PLAN FOR HUNT HILL APARTMENTS, LOCATED AT 56 HUNT HILL PLACE TO ELIMINATE THE CARROLL AVENUE ENTRANCE**

Urban Planner Julia Fields said that this is the consideration of an ordinance to amend the approved conditional zoning master site plan for Hunt Hill Apartments, located at 56 Hunt Hill Place, to eliminate the Carroll Avenue entrance. This public hearing was advertised on April 12 and 19, 2013.

She said that this is the consideration of an ordinance amending a previously approved plan for apartments located off of Hunt Hill Place and Ardmion Drive, which said amendment reflects a change in access to the development with the elimination of one access point off of Carroll Avenue.

On June 12, 2012, the Asheville City Council approved an amendment to a previously approved (Hunt Hill Place – 2008) conditional zoning petition (to Residential Multi-Family High Density District/Conditional Zoning) for a 180 unit multi-family development. As approved, the development proposed three access points onto the site: Hunt Hill Place; Ardmion Drive and Carroll Avenue. The previously approved (2008) development only provided access off of Hunt Hill Place and Ardmion Drive.

At the time of Council approval the Carroll Avenue access was unconfirmed due to negotiations underway. Since that time, this access point (thorough a church parking lot) is no longer an option. Plans have been revised to indicate the removal of this access to the site. The revised plans also show a reconfiguration of the buildings in the area where the access point was deleted.

In granting approval for this development in June of 2012, the Asheville City Council placed a condition on the approval that read as follows:

> Carroll Avenue access must be completed as shown on the site plan. If that Access cannot be provided, a new traffic impact analysis is conducted and brought back for review by Asheville City Council, prior to proceeding with construction.

An amended traffic impact analysis has been received, reviewed and accepted. This request is for approval of the site plan without the additional access point (Carroll Avenue) and with the reconfiguration to the buildings on the site.

Pros:

- The development that this amendment applies to addresses a number of City of Asheville goals including: pursuing higher density infill, green building, and the provision of affordable housing.
- The amended proposal for the development has been reviewed for traffic impact and safety.
- The amended proposal provides for the same access to the development as was approved in 2008 for the same site and number of units.

Con:

- Three access points would have allowed traffic to and from the site to be spread out a bit more.

Based on the analysis provided in the report, staff finds this request to be reasonable and recommends approval and recommends Council either approve or deny the amendment

requested for Hunt Hill Apartments and move to amend the conditional zoning ordinance for this project in accordance with the amendment presented.

Mayor Bellamy opened the public hearing at 6:36 p.m.

Mr. Chip Kassinger, developer, spoke in support of the project stating that they met with Progress Energy and they are going to do a new program for energy efficiency for apartments. They will also work with Progress Energy on a program for energy efficiency in the common areas.

Mayor Bellamy closed the public hearing at 6:38 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4181, to amend the approved conditional zoning master site plan for Hunt Hill Apartments, located at 56 Hunt Hill Place, to eliminate the Carroll Avenue entrance. This motion was seconded by Councilman Smith and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 202**

**E. PUBLIC HEARING TO CONSIDER THE ISSUANCE OF A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MARKET, LOCATED AT 4 SOUTH TUNNEL ROAD TO REDEVELOP AN EXISTING RETAIL CENTER AND CONSTRUCTION OF A NEW BUILDING, AND A MODIFICATION REQUEST TO LANDSCAPE REQUIREMENTS**

**ORDINANCE NO. 4182 - ORDINANCE GRANTING A CONDITIONAL USE PERMIT FOR THE ASHEVILLE MARKET, LOCATED AT 4 SOUTH TUNNEL ROAD**

City Clerk Burleson administered the oath to anyone who anticipated speaking on this matter.

City Attorney Oast reviewed with Council the conditional use district zoning process. This process is the issuance of a conditional use permit, which is a quasi-judicial site specific act. At this public hearing, all the testimony needs to be sworn.

All Council members disclosed that they have visited the site and would consider this issue with an open mind on all the matters before them without pre-judgment and that they will make their decision based solely on what is before Council at the hearing.

City Attorney Oast said that as documentary evidence is submitted, he would be noting the entry of that evidence into the record.

City Attorney Oast said that the Authorized Practice Committee of the North Carolina State Bar has issued an advisory opinion that appearing in a representative capacity for a party before a local governmental body in a quasi-judicial proceeding is the practice of law, especially with respect to such aspects of the hearing as examining or cross-examining witnesses, or advocating for legal conclusions or results. This does not prevent persons, including land use professionals, from presenting information or expressing opinions within their knowledge or area of expertise.

After hearing no questions about the procedure, Mayor Bellamy opened the public hearing at 6:39 p.m.

Urban Planner Jessica Bernstein submitted into the record City Exhibit 1 (Affidavit of Publication), City Exhibit 2 (Certification of Mailing of Notice to Property Owners); and City Exhibit 3 (Staff Report).

Ms. Bernstein said that the applicant is requesting approval of site plans for the redevelopment of an existing retail center that will include new construction and partial demolition. This project is considered a Level III review pursuant to Section 7-5-9(a) of the UDO which designates review for commercial uses of over 100,000 square feet. Level III projects are reviewed as Conditional Use Permits in the Regional Business District.

The site consists of a 13.13 acre parcel located at 4 South Tunnel Road (13.33 total project area – 0.20 acres on an adjacent leased parcel). The area is zoned Regional Business and is currently the location of a strip shopping center with various tenants, formerly anchored by Kmart (recently closed). The site is bordered by Interstate 240 to the east, similar strip retail centers to the north and south and the Asheville Mall is across Tunnel Road to the west.

The proposal is to redevelop an existing retail center with new construction, renovation and full parking lot and site compliance. Approximately 91,600 square feet of existing building will be demolished with approximately 80,104 square feet rebuilt for a proposed total of 136,566 square feet *(142,500 SF maximum)*.

Overall, plans indicate 121,566 square feet designated for retail with 15,000 square feet dedicated to a restaurant use (also subject to change depending on final tenant mix). There are nine retail spaces designated on the plans (four new, five existing); however several of the larger spaces are flexible and could be broken down into smaller retail spaces as tenants and individual space needs are identified. All but one of the spaces are within the existing footprint(s) with only Building H proposed as new and standing separately, towards the street.

The structures are shown on plans as single-story, but conversations with the applicant indicate that there is interest in negotiation for an enhanced design with the anchor tenant that could include the possibility of a two-story portion being incorporated, depending on the final mix of uses and subtenants. Additionally, the size and layout shown for Building H could be slightly modified depending on the final use as well.

The existing Tunnel Vision building will be demolished but the business will be relocated within the site. The only other tenant identified at this time is a Whole Foods market.

New construction and the renovated structures will include aesthetic elements such as (but not limited to) brick masonry (both painted and unpainted), wood-lined façades, steel lintels and wood soffits creating open storefronts, covered canopies and other details to break up the façades and create visual interest. The Whole Foods will include an outdoor patio with seating and a fireplace.

The site is currently accessed in two locations from South Tunnel Road and these driveway cuts will remain. Each access point includes three travel lanes; one ingress into the site and two egress lanes with one right-turn only lane and a lane for both straight and left turning. The northernmost driveway will be re-oriented from its current interior layout.

The existing parking field will be reorganized and regraded to create more user-friendly slopes. There are a total of 576 spaces, including 20 handicapped-accessible spaces dispersed throughout the site. There are 30 bike parking spaces. Additionally, plans show two designated charging stations for electric cars.

Sidewalks are to be provided along the entire frontage of the property as well as pedestrian pathways into the site along each driveway and a pedestrian connection from Building H to the street. There is a transit shelter shown at the northernmost driveway.

Landscaping is required for this project and includes street trees, street buffer, parking lot landscaping, building impact landscaping and screening of dumpsters. *See below for landscaping modification request.*

Open space is not required for this proposal because the redevelopment does not result in additional square footage.

The application is requesting the following standards to be modified, based on the challenges of the site and upgrading an existing development:

1. *Landscape Island Width* – The applicant is requesting to reduce the average width of the landscape islands, creating some irregularly-shaped islands due to the challenges of working within an existing development. Some islands will be greater than the required minimum with while some are slightly below. In three locations, the narrowest width is 7 feet.
2. *Building Impact and Parking Lot Landscaping* – Because of the existing nature of this development, the applicant is requesting to include less than the required number of plantings that would be needed for a new development. This proposal shows significantly more than the required number of shrubs but fewer trees. The lot will be significantly shaded and landscaped.

This proposal was approved with conditions by the Technical Review Committee on February 4, 2013. The project received unanimous support (4-0) by the Planning & Zoning Commission at their meeting on March 6, 2013. There was discussion regarding the proposed development eliminating access from this site to the AT&T store but it was the ultimate decision of the Commission that since the owners of that site had not renewed their deeded cross-access (which had been in place from 1977 until it expired in 2008), the developers of the Asheville Market were not required to keep that access open.

Staff has been contacted by the owner of the AT&T store immediately adjacent to the south. Currently, there is shared internal access between the subject property and the AT&T parcel and the owner would like for that to be maintained. The applicant has eliminated that connection due to topographic challenges with reorganizing the parking fields. During the Level I review for the AT&T site in 2011, no shared access or parking agreements were required or maintained due to the fact that the AT&T site complies on its own parcel with respect to parking and maneuvering and also has its own driveway directly onto South Tunnel Road.

City Council must take formal action as set forth in Section 7-5-5(e)(3) of the Unified Development Ordinance (UDO), and must find that all seven standards for approval of conditional uses are met based on the evidence and testimony received at the public hearing or otherwise appearing in the record of this case pursuant to Section 7-16-2(c). Staff's review indicates that all seven standards are met as proposed in the site plan.

**1. That the proposed use or development of the land will not materially endanger the public health or safety.**

The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
The site is an existing retail shopping center and will not change significantly in terms of layout. The new development is in-line with the past building footprint so there is not a major change to the site in terms of grading or earth moving. There are a few small retaining walls needed due to the existing topography of the site, otherwise, the proposed use and development remains compatible with the site.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The overall proposal includes multiple upgrades and amenities that should improve the value of the area and should not injure the value of adjoining or abutting properties. Aesthetic improvements to existing structures that are aligned with the new development will create a visually cohesive retail center and the improvements to the parking field, including landscaping, will enhance the overall site.

Concern has been raised regarding the elimination of the cross-access with the AT&T property as a result of the proposed improvement as possibly being injurious to the adjacent property; however, the cross-easement expired in 2008 prior to the development of AT&T property which occurred in 2011 and the site can stand on its own regarding access to Tunnel Road. A real estate appraisal or other information demonstrating a loss in value has not been submitted.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
Because this is an existing retail shopping center and since the new development and renovation is for the same or similar uses, the proposed use remains in harmony with the surrounding Tunnel Road retail corridor. The aesthetic upgrades to both building and site will enhance the character of the area and may encourage design or compliance improvements to other commercial developments in the area.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
Elements of the overall project are directly aligned with the City's goals and objectives including multi-modal transportation elements (sidewalks, bike racks, electric vehicle charging stations, transit shelter) and commercial investment in a location with existing infrastructure.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
The site is located in an area supported by transit (E1 & E2) and easily accessible by vehicle. Adequate water supply, fire and police protection, waste disposal and similar facilities are verified during the TRC review process. Associated infrastructure improvements will enhance multi-modal access, emergency protection, waste disposal and water supply.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**
Existing infrastructure is adequate to handle traffic generated by this change of use. The project will create a reduction of 11,500 square feet of retail space. A traffic impact study is not required because the result of the project will be a net decrease in generated

traffic. The proposed project is not expected to cause undue traffic congestion or create a traffic hazard.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The proposal revitalizes an existing commercial retail center with aesthetic improvements, creating a visually cohesive and updated appearance.
- Significant landscaping will be added to the large parking field, which is currently void of most vegetation.
- Sidewalks will be provided along the frontage and a transit shelter will be included.

Cons:

- Due to the challenges of working within an existing development, plans do not comply with parking lot landscaping and a modification is needed.
- Concern has been expressed regarding the elimination of a interior connection to an adjacent parcel.

Staff recommends approval of the Level III Conditional Use Permit for the Asheville Market and supports the request to modify landscaping standards based on the challenges inherent in working with a previously developed site.

In response to Vice-Mayor Manheimer, Ms. Bernstein said that at the top of the property (near the AT&T store) there will be a bus shelter and it will have a pedestrian pathway into the site. At this time they are not showing bike lanes into the project.

Mr. Lyle Darnall, representing Edens, the owner and developer, said that Edens owns 120 shopping centers (mostly grocery anchored) along the east coast and they build and develop to hold. He said they try to make sure they have some unique design elements in their developments, trying to stay focused on a unique tenant mix - they want to keep the community. They bought the shopping center back in 2004 and always thought it would be for redevelopment. They had a specific tenant (Whole Foods) in mind when the shopping center was purchased and they waited until K-Mart vacated the property. Using Applicant Exhibit 1, he showed what the location looks like currently and what their plans will be. He noted there is no landscaping on site now and not much retail mix. Since this is a good location and they have a good tenant, their goal will be to create a non-Tunnel Roadish redevelopment on Tunnel Road. They will demolish the K-Mart building and relocate Tunnel Vision into their space. They will create a whole new parking field and build all new buildings on the right side of the property. The left side of the property will be re-done with new retail. Among other things, they will construct wider sidewalks, add landscaping, include an electrical charging station and an outdoor dining area. There will be a good mix of local and regional tenants. Edens will invest $17.5 Million in the redevelopment and there will be another $12 Million invested by retailers themselves. He thought there will be an additional sales tax revenue of $3.2 Billion and ad valorem taxes go up to $180,000. There will be significant improvements to the site and the surrounding properties will see an increase in their property value as well.

In response to Councilman Pelly, Mr. Darnall spoke about the importance of the internal sidewalks for increased pedestrian activity to other retailers in the development, and the retail mix noting that they are not looking for any chain restaurants.

When Councilman Pelly asked about the lack of access to the AT&T store, Mr. Darnall said that the Planning & Zoning Commission did ask that they open up a conversation with AT&T which they did. The way the driveway is situated is purposeful because Whole Foods is particular about their parking field. Mr. Todd Simmons, civil engineer for the project, also responded to this

issue. He said they had to create a usable parking field for Whole Foods. The driveway now is steep and they had to cut it down to flatten the grade to get a more usable parking field. That is what necessitated the need to bring the driveway move over. The secondary benefit of moving the drive is that it will now align more with the driveway into the Asheville Mall across the street. The new drive created a 5-foot grade separation between existing AT&T store and the new driveway location. They looked at trying to put a driveway connection in near the AT&T store, but kept coming back to the same conclusion - they don't believe it is a safe maneuver due to the close proximity to the intersection of Tunnel Road and the very steep grade. In addition, he felt that the N.C. Dept. of Transportation would probably have a concern as well due to the limited cue to Tunnel Road. They also looked at a right turn out, but again due to the steep slope and limited cue to Tunnel Road, they felt that was unsafe as well. From an engineering standpoint, the grade differential is too much to overcome.

Mr. Lavoy Spooner, representing AT&T, felt this will be an excellent redevelopment of the property. However, their concern is that the AT&T store is an established business and their primary access is the cross-connection from the existing driveway. If that cross-connection is cut off, it will leave them only with the secondary access to the north of their building. That secondary access certainly will be a safety hazard for those people wishing to turn left out of the lot. That is a major safety concern. They are not concerned with the loss of parking, but losing the cross-access from the now K-Mart shopping center lot.

Mr. Jack Summers, owner of the AT&T building, agreed that their concern is the loss of access. They asked that that access be maintained. They had a deeded access from 1977 to 2008. They asked for continued deeded access, but were denied that access by the developer. He contacted the N.C. Dept. of Transportation and they encouraged connectivity. The regional Dept. of Transportation felt it is feasible to actually maintain that access, even if the developer had to drop down slightly as far as the slope. Their concern is the southbound access. Another concern is that Mr. Jeremy Goldstein (Vice-Chairman of the Planning & Zoning Commission) is also legal counsel for the developer. Even though he was recused from participating due to a conflict of interest, "we all know that it's a small community with a lot of friendships." Because of that, there could be a conflict of interest according to the American Bar Association. He requested the developer keep the access open, whether it be a right-turn out only or whatever it needs to be.

Mr. Tikkun Gottschalk, attorney representing the developer, said that he examined the title to the AT&T property and offered that examination with the deeds (Applicant Exhibit 2). There was an easement granted for the predecessor in title to the AT&T property which has expired. It expired in 2008 and was not renewed. There is no legal right for the AT&T property owner to insist on access over this property. In fact, a key question is if this project is approved will it substantially injure a neighboring property owner. The AT&T owner has suggested that this will injure his property; however, traditionally an actual appraisal would have been done showing that injury to the value of the property which Council has not been shown. Council has heard that this project could very well increase the value of that property.

City Traffic Engineer Jeff Moore provided Council with a portion of the N.C. Dept. of Transportation Policy on Street and Driveway Access to North Carolina Highways (City Exhibit 4). Cross-connectivity of developers is definitely desired anytime it's possible. To say that the maneuver to leave the secondary access of AT&T going south on Tunnel Road is dangerous, he could not say that. He would say it is busy at times. If it is determined to be dangerous, then that should be visited and determined if that access should be allowed to stay open if it's dangerous.

Using a drawing showing the new drive (City Exhibit 5), Mr. Moore responded to Councilman Bothwell regarding the pedestrian phase of the sidewalks and crosswalks at the northern and southern access points on Tunnel Road from the property.

When Councilman Hunt asked if it was typical for a local government, through a zoning action, to impose the requirement for cross-connectivity, City Attorney Oast said it is difficult when you are dealing with owners of separate properties. The AT&T building was approved as a Level I stand-alone project and the access was nice to have, but it was not required. If the applicant has presented evidence that all seven conditions of the conditional use permit standards have been met, that the application cannot be denied. It is the opinion of our Traffic Engineer that the proposed project is not expected to cause undue traffic congestion or create a traffic hazard. The cross access can be encouraged, but in this case, he was not sure that requiring it would be appropriate.

Mayor Bellamy recalled the project on Hendersonville Road and the concerns of residents from Crowfields not having a safe left turn. She felt it is nearly impossible to make the left turn out of the secondary access of the AT&T lot. She did not feel that condition no. 1 has been met from a public safety standpoint if the current access is cut off. As wonderful as the project is, it will be hard for her to approve the project by cutting off access of a neighbor who has had access for years. If there is a motion to approve the project, she asked that a condition be placed on it to provide a new access on the new driveway for AT&T.

Councilman Bothwell suggested people park in the new Whole Foods lot near the new retail and walk across the new drive to the AT&T store.

Vice-Mayor Manheimer felt there were similar situations of people having to make left hand turns on Merrimon Avenue. She was concerned about forcing two property owners to would out access issues.

After listening to Director of Transportation Ken Putnam about the access on the new drive being close to Tunnel Road, Councilman Hunt felt it was fair to say that there may be some increased safety concerns relating to traffic coming out of the AT&T access if the access were provided, but there would also be safety concerns going into the AT&T store if the access were provided.

In response to Mayor Bellamy, Mr. Putnam explained that the developer would have to re-design the new driveway to accommodate an access to the AT&T store.

Councilman Smith felt that a grocery store in that area is something that was missing and appreciated the work of the developer. He had sympathy for the representatives at the AT&T building, but he didn't think the no access from the new driveway rises to a safety issue that should stop the permit.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4182, granting a conditional use permit for the Asheville Market, located at 4 S. Tunnel Road, and approval of the modification request to the landscape requirements, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to issuance of any required permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10 of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with this ordinance, will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; and (5) The building design, construction materials and orientation on site must comply with the conceptual site plan and building elevations presented with this application. Any deviation from these plans may result in reconsideration of the project by the reviewing boards. This motion was seconded by Councilman Hunt.

Mayor Bellamy asked for a delay until the next Council meeting in order for the property owners to address the access issue. She does not want to stop the permit process, but felt that this important project and it should not hamper the existing business of AT&T.

Councilman Smith was not in favor of a delay since it would be perceived as an on-going perception that it's hard to build in Asheville. Vice-Mayor Manheimer was not in favor of a delay either.

Mr. Robert Deutsch, attorney representing Edens, said that after the Planning & Zoning meeting the parties had a meeting in the hall and Edens submitted all the elevations of their required area to the AT&T owner so that he could have his engineers submit a proposed solution to them. They have not received anything. He called the AT&T representative two times this week to see if they had any information and did not get a return call. The reason why this property works is because of Whole Foods and they lay down their requirements of what they have to have. The driveway must be moved to meet Whole Foods' requirements.

Mr. Summers said they are concerned about the southbound traffic from their secondary access. He asked Council take into account the expense of accidents and injury of those folks who have accidents at that intersection. As far as working with the developer, they did meet after the Planning & Zoning Commission and he signed a letter of authorization for their engineers and surveyors to go onto the AT&T property and find a solution that would be workable. They have not heard anything or received any response.

After rebuttal, Mayor Bellamy closed the public hearing at 7:41 p.m.

Councilman Davis moved to call the question. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

In response to Councilman Bothwell, Mr. Putnam said that there could be a no-left turn going out of the AT&T secondary access, or the N.C. Dept. of Transportation could make the drive-way right-in and right-out. The courts have held for years that no property is guaranteed full access. They are guaranteed access but it can be limited in nature. Those are two avenues for the N.C. Dept. of Transportation to pursue.

Councilman Pelly agreed with Councilman Hunt that there are safety concerns with a new access onto the new driveway. Ultimately, the AT&T property owners were aware that the deeded access had expired and because of the overall benefit of the redevelopment, he would support the conditional use permit.

Mayor Bellamy felt that this is a great project and she wished the Council would have asked the developer to work with the property owner to find a solution so that the redevelopment would not injure the existing AT&T property. She would support the conditional use permit, but asked for a six-month update on reported accidents at the intersection of S. Tunnel Road and the access point to the AT&T store. After hearing that update, she would want to see what we can do to mitigate this issue. She hoped that the two property owners will continue to discuss this so something positive can come out of this.

The motion made by Councilman Smith and seconded by Councilman Hunt carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 205**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler (1) advocated not only for keeping Saturday transit service, but to increase the transit budget which has been flat for five years; (2) voiced opposition for an employee of the gas company being appointed to the Sustainable Advisory Committee on Energy & the Environment; and (3) request that the public comment portion of Council meetings be held at the beginning of the meetings.

Mr. Michael Palmer spoke about community being the common theme of people in Asheville.

Mayor Bellamy presented into the record a petition she received to continue bus route #51 to Biltmore.

Councilman Smith said that when Council passed the amended Fees and Charges in March, there was inadvertently an increase in the fees for the farmers' markets which goes against the spirit of the Food Action Plan. He moved to revisit on the May 14 agenda the fees & charges specifically for farmers' markets. This motion was seconded by Councilman Bothwell and carried unanimously.

**Closed Session**

At 7:54 p.m., Councilman Pelly moved to go into closed session to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including potential litigation. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:36 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Councilman Hunt and carried unanimously.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 8:36 p.m.

Magdalen Bowlesor
CITY CLERK

MAYOR

Tuesday – May 7, 2013- 5:00 p.m.
Council Chamber - 2nd Floor, City Hall

Special Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

Mayor Bellamy opened the special meeting at 5:00 p.m. She said that the purpose of this special meeting will be to consider authorizing legal action regarding NC House Bill 488, and other matters relating to the City's water system and the effects of House Bill 488. At the meeting, it is anticipated that Council will into closed session, for the purpose of consulting with an attorney employed by the City about matters with respect to which the attorney–client privilege between the City and its attorney must be preserved, including potential litigation. The statutory authorization for the closed session is contained in N.C.G.S. 143-318.11(a)(3).

At 5:01 p.m., Councilman Pelly moved to go into closed session, for the purpose of consulting with an attorney employed by the City about matters with respect to which the attorney–client privilege between the City and its attorney must be preserved, including potential litigation to challenge House Bill 488. The statutory authorization for the closed session is contained in N.C.G.S. 143-318.11(a)(3). This motion was seconded by Councilman Smith and carried unanimously.

At 5:19 p.m., Councilman Bothwell moved to come out of closed session and return to the special meeting. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION NO. 13-88 - RESOLUTION AUTHORIZING LEGAL ACTION TO CHALLENGE HOUSE BILL 488, RATIFIED MAY 2, 2013, SHOULD IT BECOME LAW**

City Attorney Oast said that the imminent effectiveness of House Bill has the potential to affect the health, sanitation and safety of the City of Asheville, and the users of the water system, and has the potential to affect the City's financial soundness. He presented Council with a resolution which directs the City Attorney to take appropriate legal action to: (a) challenge the validity of House Bill 488, should it become law, (b) have said law declared invalid, (c) obtain appropriate injunctive or other relief to prevent said law from becoming effective, (d) seek compensation for the forced transfer of the water system and (e) such other or further relief as necessary or appropriate; and to employ such attorneys or other persons as may be needed to assist in said legal action.

Councilman Hunt moved for the adoption of Resolution No. 13-88. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 270**

Mayor Bellamy said City Council has made the decision to sue the State of North Carolina in order for us to keep our water assets. She did not believe we should have to sue the State over our water system because we are effectively running our system. Over the last seven years, we have invested almost $17 Million into the system, made tough decisions about rate increases, established replacement lines, and have been transparent of the Capital Improvement Program. This is not the time to stop moving. We will continue to move forward to aggressively meet the needs of our citizens in the city limits and those who are outside the city limits.

At 5:24 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
City Clerk

Mayor

Tuesday – May 14, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson/Deputy City Manager Jeffrey B. Richardson; Assistant City Attorney Martha McGlohon; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Vice-Mayor Manheimer gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING MAY 19-25, 2013, AS "NATIONAL PUBLIC WORKS WEEK"**

Mayor Bellamy read the proclamation proclaiming May 19-25, 2013, as "National Public Works Week" in the City of Asheville. She presented the proclamation to various individuals from the different divisions in the Public Works Department.

**B. PROCLAMATION PROCLAIMING MAY 19, 2013, AS "JOYRIDE FOR LIVESTRONG DAY"**

Mayor Bellamy read the proclamation proclaiming May 19, 2013, as "JOYride for Livestrong Day" in the City of Asheville. She presented the proclamation to Ms. Laurie Masterson, who briefed City Council on some activities taking place during the day.

**II. CONSENT AGENDA:**

At the request of Vice-Mayor Manheimer Consent Agenda Item "P" was removed from the Consent Agenda due to a conflict of interest.

**A. APPROVAL OF THE MINUTES OF THE COMMUNITY BUDGET MEETING HELD ON APRIL 18, 2013, THE REGULAR MEETING HELD ON APRIL 23, 2013; AND THE SPECIAL MEETING HELD ON MAY 7, 2013**

**B. RESOLUTION NO. 13-89 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY REAL PROPERTY ON (1) SHORT STREET TO WILLIAM OMARK AND CHERYL HARRIS; (2) S. BEAUMONT STREET TO JEFFREY BLACK; AND (3) ON HANSEL AVENUE TO TRACY BRITT PLEMMONS**

Summary: The consideration of a resolution declaring the high bidders for the sealed bid sale and authorizing the conveyance of three parcels of City owned property, known as the Short Street lot, S. Beaumont Lot, and Hansel Avenue lot.

The City of Asheville owns three properties that are currently designated as surplus, residential, vacant lots – the Short Street lot (0.12 acres, PIN 9649-11-8703-00000), S. Beaumont lot (0.204 acre, PIN 9648-69-7439-00000) and Hansel Avenue lot (0.69 acres, – PINs 9638-49-6279-00000 and 9638-49-6460-00000).. On March 26, 2013, Council authorized staff to proceed in marketing the properties for sale under the sealed bid process. In the 30 day period that followed, the properties were posted for sale, listed on the local Multiple Listing Service (MLS), and advertised online. Staff received several inquiries for each parcel.

On May 3, 2013, the bid opening was held and the results are as follows:

(1) Short Street – Of the three bids received, the highest bidder was William Omark and Cheryl Harris at $75,747.
(2) S. Beaumont Street – Of the four bids received, the highest bidder was Jeffrey Black at $41,000.
(3) Hansel Avenue – One bid was received, therefore the highest bidder was Tracy Britt Plemmons at $22,000. (Hansel Avenue was the only property to receive a sole bid. This is likely due to the fact that a sewer line constraints most of the buildable area of the property.)

For each property, the highest bid is consistent with the estimated fair market value. At this time, staff is recommending that Council authorize the sale of each property to the highest bidder as listed above.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through disposition of real property at market value.

Pros:

- The sale will be at fair market value as established by the sealed bid process.
- It will return property not needed for public use to the tax rolls.
- It will transfer responsibility for maintenance to the private sector.

Con:

- There is no negative impact.

The proceeds from the sale of the S. Beaumont and Short Street parcels will benefit the Community Development Block Grant fund. The sale of the Hansel Avenue parcel will benefit the General Fund and will be designated for future economic and community development projects.

Economic Development staff recommends adoption of the resolution authorizing the conveyance of three parcels of City owned property, known as (1) Short Street lot, (2) S. Beaumont Lot, and (3) Hansel Avenue lot.

**RESOLUTION BOOK NO. 35 - PAGE 272**

**C. RESOLUTION NO. 13-90 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH BUCHANAN AND SONS INC. FOR THE SPRING 2013 WATER SYSTEM NEIGHBORHOOD ENHANCEMENT PROJECTS**

**ORDINANCE NO. 4183 - BUDGET AMENDMENT FOR THE 2013 WATER SYSTEM NEIGHBORHOOD ENHANCEMENT PROJECTS**

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction agreement with Buchanan and Sons, Inc. for the bid amount of $770,712.50 plus a

contingency amount of $115,606.50 for a total project amount of $886,319.00 for the Spring 2013 Water System Neighborhood Enhancement Projects; and a budget amendment in the amount of $728,819.00 from savings in other capital projects that were completed under budget and from combining three capital projects into one.

This project will consist of three separate job sites: (1) Chatham Road which is approximately 1380 LF of 6-inch ductile iron pipe; (2) Courtland Avenue which is approximately 1900 LF of 6-inch ductile iron pipe and approximately 200 LF of 8-inch ductile iron pipe; and (3) Long Street / Woodvale Avenue which will consist of the installation of approximately 1980 LF of 6-inch ductile iron pipe with related appurtenances and materials required in order to complete the work. The Water Resources Department (WRD) issued an Advertisement For Bids for the construction project. In response to the Advertisement For Bids, the WRD received five (5) proposals. Companies responding were:

1. Buchanan and Sons, Inc – Whittier, NC
2. Buckeye Construction Company, Inc. –Canton, NC
3. Carolina Specialties Construction, LLC – Hendersonville, NC
4. Huntley Construction Company, Inc. – Asheville, NC
5. T&K Utilities, Inc.– Asheville, NC

A review team comprised of City Staff reviewed these bids and selected Buchanan and Sons, Inc., as the lowest responsible bidder at a bid of $770,712.50. A contingency amount of $115,606.50 has been added for a total project amount of $886,319.00.

This project is part of City Council's strategic plans to improve city infrastructure and provide local (WNC) companies with labor opportunities.

Pros:

- This project will replace existing waterlines with a durable and sustainable water system for the associated neighborhoods. The existing waterlines are undersized for adequate fire protection and due to age, have a high failure rate causing costly repairs for the City and Water Resources Department and frequent outages for the customers.
- This project is aligned with the City and Water Resources Department goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.
- Approval of the construction contract to the lowest responsible bidder will invest City funds in the local regional economy.

Con:

- Failure to award a construction contract would prevent the completion of these important waterline system improvements.

The Water Resources Department currently has $352,500.00 budgeted for the overall project, but these funds are currently split into three separate projects and need to be combined into one. The remaining funds of $533,819.00 needed for the contract will be transferred from other Water Resources capital projects that are completed and under budget. In order to use the funds from the other project budgets, a budget amendment is necessary.

| | |
|---|---|
| Amount in Chatham Road WL Project | $125,000.00 |
| Amount in Long Street WL Project | $ 70,000.00 |
| Amount in Courtland Avenue WL Project (to be renamed Spring 2013 NEP) | $157,500.00 |
| Amount in Completed Projects (Capital Reserves) | $533,819.00 |
| Total Amount Needed for Project, including Contingency | $886,319.00 |

The amount remaining in Water Capital Reserves will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the City Manager to enter into a construction agreement with Buchanan and Sons, Inc. for the bid amount of $770,712.50 plus a contingency amount of $115,606.50 for a total project amount of $886,319.00 for the Spring 2013 Water System Neighborhood Enhancement Projects; and a budget amendment in the amount of $728,819.00 from savings in other capital projects that were completed under budget and from combining three capital projects into one.

**RESOLUTION BOOK NO. 35 - PAGE 273**
**ORDINANCE BOOK NO. 28 - PAGE 210**

**D. ORDINANCE NO. 4184 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL SO THAT STREET CUT FEES CAN BE USED TO RECOVER THE FULL COST OF THE SERVICES PROVIDED**

Summary: The consideration of an ordinance amending the Fees and Charges Manual such that the Street Cut Permit fees can be used to recover the full cost of services provided.

The City of Asheville requires utility companies and contractors when placing or repairing utilities, to obtain a permit prior to cutting into any of its streets, sidewalks, alleys, squares or other public right-of-ways. Each application for a cut permit shall be accompanied by the required permit fee as set forth in the City's fees and charges manual. If the cut work extends beyond ten working days, a penalty shall be assessed in addition to the regular permit fee. In addition, any person who cuts into a public right-of-way without first obtaining the cut permit required shall be charged a penalty.

Demand for street cut permits is expected to increase during fiscal year 2013-2014, due to an increase in planned permitted work to be performed by the Metropolitan Sewerage District of Buncombe County. The increase in demand will require the use of additional resources including an additional full time construction inspector. The operational costs involved in issuing this permit include administration of the permit application and on site inspection of the repaired cut. The on site inspection typically takes 30 minutes, but is dependent on the size of the cut.

Staff has evaluated the costs involved with delivering the services associated with this fee, and recommends a fee increase to allow for full cost recovery.

This action complies with the City Council Strategic Operating Plan goal of Fiscal Responsibility by operating the City of Asheville to the highest levels of fiscal responsibility. This action also promotes Job Growth & Community Development by creating a more collaborative and effective working partnership between the City of Asheville and the Metropolitan Sewerage District of Buncombe County.

Pros:

- The Street Cut enterprise fund will be able to fully recover costs involved with the service
- Strengthens the City's partnership with MSD by working collaboratively to develop a plan for service which meets both organizations needs
- Supports diversified job growth and business development by the creation of a new position

Con:

- Increased expense for local contractors and utilities.

An increase in revenue would occur for the Street Cut enterprise fund. This additional revenue will allow for additional resources to better serve the customers of the program. The additional revenue generated will also help to ensure that the enterprise fund is not subsidized by the general fund.

City staff recommends City Council adopt an ordinance to amend the Fees and Charges Manual.

**ORDINANCE BOOK NO. 28 - PAGE 212**

**E. RESOLUTION NO. 13-91 - RESOLUTION AUTHORIZING CITY STAFF TO SUBMIT A GRANT APPLICATION TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION TO PREPARE A COMPREHENSIVE MULTIMODAL TRANSPORTATION PLAN FOR THE CITY OF ASHEVILLE**

Summary: The consideration of a resolution authorizing staff to submit a grant application to the French Broad River Metropolitan Planning Organization, requesting $200,000 in federal funds to prepare a comprehensive multi-modal transportation plan for the City of Asheville.

City staff proposes the development of a comprehensive multi-modal transportation plan in the next fiscal year. Over the years the City of Asheville has developed transportation plans for individual modes of transportation. The City currently has an adopted pedestrian plan, bicycle plan, greenways plan, transit master plan, and a complete streets policy. Now the city has a need to integrate these plans into a comprehensive multi-modal transportation plan that will include these modes of transportation, plus consider automobile and freight traffic.

The French Broad River Metropolitan Planning Organization has released a call for applications for transportation planning studies, and will award grant amounts up to $200,000. The required minimum match is 20%. Staff anticipates that the total cost of the multi-modal transportation plan will be $250,000. Therefore the city is requesting $200,000 in MPO funds. The city match is projected to be $50,000. Staff will include funding for the City match in the FY 2013-14 Proposed Budget.

This plan will draw from existing transportation plans, but will also involve gathering new information through data collection and public involvement. The resulting plan will identify key destinations throughout the city, and determine the best connections between these destinations, identify specific corridor improvements, and prioritize these corridors. The planning process will develop a hierarchy of projects with estimated costs that covers all modes of transportation. This will allow the city to prioritize and implement multi-modal connections and complete streets.

This project supports the City of Asheville's Strategic Operating Plan under the goals of Multi-Modal Transportation, and Job Growth and Community Development. In addition the project supports the integration of numerous city plans including the greenways master plan, the transit master plan, the pedestrian plan, and the comprehensive bicycle plan.

Pros:

- City Council has identified Multi-Modal Transportation as a key strategic goal of the city.
- Existing planning documents will be integrated into one multi-modal plan.
- There is an opportunity to fund the planning project with 80% federal funds.

Con:

- The project requires a minimum of 20% matching funds.

The initial grant application does not have a direct fiscal impact. If awarded, the projected fiscal impact to the City of Asheville will be $50,000. As noted above, staff will include funding for the City match in the FY 2013-14 Proposed Budget. If the City does not receive the grant, the match will be held in contingency and not spent.

City staff recommends City Council adopt a resolution authorizing staff to submit a grant application to the French Broad River Metropolitan Planning Organization, requesting $200,000 in federal funds to prepare a comprehensive multi-modal transportation plan for the City of Asheville.

**RESOLUTION BOOK NO. 35 - PAGE 275**

**F. RESOLUTION NO. 13-92 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT JOY RIDE ON MAY 19, 2013**

**RESOLUTION NO. 13-93 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL ON MAY 24, 25 AND 26, 2013**

**RESOLUTION NO. 13-94 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT RIVERFEST ON AUGUST 10, 2013**

**RESOLUTION NO. 13-95 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE AVLCX EVENT ON SEPTEMBER 21, 2013**

**RESOLUTION NO. 13-96 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BLUE RIDGE PRIDE ON OCTOBER 5, 2013**

**RESOLUTION NO. 13-108 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE VENTURE ASHEVILLE EVENT ON MAY 20, 2013**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Joy Ride on May 19, 2013; Mountain Sports Festival on May 24, 25 and 26, 2013; Riverfest on August 10, 2013; AVLCX on September 21, 2013; Blue Ridge Pride on October 5, 2013; and Venture Asheville on May 20, 2013.

Review:

- YMCA of Western North Carolina has requested through the City of Asheville Development Services Department that City Council permit the sale of beer and/or unfortified wine at Joy Ride and allow for consumption at this event.

  Joy Ride will be held on Sunday, May 19, 2013, from 1:00 p.m. – 6:00 p.m. at Carrier Park.

- Mountain Sports Festival has requested through the City of Asheville Development Services Department that City Council permit the sale of beer and/or unfortified wine at Mountain Sports Festival and allow for consumption at this event.

  Mountain Sports Festival will be held on Friday, May 24 from 4:00 p.m. – 10:00 p.m., Saturday, May 25 from 10:00 a.m. – 10:00 p.m. and Sunday, May 26 from 12:00 p.m. –

6:00 p.m. within the boundaries of Carrier Park, as per the area limits referenced on a site map.

- Riverlink has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at Riverfest and allow for consumption at this event.

  Riverfest will be held on Saturday, August 10, 2013 from 1:00 p.m. – 7:00 p.m. within the boundaries of French Broad River Park, as per the area limits referenced on a site map.

- WNC Trips for Kids has requested through the City of Asheville Development Service Department that City Council permit them to serve beer and/or unfortified wine at AVLCX and allow for consumption at this event.

  AVLCX will be held on Saturday, September 21; 2013 from 3:00 p.m. to 8:00 p.m. within the boundaries of Carrier Park, as per the area limits referenced a site map.

- Blue Ridge Pride, Inc. has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Blue Ridge Pride and allow for consumption at this event.

  Blue Ridge Pride will be held on Saturday, October 5, 2013 from 12:00 p.m. to 6:00 p.m. within the boundaries Pack Square Park's Roger McGuire Green, Reuter Terrace, City-County Parking Lot, and Spruce Street between College Street and Court Plaza as per the area limits referenced on a site map.

- Venture Asheville has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Venture Asheville and allow for consumption at this event.

  Venture Asheville will be held on Monday, May 20, 2013 from 11:00 a.m. to 6:00 p.m. within the boundaries Pack Square Park's Raised Lawn, Vance Median and North Pack Square as per the area limits referenced on a site map.

These actions have no direct connection with the City of Asheville Strategic Operating Plan.

Pro:

- Allows fundraising opportunities for YMCA of Western North Carolina, Mountain Sports Festival, Riverlink, WNC Trips for Kids, and Blue Ridge Pride, Inc.

Con:

- Potential for public safety issues

City staff recommends City Council adopt resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at Joy Ride, Mountain Sports Festival, Riverfest, AVLCX, Blue Ridge Pride and Venture Asheville.

**RESOLUTION NO. 13-92 - RESOLUTION BOOK NO. 35 - PAGE 276**
**RESOLUTION NO. 13-93 - RESOLUTION BOOK NO. 35 - PAGE 279**
**RESOLUTION NO. 13-94 - RESOLUTION BOOK NO. 35 - PAGE 282**
**RESOLUTION NO. 13-95 - RESOLUTION BOOK NO. 35 - PAGE 285**
**RESOLUTION NO. 13-96 - RESOLUTION BOOK NO. 35 - PAGE 288**
**RESOLUTION NO. 13-108 - RESOLUTION BOOK NO. 35 - PAGE 305**

**G. RESOLUTION NO. 13-97 - RESOLUTION OF INTENT TO CLOSE AN UNOPENED RIGHT-OF-WAY BETWEEN TARPON AND CRAGGY AVENUES AND SETTING A PUBLIC HEARING ON JUNE 11, 2013**

Summary: The consideration of a resolution of intent to permanently close an unopened right-of-way between Tarpon and Craggy Avenues and to set the public hearing on June 11, 2013.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owners, Bob and Caryn Hanna, Jody Guokas, Isaac Savage, Jim and Nancy Herrig, James and Martha Roberson, and Michael Kohnle and Deidre Duffy have requested the City of Asheville to permanently close the unopened right-of-way between Tarpon and Craggy Avenues

The Greenway Commission met on May 9, 2013. They voted to approve the right-of-way closure.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use. The Strategic Plan Goals most closely aligned with this closure request is the Job Growth and Community Development Goal in that it will provide infill growth to make efficient use of existing resources.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close several portions of unopened rights of way and City streets within the Montford Commons area and to set the public hearing for June 11, 2013.

**RESOLUTION BOOK NO. 35 - PAGE 291**

**H. RESOLUTION NO. 13-98 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH TROTT COMMUNICATIONS GROUP FOR SERVICES SURROUNDING THE CITY OF ASHEVILLE'S PLANNED PUBLIC SAFETY RADIO SYSTEM UPDATE**

**ORDINANCE NO. 4185 - BUDGET AMENDMENT FOR THE CITY'S PUBLIC SAFETY RADIO SYSTEM UPDATE**

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a contract with Trott Communications Group for services surrounding the City of Asheville's planned public safety radio system update; and (2) a project budget amendment for the cost of the contract in the amount of $142,600 from debt proceeds.

The City of Asheville's Motorola radio system will soon be reaching the end of its lifecycle. This means that parts will be difficult to obtain, and that system failure could create unacceptable communication gaps for public safety.

Because of the importance and expense of this key public safety radio infrastructure update project, Trott will be assisting the City of Asheville's IT Services, Police Department, and Fire Department with the following services:

- Extending the lifecycle of the current Motorola radio system as much as possible
- Refining vendor budgetary estimates so that staff and City Council can better understand budgetary impact of system replacement
- Building a competitive RFP for the system update that will seek best value for maximum public safety service
- Assisting with vendor negotiations based on deep experience with radio vendor negotiations with other municipalities with significant buyer power
- Analysis of regional radio partnership efforts, assistance in creating a practical game plan which could save budget dollars in the short- and long-term, as well as boost interoperability between agencies

Although it is easy to look at technology as an optional expense, it is important to remember that radio communications are essential to not only providing public safety services to our community, but also allowing first responders to transmit emergency communications when they are in imminent danger and need resources quickly, sometimes in a period of seconds, where traditional telephone communications would introduce dangerous delay. During times where the systems are impaired, public safety agencies would be impaired in response. For example, AFD may be able to provide defensive operations only, meaning command staff could not commit firefighters or police officers into hostile situations. One chief has recently said that on a scale of 1-10, during a system outage, agency readiness drops from a 10 to a 3.

To choose the appropriate service firm, the City of Asheville ran an exhaustive selection process, which involved the Chief's designees from Asheville Fire Department and Asheville Police Department, as well as representatives from our key public safety partner, Buncombe County. Firms were evaluated in their responsiveness to an RFQ on criteria including adherence to RFQ specifications; prior service experience with projects of similar scale, technology type, and complexity; demonstrated understanding of FCC and other regulatory requirements; professional qualification of individuals assigned to the project; and history of effective budget and schedule. After an initial screening, shortlist candidates were further evaluated through interview, reference checks, and relevant follow up.

This action complies with City Council's strategic plan, as it seeks to improve the public's safety through maintaining a sustainable emergency responder communications system ("Safe" priority), while doing so in a strategic, competitive manner ("Affordable" and "Fiscal Responsibility" priorities).

Pros:

- Ability to move forward on a key project with an experienced service provider
- Service provider has excellent public safety references, which document a proven ability to handle specialized tasks such as planning in-building coverage, mountainous terrain coverage, and working to obtain 800 and 700 Mhz licensing from the FCC
- Service provider has worked with many similar projects in a recent time frame, giving them a unique perspective on market pricing of radio systems
- Moving forward on a planned expert assessment, competitive RFP, and implementation is a more fiscally sound and responsible methodology of updating the system, versus sole-source upgrade of a system and radio coverage maps that were specified well over 15 years ago.

Cons:

- Expense of services

- Staff time utilized during assessment process

Staff is requesting that City Council adopt a budget amendment in the amount of $142,600 to establish a project budget for the contract. The funding for the contract with Trott Communications Group will come from savings in prior year projects that were funded with debt proceeds. The total anticipated cost for the public safety radio system update is expected to be approximately $6.0 million. The full budget for the update will be included in the City's FY 2013-14 Proposed Capital Improvement Program that is scheduled to be presented to City Council on May 28. The City plans to borrow $6.0 million in FY 2013-14 to fund the radio system update. Debt service payments would begin in FY 2014-15, with first year payments estimated to be approximately $765,000.

City staff recommends that City Council adopt: 1) a resolution authorizing the City Manager to sign a contract with Trott Communications Group in an amount not to exceed $142,600, and 2) a project budget amendment for the cost of the contract in the amount of $142,600 from debt proceeds.

**RESOLUTION BOOK NO. 35 - PAGE 292**
**ORDINANCE BOOK NO. 28 - PAGE 214**

**I. ORDINANCE NO. 4186 - ORDINANCE AMENDING THE CIVIL PENALTIES IN APPENDIX B OF THE CODE OF ORDINANCES FOR HANDICAPPED PARKING VIOLATIONS, FIRE LANE PARKING VIOLATIONS AND CLASS D FIRE CODE VIOLATIONS**

Summary: The consideration of an ordinance amending the civil penalties in Appendix B of the Code of Ordinances for handicapped parking violations from $100 to $250, fire lane parking violations from $35 to $50, and Class D fire code violations (obstructing fire apparatus roads and fire hydrants) from $35 to $50.

North Carolina General Statute # 20-37.6 authorizes municipalities in North Carolina to enforce the state statute pertaining to handicapped parking in the same manner as other parking offenses are enforced within the municipality. Parking violations within the City of Asheville are enforced by the assessment of civil penalties. Under NCGS # 20-37.6, a violation of the statute is an infraction which carries a penalty of at least $100 but not more than $250.

The City of Asheville issues about 850 handicapped parking citations during a typical year which equates to $85,000. Most of the handicapped parking citations are issued for infractions in parking areas for commercial businesses (for example, Ingles, Wal-Mart, Asheville Mall, etc.) by a group of volunteers who are trained by the city for this specific purpose. Staff believes the subject action would help decrease the number of infractions at handicapped parking spaces.

Prior to February 1996, the City of Asheville had three fee amounts for fire lane parking violations. The Parking Services Division issued fire lane parking violations in the amount of $10, the Asheville Police Department issued fire lane parking violations in the amount of $25, and the Asheville Fire Department issued fire lane parking violations in the amount of $35. Ordinance # 2264, which was approved on February 27, 1996, amended Appendix B of the City Code of Ordinances to make **all** fire lane parking violations consistent in the amount of $35.

The City of Asheville issues about 200 +/- fire lane parking violations during a typical year and staff believes the subject action would emphasize the seriousness of the offense and hopefully decrease the number of violations.

Appendix B includes civil penalties for Class D fire code violations that are currently set at $35. Class D fire code violations include obstructing fire apparatus roads and fire hydrants. Staff

believes that by raising the penalty to $50 it would emphasize the seriousness of the offense and hopefully decrease the number of violations.

This action complies with the City Council Strategic Operating Plan in the safe focus area by encouraging citizens to comply with existing policies and ordinances.

This item has been reviewed by the Council's Public Safety Committee and it received the Committee's endorsement on April 22, 2013 (Class D fire code violations including obstructing fire apparatus roads and fire hydrants were not specifically discussed at the meeting).

Pros:

- Encourages citizens to comply with existing policies and ordinances.
- Decreases the number of offenders (citations).
- Aids in improving response times (fire code violations).
- Aids in keeping handicapped parking spaces available for the citizens that need them.

Con:

- Increases financial liability to offenders.

There would be no negative fiscal impact to the Parking Enterprise Fund or the General Fund with the subject action. Staff believes and is hopeful that the subject action will decrease the number of citations written and as a result, it would probably be revenue neutral.

Staff recommends that City Council approve an ordinance amending the civil penalties in Appendix B of the Code of Ordinances for handicapped parking violations from $100 to $250, fire lane parking violations from $35 to $50, and Class D fire code violations (obstructing fire apparatus roads and fire hydrants) from $35 to $50.

**ORDINANCE BOOK NO. 28 - PAGE 216**

**J. RESOLUTION NO. 13-99 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ARMEN CONSTRUCTION LLC FOR THE PROJECT KNOWN AS VANCE CRESCENT STREET - OLNEY ROAD SIDEWALK IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a contract in the amount of $159,647 plus a contingency of 20% ($32,000) with Armen Construction, LLC. for the project known as Vance Crescent Street – Olney Road Sidewalk Improvements, City of Asheville Project # ENG-11-12-010.

The sidewalks on Vance Crescent St. and Olney Rd. are in such poor condition that they are a liability to the City of Asheville. Trip hazards of an extreme nature proliferate the project site due to invasive tree roots. City staff has held numerous meetings with homeowners in the neighborhood to determine what the best, most agreeable solution would be to correct the problems while limiting any tree removal. Part of the solution was to move a portion of the walk into the edge of the street and make the street One-Way. The Fire, Sanitation and Transportation Departments have approved of the change. The project was advertised and on March 27, 2013, bids were opened with Armen Construction, LLC of Charlotte, NC, being the lowest responsible bidder with a bid of $159,647. This was in line with the Engineer's Estimate of $161,782. A 20% contingency ($32,000) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from contract would help protect the City from claims arising from falls due to the poor condition of the sidewalks and make for safer passage for pedestrians in the neighborhood.

This action complies with the City Council Strategic Operating Plan in that it will continue construction and maintenance of pedestrian and bicycle infrastructure.

Pros:

- Will repair approximately 1,800 linear feet of sidewalk within the Asheville City limits.
- Improves pedestrian safety.
- Encourages walking, thereby reducing carbon emissions.
- Reduces the City's liability in regards to claims from trips and falls.

Cons:

- The project will cost the City approximately $159,647.
- Project management and contract administration will consume staff time.

This project will cost approximately $159,647. The budget of $192,000 for this project is already included in the City's adopted FY 2012-13 sidewalk maintenance budget.

City staff recommends City Council adopt a resolution awarding the contract to Armen Construction, LL. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $159,647 plus a contingency of 20% ($32,000) with Armen Construction, LLC for the project known as Vance Crescent Street –Olney Road Sidewalk Improvements, City of Asheville Project # ENG-11-12-010.

**RESOLUTION BOOK NO. 35 - PAGE 293**

**K. RESOLUTION NO. 13-100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MULTI-YEAR AGREEMENT AND ISSUE PURCHASE ORDERS FOR THE EQUIPMENT LEASE, INSTALLATION, MAINTENANCE, AND PRODUCT PURCHASE OF LIQUID OXYGEN FROM AIR PRODUCTS & CHEMICAL FOR USE AT THE MILLS RIVER WATER TREATMENT PLANT**

Summary: The consideration of a resolution by City Council authorizing the City to enter into a multi-year agreement and issue Purchase Orders for a period of five years with three possible one year contract extensions, contingent upon funding, for the equipment lease, installation, maintenance, and product purchase of Liquid Oxygen from Air Products & Chemical for use at the Mills River Water Treatment Plant.

The water treatment plant process at the Mills River Water Treatment Plant is more complex than at the North Fork and William DeBruhl facilities; it includes ozone treatment for disinfection. Liquid Oxygen is needed in order to produce ozone needed for the treatment process at the Mills River facility. For many years, the City has contracted with Praxair, Inc., for the liquid oxygen product and lease of the equipment. Although the product and service from Praxair have been acceptable, the contract originated with the Regional Water Authority. To comply with the City's current contracting policies and remain competitive, staff solicited bids.

City Council previously authorized the City to enter into a five (5) year contract with up to three (3) one (1) year extensions due to the expense and complexity of the equipment. The City is requesting that those same conditions apply to the new contract. The new contract will include the product, equipment lease, installation, and maintenance.

The Water Resources Department issued a Request for Proposals (RFP) for Liquid Oxygen Procurement. In response to that RFP, the department received three (3) proposals. Companies responding and their associated five year costs were:

1. Praxair, Inc. – Danbury, Connecticut; $313,224.00
2. Air Liquide – Countryside, Illinois; $464,200.00
3. Air Products & Chemicals – Allentown, Pennsylvania; $284,250.00

A review team, comprised of staff from the City of Asheville Water Resources and Purchasing Departments reviewed these proposals and selected Air Products & Chemicals as the lowest responsive, responsible vendor. The agreement with Air Products & Chemicals will automatically renew for three (3) successive one (1) year terms unless either party gives a 12-month notice to terminate.

This project is part of City Council's strategic plan to maintain city infrastructure and to operate the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- This project will continue to supply Liquid Oxygen to the Mills River Water Treatment Plant for the production and distribution of water to customers served by the plant.
- The agreement for the supply of Liquid Oxygen will be brought up-to-date with the City's current contracting policies.

Con:

- While the old equipment is being removed and the new equipment installed, Mills River will use an alternate form of treating the water without using ozonization.

The estimated cost is $56,850.00 annually or $284,250.00 for the 5-year initial term. These costs are currently budgeted for in the Water Resources Department / Water Production Division Chemical Operations Line Item. The department does not expect to realize any cost savings in the first year due to the cost of removing the old Liquid Oxygen tanks and equipment. Cost savings may be realized over the course of the 5-year initial term.

City staff recommends City Council authorize the City to enter into a multi-year agreement and issue Purchase Orders for a period of five years with three possible one year contract extensions, contingent upon funding, for the equipment lease, installation, maintenance, and product purchase of Liquid Oxygen from Air Products & Chemical for use at the Mills River Water Treatment Plant.

**RESOLUTION BOOK NO. 35 - PAGE 294**

**L. RESOLUTION NO. 13-101 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES AGREEMENT WITH HAZEN AND SAWYER FOR THE FAIRVIEW SERVICE AREA WATER SYSTEM IMPROVEMENTS PHASE I PROJECT**

Summary: The consideration of a resolution by City Council authorizing the City Manager to enter into a professional services agreement with Hazen and Sawyer for the proposed amount of $95,700.00 plus a 10% contingency amount of $9,570.00 for a total project amount of $105,270.00 for the Fairview Service Area Water System Improvements Phase I.

The southeastern portion of the City of Asheville's water system, referenced as the Fairview service area, is currently serviced with a high capacity pumping station and two major ground storage reservoirs. The South Buncombe Reservoir (5 MG) supplies suction to the South Buncombe booster pumping station, which discharges into the Concord Road reservoir (1 MG) creating the Concord Tank pressure zone. The Concord Tank reservoir pressure is reduced through a pressure reducing valve to create the Mine Hole Gap pressure zone. Formerly, the Mine Hole Gap pressure zone was supplied by its own pumping station and reservoir. There are also several small pressure zones served by localized pump stations and ground storage tanks within these two major pressure zones.

Over time, increased growth and changes to the water system have made it more difficult to meet water capacity demands in this service area. It is the City of Asheville's desire to improve capacity and delivery methods for the service area. Also, lower areas within these pressure zones, particularly along the Cane Creek Road corridor, experience operating pressures far in excess of what is required or desirable. Investigating options for pressure reduction strategies in the Fairview Service area will be another component of this study.

The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the project. In response to that RFQ, the department received ten (10) proposals. Companies responding were:

4. Hazen and Sawyer – Charlotte, NC
5. Brown and Caldwell – Charlotte, NC
6. Vaughn & Melton – Asheville, NC
7. W.K. Dickson – Charlotte, NC
8. Lamm Engineering Associates, PLLC – Raleigh, NC
9. McGill Associates – Asheville, NC
10. Willis Engineers – Charlotte, NC
11. Brown Consultants, PA – Asheville, NC
12. Weston & Sampson – Charleston, SC
13. Richard Brady & Associates – Matthews, NC

A review team, comprised of staff from the City of Asheville Water Resources Department reviewed these proposals and selected the firm Hazen and Sawyer. Subsequent to this selection, Water Resources met with Hazen and Sawyer and negotiated an Engineering Services Contract in the amount of $95,700.00. A contingency amount of $9,570.00 has been added for a total project amount of $105,270.00.

This project is part of City Council's strategic plan to maintain city infrastructure and to operate the City of Asheville to the highest levels of fiscal responsibility.

Pros:

- This project will improve water capacity and delivery methods for the Fairview Service Area.
- This project will also lead to strategies to reduce extremely high water pressure in the service area.

Con:

- If this project is not implemented water delivery and service problems will continue in this area.

The Water Resources Department currently has allocated the funds needed for this professional services agreement in the Capital Projects Fund.

City staff recommends City Council approval of the City Manager to enter into a professional services agreement with Hazen and Sawyer for the proposed amount of $95,700.00 plus a 10% contingency amount of $9,570.00 for a total project amount of $105,270.00 for the Fairview Service Area Water System Improvements Phase I.

**RESOLUTION BOOK NO. 35 - PAGE 295**

**M. RESOLUTION NO. 13-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE CONSTRUCTION FO A LEFT TURN LANE AND THE INSTALLATION OF A NEW TRAFFIC SIGNAL ON NC**

**81 (SWANNANOA RIVER ROAD) AT THE INTERSECTION WITH AZALEA ROAD**

**ORDINANCE NO. 4187 - BUDGET AMENDMENT FOR THE CITY'S SHARE OF THE CONSTRUCTION AGREEMENT**

Summary: The consideration of (1) a resolution by City Council authorizing the city manager to enter into a construction agreement with the N.C. Dept. of Transportation (NCDOT) for the construction of a left turn lane and the installation of a new traffic signal on NC 81 (Swannanoa River Road) at the intersection with Azalea Road; and (2) a budget amendment in the amount of $75,000 from unspent capital reserve funds for the City's share of the cost of the construction agreement.

The City of Asheville is currently designing improvements along Azalea Road as part of the Lake Craig/Azalea Road Project. The project including roadway improvements, provides pedestrian connections, bike lanes, a much needed water line extension to the soccer complex, and removal of fill material within the flood plain.

The City of Asheville has held three public meeting concerning the Lake Craig/Azalea Road Project. At these public meetings, the City received concerns about the need for safety improvements at the intersection of NC 81 and Azalea Road. The City of Asheville approached the NCDOT and asked that they review the intersection to determine if this intersection meets warrants for a traffic signal. The NCDOT reviewed this intersection and found a traffic signal was warranted at this location.

The NCDOT will construct the left turn lane and install the traffic signal this construction season. The NCDOT will be responsible for the maintenance of both the traffic signal and the turn lane.

The project meets City Council Strategic Operating Plan by being fiscally responsible by seeking to partner with NCDOT. The total cost of this project is estimated to be $150,000, and the City will be responsible for 50% of the cost.

Pros:
- Provide safety improvements along NC 81 and Azalea Road
- Provides opportunity to partner with NCDOT for these safety improvements.

Con:
- Requires an appropriation from unspent capital reserve funds.

The existing project budget for the Lake Craig/Azalea Road project is approximately $4.2 million, with funding coming from a combination of Senate Bill 7 State Grant monies and Sullivan Act proceeds. The City's share of the cost for constructing the left turn lane and installing the new traffic signal on NC 81 are not part of the existing budget and cannot be funded with either Senate Bill 7 State Grant monies or Sullivan Act proceeds. Therefore, the construction agreement requires that the City amend the budget and appropriate $75,000 from unspent capital reserve funds. There is currently $205,000 in unexpended capital reserve funds. After this $75,000 appropriation, there will be a remaining balance of $130,000. Staff anticipates appropriating a portion of this remaining balance for the FY 2013-14 CIP.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a construction agreement on behalf of the City of Asheville with the N.C. Dept. of Transportation for a project estimated to cost $150,000, of which the total cash match from the City of Asheville will be half the construction cost estimated to be $75,000, and the City Manager is further authorized to execute any change orders to said agreement or documents which may arise during construction of said project up to the budgeted amount; and (2) a budget amendment

in the amount of $75,000 from unspent capital reserve funds for the City's share of the cost of the construction agreement.

**RESOLUTION BOOK NO. 35 - PAGE 296**
**ORDINANCE BOOK NO. 28 - PAGE 218**

**N. ORDINANCE NO. 4188 - BUDGET AMENDMENT TO PAY WORKERS' COMPENSATION CLAIMS EXPENSES THAT HAVE EXCEEDED THE APPROVED BUDGET AMOUNT**

Summary: The consideration of a budget amendment, in the amount of $500,000, from insurance program reserves to pay workers' compensation claims expenses that have exceeded the approved budget amount.

The City's Fiscal Year 2012-13 adopted budget for the workers' compensation fund totaled $1,157,774. The budget is established each year to pay premiums, administrative costs, and regular, routine claims. For Fiscal Year 2012-13, claim costs related to a catastrophic accident in the current fiscal year are projected to exceed the City's $550,000 self-insured retention limit and are greatly impacting the budgeted claims amount in the fund. As a result, staff is requesting a budget amendment in the amount of $500,000. Budget authorization for this increase will be allocated from reserves set aside in the City's self insured insurance program.

This action complies with the City Council Strategic Operating Plan goal of "Operate the City of Asheville to the highest levels of fiscal responsibility."

Pro:

- Provides budget authorization to fully fund expected workers' compensation claims expenses in the current fiscal year.

Con:

- Requires appropriation from insurance program reserves.

This budget amendment will not impact the General Fund or any of the other operating funds. The budget amendment provides authorization to appropriate $500,000 from insurance program reserves. The current reserve within the insurance program is adequate to cover FY 2012-13 program expenses. Staff is in the process of developing a reserve policy for both the workers' compensation and general liability funds, and will be bringing this policy to the City's Finance Committee and eventually City Council later this year.

City staff recommends City Council approve the budget amendment appropriating $500,000 from insurance program reserves to pay workers' compensation claims expenses that have exceeded the approved budget amount.

**ORDINANCE BOOK NO. 28 - PAGE 220**

**O. ORDINANCE NO. 4189 - BUDGET AMENDMENT FOR A PART-TIME TEMPORARY INTERN IN THE OFFICE OF SUSTAINABILITY**

Summary: The consideration of a budget amendment, in the amount of $ 1,800, from Warren Wilson College, to appropriate revenue and budget expenditure accounts associated with the payment for a part time temporary intern.

The City of Asheville and Warren Wilson College (WWC) formed a strategic partnership in June 2007 to collaborate in our efforts to reduce green house gas emissions. A valuable part of this partnership is to provide professional development opportunity to WWC students. Warren

Wilson College will provide the funds for payment to this intern upon approval of this budget amendment request.

The Sustainability Education Intern will support energy efficiency outreach efforts in the Office of Sustainability.

This action complies with the City Council Strategic Operating Plan in the following ways: (1) Seek efficiencies in master plan implementation by identifying plan interdependencies, funding sources and key partnerships; (2) Expand partnerships with institutions to achieve common goals; (3) Identify strategies and costs for increasing the city's annual energy reduction goal to 4%.

Pro:

- Internship supports the City Office of Sustainability efforts to reduce carbon footprint of city operations

Con:

- None identified.

The $1,800 for the intern's stipend will be funded through Warren Wilson College to be paid through the City of Asheville.

City staff recommends City Council adopt the budget amendment to appropriate revenue and budget expenditures associated with payment of the intern's stipend.

**ORDINANCE BOOK NO. 28 - PAGE 222**

**P. RESOLUTION AUTHORIZING THE EXECUTION OF A $1,150,000 INSTALLMENT FINANCING CONTRACT WITH TD BANK FOR THE PURCHASE OF VEHICLES AND COMPUTER EQUIPMENT**

This item was pulled from the Consent Agenda due to a conflict of interest by Vice-Mayor Manheimer.

**Q. RESOLUTION NO. 13-104 - RESOLUTION AUTHORIZING THE CITY OF ASHEVILLE WATER RESOURCES DEPARTMENT TO PARTNER WITH THE MILLS RIVER PARTNERSHIP TO IDENTIFY PROJECTS DIRECTLY RELATED TO WATER QUALITY PROTECTION OR IMPROVEMENT IN THE MILLS RIVER WATERSHED WITH THE UNDERSTANDING THAT ANY FUTURE ALLOCATIONS AND EXECUTED CONTRACT WOULD NEED CITY COUNCIL APPROVAL**

Summary: The City of Asheville Water Resources Department and the City of Hendersonville contracted with McGill Associates to review the 2002 Mills River Watershed Management Strategy document and provide an assessment based on changes in the status of the watershed and supporting information. The Mills River Partnership (MRP) has secured funding from the City of Hendersonville and outside sources to implement steps aimed at Mills River watershed protection. The City of Asheville has been asked to consider a level of financial support for the MRP activities.

The North Carolina Clean Water Management Trust Fund awarded a grant to the MRP in August 1999. In addition to several projects targeted to improve water quality in the Mills River watershed, the management strategy document ("The Mills River Watershed Management Strategy") was funded. In 2002, the MRP Planning Committee and the Land-of-Sky Regional Council released the study. This report covered a description of the watershed area and the activities in the watershed, the results of water quality assessments, and a compilation of management strategies.

The funding for projects within the watershed, and to some extent the MRP, declined after several years following the 2002 report. The MRP regrouped about three (3) years ago and began seeking funding to perform some of the tasks identified in the 2002 document. The Partnership approached the City of Asheville, the City of Hendersonville, and the Town of Mills River requesting funding for a variety of projects and administrative costs.

The City of Asheville and the City of Hendersonville decided to review the 2002 Mills River Watershed Management Strategy in light of changes in the watershed over the past 10 years. The intent of this review was to assess the conditions within the watershed, identify any agencies dealing with regulatory or financial support, review the available water quality data, and propose areas that the cities may want to consider for future participation.

Recently, the Partnership was awarded a grant (Section 319 Grant) that requires matching funds, which the Partnership is asking the aforementioned cities to provide. The Cities have an ongoing interest in watershed management. Water quality in the upper watershed continues to be excellent and overall water quality indices have improved during the past 10 years. The strategy review recommends that the focus remain on efforts to protect and improve water quality. While recognizing that the MRP is the leading non-regulatory body with interest in the condition of the watershed, strong relationships should be forged between non-regulatory and regulatory programs. Funding initiatives should be considered with an understanding of their long-term impact on water quality.

Water Resources is willing to provide cost-share funding for projects that are directly related to water quality protection or improvement. The suggested level of participation is an amount up to $60,000 per fiscal year (approximately $0.01 per CCF system-wide) for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds.

Participation in watershed management activities supports the City Council's Strategic Operating Plan by promoting partnerships to enhance water quality and efficient operations.

Pros:

- Opportunity to partner with the City of Hendersonville and the Mills River Partnership to strategically address areas of concern in the Mills River watershed.
- Funding from the City of Hendersonville and the City of Asheville could make some water quality projects feasible for farmers and local landowners.
- Funding from the City of Hendersonville and the City of Asheville could support public education efforts related to water quality protection.
- Projects in the watershed could improve source water and drinking water quality.

Cons:

- If the City does not participate in the funding of specific water quality projects, these projects may not occur.
- The City of Asheville Water Resources Department does not want to provide unrestricted funding to outside agencies.
- The City of Asheville Water Resources Department wants to retain control of how the funding is allocated to specific projects to maximize benefits to water quality.

Any future expenditure in the Mills River watershed would be subject to review by Water Resources staff and the City of Asheville. For the FY 2014 budget, Water Resources would request City Council to approve a budget amendment to transfer the participation funds needed from the Water Resources Capital Projects Budget to the Operating Budget; and further authorize the City Manager to execute a multi-year contract for the entire project in a not-to-exceed amount of $180,000 over three (3) fiscal years contingent upon funding each year. For the FY 2015 and

2016 budgets, Water Resources would budget the maximum allowable expense in the Water Operating Budget as part of the regular budgeting process.

Water Resources staff recommends City Council approval to partner with the Mills River Partnership (MRP) to identify projects directly related to water quality protection or improvement in the Mills River Watershed. The level of participation recommended is an amount up to $60,000 per fiscal year (approximately $0.01 per CCF system-wide) for a maximum of three fiscal years with the understanding that funding is project-specific and subject to the appropriation of funds. If Council approves moving forward with this project, Water Resources would seek Council approval for a budget amendment and execution of a general services contract after projects have been identified.

**RESOLUTION BOOK NO. 35 – PAGE 299**

**R. MOTION TO REQUEST THE BUNCOMBE COUNTY BOARD OF ELECTIONS TO ARRANGE FOUR ADDITIONAL EARLY VOTING SITES (ONE EACH IN NORTH, SOUTH, EAST AND WEST SECTIONS OF ASHEVILLE) THE ONE WEEK (INCLUDING SATURDAY) IMMEDIATELY PRECEDING THE 2013 CITY COUNCIL GENERAL ELECTIONS**

Summary: The Buncombe County Board of Elections has asked if the City of Asheville will be requesting additional early voting sites for the General election on November 5, 2013. There are 37 normal polling places for City Council elections - during the primary and general elections. The City must notify the Board of Elections 30-45 days prior to the election if they would like to have more remote sites, in order for them to submit a plan of implementation to the State Board of Elections for approval. The City can let the Board of Elections know what locations they would like to have a remote site but the Board of Elections will then have to find a suitable site in that area. Citizens always have the opportunity to vote 2.5 weeks early at the Woodfin Street office (in 2011, 2,354 voted early at the Woodfin Street office).

In 2009, 2,008 people voted in the four additional early voting locations.

In 2011, City Council approved four additional early voting sites (one each in north, south, east and west sections of Asheville, preferably at a library or community center) the one week (including Saturday) immediately preceding the City Council general election. The cost for those additional sites was $20,000. In 2011, 3,380 people voted in the four additional early voting locations.

The proposed budget that staff is currently working on for Fiscal Year 2013-14 includes funding for the fall election, including the four additional early voting sites.

If Council is in agreement, City Clerk Burleson will contact the Board of Elections to arrange for four additional early voting sites (one each in north, south, east and west sections of Asheville, preferably at a library or community center) the one week (including Saturday) immediately preceding the City Council general election early voting sites for the 2013 City Council election.

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

**ITEM REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTE**

**RESOLUTION NO. 13-103 - RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ASHEVILLE, NORTH CAROLINA, APPROVING AN INSTALLMENT FINANCING CONTRACT AND DELIVERY THEREOF AND PROVIDING FOR CERTAIN OTHER RELATED MATTERS**

Councilman Smith moved to recuse Vice-Mayor Manheimer from voting due to a conflict of interest. This motion was seconded by Councilman Bothwell and carried unanimously.

Summary: This is the consideration of a resolution authorizing execution of a $1,150,000 installment financing contract for Fiscal Year 2013 Vehicles and Computer Equipment.

The City of Asheville Fiscal Year 2013 Capital Improvement program (CIP) includes $1,150,000 previously appropriated by City Council to finance the acquisition of various vehicles and computer equipment.

The Finance Department posted a Request for Proposal ("RFP") on both the City's website and the State of NC Interactive Purchasing System to seek competitive bids for the financing. Six proposals were received, the best of which was submitted by TD Bank at an interest rate of 0.92% per annum for a term of 59 months.

The proposed resolution authorizes an installment financing contract between the City of Asheville and TD Bank for the purchase of the vehicles and computer equipment and authorizes the City Manager, City Attorney and Deputy Finance Director and City Clerk to execute and deliver any and all necessary documents. The contract will place a security interest in the vehicles and computer equipment in favor of the Bank in order the secure the City's obligation under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the vehicles and computer equipment which has already been procured.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.
- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases the currently available funds by allowing the restoration of fund balance.

Cons:

- Financing the purchase slightly increases the lifetime cost of the acquisition due to the payment of interest on the amount financed.

The annual debt service payment for this financing is approximately $280,000 per year. Funds will be included in the City's FY 2013-14 proposed debt service budget to cover this cost.

City staff recommends City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with TD Bank for the acquisition of the vehicles and computer equipment.

Councilman Bothwell moved for the adoption of Resolution No. 13- 103. This motion was seconded by Councilman Pelly and carried unanimously (Vice-Mayor Manheimer was recused from voting due to a conflict of interest).

**RESOLUTION BOOK NO. 35 – PAGE 297**

## III. PRESENTATIONS & REPORTS:

### A. SMOKY MOUNTAIN TOY RUN & EBLEN/ST. NICHOLAS PROJECT

Mr. Bill Murdock, representing the Eblen/St. Nicholas Project, said that two years ago they assisted 325 children and now through partnership like the City of Asheville, last Christmas they assisted almost 5,500 children. Mr. Steve Kaser and Charles Swanger, representing Smoky Mountain Toy Run, presented City Council with a 2012 Certificate of Appreciation for their support for the Smoky Mountain Toy Run. Mayor Bellamy was pleased to accept the certificate on behalf of the City of Asheville.

Mayor Bellamy then read a decree expressing City Council's deep sympathy on the passing of Joe Eblen, who is best known for his service to Eblen Charities.

### B. BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY UPDATE

Mr. Ron Morin, Chairman of the Buncombe County Tourism Development Authority, and Ms. Stephanie Pace Brown, Executive Director of the Asheville Convention & Visitors Bureau, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Mr. Morin and Ms. Brown for their leadership and the entire Authority for their dedication.

### C. TRANSIT COMMISSION UPDATE

Ms. Julie Mayfield, Chairman of the Transit Committee, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Ms. Mayfield for her leadership and the entire Commission for their dedication.

### D. LEGISLATIVE & WATER UPDATE

Deputy City Manager Jeff Richardson highlighted for Council the following legislative issues of interest: House Bill 488 - Transfer Control of the City of Asheville's Water System to a Regional Entity; House Bill 252 - Asheville Transfers; House Bill 418 - Park Authority; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation; House Bill 708 - Study Public Enterprise Systems/Use of Funds; House Bill 568 - Asheville Deannexation; Senate Bill 363 - Business Tax Reduction and Reform; Senate Bill 394 - Lower Tax Rates for a Stronger North Carolina Economy; House Bill 962 - Municipal Sales Tax; House Bill 664 - Cell Tower Deployment Act; Senate Bill 612 - Regulatory Reform Act of 2013; and House Bill 530 - Eliminate the ability of Asheville to enforce signage regulations for properties annexed after 2005.

In response to Mayor Bellamy regarding House Bill 488, Assistant City Attorney McGlohon said that City Attorney Oast and other attorneys retained by the City, filed a Temporary Restraining Order (TRO) in Wake County today, and it is her understanding that the TRO has been granted. A preliminary injunction is the next step within 10 days and then if that is granted, a trial will take place.

Vice-Mayor Manheimer said that the complaint makes several claims challenging the validity of the statute being unconstitutional on several grounds. That would probably be a decision made by a judge. If the City is unable to prevail on those claims, it may be able to prevail on the secondary claims, which are for compensation if the system is to be taken. The complaint asks that if the City prevails on the matter of compensation (jury question) that the case be transferred back to Buncombe County for that type of a trial.

## C. RESOLUTION NO. 13-107 - RESOLUTION SUPPORTING DOG PARK IN NORTH ASHEVILLE

Councilman Pelly said that the City has two dog parks - one in east Asheville and one in west Asheville. Both are well used facilities, but not as convenient for some. The residents of north Asheville have been working hard to create a dog park in their area of town. They would like to update Council on the status of their efforts and ask for a resolution formalizing the City's support of development of a dog park in north Asheville.

Dr. Julie Maccarin, representing the Friends for North Asheville Dog Park, talked about their efforts to establish an off-leash dog park in their community. They have met several times to talk about the design of the park; the fund-raising strategies and management; publicity; and finding an appropriate site for the park. Not only would a dog park on the north side of town be more accessible to those residents, it would have multiple other benefits. They will be responsible for raising the funds needed. An excellent prospect has been identified as the location for the park. The site is part of the former Thoms Estate on Beaverdam Road near Wild Cherry. The developer, Arc Development, has identified some unused acreage that is accessible and nearly ideal for these purposes. She then formally requested the City's endorsement of the project and to direct the City Manager to provide appropriate staff support by appointing a primary liaison to their group.

Mr. Kevin Reese, Director of Development and Construction with Arc Development of North Carolina, which is part of the ownership group at Thoms Estate, said they have approximately 8 acres on Beaverdam Road and Wild Cherry Road that they have plans for, but a dog park is something that can be incorporated into their plans. He has taken some preliminary plans back to Mr. Ronald Britten, owner of the property and Arc Development, who is very interested. There was a site meeting to look at the property and Mr. Britten gave his verbal consent.

Councilman Pelly said that staff has reviewed the proposed resolution to support a dog park in north Asheville and if adopted, they will secure the services of a design professional to conduct the feasibility and design process with the community and stakeholders.

He said the citizen group for the north Asheville dog park has identified a $5,000 donation to help support the cost of the design process. An additional $5,000 is needed to fund the process. Funds are available in the Parks, Recreation and Cultural Arts Department in the current year savings.

Once complete, staff will bring the dog park design to the Recreation Board and to City Council for consideration of the park construction budget.

Councilman Pelly then read the resolution which stated that "City Council supports and endorses efforts to establish a dog park in north Asheville. Subject to budgetary and administrative limitations, the City will cooperate with the citizens in the establishment of a dog park in north Asheville, including the designation by the Manager of a staff liaison to assist in the process."

When Mayor Bellamy asked for comments from the public, no one spoke.

When Councilman Hunt explained that competition for capital funds regarding parks is very competitive, Councilman Pelly said that the only cost for the City is $5,000 for the design process. He assured Council that the property owner is providing the site at no cost to the City and that the capital costs would be raised entirely from private sources,

In response to Vice-Mayor Manheimer, Councilman Pelly said that the group is willing to ensure that long-term maintenance will be funded by them through fund-raising efforts.

Councilman Bothwell moved to adopt Resolution No. 13-107. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 304**

**D. MOTION TO REDUCE PERMIT FEES FOR FARM MARKETS BY 75%**

Director of Planning & Development Judy Daniel said that the City Council has requested the staff to present options for consideration of a reduction of the permit fees that are charged for Farm Markets. This use requires four types of permit fees: Building Code, Fire, Zoning, and Tech Fee (charged to all uses). The most substantial fees charged are for building code and fire permits; and those fees for this use are already substantially subsidized over other commercial uses in that Farm Markets are not charged the standard $75 fee for required weekly inspections.

The permit fees include $125 for Building Permit, $125 for Fire Permit, a tiered fee for Zoning Permit (depending on the size), and the small 4% Tech Fee charged all uses of $11. The fees are used for initial review of plans and for any subsequent required inspections. Inspections are done primarily for Building Code requirements - important for health and safety reasons. There is an initial inspection by Fire inspectors. Items inspected include the tents & their anchors, electrical connections, reviewing to be sure there are accessible routes, identifying obstructions/tripping hazards, ensuring opportunity for emergency dispersal, checking all equipment installations that may be used (stage, sound system, etc.). An inspection is required every time a market is held (usually weekly).

The only fee that has been increased recently is the Zoning fee which was changed in the last fiscal year.

Farm Markets are charged under the fees for Temporary Uses Permits as there is no separate category for Farm Markets. Farm Markets were not a primary focus of the change. These fees were adjusted in to reflect the additional work required for staff review of graduated sizes of Temporary Uses events. Previously there was a flat fee of $25; and this was changed to a graduated fee system as noted below:

| | |
|---|---|
| Events with less than 100 people expected to attend | $25 |
| Events with 100-1000 expected to attend | $100 |
| Events with more than 1000 expected to attend | $350 |

In practice most Farm Markets have generally been considered in the middle category, so for those in that size range, their inspection fee went from $25 to $100, thus an additional $75 cost.

In 2012 the total revenue collected for the eight permitted tailgate markets was $2,135 (or an average of approximately $267 per market). The average fee breakdown included:

| | | | |
|---|---|---|---|
| Building: | $125 | Fire: | $125 |
| Zoning: | $25* | Tech Fee (4%): $11 | |

The initial permit fee includes both a fire and a building inspection. After those initial inspections, each market is must be re-inspected before every market day by the building inspector but a policy decision was made in the past of not charging the normal $75 fee for the subsequent inspections. (In reality, Farm Markets are about the only Temporary Use that operate over multiple months and require ongoing inspections.)

There are other special fees depending on whether there is electrical, or an open flame (cooking) etc. So, in some cases the fees were a little higher; but in the case of the Downtown City Market, the fee was only $78 because they are permitted as a special event (not a temporary use) since they are located on public property and have non-profit status which affords them a 75% discount on all fees.

Therefore, estimating an added $75 per market for eight markets for the 2013 season, the total revenue collected would be $2,736 (an average of $342 per market).

The full cost recovery to the city for the staff time and work required through the fees for these eight markets would have required $20,285 in fees as outlined below, so the City is already discounting these events by over 85% (primarily due to the re-inspection fee that is not charged):

Although the start and end dates for the markets and their market days vary, the total days for the season ranges from 21 to 35 per market. The number of market days for all eight markets was recorded at 250 for last year.

The total number of anticipated market days, minus the initial inspections (2 x 8 sites) yields 234 inspections for which we are not collecting revenue. Multiplying that by the minimum $75 inspection fee by the number of inspections for which we are not charging the inspection fee, we lost a minimum of $17,550 last year (as additional inspections are likely).

The Council requested an option of discounting these fees by 75%. The fiscal impact of that change would depend on whether the Council wishes to reduce all the fees (Fire, Building Code, Zoning, and Technology) or just Zoning (which was increased for this year).

- If all fees were reduced by 75% that would reduce the average fee collected per market to $86; and increase the annual subsidy for farm markets to around $19,601 or 96%. The City would see a decrease in anticipated revenue of $2,051.

- If only the Zoning Permit fee were reduced by 75% (taking it back to the prior level of a flat $25), the reduction would be minimal, returning the average fee to $267 per market. A substantial subsidy would remain, as we would still not charge the weekly $75 inspection fee. The City would see a decrease in anticipated revenue of $600.

Because the existing subsidy of the inspection fees means that this use is already being subsidized by the general fund to cover staff costs for the required inspections, expanding the subsidy further would increase the required subsidy from the general fund. The Council must determine how best to balance the competing policy goals of cost recovery for services vs. support for urban agricultural goals.

Should the Council determine that the policy goals for Farm Markets outweighs other policy goals, it is recommended that a new Farm Market fee be included in the Building Code, Fire, and Zoning fees at the amount determined by the Council. Staff does not recommend a change to the existing fees for other Temporary Uses.

Councilman Smith said that when the Fees & Charges Manual was amended recently, the permit fees for farm markets went up and this item may have been overlooked. He said that in January when Council adopted the Food Action Plan, one of the items was to optimize permitting and the fee structure for farmer's markets. In March Council elevated the Food Action Plan to one of their top strategic priorities. In 2010, Council reviewed event fees for non-profits and created a 75% fee reduction for those non-profits because the missions they are undertaking are serving Council's strategic goals. Therefore, he asked Council to entertain that same 75% permit fee reductions for our farm markets in an effort to strengthen our food systems, move

closer to food security, decrease poverty, improve public health and strengthen the local commerce.

Councilman Hunt noted that by reducing the fee 75%, the City would see a decrease in anticipated revenue of $2,051.

Mr. Josh O'Connor, representing the Board of Directors of Oakley Farmer's Market, urged Council to consider reducing or eliminating permitting fees for farm markets in consideration of the recently adopted Food Action Plan. Reducing permitting obstacles (including cost) is important in developing farmers markets in local communities.

Councilman Hunt then moved to reduce the permit fees for farm markets by 75%. This motion was seconded by Councilman Bothwell and carried unanimously.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER AN INSTALLMENT FINANCING CONTRACT WITH TD BANK FOR GREEN CAPITAL IMPROVEMENT PROJECTS

### RESOLUTION NO. 13-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN INSTALLMENT FINANCING CONTRACT AND CLOSING PROCESS WITH TD BANK FOR THE FINANCING OF LED STREETLIGHT UPGRADES AND FACILITY IMPROVEMENTS

Councilman Pelly moved to recuse Vice-Mayor Manheimer from voting due to a conflict of interest. This motion was seconded by Councilman Davis and carried unanimously.

Deputy Finance Director Eric Hardy said that this is the consideration of a resolution authorizing the execution of a $1,100,000 installment financing contract for 'Green CIP' projects (the "Projects"). These property improvements include LED streetlight upgrades and facility improvements, such as window replacements at Fire Stations #7 and a boiler replacement at the Stevens Lee Recreation Center. This public hearing was advertised on May 3, 2013.

The City of Asheville Capital Improvement program (CIP) includes $1,100,000 previously appropriated by City Council to finance Green CIP projects.

The Finance Department posted a Request for Proposal on April 17, 2013 on both the City's website and on the NC State Interactive Purchasing System. Five proposals were received, the best of which was submitted by TD Bank with an interest rate of 1.44% per annum for a term of 10 years with semi-annual principal and interest payments ranging from $62,260 to $55,396.

The proposed resolution authorizes an installment purchase contract between the City of Asheville and TD Bank for the financing of the Projects and authorizes the City Manager, City Attorney, Deputy Finance Director and City Clerk to execute and deliver any and all necessary documents, including a deed of trust to place a lien on Fire Station #7 in order to secure the City's obligations under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the Project expenditures made thus far.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.

- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases the currently available funds by allowing the restoration of fund balance.

Cons:

- Financing the purchase slightly increases the lifetime cost of the acquisition due to the payment of interest on the amount financed.

The annual debt service payment for this financing is approximately $125,000 per year. Funds will be included in the City's Fiscal Year 2013-14 proposed debt service budget to cover this cost. Energy savings from the LED streetlight upgrades are being used to fund the debt service on Green CIP projects.

City staff recommends City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with TD Bank for the financing of the Green CIP Project.

Mayor Bellamy opened the public hearing at 6:24 p.m., and when no one spoke, she closed the public hearing at 6:24 p.m.

In response to Councilman Hunt, Mr. Hardy said that the loan is a fixed rate with a $1,000 closing cost.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Hunt moved for the adoption of Resolution No. 13-105. This motion was seconded by Councilman Bothwell and carried unanimously (Vice-Mayor Manheimer was recused from voting due to a conflict of interest.)

**RESOLUTION BOOK NO. 35 – PAGE 300**

**V. UNFINISHED BUSINESS:**

**A. ORDINANCE NO. 4190 - ORDINANCE ESTABLISHING THE MULTIMODAL TRANSPORTATION COMMISSION**

Executive Director of Public Works and Multimodal Transportation Cathy Ball said that this is the consideration of an ordinance establishing the Multimodal Transportation Commission.

At the February 2013 Boards and Commissions meeting, staff presented a model for combining/augmenting various transportation and neighborhood related boards by forming a Multimodal Transportation Commission. This is the first step of hopefully have the Commission completely established by July 1. On June 11, Council will be requested to appoint members to the Commission and repeal the Transit Commission and the Greenway Commission.

Staff and/or Council members have met with the various Boards and Commissions and have tweaked the initial recommendations. The total membership on the board is proposed to be nine voting and three non-voting members.

The members of the Multimodal Transportation Commission would be made up of three members of the Greenway sub-committee, three members of the Transit sub-committee, and three members of the Bike and Pedestrian Task Force. There would be three additional non-voting members; one from the Planning and Zoning Commission; one from the Neighborhood Advisory Board; and, one from SACEE.

The appointments would be made through the following process.

1) Each of the sub-committees, task force and commissions would recommend the appropriate number of appointments to City Council for appointment to the Multimodal Transportation Commission.
2) City Council would review and make the recommend appointments or request another recommended appointment from the appropriate group.
3) The members would serve for three year terms, up to two terms for a maximum of six years. The first year appointment terms would be staggered to allow for continuity on the board.

This action complies with one of Council's Strategic Goals by supporting multimodal transportation planning.

Pros

- Compliments the organizational alignment of the organization.
- Reduces the number of Council Appointed Commissions by one.

Con:

- None.

There is no fiscal impact to this recommendation.

Council adopts an ordinance to create a Multimodal Transportation Commission.

In response to Mayor Bellamy, Ms. Ball explained how all the different master plans will be implemented with a comprehensive multimodal transportation master plan, which they have requested a grant from the Land-of-Sky to develop that comprehensive plan. We will start to grow the infrastructure network together.

Mayor Bellamy felt that the Commission needed representatives (non-voting) from the Land-of-Sky Regional Council and the new Park Authority (if that moves forward), since our systems are deeply integrated with Buncombe County.

Ms. Ball said that staff is committed to reporting back to Council in 6 months or 1 year on the progress of the Commission, but would be happy to add members now or after the initial period.

Councilman Hunt said that the County's advisory boards will change roles if the Park Authority moves forward. He felt that in the negotiations between Asheville and Buncombe County to create the Park Authority, there will need to be an alignment of various boards & commissions that are advisory. Rather than anticipate on how that might work, he felt that might be better dealt with through the negotiations. He agreed with the Mayor that the representation on the Commission is thorough.

Mayor Bellamy agreed with Councilman Hunt on the Park Authority representative; however, she felt was important to have the Land-of-Sky at the table of this new Commission.

Councilman Smith said that the Transit sub-committee will continue to exist and within that sub-committee there will continue to be the County appointment. That has been an important alignment with the County. He hoped that as the Multimodal Transportation Commission evolves and recognizes their needs, they can draw on that expertise. As Land-of-Sky and Buncombe County want to partner with the City on the goals from the comprehensive multimodal transportation plan, he would be supportive of that.

When Vice-Mayor Manheimer suggested contacting the Land-of-Sky first to make sure they want to participate on this Commission, Ms. Ball said that she would be happy to talk with them. When the appointment process for the Commission comes back to Council in June, the ordinance can be amended to add a non-voting seat from the Land-of-Sky. It will also give her an opportunity to get the thought of the other commissions as well.

Assistant City Attorney McGlohon asked that the staggered terms of office section be amended as follows: "Members of the Commission shall be appointed for 3 years. In appointing the original members of the Commission, the Council may appoint certain members for less than 3 years and thereafter the terms of all members shall not expire at the same time."

When Mayor Bellamy asked for public comments, none were received.

Councilman Hunt reminded the audience that this is Strive Not To Drive Week and highlighted some statistics that show our society is preferring not to own cars but to get around via other modes of transportation.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Ordinance No. 4190 as amended. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 224**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-106 - RESOLUTION APPOINTING A MEMBER TO THE GREATER ASHEVILLE REGIONAL AIRPORT AUTHORITY AND TO THE ASHEVILLE REGIONAL AIRPORT AUTHORITY**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Greater Asheville Regional Airport Authority and to the Asheville Regional Airport Authority.

Due to the Authority's inability to recognize the seating of Vice-Mayor Manheimer, there currently exists a vacancy until June 30, 2016. This appointment must be a registered voter of the City of Asheville.

The following individuals have applied for the vacancy: Albert Anderson, Bradley Cain, Julian Jones, Aixa Wilson, Ken Hawkins, Charles Larrick, John Hayler, George Lycan and Grant Osborne. Two late applications were received from Douglas Tate and Phillip Kelley.

On April 9, 2013, City Council instructed the City Clerk to arrange interviews for Albert Anderson, John Hayler, George Lycan, Grant Osborne, Douglas Tate and Phillip Kelley.

After Council spoke highly of the candidates, Albert Anderson received 1 vote, John Hayler received no votes, George Lycan received no votes, Grant Osborne received no votes, Douglas Tate received 4 votes and Phillip Kelley received 2 votes. Therefore, Douglas Tate was appointed as a member of the Greater Asheville Regional Airport Authority and the Asheville Regional Airport Authority , to serve the unexpired term of Vice-Mayor Manheimer, term to expire June 30, 2016, or until his successor has been appointed.

**RESOLUTION BOOK NO. 35 – PAGE 303**

## B. BOARDS & COMMISSIONS

Regarding the Citizens-Police Advisory Committee, the following individuals have applied for the vacancy: Karl Katterjohn, Fred Cooke, Scott Steele and Grant Osborne. Because the vacancy is for a south representative and only one applicant from the south applied, it was the consensus of Council to re-advertise.

Regarding the Civil Service Board, the following individual applied for a vacancy: Carolyn Worthington. Because there are two vacancies on the Civil Service Board (including the Chair), it was the consensus of Council to re-advertise.

Regarding the Asheville-Buncombe Historic Resources Commission, the following individuals applied for the vacancies: Grant Millin, Ronald E. Burgin, Aixa Wilson, David Carpenter, Sue Russell, William Eakins and Woody Farmer. It was the consensus of Council to interview Sue Russell, William Eakins and Woody Farmer.

Regarding the Neighborhood Advisory Committee, because there are vacancies for 28801 and 28803 or 28704, 28806 and at-large representatives, it was the consensus of Council to re-advertise.

## VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Dan Bridges, volunteer for the handicapped enforcement program, was disheartened about issuing tickets and violators saying that they will get it written off by the City. He asked for the stripping of handicapped spaces be improved. Deputy City Manager Richardson said that he would be happy to have City staff look at improving the process including looking at the tag history of multiple abusers. He would report back to Council in the near term.

Mr. Timothy Sadler felt Council needed to make a commitment to public transportation.

Councilman Pelly invited the public to the Neighborhood Advisory Committee meeting on May 20, 2013, at 7:00 p.m. at the Recreation Center at 72 Gashes Creek Road, at which time they will discuss development issues in east Asheville.

### Closed Session

At 6:54 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including a lawsuit involving the following parties: City of Asheville v. William Huskey (Buncombe County Superior Court Civil Action No. 09 CvS 2040). The statutory authorization is contained in G.S. 143-318.11(a)(3); (2) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:25 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

## VIII. ADJOURNMENT:

Vice-Mayor Manheimer adjourned the meeting at 7:25 p.m.

Magdalen Bourneson
CITY CLERK

MAYOR

Friday – May 17, 2013- 10:00 a.m.
First Floor North Conference Room - City Hall

Budget Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Executive Director of Finance & Strategic Planning Lauren Bradley provided Council with the budget schedule, and budget balancing considerations from April 23 (1) financial impact of various items remains uncertain (a) revenue reform proposed by the N.C. General Assembly; and (b) disposition of the City's water system; and (2) Culture and Recreation Authority.

Proposed Fiscal Year 2014 budget assumptions from April 23 include (1) budget Water Fund contribution to central services (a) offset potential loss of contributions by (i) capturing current year savings for fund balance contingency and (ii) deferring expenses until later in the year; and (b) this approach gives the City flexibility to adapt to changing conditions; permanent reductions would have to be considered if the water system is transferred; and (2) reduce revenue projects - offset loss with property tax increase; alternative is to consider additional service reductions.

Regarding the proposed Fiscal Year 2014 enhanced Capital Improvement Program (CIP), (1) implementation of enhanced capital improvements and economic development investments will require additional revenue (a) an additional $3 Million in the CIP would increase capital maintenance, infrastructure projects and fund Economic Development CIP including RADTIP and downtown projects; and (b) funding sources could come in from a combination of city revenues and other sources; and (2) staff would recommend considering a minimum of an additional $2 Million in capital improvements, $3 Million in additional investment would be optimal.

Ms. Bradley also provided Council with (1) responses to questions that were raised during the April 23 budget worksession (including 5% across the board reductions); (2) information on how proceeds from the sale of city-owned property could be allocated to support the development of affordable housing in Asheville; and (3) health insurance plan review.

Using a chart, she explained in detail three different budget assumption options for Fiscal Years 2014 and 2015 for the Cultural & Recreation Authority (CRA) along with the tax rate impacts. Option 1 would assume no CRA in the Fiscal Year 2014 budget with 1 penny for operating (or service reductions) as an option for balancing the Fiscal Year 2014 budget and no increase for Capital Improvement Plan (CIP). Option 1 would assume no CRA in the Fiscal Year 2014 budget with 1 penny for operating (or service reductions) and 3 pennies for CIP. Option 3 assumes the CRA impact in the Fiscal Year 2014 budget with no tax rate increase for operating and no increase for CIP.

Each Council member (except for Mayor Bellamy) voiced their support for Option 3 for various reasons, but if the CRA does not move forward, then Option 2.

In response to Councilman Hunt, City Attorney Oast said that he did not feel that there would be any budgetary resolution regarding the transfer of assets or functions of the water system to MSD by the end of June 30, at which time a budget will need to be adopted.

In response to Mayor Bellamy, City Manager Jackson said that with Ms. Bradley's leaving the City of Asheville, her finance duties will transition to Deputy City Manager Jeff Richardson.

At 10:38 a.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
City Clerk

Mayor

Tuesday – May 28, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Bothwell gave the invocation.

**I. PROCLAMATIONS:**

**A. RECOGNITION OF CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY STUDENTS**

Mayor Bellamy said that six years ago this June, she and the members of the Asheville City Council welcomed the inaugural class of the City of Asheville Youth Leadership Academy – better known as CAYLA. Since that very first day, CAYLA students have exceeded our highest expectations – as role models, as future leaders, as contributors to our greater community. CAYLA was designed to introduce Asheville's young people to professional careers, to assist them in their quest for college, and to develop their leadership skills through volunteering. It is without question that by this definition, CAYLA is a success – but only because the CAYLA students have made it so. Since 2007, more than 100 Asheville High School students have been selected to participate in the nationally-recognized City of Asheville Youth Leadership Academy. CAYLA places its students in prestigious, paid summer internships, and provides year-round workshops that emphasize leadership development and college preparation. This year's graduating CAYLA seniors have all been accepted to colleges across the state and region, including UNC-Chapel Hill, UNC-Greensboro, North Carolina A&T, Winston-Salem State, Johnson & Wales, Johnson C. Smith University, Berea College and Howard University. Collectively, Class of 2013 CAYLA students completed more than 30 community service projects representing more than 400 hours of service. Highlights of the CAYLA year include attending the first annual Me2We Conference on social justice and participating in a semester-long partnership with UNC-Asheville that explored the challenges of teen relationships through the creation of a public art installation.

The City of Asheville has gained much from their contributions, and we recognize and challenge them as they keep striving for excellence in the months and years to come.

As Mayor she was so proud of the young people who are being recognized today – the CAYLA Class of 2013.

With that, she read the names of the CAYLA students who were in the meeting this evening: Omar Alvarado, Nieva Arana, LaBrea Baird, Briana Bunn, Brandy Burgin, Jonaca Crooks, Brianna Crudup, Michael Davis, Emmanuel Figaro, Jalyn Folston, Monique Gaines, Caleah Hallum, Jaquell Hines, Ashare' Jefferson, Tyshaun Johnson. Tiffany Jones, Abel Lomeli-Garcia, Emmanuel Lomeli-Garcia, Terrence Lynch, Diana Marquez, William Middleton, Destiny

Nelson, Asia Porter, Kayla Reynolds, Owen Ruth, Symone' Simmons, Quanteria Sitton, Fiona Taylor, and Takidra Young.

Mayor Bellamy praised Erika Germer for her hard work on this program.

**B. PROCLAMATION PROCLAIMING MAY 25 - JUNE 1, 2013, AS "ASHEVILLE BEER WEEK" IN THE CITY OF ASHEVILLE**

Councilman Smith read the proclamation proclaiming May 25 - June 1, 2013, as "Asheville City Beer Week" in the City of Asheville. He presented the proclamation to Ms. Caroline Forsman, representing the Asheville Beer Week organization committee, who briefed City Council on some activities taking place during the week.

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 14, 2013; AND THE BUDGET WORKSESSION HELD ON MAY 17, 2013**

**B. MOTION SETTING A PUBLIC HEARING ON JUNE 11, 2012, TO CONSIDER THE FISCAL YEAR 2013-14 ANNUAL OPERATING BUDGET**

**C. RESOLUTION NO. 13-109 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 11, 2013, FOR ECONOMIC DEVELOPMENT INCENTIVES (PROJECT X)**

Summary: The consideration of a resolution setting a public hearing for economic development incentives.

The City proposes to enter into an economic development incentive agreement with respect to an economic development project known as Project X. State law, N.C.G.S. 158-7.1, requires that a public hearing be held before cities make appropriations for expenditures for economic development purposes. Council's rules provide for public hearings to be set at Council's direction.

The resolution sets a public hearing in this matter for the regular Council meeting on June 11, and directs the publication of the required notice. The usual rules for public hearings will apply.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 308**

**D. RESOLUTION NO. 13-110 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SUN LIFE ASSURANCE COMPANY FOR SPECIFIC STOP LOSS INSURANCE**

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement for Specific Stop Loss Insurance Sun Life Assurance Company for specific stop loss insurance.

The City of Asheville is self-insured for medical and prescription drug expenses less than $150,000 paid during a contract year on behalf of all participants in the City's medical plan. The City purchases Specific Stop Loss Insurance to cover the cost of large or catastrophic claims paid during the contract period that exceed $150,000.

Premiums for Stop Loss Insurance are based on the Medical and Prescription Drug Benefits, demographic make-up of the participants, prior claims experience, industry standards, medical trends / inflation, the claims accumulation period and any known on-going medical conditions.

In an effort to promote Council's employer of choice strategic goal by providing the best and most cost effective insurance, the City of Asheville requested that our brokerage firm, The Ferguson Employee Benefit Agency, initiate a formal bidding process for Specific Stop Loss Insurance. The City received 6 proposals in response to our Request for Proposals. The Ferguson Employee Benefit Agency worked with staff to review these proposals.

After a thorough review the vendor selected is Sun Life Assurance Company.

This action aligns with City Council's Strategic Operating Plan in that it is an effort to promote Council's employer of choice strategic by providing the best and most cost effective benefit plan for our employees.

Pro:

- Specific Stop Loss insurance rates and terms were the most competitive when including the additional fees charged by BCBSNC for utilizing an outside stop loss insurance carrier.

Con:

- Increases the length of time between the City's payment of claims and Stop Loss Carrier reimbursement for claims that exceed $150,000 during the contract year by approximately 1 month.

This is a one year $761,000 Contract and funds have been budgeted and will be encumbered from the Health Care Fund to cover the cost of this contract.

City staff recommends City Council adopt a resolution authorizing the City Manager to sign an agreement for Specific Stop Loss Insurance Sun Life Assurance Company.

**RESOLUTION BOOK NO. 35 - PAGE 309**

**E. RESOLUTION NO. 13-111 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MEMORANDUM OF UNDERSTANDING WITH BUNCOMBE COUNTY FOR THE CTS WATERLINE INSTALLATION PROJECT**

**ORDINANCE NO. 4191 - BUDGET AMENDMENT FOR THE CTS WATERLINE INSTALLATION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a Memorandum of Understanding (MOU) with Buncombe County for the CTS Waterline Installation Project and to execute any and all contracts up to $155,000.00 to implement the terms of the MOU; and a budget amendment in the amount of $155,000.00 from savings in other capital projects that were completed under budget.

Buncombe County is expecting to receive a grant to install waterlines in the areas surrounding the CTS site on Mills Gap Road. The County approached the City to request that they provide construction administration and oversight for the project. The County and City have agreed to a Memorandum of Understanding (MOU), which outlines the purpose, scope, schedule, and resources needed to ensure a successful project that will provide safe, potable water to residents within a one-mile radius of the CTS site.

The scope of the City's involvement will require the allocation of resources to: (1) review engineering plans and other documents necessary to bring the project to fruition; (2) oversee the acquisition and recordation of property easements required to construct and maintain the new water line; (3) oversee the construction bidding phase; (4) address all construction-related questions or concerns; and (5) other construction-related management activities as required for successful completion of the project and assumption of ownership and maintenance by the City.

If approved, the MOU should be executed by the City within a week of Council adoption. It will take another three to four weeks to advertise and award the construction administration contract. The construction administration will continue throughout the life of the project, which is expected to be completed by fall 2013.

This project is part of City Council's strategic plan to create a more collaborative and effective working partnership with Buncombe County.

Pros:

- This project will provide safe, potable water to residents within a one-mile radius of the CTS site.
- The County will reimburse the City for all construction administration expenses relating to the project.

Con:

- The Water Resources Department's involvement is not necessary in order for the waterline installation to occur. The department will be the liaison between Buncombe County and the Construction Administrator.
- The project will utilize Water Resources staff time for meetings, permit acquisitions, inspection services, payment processing, and documentation compilation even though an outside Construction Administrator will be hired to oversee the project.

The funds needed for this project will be transferred from other Water Resources capital projects that were completed under budget. In order to use the funds from the other project budgets, a budget amendment is necessary.

| | |
|---|---|
| Current Amount in CTS Waterline Installation Project | $ 0.00 |
| Budget Amendment Amount Needed | $155,000.00 |
| Total Amount | $155,000.00 |

The amount remaining in Water Capital Reserves will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the City Manager to execute an MOU with Buncombe County for the CTS Waterline Installation Project and to execute any and all contracts up to $155,000.00 to implement the terms of the MOU; and a budget amendment in the amount of $155,000.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 - PAGE 310**
**ORDINANCE NO. 28 - PAGE** 228

**F. RESOLUTION NO. 13-112 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A RENEWAL OF THE ADOPT-A-PARK AGREEMENT WITH JUST FOLKS**

Summary: The consideration of a resolution authorizing the City Manager to sign a renewal of the Adopt-a-Park Agreement with Just Folks including a waiver for park use fees for Triangle Park for FY 2013-2014.

Just Folks is a local non-profit organization whose primary purpose is to support community-building activities in the Eagle/Market Street area. The members of the Board of Directors are all residents who grew up in the area and are actively engaged in efforts to improve the environment in Triangle Park by providing more positive uses of the park. Their focus on Triangle Park began eight (8) years ago when they were encouraged to produce cultural events in the park by a past City of Asheville Cultural Arts Superintendent. Last year City Council authorized the City Manager to sign an amended Adopt-a-Park agreement with Just Folks that included a waiver of park use fees and permit waivers for up to $2,500 for FY 2012-2013 to allow them to hold events in the park including music festivals, community cookouts and other community-building events in the park May to December on Saturdays and Sundays.

During FY 2013-2014, Just Folks has fulfilled the terms of the amended Adopt-a-Park agreement through activities that included:

- Conducting regular clean-ups
- Weeding and maintaining the planted beds
- Mulching paths and planting beds
- Providing volunteers to participate in these and other projects
- Providing the tools and materials to carry out regular maintenance and special approved projects
- Participating in the development of a mural project for the walls of the park assisted by thee Asheville Design Center and city staff and scheduled to be implemented in the fall of 2012.
- Holding a minimum of two (2) events each weekend during the course of the year, including music events and community cookouts that were free and open to everyone in the community.

The presence of Just Folks members and their programming in the park have continued to contributed to the reduction of nuisance behaviors in and around the park and improved appearance of the park, which has made the park more attractive to downtown visitors and community members and meeting specific City Council goals for economic and community development

Just Folks is requesting that their Adopt-a-Park agreement with the city be renewed for FY 2013-2014 and include waivers for park usage and event permitting fees at the same level of $2,500 approved for FY 2012-2013.

This action addresses City Council Strategic Goal for Asheville to be one of the safest and most secure communities compared to similar cities. The events held by Just Folks in Triangle Park proactively promote positive community interactions in the area and have significantly improved public safety in "The Block".

Pros:

- Strategic partnerships allow the city to leverage programming and events to reach a wider and more diverse audience.
- Provides additional quality cultural programming and diversity in a park that is generally not used for this type of event.
- Reduces staff time in processing fee wavier requests related to this group's events.
- This action is consistent with other partnerships the City has entered into for park programming in key community development areas.

Con:

- The reduction in permit fees result in lost revenue for the city; however, the city has not budgeted for this revenue.

The estimated value of the waived park usage fees is $2,500; however, this revenue has not been included in the budget.

Staff recommends that City Council authorize the City Manager to sign an Adopt-a-Park Agreement with Just Folks including a fee waiver for park usage fees associated with programming in Triangle Park.

**RESOLUTION BOOK NO. 35 - PAGE 311**

**G. ORDINANCE NO. 4192 - BUDGET AMENDMENT TO FUND SAFETY IMPROVEMENTS AND SITE ENHANCEMENTS AT HERB WATTS PLAYGROUND**

Summary: The consideration of a budget amendment in the amount of $7,487 to fund safety improvements and site enhancements at Herb Watts playground.

The Herb Watts Foundation donated $7,487 to the City for safety improvements and site enhancements at Herb Watts playground. The Parks, Recreation, and Cultural Arts Department will spend the funds on re-mulching the playground, sub-surface drainage improvements, and equipment replacement.

This action complies with the Parks, Recreation, Cultural Arts & Greenways Master Plan in that it strengthens partnerships with funding partners, and increases revenue opportunities through sponsorships.

Pro:

- Provides funding to increase playground safety

Con:

- None

The budget amendment will increase the operating budget in the Parks, Recreation and Cultural Arts Department by $7,487. The amendment is fully funded with proceeds from the donations.

Staff recommends City Council to approve the budget amendment authorizing the City Manager to increase the Parks, Recreation and Cultural Arts Department budget in the amount of $7,487 to fund safety improvements and site enhancements at Herb Watts playground.

**ORDINANCE BOOK NO. 28 - PAGE 230**

**H. ORDINANCE NO. 4193 - BUDGET AMENDMENT TO PURCHASE EQUIPMENT AND FUND PERSONNEL COSTS AND TRAINING FOR MEMBERS OF THE ASHEVILLE HIGH INTENSITY DRUG TRAFFICKING AREA**

Summary: The consideration of a budget amendment, in the amount of $99,000 to authorize the use of Federal High Intensity Drug Trafficking Area (HIDTA) Funds to purchase equipment and fund personnel costs and training for members of the Asheville HIDTA.

The High Intensity Drug Trafficking Areas (HIDTA) program was authorized by the Anti-Drug Abuse Act of 1988 and is administered by the Office of National Drug Control Policy (ONDCP). The original designation of five HIDTA sites in 1990 has expanded into more than thirty areas around the country. The HIDTA's mission is to reduce drug trafficking in the most critical areas of the country, thereby reducing the impact of illegal drugs in other areas. The Asheville HIDTA will serve as a key drug trafficking reduction effort, critically positioned between

the Atlanta HIDTA and the Appalachia HIDTA. The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriffs Office, Henderson County Sheriffs Office and McDowell County Sheriffs Office. The Asheville HIDTA has received yearly funding from the ONDCP since 2010. The Asheville HIDTA is a component of the Asheville DEA Task Force. The City of Asheville will serve as the fiscal agent for the Asheville HIDTA. The Asheville HIDTA has received authorization for $99,000 in federal HIDTA funding. This proposed budget amendment would authorize the use of this funding for equipment purchases, personnel costs and training for members of the Asheville HIDTA.

This action conforms to the City Council's Strategic Operating Plan under 1) Fiscal Responsibility in that we are using federal HIDTA monies to enhance the Asheville HIDTA's equipment, personnel and training needs that would otherwise not be funded, and 2) Safe City in that providing the various equipment and training allows the Asheville HIDTA to be more professional and effective in proactively enforcing and preventing illegal drug trafficking.

Pros:

- Federal HIDTA monies to cover the cost of equipment, personnel and training related to reducing illegal drug trafficking in our region.

Cons:

- None noted

The increase of $99,000 is for equipment, personnel and training. Accepting these funds is a significant financial benefit to the Asheville HIDTA by allowing the task force to better equip and train the task force employees. There is no impact to the City's General Fund budget.

City staff recommends City Council adopt the budget amendment in the amount of $99,000, to authorize the use of Federal HIDTA funds to purchase equipment and fund personnel costs and training for the Asheville HIDTA.

**ORDINANCE BOOK NO. 28 - PAGE 232**

**I. RESOLUTION NO. 13-113 - RESOLUTION AUTHORIZING THE STANDARDIZATION PURCHASE OF THE ICS COMMUNICATIONS UNIT SUPPORT TRAILER FOR CONSISTENCY IN OPERATION AND FUNCTIONALITY**

Summary: The consideration of a resolution authorizing the Asheville Fire Department to purchase an ICS Mobile Communications Unit Support Trailer based on standardization needs.

The City of Asheville Fire Department has grant funds available through the Fiscal Year 2010 North Carolina Homeland Security Grant Program for the procurement of a Communications Unit Support Trailer. This equipment will enhance the ability of COA Police and Fire Departments and other regional Emergency Responders to communicate during a disaster or other emergency that requires coordination and communication between multiple jurisdictions. The equipment will also provide a vital resource that will aid in establishing an alternate Emergency Operations Center for the City of Asheville enhancing the continuity of operations. The procurement of standardized equipment will allow for interoperability of similar resources from multiple jurisdictions in NC. This interoperability provides certain efficiencies and eliminates duplications of efforts.

This action complies with the City Council Strategic Operating Plan by better equipping emergency responders to communicate during an emergency or disaster and by providing redundant means of emergency wireless communications.

Pros:

- An increased ability to communicate with responders from other jurisdictions.
- Increases responder safety and accountability of COA resources when responding mutual aid to other jurisdictions.
- Provides interoperability among similar resources throughout North Carolina.

Con:

- None identified

This purchase is funded by a grant previously approved by Council. Annual maintenance costs are minimal and will be supported by the State of NC and recurring grant opportunities.

City staff recommends City Council authorize the City Manager to receive grant money from the State of North Carolina Homeland Security Grant Program.

**RESOLUTION BOOK NO. 35 - PAGE 312**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Davis moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. APPROVAL OF THE BY-LAWS FOR THE ASHEVILLE DOWNTOWN IMPROVEMENT DISTRICT INC.

Ms. Ruth Summers, Co-Chair of the Asheville Downtown Improvement District, Inc., said that they feel the Business Improvement District (BID) is a collaboration between the Board and the City and as such she requested City Council approve their by-laws. They understand that if the by-laws are adopted, the BID will continue to move forward in a grassroots effort. In fact on July 1 the BID, along with a lot of other corporations, will sponsor a clean-up day.

Councilman Davis said that a lot of work has gone into developing the by-laws in an effort to develop the BID. The Interim and Permanent Board have put in a lot of hard work and thousands of hours into this effort. However, in the economy we find ourselves in, City Council felt it would not be prudent to move forward with the taxing authority. He felt it is important to recognize the work done and the potential for the future. The efforts of the Board have made Council and citizens aware that there should be special emphasis on the needs in the downtown. Approving these by-laws is a way to say that we understand there is that need and in the future if a BID is established, the by-laws will be in place.

Councilman Bothwell appreciated all the efforts gone into the BID. He felt at this point the BID Board is a volunteer group like any other neighborhood group and he couldn't see why the City would approve the by-laws of a neighborhood group. Absent knowing where the downtown residents stand on a BID he would have to vote against approving the by-laws.

Councilman Smith agreed that we have to maintain our downtown vibrancy. He thanked everyone who contributed to that realization. Unfortunately with the big tax shift and financial uncertainties, we would not be able to move forward with the BID taxing authority. He noted that over the next five years approximately $8.5 Million is included in the City Manager's budget for the downtown. He didn't think this is the right time to approve the by-laws and not fund it. He

didn't want to give the impression that we will be approving the BID any minute. He agreed that the by-laws will probably form the basis of a future BID, but now is not the right time.

Councilman Hunt viewed this request as not an indication that City Council is committed to a BID, but for the corporate structure to move forward. He also noted that there are clean and green services provided in our coming budget. He felt it was appropriate to acknowledge the work of the BID Board and approve their by-laws.

Mayor Bellamy said that we are not establishing a taxing authority. She will support the approval of the by-laws in order for them to achieve 501 (c) (3) status and allow them to apply for foundation grants. Because the City Council makes appointments to the Board, she felt it was important to have a say in how it's governed and formatted.

Councilman Davis moved to approve the By-Laws for the Asheville Downtown Improvement District Inc. This motion was seconded by Councilman Hunt and carried on a 5-2 vote, with Councilman Bothwell and Councilman Smith voting "no."

**B. WNC REGIONAL AIR QUALITY AGENCY UPDATE**

Dr. Deal Kahl, Vice-Chair of the WNC Regional Air Quality Agency, briefed Council on their activities of the past year and goals for the upcoming year.

Dr. Kahl and Executive Director of the WNC Regional Air Quality Agency David Brigman responded to various questions from Council.

On behalf of City Council, Mayor Bellamy thanked Dr. Kahl for his leadership and the entire Board for their dedication.

**C. LEGISLATIVE & WATER UPDATE**

Deputy City Manager Jeff Richardson highlighted the following legislative issues of interest: House Bill 488 - Transfer Control of the City of Asheville's Water System to a Regional Entity; House Bill 252 - Asheville Transfers; House Bill 418 - Park Authority; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation; House Bill 568 - Asheville Deannexation; Senate Bill 394 - Lower Tax Rates for a Stronger North Carolina Economy; Senate Bill 363 - Business Tax Reduction and Reform; House Bill 708 - Study Public Enterprise Systems/Use of Funds; House Bill 962 - Municipal Sales Tax; House Bill 94/Senate Bill 112 - Amendment to Environmental Laws 2013; Senate Bill 612 - Regulatory Reform Act of 2013; House Bill 664 - Cell Tower Deployment Act; Senate Bill 677 - Local Government Regulatory Reform; House Bill 937 - Amendment to Various Firearms Laws; and House Bill 714/Senate Bill 443 - Disposition of Abandoned Firearms.

**D. ASHEVILLE METRO AREA ZERO ENERGY DISTRICT**

Councilman Bothwell said that the Asheville Metro Area Zero Energy District (AMAZED) explained that the Zero Energy District (ZED) is a place where residents and businesses aim to produce as much energy as they use. A ZED can be (1) a specific geographic area; or (2) a virtual "district" in which anyone can participate. The long term goal is to make Asheville energy-independent and to keep more money in our pockets. AMAZED aims to educate people about affordable energy solutions, to encourage residents to take action today, and to make bigger steps tomorrow.

The present solution is that today Asheville derives most of its electricity from the coal-fired power plant at Lake Julian. This requires train-loads of coal blasted from mountaintops in Kentucky. It pours pollution into our air. It also creates tons of toxic coal ash. It sends our dollars to Duke Energy/Progress and Peabody Coal.

Progress so far has been that the City of Asheville has been reducing City energy use by 4% per year since 2007. Asheville residents have cut their water use significantly in recent years and they are recycling champions. Ashevillians also have the highest per capita ownership of hybrid cars in North Carolina.

Potential alternatives include (1) teach AMAZED participants three simple things they can do today to save money (a) unplug your microwave, stereo, television and other appliances when they aren't in use - "vampire" loads cost $10-30 per year; (b) never leave a television or radio on when you aren't home - average television cost 20-cents per hour; and (c) always do laundry with cold water - save 40-cents per load. Plus you can join the Duke EnergyWise Program and save $75 per year; (2) create short classes to teach AMAZED participants the next three steps and encourage them to share those ideas; (3) create a competition between neighborhoods on who can save the most energy; and (4) help establish funding streams for more ambitious retrofit and solar projects.

A FortZED was established in Fort Collins, Colorado, in 2011 and it's attracting new industry to the City. In Fort Collins, (1) more than 7,000 customers participate - residential and commercial; (2) reduce peak demand by 20-30%; (3) expanding to include thermal energy and transportation; and (4) New Belgium Brewery produces over half the electricity it uses during peak solar hours.

Preliminary participants include Asheville Green Opportunities, Asheville Independent Restaurant Association, Blue Ridge Sustainability Institute, EarthFare, EvolveEnergy, New Belgium Brewery, Sierra Club Beyond Coal Campaign, Smith Mill Creek Premaculture School and WNC Green Building Council.

He invited those that wish to learn more to the meeting on May 30 at the Dr. Wesley Grant Sr. Southside Center.

**E. QUARTERLY REPORTS**

**Committee Chair Reports**

Vice-Mayor Manheimer, Chairman of the Finance Committee, provided Council with a brief update on some major accomplishments during this quarter.

Councilman Bothwell, Chairman of the Public Safety Committee, provided Council with a brief update on some major accomplishments during this quarter.

**Strategic Operating Plan**

Deputy City Manager Jeff Richardson provided Council with an updated table of the quarterly updates on key strategic initiatives associated with the five six areas of the City of Asheville's Strategic Plan for the first three quarters July 1, 2012 – March 31, 2013. He also provided Council with the quarterly updates for Economic Indicators and Crime Index.

**Financial Report**

Budget Manager Tony McDowell provided Council with the following financial information which reflects the City's overall financial position for the fiscal year through March 2013.

*Amendments.* The General Fund budget presented in the third quarter report reflects the adopted budget of $89,922,437 along with eleven budget amendments approved by Council that totaled $1,264,612. A summary of the amendments is presented below. The only amendment that involved an appropriation from fund balance was the $650,000 approved for employee

bonuses. The $63,000 for the firing range mitigation project was appropriated from unexpended capital funds that were being held in reserve.

| | |
|---|---|
| Adopted Budget | $89,922,437 |
| Budget Amendments: | |
| NC Arts Council Grassroots Arts Grant | 50,431 |
| Linamar ED Incentive | 200,000 |
| Firing Range Mitigation Project | 63,000 |
| Public Housing Police Unit Partnership | 217,000 |
| RENCI Grove Arcade Lease | 36,096 |
| Plasticard Locktech ED Incentive | 13,400 |
| Employee Bonus** | 650,000 |
| Community Center Grants | 7,834 |
| Energy Rebates | 21,801 |
| Bicycle Wayfinding Grant | 1,050 |
| Bojangles Easter Eggstravaganza Sponsorship | 4,000 |
| 3/31/2013 Budget | $91,187,049 |

** Fund Balance Usage

*Revenues.* Through March 31, 2013, the City has collected $74,680,403 in General Fund revenue, which represents approximately 82.5% of the total General Fund revenue budget. Revenue collections through the first nine months of the previous fiscal year were at 83% of budget, so collections this year are almost identical to the previous year's percentage through three quarters. The City has received nine months of sales tax revenue, and collections are up 5.9% compared to the prior year. Sales tax revenue is now projected to exceed budget by $175,000. Property tax and state utility tax revenue continue to lag behind budget. Overall, staff is currently estimating that total FY 2012-13 General Fund revenue will come in under budget by $272,000 or 0.30%.

*Expenditures.* General Fund expenditures through March 31, 2013 total $60,412,963 or 66.3% of the budget. One year ago expenses were at 68.2% of budget at this same point in the fiscal year. As discussed during the recent budget worksessions, to hedge against uncertainty in next year's budget, staff has set aside $1 million in unexpended funds from the current fiscal year in unassigned fund balance to be used as contingency in FY 2013-2014. The General Fund year end estimates on page 3 of this report reflect the additional savings that been identified toward this budget savings target.

*Fund Balance.* The City ended FY 2011-12 with available fund balance of $13.63 million, which equated to 15.9% of FY 2011-12 expenditures. At the November 13th meeting, Council approved the use of $650,000 in fund balance for one-time employee bonuses. *Factoring in the savings mentioned above, staff estimates that available fund balance at June 30, 2013 will be $14.5 million or 16.2% of estimated expenditure, which will be approximately $1.0 million over the 15% fund balance policy target.*

**F. PRESENTATION OF THE FISCAL YEAR 2013-14 ANNUAL OPERATING BUDGET**

Executive Director of Finance and Strategic Planning Lauren Bradley said that the budget goals were to enhance Asheville's economic prosperity and quality of life by addressing the City's long-term financial sustainability (1) Seek opportunities to restructure services to gain efficiencies; (2) Invest resources in core services and infrastructure to achieve strategic goals and build tax base; (3) Maintain affordability for citizens and businesses in Asheville; (4) Invest in our workforce and continue to recognize and reward innovation; and (5) Build a budget based on financially sound principles to ensure stability in an uncertain economic and legislative environment. She

then showed a chart of inflation adjusted General Fund spending and an illustration of structural gap.

Legislative assumptions include (1) Disposition of the City of Asheville's water system: The budget assumes continued operation and management of the system since the length and outcome of the legal challenge is unknown. The budget proposes to defer some expenses and set aside fund balance as a contingency; (2) State-wide Tax Reform: Because the final outcome of tax reform is not yet quantifiable, the proposed budget assumes a $1 million decrease in State revenues, the net difference between assuming the loss of utility taxes and a partially off-setting increase in sales tax revenue. The proposed budget plans to make up this loss with mid-year savings generated by the creation of the Culture and Recreation Authority; and (3) Creation of a county-wide Culture & Recreation Authority (CRA): The city's proposed budget assumes all parks, recreation and cultural arts services except for community centers would be transferred to the authority effective January 1, 2014. This move would reduce expenditures in FY 2013-2014 by $2.5 million

Regarding the revenue neutral tax rate, she said the revenue-neutral tax rate, as defined by G.S. 159-11(e), is the rate that is estimated to produce revenue for the next fiscal year equal to the revenue for the current fiscal year if no reappraisal had occurred. For Fiscal Year 2013-2014, the City of Asheville has calculated the revenue neutral tax rate to be 43 cents per $100 valuation.

Regarding General Fund Revenues: (1) Revenue Neutral Tax Rate of 43 cents per $100 valuation; (2) Revenues projected to increase by .6% (a) 1.5% growth projected in property tax revenue; (b) 8.5% growth projected in sales tax revenue; and (c) $1.9 million decrease in revenues as a result of proposed legislation; and (3) No fund balance appropriation; $1 million above 15% policy requirement held as contingency. Revenue Enhancements - $7.00 monthly solid waste fee replaces $3.50 recycling fee. She then showed a breakdown of the General Fund revenues.

Regarding General Fund Expenditures: (1) 3% cost of living adjustment for city employees; (2) General Fund expenditures up only 0.6% over FY 2012-2013 (a) Assumes transfer of parks and recreation services January 1; (b) Includes contracting out street and sidewalk construction services; (c) $500,000 in savings from frozen positions; and (d) $500,000 in savings from line item reductions; and (3) General Fund contribution to pay-as-you-go Capital Improvement Plan (CIP) remains flat but includes the issuance of additional debt. She then showed a breakdown of the General Fund expenditures.

She then reviewed the other funds: (1) Water Fund (a) Water rate increases expected to generate $300,000 in new revenue (1% on residential, multi-family and small commercial consumption; 3% on large commercial consumption); (b) Expenditures adjusted down to reflect actual; and (c) Contribution to capital is increasing by $9.8 million as a result; $18.2 million in CIP; (2) Stormwater Fund (a) Stormwater fees remain unchanged; and (b) Budget includes $641,000 in capital funding for rolling stock replacement & capital maintenance projects; (3) Transit Fund - The proposed budget includes an expected $100,000 reduction in State funding for transit. The General Fund transfer to the Transit Fund has been increased by this amount to offset this loss in State funding; (4) Parking Fund (a) Budget includes 25 cent increase in the hourly rate for parking meters and garages; expected to produce approximately $400,000 in additional revenue from parking fees; and (b) Revenue used for central service expenses and CIP; (5) US Cellular Center Fund - Early event bookings indicate that operating revenues will likely increase in FY 2013-14. Revenues are expected to be similar to what was collected in FY 2010-11. Nonetheless, the Center will hold two FTE positions in the concessions division vacant in FY 2013-14 as a budget balancing strategy; (6) Golf Fund - Budget includes lease of municipal golf course to Pope Golf, Inc., a move that had a positive financial impact of approximately $210,000 by eliminating the General Fund subsidy and providing for a lease payment to the city. The proposed budget includes a lease payment of $75,000; and (7) Internal Service Fund (a) City's

and employees' contributions to health care remain flat in FY 2013-2014; (b) Includes a reallocation of workers compensation and property/casualty costs across all funds based on actual claims history; and (c) Proposed FY 2013-14 budget includes the second year contribution ($400,000) from the General Fund of a step-up plan to meet the City's annual required contribution for Other Post Employment Benefits (OPEB) to the State Treasurer's OPEB Investment Fund.

She then showed breakdowns of Fiscal Year 2013-14 CIP Revenues and CIP Expenditures.

Regarding the Economic Development CIP Fund (1) Revenues (a) Debt Proceeds ($11.45 Million); and (b) Land Sales ($150,000); (2) FY 14 Possible Projects include: RADTIP, Affordable/Workforce Housing, Parking Deck Construction, Multi-Modal Improvements, Underground Utilities, and and Asheville Art Museum Renovations; and (3) If CRA is not implemented, tax increase may be needed in FY 15 to fund debt service.

Looking ahead (1) The economic crisis of the last several years has required us to re-evaluate the paradigms that have been governing the public sector for several decades; (2) Asheville has charted a course for achieving long-term financial sustainability by reinventing the way we deliver services, investing in our workforce and making smart investments in job creation and infrastructure that promise to build tax base; (3) These actions will allow Asheville to continue to support our community's quality of life while implementing our strategic goals for the future; and (4) Must remain adaptive to change given the uncertainty in the economic and legislative environments.

Staff will continue to work with Buncombe County on formalizing the Culture & Recreation Authority. June 11 will be the budget public hearing with adoption on June 25.

Ms. Bradley responded to various questions from Council regarding the budget, some being, but are not limited to: why there is no allocation in Fiscal Year 2014 for the downtown clean and green initiative; what is the green part of the "clean and green" initiative; explanation of the Affordable Housing Trust Fund allocations; and what kind of investments will be in the South Slope.

On behalf of City Council, Mayor Bellamy thanked Ms. Bradley for her work with the City of Asheville and hoped her success in her future endeavors.

**Closed Session**

At 7:04 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina; City of Asheville; and Metropolitan Sewerage District of Buncombe County. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(11); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:20 p.m., Vice-Mayor Manheimer moved to come out of closed session. This motion was seconded by Councilman Pelly and carried unanimously.

**IV. PUBLIC HEARINGS:**

406

A. **PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE CONDITIONAL ZONING OF ASHEVILLE ACADEMY, LOCATED AT 1709 HENDERSONVILLE ROAD, TO FACILITATE THE DEVELOPMENT OF AN 8,215 SQUARE FOOT DAYCARE FACILITY**

**ORDINANCE NO. 4194 - ORDINANCE TO AMEND THE CONDITIONAL ZONING OF ASHEVILLE ACADEMY, LOCATED AT 1709 HENDERSONVILLE ROAD, TO FACILITATE THE DEVELOPMENT OF AN 8,215 SQUARE FOOT DAYCARE FACILITY**

Urban Planner Julia Fields said that this is the consideration of an ordinance to amend the conditional zoning of Asheville Academy, located at 1709 Hendersonville Road, to facilitate the development of an 8,216 square foot daycare facility. This public hearing was advertised on May 17 and 24, 2013.

Ms. Fields said that this is a request for an amendment to the conditional zoning approval for Weirbridge Village to allow for child care centers as a permitted use on the commercial portion of the development.

In 2006, 20.66 acres of property located at the corner of Hendersonville Road and Racquet Club Road were conditionally zoned from RM-6 (Residential Multi-Family Low Density Development) District to HBCZ (Highway Business Conditional Zoning) to allow for the development of a major multi-family housing development (originally proposed as 336 units) with commercial outparcels along Hendersonville Road. As proposed, the commercial portion of the development was shown as suburban commercial outparcels abutting Hendersonville Road. As opposed to traditional suburban commercial outparcels where there are separate curb cuts for each outparcel, however, the developer proposed access for all commercial parcels off of an interior road (Weirbridge Drive) that runs parallel to Hendersonville Road.

The commercial development was restricted under this approval to no more than five commercial parcels with no commercial parcel being greater than 3 ½ acres in size. No big box stores, night clubs, bars, adult uses or dance clubs are allowed and commercial uses are limited to: financial institutions, pharmacies, restaurants, professional offices, retail sales, bakeries, barber shops and salons, bookstores, medical clinics, delicatessens, florist, gift shops, grocery stores, and health and fitness facilities. No 24-hour uses were permitted other than bank ATMs and pharmacies. Architectural standards were required to be placed on the commercial buildings to require them to mirror the materials in the residential architecture of the residential buildings. No commercial building can be greater than 25,000 square feet GFA in size or greater than 30 feet in height. Outdoor storage is not permitted.

Since the initial conditional zoning approval, four amendments have been approved for the project. One reduced the number of dwelling units from the originally approved 336 to 280 and reconfigured the location and reduced the number of the buildings housing the dwelling units. A second amendment approved a comprehensive sign package for the development. Subsequently, two outparcels (financial institutions) have been developed with access off of Weirbridge Drive. A third amendment provided for a right-turn in/right turn-out access point to the undeveloped portion of the commercial parcel. A fast food restaurant is being developed at this location. A fourth amendment approved by City Council on April 9, 2013, added menu board signage to the originally approved sign package.

The applicant is now requesting an amendment to the conditional zoning approval to allow child care centers on the commercial portion of the property. This use was not included in the originally approved permitted use listing.

Planning staff concludes that the use itself is very compatible with other uses approved for this development. The central issue for the proposed use is related to traffic – both traffic

impact and safe maneuvering. To address that concern, a traffic study has been conducted for the proposed use and adjoining fast-food restaurant.

On May 1, 2013, the Planning and Zoning Commission reviewed and approved this matter 7-0. The only comments provided were those of the developer and the development team. The Commission recommended approval with the following conditions agreed to by the developer: (1) The conditions recommended in the TRC staff report; (2) All standard conditions being met; (3) The recommendations found in the traffic study; and (4) The developer considers providing an additional pedestrian crosswalk at some area conducive to pedestrian traffic coming from the residential area. She explained that developer has already addressed condition 4 with the City's Transit Engineer, who felt another pedestrian crosswalk would be unsafe, therefore; staff recommends condition number 4 not be a condition imposed on the developer.

Pros:

- The proposed amendment allows for the compatible use of child care centers at Weirbridge Village.
- A traffic study and recommendations have been completed for this use with recommended traffic patterns and practices.

Con:

- Even with the recommended traffic patterns, traffic congestion could be a problem although perhaps no more congestion than would result from other uses already allowed.

Based on the analysis provided in the report, staff finds this request to be reasonable and recommends approval.

Mayor Bellamy opened the public hearing at 7:28 p.m.

Mr. Clay Mooney, representing the developer, requested this amendment to utilize the day care use. He explained this day care center is a relocation of an existing day care within one-half mile of this location. The day care will operate from 7:30 a.m. - 5:30 p.m. Monday through Friday. This facility will have 180 children. They did perform a traffic study and because they had real world counts, they came up with recommendations on how to improve circulation, noting that the developer agrees with all the conditions. He also noted that parents of the children in the child care center will have an orientation meeting and they will be given a map of the traffic pattern which they must agree to.

Mayor Bellamy closed the public hearing at 7:32 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

In response to Councilman Pelly regarding earlier concerns of access for Crowfields residents, Mr. Mooney said that Crowfields is moving forward with survey work to get the location surveyed and the hiring of an engineer.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4194 to amend the conditional zoning of Asheville Academy, located at 1709 Hendersonville Road, to facilitate the development of an 8,215 square foot daycare facility, subject to the following conditions: (1) The conditions recommended in the TRC staff report; (2) All standard conditions being met; and (3) The recommendations found in the traffic study. This motion was seconded by Councilman Hunt and carried unanimously.

**B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF BILTMORE HILL, LOCATED AT 63 BROOK STREET, FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND COMMUNITY BUSINESS II DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 24,958 SQUARE FOOT MIXED USE BUILDING AND A 7,707 SQUARE FOOT SEVEN UNIT MULTI-FAMILY HOUSING BUILDING**

**ORDINANCE NO. 4195 - ORDINANCE TO CONDITIONALLY ZONE BILTMORE HILL, LOCATED AT 63 BROOK STREET, FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND COMMUNITY BUSINESS II DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 24,958 SQUARE FOOT MIXED USE BUILDING AND A 7,707 SQUARE FOOT SEVEN UNIT MULTI-FAMILY HOUSING BUILDING**

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone the project identified as Biltmore Hill Project, located at 63 Brook Street from RS-8 Residential Single-Family High Density District and Community Business II District to Community Business II District/Conditional Zoning for the development of a 24,958 square foot mixed use building and a 7,707 square foot seven unit multi-family building. This public hearing was advertised on May 17 and 24, 2013.

Ms. Bernstein said that the applicant is requesting a Conditional Zoning for four parcels located at 63 Brook Street and 2 Warren Avenue from CBII (Community Business II) and RS-8 (Residential Single-Family High Density District) to CBII – Conditional Zone in accordance with Section 7-7-8 of the UDO, for the construction of a mixed use development.

The project site consists of four separate parcels with a combined area of approximately 1.66 acres with frontage on Brook Street, Reed Street and Warren Avenue in Biltmore Village. The two parcels fronting on Brook and Reed Streets are zoned Community Business II (CBII) and are within the Biltmore Village Historic District Overlay. One parcel along Brook Street is entirely CBII and the other has frontage on both Brook Street and Warren Avenue and is split-zoned with both CBII and RS-8. The rear parcels along Warren Avenue are entirely zoned RS-8. Nearby and adjacent zoning districts include CBII, CBI, CI, Institutional and RS-8.

The site along Brook Street is currently the location of a mostly-vacant single-story commercial strip building (location of Old School Subs & Deli and an auto repair shop) and the site accessed from Warren Avenue contains a single-story residential structure and shed. All existing structures are to be demolished.

With this conditional zoning, the applicant is proposing the construction of two new buildings. Due to the existing grade change dividing the project area, the building sites will function as two separate developments on one parcel. There is no interaction between the two structures and each has separate parking and access.

The larger development is a two-story building placed at the corner of Reed and Brook Streets. This structure is proposed for retail uses along the ground level with six (6) residential units on the second-story (five 2BD units; one 3BD). The building is 30 feet tall (46'5" to tallest roof peak) and has a total area of 24,958 square feet (14,872 square feet is retail use – approximately 4-5 separate retail spaces, depending on final tenants). This building falls under the Historic Resources Commission's (HRC) design review.

The second structure is located above (rather than behind) the mixed-use building and is accessed from Warren Avenue, due to a grade change of approximately 50 feet from Brook Street up to the rear end of the project site. This building is exclusively residential and contains seven (7) two-bedroom units on three levels (four levels when viewed from Brook Street) and a building height of 30 feet – 42'2" to the tallest roof peak. Because of the continuing grade change, the single-family dwelling across the street from the structure will be approximately at the level of the third floor. This building does not require compliance with Biltmore Village design guidelines.

The project site currently consists of both RS-8 and CBII zoning classifications. The area zoned RS-8 is just under one acre, which would permit a maximum of eight residential units (although not in a multi-family configuration). With the rezoning, seven units are proposed in this area. The parcels along Brook Street are already zoned CBII, an area approximately 1.1 acres in size, and would be allowed to have 17 units. The maximum density allowed for the entire rezoned project site is 26 units – 13 are proposed. While a greater number of residential units would be permitted, the topographic challenges are a limiting factor. Also, limiting the number of units in the residential structure will result in a development that is more compatible with the single-family neighborhood across Warren Avenue.

There are two driveway cuts proposed on Brook Street to access the mixed-use building; one provides an entrance only and the second allows for both right and left-turn exit movements. New five-foot wide sidewalks are shown along Brook and Reed Streets. The new sidewalks will be brick, according to HRC design guidelines. There is no access provided within the site between the two buildings, pedestrian or otherwise.

The applicant is proposing improvements within the right-of-way of Brook Street/Sweeten Creek Road with traffic calming and crosswalks similar to what is already in place further east (in front of 10 Brook Street). Additionally, the proposal includes pedestrian crosswalks along the route to the off-site parking

Access to the residential building is from a single driveway off of Warren Avenue. No sidewalks are proposed for Warren Avenue (fee-in-lieu requested). The street is not identified as a needed linkage and proceeds to a dead-end shortly beyond the building side. Additionally, the topography would make construction difficult.

A minimum of 49 spaces is required for the mixed-use building. Plans show parking 21 parking spaces (2 HC accessible) and indicate that 28 additional spaces will be made available at an off-site location (2 Fairview Road) through a shared parking agreement. Bike parking is included.

The separate parking lot for the residential building includes 10 spaces (1 HC accessible) as well as a bike rack in this location as well.

Landscaping is required on the site and includes a property line buffer along Warren Avenue, street trees on Brook, Reed and Warren, parking lot and building impact landscaping, street buffer and dumpster screening. The property line buffer can be administratively approved for a width reduction due to the existing vertical separation on the lot, according to Section 7-11-3(e)(1).

Since the proposal functions more as two separate developments, open space will be split for this project. The Brook Street portion of the property will be subject to "urban open space" requirements, which is provided via the hardscaped elevated walk as well as green space (five percent or 2,897 square feet required - 4,302 square feet shown on plans). The residential building along Warren Street is subject to "suburban open space" requirements of fifteen percent; provided via the walking path and open area in front of the building (2,157 square feet required – 2,380 square feet provided).

There are significant retaining walls included with for development, up to 26 feet tall in areas, according to conceptual plans. All walls over 8 feet in height will need to comply with aesthetic requirements. Landscaping is required when walls are taller than 6 feet in height and closer than 35 feet to the road (Warren Avenue) and for any portions taller than 20 feet, regardless of proximity to the road (several locations). The appearance of the walls along the lower portion of the site will be reviewed by the HRC.

Because this is a through-lot, a 30 foot, type B property line buffer is required along Warren Avenue as the "secondary frontage." The UDO allows for *administrative approval* of alternative compliance in the event of a vertical separation on the lot greater than 15 feet. The buffer width will be reduced to 15 feet.

The proposal was approved with conditions by the Technical Review Committee on April 1, 2013. A (voluntary) community meeting with representatives from the Biltmore Village Merchants Association was held on April 11, 2013.

The Planning & Zoning Commission reviewed this project on May 1, 2013, and recommended approval with a 6-1 vote. There were concerns expressed regarding the sharp, steep curve to access Warren Avenue from Reed Street when heading south from Biltmore Village. The City Transportation Engineer stated that it would not be considered to be a dangerous intersection. Staff followed up with Public Works as well, and the Assistant Director noted that while it is a tight curve, it would not be considered as a safety concern from their perspective especially given that there are multiple other access points to Warren Avenue.

Staff has spoken with two of the three property owners across Warren Street. One was favorable of the proposal and the other had concerns regarding loss of view, increased traffic and ensuring completion of the project.

Because the portion of the property along Brook Street is within the Biltmore Village Historic District Overlay, design review for compliance with all district guidelines is required. The applicant had a preliminary review with the Historic Resources Commission (HRC) on January 9, 2013, and preliminary comments have been addressed. Upon receiving approval of the conditional zoning request by City Council, the applicant will return to the HRC for final design review.

Section 7-7-8(d)(2) of the Unified Development Ordinance (UDO) states that planning staff shall evaluate conditional zoning applications on the basis of the criteria for conditional use permits set out in Section 7-16-2. Reviewing boards may consider these criteria; however, they are not bound to act based on whether a request meets all seven standards.

1. **That the proposed use or development of the land will not materially endanger the public health or safety.**
   The proposed project has been reviewed by City staff and appears to meet all public health and safety related requirements. The project must meet the technical standards set forth in the *UDO*, the *Standards and Specifications Manual*, the *North Carolina Building Code* and other applicable laws and standards that protect the public health and safety.

2. **That the proposed use or development of the land is reasonably compatible with significant natural or topographic features on the site and within the immediate vicinity of the site given the proposed site design and any mitigation techniques or measures proposed by the applicant.**
   This site has a +/- 50 foot grade change from Brook Street up to Warren Avenue which lends itself to dividing the site, as it is in its currently developed state, with retail at the bottom and residential at the top. The proposed improvements will require significant retaining structures to secure the slope, including lower walls around the rear of the

Brook Street parking area (the aesthetics of which are subject to design approval by the Historic Resources Commission). There will be larger retaining walls and building foundation walls below the residential building. These retaining structures will be subject to technical review during the building permitting process.

3. **That the proposed use or development of the land will not substantially injure the value of adjoining or abutting property.**
The development is expected to complement the adjacent shops and uses and add to the fabric of Biltmore Village in a valuable way. Roadway improvements will visually extend the Biltmore Village Historic District and will enhance and improve the pedestrian experience. While the apartment building is not entirely consistent with the development pattern in the immediately surrounding neighborhood, the edges of this neighborhood contain larger structures such as office buildings and hotels. The residential use is complementary and is not expected to injure the value of abutting properties.

4. **That the proposed use or development or the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.**
The mixed-use building and associated improvements proposed along Brook Street are aligned with nearby development in terms of scope, scale and use. Adherence to the Biltmore Village Design Guidelines ensures visual harmony and compatibility. The residential building is not subject to compliance with the design guidelines, however, like materials and a similar style have been incorporated.

   The scale of the residential building on Warren Avenue is greater than the single-family homes immediately across the street. The building is proposed to be three stories in height (when viewed from Warren Avenue) which is 30 feet per UDO definition of building height (and below the maximum height in residential zoning districts). The confronting homes will, however, be approximately at the visual level of the third floor due to the grade change along Warren Avenue. The tallest point on the structure is shown as 42'2" to the highest roof peak.

   The potential impact of a taller structure in this location is mitigated by the continuous elevation gain heading south across Warren Avenue. At 2 Warren Avenue (project site), the existing elevation is approximately 2050 feet. Across Warren, the elevation is approximately 2075 feet at the rear of that parcel, gaining 25 feet. Moving further south to the Biltmore Inn property, the elevation is approximately 2105 feet, a gain of more than 50 feet.

5. **That the proposed use or development of the land will generally conform to the comprehensive plan, smart growth policies, sustainable economic development strategic plan and other official plans adopted by the City.**
Elements of the overall project are directly aligned with the City's goals and objectives including multi-modal transportation elements (sidewalks, bike racks, transit shelter), economic development and residential infill development.

6. **That the proposed use is appropriately located with respect to transportation facilities, water supply, fire and police protection, waste disposal, and similar facilities.**
This site in Biltmore Village place the project in an easily accessible location by car, foot, bicycle and is along an Asheville transit route (SI). The project has been reviewed by the Technical Review Committee and has been found to have adequate access to infrastructure.

7. **That the proposed use will not cause undue traffic congestion or create a traffic hazard.**

This project proposes offsite parking along Fairview Road and extending the traffic calming medians along Brook Street. A traffic study is being conducted to address the functionality of the additional traffic calming devices and ability of the highway to handle the traffic with them installed. It will also determine if an ADA accessible route can be achieved from the project to the proposed offsite parking location. The project is not expected to create a traffic hazard or undue congestion, pending the results of the traffic study.

Pros:

- City goals support mixed-use development, especially providing residential uses in a walkable location proximate to transit
- Streetscape and roadway improvements will improve the pedestrian experience
- Design review of the Brook Street building by the HRC ensures historic appropriateness to Biltmore Village and aesthetic cohesiveness, extending the "look" of the Village to this eastern edge

Con:

- The residential building along Warren Street is a larger scale than the single-story homes immediately across the street (although there are larger, taller structures a couple of blocks within the residential neighborhood).

Based on the above findings, staff recommends approval of the conditional zoning request as requested by the applicant. While the residential building is larger than the homes immediately across Warren Avenue, there are larger structures both within this residential neighborhood as well as larger, non-residential uses along other edges (hotels, offices) and the elevation gain moving into the neighborhood mitigates the visual impact.

Mayor Bellamy opened the public hearing at 7:43 p.m.

Mr. Bryan Moffit, representing the developer, asked for Council's support of the conditional zoning and explained that they have cited the residential building at the end of Dodge Street as far as possible so it was not directly across from any of the houses along Warren Street.

Mayor Bellamy closed the public hearing at 7:43 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4195 to conditionally zone the project identified as Biltmore Hill Project, located at 63 Brook Street from RS-8 Residential Single-Family High Density District and Community Business II District to Community Business II District/Conditional Zoning for the development of a 24,958 square foot mixed use building and a 7,707 square foot seven unit multi-family building, subject to the following conditions: (1) The project shall comply with all conditions outlined in the TRC staff report; (2) This project will undergo final review by the TRC prior to the issuance of any site development permits; (3) All site lighting must comply with the City's Lighting Ordinance, Section 7-11-10, of the Unified Development Ordinance. A detailed lighting plan illustrating compliance with the ordinance will be required upon submittal of detailed plans to be reviewed by the Technical Review Committee; (4) All existing vegetation that is to be preserved must be clearly indicated and dimensioned on the site, landscape and grading plans; (5) Any deviation to building design, construction materials and orientation on site from the conceptual site plan and building elevations presented with this application can only be through requirements by the Historic Resources Commission's review (based on Biltmore Village Design Guidelines). Any other deviation from these plans may result in reconsideration of the project by the reviewing boards;

(6) Compliance with the Biltmore Village Design Standards for the portion of the property within the overlay is required prior to issuance of a zoning permit; (7) Review and approval of the off-site parking lot (2 Fairview Road) is required prior to final zoning approval (and is required prior to CO); and (8) The building along Warren Avenue is residential only and may not be used for any commercial purposes. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 236**

**C. PUBLIC HEARING TO CONSIDER REZONING PROPERTY ON THOMPSON STREET FROM RIVER DISTRICT TO URBAN PLACE DISTRICT**

**ORDINANCE NO. 4196 - PUBLIC HEARING TO REZONE PROPERTY ON THOMPSON STREET FROM RIVER DISTRICT TO URBAN PLACE DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone property on Thompson Street from River District to Urban Place District. This public hearing was advertised on May 17 and 24, 2013.

Mr. Esselstyn said that the subject area is bounded and bisected by noteworthy pathways: the north and south property lines abut the Swannanoa River and the Norfolk Southern Railroad Lines, respectively; Stoner Road abuts the western edge, intersecting Thompson Street, which divides the property. The land between Thompson Street and the river lacks significant development potential, as it is entirely in the floodway, hence the analysis will focus on the area south of Thompson Street.

Despite the higher ground south of Thompson Street, the vast majority of the subject parcel still is identified on the current FEMA flood maps as 100-year floodplain. The applicant has modified the property grades subsequent to the capture of the data on which the current maps are based, but has not yet requested flood map amendments, preferring to wait until the outcome of the rezoning petition and final land configuration have been determined.

The applicant's request to rezone the property from River District to Urban Place District stems from an interest in a zoning classification that would allow higher residential density (64 units per acre for UP, compared to 16 for River), as well as the other higher-intensity development options that the latter district provides.

The Urban Place District is designed to encourage higher density mixed-use development that is pedestrian friendly and includes special building design considerations similar to other mixed-use districts. The district is expected to foster development and redevelopment of areas with sufficient infrastructure in place to support the uses. Urban Place is expected to be applied to areas faced with blight and neglect and for areas that may have special environmental considerations. The range of permitted uses is broad enough to support compatible infill redevelopment.

The River District is developed to encourage redevelopment of the river areas in a manner that complements the natural environment of the river. The River District is unique in that it allows any use that is not prohibited in the list of uses. The residential density of the River District is relatively low for the nature of the district and the fact that most housing will be multi-family in style.

In early 2007, more than a dozen properties were rezoned from either River or CI (Commercial Industrial) to Urban Place, as an effort to begin implementing the Dykeman Plan by providing the appropriate zoning for the area. These rezoning processes were also accompanied by an ordinance amendment to the Urban Place District section of the ordinance to add environmental standards. About half of the properties involved in the rezoning neighbored the

French Broad, but a similar number of the properties were along the Swannanoa, five of them in the vicinity of the subject parcel. The subject property was originally included in one of these rezoning processes, but then withdrawn at the applicant's request.

Three of the parcels rezoned from River to Urban Place were recently rezoned back to River again for the New Belgium project. In that specific case, the reversion was for a specific project (now underway), but there are multiple examples of other speculative zoning requests in recent years elsewhere in Asheville that have had to be later "undone" because they never attracted a buyer/developer. (It should be noted that the successfully completed Mica Village project is on one of the nearby parcels rezoned to Urban Place in 2007.)

In 2007, when the subject parcel was included in the proposed rezoning, the staff recommendation was for approval, and staff maintains the supportive stance today. The proposal is consistent with adopted plans, and the Urban Place district is compatible with surrounding uses. Some capacity for industrial and other high-impact uses would be lost, but staff sees that as a tolerable downside, given the upside of potential for sought-after higher density development of an urban nature.

At their May 1, 2013, meeting the Planning and Zoning Commission voted unanimously to recommend approval of the proposed rezoning.

Stephanie Monson Dahl, the City's Riverfront Redevelopment Coordinator, has also reviewed the analysis and raised no objection.

As of this writing, staff has received no communications from the public regarding the petition in question.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- Is suitable for the subject area and consistent with other adjacent and nearby zoning.
- Supports the goals of the City Development Plan 2025 related to river-area land use, smart growth concerns, transportation opportunities, potential for economic growth and greenway and environmental features.
- Consistent with the Wilma Dykeman Riverway Master Plan.
- Could encourage private investment and redevelopment in the subject area.

Con:

- High-density development in the flood hazard area, given the undetermined status of future flood maps for this property, could prove to be a challenging proposition.

Staff feels that the proposed zoning change is in keeping with other comparable rezonings in the riverfront areas in the recent past, and is also consistent with current City goals and interests in these areas. Hence, staff recommends approval.

Mayor Bellamy opened the public hearing at 7:47 p.m.

Ms. Lisa Stevens, representing the applicant Mr. George Morosani, explained that they have modified the property grades and have performed all the background work to determine the exact amount of grading that would be necessary to bring the property out of the floodway area. After the outcome of their rezoning request and final land configuration, they will be requesting a flood map revision from FEMA.

Mayor Bellamy closed the public hearing at 7:48 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4196. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 240**

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-114 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Asheville-Buncombe Historic Resources Commission.

Ms. Ashley Gaylord has resigned from the Commission, thus leaving an unexpired term until July 1, 2013; Ms. Hillary Cole has resigned from the Commission, effective July 1, 2013, thus leaving an unexpired term until July 1, 2014; and the term of Mr. David Nutter expires on July 1, 2013.

The following individuals have applied for the vacancies: Grant Millin, Ronald E. Burgin, Aixa Wilson, David Carpenter, Sue Russell, William S. Eakins and Woody Farmer.

On May 14, 2013, City Council instructed the City Clerk to arrange interviews for Sue Russell, William Eakins and Woody Farmer. Also on May 14, it was the consensus of Council to reappoint Mr. Nutter to serve an additional three-year term.

After Council spoke highly of the candidates, Sue Russell received 6 votes, William Eakins received 1 vote and Woody Farmer received 5 votes (Mayor Bellamy was not in the room). Therefore, (1) Woody Farmer was appointed as a member of the Asheville-Buncombe Historic Resources Commission, to serve the unexpired term of Ms. Gaylord, term to expire July 1, 2013, and then a full three-year term, term to expire July 1, 2016; (2) Sue Russell was appointed as a member of the Asheville-Buncombe Historic Resources Commission, to serve the unexpired term of Ms. Cole, term to begin July 1, 2013, and term to expire July 1, 2014; and (3) David Nutter was reappointed to serve an additional three-year term, term to expire July 1, 2016. All appointments are until their successors have been appointed.

**RESOLUTION BOOK NO. 35 – PAGE 313**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler spoke to Council about the need for a formal request to the Asheville Police Department for a dollar amount for marijuana enforcement, and also the need for transit service on Sundays.

City Manager Jackson responded to Council regarding making our transit system more viable.

**VIII. ADJOURNMENT:**

Vice-Mayor Manheimer adjourned the meeting at 8:00 p.m.

Magdalen Bowerson
CITY CLERK

MAYOR

Tuesday – June 11, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith (excused at 8:00 p.m.); City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: Vice-Mayor Esther E. Manheimer

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Davis gave the invocation.

**I. PROCLAMATIONS:**

**A. PROCLAMATION PROCLAIMING JUNE 8-22, 2013, AS "POLLINATION CELEBRATION DAYS" IN THE CITY OF ASHEVILLE**

Councilman Smith read the proclamation proclaiming June 8-22, 2013, as "Pollination Celebration Days" in the City of Asheville. He presented the proclamation to Ms. Phyllis Stiles, Director of Bee City USA, who briefed City Council on some activities taking place during the week. She then was pleased to show the first new City road sign - Bee City USA.

**B. PROCLAMATION PROCLAIMING JUNE 16-22, 2013, AS "AUTISM PRIDE WEEK" IN THE CITY OF ASHEVILLE**

Councilman Davis read the proclamation proclaiming June 16-22, 2013, as "Autism Pride Week" in the City of Asheville. He presented the proclamation to Ms. Julia Bramsen, organizer of Autism Pride Week, who briefed City Council on some activities taking place during the week.

**II. CONSENT AGENDA:**

At the request of City staff, Consent Agenda Item "C" was removed from consideration.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 28, 2013**

**B. RESOLUTION NO. 13-115 - RESOLUTION AUTHORIZING THE MAYOR TO CONVEY 2.8 ACRES OF REAL PROPERTY LOCATED OFF WEST CHAPEL ROAD TO BUNCOMBE COUNTY**

Summary: The consideration of a resolution authorizing the Mayor to convey 2.8 acres of real property located off West Chapel Road, portion of PIN 9657-51-1778-00000, to Buncombe County.

The City of Asheville owns approximately 37 acres of real property located at 70 West Chapel Road, utilized as the Ray Kisiah Park. Of the 37 acres, approximately 9.5 acres have been developed into baseball fields and parking. The balance of the acreage is held as wooded open space. The Park borders existing industry to the West, single family residential properties to the East and the Extraterritorial Jurisdiction (ETJ) to the North and South.

At this time, Buncombe County has requested that the City transfer a 2.8 acre portion of the unused area of Ray Kisiah Park to support local economic development. The area of interest is roughly 200 yards from the edge of the closest baseball field, and this transfer does not impact the use of the fields. From time to time, the City and County have utilized land transfers to support economic development. Earlier this year, Buncombe County donated a 3.33 acre property at the intersection of Emma Road and Craven Street to the City of Asheville in order to support the Craven Street Transportation Improvement Project.

The Parks, Recreation and Cultural Arts Department has verified that this 2.8 acre parcel does not lie within an existing or proposed greenway trail according to the Greenway Master Plan and therefore is not an advantageous property to be held for use by the City of Asheville. Nor does this transfer impact future park uses associated with recreation programming at Ray Kisiah Park.

This action complies with the City Council Strategic Operating Plan by supporting Fiscal Responsibility, through transfer of surplus real property for supporting economic development.

Pro:

- The transfer of 2.8 acres of property will support economic development.

Con:

- There is no negative impact.

This is a no cost transfer of land to Buncombe County, therefore no revenue will be generated off of this transfer. The City will have minimal legal and closing costs associated with this transfer; those expenses will be absorbed into the existing operating budget.

Economic Development staff recommends City Council adopt the resolution to convey 2.8 acres of real property off West Chapel Road to Buncombe County.

**RESOLUTION BOOK NO. 35 - PAGE 314**

**C. RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A UNIT PRICE CONTRACT WITH LAND OF THE SUN INC. D/B/A FLETCHER GRADING CONTRACTORS FOR THE OVERLOOK ROAD SIDEWALK CONSTRUCTION PROJECT**

**BUDGET AMENDMENT FOR THE OVERLOOK ROAD SIDEWALK CONSTRUCTION PROJECT**

These item were removed from consideration.

**D. RESOLUTION NO. 13-117 - RESOLUTION AUTHORIZING REQUEST TO FEDERAL AVIATION ADMINISTRATION FOR APPROVAL OF TRANSFER OF WNC AGRICULTURAL CENTER PROPERTY TO THE STATE OF NORTH CAROLINA**

Summary: The consideration of a resolution authorizing a request to the Federal Aviation Administration (FAA) to approve the transfer of the WNC Agricultural Center property to the State of North Carolina.

The WNC Agricultural Center is located on 50 acres of property situated to the south and east of the Asheville Airport, and cross Airport Road (NC Highway 280) from the airport terminal

and runway facilities. The property is owned by the City of Asheville, and was acquired as part of the original purchase of property for the airport back in 1958. The property was acquired with FAA financial assistance

In 1985, the City entered into a lease for this property with the State. With renewal options, the term of the Lease is 100 years. The State has used the property for the WNC Agricultural Center since then, and has continued to expand its facilities.

In 2012, the NC General Assembly enacted, N.C. Sess. Law 2012-121, which provides for the transfer of the WNC Agricultural Center property to the State by "warranty or quitclaim deed." Because the property was acquired with FAA funds, however, certain conditions must be met, and the FAA must approve the transfer. Those conditions include a determination that the property is no longer needed for aeronautical purposes, reimbursement to the FAA of its *pro rata* share of the fair market value of the property, and certain restrictions on the use of the property.

In order to get the FAA approval process started, the "sponsor" of the Airport must make the request. The City and Buncombe County are the recognized cosponsors of the Airport. The County has already agreed to support the request. The resolution would authorize the request to be made on behalf of the City.

Once the terms of the conveyance are agreed to and approved by the FAA, the process of completing the transfer is relatively straightforward.

This transfer will be consistent with the goal of promoting the partnerships with key organizations to support economic development.

Pros:

- Complete the process initiated years ago.
- State gains ownership of its facilities.

Con:

- Property will no longer be available for airport use.

Adoption of the resolution is recommended.

**RESOLUTION BOOK NO. 35 - PAGE 316**

**E. RESOLUTION NO. 13-118 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 5 WALNUT ANNIVERSARY BLOCK PARTY ON JUNE 11, 2013**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 5 Walnut Anniversary Block Party on June 11, 2013.

- Green Opportunities has requested through the City of Asheville Development Services Department that City Council permit them to serve beer and/or unfortified wine at the 5 Walnut Anniversary Block Party and allow for consumption at this event.

The 5 Walnut Anniversary Block Party will be held on Wednesday, June 19, 2013, from 4:00 p.m. – 11:00 p.m. within the boundaries of Walnut Street between the intersections of Broadway and Carolina Lane, as referenced on the accompanying site map.

City staff recommends City Council adopt the resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 5 Walnut Anniversary Block Party.

**RESOLUTION BOOK NO. 35 - PAGE 317**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Hunt and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE UPDATE

Mr. David Brown, Chair of the HUB Community Economic Development Alliance, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Mr. Brown for his leadership and the entire Board for their dedication.

### B. LEGISLATIVE & UPDATE

Deputy City Manager Jeff Richardson highlighted the following legislative issues of interest: House Bill 488 - Transfer Control of the City of Asheville's Water System to a Regional Entity (temporary restraining order has been extended to August 6, 2013); House Bill 252 - Asheville Transfers; House Bill 418 - Park Authority; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation; House Bill 568 - Asheville Deannexation; House Bill 708 - Study Public Enterprise Systems/Use of Funds; House Bill 998 - Tax Simplifications and Reduction Act; House Bill 94/Senate Bill 112 - Amend Environmental Laws 2013; Senate Bill 612 - Regulatory Reform Act of 2013; House Bill 664 - Cell Tower Deployment Act; Senate Bill 677 - Local Government Regulatory Reform; House Bill 937 - Amend Various Firearms Laws; and House Bill 714/Senate Bill 443 - Disposition of Abandoned Firearms.

### C. UNC-ASHEVILLE ECONOMIC IMPACT STUDY

Mr. Greg Carter, Assistant Vice Chancellor for External Relations at UNC-Asheville, summarized the following finding highlights from the Economic Impact of the University of North Carolina at Asheville: (1) economic activity generated by UNC-Asheville supports 2,592 local jobs, adds $105.5 Million in local economy, and raises total economic output in the Asheville area by $268 Million; (2) for every dollar the state of North Carolina appropriates to UNC-Asheville (a) income increases by $2.96 in the Asheville area; and (b) total economic output increases by $7.57 in the Asheville area; (3) economic activity generated by UNC-Asheville increases annual tax revenues by more than $35.8 Million; $14.8 Million in state and local taxes, and $21 Million in federal taxes; (4) on-campus employment accounts for less than one-third of the local jobs UNC-Asheville supports - more than 1,800 local supported jobs are off-campus in industries well-outside of education. For example, UNC-Asheville supports 442 jobs in Retail Trade, 266 jobs in Real Estate, 246 jobs in Accommodation & Food Services and 243 jobs in Health Care & Social Assistance; (5) UNC-Asheville students spend over $30 Million annually in the local economy - student spending annually supports 506 local jobs, raises economic output by $36.3 Million, and increases tax revenues by $6.9 Million; (6) graduates of UNC-Asheville living in the Asheville area increase local earnings by $85 Million on an account of having attained a Bachelor's or

Graduate's degree - the graduate education premium supports 588 local jobs by means of adding spending, raises economic output by $64 Million, and increases tax revenues by $8.6 Million; (7) UNC-Asheville attracts new residents to the Asheville area. Survey results from Osher Lifelong Learning Institute attribute the annual relocation of 100 new households, partially on account of the Institute's activities and introduction to the community - added local spending from new 100 households supports 69 local jobs, raises economic output by $7.6 Million, and increases tax revenues by $1 Million; and (8) visitors who traveled form outside the Asheville area to attend or participate in a UNC-Asheville event spend an estimated $4.5 Million annually in the local economy - the visitor spending annually supports 95 local jobs, raises local economic output by $6.4 Million, and increases tax revenues by $1.1 Million.

On behalf of City Council, Mayor Bellamy thanked Mr. Carter for his striking highlights and was pleased with the partnership with UNC-Asheville.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER THE FISCAL YEAR 2013-14 ANNUAL OPERATING BUDGET

Budget Manager Tony McDowell said that this is the public hearing is to receive public input on the proposed Fiscal Year 2013-14 Annual Operating Budget. This public hearing was advertised on May 31 and June 7, 2013.

The Fiscal 2013/2014 Proposed Annual Operating Budget was presented to City Council on May 28, 2013. The Fiscal Year 2013/2014 Proposed Budget is balanced with a revenue-neutral Ad Valorem tax rate of $0.43 per $100 of assessed value. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. The Proposed Budget is also available for viewing on the City's website (www.ashevillenc.gov).

In addition to this Public Hearing, Council also received public input during this year's budget process at the Town Hall Budget Meeting which was held on April 3, 2013, and at the Community Budget Workshop which was held on April 18, 2013.

In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 31 and June 7, 2013. Adoption of the Fiscal 2013/2014 Budget Ordinance is scheduled for June 25, 2013, at the regularly scheduled City Council meeting. The Proposed Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the Ad Valorem Tax rate, which cannot be changed once the Budget is adopted.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2013/2014 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

Mr. McDowell then reviewed the proposed Fiscal Year 2014 budget assumptions regarding the Culture & Recreation Authority (CRA). If there is no CRA for Asheville, policy decisions include (1) Fiscal Year 2014 proposed operating budget (a) $1.5 Million budget gap (i) 1-cent tax rate increase and (ii) service reductions; and (2) Fiscal Year 2014-2018 Capital Improvement Program (a) implementation of community & economic development capital improvement plan would require 2-cent tax rate increase in Fiscal Year 2015; and (b) enhancing pay-go capital improvement plan would require a 1-cent tax increase.

Mayor Bellamy opened the public hearing at 5:38 p.m.

The following individuals commented about the City's proposed budget, with some comments being, but are not limited to: budget is not revenue neutral; opposed to $2 Million for Asheville Art Museum; new taxes seem to go to downtown projects; use the allocation proposed for the Asheville Art Museum and downtown parking decks for street & sidewalk infrastructure; support for location, staff and resources to support the Memorial Day event; support transit system with its current routes; support for Affordable Housing Trust Fund; work with non-profits in future years to meet the needs of children and families; too much money is spent on traffic calming; if the City funds non-profits then Planned Parenthood should be funded; and the proposed budget stretches the limits of residents and we need to re-frame thinking into sustainability:

Mr. John Miall
Mr. Saul Chase
Mr. Timothy Sadler
Mr. Ron Kennedy
Mr. Greg Borom
Mr. Alan Ditmore
Dr. Milton Byrd

At 5:57 p.m., Mayor Bellamy closed the public hearing.

There was considerable discussion by Council regarding the budget and the Plan B Council might need to be prepared for if the CRA doesn't happen. Some Council members felt it was unlikely that the CRA impact on our budget will happen, and since the City Manager's budget is built around that impact, that Council should direct the City Manager to prepare a different alternative (Option 2 - no CRA impact in Fiscal Year 2014 budget with a penny for operating (or service reductions) and 3 pennies for the Capital Improvement Plan).

In response to Councilman Bothwell, City Attorney Oast said that he did not believe that Council could adopt two different budgets, depending on whether the CRA would be enacted or not. He said that Council may know more about the CRA by June 25, at which time Council will need to adopt the budget and set the tax rate.

In response to Councilman Smith, Mr. McDowell said that the last property tax increase was in the late 1990's - 4-cent increase for street, sidewalk and park improvements and it also established the Affordable Housing Trust Fund.

Mayor Bellamy strongly supported the CRA because the City residents are paying for facilities like the WNC Nature Center, John B. Lewis Soccer Field and McCormick Field, but they are truly regional in nature. It's not fair to our residents to shoulder the entire burden.

At Mayor Bellamy's request, City staff addressed the items brought up during public comment.

When Mayor Bellamy urged Council to include funds for a Memorial Day event, City Manager Jackson said that a Memorial Day event can still happen without festival event staff.

Mayor Bellamy said that adoption of the Fiscal Year 2013-14 Annual Operating Budget would occur on June 25, 2013.

**B. PUBLIC HEARING TO CONSIDER PERMANENTLY CLOSING AN UNOPENED RIGHT-OF-WAY BETWEEN TARPON AND CRAGGY AVENUES**

Assistant Public Works Director David Foster said that this is the consideration of a resolution to permanently close an unopened right-of-way between Tarpon and Craggy Avenues. This public hearing was advertised on May 17, 24, 31 and June 7, 2013.

N.C. Gen. Stat. sec. 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, the adjoining property owner's (Bob and Caryn Hanna, Jody Guokas, Isaac Savage, Jim and Nancy Herrig, James and Martha Roberson, and Michael Kohnle and Deidre Duffy) have requested the City of Asheville to permanently close an unopened Right-of-way between Tarpon and Craggy Avenues.

The Planning Department recommends that the owner(s) offer some type of future pedestrian connection, or "shared use agreement" for future pedestrian amenities.

The Metropolitan Sewer District has identified a sewer line crossing mid-way in the right-of-way. An approved easement would need to be included in the revised property configuration.

The Greenway Commission reviewed this closure request at their meeting on May 9, 2013, and concurred with the request based on the inclusion of the future pedestrian connection provision.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

Pros:

- There will be no future compromise of ingress/egress to other properties
- The closure would allow for more efficient use of the existing adjacent properties.

Con:

- None

City staff recommends City Council adopt the resolution to permanently close the unopened right-of-way between Tarpon and Craggy Avenues.

In Mayor Bellamy's absence from the meeting room, Councilman Davis opened the public hearing at 6:47 p.m.

Ms. Caryn Hanna, property owner, urged Council to permanently close the wooded area, noting that all the adjoining property owners supported the closing.

In Mayor Bellamy's absence from the meeting room, Councilman Davis closed the public hearing at 6:49 p.m.

When Councilman Hunt asked if the property owners are amenable to placing some type of future pedestrian connection, or "shared use agreement" for future pedestrian amenities on the right-of-way, Ms. Hanna felt she should contact the other property owners as she was the only one present at the meeting

In response to Councilman Davis, City Attorney Oast said that the statute authorizes Council to reserve an easement for utility purposes only. It does not authorize Council to address an easement for pedestrian access.

Councilman Smith moved to continue this matter until June 25, 2013, in order to allow Ms. Hanna to contact her neighbors to see if they are willing to place an easement on the right-of-way for pedestrian access. This motion was seconded by Councilman Hunt and carried unanimously.

C. **PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH RESPECT TO AN ECONOMIC DEVELOPMENT PROJECT KNOWN AS PROJECT X**

**RESOLUTION NO. 13-120 - RESOLUTION APPROVING AN ECONOMIC DEVELOPMENT INCENTIVE AGREEMENT WITH RESPECT TO AN ECONOMIC DEVELOPMENT PROJECT KNOWN AS PROJECT X**

Economic Development Director Sam Powers said that this is the consideration of a resolution approving a $1,568,000 performance based economic development incentive grant for a company known herein as Project X. This public hearing was advertised on May 31, 2013.

This is the consideration for a performance-based economic development incentive grant under the City of Asheville Economic Development Incentive policy. Project X proposes to make investments to make improvements to facilities, and make expenditures to acquire and install machinery, equipment and other property which may increase the tax value as determined by the Buncombe County Tax Department, in the amount of $126,620,000. These significant investments, which will be at facilities located in the City of Asheville, will also allow Project X to create and maintain in the City for a ten (10) year period, from and after December 31, 2017, positions for at least 52 new full-time employees who will be employed in the City of Asheville and to retain all current full-time employees it has employed in the City of Asheville. The average median wage of the current full-time employees in the company is $57,000. The median average wage to be paid to the employees in the new full-time jobs would be approximately $40,000 per year, which is higher than the County's median average wage of $36,296. Further, the annual total labor income impact for Asheville and Buncombe County due to these jobs is more than $34,000,000 per year.

The City proposes to appropriate and spend from the City's general fund, pursuant to NCGS § 158-7.1, amounts to make certain cash grants not to exceed $1,568,000 over a period of seven years and distributed after job creation and investment is achieved, or mutually agreed performance benchmarks are established. The purpose of these grants would be to induce Project X to make these investments in its facilities in the City of Asheville. The City of Asheville and Project X shall enter into an economic development agreement that will clearly state their respective responsibilities under the agreement, including provisions regarding remedies for a breach requiring the recapture of sums appropriated or expended by the City upon the occurrence of events specified in the agreement. Events that would require the City to recapture funds would include the creation of fewer jobs than specified in the agreement, a lower capital investment than specified in the agreement, and failing to maintain operations at a specified level for a period of time specified in the agreement.

Project X's operations in the City of Asheville at the levels of employment indicated would further the economic interests of the City in numerous ways, including through the following specific benefits: (a) by creating a substantial number of new full time jobs with an average wage greater than the median average wage in the County; (b) by enhancing the City's property tax base and increasing the City's property tax revenues; and (c) by locating in the City a manufacturing facility. In addition to holding the public hearing, the Council intends to take action during the meeting in connection with these matters, including authorizing final negotiation of the terms and conditions of an economic development agreement with Project X, and may approve the making of cash grants to Project X.

The economic development incentive grant ties into City Council's Strategic Operating Plan as it addresses multiple focus areas of the Plan.

Pros:

- Performance driven grant that is distributed after job and investment is achieved;

- Supports job creation and capital investment in manufacturing in Asheville;
- Supports retention and expansion of existing industry in the City;
- Supports development of an identified economic cluster in the City; and,
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of new incremental tax revenue for a seven year period.

The City of Asheville proposes to offer Project X a performance-based grant not to exceed $1,568,000. The performance-based grant will be paid over a 7 year period and distributed after job creation and investment is achieved or mutually agreed performance bench marks are established, taxes are paid and verified, and the company requests payment. The amount of the annual payment will take into consideration the estimated annual ad valorem tax revenue attributable to the capital improvements, and any annual payment will not exceed $224,000. It is anticipated that the first annual payment will occur in FY 2014-15.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive approximately 50% of the new incremental property tax revenues from the project. After 7 years, the City will henceforth receive 100% capture of new city taxes.

City staff recommends Council approve the resolution authorizing an economic development incentive grant for Project X not to exceed $1,568,000.

Mr. Powers responded to Councilman Smith when he asked for clarification of medium and average wages.

Councilman Smith said that during Council's retreat, he asked that Council re-examine our economic development policies because we haven't done a great job to have meaningful incentives for our medium and small home grown businesses.

In response to Councilman Smith, Mr. Powers explained the interdepartmental team and their incentive update timeline which the City Council Planning & Economic Development (PED) Committee requested be organized. He said they will be reporting back regularly to the PED Committee

In Mayor Bellamy's absence from the meeting room, Councilman Davis opened the public hearing at 7:10 p.m.

When Ms. Gwen Wisler asked if the City follows up with companies to see if their employees are City or Buncombe County residents, Mr. Powers said that in the past we have not made it a requirement that jobs created are either for Asheville or Buncombe County residents, but we know from past work with companies that appropriately 65-70 people live in Buncombe County and 35% live within Asheville.

Mr. Jerry Rice felt the City should not be providing incentives for companies that are so large they could buy out the entire City and County. He felt that if the company fails, the taxpayers will be the ones who will be penalized. He felt that the company should be upfront with who they are so citizens can be well informed.

Mr. Alan Ditmore spoke in opposition of Project X if it is an aviation industry, as they are not making the world a better place.

Dr. Milton Byrd felt that the economic incentives are not benefiting the people of Asheville. The incentive policy needs to be re-visited.

Ms. Leslee Kulba urged Council not to subsidize large corporations.

At 7:23 p.m., Mayor Bellamy closed the public hearing.

Councilman Pelly felt that even though this is not the direction he felt we need to go, he reminded the public that we are not writing checks. The performance-based grant will be paid over a 7 year period and distributed after job creation and investment is achieved, taxes are paid and verified, and the company requests payment. During that time we are collecting all property and other taxes associated with the company.

Councilman Bothwell is troubled by the secrecy of this project. He felt that if the company was transparent from the beginning, he might feel differently about supporting the incentives.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 13-120. This motion was seconded by Councilman Hunt and carried on a 5-1 vote, with Councilman Bothwell voting "no".

**RESOLUTION BOOK NO. 35– PAGE 321**

**Closed Session**

At 7:32 p.m., Councilman Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina, City of Asheville; and Metropolitan Sewerage District. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11 (a) (6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory is contained in G.S. 143-318 (a) (1); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:11 p.m., Councilman Bothwell moved to recess the closed motion to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilman Davis and carried unanimously.

**D. PUBLIC HEARING TO CONSIDER REZONING A PORTION OF PROPERTY OFF SWEETEN CREEK INDUSTRIAL PARK FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO INDUSTRIAL DISTRICT**

**ORDINANCE NO. 4197 - ORDINANCE REZONING A PORTION OF PROPERTY LOCATED OFF SWEETEN CREEK INDUSTRIAL PARK FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO INDUSTRIAL DISTRICT**

Councilman Davis moved to excuse Councilman Smith from the remainder of the meeting. This motion was seconded by Councilman Pelly and carried unanimously.

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance to rezone a portion of property located off Sweeten Creek Industrial Park from RS-8 Residential Single Family High Density District to Industrial District. This public hearing was advertised on May 31 and June 7, 2013.

She said that the subject area for this rezoning petition is about 7.5% of the entire parcel as shown in the Buncombe County Land Records. The parcel, owned by the City of Asheville, is on western edge of the Ray L. Kisiah Park, but the actively used amenities of the park consist only of the ballfields a significant distance from the site on the southern half of the parcel. The northern half is undeveloped woodland which shows little evidence of public use. There appear to be no trails in the area save a partially cleared path beneath power lines near the southern tip of the subject area.

The actual subject area for the rezoning is a triangle approximately 2.8 acres in size. Along the longest edge of the triangle, to the west, it is bordered by a business in the Sweeten Creek Industrial Park. The other two sides of the triangle abut the City-owned land described above, with the northern tip of the triangle adjacent to the backyards of two residential properties. This rezoning is being initiated by the City for future economic development purposes. It would make the subject area's zoning consistent with the zoning to the west (Industrial) rather than that to the east (RS8). The proposed rezoning would result in a split-zoned property for the short term, but the City has stated an intention to divide off the industrially-zoned portion so that the property lines would follow the zoning district boundaries.

The northern half of the City-owned parcel currently provides a buffer between the industrial park and the residential neighborhoods to the east, but even if the subject area were to be developed with any allowed use in the future, the subject area would be more than 250 feet from the Ashwood Drive subdivision. Furthermore, a 30-foot buffer would be required along the edge of the development bordering residential zoning, totaling two-thirds of an acre, or almost a quarter of the subject property.

"Realizing the importance of industrial uses to the economy of the City of Asheville," the UDO states, "it shall be the purpose of the Industrial District to reserve land for existing and future industrial activities and for land uses that support industrial activities. Development standards are established to ensure that land uses located outside the Industrial District are not adversely affected by the negative impacts of industrial uses. Industrial Districts shall be located to capitalize on existing infrastructure where possible, such as transportation facilities and utilities."

The intent of the RS-8 Residential Single-Family High Density District is "to establish a high density per acre for single-family dwellings where public infrastructure is sufficient to support such development and to stabilize and protect the district's residential character in areas of existing high density single-family development while promoting a suitable environment for single-family living. Non-single-family development normally required to provide the basic elements of a balanced and attractive residential area is also permitted."

The City of Asheville Parks, Recreation, Cultural Arts and Greenways Master Plan from 2009 does not include any specific recommendations for changes to Kisiah Park; and more than 20 acres of unimproved parkland would remain available for future additions of facilities or programming. Staff feels the isolated position of the subject area, and the consistency of the proposed zoning with the area to the west, as well as the compliance with the comprehensive plan's goals regarding industrial land, are all factors in the petition's favor.

At their June 5th, 2013 meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning.

As of this writing, staff has received no communications from the public regarding the petition in question.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The change is suitable for the subject area and consistent with other adjacent and nearby land uses, taking into account required buffering for any future development.
- It complies with important goals of the comprehensive plan.
- It would increase capacity for economic development in the City.

Cons:

- Small loss of undeveloped land on the outer boundary of a park.
- Would create a (likely to be temporary) split-zoning situation.

In recent years, there have been numerous rezoning petitions resulting in the loss of industrially zoned land in the City's jurisdiction. This petition stands to add industrial capacity, and for the reasons stated above, staff recommends approval.

Mayor Bellamy opened the public hearing at 8:14 p.m. and when no one spoke, she closed the public hearing at 8:14 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4197. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 243**

**V. UNFINISHED BUSINESS:**

**A. ORDINANCE NO. 4198 - ORDINANCE REPEALING THE GREENWAY COMMISSION**

**ORDINANCE NO. 4199 - ORDINANCE REPEALING THE TRANSIT COMMISSION**

**RESOLUTION NO. 13-121 - RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION**

Executive Director of Public Works and Multimodal Transportation Cathy Ball said that this is the consideration of ordinances repealing the Greenway Commission and the Transit Commission.

At the February 2013 Boards and Commissions meeting, staff presented a model for combining/augmenting various transportation and neighborhood related boards by forming a Multimodal Transportation Commission.

Staff and/or Council members have met with the various Boards and Commissions and have tweaked the initial recommendations. The total membership on the board is proposed to be nine voting and three non-voting members.

On May 14, 2013, City Council adopted an ordinance establishing the Multimodal Transportation Commission. The new Multimodal Transportation Commission includes members

from the Transit Commission, the Greenway Commission, and the Bicycle and Pedestrian Task Force. In the future, the Transit Commission and the Greenway Commission will serve as sub-committees to the Multimodal Transportation Commission.

This action will repeal the existing ordinances that created both the Transit Commission and the Greenway Commission.

This action complies with one of Council's Strategic Goals by supporting multimodal transportation planning.

Staff recommends that City Council repeal previous ordinances establishing the Transit and Greenway Commissions.

In response to Mr. Alan Ditmore about specific groups being represented on our boards and commissions, City Manager Jackson explained that the way to increase representation is to encourage those people to apply for boards so they can become eligible for future appointments.

In response to Dr. Milton Byrd, Mayor Bellamy explained that the Multimodal Transportation Commission is a Council-appointed Commission.

Councilman Bothwell moved for the adoption of Ordinance No. 4198. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 246**

Councilman Bothwell moved for the adoption of Ordinance No. 4198. This motion was seconded by Councilman Hunt and carried unanimously.

**ORDINANCE BOOK NO. 28 - PAGE 247**

Mayor Bellamy read the following names of the individuals appointed to the Multimodal Transportation Commission: Itiyopia Ewart, Julie Mayfield and Bruce Emory (Transit Sub-Commission representatives); Marcia Bromberg, Mary Weber and Jim Grode (Greenway Sub-Commission representatives); Till Dhose, Don Kostelec and Terri March (Bike and Pedestrian Task Force representatives); Robert Roepnack (Neighborhood Advisory Committee non-voting ex-officio member); Kristy Carter (Planning & Zoning Commission non-voting ex-officio member); and Lael Gray (Sustainable Advisory Committee on Energy & the Environment non-voting ex-officio member).

Councilman Bothwell moved for the adoption of Resolution No. 13-121. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 322**

**B. RESOLUTION NO. 13-122 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A CONTRACT WITH CODE STUDIO FOR PROFESSIONAL PLANNING SERVICES TO CREATE A FORM-BASED CODE FOR THE HAYWOOD ROAD CORRIDOR IN WEST ASHEVILLE**

Planning & Development Director Judy Daniel said that this is the consideration of a resolution authorizing the City Manager to execute a contract with Code Studio for professional planning services to create a form-based code for the Haywood Road Corridor in west Asheville.

The City Council has long supported planning efforts that work toward the goals of the 2025 Comprehensive Plan, including small area plans. In recent years the Council has come to

support the gradual evolution toward regulatory code that is based in creating great places through defining the form of the built environment, rather than the regulation of uses.

In support of this policy, City Council's adopted 2012-13 Annual Operating Budget included funding in the amount of $100,000 for the creation of a "demonstration" form-based code project. Because of budget constraints the Council did not give final authorization for the project until early in 2013. The Council then considered two locations for the project and ultimately selected the Haywood Road corridor in West Asheville for this project.

The Planning and Development Department issued a Request for Proposals for Form-Based Code planning services in April. A selection committee comprised of planning staff, Planning Commissioners, and West Asheville residents evaluated the responses. Each firm was scored on a list of baseline criteria and the panel came to a consensus that Code Studio of Austin, Texas, was the best match for the City for this project.

Code Studio is a planning and design firm from Texas with national experience and expertise in this emerging field of planning. They are partnering with other firms and individuals with expertise in transportation, economic analysis, and project management. The project is to be completed before the end of 2013.

Therefore, the Planning Department seeks Council's approval for a contract between the City of Asheville and Code Studio in an amount not to exceed $100,000. Because the funding for this contract was authorized within the adopted budget for 2012-2013 no budget amendment is required.

This action is in support of Goal #2/Objective #1 in the Council's Strategic Operating Plan in the Job Growth and Community Development area which states: Support a strong local economy by continuing to implement sustainable growth and development policies, by promoting sustainable, high-density, infill growth that makes efficient use of existing resources. A sub-objective of that goal is to work toward support for urban scale small area plans.

Pro:

- This contract will equal the approved budget amount of $100,000.

Con:

- None noted.

As noted above, the FY 2012-13 Planning Department budget includes adequate funding for this contract.

City staff recommends that the City Council approve a resolution authorizing the City Manager to execute a contract with Code Studio in the amount of $100,000 for professional planning services.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-122. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 324**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-123 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH THE ASHEVILLE CITY BOARD OF EDUCATION FOR A PORTION OF CITY-OWNED REAL PROPERTY AT 285 LIVINGSTON STREET**

Parks, Recreation & Cultural Arts Director Roderick Simmons said that this is the consideration of a resolution authorizing the City Manager to execute a Lease Agreement with the Asheville City Board of Education for a portion of city-owned real property at 285 Livingston St., Asheville, N.C., known as the Dr. Wesley Grant Sr., Southside Center (Grant Center).

The Asheville City Schools (ACS) system is beginning the process of constructing two new schools including the new Isaac Dickson Elementary and new Asheville Middle School. ACS has requested the City's assistance by providing a lease of property in order for the school district to provide space for William Randolph School students who are being relocated due to Dickson students moving to the Randolph School campus during the construction period.

The property at 285 Livingston St. is approximately 9.37 acres in total and is improved with the Cultural Arts Phase of the Dr. Wesley Grant Sr, Southside Community Center. ACS desires to locate a modular unit containing 12 mobile classrooms on the Grant Center property for the operation school educational activities. The module unit is approximately 12,000 SF and with walkways, decks and ramps; will encompass approximately 1 acre. The classroom units will include bathrooms for students and staff. Lunch will be served in the modular unit and classrooms will include library space. Additionally, ACS requests to utilize the Grant Center auditorium and classroom space as supplementary space for students if needed; schedule to be mutually determined. The hours of operation are flexible and will be scheduled to minimize disruptions to the programs currently offered at the Grant Center.

Once the lease term has concluded, ACS agrees to remove the improvements and restore the premises to its original condition.

The City's Master Plan for the property includes the future development of specific community amenities, including (1) the Town Branch Greenway, (2) A splash-pad water park feature and playground, (3) a gymnasium and additional community center space. The proposed location of the ACS modular building does not impede the development of the next phase of improvements, specifically the splash pad and Town Branch Greenway.

The proposed lease terms are as follows:

- Lease Term: 2 Years from 7/1/13 to 6/30/15
- Rental Rate and Additional Consideration: $1/Yr. and ACS agrees to use its best efforts to work with the City to identify an appropriate and mutually agreeable location for a future greenway easement area on its Asheville Middle School property in connection with the City's planned Clingman Forest Greenway.
- Tenant responsibilities:
    a. Maintenance of modular unit, cleanliness of lease area
    b. All utilities to be contracted for and paid by the tenant; tenant to use Grant Center water, but have flow meter installed and pay for water use
- Tenant use of parking lot during the day as available for cars and bus drop-off and pick up
- Tenant use of other spaces in Grant Center (i.e. auditorium) as available and mutually determined
- Mutual rights to terminate lease
- Standard provisions of all City leases (e.g. insurance, indemnity, etc.) will also apply

City staff recommends City Council adopt a resolution authorizing the City Manager to execute the lease agreement with the Asheville City Schools on behalf of the City of Asheville.

Ms. Jacquelyn Hallum, Chair of the Asheville City Board of Education, asked for Council's support to move forward with this lease.

Mr. Allen Johnson, Superintendent of City Schools, along with Mr. John Legerton, architect, and Mr. Dewayne Tillman, Assistant Principal of William Randolph Elementary School, reviewed with Council a PowerPoint which explained the move from Randolph School move to the Dr. Wesley Grant Sr. Southside Center; and the Dickson move to the William Randolph School site.

Mayor Bellamy was pleased about the partnership between the City and the City Board of Education. She was glad we can help meet their needs.

Mayor Bellamy asked for a programming update of the Dr. Wesley Grant Sr. Southside Center so people in the community will know they will still have access to the Center.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 13-123. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 - PAGE 325**

**B. BOARDS & COMMISSIONS COMMITTEE**

Regarding the Civil Service Board, the following individuals have applied for the vacancies: Carolyn Worthington, Elizabeth Franks and Lynn Moffa. It was the consensus of City Council to instruct the City Clerk to arrange interviews for those that applied.

Regarding the Public Art & Cultural Commission, the following individuals have applied for the vacancy: Charley Akers, Amy Huntsman, Wayne Wheeler, Jared Gold, Bryan Andrews, Victor Palomino and Kara Warren. It was the recommendation of the Public Art & Cultural Commission and the consensus of the Boards & Commissions Committee to re-advertise for the vacancy.

**RESOLUTION NO. 13-116 - RESOLUTION APPOINTING A MEMBER TO THE CITIZENS-POLICE ADVISORY COMMITTEE**

Councilman Davis, member of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Citizens-Police Advisory Committee.

Mr. Charlie Hume resigned on January 4, 2013, thus leaving an unexpired term until June 30, 2014.

The following individuals have applied for the vacancy: Karl Katterjohn, Fred Cooke, Scott Steele and Grant Osborne.

It was the consensus of the Boards & Commissions Committee to appoint Grant Osborne.

Councilman Bothwell moved to appoint Grant Osborne to the Citizens-Police Advisory Committee, to serve the unexpired term of Mr. Hume, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 315**

**RESOLUTION NO. 13-124 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION**

Councilman Davis, member of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civic Center Commission.

The term of Bill Jones expires on June 30, 2013.

The following individuals have applied for the vacancy: Antonio Hinton, Arthur Ollendorff, Elizabeth Franks, Suzanne Rice, Sean McNeal, Steve Lockett, Yvonne Cook-Riley and Nick King.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Jones.

Councilman Hunt moved to reappoint Bill Jones to serve an additional three-year term, term to expire June 30, 2016, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 326**

**RESOLUTION NO. 13-119 - RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE**

Councilman Davis, member of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Neighborhood Advisory Committee.

Ms. Jean Boyd, representing the 28801 zip code, has resigned from the Committee, thus leaving an unexpired term until July 1, 2015. The following individuals with the 28801 zip code have applied for the vacancy: Grant Osborne, Joseph Fioccola, Elizabeth Frank, Carolyn Worthington and Nick King.

Ms. Peggy Dutton, representing the 28803 or 28704 zip code, has resigned from the Committee, thus leaving an unexpired term until July 1, 2015. The following individuals with the 28803 or 28704 zip code have applied for the vacancy: Spencer Hardaway, Neil Barrett and Amy Evans. On May 14, City Council interviewed Rev. Hardaway, but Ms. Evans did not show up for her interview.

In addition, the terms of DeWayne Barton (28806 or 28728 zip code), Carmen Ramos-Kennedy (at-large) and Alan Escovitz (at large) members terms expire on July 1, 2013. The following individuals have applied for the vacancies: Jessica Byrd and Rich Lee.

Councilman Bothwell moved to (1) reappoint DeWayne Barton (28806 or 28728 zip code), Ms. Carmen Ramos-Kennedy (at-large representative) and Alan Escovitz (at-large representative) to each serve a three-year term respectively, terms to expire July 1, 2016, or until their successors have been appointed; (2) appoint Joseph Fioccola (28801) to serve the unexpired term of Ms. Boyd, term to expire July 1, 2015, or until his successor has been appointed; and (3) appoint Spencer Hardaway (28803 or 28704) to serve the unexpired term of Ms. Dutton, term to expire July 1, 2015, or until his successor has been appointed. This motion was seconded by Councilman Pelly and carried unanimously.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler spoke to Council about the need to strive for an exceptional transit system and then riders of choice will come on board.

Dr. Milton Byrd spoke about the importance of public trust.

Mayor Bellamy thanked those who worked on the Memorial Day event.

The City was served with a Complaint on or about May 7, 2013, which is generally described as follows; Lisa J. Richmond (formerly Lisa Roth) vs. City of Asheville, et al. Complaint is for wrongful arrest and prosecution. This matter will be handled by an attorney outside the City Attorney's Office.

**Closed Session Continued**

At 8:53 p.m., Councilman Bothwell moved to go into closed session to continue discussion of the items previously announced. This motion was seconded by Councilman Davis and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:18 p.m.

Magdalen Burleson
CITY CLERK

Jan M Bellamy
MAYOR

Tuesday – June 25, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; City Attorney Robert W. Oast Jr.; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Hunt gave the invocation.

**I. PROCLAMATIONS:**

**A. RESOLUTION NO. 13-125 - RESOLUTION OF APPRECIATION TO ROBERT W. OAST JR.**

Resolution No. 13-125 was adopted by acclamation.

Mayor Bellamy spoke kind words of City Attorney's Oast's service to City Council and the citizens of Asheville and presented him with the resolution, his name plate and a City pen.

City Attorney Oast thanked the public and his family for allowing him to serve. He also thanked City staff and City Council for their professionalism and dedication to the citizens of Asheville.

**RESOLUTION BOOK NO. 35 - PAGE 327**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 11, 2013**

**B. ORDINANCE NO. 4200 - TECHNICAL BUDGET AMENDMENT FOR U.S. CELLULAR CENTER AND GOLF FUND**

Summary: The consideration of (1) a technical budget amendment, in the amount of $170,000, from US Cellular Center operating revenue, to appropriate sufficient budget to cover event settlement expenses previously netted against operating revenue; and (2) a technical budget amendment, in the amount of $500,000 from General Fund restricted fund balance, for the purpose of transferring resources to the Golf Fund to close the fund out and eliminate the interfund liability.

***US Cellular Center Fund Settlement Expenses***

As a part of its promotional agreement with AC Entertainment (AC), the US Cellular Center shares certain revenues and expenses with AC. In prior fiscal years, when staff completed show settlements for AC events, settlement charges were netted against gross

revenues. Beginning in FY 2012-13, Finance Department staff changed the accounting procedure for these events such that settlement charges are now reflected in the US Cellular Center Fund budget as true expenses, which resulted in both higher revenues and expenses. This change in accounting procedure occurred after the FY 2012-13 budget was adopted, so no appropriation was included in the budget for the settlement expenses. The technical budget amendment will provide authorization for this expense by increasing the revenue and expense budget for the US Cellular Center Fund.

As noted above, US Cellular Center Fund operating revenues will be used to cover this technical budget amendment.

***Golf Fund Close Out***

In FY 2005-06, the City of Asheville assumed operation of the Municipal Golf Course from Buncombe County. In that fiscal year, the City established the Golf Enterprise Fund on its financial statements in order to account for the revenues, expenses, assets, and liabilities associated with operation of the course. During the current fiscal year, City Council approved a lease of the municipal golf course to Pope Golf, Inc. With Pope Golf assuming every day operation of the course, the City no longer needs to maintain the Golf Enterprise Fund on its financial statements beyond the current fiscal year.

As previously discussed with Council, there were several fiscal years in which expenses in the Golf Fund exceeded operating revenues and formal transfers in from the General Fund. As a result, a negative cash and investment position developed in the Golf Fund. When this situation occurs, the negative cash and investment position is reflected as an interfund liability (due to other funds) on the City's financial statements. As of June 30, 2012, the due to other funds liability in the Golf Fund totaled $523,831.

Because accounting and financial reporting regulations require negative cash and investment positions to be offset in other funds, the General Fund's cash and investment position was reduced by the amount above in the FY 2011-12 Comprehensive Annual Financial Report (CAFR). This amount was reflected on the General Fund balance sheet as "due from other funds" and in fund balance as "restricted Stabilization by State Statute". Since cash and investments represent the beginning point for the calculation of fund balance, the General Fund's FY 2011-12 unassigned fund balance position already reflected the impact of the negative cash position in the Golf Fund. Therefore, the close out of the Golf Fund and the elimination of the interfund liability will have no impact on the General Fund's unassigned fund balance.

City staff believes that the financial performance of the Golf Fund in FY 2012-13, which includes the first quarter of operations on the City's books as well as the lease payments received from Pope, will be slightly positive so the due to other funds liability will decrease from the $523,831 amount that was reported at the end of FY 2011-12. Therefore, in order to close out the Golf Fund, staff is requesting Council approval of a budget amendment in the amount of $500,000 in order to formally transfer resources to the Golf Fund to eliminate the interfund liability described above.

As noted above, General Fund unassigned fund balance at June 30, 2012 already reflected the financial impact of the interfund receivable from the Golf Fund, therefore this amendment has no impact on the General Fund's available fund balance. The leasing of the Municipal Golf Course to Pope Golf had a positive financial impact of approximately $210,000 by eliminating the General Fund subsidy to the Golf Fund and providing for a lease payment to the city. The proposed FY 2013-14 budget includes a lease payment of $75,000 from Pope Golf to the City of Asheville, which will be accounted for in the General Fund. All capital assets of the Municipal Golf Course will also be transferred from the Golf Fund to the General Fund.

City staff recommends City Council approve (1) a technical budget amendment, in the amount of $170,000, from US Cellular Center operating revenue, to appropriate sufficient budget to cover event settlement expenses previously netted against operating revenue; and (2) a technical budget amendment, in the amount of $500,000 from General Fund restricted fund balance, for the purpose of transferring resources to the Golf Fund to close the fund out and eliminate the interfund liability.

**ORDINANCE BOOK NO. 28 - PAGE 248**

**C. RESOLUTION NO. 13-126 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ROGERS GROUP INC. FOR THE ASPHALT PAVING IMPROVEMENTS - PHASE 1 PROJECT**

**ORDINANCE NO. 4201 - BUDGET AMENDMENT FOR ASPHALT PAVING IMPROVEMENTS - PHASE 1 PROJECT**

Summary: The consideration of (1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,061,272 plus a contingency of 3.6% ($38,728) with Rogers Group, Inc. for the project known as Asphalt Paving Improvements – Phase 1, City of Asheville Project # ENG-12-13-017; and (2) a budget amendment in the amount of $418,595 from prior and current year overlay and degredation fees and unspent capital reserve funds.

A number of roads in the City are beyond their time to be resurfaced. A list of warranted streets was put together to be addressed by this contract. This contract also marks the first use of the restructuring of the Public Works Department in contracting out work formerly done in-house. The project was advertised and on May 8, 2013, and due to an insufficient number of bids, advertised again on May 30, 2013. Bids were opened with Rogers Group, Inc. of Nashville, TN, being the lowest responsible bidder with a bid of $1,061,272. This unit price contract bid presents the City with potential savings compared with our Engineer's Estimate of $1,912,037. The City did its due diligence in establishing that this was a responsible bid. A 3.6% contingency ($38,728) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from this contract would fix a number of roads that are in drastic need of repair and satiate an unhappy group of citizens.

Streets to be repaired in this contract include: Pebble Creek Dr., .T. Weaver Blvd., King St., Woodfin St., Coleman Ave., Montview Dr., Asheland Ave., Hanover St., Ravena St., and Dunkirk Rd.

The total budget for this project, including contingency, is $1.1 million. There is currently $681,405 available in the Streets Division's contracted services budget for this project. The remaining $418,595 will be appropriated via budget amendment from two sources. The first source is overlay/degredation fees collected in FY 2011-12 and FY 2012-13 through the City's Street Cut Utility program. To date, the City has collected $227,952 from these fees. The fees collected in FY 2011-12 were included in assigned fund balance in last year's audit report, so their appropriation will have no impact on the City's unassigned fund balance percentage. The remaining $190,643 needed for this contract will be appropriated from unspent capital reserve funds. City accounting staff has recently closed a number of completed capital projects, and as of June 17, the City had approximately $350,000 in unexpended capital funds. Staff has already recommended that $75,000 from this balance be allocated to next year's Capital Improvement Program, leaving an available balance of $275,000. If Council approves this additional appropriation of $190,643 for the paving contract, there will be approximately $85,000 remaining in unspent capital funds (i.e. capital reserve).

City staff recommends City Council adopt: 1) the resolution awarding the contract to Rogers Group, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville

a contract in the amount of $1,061,272 plus a contingency of 3.6% ($38,728) with Rogers Group, Inc. for the project known as Asphalt Paving Improvements – Phase 1, City of Asheville Project # ENG-12-13-017; and 2) a budget amendment in the amount of $418,595 from prior and current year overlay and degredation fees and unspent capital reserve funds.

When Councilman Bothwell asked if the contractor pays a living wage, Streets & Engineering Manager Greg Shuler said that he was not sure. However, he said that provision was not part of the contract when it was negotiated.

Councilman Bothwell said that when we let contracts for jobs that are saving the City money, we should make sure that they adhere to our living wage policy.

**RESOLUTION BOOK NO. 35 - PAGE 328**
**ORDINANCE BOOK NO. 28 - PAGE 251**

**D. ORDINANCE NO. 4202 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL SUCH THAT RENTAL FEE FOR ANY ADDITIONAL MUNICIPAL SOLID WASTE ROLL-OUT CARTS IS THE SAME PRICE AS THE STANDARD MUNICIPAL SOLID WASTE FEE**

Summary: The consideration of an ordinance amending the Fees and Charges Manual such that the rental fee for any additional municipal solid waste roll-carts is the same price as the standard municipal solid waste fee.

Currently solid waste customers can pay a rental fee of $6.90 per month per cart to have additional an 96-gallon rolling garbage cart. In March 2013, Asheville City Council changed the sanitation fee structure to $7.00 per household per for standard garbage collection and removed the cost for recycling service. The new fee structure supports Council's strategy to reduce the amount of waste going into the landfill by connecting the fee to solid waste collection instead of recycling. The currently proposed ordinance amendment would change the fee for additional solid waste roll carts from $6.90 per month per cart to $7.00 per month per cart. This adjustment is recommended to remove the price signal that the more your throw away the less you pay for the service.

The $1,642 increase in revenue would occur in the general fund. This additional revenue will support expanding the long term strategy to reduce city-wide solid waste.

City staff recommends City Council adopt an ordinance to amend the Fees and Charges Manual.

**ORDINANCE BOOK NO. 28 - PAGE 253**

**E. RESOLUTION NO. 13-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANTS VIA THE N.C. DEPT. OF COMMERCE SMART GRID PROGRAM**

**ORDINANCE NO. 4203 - BUDGET AMENDMENT TO ACCEPT GRANTS FOR ENERGY EFFICIENCY PROJECTS**

Summary: The consideration of (1) a resolution authorizing the City Manager to accept grant funds via the N.C. Dept. of Commerce Smart Grid Program Grant; and (2) a budget amendment, in the amount of $6,352, in revenue from the fuel monitoring grant, and $1,203 from Duke Energy Progress, for energy efficiency rebates.

The Smart Grid Program Grant is an initiative led by the NC Department of Commerce to increase their understanding of state and municipal government fuel consumption trends by

installing smart grid technology at municipal fuel stations and analyzing the data across North Carolina. The grant funds will be used by the City of Asheville to supplement the Energy Analyst's time spent analyzing and reporting the data to the state. The funds received from Duke Energy Progress are for the ongoing energy efficiency retrofits across the city such as lighting and will be used to supplement the Energy Analyst's time project managing those retrofits.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept grant funds via the N.C. Dept. of Commerce Smart Grid Program Grant; and (2) a budget amendment, in the amount of $6,352, in revenue from the fuel monitoring grant, and $1,203 from Duke Energy Progress, for energy efficiency rebates.

**RESOLUTION BOOK NO. 35 - PAGE 364**
**ORDINANCE BOOK NO. 28 - PAGE 255**

**F. RESOLUTION NO. 13-127 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH R & W INC. FOR THE RENOVATION OF THE ASHEVILLE POLICE DEPARTMENT HVAC SYSTEM**

**ORDINANCE NO. 4204 - BUDGET AMENDMENT FOR THE ASHEVILLE POLICE DEPARTMENT HVAC SYSTEM**

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into a contract with R & W Incorporated for the renovation of the HVAC system serving the Police Department evidence rooms located in the Municipal Building; and (2) a budget amendment in the amount of $100,000 from previously budgeted funds and savings in other capital projects that came in under budget.

The HVAC system for the evidence rooms in the Municipal Building is not a dedicated system. Changes and additions have been accomplished over the years and a HEPA filtration system is currently in place.

A dedicated HVAC system for the evidence rooms will meet the specific requirements of the Asheville Police Department Accreditation standards and create a safer environment for employees. The new system will be interconnected to the controls for the building, maintaining Facility staff's ability to manage and supervise the equipment remotely. The HEPA filtration system will be incorporated into this new system.

R & W Incorporated was the low responsible bid. The project has the potential for unknown conditions making additional work and cost a possibility. The contractor and facility staff are committed to reducing these by working as a team. The base bid for the HVAC system is $94,767.

Due to the uncertainty in utilizing existing system parts and building components staff recommends Council authorize $100,000 for the project. The FY 2013-14 Police Department operating budget includes $50,000 for this project. The remaining $50,000 will be taken from the McCormick Field resurfacing capital project, which came in under budget. The budget amendment will provide authorization to create a $100,000 project in the City's General Capital Projects Fund.

The cost of the base bid for the renovation of the evidence rooms HVAC is $94,767. Unknowns are present and could increase the project cost. The total cost of the project including the unknowns is anticipated not to exceed $100,000. As noted above, the Police Department FY 2013-14 operating budget already includes $50,000 for this project. The remaining $50,000 will come from the McCormick Field resurfacing capital project, which came in under budget.

City staff recommends that City Council (1) adopt a resolution authorizing the City Manager to sign the contract with R & W Incorporated and future change orders associated with the project not to exceed the total approved budget amount; and (2) adopt a budget amendment in the amount of $100,000 from previously budgeted funds and savings in other capital projects that came in under budget.

**RESOLUTION BOOK NO. 35 - PAGE 329**
**ORDINANCE BOOK NO. 28 - PAGE 257**

**G. RESOLUTION NO. 13-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH RIVERLINK INC. TO RECEIVE FUNDS FROM THE CLEAN WATER MANAGEMENT TRUST FUND**

Summary: The consideration of a resolution allowing the City Manager to enter into a Memorandum of Understanding with RiverLink, Inc to receive funds from the Clean Water Management Trust Fund (CWMTF) and to sign any necessary documents that may be required by CWMTF.

This City of Asheville is currently in the design phase of the Craven Street improvement project. This project consist of a complete street design which includes bike lanes, sidewalk, on street parking, a greenway associated with the project, a Low Impact Parking Lot, stream restoration and stormwater quality best management practices (BMP's). The city has been working with RIverLink, Inc. on an application for CWMTF. The trust fund has awarded RiverLink, Inc. $400,000 for work associated with water quality improvements in the Craven Street sub water shed. RiverLink plans to make available for the city's stormwater BMP's $365,000 for these improvements. The remaining portion will be used by RiverLink for public outreach and water quality testing in the project area.

The primary goal associated with these CWMTF funds are to reduce the stormwater pollutants through the installation of a stormwater BMP's and also to provide additional storage in the project area. The city's project will also provide a much needed stream bank restoration through the New Belgium Property. The stream restoration will not be funded through the CWMTF.

Successful implementation of this project will protect and enhance water quality of the French Broad River Basin by reducing typical runoff pollutants that are released into the river.

The City of Asheville must provide assurance to the North Carolina Clean Water Management Trust Fund that it understands the functions and obligations to which the City is committing itself in order to carry out the work described in this grant contract, and also commit that the City of Asheville will proceed with diligence to perform those functions and obligations to accomplish the work described in any grant contract that may result from the original application. This can be performed by entering into a Memorandum of Understanding with RiverLink for this work.

The City had the opportunity to assist in the application of this grant in which RiverLink was granted funding through the CWMTF for the implementation of this project. The City of Asheville will receive $365,000 toward the implementation of this project in which the funding will be transferred through RiverLink. The City will be responsible for the implementation of the grant contract and will be required to provide documentation associated with the project cost and other information to both RiverLink and the CWMTF. The City will be responsible for in kind match and also cash match for the CWMTF project of $717,800. The city will be responsible to secure the necessary easements through our willing partner New Belgium Brewery for the stormwater BMP's, which will be included as part of this match. Other grant sources can be used as part of

the cash match. The City's out of pocket cash match for this partnership will be $200,000 of which funding will be coming from the Stormwater Utility fee.

A budget amendment to appropriate this grant funding, along with all of the other revenue sources for the Craven Street/New Belgium project, will be forth coming at the same time the construction contract is brought forth for approval.

Staff recommends City Council to authorize the city manager to enter into a Memorandum of Understanding with RiverLink, Inc. on behalf of the City of Asheville for the work associated with this project and also authorizes the city manager to sign all other application or contract documents required to carry out the City's obligations.

**RESOLUTION BOOK NO. 35 - PAGE 330**

**H. RESOLUTION NO. 13-129 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE GRIZZLIES HOME FOOTBALL GAMES ON JULY 20 AND AUGUST 3, 2013**

**RESOLUTION NO. 13-130 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE FRENCH BROAD CYCLING CLASSIC MID-RACE MIXER ON JULY 20, 2013**

**RESOLUTION NO. 13-131 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE NEW BELGIUM CLIPS BEER & FILM TOUR ON SEPTEMBER 6, 2013**

**RESOLUTION NO. 13-132 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG LOVE FEST ON SEPTEMBER 15, 2013**

**RESOLUTION NO. 13-133 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOG DAY AFTERNOON ON SEPTEMBER 22, 2013**

Summary: The consideration of a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville Grizzlies Home Football Games on July 20 and August 3, 2013; the French Broad Cycling Classic Mid-Race Mixer on July 20, 2013; the New Belgium Clips Beer & Film Tour on September 6, 2013; The Big Love Fest on September 15, 2013; and Dog Day Afternoon on September 22, 2013.

- Asheville Grizzlies has requested through the City of Asheville Development Services Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Grizzlies Home Football Games and allow for consumption at this event.

  The Asheville Grizzlies Home Football Games will be held on Saturday, July 20 and August 3, 2013, from 5:00 p.m. – 10:00 p.m. within the boundaries of Memorial Stadium, as referenced on the accompanying site map.

- Asheville Bicycle Racing Club has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at the French Broad Cycling Classic Mid-Race Mixer and allow for consumption at this event.

The French Broad Cycling Classic Mid-Race Mixer will be held on Saturday, July 20, 2013, from 6:00 p.m. – 9:00 p.m. within the boundaries of Town Square Blvd. between Schenck Parkway and Barnack Way, as per the event area limits referenced on the accompanying site map.

- New Belgium Brewing Company in conjunction with Asheville on Bikes has requested through the City of Asheville Development Services Department that City Council permit them to serve beer and/or unfortified wine at the New Belgium Clips Beer & Film Tour and allow for consumption at this event.

  The New Belgium Clips Beer & Film Tour will be held on Friday, September 6, 2013, from 7:00 p.m. – 10:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green and Reuter Terrace, City Hall/Courthouse Parking Lot and Spruce Street between the intersections of South Pack Square and College Street, as referenced on the accompanying site map.

- The Asheville City Schools Foundation has requested through the City of Asheville Development Services Department that City Council permit the sale of beer and/or unfortified wine at The Big Love Fest and allow for consumption at this event.

  The Big Love Fest will be held on Sunday, September 15, 2013, from 12:00 p.m. – 8:00 p.m. within the boundaries of Pack Square Park's Roger McGuire Green, Reuter Terrace, Vance Median and Raised Lawn areas including South Spruce Street between the intersections of South Pack Square and College Street, North Pack Square between the intersections of Biltmore Avenue and South Pack Square, South Pack Square between the intersections of Biltmore Avenue and South Market Street and within the City Hall/Courthouse Parking Lot as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Development Services Center that City Council permit them to serve beer and/or unfortified wine at Dog Day Afternoon and allow for consumption at this event.

  Dog Day Afternoon will be held on Sunday, September 22, 2013, from 12:00 p.m. – 4:00 p.m. within the boundaries of Carrier Park, as per the event area limits referenced on the accompanying site map.

City staff recommends City Council adopt the resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Asheville Grizzlies Home Football Games, French Broad Cycling Classic Mid-Race Mixer, New Belgium Clips Beer & Film Tour, The Big Love Fest, and Dog Day Afternoon

**RESOLUTION NO. 13-129 - RESOLUTION BOOK NO. 35 - PAGE 331**
**RESOLUTION NO. 13-130 - RESOLUTION BOOK NO. 35 - PAGE 334**
**RESOLUTION NO. 13-131 - RESOLUTION BOOK NO. 35 - PAGE 337**
**RESOLUTION NO. 13-132 - RESOLUTION BOOK NO. 35 - PAGE 340**
**RESOLUTION NO. 13-133 - RESOLUTION BOOK NO. 35 - PAGE 343**

I. **RESOLUTION NO. 13-134 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT A DONATION OF 0.23 ACRES OF REAL PROPERTY FROM DUKE ENERGY PROGRESS TO SUPPORT THE CRAVEN STREET TRANSPORTATION IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the Mayor to accept a donation of 0.23 acres of real property from Duke Energy Progress for the purpose of implementing the Craven Street Improvement Project.

Duke Energy Progress (formerly known as Progress Energy of the Carolinas, and Carolina Power & Light) owns approximately 0.23 acres of unimproved land at the intersection of Haywood Road and Craven Street. This property is located along French Broad River and adjacent to the New Belgium Brewery site. As part of the Craven Street Improvement Project, a section of the greenway will travel through the 0.23 acre area currently owned by Duke Energy Progress. At this time, Duke Energy Progress has offered to donate the 0.23 acre property to facilitate the installation of the greenway.

City will be responsible for all due diligence associated with the transfer, including title research and boundary survey. These minimal costs will be absorbed within the existing project budget for the Craven Street Improvements Project.

City staff recommends that City Council adopt the resolution authorizing the Mayor to accept a donation of real property from Duke Energy Progress for the purpose of implementing the Craven Street Improvement Project.

**RESOLUTION BOOK NO. 35 - PAGE 346**

**J. RESOLUTION NO. 13-135 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT BY DONATION OR OTHERWISE ANY AND ALL LEGAL INTERESTS IN REAL PROPERTY NEEDED FOR THE IMPLEMENTATION OF THE CRAVEN STREET IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to accept by donation or otherwise, any and all legal interests in real property needed for the implementation of the Craven Street Improvement Project.

The Craven Street Improvement Project consists of several public infrastructure improvements, including (1) widening and resurfacing of the existing roadways, (2) adding bike lanes and greenways to the Craven St. corridor, and (3) installing new sidewalks, regional stormwater infrastructure and other related improvements. A majority of the work will be performed within the existing right-of-way of Craven Street. The remaining work will require the acquisition of interest in private property to include but not limited to: easements for greenway, storm water and streets. Most of the permanent easements are planned within the New Belgium property and will be donated to the City. Staff has been in contact with other property owners impacted by the improvements, and anticipates donation or modest in-kind services (such as repaving a driveway) in exchange for the easements. To streamline the process, staff is requesting that City Council authorize the City Manager to accept all legal interest in real property associated with this project, through donation or otherwise.

The City's internal real estate and legal team will be responsible for obtaining all legal interest in real property associated with this project. Modest costs for in-kind services, nominal consideration, deed recording fees, surveys, etc. have been budgeted within the existing project budget for the Craven Street Improvements Project.

City staff recommends that City Council adopt the resolution authorizing the City Manager to accept all legal interest in real property through donation or otherwise for the purpose of implementing the Craven Street Improvement Project.

**RESOLUTION BOOK NO. 35 - PAGE 347**

**K. RESOLUTION NO. 13-136 - RESOLUTION AUTHORIZING THE DONATION OF AN OBSOLETE MAGNESIUM CHLORIDE TANK AND RESIDUAL MATERIALS TO THE TOWN OF BLACK MOUNTAIN**

Summary: The consideration of a resolution donating an obsolete magnesium chloride tank and residual material to the Town of Black Mountain.

Public Works Department has an old magnesium chloride tank and residual material that is no longer of any use to the City of Asheville for snow fighting efforts, which the Town of Black Mountain has requested.

N.C. Gen. Stat. sec. 160A-280 allows municipalities to donate surplus, obsolete or unused equipment, materials and supplies to other governmental entities, provided public notice is provided five (5) days prior to adoption of a resolution approving the donation. The Department is eliminating the magnesium chloride in its snow fighting operation due to the noncompliance of the tank, and replacing same with an equivalent that is more modern. The Town of Black Mountain will be solely responsible for all costs associated with transferring the asset to their location.

City staff recommends City Council adopt a resolution approving the donation of the magnesium chloride tank and residual materials to the Town of Black Mountain.

**RESOLUTION BOOK NO. 35 - PAGE 348**

**L. RESOLUTION NO. 13-137 - RESOLUTION REPLACING THE CITY'S SELF-INSURED MEDICAL PLAN FOR RETIREES WITH ACCESS AND/OR ENROLLED IN MEDICARE TO A FULLY INSURED MEDICARE CARVE OUT PLAN**

Summary: The consideration of a resolution to adopt changes regarding retiree health benefits under the City of Asheville self-insured health plan for retirees or retiree spouse that gain access to Medicare and update the Resolutions section related to retirees' failure to make timely payments of premiums.

As the City continues to monitor the health insurance fund and benefit programs, we have identified an option for a City sponsored fully insured health plan for all retirees with access to Medicare. This change would move retires that have access and/or are currently enrolled in Medicare from the City's self insured plan to this new fully insured plan. In order to make this change, Council would need to amend prior resolutions regarding retiree benefits.

The City of Asheville has since 1993 provided retirees with access to Medicare, through age and/or disability, the opportunity to remain on the City's retiree medical plan by paying the full cost of the coverage and enrolling in Medicare. The retiree's benefits remain the same as that of active employees, except that Medicare pays claims as primary and the City's insurance plan pays secondary.

Most retirees that gain access to Medicare drop the City's Retiree Medical coverage in favor of individual Medicare Supplement plans because the monthly premium is typically lower than remaining on the City's medical plan. The current number of Retirees with Medicare who remain covered on the City's plan is fourteen. With such a small number of members in this category, the actual cost for these retirees is unpredictable because their claims vary dramatically from year to year. Because the claims are unpredictable, and rates must be set for an entire year; if claims plus expenses/fees are significantly higher than the premiums charged to these retirees, the City may inadvertently be subsidizing the retirees; or if the claims plus expenses/fees are significantly lower than the premiums charged to the retirees, the City may be collecting more

than is necessary. The recommended change will allow the City to ensure that retirees are paying the full cost for the insurance.

In an effort to promote Council's employer of choice strategic goal by providing the best and most cost effective insurance, the City of Asheville requested that our brokerage firm, The Ferguson Employee Benefit Agency, initiate a formal bidding process to review fully insured insurance alternatives for Retirees with Medicare.

AmWINS provided a fully insured quote for a Medicare carve out plan that offers the retiree lower premiums ($369-$460 per month) with similar benefits and out of pocket cost for medical expenses. The current premium paid by these retirees range from $549-$708 per month for the City's Retiree medical insurance.

The other change relates to a change made in July 2012 to the Retirees billing and collection process. This change was made to better align premium collection with the benefit period, minimize the Plan's exposure, and to take advantage of technological improvements in billing/collection methods. Staff is recommending approval of a change to the resolutions to refer to the City's billing policy, rather than specific processes that may change over time. In addition it would reflect the billing policy for the fully insured provider administering the Medicare Carve out plan.

Pros:

- Retirees with Medicare would see a reduction in their monthly premium for similar benefit coverage.
- AmWINS would assume all billing, premium collection, customer service and renewal communication for this group of retirees.
- The claims and expenses/fees would be insured and would no longer impact the City's self-funded medical experience.
- The City would have no liability for claims that take place after 7/1/13 through the self insured medical plan or in financial accounting of OPEB (Other Post Employment Benefits).

Cons:

This action is not expected to have an overall financial impact on the Health Insurance Fund; however it will eliminate the year-to-year volatility that can be present in retiree health care claims.

City staff recommends City Council adopt a resolution to amend the retiree health benefits for those eligible for Medicare, under the City of Asheville self-insured health plan for retirees or retiree spouse that gain access to Medicare and update the resolutions to allow City staff and Insurance Company to manage Retiree billing consistent with their internal billing policy.

**RESOLUTION BOOK NO. 35 - PAGE 349**

**M. ORDINANCE NO. 4205 - FIRST READING OF AN ORDINANCE REVISING A FRANCHISE AGREEMENT FOR THE OPERATION OF A TROLLEY BIKE TOUR SERVICE (PUB CYCLE) WITHIN THE CITY OF ASHEVILLE IN ORDER TO BEGIN ON DATE OF COMMENCEMENT OF OPERATIONS**

Summary: The consideration of an ordinance revising a franchise agreement for the operation of a trolley bike tour service (pub cycle) within the City of Asheville.

City Council approved ordinance # 4149 on December 11, 2012 (first reading) and on January 8, 2013 (second and final reading) granting a franchise agreement for the operation of a trolley bike tour service (pub cycle). Amazing Pubcycle (the grantee) is getting close to starting operations and is asking that the one-year franchise term be changed from beginning on March 1,

2013, to beginning on date of commencement of operations. At this time, it is anticipated that the service will begin during August 2013. The change is needed to help ensure the success of the service by providing a full year of operations and to ease any concerns from the lender.

Staff recommends that City Council approve an ordinance revising a franchise agreement to Peech Development, Inc. d/b/a Amazing Pubcycle for the operation of a trolley bike tour service (pub cycle) within the City of Asheville.

**ORDINANCE BOOK NO. 28 - PAGE 259**

**N. RESOLUTION NO. 13-138 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RECEIVE GRANT MONEY FROM THE STATE OF N.C. DEPT. OF PUBLIC SAFETY HOMELAND SECURITY GRANT PROGRAM FOR RECONSTRUCTION AND UPGRADE OF A REGIONAL WIRELESS COMMUNICATIONS TOWER**

Summary: The consideration of a resolution authorizing the City Manager to receive a grant in the amount of $47,335 from the Fiscal Year 2011 Homeland Security Grant Program administered by the N.C. Dept. of Public Safety for reconstruction and upgrade of a regional wireless communications tower.

The City of Asheville and the North Carolina State Highway Patrol have long been partners in developing and maintaining regional communications resources for Emergency Responders in the WNC region. This relationship has created efficiencies and opportunities for cost savings by eliminating duplication of resources and collaborating on regional communications related projects. On October 30, 2012, the High Windy tower in east Buncombe County experienced a catastrophic failure as a result of high winds related to Hurricane Sandy. Grant funds from the Fiscal Year 2011 Homeland Security Grant Program have been identified to rebuild the tower. Reconstruction will enhance the ability of City of Asheville Police and Fire Departments and other regional Emergency Responders to communicate during a disaster or other emergency that requires the coordination and communication between multiple jurisdictions. This grant is 100% reimbursed by the N.C. Dept. of Public Safety.

These funds are a reimbursement grant from the Department of Homeland Security and once received will be re-assigned to the NCSHP for project management. There is no impact to the City's General Fund budget.

City staff recommends City Council authorize the City Manager to receive grant money from the State of North Carolina Homeland Security Grant Program.

**RESOLUTION BOOK NO. 35 - PAGE 355**

**O. RESOLUTION NO. 13-139 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2013 INGLES 4TH OF JULY CELEBRATION**

**RESOLUTION NO. 13-140 - RESOLUTION AUTHORIZING THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 2013 BELE CHERE FESTIVAL**

Summary: The consideration of resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 2013 Ingles 4th of July Celebration and the 2013 Bele Chere Festival.

The Benevolent Patriotic Order of the Does has requested through the Asheville Parks, Recreation & Cultural Arts Department that City Council permit them to serve beer at the 2013 Ingles 4th of July Celebration and allow for consumption at this event.

The 2013 Ingles 4th of July Celebration will be held at Pack Square Park on Thursday, July 4, 2013, from 4:00 p.m. to 10:00 p.m. The sale of malt beverages will end at 9:30 p.m. However, the possession of open containers of malt beverages or consumption of malt beverages would be allowed during the festival hours of 4:00 p.m. to 10:00 p.m.

The following organizations: Wild South, Asheville Ski Club, Asheville Area Paralegals, BPO Does, The Mediation Center, Cataloochee Ski Patrol, PBL –AB Tech, St Johns Episcopal Church, Green Opportunities, Asheville Breakfast Rotary Club, and Engineers without Borders, Blue Ridge Roller Girls, and Sigma Nu have requested through the Asheville Parks, Recreation & Cultural Arts Department that City Council permit them to serve beer and/or unfortified wine at the 2013 Bele Chere Festival and allow for consumption at this event.

The 2013 Bele Chere Festival's Festival Area will be open on Friday, July 26, 2013, from 12:00 noon to 10:00 p.m., Saturday, July 27, 2013, from 10:00 a.m. to 10:00 p.m. and Sunday, July 28, 2013 from 12:00 noon to 6:00 p.m.

The sale of malt beverages and/or unfortified wine will occur only on Friday, July 26, 2013, and Saturday, July 27, 2013, and will end at 9:45 p.m. in both instances; however, the possession of open containers of malt beverages and/or unfortified wine or consumption of malt beverages and/or unfortified wine would only be allowed during the periods as follows:

Friday, July 26, 2013, from 12:00 Noon to 10:00 p.m.
Saturday, July 27, 2013, from 10:00 AM to 10 p.m.

There will be no sales and/or consumption of malt beverages and/or unfortified wine permitted on Sunday, July 28, 2013.

City staff recommends City Council adopt resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 2013 Ingles 4th of July Celebration and the 2013 Bele Chere Festival.

**RESOLUTION NO. 13-139 - RESOLUTION BOOK NO. 35 - PAGE 356**
**RESOLUTION NO. 13-140 - RESOLUTION BOOK NO. 35 - PAGE 358**

**P. RESOLUTION NO. 13-141 - RESOLUTION SETTING A PUBLIC HEARING ON JULY 23, 2013, FOR A SUBSTANTIAL AMENDMENT TO THE 2013-14 CONSOLIDATED ANNUAL ACTION PLANS FOR CDBG AND HOME TO CONSIDER A SECTION 108 LOAN TO EAGLE MARKET STREETS DEVELOPMENT CORPORATION FOR THE EAGLE MARKET PLACE COMMERCIAL DEVELOPMENT**

Summary: The consideration of a resolution setting a public hearing on July 23, 2013, for a substantial amendment to the 2013-2014 Consolidated Annual Actions Plan for CDBG and HOME to consider a Section 108 Loan to Eagle Market Streets Development Corporation for the Eagle Market Place commercial development.

Eagle Market Streets Development Corporation (EMSDC) has requested that the City loan $718,000 from an existing HUD Section 108 loan for the Eagle Market Place commercial development. This loan was received by the City in 2004 for the purpose of assisting in the financing of a mixed-use development in the Eagle-Market Streets area. EMSDC proposes to rehabilitate and develop approximately 10,000 square feet of commercial rental space in the Del Cardo, Ritz and Dr Collette buildings located on Eagle and Market Streets in downtown Asheville.

The substantial changes to the project funded by HUD in 2003 and the proposal under consideration include:

- Development Partners: EMSDC originally was partnered with the MT Zion Development Corporation, Enterprise Foundation and Historic Acquisitions, Inc. EMSDC is now partnering with Mountain Housing Opportunities.
- Square footage of project by uses: The total leasable building area of 13,000 square feet included five residential units encompassing approximately 3,000 square feet and approximately 10,000 square feet of commercial space. The current project includes 62 residential units, and 10,000 square feet of commercial space.
- Sources, types and funding levels: The original project's estimated total development cost was $2,413,514. Sources included the Section 108 loan ($800,000), Grants, including CDBG and HUD EDI grant funding ($870,000) and equity of $743,514. The current commercial-only project estimated total development cost is $2,351,678, and includes HUD Section 108 funding ($718,000); NeighborWorks Capital loan ($1,509,172) and grant or deferred loans of $124,506.

The proposed amendment uses funds already available through the CDBG program. The program advances CDBG funds to the City. These funds must be repaid to HUD, either from program proceeds or by using future CDBG allocation to the City. The City has been asked by the developer to provide sufficient collateral to allow HUD to approve the release of these funds for the stated purpose.

Staff recommends that Council set a public hearing on July 23, 2013, for consideration of amendments to the 2013-2014 Consolidated Annual Action Plans.

**RESOLUTION BOOK NO. 35 - PAGE 363**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. AFFORDABLE HOUSING ADVISORY COMMITTEE UPDATE

Ms. Lindsey Simerly, Chair of the Affordable Housing Advisory Committee, briefed Council on their activities of the past year and goals for the upcoming year.

After Mayor Bellamy suggested some additional partners, on behalf of City Council, Mayor Bellamy thanked Ms. Simerly for her leadership and the entire Committee for their dedication.

### B. LEGISLATIVE & WATER UPDATE

Deputy City Manager Jeff Richardson highlighted for Council some following legislative issues of interest: House Bill 488 - Transfer Control of the City of Asheville's Water System to a Regional Entity; House Bill 252 - Asheville Transfers; House Bill 418 - Park Authority; House Bill 224 - Asheville Extraterritorial Jurisdiction and Annexation; House Bill 568 - Asheville Deannexation; House Bill 708 - Study Public Enterprise Systems/Use of Funds; House Bill 998 -

Tax Simplifications and Reduction Act; House Bill 94/Senate Bill 112 - Amendments to Environmental Laws 2013; Senate Bill 612 - Regulatory Reform Act of 2013; House Bill 813/Senate Bill 724 - Ban Synthetic Cannabinoids; House Bill 937 - Amend Various Firearms Laws; and House Bill 714/Senate Bill 443 - Disposition of Abandoned Firearms.

In response to Mayor Bellamy, Mr. Richardson said that the fiscal impact of ratified legislation on Asheville revenue for this fiscal year was House Bill 224 (ETJ Elimination); and House Bill 252 (Water Contribution to Capital).

Regarding House Bill 252, Mayor Bellamy noted that the only year the City spent more than $145,000 was this fiscal year for Azalea Road. Other than that, we have not been using the 5% to the fullest extent of our abilities.

**IV. PUBLIC HEARINGS:**

**A. PUBLIC HEARING TO CONSIDER PERMANENTLY CLOSING AN UNOPENED RIGHT-OF-WAY BETWEEN TARPON AND CRAGGY AVENUES**

**RESOLUTION NO. 13-143 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY BETWEEN TARPON AND CRAGGY AVENUES**

Mayor Bellamy said that the public hearing to consider a resolution to permanently close an unopened right-of-way between Tarpon and Craggy Avenues was held on May 28, 2013, and continued until this date in order to give the property owners sufficient time to discuss a requested pedestrian easement.

N. C. Gen. Stat. sec. 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, all of the adjoining property owner's (Bob and Caryn Hanna, Jody Guokas, Isaac Savage, Jim and Nancy Herrig, James and Martha Roberson, and Michael Kohnle and Deidre Duffy) have requested the City of Asheville to permanently close an unopened right-of-way between Tarpon and Craggy Avenues.

The Metropolitan Sewer District has identified a sewer line crossing mid-way in the right-of-way. An approved easement would need to be included in the revised property configuration.

The initial closure request included a provision to retain a pedestrian easement through the space; however, based on site constraints and a recommendation from the Traffic Engineering, a retained easement would not make for a viable pedestrian connection due to insufficient space to construct said facility.

The Greenway Commission reviewed this closure request at their meeting on May 9, 2013 and concurred with the initial request to include a pedestrian connection.

This closure allows maximum land use potential for further development complying with the Asheville City Development Plan, Land Use.

City staff recommends City Council adopt the resolution to permanently close the unopened right-of-way between Tarpon and Craggy Avenues.

Mayor Bellamy opened the public hearing at 5:34 p.m. to ask for public comment on any of the new information.

Ms. Caryn Hanna, property owner, said that the adjoining property owners asked for Council's support to close the right-of-way without the pedestrian easement, as recommended by the Traffic Engineer.

Mayor Bellamy closed the public hearing at 5:35 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 13-143. This motion was seconded by Councilman Davis and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 365**

**B. PUBLIC HEARING TO CONSIDER REZONING 42 OLD COUNTY HOME ROAD FROM HIGHWAY BUSINESS DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT**

**ORDINANCE NO. 4206 - ORDINANCE TO REZONE 42 OLD COUNTY HOME ROAD FROM HIGHWAY BUSINESS DISTRICT TO RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone 42 Old County Home Road from Highway Business District to RM-8 Residential Multi-Family Medium Density District. This public hearing was advertised on June 14 and 21, 2013.

Mr. Esselstyn said that the subject site for this rezoning petition is a 1.3-acre parcel near New Leicester Highway. The property fronts on Old County Home Road, and is near commercial and industrial uses, but the majority of the length of the road is residential in character. The property is currently zoned Highway Business, but owing to constraints such as the flood hazard areas shown at right, the development potential is limited.

Normally, when examining a standard rezoning petition, the applicant's plans for development do not figure prominently in the staff report (as all possible development scenarios should be considered), but in this case, the plans are pertinent to understanding the nature of the request. The applicant would like to develop four or five single-family homes on the property. The existing zoning allows single family dwellings, and a residential density of 32 units per acre, but the standards for lot width and front setback would not allow the traditional single-family configuration desired by the applicant. Similarly, the RM-6 zoning classification to the west could theoretically allow for eight units, but the 70-foot minimum lot width would preclude the familiar single-family configuration desired. (The flood hazard areas also necessitate locating the structures closer to the road, eliminating any practicality for a flag-lot type configuration.) Staff also discussed the possibility of a Board of Adjustment variance or conditional zoning with the applicant, but his preference would be to not have the land encumbered with special conditions outside of what is normally allowed in the zoning district.

While the property's current zoning would allow for a wide range of commercial, office, and public uses, the most recent use was a single-family home. Analysis of the site and its constraints, in conjunction with the requirements imposed by the Highway Business development standards, indicate that the current zoning could invite a highly incongruous design—flood hazards pushing structures towards the street and suburban setbacks pushing structures away from the street could result in a relatively tall structure on a small footprint. Further, the character of the area does not fit the description of a "highway business" environment.

The UDO (7-8-16(a)) states, "The Highway Business District is established to address the needs of commercial development along major thoroughfares. Automobile oriented development

is prevalent within this district and a wide range of commercial uses is permitted. Due to the dominance of the automobile, a major objective within this district is to preserve the traffic capacity of the thoroughfare." While New Leicester Highway qualifies as a major thoroughfare, this section of Old County Home Road is removed enough from the corridor that the objectives of the HB district are much less applicable.

By contrast, the UDO's stated intent for the RM8 district (from 7-8-6(a)) is "to permit a full range of medium density multi-family housing types along with single-family detached and attached residences. This district is intended to provide a transitional area between high density single-family and multi-family areas, and to permit medium density multi-family development in areas where existing conditions make higher density development inappropriate. Non-residential development normally required to provide the basic elements of a balanced and attractive residential area is also permitted."

The question of spot zoning was raised during the staff analysis, as the proposed zoning would be creating a relatively small single-parcel zoning district. However, counsel from the Legal Department as well as Planning staff investigation of precedents indicate that when the proposed district is as similar to its neighbor as RM-8 is to RM-6, the validity of such a zoning decision is fortified. In addition, spot zoning challenges are typically aroused when a proposed rezoning would increase the potential development intensity, not from a downzoning such as this petition is requesting.

In addition to the flood hazard constraints mentioned above, it should be noted that there are other characteristics of the site which could be characterized as challenges for residential development. There is an active rail line less than 90 yards from the southeast property boundary, and the section of Old County Home Road to the west, while City-maintained, does not meet current City standards such as pavement width, gutters, and lighting. That said, the current zoning would allow for a multi-story multi-family residential development at a significantly higher density than would the proposed zoning.

At their June 5, 2013, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning. During the public hearing for this item, one neighboring property owner spoke in favor of the rezoning request. In addition to this neighbor, staff has been contacted by one other property owner who was seeking additional information.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Staff's analysis indicates that the proposed zoning district would support appropriate development and prevent incompatible development more effectively than the existing zoning, and, accordingly, staff recommends approval.

Mayor Bellamy opened the public hearing at 5:38 p.m., and when no one spoke she closed the public comment at 5:38 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4206. This motion was seconded by Councilman Pelly and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE** 266

C. **PUBLIC HEARING TO CONSIDER AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE MINOR ADJUSTMENTS TO THE MOBILE FOOD VENDING ORDINANCE AND TO REMOVE LIMITATIONS ON THE NUMBER OF PERMITS ALLOWED TO OPERATE IN THE DOWNTOWN CENTRAL BUSINESS DISTRICT AREA**

**ORDINANCE NO. 4207 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE TO PROVIDE MINOR ADJUSTMENTS TO THE MOBILE FOOD VENDING ORDINANCE AND TO REMOVE LIMITATIONS ON THE NUMBER OF PERMITS ALLOWED TO OPERATE IN THE DOWNTOWN CENTRAL BUSINESS DISTRICT AREA**

Urban Planner Alan Glines said that this is the consideration of an ordinance to amend the Unified Development Ordinance to provide minor adjustments to the mobile food vending ordinance and to remove limitations on the number of permits allowed to operate in the downtown Central Business District area. This public hearing was advertised on June 14 and 21, 2013.

The mobile food vending ordinance was adopted late in the summer of 2011 and has been in place for over a year and half. An amendment was brought forward at the end of 2012 that added limitations on the number of truck permits in Biltmore Village and provided other small changes to the ordinance. The current amendment seeks to:

- Remove the limit on the number of trucks allowed in the downtown area (currently limited to ten trucks) but maintain the limit of a single truck per an individual in Biltmore Village and in the downtown national register district area;
- Allow dining areas (with furniture) if a mobile food site is able to meet NC State Building code requirements for dining uses; and
- Adjust the language in the ordinance to maintain a prohibition of temporary facilities such as tents and restroom facilities at a mobile food site.

By the end of 2012 there were nine truck renewals in the downtown CBD for the 2013 operating year and the tenth permit was quickly applied for and approved. There are no permits available now and truck operators asked the Downtown Commission to consider expanding the number allowed. After numerous discussions with the mobile food vending subcommittee, it was noted that truck permits are naturally limited by the number of suitable mobile food sites. Locations are difficult to secure because it usually means displacing some other income-generating use on a lot such as surface parking. Given those intrinsic limiting factors, the proposal is to maintain the recently passed Biltmore Village limitation of two trucks but remove the downtown limit of ten. Related to this, the code would receive a minor amendment to maintain the current limit of a single truck permit allowed for an individual (or corporation) in Biltmore Village and in the downtown historic district (corresponding to the adopted map '*Traditional Downtown Core*'). In other areas an individual could be approved for more than a single truck permit. This amendment is felt to maintain the variety and diversity of mobile food vendors.

The second proposed change was a discussion to allow dining areas at mobile food sites. Since dining uses are allowed under the regulations of the NC State Building code it was thought that if a site could comply with those rules, then dining should not be prohibited by the ordinance. One of the compliance issues for a mobile food site will be access to restroom facilities by dining patrons. Some sites may be able to meet this requirement now or in the future with access to or proximity to restroom facilities either sharing a facility with a building on the same site or by agreement with an adjacent building. Compliance will be reviewed with the application and site plan for the mobile food site.

Finally the mobile food vending subcommittee also felt that temporary facilities such as tents and temporary restroom facilities should not be allowed at the mobile food site since this

could negatively affect the look and character of the downtown area. These clarifications require additional changes to some general provisions of the ordinance.

Summary of Changes:

- Number of permits in the downtown area- Remove language that limits truck permits in the downtown area but maintain the limit of two in Biltmore Village. An individual would not be allowed to operate more than a single truck in either Biltmore Village or the downtown national register district area.

- Dining Areas- Allow dining areas and related furniture at a mobile food site if requirements of the NC State Building Code can be met including access to restroom facilities.

- Temporary Facilities- Temporary facilities will continue to be prohibited at the mobile food site including temporary restrooms.

After extensive review and a recommendation from the mobile food vending subcommittee, the proposed changes were reviewed at the May 10, 2013, meeting of the Downtown Commission. After this date additional changes were clarified with the mobile food vending subcommittee and the design review subcommittee and shared with the entire Commission. The Commission supports the proposed changes to the mobile food vending ordinance.

The Planning and Zoning Commission reviewed the amendments to the ordinance at their meeting on June 5, 2013. There was a question that mobile food vending may be working against stated goals of adding density in the downtown area. Further discussion provided a perspective that this ordinance provides the opportunity for dense business growth and development at a food truck lot. It was also noted that the activity may be temporary in nature since there is redevelopment potential for most surface parking lots in downtown and surface lots are where mobile food vending is operating. The Commission voted unanimously to endorse the amendment to the ordinance.

City staff concurs with that recommendation because the amendments are reasonable and consistent with the Comprehensive Plan and other adopted plans based on information presented in the staff report and as presented in the staff recommendation.

City staff recommends City Council approve the UDO amendment for changes to the Mobile Food Ordinance as outlined in the staff report and find that the amendments are reasonable and are consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation

Mayor Bellamy opened the public hearing at 5:41 p.m., and when no one spoke, she closed the public hearing at 5:41 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Pelly found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4207. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 269**

**D. PUBLIC HEARING TO CONSIDER AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING CLARIFICATIONS TO AND MODIFICATIONS OF CURRENT SIGN REGULATIONS**

**ORDINANCE NO. 4208 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE REGARDING CLARIFICATIONS TO AND MODIFICATIONS OF CURRENT SIGN REGULATIONS**

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance to amend the Unified Development Ordinance regarding clarifications to and modifications of current sign regulations. This public hearing was advertised on June 14 and 21, 2013.

Ms. Daniel said that over the past several months, the staff has determined that some adjustments to the sign regulations should be considered. These changes primarily allow more flexibility for businesses and developments from a practical perspective, without allowing a substantial increase in signage. They also reflect evolving community standards for certain types of signs. The rationale for each change is noted in the summary of changes below.

Summary of Changes

**Sec. 7-9-5(c)(1)(c):** Signage for Manufactured Housing Communities

The proposed modification is primarily a technical change to remove a requirement that seems duplicative. It would remove signage requirements from the manufactured housing community overlay section and instead refer back to the applicable language for subdivision and multi-family development signs in Article 13. The change is proposed because the requirement duplicates the requirements for other multi-family developments and it seems unnecessary for there to be a separate signage requirement for this use. The language change also simplifies some antiquated terminology.

**Sec. 7-13-2-b-1:** General sign requirements

The proposed change relates to general sign requirements, adding a provision requiring old sign structures to be removed before a new sign permit can be issued. This has sometimes been a problem in the past and this change will clarify intent.

**Sec. 7-13-4(b)(2)(j):** Menu boards for fast food restaurants

The proposed change reflects general acceptance of the use of two menu boards for many fast food restaurants. The Board of Adjustment has approved this provision several times and it is becoming an industry standard. The Planning Commission recommended a modification to the originally proposed language, clarifying that there may be no more than two menu boards per restaurant, and reducing the size allowed per menu board to reflect what seems to be the industry standard for these signs.

**Sec. 7-13-5(c):** Second Tier Signs

The change proposed would allow an expansion of the use of second tier signs for properties that have no direct access on a major public thoroughfare. The code already allows sharing a sign, and this change would allow an independent sign if the property with the thoroughfare frontage does not have a sign and is willing to allow the use.

**Sec. 7-13-8(b)(4):** Sign amortization

These changes would modify the city's amortization standards for recently annexed areas. The impetus for the change comes from a large commercial center opened just a year or so before it was annexed a few years ago. The current five year amortization created an understandable hardship for this business given the large size of its sign, and their only recourse would be to request relief from the Board of Adjustment. Further, the five year amortization requirement has long been a source of substantial concern to many annexed properties – commercial, residential, and institutional uses. A check of a range of other cities reveals that longer amortization periods are not unusual, and a special provision for properties recently annexed seems to be a fair consideration. This change also deletes language related to the city's ETJ.

Staff introduced these and other changes to the Planning and Zoning Commission at their June 5, 2013, meeting. The Commission supported some of these changes and requested staff to get additional information about others. The Commission requested additional research, examples, and clarification from staff on proposed changes to the standards for off-premise signs, residential development signs, and signage for multi-tenant businesses. Staff is presenting the changes that were supported by the Commission to Council as we believe Council might wish to consider them now. Staff will return with the remaining proposals and the recommendation from the Commission later this summer.

The Planning and Zoning Commission voted unanimously to recommend approval of the ordinance changes presented and city staff concurs with that recommendation.

Staff recommends City Council approve the UDO amendment for changes to the Sign Regulations as outlined in the staff report and find that the amendments are reasonable and are consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 5:47 p.m., and when no one spoke, she closed the public hearing at 5:47 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4208, with the minor amendment to the ordinance outlined by Ms. Daniel. This motion was seconded by Councilman Bothwell and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 271**

**E. PUBLIC HEARING TO CONSIDER AMENDING THE UNIFIED DEVELOPMENT ORDINANCE REGARDING CLARIFICATION TO AND MODIFICATIONS OF REGULATORY STANDARDS FOR INDUSTRIAL USES**

**ORDINANCE NO. 4209 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE REGARDING CLARIFICATIONS TO AND MODIFICATIONS OF REGULATORY STANDARDS FOR INDUSTRIAL USES**

Planning & Development Director Judy Daniel said that this is the consideration of an ordinance to amend the Unified Development Ordinance regarding clarifications to and modifications of regulatory standards for industrial uses. This public hearing was advertised on June 14 and 21, 2013.

The proposed amendments pertain to development regulations and review processes for industrial uses. The impetus for these proposed changes came from recent questions regarding development of a potential industrial site. The proposals would modify the review thresholds for projects in the Industrial and Commercial Industrial districts.

**Review Process for Industrial Uses** - The language of the current regulations (found in Article 5) that govern site plans for industrial uses are confusing. The code currently states that a Level II site plan review is required for industrial uses "*with a gross floor area of 100,000 sf to an industrial development containing more than 15 acres*". Yet there are no provisions in the Level III site plan standards for industrial uses with gross floor areas of over 100,000 square feet.

Upon reflection the staff has come to believe that these standards need further refinement as well as clarification. They affect several zoning districts with substantially different characters including Industrial, Commercial Industrial, Light Industrial, and River.

**Summary of Changes**

**Sec. 7-5-9**: Review Processes for Industrial Uses - The proposed changes separate the processes for site plan review of industrial uses in the Industrial district from the review of these uses in the Commercial Industrial and River districts, and clarify the standards for both.

**Level III Reviews** - The proposed changes to Sec. 7-5-9(a)(1)a(1) first make a technical change for consistency of wording with the same section in the Level II reviews, stating the section purpose and application. The second and more substantive change adds a provision requiring Level III review for very large industrial projects (over 100,000 sf) when they are located in the Commercial Industrial or River districts. Staff proposes this change since there are many types of uses allowed in those districts in the City, and we felt the Council might wish to review large industrial uses proposed in the vicinity of those commercial or residential uses.

**Level II Reviews** - The proposed changes to Sec. 7-5-9(b)(1)(a)(1) amend the Level II site plan review process to remove what we believe to be an unnecessary acreage threshold and clarify that Level II review will be the final approval step for industrial uses of 100,000 square feet or more in the Industrial district. The modification also establishes that a Level II review will be the final approval step for industrial uses in the Commercial Industrial and River districts for projects of 50,000 to 100,000 square feet. Any industrial projects below these thresholds would remain a Level I review.

The staff report to the Planning and Zoning Commission at their June 5, 2013, meeting included the process modifications outlined above and a proposal for changes to the Open Space standards affecting industrial uses in the Industrial and Commercial Industrial districts. Those changes would reduce the requirement in the Commercial Industrial district (from 15% to 5%) and eliminate the requirement in the Industrial district. The Commission supported both these proposed changes in theory, and recommended approval of the process change requirements.

The Commission deferred final consideration of the open space changes, and requested additional input from the SACEE Committee regarding the potential for incentives for reduction of open space requirements. The Commission recommended approval of the proposed review thresholds unanimously.

City staff and the Planning and Zoning Commission recommend City Council adopt an ordinance incorporating the changes to the City Code of Ordinances as outlined in the staff report.

City staff recommends City Council approve the UDO amendment for changes to the regulatory review processes for industrial uses as outlined in the staff report and find that the amendments are reasonable and are consistent with the Comprehensive Plan and other adopted

plans, based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 5:50 p.m., and when no one spoke, she closed the public hearing at 5:50 p.m.

At Mayor Bellamy's request, it was the consensus of Council to ask Planning & Development Department to look at possible revisions to the overall parking standards, in particular the parking standards as they regulate to industrial uses.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4209. This motion was seconded by Councilman Davis and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 273**

**V. UNFINISHED BUSINESS:**

**A. ORDINANCE NO. 4210 - ORDINANCE ADOPTING THE FISCAL YEAR 2013-14 ANNUAL OPERATING BUDGET**

Mayor Bellamy said that the public hearing on the budget was held on June 11, 2013.

Deputy City Manager Jeff Richardson said that this report presents the Fiscal Year 2013/2014 Annual Budget for adoption by City Council.

The Fiscal 2013/2014 Proposed Annual Operating Budget was presented to City Council on May 28, 2013. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 31 and June 7, 2013. City Council conducted a public hearing on the Proposed Budget on June 11, 2013. The Fiscal Year 2013/2014 Proposed Budget that was presented on May 28 was balanced with a revenue-neutral Ad Valorem tax rate of $0.43 per $100 of assessed value. The General Fund budget also included no appropriation from the City's fund balance. All essential City services are continued in the Budget.

***Balancing the General Fund Operating Budget – Revised Revenue Estimates***

The Proposed Budget assumed that a Regional Cultural and Recreation Authority (CRA) would be created, and that the City would join the CRA in January 2014. On June 18th, House Bill 418, which authorized the formation of the CRA, was amended to include language that excluded municipalities from joining the CRA for 24 months after its enactment, which means that the City will not join the CRA in January. As discussed with City Council at the June 11th public hearing, if the City, for whatever reason, did not join the CRA in January, then a $1.5 million General Fund budget gap would exist in FY 2013/2014. Staff indicated to Council on June 11th that a property tax rate increase may be necessary to overcome this $1.5 million budget gap.

Since the June 11th meeting, staff has also received updated information that indicates that the tax reform legislation being considered by the North Carolina General Assembly will not have an impact on the City's FY 2013/2014 General Fund budget. Earlier in the spring, staff was concerned that the negative financial impact in FY 2013/2014 could be as much as $1.0 million, and thus built this assumption into the FY 2013/2014 Proposed Budget. Staff now feels confident that this $1.0 million in revenue can be budgeted in the General Fund in FY 2013/2014. It should

be noted, however, that the impact of tax reform will continue to be a significant issue for cities to monitor in future years. Estimates recently released by the North Carolina League of Municipalities indicate that the City of Asheville may lose up to $1.3 million in revenue in FY 2014/2015 from state tax reform legislation, and that this loss may grow to $2.4 million by FY 2018/2019.

In addition to the $1.0 million revenue adjustment associated with the updated tax reform plan, staff also has received revised revenue estimates for several other General Fund revenues, most notably motor vehicle licenses. Based on these updated revenue projections, staff is submitting to Council a balanced General Fund operating budget that: 1) reflects a full year of continued City operation of its Parks and Recreation facilities and programs; and 2) does not include a property tax rate increase above the revenue neutral rate of 43 cents per $100 of assessed value or a fund balance appropriation. It should be noted that the FY 2013/2014 Parks and Recreation Department budget does still include plans to restructure the City's role in producing special events and festivals, and that plan assumes that the City will produce its last Bele Chere festival in summer 2013.

***Enhanced Capital Improvement Program***

Executive Director of Public Works and Multimodal Transportation Cathy Ball said that as staff indicated at the May 28 Proposed Budget presentation and at the June 11 public hearing, the Proposed Budget recommended that a portion of the savings from the City's participation in the CRA be redirected to the City's Capital Improvement Program (CIP) beginning in FY 2014/2015. Specifically, staff recommended in the Proposed Budget that $1.1 million in CRA-produced savings (equivalent to 1-cent on the property tax rate) be added to the city's regular CIP; and that $2.2 million in CRA-produced savings (2-cents on the tax rate) be directed to the City's new comprehensive Community and Economic Development CIP (EDCIP). The Economic Development and Community Investment strategy, as envisioned in the EDCIP, focuses on putting more money into job creation, infrastructure and other capital projects in targeted areas where tax base growth is most promising. Tax base growth in these target areas would then help fund additional improvements that leverage private investment and economic growth.

With the City's participation in the CRA now no longer an option in FY 2013-14, staff is recommending that City Council increase property taxes by 3 cents above revenue neutral, to $0.46 per $100 of assessed value, to fund the enhanced capital improvement program. The 1-cent or $1.1 million that will be added to the City's regular CIP will fund an additional $5.5 million in deferred maintenance projects over the next five years. This additional funding will provide for greater investment in both street improvements and facility maintenance. With this additional funding, the City will be able to improve its street resurfacing schedule from the current cycle of once every 65 years to once every 35 years (20 years is the benchmark recommended cycle).

The additional 2-cents or $2.2 million for the EDCIP (along with proceeds from land sales) will provide the initial seed money to leverage a potential $59 million in capital investments over the next five years. Staff recommends launching this program by issuing debt in FY 2013/2014 to begin such cornerstone projects as the River Arts District Transportation Improvement Project (RADTIP), multi-modal and pedestrian improvement projects, transformational affordable housing developments, and enhanced funding for critical capital maintenance like street and sidewalk repairs. Many of the transformational projects proposed in the EDCIP could have been eligible for the 5% funding from the Sullivan Act that was repealed by the General Assembly earlier this year in HB 252.

This action complies with the Fiscal Responsibility focus area of City Council's Strategic Operation Plan: Operate the City of Asheville's organization to the highest levels of fiscal responsibility.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.
- General Fund operating Budget is balanced with no property tax rate increase or fund balance appropriation and all essential City services are continued.
- Includes funding for enhanced five-year Capital Improvement Program.

Cons:

- A revenue shortfall could occur in FY 2013/2014 if the N.C. General Assembly alters the current tax reform proposal prior to its final adoption.
- Based on the current financial forecast, the EDCIP may require additional resources in FY 2017/2018.

As noted above, the Proposed FY 2013/2014 General Fund budget is balanced with no property tax rate increase for operations and no fund balance appropriation. The Budget does include a 3-cent property tax rate increase to enhance the City's five-year Capital Improvement Program. The chart below shows the impact of the 3-cent increase for various property values. For example, the owner of a $250,000 home will see an annual increase of $100.

| | | 3 Cents | |
|---|---|---|---|
| Home Value | Current Bill | Revised Bill | $ Increase |
| 150,000 | $630 | $690 | $60 |
| 250,000 | $1,050 | $1,150 | $100 |
| 350,000 | $1,470 | $1,610 | $140 |

If Council approves the Budget as currently proposed by staff, the adopted General Fund budget for FY 2013/2014 will be $95,861,764. The table below highlights the changes between the May 28 Proposed Budget and the Budget that staff is recommending tonight.

| | Proposed Budget |
|---|---|
| General Fund Budget from May 28 | 90,512,514 |
| Expense Adjustments: | |
| Restore Parks & Recreation Expense Budget to full year | 3,049,250 |
| Reduce Contingency | (1,000,000) |
| Increase Contribution to Regular CIP & EDCIP | 3,300,000 |
| Net Expenditure Changes | 5,349,250 |
| Revenue Adjustments: | |
| Restore Parks & Recreation Revenue Budget to full year | 549,250 |
| Budget State Tax Funds | 1,000,000 |
| Adjusted Revenue Estimates (e.g. motor vehicle tax) | 500,000 |
| 3-Cent Property Tax Rate Increase | 3,300,000 |
| Net Revenue Changes | 5,349,250 |
| **General Fund Budget June 25** | **95,861,764** |

Staff requests that Council review the FY 2013/2014 Annual Budget, including the changes noted above, and make necessary recommendations or adjustments followed by adoption of the Budget Ordinance, which will establish an Ad Valorem tax rate of $0.46 per $100 of assessed value.

Councilman Hunt was appreciative of the 5-year view of the CIP. He felt the tax increase sets the stage for us to strategically plan and accomplish some very important projects going forward. He did note that even though we are calling it the EDCIP, it is actually a community & economic development CIP.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Hunt moved for the adoption of Ordinance No. 4210, which establishes an ad valorem tax rate of $0.46 per $100 assessed value. This motion was seconded by Councilman Bothwell.

When Councilman Smith noted that there is still a lot of financial uncertainty at the state level, City Attorney Oast said that City Council can always amend their budget throughout the fiscal year; however, they cannot change the tax rate, which must be set by June 30. Councilman Smith noted that if the City gets hit with another unplanned financial hit from the State, City Council can shift the funds from the 3-cents for the CIP maintenance and EDCIP for a buffer in what may happen.

Councilman Smith asked if we make the investments in the River Arts District and in the South Slope, will the revenue growth be able to match the expenditure growth. Ms. Ball said that we would not expect to see revenues until 3-4 years out. Through those years, we will continue to watch our expenditures and look for opportunities to find other ways for service delivery, etc., but at the 5-7 year period we expect there will be money available to pay back debt service for this community & economic development CIP, as well as have additional funding for our maintenance needs as well.

Councilman Bothwell explained the tax structure for the CRA, if the legislature passes that bill. He noted that even though we are getting more efficient vehicles, the fuel costs have doubled over the past 10 years. He supported staff's recommendation as we will be building for the future.

Ms. Ball responded to Councilman Pelly regarding the contribution to the Asheville Art Museum. She said that the Asheville Art Museum is a City-owned building. While they are doing major renovations, the City is proposing to contribute $2 Million which will be debt financed. That is directly tied back to the cost of some major building maintenance requirements, such as the HVAC system. The total projected cost for the total improvements is roughly $22 Million.

Vice-Mayor Manheimer highlighted that the budget includes an increase in pay for City staff in order to keep the salaries competitive. This budget takes the first major step towards self-sustainability, which is going to be our reality going forward. We have identified different areas to shore up the City, but if you can't count on the cooperation of the legislature in doing that, we are limited in our options. This budget recognizes that if we invest in the infrastructure in our own community, it will pay dividends so that we can continue to grow our own revenue base to sustain our own community in a way that we will enjoy. This budget is a sound budget that attempts to leverage what we have to assure our fiscal sustainability going forward

Councilman Davis agreed with Vice-Mayor Manheimer in our need to become self-sustained. He was amazed that we have not had a tax increase in years.

Councilman Smith felt that this budget doesn't reduce our service levels, but let's up catch up on some deferred maintenance. The community & economic development CIP is about the future and becoming a more dependent and resilient city.

Mayor Bellamy recalled asking Council not to approve the Business Improvement District because she felt sure we would have to consider a tax increase. Council was able to weather tough times through the years without a tax increase because we kept a healthy fund balance. Just in one week alone, the City had several job announcements. This year is a new dynamic - where we don't have a state government that is willing to work with us. She believed that our regional assets should be paid by the regional users and to be cut out of the CRA "just because" is not good public policy. She will vote for the 4-cent tax increase, however, she would have preferred it be a 3-cent increase (1 for revenue neutral; 1 for CIP maintenance; and 1 for community & economic development CIP). She is concerned that the 5-year CIP may not happen because of the fractured relationship at the state level. She was concerned that we may be using the CIP funds just to do basic operational services. She would support the increase because (1) we have cut down our savings to the bare minimum of what is Council's policy; (2) there has been no increase in many years; (3) the investments that we make are really needed; and (4) the investments we make will provide an increased tax base for our community that will ensure that people who live in our community can also work in our community.

The motion made by Councilman Hunt and seconded by Councilman Bothwell and carried unanimously.

Mr. Ken Michalove, former member of the Pack Place Board, provided Council with the following overview of his concerns (1) City allocating $2 Million to the Asheville Art Museum renovations; City proceeding with separating the lease between the City and Pack Place Education Arts & Science Center into two leases - one for Pack Place and one for the Art Museum; City agreeing to physically separate the Pack Place building into two buildings; issues of having two leases and building separation issues have created an atmosphere of distrust towards the Art Museum among Pack Place Board members; there is limited information available about the Art Museum project and their day to day operations; there is the potential of destroying the Pack Place as an institution; and, there has been limited opportunity for public input and information sharing regarding all of these issues.

Mr. Adrian Vassallo, President of the Asheville Downtown Association, said there is a recognition that downtown is vibrant and that it continues to need attention from our City leaders. The downtown is also recognized for its impact on the City. A top issue the Association has every year for downtown is cleanliness and safety. Those are basic City services. He questioned the $30 Million investment in the River and a less than $2 Million investment in downtown. He said this is not about the River, but about recognition of the impact that investment can have in downtown. If we can get a 3,000% return on the south slope vs. a 2,000% return on the river, we should be spending more in downtown. In the coming fiscal year, this budget allocates nothing for recycling and trash cans in downtown. He encouraged Council to look at ways to allocate funding to some of those services that are needed in downtown.

**ORDINANCE BOOK NO. 28 – PAGE 275**

**Closed Session**

At 7:09 p.m., Councilman Councilman Pelly moved to go into closed session for the following reasons: (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina, City of Asheville; and Metropolitan Sewerage District. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (2) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee, and to hear or investigate a

complaint, charge, or grievance against an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:54 p.m., Vice-Mayor Manheimer moved to recess the closed motion to return to the formal meeting, noting that the closed session would continue at the end of the formal meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

**B. RESOLUTION NO. 13-144 - RESOLUTION ADOPTING A LIVING WAGE FOR FULL- AND PART-TIME CITY EMPLOYEES AND GENERAL SERVICE CONTRACTS $30,000 AND ABOVE**

Administrative Services Manager Brenda Mills said that the purpose of this staff report is to provide an update on the Living Wage Policy and recommended action for the Fiscal Year 2013-14 which is (1) Set the living wage rate at $11.85/hour without employer provided health insurance and $10.35/hour with employer provided health insurance; and (2) Increase the contract threshold for General Services subject to the living wage at $30,000 and above with no limits.

The City of Asheville's Living Wage Policy is considered annually as part of the budget process. Over the last two years, the City Council has adopted a living wage for full- and part-time employees while incrementally applying the requirement to general service contracts within specific dollar thresholds. Those actions included:

- In April 2011, City Council approved a resolution setting a living wage for City of Asheville full, part-time, and contract employees working on general service contracts $30,000-$90,000 in value. The resolution set the living wage for Fiscal Year 2011-2012 at $11.35/hour without employer provided health insurance and $9.85/hour with employer provided health insurance.

- In March 2012, City Council approved a resolution setting a living wage for City of Asheville full, part-time, and contract employees working on general service contracts $30,000-$200,000 in value. The living wage remained the same as in the previous year.

For FY 2013-2014, City Council is being asked to consider (1) increasing the living wage rate based on a defined formula and (2) extending the living wage requirement to all general service contracts, including those with a value above $200,000. The living wage does not apply to volunteers, to full-time or part-time students who are working for the city in positions designed to further the students' education, or to temporary/seasonal employees as this type of employment is typically secondary to the employee.

**(1) Living Wage Rate**

Just Economics recommends that the City of Asheville calculate the living wage rate using the "Universal Living Wage Formula." This Universal Living Wage formula is based on the premise that for an individual the cost of housing should make up thirty percent or less of his or her income. The formula takes the Fair Market Rent for a one bedroom apartment in the local area (as determined by HUD) at the fortieth percentile and divides that by .3 to determine monthly income; monthly income is then multiplied by 12 months and divided by 2080, the annual number of working hours for a full-time employee (assuming a 40 hour work week, 52 weeks a year); the number is then rounded to the

nearest nickel. A worker may be paid an amount equal to $1.50 less than the living wage rate if the employer provides for 50% or more of the cost of an employees' healthcare coverage.

It is recommended that the City of Asheville adjust the wage rate annually by using a four year average of the Fair Market Rent at the fortieth percentile, so as to mitigate any volatile changes in the Fair Market Rent. If the change in the living wage rate is 3% or greater from the current living wage, the wage rate will be adjusted.

Based on this recommended formula, the living wage rate for Fiscal Year 2013-2014 would be $11.85/hour without employer provided health insurance and $10.35/hour with employer provided health insurance, representing a 4% increase over the previous two years.

**(1) Living Wage application to General Service Contracts**

General services contract information is collected and reviewed each quarter for living wage review and compliance. Data collected since July 2012 shows the following impact of the living wage policy on the city's general services contracts:

- Total of 100 general services contracts were let through March 1, 2013
- Number of general services contracts by dollar thresholds:
  - Between $30,000 and under $90,000 (15 total) – 9 were subject to living wage and vendor complied with living wage requirements per the City's current policy.
  - Between $90,000 and under $200,000 (2 total) – Only 1 contract in this threshold would have been subject to living wage with the current policy including contracts up to $200,000.
  - Over $200,000 (3 total) – Only one contract in this threshold would have been subject to living wage if the current policy had included contracts above $200,000.

For the data above, contracts not subject to the living wage would have been those that did not include a labor services (i.e., software licensing purchases, Interlocal agreements, etc.). For the most part, contracts executed in the $90,000-$200,000 and above range included services where living wage rates are already paid (audit services, Development Services software implementation, IT infrastructure maintenance, radio infrastructure maintenance, etc.).

**Employee Costs:** Increasing the living wage to 11.85/hour without employer provided health insurance and $10.35/hour with employer provided health insurance for city employees would have a nominal impact on costs associated with future salaries and benefits (less than a fraction of 1 percent). The most significant change the City would implement is with newly hired firefighters, who currently make less than $10.35 an hour during their first six months ("Step A" in the step plan) after rookie school. If adopted, the City would move these firefighters to $10.35 an hour ("Step B" in the step plan) directly after rookie school. If the City had made this change with the last class of 25 newly hired firefighters, the cost impact would have been approximately $7,500 in base salary.

**Contract Costs:** Data from contracting in the current fiscal year shows that when the City contracted for services above $200,000, the vendor typically already paid a living wage. Based on the City's current year performance, the impact of adjusting the General Services contract threshold from $30,000 and above with no limit will have limited financial impact. However, if the City executes large contracts for labor intensive services (i.e., security services, landscaping and mowing services), there may be a more significant impact, possibly ranging from 10-30%.

Staff recommends adoption of a Living Wage resolution that:

(1) Sets the living wage rate at $11.85/hour without employer provided health insurance and $10.35/hour with employer provided health insurance;
(2) Increases the contract threshold for General Services subject to the living wage at $30,000 and above with no limits;
(3) Directs staff to continue to monitor the impact of an adjustment with data provided to City Council as part of the quarterly financial reports, and;
(4) Brings the policy back to City Council for official review as part of the FY 14-15 budget process to look at impact and make recommendations for adjustment to the wage level.

When Councilman Bothwell asked why the policy doesn't include construction contracts, Ms. Mills said that construction and procurement contracts have specific General Statutes that govern award of them.

Councilman Smith hoped that other employers will strive to adopt a living wage policy also.

The following individuals spoke in support of the resolution and thanked City Council for being a leader:

Ms. Vicki Meath, Executive Director, Just Economics WNC
Ms. Lottie Myers, Member of the original Steering Committee for Living Wage
Mr. James Sheeler
Mr. Mark Hebbard, Living Wage Certification Program Coordinator for Just Economics WNC (provided Council with a list of businesses with living wage policy)
Mr. Timothy Sadler
Rev. Amy Cantrell

Mr. Alan Ditmore was concerned of the implication that the living wage can be used as a substitute for housing affordability.

Councilman Smith moved for the adoption of Resolution No. 13-144. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 367**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-145 - RESOLUTION AMENDING THE 2012-13 CONSOLIDATED ANNUAL CDBG AND HOME ACTION PLAN FOR THE RESIDENCES AT GLEN ROCK HOME PROJECT**

Community Development Director Jeff Staudinger said that this is the consideration of a resolution amending the 2012-2013 Consolidated Annual CDBG and HOME Action Plan to provide the balance of the cancelled East Riverside HOME project to the Residences at Glen Rock HOME project.

In 2008, Mountain Housing Opportunities (MHO) was awarded $264,734 in HOME funds for the development of an 80-unit condominium development in the East of the Riverway neighborhood. The proposed project was never completed; however, $229,595 was expended in pre-development, and the balance of the award was returned to the Consortium for reallocation.

In 2011 and 2012, MHO brought forward Housing Trust Fund and HOME requests for the Residences at Glen Rock, a 22 units affordable housing development created through the rehabilitation of the old Glen Rock Hotel on Depot Street in the City's River Arts District. To date,

the City has approved a total of $387;000 in Housing Trust Funds and $140,000 of HOME funding to the project. Granting this request to place the $35,139 balance from the East Riverside project into this project would make the total HOME investment in the Residences at Glen Rock $175,139. The HOME commitment of 11 units (affordable to households earning less than 60% of median income) which was required in the East Riverside project will be fulfilled in the Glen Rock Hotel. An additional 11 units affordable to households earning less than 80% of median income will also be created. MHO made this request to offset higher than expected construction costs.

The Asheville Regional Housing Consortium considered this request in January of 2013, and supported this request.

The proposed use of funds would grant federal funds already allocated to the City. No City general funds are affected.

The Asheville Regional Housing Consortium recommends that the 2012-2013 Action Plan be amended to allocate the $35,139 of HOME funds originally allocated to the East Riverside project to the Residences at Glen Rock.

When Mayor Bellamy asked for public comments, none were received.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Manheimer moved for the adoption of Resolution No. 13-145. This motion was seconded by Councilman Pelly and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 368**

**B. ORDINANCE NO. 4211 - ORDINANCE AMENDING THE FEES & CHARGES MANUAL TO REDUCE FEES FOR SUMMER PROGRAMS**

Parks, Recreation & Cultural Arts Director Roderick Simmons said that at Mayor Bellamy's request, he provided the following summary of the fee structure and cost recovery of the program cost for summer and afterschool.

The current summer camp fee is $40 per week for the first child + $10 weekly registration fee, $30 per week for each additional sibling + $10 weekly registration fee. The summer program is a 10 week program.

Last summer, we served 341 program participants. The cost to provide the program was $120,000 and we had revenue of $21,000. We subsidize the program in the amount of $98,000. This equates to $289.16 per participant.

If all projected fees were collected per participant the total realized revenue would have been $136,000 for the 10 week program.

Mr. Roderick said that in Fiscal Year (FY) 2013-14, the Fees & Charges Manual has been amended that if a family is on a reduced or free lunch program they will receive the program at a discounted rate. For the current Fiscal Year (2012-13), City Council adopted the Fees & Charges Manual with no fee waiver or scholarship program. He asked Council for policy direction to waive the fees for the current summer program which started on June 17.

Vice-Mayor Manheimer clarified that if a child qualifies for a free or reduced lunch during the regular school year, they would receive summer camp for free. Mr. Simmons said that in FY 2013-14 the fee is going up to $50/week for the first child. If the child qualifies for free or reduced

lunch, it will be $30/week for the first child. The summer camp program runs from 8:00 a.m. - 5:30 p.m.

When Councilman Hunt felt there needs to be written documentation for reduced fees kept on file at the City, Mr. Simmons said that the parents have to fill out a form with the school system that allows them to have a free or reduced lunch. Currently we don't have a scholarship program in place, but that documentation will be required for next FY 2013-14.

In response to Vice-Mayor Manheimer, Mr. Simmons said that parents can register at anytime and they may not register for the full 4-week or full 5-week session. Parents can sign up on a week by week basis. If there is a fee reduction for this fiscal year, staff would let the parents know of that reduction prior to the next week's registration. It was noted that some parents may be required to pay a fee if they do not qualify for the reduced or free luncheon, unless Council waives the fees.

In response to Councilman Davis, Mr. Simmons said there are approximately 123 children at our sites. Last year they served approximately 341 children. An assumption of the drop is because the City is now charging for the program with no waivers or scholarship program.

Councilman Hunt moved to amend the Fees & Charges Manual for the current Fiscal Year (2012-13) as follows: fees for families that qualify for free and reduced lunches be $25.00 per week for the first child + $10 weekly registration fee, effective Fiscal Year 2012-13; and for Fiscal Year 2013-14 fees for families that qualify for free and reduced lunches be $35.00 per week for the first child + $10 weekly registration fee.

Mayor Bellamy questioned the $15 reduction and felt it would be more appropriate to let staff determine the reduction, taking into account the income of the families that use our programs. She pointed out that a free lunch is different than a child with a reduced lunch.

Councilman Hunt moved to amend his motion to amend the Fees & Charges Manual for the current Fiscal Year (2012-13) as follows: (1) fees for families that qualify for reduced lunches be $30.00 per week for the first child + $10 weekly registration fee, effective Fiscal Year 2012-13; and for Fiscal Year 2013-14 fees for families that qualify for reduced lunches be $40.00 per week for the first child + $10 weekly registration fee; and (2) fees for families that qualify for free lunches be $20.00 per week for the first child + $10 weekly registration fee, effective Fiscal Year 2012-13; and for Fiscal Year 2013-14 fees for families that qualify for free lunches be $30.00 per week for the first child + $10 weekly registration fee. This motion was seconded by Councilman Bothwell.

At Vice-Mayor Manheimer's suggestion, it was the consensus of Council to have the Finance Committee review the summer program fees, service delivery systems, performance measures, comparable rates and best practices in other cities.

Mayor Bellamy felt we need to look at the income of the families who actually use our system and on average it's the lowest of the lowest income people in our community. We need to make sure that kids are safe in the summer and have the ability to use the facilities that their parents are paying for.

Councilman Smith asked that in the future we would see some outcome measures around these programs and what we are doing around the achievement gap.

Mr. Alan Ditmore felt that large scale child care funding needs to go hand in hand with contraception funding.

Mr. Timothy Sadler hoped that long-term the City's goal should be to get local organic food to children in their programs.

With a friendly amendment by Councilman Smith, Councilman Hunt moved to amend his motion for the current Fiscal Year 2012-13, based on documented evidence provided by parents and presented to City staff (which will be retained centrally and verified by the City staff) (1) children of families that qualify for free lunch be waived for the first child + $10 registration fee (per week); and (2) children of families that qualify for reduced lunch be $20 per week for the first child + $10 registration fee (per week). This amended motion was agreed to by Councilman Bothwell and carried unanimously.

Mayor Bellamy asked Mr. Simmons to provide a report to Council on the income levels associated with eligibility for free and reduced rate school lunches.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

**ORDINANCE BOOK NO. 28 – PAGE 282**

**RESOLUTION NO. 13-146 - RESOLUTION APPOINTING A MEMBER AND CHAIR TO THE CIVIL SERVICE BOARD**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Civil Service Board. In addition, City Council must appoint a Chair annually.

The terms of Mr. Larry Harris (current Chair) and Ms. Jacquelyn Hallum expire on May 21, 2013.

The following individuals have applied for the vacancy: Carolyn Worthington, Elizabeth Franks and Lynn Moffa.

On June 11, 2013, City Council instructed the City Clerk to arrange interviews for Ms. Worthington, Ms. Franks and Ms. Moffa.

After Council spoke highly of the candidates, Carolyn Worthington received 7 votes; Elizabeth Franks received 2 votes, and Lynn Moffa received 5 votes. Therefore, Carolyn Worthington and Lynn Moffa were appointed as members of the Civil Service Board to each serve a two year term respectively, terms to expire May 21, 2015, or until their successor s have been appointed.

Councilman Hunt moved to appoint Marvin Rosen as Chair to the Civil Service Board to serve at the pleasure of Council. This motion was seconded by Councilman Bothwell and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 369**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Due to the claims of Lt. William Wilke, Mr. Timothy Sadler felt that the public's trust has been betrayed by the Chief of Police Anderson and encouraged him to resign.

At the suggestion of Councilman Smith, City Manager Jackson explained the process underway for the claims made by Lt. William Wilke concerning the handing of Chad Anderson's investigation. In summary, an internal administrative investigation is underway and he expects said report to be received in 30-45 days; however, findings of his report will not be made public.

Administrative reviews look at facts and findings to determine if policies and procedures were followed. Information related to an administrative review, including any action taken related to the findings of the review, is part of an individual's personnel file. NCGS 160A-168 denies public access to most items in a public employee's personnel file with some exceptions. He stressed that every aspect will be looked at and thoroughly reviewed to see if any policies were violated.

Mayor Bellamy said that if anything was inappropriately handled, there are two avenues of investigations - internal process and the District Attorney investigation (both of which are ongoing). The City has over 200 sworn individuals who protect and serve the City of Asheville, and was disappointed about some of the blanket statements made about the entire Police Department. She has not lost her trust in the Police Department. She wished that the results of the administrative internal investigation could be seen by the public so the public's trust will be restored. She stressed that City Council has no control over the District Attorney.

**Lawsuit**

The City was served with a Complaint on or about May 31, 2013, which is generally described as follows; James L. Smith vs. William Hogan, et al. Complaint involves police brutality and conspiracy to violate Plaintiff's civil rights. This matter will be handled by an attorney outside the City Attorney's Office.

**Closed Session**

At 9:06 p.m., Mayor Bellamy announced Council would go back into closed session to continue discussion of the items previously announced.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 9:52 p.m.

Magdalen Bowleson
CITY CLERK

MAYOR

Tuesday – July 2, 2013- 5:00 p.m.
Council Chamber - 2nd Floor, City Hall

Special Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; City Manager Gary W. Jackson; and City Clerk Magdalen Burleson

Absent: Councilman Marc W. Hunt (planned vacation); Councilman Christopher A. Pelly (planned vacation); and Councilman Gordon D. Smith (prior conflict)

Mayor Bellamy opened the special meeting at 5:00 p.m. She said that the purpose of this special meeting is to announce the interim City Attorney.

Councilman Bothwell moved to appoint Ms. Martha Walker-McGlohon as Interim City Attorney. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

After Council spoke highly of Ms. Walker-McGlohon, Mayor Bellamy administered Ms. Walker-McGlohon the oath of office.

**Closed Session**

At 5:05 p.m., Councilman Davis moved to go into closed session for the following reason: To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee, and to hear or investigate a complaint, charge, or grievance against an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Bothwell and carried unanimously.

At 5:20 p.m., Councilman Davis moved to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

At 5:20 p.m., Mayor Bellamy adjourned the meeting.

Magdalen Burleson
City Clerk

Mayor

Tuesday – July 5, 2013 – 2:00 p.m.

**SPECIAL MEETING**

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; City Manager Gary W. Jackson; Interim City Attorney Martha Walker McGlohon; and City Clerk Magdalen Burleson

Absent: Councilman Marc W. Hunt; Councilman Christopher A. Pelly; and Councilman Gordon D. Smith

Mayor Bellamy announced that this special meeting is to consider a matter relating to an employee of the City of Asheville. After closed session, she said that the meeting would adjourn in the open meeting.

**Closed Session**

At 2:00 p.m., Councilman Davis moved to go into closed session (1) to receive an update on the investigation of a complaint, charge, or grievance against an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); (2) to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (3) to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in G.S. 143-318.11 (a) (3). This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

At 4:00 p.m., Vice-Mayor Manheimer moved to come out of closed session and return to the formal meeting. This motion was seconded by Councilman Bothwell and carried unanimously.

**Adjournment**

At 4:00 p.m. Mayor Bellamy adjourned the meeting.

CITY CLERK

MAYOR

Tuesday – July 11, 2013 – 9:00 a.m.

**SPECIAL MEETING**

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell (arrived at 9:10 a.m.); Councilman Jan B. Davis; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker McGlohon; and City Clerk Magdalen Burleson

Absent: Councilman Marc W. Hunt (planned vacation)

Mayor Bellamy announced that this special meeting is to consider a matter relating to an employee of the City of Asheville. After closed session, she said that the meeting would adjourn in the open meeting. It is also anticipated that at the meeting, Council may take action by adoption of a resolution under 160A-168 (c) (7).

**Closed Session**

At 9:00 a.m., Councilman Pelly moved to go into closed session (1) to receive a final report on the investigation of a complaint, charge, or grievance against an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); (2) to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (3) to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is contained in G.S. 143-318.11 (a) (3). This motion was seconded by Councilman Smith and carried unanimously.

At 9:51 a.m., Councilman Bothwell moved to come out of closed session and return to the formal meeting. This motion was seconded by Councilman Davis and carried unanimously.

Interim City Attorney Martha McGlohon said that on June 25, 2013, Lt. William Wilke held a press conference concerning allegations of an incident involving Police Chief William Anderson's son that occurred on March 9, 2013. As a result of those allegations, Lt. Wilke filed two grievances with the City Manager's Office. The City Manager then asked City staff to conduct an internal investigation. City staff interviewed at least 7 individuals and invested over 20 hours of the investigation. The investigation is now complete and in closed session City Council was updated on the results of that investigation. All personnel information of a City employee is considered confidential unless there is an exception. There is a statute that allows City Council, upon a written determination by the City Manager that releases certain personnel information is essential to the public confidence in a city service that would allow City Council to release limited personnel information. The City Manager has asked City Council to concur with his determination that certain information from the final investigation be allowed to be released so as to ensure the public confidence is maintained in an essential city service - the Police Department. A resolution has been prepared for City Council consideration with an Exhibit "A" which is the City Manager's written determination.

**RESOLUTION NO. 13-147 - RESOLUTION CONCURRING IN THE CITY MANAGER'S RELEASE OF PERSONNEL INFORMATION**

Vice-Mayor Manheimer read the following resolution and moved for the adoption of Resolution No. 13-147 concurring in the City Manager's release of personnel information. This motion was seconded by Councilman Bothwell. Said resolution reads: WHEREAS, a Lieutenant with the Asheville Police Department held a press conference on June 25, 2013, wherein he alleged that he felt coerced by his superiors to "submit to a set of facts and circumstances that were clearly false and misleading"; and WHEREAS, the Lieutenant also alleged that that statements from his superiors were not in an investigative file; and WHEREAS, the City Manager has conducted a thorough administrative investigation into the allegations made by the Lieutenant, and the City Manager has determined that the

release of certain information covered by N.C.G.S. 160A-168, the Personnel Privacy Act, is essential to maintaining public confidence in the administration of City Services, as set forth in Exhibit A, attached hereto; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: Pursuant to N.C.G.S. 160A-168 (c) (7), the Asheville City Council hereby concurs with the City Manager's release of certain personnel information contained in Exhibit A, attached hereto; and, to the extent of any prior release of such information, ratifies and concurs in said release.

When Mayor Bellamy asked if any member of the public would like to comment, no one spoke.

The motion made by Vice-Mayor Manheimer and seconded by Councilman Bothwell carried unanimously.

Mayor Bellamy then read the following Exhibit "A" which is the statement of the City of Asheville regarding allegations of coercion, cover-up, management and employment related concerns within the Asheville Police Department:

"The Asheville City Council ("City Council") takes tremendous pride in the men and women of the Asheville Police Department (Department). They are a group of highly trained professionals and dedicated public servants, reporting for duty around the clock, frequently risking their lives in service to this community. On Tuesday, June 25, 2013, a Lieutenant with the Department held a press conference wherein he alleged that he felt coerced by Chief William Anderson and Captain Stony Gonce to "submit to a set of facts and circumstances regarding the accident involving his (the chief's) son that were clearly false and misleading." The Lieutenant went on to allege that statements from Chief Anderson and Captain Gonce regarding the accident were not in the investigative file. The Lieutenant also stated that the City Manager and Deputy City Manager failed to act on his June 17 and June 24 complaints. The City Manager, as the City's chief administrator in charge of directing and supervising the administration of all City departments and making all employment related decisions, has conducted a thorough investigation into the Lieutenant's allegations.

In accordance with the advice from the Interim City Attorney, the City Council is satisfied that: (1) any and all allegations made by the Lieutenant regarding the SBI interview or missing documents from the SBI file are criminal matters, regarding which the City defers to the judgment of the Buncombe County District Attorney; and (2) that any and all allegations made by the Lieutenant regarding specific employees is confidential personnel information within the meaning of NCGS §160A-168 and may not be disclosed except as allowed by law. Additionally, the City Manager has satisfied the City Council that: (1) the Lieutenant 's grievances were handled timely and in accordance with City Personnel Policies; and (2) that as it pertains to the Lieutenant's allegations of general operational and administrative concerns within the Department, an action plan has been developed to work towards moving the Department forward. The City Manager will share an overview of this plan.

As expressed by the City Manager, there is concern about the accuracy and completeness of the information included in the Lieutenant's public statement on June 25, 2013. More specifically, the City Manager has indicated that the absence of a detailed response from the City to the specific allegations made by the Lieutenant during the June 25, 2013, press conference will force the citizens of Asheville to accept the statements made by the Lieutenant, as representative of the manner in which the City manages its employees and provides essential City services. Based upon the foregoing, the City Manager has concluded, and the City Council concurs, that disclosure of certain personnel information surrounding the administrative investigation into the written allegations made by the Lieutenant, in accordance with NCGS §160A-168(c)(7), is essential to maintaining public confidence in City services, in particular the services provided by the Police Department. Due to the constraints of said statute, the City is not able to release a more detailed response; however, the following account should provide those citizens that have expressed concern about the allegations made by the Lieutenant at the June 25, 2013, press conference, and others, a more accurate depiction.

Between June 27, 2013, and July 9, 2013, City staff invested over twenty (20) hours, interviewing a number of City employees including but not limited to Lieutenant William Wilke, Chief Anderson and Captain Gonce. The following limited findings of fact were derived from the interviews:

1. On March 14, 2013, did Chief Anderson and Captain Gonce attempt to manipulate or coerce Lieutenant William Wilke to "submit to a set of facts and circumstances regarding the accident involving Chief Anderson's son that were clearly false and misleading?"

**FINDINGS:** No. Additionally, the City Manager concurs with the District Attorney's determination that no criminal laws were violated in the course of the investigation of the accident.

2. On March 14, 2013, when the Chief of Police ordered Lieutenant Wilke to his office, did the Chief of Police violate any City or Departmental policies or procedures?

**FINDINGS:** While there are no City or Department policies or procedures that address this issue, the conduct was not appropriate, and this issue has been addressed with Chief Anderson by his supervisor.

The City acknowledges that the administrative investigation revealed that there are concerns within the Department regarding general management practices, some of which commenced prior to the March 9, 2013, incident. Subsequent events following the March 9, 2013, incident exacerbated those concerns. In closing, the City takes very seriously its obligations to comply with the personnel privacy laws. Therefore, the City must refrain from disclosing additional information pertaining to the administrative investigation. It is hoped that the foregoing information will give the citizens of Asheville, who have expressed concerns about the allegations made by the Lieutenant at the June 25, 2013, press conference, sufficient information to make a more informed opinion regarding the same, thereby causing the public to maintain confidence in the City's administration of City services, particularly those services provided by the Police Department."

City Manager Jackson said that the goal of his report is to (1) address concerns of public confidence in City services by sharing findings and conclusions, within the limitations of the law, of the administrative investigation regarding allegations of coercion, cover-up, management and employment related concerns with the Asheville Police Department; (2) outline the timeline of events involving the City's response to the grievance; and (3) assure City Council and the general public that management fully supports the men and women of the Asheville Police Department and plans are in place to move the department forward.

Allegation that Chief William Anderson and Captain Stony Gonce attempted to manipulate or coerce Lt. William Wilke to "submit to a set of facts and circumstances regarding the accident involving Chief Anderson's son that were clearly false and misleading." Statements from Chief Anderson and Captain Gonce regarding the accident were not in the investigative file. Findings (1) any and all allegations made by the Lieutenant regarding the SBI interview or missing documents from the SBI file are criminal matters, regarding which the City defers to the judgment of the Buncombe County District Attorney; and (2) While there are no City or Department policies or procedures that address the Chief of Police's action of ordering Lt. Wilke to his office on March 14, the conduct was not appropriate, and this issue has been addressed with Chief Anderson by his supervisor.

Allegation that of operational and administrative concerns pertaining to specific employees. Findings: Allegations made by the Lieutenant regarding specific employees is confidential personnel information within the meaning of NCGS 160A-168 and may not be disclosed except as allowed by law.

Allegation of general operations and administrative concerns within the Department. Findings: Organizational performance is guided by Council's Strategic Operating Plan and accompanying department business plans which contain specific goals for department management to achieve. In light of the findings of the administrative investigation, we will task Command Staff, supported by outside expertise, to review and modify goals accordingly. An overview of the plan will be made public.

In summary, between June 27, 2013, and July 9, 2013, City staff invested over 20 hours interviewing a number of City employees including but not limited to Lieutenant William Wilke, Chief Anderson and Captain Gonce. The information shared today, in accordance with NCGS 160A-168 (c) (7) is essential to maintaining public confidence in City services, in particular the services provided by the Police Department. Due to the constraints of this statute, the release of personnel records is limited. Aggressive and effective steps are being taken to address the operational and administrative concerns within the Department with a focus on unity, cohesion and integrity. Changes originating with new or long standing department leadership invariably result in organizational stress and conflicts. New department director appointments, new operational emphasis and priorities, reallocation of resources, staff reassignments, and greater accountability for performance may all add stress to the relationships between supervisors and the employees whose work they are responsible for managing. Additionally, budget and fiscal challenges, cost saving strategies and reengineering, as well as economic and legislative trends can all compound the friction between employees and supervisors. These effects are common during periods of change in both public and private organizations and are not unique to APD. City management is committed to providing the resources to better equip employees with the tools to manage the change that is needed to succeed as an organization.

In closing, City management has complete confidence in the Police Department's ability to move forward. This is staff's best effort to closely examine all facts made available at this time. All staff members are strongly encouraged to share information with their supervisors and/or other leadership, including the City Manager, when concerns arise about operational and administrative decisions.

City Manager Jackson then provided a brief report card of the major recent Asheville Police Department accomplishments, which included a decrease in crime; Public Housing Unit; Downtown Unit; Partnerships - Changing Together; and Building Relationships with Youth.

**RESOLUTION BOOK NO. 35 - PAGE 370**

**Adjournment**

At 10:22 a.m. Mayor Bellamy adjourned the meeting.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – July 23, 2013- 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and City Clerk Magdalen Burleson

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Councilman Pelly gave the invocation.

**I. PROCLAMATIONS:**

**II. CONSENT AGENDA:**

**A. APPROVAL OF THE MINUTES OF THE FORMAL MEETING HELD ON JUNE 25, 2013; AND THE SPECIAL MEETINGS HELD ON JULY 2, 2013, JULY 5, 2013, AND JULY 11, 2013**

**B. ORDINANCE NO. 4212 - ORDINANCE TO ENACT THROUGH TRUCK PROHIBITIONS ALONG A SECTION OF EAST CHESTNUT STREET, CHATHAM ROAD, RUMBOUGH PLACE, SALOLA STREET, MOUNT CLARE AVENUE, AND A SECTION OF COLEMAN AVENUE**

Summary: The consideration of an ordinance to enact a through truck prohibition on the following city-maintained streets:

- East Chestnut Street, from SR 1781 (Broadway) to a point 325 feet west of US 25 (Merrimon Avenue).
- Chatham Road, from Edgewood Road to US 25 (Merrimon Avenue).
- Rumbough Place, from US 19-23 (Patton Avenue) to Salola Street.
- Salola Street, from Rumbough Place to SR 3412 (Sand Hill Road).
- Mount Clare Avenue, from SR 1781 (Broadway) to Coleman Avenue.
- Coleman Avenue, from Mount Clare Avenue to a point 200 feet west of US 25 (Merrimon Avenue).

The Traffic Engineering Division has conducted traffic-engineering studies along the subject streets and has determined that the streets are not appropriate for through truck traffic.

City Ordinances 19-60 and 19-61 prohibit trucks from using residential and designated streets as listed in Appendix C of the Code of Ordinances. For purposes of these ordinances, a truck is defined as a vehicle that has any of the following characteristics; a gross vehicle weight rating of 10,000 pounds or more, a tandem or tri-axle, or a tractor or tandem vehicle when pulling semi-trailers or tandem semi-trailers. There are certain exceptions to the ordinances including points of destination on the specific street (exclusive means/route), authorized detour route, emergency vehicles, public utility vehicles, wreckers (when towing), and buses.

The initial cost to install the appropriate truck prohibition signs is about $1,800 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance to enact through truck prohibitions along a section of East Chestnut Street, Chatham Road, Rumbough Place, Salola Street, Mount Clare Avenue, and a section of Coleman Avenue.

**ORDINANCE BOOK NO. 28 - PAGE 284**

**C. ORDINANCE NO. 4205 - SECOND AND FINAL READING OF AN ORDINANCE AMENDING THE FRANCHISE TO OPERATE A TROLLEY BIKE TOUR SERVICE (PUB CYCLE) WITHIN THE CITY OF ASHEVILLE IN ORDER TO EXTEND THE FRANCHISE ONE YEAR FROM THE DATE OF BUSINESS COMMENCEMENT**

**ORDINANCE BOOK NO. 28 - PAGE 259**

**D. RESOLUTION NO. 13-148 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE ASHEVILLE HUMANE SOCIETY FOR ANIMAL SHELTER SERVICES FROM JULY 1, 2013 TO JUNE 30, 2014**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Asheville Humane Society (AHS) for animal shelter services within the territorial limits of the City of Asheville.

The City of Asheville has contracted with the Asheville Humane Society (AHS) since 2002 for the care and shelter of impounded animals. The Asheville Humane Society is contracted by Buncombe County to operate the animal shelter and provide care and maintenance of the animals.

The cost for the animal shelter services to the City of Asheville for FY 2012-2013 was $19,167 per month for a FY year total of $230,004. The FY 2013-2014 cost reflects no change or increases to last years' service and the $230,004 is already included in the Asheville Police Department's 2013 - 2014 budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Asheville Humane Society for Animal Shelter Services for the term of July 1, 2013, through June 30, 2014.

**RESOLUTION BOOK NO. 35 - PAGE 374**

**E. RESOLUTION NO. 13-149 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PINNACLE LANDSCAPE LLC TO PROVIDE VARIOUS GROUNDS MAINTENANCE SERVICES AT PACK SQUARE PARK**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscape, LCC to provide various grounds maintenance services at Pack Square Park in the amount of $115,795 for a twelve (12) month period with an option for two (2), twelve (12) month renewals based on contractor performance.

On October 22, 2012, the Parks, Recreation & Cultural Arts Department issued an Advertisement for Bids for grounds maintenance services at Pack Square Park. Pinnacle Landscape, LCC was lowest responsive and responsible bidder for a total of $115,795. The bid

included unit prices for landscaping and irrigation repair services, which will be billed under separate invoice on an as-needed basis.

The grounds maintenance contract will extend until June 30, 2014 with the option for two (2), twelve (12) month renewals based on contractor performance.

This action complies with the City Council Strategic Operating Plan in that it supports Park Maintenance operations at the highest levels of fiscal responsibility as well as enhances a basic city service. It also complies with the Parks, Recreation & Cultural Arts Master Plan in that it provides ongoing maintenance and care for the City's park system.

Pros: • Supports the efficient delivery of core park maintenance services.

Con: • None

The $115,795 to support the Pack Square Park grounds maintenance contract and is budgeted in the FY 2013-2014 Parks, Recreation & Cultural Arts Department operating budget as part of the Pack Square Park budget. The Pack Square Park annual operating budget is $260,000. The City and Buncombe County share the operating cost for Pack Square Park. The County's annual contribution is $127,000, a percentage of which goes toward the grounds maintenance contract and the remainder to other park operating cost.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a contract with Pinnacle Landscape, LCC to provide various grounds maintenance services at Pack Square Park in the amount of $115,795 for a twelve (12) month period with an option for two (2), twelve (12) month renewals based on contractor performance.

**RESOLUTION BOOK NO. 35 - PAGE 375**

**F. RESOLUTION NO. 13-150 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH W.K. DICKSON & CO INC. FOR ENGINEERING SERVICES ASSOCIATED WITH HORIZON HILL WATERLINE IMPROVEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a professional services agreement with W. K. Dickson & Co., Inc. for engineering services in the amount of $205,350.00 for the Horizon Hill Waterline Improvement Project.

The City of Asheville Water Resources Department has prioritized this Neighborhood Waterline Replacement Project for the current fiscal year and is seeking engineering design and project management assistance with this project. This project will replace existing substandard and failing waterlines in favor of new waterlines, designed and constructed in accordance with the City of Asheville standards. The Water Resources Department issued a Request for Qualifications (RFQ) for Engineering Services related to the design and contract administration of the Horizon Hill Waterline Improvement Project. In response to the RFQ, the department received twelve (12) proposals. Companies responding were:

1. Brooks Engineering Associates - Asheville, NC
2. Brown Consultants, PA - Asheville, NC
3. GAI Consultants, Inc. - Charlotte, NC
4. Lamm Engineering Associates, PLLC – Raleigh, NC
5. Mattern & Craig, Inc. - Asheville, NC
6. McGill Associates - Asheville, NC
7. Michael Baker Engineering, Inc. - Asheville, NC
8. The Wooton Company - Raleigh, NC
9. Vaughn & Melton Consulting Engineers - Asheville, NC

10. Weston and Sampson - Charleston, SC
11. Willis Engineers - Charlotte, NC
12. W. K. Dickson & Co., Inc. - Charlotte, NC

A review team, comprised of staff from the City of Asheville Water Resources Department, reviewed these proposals and selected the firm of W. K. Dickson & Co., Inc. Subsequent to this selection, Water Resources staff met with W. K. Dickson & Co., Inc. and has negotiated an Engineering Services Contract in the amount of $205,350.00.

The funding needed for this agreement is already allocated within the Horizon Hill Waterline Replacement Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a professional services agreement with W. K. Dickson & Co., Inc. for engineering services in the amount of $205,350.00 for the Horizon Hill Waterline Improvement Project.

**RESOLUTION BOOK NO. 35 - PAGE 376**

**G. RESOLUTION NO. 13-151 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH PATTON CONSTRUCTION GROUP LLC FOR THE HAW CREEK AREA AND RIDDLE ROAD WATERLINE REPLACEMENT**

**ORDINANCE NO. 4213 - BUDGET AMENDMENT FOR THE HAW CREEK AREA AND RIDDLE ROAD WATERLINE REPLACEMENT**

Summary: The consideration of a resolution authorizing the City Manager to execute a change order in the amount of $95,468.50 to increase the construction contract for Patton Construction Group, LLC, from a total in the amount of $1,006,269.00 to $1,101,737.50 for the Haw Creek Area and Riddle Road Waterline Replacement; and a budget amendment in the amount of $95,469.00 from savings in other capital projects that were completed under budget.

On July 24, 2012, City Council awarded the construction contract to Patton Construction Group, LLC, for the Haw Creek Area and Riddle Road Waterline Replacement. The project consists of the construction and installation of approximately 3,200 linear feet of 8-inch ductile iron pipe and 6,130 linear feet of 6-inch ductile iron pipe with all associated valves, hydrants, and services to provide fire protection and domestic water service to the Haw Creek area and Riddle Road area.

In order to complete the construction and close out the project, a change order is needed to increase the contract amount by an additional $$95,468.50 for a total contract amount of $1,101,737.50. The change order is needed because of overruns to the original quantities estimated, changes to the scope of the work, and the addition of large areas of pavement resurfacing. The asphalt resurfacing that was added is made up of areas that were scheduled to be paved by City of Asheville Public Works Department and Metropolitan Sewage District. It was included in this project to eliminate the need for the other agencies to produce separate contracts, coordinate the work and produce savings based on scales of efficiencies. The cost for the additional asphalt resurfacing will be recouped through established agreements with the other agencies once the project is complete. The changes to the project were requested through work change directives issued by the Water Resources Department.

The Water Resources Department will initially fund the full construction cost of $1,101,737.50 (includes the change order amount) for this project until completion when reimbursement will be received from the City of Asheville Public Works Department and Metropolitan Sewage District for additional road resurfacing work. The funds of $95,468.50 for the change order will be transferred from the General Projects capital project that accumulates

remaining funds from all of Water Resources completed, inactive capital projects. In order to use the funds in General Projects, a budget amendment is necessary.

Cost summary until reimbursement:

| | |
|---|---|
| Original Construction Amount | $1,006,269.00 |
| Change Order Amount | $ 95,468.50 |
| Total Amount for Project After Change Order | **$1,101,737.50** |

The amount remaining in General Projects will be reallocated to other capital projects as the need arises. Staff will seek Council approval on any future reallocation of these funds.

City staff recommends City Council approval of the resolution authorizing the City Manager to execute a change order in the amount of $95,468.50 to increase the construction contract for Patton Construction Group, LLC, from a total in the amount of $1,006,269.00 to $1,101,737.50 for the Haw Creek Area and Riddle Road Waterline Replacement; and a budget amendment in the amount of $95,469.00 from savings in other capital projects that were completed under budget.

**RESOLUTION BOOK NO. 35 - PAGE 377**
**ORDINANCE BOOK NO. 28 - PAGE 285**

**H. RESOLUTION NO. 13-152 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MUNICIPAL UTILITY AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE RELOCATION AND ADJUSTMENT OF MUNICIPALLY OWNED WATERLINES WITHIN THE I-26 / NC 280 AIRPORT ROAD INTERCHANGE PROJECT AREA WATERLINE RELOCATION WORK ASSOCIATED WITH THE I-26/AIRPORT ROAD ROADWAY CONSTRUCTION PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a Municipal Utility Agreement with NCDOT for the relocation and adjustment of municipally owned waterlines within the I-26 / NC 280 (Airport Road) interchange project area; the maximum estimate for the relocation and adjustment of the waterlines is $164,000.

The NCDOT is constructing highway improvements at the I-26 / NC 280 interchange as part of NCDOT project I-5501, in Buncombe County. The City of Asheville owns and maintains municipal waterlines within the right-of-way of the project area. As a condition of the installation, operation and maintenance of said waterlines within the NCDOT right-of-way; the City of Asheville Water Resources Department is responsible for 100% of the cost associated with adjustment or relocation of said waterlines should the need arise. NCDOT project I-5501 creates that need. For the purpose of construction coordination and efficiencies the City of Asheville Water Resources Department wishes to enter into this Municipal Utility Agreement with NCDOT, which allows the waterline utility work to be performed as part of the NCDOT's construction contract. It is estimated that the total cost of the relocation and adjustment of municipally owned waterlines for this project will not exceed $164,000.

The funding needed for this agreement is currently allocated within the NCDOT I-26 Widening Project in the Water Resources Capital Improvement Projects fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a Municipal Utility Agreement with NCDOT for the relocation and adjustment of municipally owned waterlines within the I-26 / NC 280 (Airport Road) interchange project area; the maximum estimate for the relocation and adjustment of the waterlines is $164,000.

**RESOLUTION BOOK NO. 35 - PAGE 378**

**I. RESOLUTION NO. 13-153 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO TWO AGREEMENTS WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE STATE MATCH TO PURCHASE TWO DIESEL BUSES USING THE CURRENT CONTRACT WITH GILLIG INC.**

Summary: The consideration of a resolution authorizing the City Manager to enter into two agreements with the N.C. Dept. of Transportation (NCDOT) in the amount of $40,000 each, as State matches for the purchase of two diesel buses using the current contract with Gillig, Inc.

During June and August 2012, the City of Asheville received funding from the Federal Transit Administration under the Bus and Bus Facilities, Livability Program, and the State of Good Repair to purchase two 30-foot buses to replace the last two remaining 1996 buses. The City allocated its share of the required 20% local match for both buses, an amount totaling $160,000. The City was recently informed that the North Carolina Department of Transportation (NCDOT) will fund 10% of the cost of the bus purchases, which will save the City $80,000. Because the buses are funded with different grants, the NCDOT has produced two agreements, one for each.

The City has order one of the buses and is in the process of ordering the second one under the current contract with Gillig, LLC. The delivery date will be 12 months for both of them.

The cost for purchasing the two buses is approximately $800,000. 80% will be funded by the FTA, 10% or $80,000 funded by the City and 10% or $80,000 by the NCDOT. With NCDOT now providing 10% of the funding, the City will save $80,000 in funds that were previously budgeted for these bus purchases. Staff recommends that half of this savings ($40,000) remain in the Transit Capital Projects Fund and be used for City matches for future Transit capital investments, and that the remaining $40,000 be returned to the General Fund and held in contingency pending current year budget performance.

Staff recommends City Council to authorize the City Manager to enter into two agreements with the NCDOT in the amount of $40,000 each, as State match to purchase two diesel buses using the current contract with Gillig, Inc.

**RESOLUTION BOOK NO. 35 - PAGE 379**

**J. RESOLUTION NO. 13-154 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH NEXTBUS INC. TO INSTALL AN AUTOMATED VEHICLE LOCATION SYSTEM AND PROVIDE REAL-TIME PASSENGER INFORMATION TO TRANSIT USERS AND EXCEPTION TO BID ANY ITEMS QUOTED IN THE REQUEST FOR PROPOSALS**

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with NextBus, Inc. to install an Automated Vehicle Location system and provide Real-time Passenger Information to transit users and exception to bid any items quoted in the Request for Proposals.

The City applied for the N.C. Dept. of Transportation's Urban Technology Grant and was awarded $405,000 to acquire an Automated Vehicle Location (AVL) system with focus in the Real Time Passenger Information feature. The AVL system produces operational information in real time, which includes vehicle location, speed, fuel usage, on-time performance, and historical records. This information is a powerful tool to help manage the system and to identify areas needing improvement. It also enhances the customer experience by providing next bus arrival information in real time, via personal cell phones, Smartphones and through the transit system's website. This project has been identified in the Transit Master Plan as a vital project to help improve the system's operation.

The City issued a Request for Proposals (RFP) on March 19, 2013, and it closed on April 22, 2013. Three proposals were received from the following firms:

- Digital Recorders Inc., a division of Clever Device Ltd. - Durham, NC
- RouteMatch Software - Atlanta, GA
- NextBus Inc. - Emeryville, CA

The proposals were evaluated by a committee that included staff from the IT, and Transportation Departments and overseen by North Carolina State University, Institute of Transportation Research and Education (NCSU/ITRE) and the City's Purchasing Office.

The firms were evaluated based on their qualifications and experience, statement of work, proposal response and cost.

After careful review and consideration of all the evaluation factors and the information provided, the committee recommends NextBus, Inc. to install its Automated Vehicle Location system.

The initial cost to install the basic system, including operations for five years will be $352,206. The additional cost of installing LED signs at selected bus stops with this funding source will be up to $97,794. NCDOT is funding 90% of this project in the amount of $405,000, the remaining 10% ($45,000) are City's responsibility.

This contract will be valid for five years, giving other transit systems in the area the possibility to piggy back and acquire the same AVL system. It will also give the city the ability to leverage additional funds to install LED signs at important bus stops.

The total anticipated project cost is $450,000. The City is required to provide a 10% local match in the amount of $45,000, which is already budgeted in the Transit Capital Project Fund.

City staff recommends City Council to adopt a resolution authorizing the City Manager to enter into a contract with NextBus, Inc. to install an Automated Vehicle Location system and provide Real-time Passenger Information to transit users and exception to bid any items quoted in the RFP.

**RESOLUTION BOOK NO. 35 - PAGE 380**

**K. RESOLUTION NO. 13-155 - RESOLUTION APPROVING THE REALLOCATION OF EMERGENCY SOLUTIONS GRANT FUNDS TO HOMEWARD BOUND OF WESTERN NORTH CAROLINA AND STAFF SUPPORT FOR THE HOMELESS INITIATIVE**

Summary: The consideration of a resolution for the re-allocation of existing Emergency Solutions Grant funds in the amount of $25,000 to Homeward Bound of Western North Carolina for Rapid Rehousing activities and $10,000 for staff support for the homeless initiative.

When the original allocations of ESG funds were made earlier this year, the Homeless Initiative Advisory Committee (HIAC) recommended and City Council approved $35,000 be allocated to offset HMIS costs for community agencies. Since that recommendation, the HUD Continuum of Care Competition resulted in an application for an HMIS project that would cover HMIS fees. We expect to receive those funds in that competition. Therefore, the $35,000 originally allocated for that purpose needs to be reallocated to other uses.

The HIAC sent a Request for Proposals via the Homeless Coalition for eligible agencies to apply for $25,000 of these funds for Rapid Rehousing activities. Homeward Bound of Western

North Carolina was the only applicant. The Housing and Community Development Committee recommends the following for the $35,000 balance of funds:

1) $25,000 to Homeward Bound of Western North Carolina for Rapid Rehousing activities
2) $10,000 to the City of Asheville for HMIS staff support for the Homeless Initiative

The State ESG program agrees that these are eligible uses for these funds.

The proposed activity is a reallocation of funds already awarded. The purpose for which the funds were originally allocated will be met through a different funding source.

City staff recommends City Council accept the Housing and Community Development Committee recommendation for drawing down the $35,000 balance of Emergency Solutions Grant funds.

**RESOLUTION BOOK NO. 35 - PAGE 381**

**L. RESOLUTION NO. 13-157 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY, THE CITY OF HENDERSONVILLE, AND CUSTOMER INSPIRED SERVICES, LLC, FOR THE JOB ACCESS AND RESERVE COMMUTE AND NEW FREEDOM GRANTS**

**ORDINANCE NO. 4214 - BUDGET AMENDMENT FOR THE NEW FREEDOM PROJECTS**

Summary: The consideration of (1) a resolution authorizing the City Manager to enter into an agreement with Buncombe County, the City of Hendersonville and Customer Inspired Services, LLC, (sub-recipients of Job Access and Reverse Commute and New Freedom grants); and (2) a budget amendment in the amount of $75,398 from federal grant funds and sub-recipient matches to increase the project budgets for the New Freedom Federal grants.

The City of Asheville is the designated recipient of the Job Access and Reverse Commute (JARC) and New Freedom grant funds, which are programs of the Federal Transit Administration (FTA). JARC is a formula grant program oriented to provide job access in the urbanized and suburbanized area. The formula is based on the number of eligible low-income and welfare recipients in these areas.

The job access refers to projects relating to the development and maintenance of transportation services designed to transport welfare recipients and eligible low-income individuals to and from jobs and activities related to their employment.

The reverse commute refers to a public transportation project designed to transport residents of urbanized areas and other than urbanized areas to suburban employment opportunities.

The projects to be funded include: pedestrian improvements along US 64 in Henderson County, which is the City of Hendersonville's project; van purchasing and rehabilitation, which is for Customer Inspired Services, and the City of Asheville's administrative costs for both projects.

New Freedom is also a FTA formula grant program for new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990. These funds are intended to assist individuals with disabilities with transportation, including transportation to and from jobs and employment support services.

To be eligible, the programs require an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization, Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals. The plan was approved on March 29, 2012 by the French Broad River MPO's governing body (the Transportation Advisory Committee), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the rules to apply for projects and the projects were selected in a competitive process that was approved by the TAC.

In September 2012, Buncombe County's Mountain Mobility, the City of Hendersonville and Customer Inspired services were selected as sub-recipients of the JARC grant and NF grant. The projects are listed as follows:

| Sub-Recipient | Project | Program | Amount funded | Sub-Recipient's match |
|---|---|---|---|---|
| Buncombe County | Black Mountain Trailblazer | JARC | $102,181 | $102,181 |
| City of Asheville | Program Administration | JARC | $22,706 | N/A |
| City of Hendersonville | Pedestrian improvements along US 64 | NF | $197,116 | $37,000 |
| Customer Inspired Services | Van purchasing and rehab | NF | $18,700 | $2,300 |
| Customer Inspired Services | Operations | NF | $2,000 | $2,000 |
| City of Asheville | Program Administration | NF | $24,201 | N/A |

The City set up project budgets in February 2013, but there was an oversight to authorize the City Manager to sign the sub-recipient agreements. The resolution seeks to remediate this.

In addition, the projects under the New Freedom grant have been increased by the MPO, due to additional funding availability; funding has been allocated to the NF projects as shown in the table below. The city will pass through the funds and will seek reimbursement directly from the FTA. The sub-recipients will be responsible for the match.

| Sub-Recipient | Project | Program | Amount funded | Sub-Recipient's match |
|---|---|---|---|---|
| City of Hendersonville | Pedestrian improvements along US 64 | NF | $239,918 | $59,980 |
| Customer Inspired Services | Van purchasing and rehab | NF | $21,000 | $5,250 |
| City of Asheville | Program Administration | NF | $28,567 | N/A |

The City will be responsible for the Program Management and, as designated recipient, to oversee the use of the funds according to FTA regulations. The program management will require the use of city resources, mainly staff. As a designated recipient the city will use $28,567

NF funds, for administration purposes, which will cover the program management expenses for a period of two years.

This program is fully funded with federal grant funds; there is no impact to the City's General Fund budget.

Staff recommends that City Council: 1) authorize the City Manager to enter into an agreement with each one of the sub-recipients of the Job Access and Reverse Commute and New Freedom grants; and 2) adopt a budget ordinance amendment in the amount of $75,398 from federal grant funds and sub-recipient matches to increase the project budgets for the New Freedom Federal grants.

**RESOLUTION BOOK NO. 35 - PAGE 385**
**ORDINANCE BOOK NO. 28 - PAGE 287**

**M. RESOLUTION NO. 13-158 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A UNIT PRICE CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE OVERLOOK ROAD SIDEWALK PROJECT**

**ORDINANCE NO. 4215 - BUDGET AMENDMENT FOR THE OVERLOOK ROAD SIDEWALK PROJECT**

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute a unit price contract not to exceed the amount of $324,715 with Patton Construction Group, Inc., along with a 17% contingency fund to cover any change orders up to the total contract amount of $380,000 for the Overlook Road Sidewalk Construction Project; and 2) a technical project budget amendment in the amount of $380,000 from previously budgeted fee-in-lieu of sidewalk monies and general fund pay-as-you-go capital funds.

The reason for installing this sidewalk is that it is an identified needed linkage in the City of Asheville's adopted Pedestrian Plan. It will provide a safe pedestrian thoroughfare between three schools, two churches and a public library.

Portions of this work take place in the North Carolina Department of Transportation's Right-of-Way. An encroachment agreement was obtained from that agency on September 6, 2012. Along with the encroachment agreement, several temporary and permanent easements were required to be obtained from adjacent property owners.

The project generally consists of installing new ADA compliant sidewalks, curb and gutter, storm drainage structures, milling and resurfacing a portion of the North bound lane of Overlook Road along with associated items.

An informal request for bids was issued on May 2, 2013. There were no proposal's received on the due date of May 16, 2013. Invitations for bids were sent out again on May 17, 2013, one bid from a local contractor was received on May 23, 2013. Their price exceeded the estimate for this project by 65%. Pursuant to reviewing the bid, staff began negotiations with the Contractor but was unable to come to a mutual agreement.

Another informal request for bids was issued on June 19, 2013, with two bid proposals being received on July 9, 2013. The low bidder being a local contractor, Patton Construction Group, Inc., with an amount of $324,715.00.

Funding for the design work on the Overlook Road sidewalk project was included in the City's FY 2011-12 Capital Improvement Program. As noted above, funding was included for construction in the FY 2012-13 Capital Improvement Program. In order to consolidate the two

years' of funding for this contract into one capital project, staff is recommending that City Council adopt a technical project budget amendment in the amount of $380,000.

Staff recommends City Council to: 1) authorize the City Manager to execute a unit price contract with Patton Construction Group, inc., in the amount of $324,715 along with a contingency amount of 17% to cover any changes or unexpected occurrences, bringing the total contracted amount to $380,000 for the Overlook Road Sidewalk Construction Project; and 2) adopt a technical project budget amendment in the amount of $380,000 from fee-in-lieu of sidewalk monies and previously budgeted general fund pay-as-you-go capital funds.

**RESOLUTION BOOK NO. 35 - PAGE 386**
**ORDINANCE BOOK NO. 28 - PAGE 289**

**N. RESOLUTION NO. 13-159 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH BUNCOMBE COUNTY TO CONTINUE ADMINISTRATIVE COORDINATION OF CHANGING TOGETHER**

**ORDINANCE NO. 4216 - BUDGET AMENDMENT FOR CHANGING TOGETHER COMMUNITY PROJECT**

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute on behalf of the City of Asheville an agreement with Buncombe County in which the City will act, for a third year, as the coordinating agency for the Changing Together community project aimed at reducing violence through strategic prevention, intervention and suppression; and 2) a technical budget amendment in the amount of $79,955 to establish a project budget for this program in the City's Grant Fund.

Changing Together is a comprehensive and collaborative community project with participation from law enforcement, the District Attorney's Office and numerous non-profit and social service agencies throughout Asheville and Buncombe County. It was formed to address the issue of violence and chosen by the Governor's Crime Commission (GCC) as a Tier 1 site for implementation of the Focused Deterrence Model (High Point Model) in fiscal year 2009.

On September 13, 2011, and again on June 26, 2012, Council adopted a resolution authorizing the City Manager to enter into an agreement with Buncombe County to have the City oversee the administrative coordination of Changing Together. Since that time, the initiative has continued to address violent crime through the focused deterrence model.

During the last fiscal year, Changing Together facilitated 3 call-ins in which 44 of the 69 notified violent offenders (64%) heard a message from law enforcement and community members that their violent actions will no longer be tolerated. Representatives from local, state and federal enforcement agencies clearly outlined the coordinated information-sharing network created to ensure that notified offenders who continue to commit violent acts receive the most severe sentencing under the law. Community members described the impact of violence on families and neighbors, reminding notified offenders that, if they choose to change their violent behavior, they will find support from the community.

Notified offenders are also made aware of the services and resources available through Changing Together, including assistance with job searches, housing options and life skills classes. Of the 44 offenders who attended these call-ins, 30 stayed after to discuss requested services. To date, 16 (24%) Notified offenders have contacted Changing Together, and 11 (16%) are currently receiving assistance and support through Changing Together from staff, service providers, and community members.

Currently, the Buncombe County receives grant funding from the Governor's Crime Commission to coordinate direct services for call-in participants age 16 and older. Funding pays for the coordination of Changing Together, which includes a salary for the program director, project assistant and one resource counselor. For fiscal year 2013-14, the grant is $79,955.

The County is requesting the City continue responsibility for administrative coordination of Changing Together. One factor prompting the request is that the Governor's Crime Commission emphasized a preference for the coordination to be located in a municipality because of the stability it provides due to organizational capacity and infrastructure. The Buncombe County District Attorney's Office and the Buncombe County Sheriff's Office continue to be supportive of this restructuring of program coordination responsibilities. If the city manager is granted the authority to execute the agreement, the community relations division of the city manager's office will again oversee the Changing Together Program Director and Project Assistant positions.

With the revenue received from the County, the City will continue administrative coordination of the program director and project assistant positions. As a multi-agency grant partner, the city will contribute $10,000 for on-the-ground resource coordinator services. Funding for this program was included as part of the community relations approved FY 2013-14 General Fund budget. The technical budget amendment will move the budget from the General Fund to the Grant Fund.

Staff recommends City Council adopt: 1) the resolution authorizing the City Manager to execute, on behalf of the City of Asheville, the agreement with Buncombe County to continue administrative coordination of Changing Together; and 2) a technical budget amendment in the amount of $79,955 to establish a project budget for this program in the City's Grant Fund.

**RESOLUTION BOOK NO. 35 - PAGE 387**
**ORDINANCE BOOK NO. 28 - PAGE 291**

**O. RESOLUTION NO. 13-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. HISTORIC PRESERVATION OFFICE TO DEVELOP THE ASHEVILLE BUNCOMBE PRESERVATION PLAN**

**ORDINANCE NO. 4217 - BUDGET AMENDMENT FROM A FEDERAL PASS THROUGH GRANT FROM THE NATIONAL PARK SERVICE HISTORIC PRESERVATION FUND**

Summary: The consideration of a (1) resolution authorizing the City manager to enter into an agreement to accept a federal pass though grant from the National Park Service Historic Preservation Fund via the North Carolina State Historic Preservation Office; and (2) a budget amendment in the amount of $28,000 for the development of the Asheville Buncombe Preservation.

This budget amendment will be to accept a $15,000 federal pass though grant from the National Park Service Historic Preservation Fund via the North Carolina State Historic Preservation Office and to dedicate local matching funds of $2,300 raised by the Historic Resources Commission (HRC) through book sales of Cabins & Castles; $1,000 contributed by Mountain Housing Opportunities as stipulated in the Memorandum of Agreement for Eagle Market Place; and private donations raised by the HRC with assistance from the Preservation Society in the amount of $9,700 for a total budget of $28,000 for the development of the Asheville Buncombe Preservation.

As with many communities across the country, historic preservation in Asheville is at a crossroads. Originally established in 1979, the Historic Resource Commission of Asheville and Buncombe County has operated successfully as a joint body for the past 35 years and now oversees four local historic districts and 47 local landmarks. The HRC is also proud of the 15

National Register Districts and many more properties individually listed on the National Register, located within its jurisdiction.

The Asheville downtown area has experienced a renaissance and continues to be a thriving tourist destination. Its popularity and preservation has been fueled, in part, through the success of the Rehabilitation Tax Credit Program. The number of successful tax credit projects is an indicator of the local desire to protect and reuse historic buildings and of the essential role that historic building rehabilitation has played in Asheville's revitalization.

However, there are new challenges. The popularity of downtown has led to redevelopment efforts that have resulted in the demolition of structures significant to the downtown historic district. Although the Downtown Master Plan, adopted by the City in 2009, identified a goal for the HRC to work more closely with the downtown Commission, the City still struggles with how to achieve this goal as budget constraints have limited staff time and resources.

The HRC is also challenged with engaging the citizens of the community in a planning process that would guide future preservation policy within the broader context of heritage tourism planning, zoning and land use policy, community development, and sustainability initiatives.

In an effort to work towards facing these challenges, staff with the support and encouragement of the HRC applied and has been awarded a grant from the Historic Preservation Fund to develop a preservation plan for the community. The goal of this plan will be to connect the Asheville-Buncombe historic preservation program to overall decision making about community and economic development, public investment, urban form, and rural identity as opposed to the protection of isolated resources. We also see this effort as a means to provide an increased opportunity for public participation in historic preservation for Asheville and Buncombe County.

As noted above, this budget amendment is fully funded with grants and other non-General Fund revenue sources.

City staff recommends that City Council (1) authorize the City Manager to enter into an agreement with the N.C. Historic Preservation Office for the purpose of accepting the grant and developing the Asheville Buncombe Preservation Plan; and (2) a budget amendment, in the amount of $28,000, to accept a $15,000 grant from the Historic Preservation fund, via the NC State Historic Preservation Office and dedicate $13,000 in local matching funds.

**RESOLUTION BOOK NO. 35 - PAGE 388**
**ORDINANCE BOOK NO. 28 - PAGE 293**

**P. RESOLUTION NO. 13-161 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE STATE MATCH TO PURCHASE A COMPRESSED NATURAL GAS REPLACEMENT VAN FOR HENDERSON COUNTY'S TRANSIT SYSTEM**

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to provide a Section 5307 Capital Grant in the amount of $1,453 to be used for the State match to purchase a Compressed Natural Gas (CNG) replacement van for Henderson County's transit system.

As a result of the 2000 Census, the City of Asheville was reclassified from a non-urbanized area to an urbanized area with a population greater than 200,000 persons and now includes municipalities in Buncombe, Haywood, and Henderson counties. After the reclassification, Henderson County's transit system became part of the transit systems operating

in the overall urbanized area. The Federal Transit Administration named the City of Asheville the designated recipient and as a result, the City of Asheville oversees all of the Federal funding administration. The City of Asheville and Henderson County have signed a sub-recipient agreement that specifies how the funds are disbursed. The City of Asheville is accountable to the Federal Transit Administration regarding the use of all Federal funds and owns all the capital items that Henderson County purchases with Federal funds.

The estimated total cost of the subject project is $95,386. Federal funds will provide $92,462, $80,841 are part of the ARRA apportionment and don't require a match; and $11,621 are covered with grant NC-90-X439; this grant requires a match of $2,906, $1,453 provided by NCDOT and the remaining $1,453 provided by Henderson County. The City of Asheville performs all of the administrative tasks including the bidding process, requests for funding, review of documentation, and reporting. The van has been already received, but confirmation from the state's participation came recently.

The total estimated project cost is $95,368, with 96% or $92,462 coming from Federal funds, 4% or $2,906 coming from Henderson County and the NCDOT. There is no direct fiscal impact to the City of Asheville, however the City's cost of administering the project is not recovered.

City staff recommends that City Council approve a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation in the amount of $1,453, as State match to purchase one CNG van.

**RESOLUTION BOOK NO. 35 - PAGE 389**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Hunt moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. EAST END NEIGHBORHOOD ASSOCIATION - BREWGRASS FESTIVAL

Ms. Renee White, President of the East End Neighborhood Association (EEVSNA), said that they request Council to pass a resolution reiterating that the EEVSNA understanding of what occurred at a previous Council meeting in reference to BrewFest is in fact what happened.

"In the spring of 2012, the East End Community complained loudly about the BrewFest attendees' behavior while outside the gates of the MLK Park venue both before entering the Fest and after leaving it. People arrived with beer, drank that beer and left the refuse of broken beer bottles and Styrofoam coolers. After the Fest, folks that had been drinking beer all day had to be somewhat inebriated. They got into their cars and drove in that state through our neighborhood. Was there a sobriety checkpoint anywhere? No, there was not.

"Many of the attendees left their trash behind, blocked driveways and were belligerent with residents when told they could not park at a particular location. Some streets were so jammed with cars on both sides that they were almost impassible. Of particular concern in that instance was whether emergency vehicles like fire trucks could get through.

"After the outcry from the community, the organizers of BrewFest requested to attend the Association meeting in May 2012. Surely after attending that meeting, it had to be abundantly clear that we didn't want them to return. They were not welcome to return to MLK Park. In that meeting the Neighborhood Organizer liaison suggested that additional law enforcement would be present to patrol the neighborhood for the specific purpose of alleviating the problems mentioned earlier and said that once the Pack Square renovations were done, we would not have to worry about future festivals. To follow-up, I came before Council at their community meeting to inform Council that our community did not want BrewFest to return again after 2012. What we took from that Council meeting was that 7 council members supported us and had given BrewFest its walking papers.

"In May 2013, when it was announced that BrewFest was on the calendar, had a website up promoting the venue as MLK Park and was rapidly selling out tickets, folks attending the meeting were outraged. We could not have been more clear that we did not want them back. The puzzling part is that despite that meeting expressing our desires the community never heard a word from BrewFest organizers stating that they were unable to lock down a different venue and in fact would be at MLK Park again in September. One cannot help but feel that this attitude smacks of the lack of regard for the desires of our community. We were told by the Neighborhood Organizer liaison that the City had received no complaints about the 2012 Fest so it was assumed that all was well. That such a leap should be taken, again with no regard for what the neighborhood desired, is mindboggling. The City received no complaints because APD did a fine job of patrolling and keep things in order. Now does that make it right to then go on and proceed with an event that we vehemently objected to having? An event that we instructed the Neighborhood Organizer to make the City aware of our position? No, it does not.

"We get that the BrewFest was originally a so-called community initiative, but the East End alone has bore the brunt of it. We have said it before, and we'll say it again, we do not want BrewFest back in MLK Park.

"We suggest that they take the event to a more suitable venue like Louis Soccer field. It's accessible and there's plenty of parking.

"In closing, our Association support the fundraising BrewFest does for Big Brothers, but the type of event is just not a match for a family oriented neighborhood like ours.

"We trust that you will do the right thing and submit a resolution in regards to this issue. We have met with the organizers and express our desires if they return in 2013 that does include assurance that they will not be in MLK Park in 2014."

Mayor Bellamy said that this Festival sounds like an incompatible use in MLK Park. She supported the residents in their request to find the Brewgrass Festival another location in 2014.

Councilman Pelly moved to not allow the Brewgrass Festival in MLK Park in 2014 and beyond.

Mr. Eddie Dewey, representative from the Brewgrass Festival, said that since 1997 they have held the festival at MLK Park 10 times. They now understand the sensitivity of the neighborhood. They are in support of moving the festival and working with the City to move the festival in 2014 to Memorial Stadium.

Mayor Bellamy felt that moving from MLK Park to Memorial Stadium might be a worse location because it is located around more residential units. She suggested Carrier Park. She also suggested City staff work with Brewgrass organizers to find a suitable location that has additional parking and not a lot of residential around the location. She wanted both the Festival and the surrounding communities to be successful.

Councilman Davis felt it might be better to receive the staff report on the alternatives available before adopting a resolution.

Mayor Bellamy noted that the neighborhood has been to Council before and had their support. Now she felt it was time that they showed their support by adopting a statement.

When Councilman Smith hoped that a new location might be located where people can take the bus and have other modes of transportation, Mr. Dewey said that they are working on expanding the shuttle and trolley. He has spoken with the development group of the new apartments near Memorial Stadium and has plans to reach out to that community. It is still in a similar area, but the parking is in a different location. He noted that Brewgrass is a daytime event and over by 7:00 p.m. The music is not loud rock and roll and feels that Memorial Stadium is a suitable location. He said that MLK Park has been an event site for a long time, but it has become a community park and they agree that it's not the appropriate place for a festival. They have given the East End Community Association their word that they would not have the Festival in MLK Park in 2014, but it has been contingent on the fact that they can find a suitable location.

City Manager Jackson asked for Council's direction to relocate the Brewgrass Festival. It is the last event of this scale in MLK Park. The City has systematically tried to relocate or discontinue any other events of this size in MLK Park. He asked for (and recommended) Council policy direction that events of this size this will not be acceptable in MLK Park. In terms of alternative locations, there are many other factors that go into that, but if there is any Council direction to eliminate the range of options, that would be helpful. The City has evaluated Memorial Stadium from a technical standpoint.

Vice-Mayor Manheimer agreed that the festival should not be held in MLK Park in 2014, but was concerned we are telling them we don't like their next location.

Interim City Attorney McGlohon cautioned Council about not singling out the Brewgrass Festival vs. any other festival of a similar nature. Mayor Bellamy noted that City Manager Jackson stated that the City has systematically tried to relocate or discontinue any other events of this size in MLK Park.

The motion made by Councilman Pelly was seconded by Councilman Hunt.

City Manager Jackson said it's the scale of the event and not the issue of whether or not the event sells alcohol. There is the potential that the large population will damage the field and change the character and nature of the neighborhood. He suggested there be policy that you have a preferred use for this park and it's not for events of this scale.

When Councilman Bothwell asked how we would define the scale, Interim City Attorney McGlohon said that may need further investigation into the issue into the type of festivals that you want and do not want at MLK Park.

Mayor Bellamy said that this issue will come back to Council at their August 13, 2013, meeting with the issues addressed, but wanted to be clear that the Brewgrass Festival is an incompatible use for MLK Park and the neighborhood had asked Council to address this over a year ago.

**B. GREATER ASHEVILLE AIRPORT REGIONAL AUTHORITY UPDATE**

Mr. Lew Bleiweis, Executive Director of the Greater Asheville Airport Regional Authority, briefed Council on their activities of the past year and goals for the upcoming year.

On behalf of City Council, Mayor Bellamy thanked Mr. Bleiweis for his update.

### C. STORM DAMAGE/INFRASTRUCTURE UPDATE

Streets & Engineering Manager Greg Shuler provided Council with the background of some events that were a result of record rain for our area: (1) From January 1 through July 8, we've received 41.67 inches; (2) That exceeds our annual normal rainfall by 4.68 inches; (3) this is the earliest our annual total has been surpassed (by two month); and (4) we're well on our way to surpassing the record annual amount of 64.91 inches set in 1973. He then provided a timeline of events from July 3, 2013 - July 23, 2013, noting that from July 3 - 17, 2013, a total of 11.08 inches of rain hit the Asheville area, while areas like Town Mountain, and Beaverdam Valley received even more. Major storm damage repairs are underway in Beaverdam Valley by Public Works crews. On July 12, the City contacted local contractors to evaluate repair options for each slide. On July 22, bids were received on repair work for Spooks Branch and Sunset/Skyview Place slides. On July 23, work began on Spooks Branch and Sunset/Skyview Place slides. He outlined several streets they have contracted out, and then outlined the several streets they plan to repair in-house.

Mr. McCray Coates responded to Mayor Bellamy when she asked about the different areas in town that have stormwater drainage issues.

At the request of Mayor Bellamy, City Manager Jackson said that he would add information on the City's website regarding our drainage system, who to contact with questions and concerns, and what the City manages.

### D. LEGISLATIVE UPDATE

Budget Manager Tony McDowell highlighted for Council the following legislative issues of interest: Senate Bill 402 - Appropriations Act of 2013; House Bill 998 - Tax Simplifications and Reduction Act; House Bill 418 - Park Authority; House Bill 568 - Asheville Deannexation; House Bill 708 - Study Public Enterprise Systems/Use of Funds; and House Bill 94/Senate Bill 112 - Amendment to Environmental Laws 2013.

Interim City Attorney McGlohon responded to various questions from Mayor Bellamy regarding several of the bills.

Mayor Bellamy asked for a memo that provides Council with a detailed analysis of this impact of House Bill 94 regarding the requirement that penalty proceeds collected by local governments be remitted to the Civil Penalty and Forfeiture Fund instead of the local government's general fund and what it would look like financially for the City of Asheville.

Councilman Smith asked for information regarding the regulatory reform omnibus that one of the pieces of that bill would bar municipalities from requiring contractors to use living wage requirements.

In response to Councilman Bothwell, City Manager Jackson said that he will follow-up with Council on the annexation bill.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING TO CONSIDER REZONING 86 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT

### PUBLIC HEARING TO CONSIDER AMENDING THE UNIFIED DEVELOPMENT ORDINANCE TO INCLUDE PARCELS LOCATED AT 86 ASHELAND AVENUE IN THE OFFICIAL DOWNTOWN HEIGHT ZONE MAP AND KEY PEDESTRIAN STREET MAP

**ORDINANCE NO. 4218 - ORDINANCE TO REZONE 86 ASHELAND AVENUE FROM REGIONAL BUSINESS DISTRICT TO CENTRAL BUSINESS DISTRICT**

**ORDINANCE NO. 4219 - ORDINANCE TO AMEND THE UNIFIED DEVELOPMENT ORDINANCE (ARTICLE 7-8-18) TO INCLUDE PARCELS LOCATED AT 86 ASHELAND AVENUE IN THE OFFICIAL DOWNTOWN HEIGHT ZONE MAP AND KEY PEDESTRIAN STREET MAP**

Due to the conflict of interest that Councilman Pelly leases property at 86 Asheland Avenue, Councilman Smith moved to recuse him from voting in this matter. This motion was seconded by Councilman Davis and carried unanimously.

Mayor Bellamy said that since the following two public hearings are related, she asked Mr. Glines to combine his presentation and that public comment would be taken on each item with two separate votes being taken.

Urban Planner Alan Glines said that this is the consideration of an ordinance to rezone 86 Asheland Avenue from Regional Business District to Central Business District. This public hearing was advertised on July 12 and 19, 2013.

He said the 3 properties are located at the intersection of Asheland Avenue and Hilliard Avenue. The properties are adjacent to the southern and western border of the Central Business District zone (CBD). The parcels slope away from Asheland Avenue and have access to a small right of way called Federal Alley at the east side of the property.

Hilliard Avenue was traditionally the southern border of the downtown area but in 2001 the CBD zoning was extended to include land between Coxe Avenue and Biltmore Avenue down to Southside Avenue. At the time it was felt that the greatest potential for growth was in this section adjacent to the traditional downtown core. The area around Ashland Avenue was left out of that rezoning effort because the development was newer and strongly followed suburban development patterns with greater building setbacks and parking in front of the buildings. If rezoning had been pursued, most of the existing buildings would have been *non-conforming* to CBD standards. With the addition of over ten years these buildings are now older and redevelopment energy is extending in this direction to this area.

When the request was reviewed at the Downtown Commission meeting, The Commissioners were interested in looking into expanding the CBD along the entire Asheland Avenue corridor down to Southside Avenue. This is a project that the Downtown Commission would like to explore later in the year. Members of the Planning and Zoning Commission also commented that it would be beneficial to consider the corridor comprehensively since the existing zoning seems to be out of alignment with current trends in the area. Although a process for considering a rezoning the corridor has not been determined, it is expected to include community meetings with affected property owners and the South French Broad neighborhood.

The Central Business District allows a wide range of residential and commercials uses with regulations in place for designing new structures so that new construction will be compatible with the urban context of downtown. Most of the regulations for downtown development were identified in the Downtown Master Plan completed in 2009 and later adopted with some amendments into the UDO in 2010. Building heights are defined by the Height Zone map and a recommendation to include these parcels on the map is associated with this application. There is also a Key Pedestrian Streets map (KPS) and certain streets that are primary pedestrian corridors are included in the map. Hilliard Avenue and Asheland Avenue north of Hilliard are both on the KPS map. The Downtown Commission is recommending the extension of the KPS map to include these properties.

The Regional Business District allows a large array of commercial uses and permits large structures (greater than 100,000 square feet). Building height is limited to 80 feet. The development zone is more common in suburban areas along busy highways, interchanges and thoroughfares. There is little character defining regulations in the ordinance and parking is allowed in front of buildings and at the sidewalk edge in regional business zones.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pros:

- The zoning change is compatible with other parcels in the neighboring downtown area.
- Supports the goals of the Downtown Master Plan and the Strategic Operating Plan
- Supports the redevelopment of the south area of downtown

Cons:

- None noted.

The Planning and Zoning Commission voted unanimously to support the request to rezone the subject properties at their meeting on June 5, 2013. The Downtown Commission reviewed the request as a policy discussion at their meeting on May 10, 2013, and voted 8-0 to support it. Staff feels that the proposed zoning change supports adopted City goals and plans for the downtown area and is also supportive of it. A neighboring property owner called to support the zoning change, but no additional comments from the public were heard at that meeting or after.

Mr. Glines said that this is the consideration of an ordinance to amend the Unified Development Ordinance (Article 7-8-18) to include parcels located at 86 Asheland Avenue in the official Downtown Height Zone Map and Key Pedestrian Street Map. This public hearing was advertised on July 12 and 19, 2013.

He said that the Planning and Development Department has received an application to rezone three parcels at 86 Asheland Avenue. The Downtown Central Business District (CBD) properties are subject to height regulations that are based on their specific location in the downtown area. Also, some streets in downtown are designated as Key Pedestrian Streets which have additional development regulations designed to enhance the pedestrian relationship for new construction. If the rezoning is approved, these maps should be reviewed and adjusted to consider the rezoned parcels.

Height Zone Map - The height zone map is adopted as a part of the Central Business district (7-8-18 of the UDO). The map identifies areas for the *tallest height zone* (265 feet) and the *intermediate height zone* (145 feet) and *buffer height* that moderates the tallest height zone along view shed corridors. The Planning and Zoning Commission and the Downtown Commission recommended that the intermediate height zone be extended for these three parcels along Asheland Avenue. The intermediate height zone has been used at other locations that have served as the edge of the downtown CBD. If the study proceeds later this year to expand the CBD further south along Asheland Avenue, the height zone will be reviewed again.

Key Pedestrian Streets - The Key Pedestrian Streets map (KPS) is a designation along specific streets that serve as primary pedestrian linkages throughout the downtown area. When a street is designated a KPS, there are several development regulations in place that are designed to enhance the pedestrian experience at the sidewalk level. For example, on a KPS, buildings must provide 70% windows, doors or other openings at pedestrian level and parking garages must provide either an occupiable space for the first 20 feet of depth or provide fenestration details meeting regulations. Asheland Avenue is a KPS north of Hilliard Avenue already. The Downtown Commission recommends that the KPS designation extend as far as the three

properties seeking rezoning. If Asheland Avenue is studied for further CBD expansion the issue of extending the KPS map will also receive discussion then.

The Planning and Zoning Commission reviewed the map amendments and unanimously recommended the placement of the intermediate height zone on and the extension of the key pedestrian streets map to the subject properties at their meeting on June 5, 2013. The Downtown Commission also supported a similar recommendation at their meeting on May 10, 2013, with a vote of 8-0. Staff concurs with this recommendation because it supports the goals of the Comprehensive Plan and is conformance with the adopted Downtown Master Plan.

Based on the above findings and the analysis in the report, staff finds the map amendment to be reasonable and conforming to the Comprehensive Plan.

Pros:

- Adjusts development maps in accordance with land use changes
- Implements portions of the *Downtown Master Plan and supports City Council's Goals and Vision Plan*
- Removes incongruous development patterns from an area suitable for more sustainable models

Con:

- None noted

City staff recommends City Council approve the amendment to the Height Zone map to include the intermediate height for the subject properties and also the amendment to the Key Pedestrian Streets map to extend this designation to the subject area and find that the amendment is reasonable and is consistent with the Comprehensive Plan and other adopted plans, based on information provided in the staff report and as stated in the staff recommendation.

Mayor Bellamy opened the public hearing at 6:22 p.m. on both items and when no one spoke, she closed the public hearing at 6:22 p.m.

In response to Councilman Smith on why Southside was not on the Key Pedestrian Map, Mr. Glines said that when the Downtown Master Plan was adopted, the development pattern was not moving in that direction yet, but there is interest in studying areas further south along Asheland Avenue and bringing them in on the Key Pedestrian Map.

Mayor Bellamy said that members of Council have previously received copies of the ordinances and they would not be read.

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4218. This motion was seconded by Councilman Davis and carried unanimously (Councilman Pelly recused).

**ORDINANCE BOOK NO. 28 – PAGE 295**

Councilman Smith found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4219. This motion was seconded by Councilman Davis and carried unanimously (Councilman Pelly recused).

**ORDINANCE BOOK NO. 28 – PAGE 298**

**C. PUBLIC HEARING TO SUPPORT A SECTION 108 LOAN FOR THE EAGLE MARKET STREET DEVELOPMENT**

This item has been pulled from the agenda.

**V. UNFINISHED BUSINESS:**

**VI. NEW BUSINESS:**

**A. RESOLUTION NO. 13-156 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Public Art & Cultural Commission.

Ms. Jennifer Gordon resigned from the Commission, thus leaving an unexpired term until June 30, 2014.

The following individuals have applied for the vacancy: Charley Akers, Amy Huntsman, Wayne Wheeler, Jared Gold, Bryan Andrews, Victor Palomino, Kara Warren, Denise Drury, Anthony Johnson and Constance Richards.

After hearing the recommendations by the Public Art & Cultural Commission and noting the need for diversity, Councilman Smith moved to appoint Victor Palomino as a member of the Public Art & Cultural Commission, to serve the unexpired term of Ms. Gordon, term to expire June 30, 2014, or until his successor has been appointed. This motion was seconded by Councilman Hunt and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 382**

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Ms. Vicky Ballard, Executive Director of the Colburn Museum at Pack Place, and Ms. Dora Nelson, teacher, explained the importance of science education and felt it needed assistance in maintaining its visibility and viability due to changes in Pack Place. Councilman Hunt, member on the Pack Place Board, updated Council on the concerns expressed about the Art Museum expansion and recommended that Council continue to look at the Pack Place Board of Directors to continue to work with the partners to resolve the issues. Mayor Bellamy suggested that when the process is complete, that the Pack Place Board and the Art Museum update City Council.

Mr. Ken Michalove provided City Council with an memorandum dated July 23, 2013, in which he raised questions regarding the integrity of Vice-Mayor Manheimer, Councilman Hunt and City Manager Jackson in that he felt that they have violated the principle of "conflict of interest" regarding the $2 Million Asheville Art Museum "tax" that the Asheville City Council adopted in the 2013-14 budget.

Mr. Wally Lee, Vice-President of the Buncombe County Republican Men's Club, asked for adoption of the following resolution: "At this 60th Anniversary of the cessation of hostilities of the Korean War, no words can properly convey to the brave men and women who fought so nobly our heartfelt thanks for their selfless service. Therefore, we hereby resolve to convey such thanks to those who fought to preserve the freedoms that we enjoy today as American citizens. Many gave some, some gave all. For this, we do humbly offer this sincere tribute."

Mayor Bellamy said that Council has recognized veterans in the past and said that a formal resolution will be prepared for City Council consideration.

**Closed Session**

At 6:50 p.m., Councilman Pelly moved to go into closed session for the following reason: To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1); and (2) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(e). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 7:10 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Davis and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 7:10 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday – August 13, 2013 - 5:00 p.m.

Regular Meeting

Present: Mayor Terry M. Bellamy, Presiding; Vice-Mayor Esther E. Manheimer; Councilman Cecil Bothwell; Councilman Jan B. Davis; Councilman Marc W. Hunt; Councilman Christopher A. Pelly; Councilman Gordon D. Smith; City Manager Gary W. Jackson; Interim City Attorney Martha Walker-McGlohon; and Deputy City Clerk Jaime Matthews

Absent: None

**PLEDGE OF ALLEGIANCE**

Mayor Bellamy led City Council in the Pledge of Allegiance.

**INVOCATION**

Mayor Bellamy gave the invocation.

**I. PROCLAMATIONS:**

**A. EMPLOYEE RECOGNITIONS**

City Manager Jackson recognized (1) Daryl Rice, Rob Martin and Kevin Haughinberry for receiving their Compressed Natural Gas Certification; (2) Fire Battalion Chief Joy Ponder for graduation from the Executive Fire Officer Program; (3) Darlene Barnell for rescuing a small boy from a group of dogs; (4) Amy Patterson for earning the title of Certified Local Government Purchasing Officer; and (5) Robert Griffin, General Services Director, who will soon be retiring.

Mayor Bellamy thanked the employees on what they do on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

**B. STRIVE NOT TO DRIVE PROGRAM**

Mayor Bellamy recognized Ms. Claudia Nix who explained the Strive Not To Drive Program. Mayor Bellamy then said that each year Strive Not To Drive recognizes individuals and organizations that help make getting places without driving alone in a car easier. The winners were nominated by their friends, peers, and admirers for their dedication to striving not to drive. The Golden Spoke Award goes to people who make commuting by bike a priority. The Golden Wheel Award goes to people who are multi-modal mixing walking, cycling, and riding the bus to get the places they need to go. We also give a Strive Not To Drive Leadership Award to people who lead by example and make it easier for others to Strive Not To Drive. This year Strive Not To Drive is recognizing two individuals with the Golden Spoke Award: Jarret Porter and Moses Soto; Golden Wheel Award: Derek Daniels; and Strive Not to Drive Leadership Award: Kathy Millar. The Workplace Challenge winners are as follows: winner for business and organizations with fewer than 10 employees – Southwings; the winner for 11-30 employees – Southern Appalachian Highlands Conservancy; the winner for 31-50 employees – REI; the winner for 51 to 251 employees – Evergreen Community Charter School; and the winner for business and organizations over 251 employees – Buncombe County.

## II. CONSENT AGENDA:

At the request of Vice-Mayor Manheimer, it was the consensus of Council to add Consent Agenda Item "M" - Resolution encouraging the N.C. Dept. of Environment and Natural Resources and Duke Energy Progress to take expedient and appropriate action to deal with the impact of coal ash leachate at the Duke Energy facility.

**A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 23, 2013**

**B. RESOLUTION NO. 13-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A GENERAL SERVICES AGREEMENT WITH WITH CAVANAUGH & ASSOCIATES, P.A. FOR THE NON-REVENUE WATER MANAGEMENT PROJECT**

Summary: The consideration of a resolution authorizing the City Manager to execute a general services agreement with Cavanaugh & Associates, P.A., for the Non-revenue Water (NRW) Management project for the not-to-exceed amount of $151,925.

The Water Resources Department has an annual non-revenue water rate of approximately 30-35%. In an effort to reduce this percentage, the department has been working with Will Jernigan at Cavanaugh & Associates, P.A., since January 2013 to provide feedback and guidance on the department's Non-revenue Water (NRW) Program and water audit. Mr. Jernigan is recognized nationally as a leader in Revenue Recovery and Water Auditing and has taught workshops, written technical papers, and helped to pioneer many of the standards adopted by the American Water Works Association (AWWA). More specifically to this project, Mr. Jernigan and other Cavanaugh staff have been participating in NRW team meetings and providing feedback regarding team goals and objectives and water accounting practices.

In April 2013, the scope of Cavanaugh's contract was expanded to include assistance with data collection in anticipation of conducting a Benchmark Water Audit. Water Resources staff need continued guidance over the next 12 months to develop the Benchmark Water Audit based on AWWA methodologies and subsequently, develop a comprehensive NRW Program that will ultimately reduce the department's overall non-revenue water percentage. Water Resources staff are confident that Cavanaugh & Associates is the most qualified firm to assist the department with this project and recommends City Council approval to waive the City's Procurement, Purchasing & Contracting Policy to enter into a general services agreement with Cavanaugh & Associates for a not-to-exceed amount of $151,925.

The funding needed for this agreement is currently allocated within the Water Resources Operating Fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a general services agreement with Cavanaugh & Associates, P.A., for the Non-revenue Water (NRW) Management project for the not-to-exceed amount of $151,925.

**RESOLUTION BOOK NO. 35 - PAGE 388**

**C. RESOLUTION NO. 13-163 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A SPECIAL MAINTENANCE AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO ALLOW PUBLIC PARKING UNDER A SECTION OF WEST ASHEVILLE RIVERLINK BRIDGE IN THE RIVER ARTS DISTRICT**

Summary: The consideration of a resolution authorizing the Mayor to execute a special maintenance agreement between the N.C. Dept. of Transportation and the City of Asheville to allow public parking under a section of bridge # 705 in the River Arts District.

Bridge # 705 is known as the West Asheville Riverlink Bridge and it provides access for SR 3548 (Haywood Road). In addition, it provides a critical connection between downtown Asheville and West Asheville. The area under the bridge between the French Broad River and the Norfolk Southern railroad tracks has been unofficially used for parking purposes for many years and it is currently the primary parking area for the Jean Webb Park. The purpose of the agreement is to make the parking official.

The City and the N.C. Dept. of Transportation have similar agreements at other locations including the public parking under the I-240 bridge adjacent to North Lexington Avenue, the public parking under the US 25 (McDowell Street) bridge adjacent to SR 3556 (Meadow Road), and the public parking adjacent to Cherry Street.

There is no immediate fiscal impact for the subject special maintenance agreement.

Staff recommends that City Council approve a resolution authorizing the Mayor to execute a special maintenance agreement between the N.C. Dept. of Transportation and the City of Asheville to allow public parking under a section of bridge # 705 in the River Arts District.

**RESOLUTION BOOK NO. 35 - PAGE 389**

**D. RESOLUTION NO. 13-164 - RESOLUTION CONVEYING THANKS TO THE MEN AND WOMEN WHO FOUGHT IN THE KOREAN WAR**

Mayor Bellamy was pleased to give thanks to these individuals in the past, as well as expressing thanks to them this year.

**RESOLUTION BOOK NO. 35 - PAGE 390**

**E. RESOLUTION NO. 13-165 - RESOLUTION SETTING A PUBLIC HEARING ON AUGUST 27, 2013, FOR A SUBSTANTIAL AMENDMENT TO THE 2013-14 CONSOLIDATED ANNUAL ACTION PLANS FOR CDBG AND HOME TO CONSIDER A SECTION 108 LOAN TO EAGLE MARKET STREETS DEVELOPMENT CORPORATION FOR THE EAGLE MARKET PLACE COMMERCIAL DEVELOPMENT**

Summary: The consideration of a resolution setting a public hearing on August 27, 2013, for a substantial amendment to the 2013-2014 Consolidated Annual Actions Plan for CDBG and HOME to consider a Section 108 Loan to Eagle Market Streets Development Corporation for the Eagle Market Place commercial development.

Eagle Market Streets Development Corporation (EMSDC) has requested that the City loan $718,000 from an existing HUD Section 108 loan for the Eagle Market Place commercial development. This loan was received by the City in 2004 for the purpose of assisting in the financing of a mixed-use development in the Eagle-Market Streets area. EMSDC proposes to rehabilitate and develop approximately 10,000 square feet of commercial rental space in the Del Cardo, Ritz and Dr Collette buildings located on Eagle and Market Streets in downtown Asheville.

The substantial changes to the project funded by HUD in 2003 and the proposal under consideration include:

- Development Partners: EMSDC originally was partnered with the MT Zion Development Corporation, Enterprise Foundation and Historic Acquisitions, Inc. EMSDC is now partnering with Mountain Housing Opportunities.
- Square footage of project by uses: The total leasable building area of 13,000 square feet included five residential units encompassing approximately 3,000 square feet and

approximately 10,000 square feet of commercial space. The current project includes 62 residential units, and 10,000 square feet of commercial space.

- Sources, types and funding levels: The original project's estimated total development cost was $2,413,514. Sources included the Section 108 loan ($800,000), Grants, including CDBG and HUD EDI grant funding ($870,000) and equity of $743,514. The current commercial-only project estimated total development cost is $2,351,678, and includes HUD Section 108 funding ($718,000); NeighborWorks Capital loan ($1,509,172) and grant or deferred loans of $124,506.

The proposed amendment uses funds already available through the CDBG program. The program advances CDBG funds to the City. These funds must be repaid to HUD, either from program proceeds or by using future CDBG allocation to the City. The City has been asked by the developer to provide sufficient collateral to allow HUD to approve the release of these funds for the stated purpose.

Staff recommends that Council set a public hearing on August 27, 2013, for consideration of amendments to the 2013-2014 Consolidated Annual Action Plans.

**RESOLUTION BOOK NO. 35 - PAGE 391**

**F. RESOLUTION NO. 13-166 - RESOLUTION APPROVING THE SINGLE SOURCE PURCHASE OF A TREMBLE S6 3" TOTAL STATION ROBOTIC SURVEYING INSTRUMENT FROM DUNCAN-PARNELL GEOMATICS TO INTERACT WITH EXISTING CITY SOFTWARE SYSTEMS**

Summary: The consideration of a resolution authorizing the Asheville Public Works Department to purchase the Tremble S6 3" Total Station Robotic Surveying instrument based on single source and standardization parameters.

NC-GS 143-129 (e) allows municipalities to exercise certain exceptions to bidding requirements when a product is only available from a single source supplier or standardization requirements are an overriding factor in said procurement. Both instances apply in the Total Station procurement, specifically: Duncan-Parnell Geomatics is the only supplier of the Tremble unit desired, and it's compatibility with existing City software systems is of upmost importance for a seamless implementation and adaption.

The total cost of the unit will be $42,317.29. Funding for this purchase is included in the FY 2013-14 Public Works Engineering Division operating budget.

City staff recommends City Council adopt a resolution authorizing the Public Works Department to purchase the Tremble S6 3" Total Station Robotic Surveying Instrument based on single source and standardization exemptions.

**RESOLUTION BOOK NO. 35 - PAGE 392**

**G. RESOLUTION NO. 13-167 - RESOLUTION AUTHORIZING THE MAYOR TO SIGN AN AUTOMATIC AID SERVICE AGREEMENT WITH THE REEMS CREEK FIRE DEPARTMENT FOR AUTOMATIC AID RESPONSE**

Summary: The consideration of a resolution authorizing the Mayor to sign an automatic aid service agreement in the amount of $82,655.25 with the Reems Creek Fire Department for automatic aid response.

City Council approved in the FY 2013/2014 adopted budget funding to continue an automatic aid service agreement with the Reems Creek Fire and Rescue Department. This agreement has been in place since 2007 and provides for automatic response by the Reems

Creek Fire and Rescue Department to emergency incidents to locations in the Beaverdam Valley that benefit the City of Asheville. This service agreement provides for a stronger standard of cover in this area.

Staff recommends that City Council adopt a resolution authorizing the Mayor to sign an automatic aid agreement in the amount of $82,655.25, with the Reems Creek Fire and Rescue Department.

**RESOLUTION BOOK NO. 35 - PAGE 393**

**H. RESOLUTION NO. 13-168 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE TWO CONSTRUCTION CONTRACTS WITH BUCHANAN & SONS INC. FOR SPOOKS BRANCH ROAD REPAIRS AND YOUNG & MCQUEEN FOR SUNSET DRIVE & SKYVIEW PLACE**

Interim City Attorney McGlohon provided Council with a revised resolution that removes reference to the City using the emergency provision in awarding the contracts.

Summary: The consideration of a resolution authorizing the City Manager to execute construction contracts for immediate repairs to the City's rights-of-way with Buchanan & Sons, Inc. for Spooks Branch Road; and Young & McQueen for Sunset Drive & Skyview Place.

From January 1, 2013 to July 8, 2013, the Asheville area received 41.67 inches of rainfall, exceeding the City's normal annual rainfall for the same time period by 4.68 inches. More specifically, on July 3, 2013, 3.48 inches of rain fell in downtown Asheville. On July 4, 2013, another 1.48 inches of rain fell in the Asheville area, culminating in almost 5 inches of rain within a 24 hour period. As the rain continued to fall, rights of way located throughout the City but, primarily in the City's higher elevations, experienced severe stress. Stormwater runoff rapidly undermined steep soil banks, causing huge chunks of asphalt/pavement of the shoulder of many City roads to crumble as the underlying soil gave in to the pressure of the velocity of the water flow. City work forces immediately commenced repairs, to preserve health, safety and property. The larger and more complicated slides however, exceeded the City's ability to handle with in-house work force. Fearing an imminent collapse of City roads where the larger slides were situated, City staff rapidly assembled a team of experienced, trained and capable area contractors. The team of contractors accompanied City staff to inspect each site. The magnitude of the elevation, depth and width of the slides made it apparent that a temporary fix to protect health, safety and property was inextricably tied to a permanent remedy. At least two of the sites required an evaluation and assessment by a structural engineer. Those two sites are not a part of this report. Based upon City staff knowledge and the comments/concerns from the contractors, a bid document was quickly prepared; requesting bids to rapidly, efficiently and effectively remedy the threat to life, health and property. The bid document was forwarded to the area contractors. The City received several responses to the bid, all of which were in an amount under the $500,000 formal bidding threshold of NCGS §143-129.

The City's Contracting and Procurement Policy requires that all construction contracts in excess of $100,000, perceive prior approval by City Council. City staff awarded the informal contracts to the following entities: Buchanan & Sons, Inc. of Whittier NC, for Spooks Branch Road repairs for $267,674, and Young &McQueen of Burnsville NC, for Sunset Drive & Skyview place for $425,450 contingencies, based primarily upon lowest responsible, responsive bids, availability to mobilize, bonding capacity and previous performance on similar projects.

Pros:

- Repair vulnerable roadway sections damaged by heavy rainfall.
- Improve City infrastructure.
- Allow for the impacted communities to return to normal as soon as possible.
- Minimize potentially dangerous situations near slides areas.

- Minimize environmental impacts near slide areas.

Cons:

- Use of City funds allocated for other improvements.
- Will consume staff time previously scheduled for other infrastructure projects.

The total amount of these two contracts including a 15-20% contingency was $812,000 Funding for these contracts came from the existing FY 2013-14 Streets & Sidewalks budget that was approved by City Council in June. Staff will be reporting back to the Finance Committee and City council on the potential fiscal impact of all of the landslides once more definitive cost estimates are known for the other landslide repairs.

City staff recommends City Council ratify and approve the execution of construction contracts with Buchanan & Sons, Inc. of Whittier NC, for Spooks Branch Road repairs for $267,674, and Young & McQueen of Burnsville, NC, for Sunset Drive & Skyview Place for $425,450, within the provisions of N.C.G.S. §143-131, and as being consistent with and not in abrogation with the provisions of the City's Contracting and Purchasing policy.

**RESOLUTION BOOK NO. 35 - PAGE 394**

**I. ORDINANCE NO. 4220 - BUDGET AMENDMENT TO MOVE THE FISCAL YEAR 2013 COMPUTER REPLACEMENT BUDGET FROM THE GENERAL FUND TO THE GENERAL CAPITAL PROJECTS FUND AND INCLUDE FUNDING FRO THE REPLACEMENT OF ADDITIONAL POLICE DEPARTMENT COMPUTERS**

Summary: The consideration of a technical budget amendment in the amount of $405,000 to move the Fiscal Year 2013-14 computer replacement budget from the General Fund to the General Capital Projects Fund and include funding for the replacement of additional police department computers.

As a part of the FY 2013-14 Adopted General Fund Budget, City Council approved a $350,000 budget for the replacement of computers and associated equipment, with funding for the purchases coming from the issuance of debt proceeds. Since these purchases will be funded with debt proceeds, staff is recommending that the budget for PC replacement be moved out of the General Fund and into the General Capital Projects Fund, which is a multi-year fund that is more appropriately designed for these types of transactions. Consistent with Council's Financial Policies, the term for debt issued to finance capital does not exceed the expected useful life of the equipment purchased. Computers are typically financed for a period of 48 months. In addition, staff has refined the estimate for funding needed for FY 2013-14 to $405,000, which includes the additional replacement of Police Department computers.

This technical budget amendment moves the budget from one fund to another which has no overall fiscal impact to City. The increase in the overall purchase budget from $350,000 to $405,000, will increase the annual debt payment on this purchase by approximately $5,000.

City staff recommends City Council adopt the technical budget amendment in the amount of $405,000 to move the Fiscal Year 2013-14 computer replacement budget from the General Fund to the General Capital Projects Fund.

At the request of Mayor Bellamy, it was the consensus of Council to have Interim City Attorney McGlohon provide a status report and plan to digitalize their legal files.

**ORDINANCE BOOK NO. 28 - PAGE 302**

**J. RESOLUTION NO. 13-169 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A FEDERAL AVIATION ADMINISTRATION GRANT FOR THE GREATER ASHEVILLE REGIONAL AIRPORT FOR A NEW AIRCRAFT RESCUE FIRE FIGHTING FACILITY**

Summary: The consideration of a resolution authorizing the Mayor to approve a Grant Offer from the Federal Aviation Administration (FAA) in the amount of $2,562,954.

The FAA has offered a grant agreement to the Greater Asheville Regional Airport. This grant, in the amount of $2,562,954, is for a new Aircraft Rescue Fire Fighting Facility.

Staff recommends adoption of the resolution authorizing the Mayor to execute the grant agreement for Project No. 3-37-0005-042-2013.

**RESOLUTION BOOK NO. 35 - PAGE 396**

**K. RESOLUTION NO. 13-170 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH MOTOROLA, INC. TO PROVIDE MAINTENANCE COVERAGE FOR THE CITY'S RADIO SYSTEM FROM AUGUST 1, 2013 - JULY 31, 2014**

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system.

Motorola, Inc. has provided maintenance services for the City's radio communications system since installation of the system in 1992. The service agreements are renewed annually. The maintenance cost per unit of equipment for the renewal period of August 1, 2013 through July 31, 2014 has remained the same as last year's cost. Funding for this contract was appropriated in the FY 13/14 budget process.

The renewal agreement reflects an annual charge of $147,163.92 and covers additional equipment purchased by the City to equip new vehicles and replace broken equipment.

One hundred and forty-seven thousand, one hundred and sixty four dollars was appropriated in the City of Asheville's Fiscal Year 2014 operations budget for the purpose of maintaining the City of Asheville's public radio system on a 24x7 basis. This action has no impact on the fund balance in the General Fund.

City staff recommends the adoption of the resolution for radio maintenance coverage for the term of August 1, 2013 through July 31, 2014.

**RESOLUTION BOOK NO. 35 - PAGE 397**

**L. RESOLUTION NO. 13-172 - RESOLUTION AUTHORIZING THE MAYOR TO ACCEPT 0.02 ACRES OF REAL PROPERTY FROM BUNCOMBE COUNTY AT 70 W. CHAPEL ROAD, ALSO KNOWN AS RAY KISIAH PARK**

Summary: The consideration of a resolution authorizing the Mayor to accept a transfer of 0.02 acres of real property from Buncombe County at 70 West Chapel Road.

Per Resolution No. 13-115, the City transferred 2.8 acres of land at 70 West Chapel Road to Buncombe County, whose intent was to combine the land with adjacent property to assemble the parcels needed for future GE Aviation manufacturing plant. During the course of title examination for this property, Buncombe County discovered a 2 foot strip of land separating the GE site and the City property, running the length of the entire shared boundary line of

approximately 800 feet. This strip of land has now been acquired by Buncombe County in order to resolve any issues with combining the parcels of land.

In practical terms, Buncombe County has resolved the issue of the 2 foot strip that stood between the 2.8 acre parcel and the GE site, but now has no additional interest in retaining the remainder of the 2 foot strip area that continues along the City's property boundary. The County has offered to convey this remnant area, measuring 2 feet by 376 feet (approx. 0.02 acres), to the City of Asheville.

Given the size and shape of the area, any additional maintenance costs will be absorbed into the existing budget for the maintenance of Ray Kisiah Park. No legal fees or deed preparation fees for this transfer.

City staff recommends that City Council adopt the resolution authorizing the Mayor to accept a transfer of 0.02 acres real property at 70 West Chapel Road from Buncombe County.

**RESOLUTION BOOK NO. 35 - PAGE 399**

**M. RESOLUTION NO. 13-174 - RESOLUTION ENCOURAGING THE N.C. DEPT. OF ENVIRONMENT AND NATURAL RESOURCES AND DUKE ENERGY PROGRESS TO TAKE EXPEDIENT AND APPROPRIATE ACTION TO DEAL WITH THE IMPACT OF COAL ASH LEACHATE AT THE DUKE ENERGY FACILITY**

Summary: The N.C. Dept. of Environment and Natural Resources (DENR), Division of Water Quality, and Duke Energy Progress, Inc. have entered into a Draft Consent Order upon which public comment is being received until August 14, 2013. This resolution represents the public comment of the governing body of the City of Asheville on behalf of the citizens of Asheville.

DENR sued Duke Energy Progress, Inc. for unpermitted discharges, connected with its steam electric generating plant in Asheville, NC. The discharge is known as coal ash, a black, powdery material that is sluiced into holding ponds. DENR and Duke Energy have negotiated a draft Consent Order as some of the coal ash has been allowed to seep into the French Broad River. Coal ash is generated as a byproduct at the Duke Energy facility.

The Consent Order calls for additional monitoring at the site to determine the level of contamination as well as defining the best method for remediation. As part of this draft order, DENR is accepting public comment.

This action complies with one of Council's Strategic Goals by supporting safety and quality of life.

Pros

- Encourages DENR to expedite the monitoring and evaluation of the impact of coal ash leachate into the French Broad River.
- Request that if contamination is discovered above acceptable levels that Duke Energy will act quickly to remediate the site.

Cons

- None

Staff recommends that City Council consider the resolution.

In response to Councilman Davis, who noted that this is a short-term step by adding our voice regarding coal ash ponds, but that we will look for a longer-term solution, Mayor Bellamy agreed and noted that Duke Energy Progress is a partner of the City and they recognize that we want them to look at this issue. She said this is an important issue and this is a balanced approach.

**RESOLUTION BOOK NO. 35 - PAGE 403**

Mayor Bellamy asked for public comments on any item on the Consent Agenda, but received none.

Mayor Bellamy said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Pelly and carried unanimously.

## III. PRESENTATIONS & REPORTS:

### A. HOMELESS INITIATIVE ADVISORY COMMITTEE UPDATE

Mr. David Nash, Chair of the Homeless Initiative Advisory Committee, and Homeless Initiative Coordinator Heather Dillashaw, briefed Council on their activities of the past year and goals for the upcoming year.

After comments, on behalf of City Council, Mayor Bellamy thanked Mr. Nash for his leadership and the entire Committee for their dedication and outreach in the community. She also thanked Ms. Dillashaw for her work in this very important area of the City.

### B. STORMWATER INFRASTRUCTURE

Assistant City Manager Cathy Ball said that the purpose of this report is to provide City Council with the systematic approach for addressing storm water management, particularly on steep slopes.

As you are aware, this year we have had record rainfall events. These events have resulted in numerous slides and failures of road ways in steep slope areas. Repairing these failures will be a significant expense to the city.

In an effort to address our vulnerability in these areas, with the anticipation of continued high rainfall events, staff would like to develop a strategy to reduce damage associated with these occurrences.

The action plan would include those short and long term strategies. The plan would include the following: (1) coordinate with local experts to target specific areas that are more vulnerable to slides and roadway failures; (2) hold community meetings in these areas to get feedback from residents on their concerns; and (3) develop both short and long-term strategies to address vulnerabilities associated with storm water run-off on steep slopes, including but not limited to; increasing ditch maintenance, performing systematic analysis of watersheds for more detailed improvements, and reviewing our current ordinances related to development in steep slope areas.

Our community is fortunate to have the National Climactic Data Center in Asheville along with other experts in structural and geotechnical soil stabilization. We will call upon these experts for support and assistance in developing recommendations to address these issues.

Our implementation schedule would be to proceed with Council approval in developing an evaluation team. The public would be invited to community meetings to discuss their concerns. Staff would expect to bring recommendations before Council during the next budget cycle.

Pros:

- Provides a community-wide systematic approach to reducing damage from significant rain events.
- Provides strategic planning for climate adaptation change.
- Provides both short and long-term strategies for addressing slope stabilization.

Con:

- The process will require substantial staff resources.

Minimal Fiscal Year 2014 budget impact is anticipated and will be funded through existing appropriations. The financial impacts are unknown at this time but will be provided to council during the FY 15 budget process. Staff will be looking for low cost solutions and revenue enhancements, inasmuch as they are available and appropriate, to solve the problems.

Staff requests that City Council direct the City Manager to proceed with the recommended evaluation.

After discussion, it was the consensus of Council to have City Manager Jackson proceed with the recommended evaluation which includes developing a systematic plan for upgrading stormwater maintenance and provide at the Council annual retreat or initial budget planning session.

## IV. PUBLIC HEARINGS:

### A. PUBLIC HEARING RELATIVE TO A SUBSTANTIAL AMENDMENT TO THE 2013-14 ACTION PLAN TO MAKE FINAL ALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME FUNDS

### RESOLUTION NO. 13-173 - RESOLUTION MAKING A SUBSTANTIAL AMENDMENT TO THE 2013-14 ACTION PLAN TO MAKE FINAL ALLOCATION OF COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME FUNDS

Community Development Director Jeff Staudinger said that this is consideration of a resolution for a substantial amendment to the 2013-14 Action Plan to make final allocation of Community Development Block Grant and HOME funds. This public hearing was advertised on August 2 and 9, 2013.

The final revised grants of HUD funds for CDBG and HOME have been received. The revised CDBG grant available for the current year is $993,543. Our projected allocation was $825,773. The revised HOME grant is $938,716; the projected grant was $848,276. To determine the total available in each program, income received and not reallocated during prior years and funds returned from funded projects that did not move forward are added to the new grants from HUD. The City has a total available $1,224,156 in CDBG funds and $1,484,403 in HOME funds in the fiscal year beginning July 1, 2013. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties). A total of 19 CDBG and 12 HOME programs are recommended for

funding. Allocations are consistent with the proposed Strategic Housing & Community Plan for 2010-2015.

Pros:

- Approval of the Action Plan paves the way for the receipts of $2,708,559 of HUD funding to the City and region, which will be used to create affordable housing, create jobs, and improve public infrastructure.
- HUD funding will leverage $25,000,000 of additional funding for these projects.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment.

The Housing and Community Development Committee and the Asheville Regional Housing Consortium recommend approval of (1) a resolution authorizing an amendment of the City's Consolidated Annual Action Plan for 2013-14.; and (2) at the next formal Council meeting a budget amendment, in the amount of $128, due to a funding reduction from HUD.

Mayor Bellamy opened the public hearing at 6:00 p.m., and when no one spoke, she closed the public hearing at 6:00 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Davis moved for the adoption of Resolution No. 13-173. This motion was seconded by Councilman Smith and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 400**

**B. PUBLIC HEARING TO CONSIDER REZONING PROPERTY WITH MULTIPLE ADDRESSES ON FINALEE AVENUE FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT**

**ORDINANCE NO. 4221 - ORDINANCE TO REZONE PROPERTY WITH MULTIPLE ADDRESSES ON FINALEE AVENUE FROM INSTITUTIONAL DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT**

Urban Planner Blake Esselstyn said that this is the consideration of an ordinance to rezone property with multiple addresses on Finalee Avenue from Institutional District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on August 2 and 9, 2013.

Mr. Esselstyn said that the subject site, roughly 1.4 acres of heavily wooded, steeply sloped land, has been involved in multiple zoning actions and development proposals in recent years, as described in the above section. While the high-density multi-family development proposals met technical requirements, there was consternation on the part of City Council, as well as multiple neighboring citizens, about the compatibility of that type of use in this location.

508

The current zoning designation, Institutional, can be traced back to circumstances years ago, when this property was under the same ownership as the complex to the northeast (now the Kenilworth Apartments), which at the time was a medical institution. The subject property, which may have at that time shared a PIN with the parcel on which the complex was built, was considered part of the institution's campus. When the building was converted to apartments, the existing zoning district allowed high density multi-family residential uses, and it was preserved.

Staff feels (as was reflected in the 2011 staff-initiated rezoning) that the proposed zoning reflects a density more appropriate for these steeply sloped properties in a predominately single-family residential neighborhood, and eliminates the potential for certain commercial uses (allowed in the Institutional district) that are unlikely to be compatible at this location.

The site has already been subdivided into lots suitable for single-family development, and the Institutional Zoning District allows single-family uses, but the side setbacks in Institutional are more restrictive than in RS-8. While the single family lots exceed the minimum lot size for the RS-8 district, width is at a premium because of the steep drop-off, and the difference between the ten-foot side setback in Institutional and the six-foot setback in RS-8 was one factor prompting the applicant to request the rezoning.

As recently as May of this year, the subject area was within a single 3.17-acre parcel. The rezoning application was submitted after the subdivision of the parcels along Finalee had been recorded, but before new PINs were assigned, so the original application referenced the "parent" PIN of out of which the nine house lots were divided. The application didn't specify that the southern area was meant to be omitted, so the rezoning was originally analyzed and advertised as including the 1.74-acre remnant parcel to the south. After learning of the applicant's wish to solely petition for the rezoning of the nine smaller lots, staff explained the change before the Planning and Zoning Commission, and the petition now being considered concerns only the smaller 1.4-acre area.

At their July 18, 2013, meeting, the Planning and Zoning Commission voted unanimously to recommend approval of the rezoning petition. Two residents spoke in favor of the rezoning, which, in addition to one request for information, constitute the extent of communications received from the public regarding this item. Both the neighboring citizens and two Commissioners indicated that, their support notwithstanding, they would prefer that the rezoning include a larger area of the Institutional zoning district.

The UDO (7-8-15) states that "The Institutional District is established to reserve land for the development of major educational facilities, major medical facilities and other complementary and supporting uses such as health related developments, office developments, and public services." Staff feels the land no longer is appropriate for this purpose.

By contrast, the stated intent of RS-8 is "to establish a high density per acre for single-family dwellings where public infrastructure is sufficient to support such development and to stabilize and protect the district's residential character in areas of existing high density single-family development while promoting a suitable environment for single-family living. Non-single-family development normally required to provide the basic elements of a balanced and attractive residential area is also permitted."

When a similar rezoning proposal was initiated by staff in 2011, the primary reason cited for objection on the part of reviewing boards was the lack of support of the property owner. Now that that situation has changed, the property has been subdivided, and the property owner is behind the rezoning, staff feels that the argument for the rezoning is further strengthened.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable.

Pro:

- The rezoning establishes zoning on the properties that is more reflective of and compatible with the surrounding single-family neighborhood, the steeply sloping site, and the limited access.

Con:

- None noted.

Staff's analysis indicates that the proposed zoning district would support appropriate development and prevent incompatible development better than the existing zoning, and, accordingly, staff recommends approval.

Mayor Bellamy opened the public hearing at 6:03 p.m.

Mr. Kevin Scarmack, representing the property owner, said that their goal is to fit these lots into more of the character of the Kenilworth neighborhood, and asked for Council's support of these rezonings.

Ms. Teddy Jordan, President of the Kenilworth Residents Association, supported the rezoning and felt that single-family zoning is more compatible with the neighborhood. They continue to have concerns with remaining large tracts of land that have institutional zoning.

Ms. Valeria Hoh, resident on Finalee Avenue, supported the rezoning but hoped that City Council will take steps to zone the other large tracts that are zoned Institutional District.

Mayor Bellamy closed the public hearing at 6:08 p.m.

Mayor Bellamy said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Manheimer found that the request is reasonable based on information provided in the staff report and as stated in the staff recommendation, and that it is consistent with the master plan and other plans adopted by the City, and moved for the adoption of Ordinance No. 4221. This motion was seconded by Councilman Smith and carried unanimously.

**ORDINANCE BOOK NO. 28 – PAGE 304**

**V. UNFINISHED BUSINESS:**

**A. RESOLUTION NO. 13-171 - RESOLUTION REMOVING CITY MANAGEMENT DISCRETION TO ALLOW ALCOHOL AT SPECIAL EVENTS OF 1,000 OR MORE ATTENDEES IN CITY PARKS ZONED MEDIUM TO HIGH DENSITY MULTI-FAMILY RESIDENTIAL WHERE THE EVENT BOUNDARY IS WITHIN 100 FT. OF ANY RESIDENTIAL DWELLING UNIT**

Associate City Attorney Jannice Ashley said that this is the consideration of a resolution to remove City management discretion to allow alcohol at Special Events of 1,000 or more attendees in any City Park that is zoned medium to high density multi-family residential (i.e., RM-8 or RM-16) and where the event boundary is within 100 ft. of any residential dwelling unit.

This action is in response to concerns raised at the July 23rd City Council meeting by members of the community surrounding Martin Luther King, Jr. Park in regard to the negative impacts of the Brewgrass Festival, a large (4,000+) special event, where alcohol has been permitted, that has been held in this residentially zoned park for several years. Neighborhood residents stated that negative impacts have included: drunken attendees defacing/disturbing

adjacent residential dwellings, excessive trash, traffic, and unruly crowds. Because of the negative experience with Brewgrass, the community sought assurance from City Council that such events, or similar type events, would not be allowed to occur at MLK, Jr. Park in the future.

In considering special events at neighborhood parks, several criteria factor into the likelihood of impact: size of the event; permitted sale/consumption of alcohol; zoning of City park where event is located; and proximity of event boundary to residential units. Most City parks where large (i.e. 1,000+) special events can be accommodated, and have been permitted, are not residentially zoned (i.e. Carrier Park zoned River; Memorial Stadium zoned Institutional; Pack Square Park zoned CBD). MLK, Jr. Park, however, is zoned RM-8 or medium-density multi-family residential, increasing the likelihood of negative and substantial impact. Therefore, in order to address the concerns raised by residents in the vicinity of MLK Jr. Park, and to mitigate future issues of a similar nature, the drafting of a resolution focused on the aforementioned criteria, appeared to be the most reasonable way to approach this task. The proposed resolution will not allow City management to exercise discretion in allowing certain special events in City parks meeting certain conditions.

Pro:

- MLK Jr. Park cannot be used for special events of 1,000+ where alcohol is allowed.

Con:

- None Known

No fiscal impact is anticipated. There are other, more appropriately zoned city parks/sites which can accommodate large special events where alcohol sale/consumption could be permitted.

City staff recommends City Council adopt a resolution removing City management discretion to allow alcohol at special events of 1,000 or more attendees, in City parks zoned medium to high density multi-family residential, where the event boundary is within 100 ft. of any residential dwelling unit.

In response to Councilman Bothwell, Interim City Attorney McGlohon said that she understood that the neighbors were concerned about the size of the event, but they also concerned about the sale of alcohol. Therefore, staff tailored the resolution as such, without specifically singling out MLK Park.

Ms. Carmen Ramos-Kennedy said that the neighborhood is concerned with the number of people at the event and the sale of alcohol.

Mr. Jonathan Wainscott was disappointed that the neighborhood's concerns have not been heard by City Council for over a year. In addition, he understood that the City has a policy that prohibits festivals and festival-related activities on ballfields; therefore, they have an existing policy that should be enforced.

Mr. Mike Rangel, representing the Asheville Brewers Alliance, supported the Brewgrass Festival and urged Council to come up with an alternative that will help this festival.

Ms. Renee White, President of the East End/Valley Street Neighborhood Association, stated that they are not against the Brewgrass Festival - they just want it removed from their neighborhood community.

Mayor Bellamy said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Pelly spoke felt it was important for festival organizers to communicate early with neighborhood representatives.

It was the consensus of Council, at the request of Mayor Bellamy, for the City Manager to investigate the location of McCormick Field (instead of Memorial Stadium) for future Brewgrass Festival locations.

Councilman Smith moved for the adoption of Resolution No. 13-174. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**RESOLUTION BOOK NO. 35 – PAGE 398**

**VI. NEW BUSINESS:**

**A. BOARDS & COMMISSIONS**

Vice-Mayor Manheimer reported that the Boards & Commissions Committee met for the second time with representatives of the community wishing to form the African American Heritage Committee. It was the consensus of the Committee, with City Council concurrence, to instruct Interim City Attorney McGlohon to prepare an enabling resolution or ordinance forming the new committee, noting that said Committee will be a joint committee with Buncombe County.

Regarding the Affordable Housing Advisory Committee, the following individuals applied for the vacancies: Robin Raines, Brandee Boggs and Dawn Nelson. Councilman Bothwell moved to (1) reappoint Barber Melton, Scott Dedman and Lindsey Simerly; and (2) interview Robin Raines. This motion was seconded by Councilman Smith and carried unanimously.

Regarding the Americans with Disabilities Act Compliance Committee, the term of William Madison (representing the disabled community) will expire on August 22, 2013. No one applied for the vacancy. Because the Committee has had no need to meet since its existence, it was the recommendation of the Boards & Commissions Committee and the consensus of City Council that (1) the representative of the disabled community seat remain in an "inactive" status; and (2) the Committee remain in existence. In the event that a hearing is required, or the Committee is required to transact other business, the Committee members will be contacted by the Secretary to the Committee, and if necessary, applications for vacancies will be taken.

Regarding the CrimeStoppers Board of Directors, the following individuals applied for the vacancy: Anthony Mitchell and Fred Cooke. It was the consensus of the Boards & Commissions Committee, and consensus of City Council to interview Mr. Mitchell and Mr. Cooke.

Regarding the Buncombe County Tourism Development Authority, the following individuals have applied for this vacancy: John McKibbon, Pratik Bhakta and John Winkenwerder. It was the recommendation of the Boards & Commissions Committee, and consensus of City Council, to postpone action until September 10, 2013.

Regarding City Council's appointment of the Chair of the Civil Service Board, Councilman Hunt, liaison to the Civil Service Board, explained that there was an error in Council's appointment of Mr. Marvin Rosen, as City Council mistakenly appointed Mr. Rosen beyond his term of office - Mr. Rosen is appointed by the four seated members. Therefore, with the approval of the Civil Service Board, it was the consensus of City Council to proceed with a resolution amendment on August 27, 2013, and develop a functional path moving forward.

**RESOLUTION NO. 13-175 - RESOLUTION APPOINTING MEMBERS TO THE RIVER DISTRICT DESIGN REVIEW COMMITTEE**

Vice-Mayor Manheimer, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the River District Design Review Committee.

The terms of Terry Meek (at large member), Darren Green (owner of property in River District), Esther Cartwright (member of RiverLink Board of Directors), Marty Black (owner of property in River District), Richard Hall (member of RiverLink Board of Directors) and Carleton Collins (design professional) expire on September 1, 2013.

The following individual has applied for the vacancies: Marty Weil.

Councilman Hunt moved to reappoint Darren Green (owner of property in River District), Esther Cartwright (member of RiverLink Board of Directors), Richard Hall (member of RiverLink Board of Directors) and Carleton Collins (design professional) to each serve an additional three-year term, terms to expire September 1, 2016, or until their successors have been appointed; and (2) re-advertise. This motion was seconded by Councilman Davis and carried unanimously.

**VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:**

Mr. Timothy Sadler (1) believed the City should consider filing extortion charges against Rep. Tim Moffitt regarding comments he made regarding the Cultural Park Authority and the Water Lawsuit; and (2) asked for Council to consider the less expensive option of providing Sunday bus service.

Councilman Pelly invited the public to participate in the first Asheville Festival of Neighborhoods on Sunday, October 27, 2013, at 3:00 p.m. in the Wilma Sherrill Center at UNC-Asheville. The purpose of the Festival is to honor and recognize successful neighborhood collaborations and the leaders who make them possible.

**Closed Session**

At 7:09 p.m., Councilman Pelly moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including litigation involving the following parties: State of North Carolina; Metropolitan Sewerage District of Buncombe County; City of Asheville; W&K Hotels, LLC d/b/a Four Points By Sheraton; Hospitality Lodging Investors, II, LP d/b/a Hotel Indigo; Nesbitt Asheville Venture, LLC d/b/a The Renaissance Hotel; City Council of the City of Asheville; and McKibbon Hotel Group, Inc. The statutory authorization is N. C. Gen. Stat. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, conditions of appointment of an individual public officer or employee. The statutory authorization is contained in G.S. 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to G.S. 160A-168, the Personnel Privacy Act. The statutory authorization is contained in G.S. 143-318.11(a)(1). This motion was seconded by Councilman Smith and carried unanimously.

At 8:10 p.m., Councilman Smith moved to come out of closed session. This motion was seconded by Vice-Mayor Manheimer and carried unanimously.

**VIII. ADJOURNMENT:**

Mayor Bellamy adjourned the meeting at 8:10 p.m.
